(b) Postsecondary Education Readiness Test (P.E.R.T.);

(c) Wonderlic Basic Skills Test (WBST), 1994;

(d) Wonderlic General Assessment of Instructional Needs (GAIN), 2007-2008.

(e) 2014 GED® Tests: Reasoning through Language Arts and Mathematical Reasoning where a minimum score of 150 has been attained on each test.

(2) Minimum basic skills grade levels in each career education program description adopted under Rule 6A-6.0571, F.A.C., and published annually in the curriculum frameworks and posted on the Department of Education's website <http://fldoe.org/workforce/dvdframe/>, shall be used to determine basic skills levels required for completion of the career and technical education program.

**Section II
Proposed Rules**

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Division of Aquaculture

RULE NO.: **RULE TITLE:**

5L-1.008 Shellfish Handling

PURPOSE AND EFFECT: The amendments propose to further protect the health of oyster consumers and are necessary to ensure that the State of Florida meets the requirements of the National Shellfish Sanitation Program (NSSP) as it relates to *Vibrio vulnificus*. The proposed rule amendments impact commercial harvesting and processing of oysters.

SUMMARY: The proposed amendments apply to commercial oyster harvesting and processing in Florida in order to protect the health of oyster consumers. Specifically, the proposed amendments implement one set of sequential time limits for the months of April through October by specifying receiving times and temperatures. The proposed rule amendments also remove one cooling option for oyster shellstock. One workshop was held for interested parties in the principal area of oyster industry activity.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rule amendment will reduce the time oyster harvesters can harvest oysters in the months of June through September, the summer harvesting season. The rule provides oyster harvesters with three major requirements, only one of which is expected to impose increased costs on the

private sector. Harvesters choosing the On-Board Cooling option would need to purchase a set of insulated coolers to store ice and harvested oysters, as well as a sizable volume of ice on each day they are actively harvesting. This is expected to result in increased costs to the harvesters, but these costs are entirely dependent on the number of harvesters that adopt the On-Board Cooling Option. Even under an unrealistically high adoption scenario where 100 vessels adopt On-Board Cooling, the annual costs to the private sector are estimated to be \$177,872. Therefore, the direct and indirect cost impact is not expected to have an adverse impact on the economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after implementing of the rule. Additionally, no interested party submitted additional information regarding the economic impact.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NOS.:	RULE TITLES:
59E-7.012	Inpatient Data Reporting Instructions
59E-7.021	Definitions
59E-7.027	Header Record.
59E-7.028	Inpatient Data Elements, Codes and Standards.

PURPOSE AND EFFECT: The agency is proposing this rule amendment to change all ICD-9-CM references to ICD-10-CM and ICD-10-PCS in accordance with Center for Medicare/Medicaid Services (CMS) implementation of ICD-10 national reporting effective October 1, 2015. The amendment incorporates modification to the inpatient schema; Data Type; and External Cause of Injury Code (E-CODE) element name to External Cause of Morbidity Code (ECMORB).

SUMMARY: The agency is proposing amendments to Rules 59E-7.012; 59E-7.021; 59E-7.027; 59E-7.028, F.A.C., which modify inpatient reporting schema; delete all ICD-9 references and modify E-Code element name.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: A checklist was prepared by the Agency to determine the need for a SERC. As there will be no impact on economic growth, job creation or employment, private-sector investment, or business competitiveness and no increase in regulatory costs—no adverse impact is likely.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO. RULE TITLE

11B-20.0014 Minimum Requirements for High-Liability and Specialized Instructor Certifications

NOTICE IS HEREBY GIVEN that on March 31, 2015, the Florida Department of Law Enforcement Criminal Justice Standards and Training Commission received a petition for permanent waiver of subparagraph 11B-20.0014(2)(d)4., F.A.C., from Herlberto A. Fernandez, Director, Institute for Public Safety, Florida Keys Community College, on behalf of Kevin A. Angelilli. Petitioner wishes to retroactively waive from October 15, 2014 through February 16, 2015 that portion of the rule that states a high liability instructor have successfully completed a high-liability internship documented on the Instructor Competency Checklist form CJSTC-81 that is supervised by a certified first aid instructor. Petitioner states that Mr. Angelilli meets all other requirements to be a first aid instructor under Rule 11B-20.0014, F.A.C. Petitioner states that Mr. Angelilli possesses and maintains Instructor Trainer Certification from Emergency First Response in CPR/AED/First Aid-Infant/Child/Adult and Basic Life Support (BLS) Instructor from the American Heart Association; registered with the National Registry of Emergency Medical Technicians as a Paramedic in 2007; possesses an Associate in Applied Science (AAS) degree; and, has been employed full time and part time as Emergency Medical Technician in both West Virginia and Ohio.

Petitioner states that due to a misinterpretation of subparagraph 11B-20.0014(2)(d)4., F.A.C., Mr. Angelilli was hired as an adjunct professor due to his qualifications and if the waiver is not granted a hardship will result for two academy classes, #55 and #57, taught at Florida Keys Community College in which Mr. Angelilli was an instructor. Petitioner states that a strict application of the rule would create an undue hardship and violate principles of fairness on those students who graduated from #55 and #57 in that they would have to return to complete the 40 hour block of instruction. Petitioner states that the purpose of the underlying statute will be or has been achieved by other means.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Linton B. Eason, Assistant General Counsel, Florida Department of Law Enforcement, P.O. Box 1489, Tallahassee, FL 32302 or by telephone: (850)410-7676.
