5J-18.025	Regulation of Bungy Operations

**PURPOSE AND EFFECT:** The proposed rules will update incorporated national standards and department forms; amendments will provide clarification, remove broken references, adopt standards in response to, and in anticipation of, changes within the industry and add courses/seminars to assist with continuing education credits. In addition, changes are being made for compliance with recent statutory changes.

**SUMMARY:** The purpose of this rulemaking is to implement changes to section 616.242, F.S., made during the 2023 Legislative Session. These changes include amending the fair rides forms, amend inspection standards, update signage requirements, update training requirements and modify accident reporting criteria. Additionally, the department proposes to update the latest ASTM standards, add accepted CEU course opportunities, update citations and remove duplications, revise reinspection fees and remove the requirement for maximum fines for default final orders.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE**

**RATIFICATION:** The Agency has determined that this will not have an adverse impact on small business or likely increase

directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or, if no SERC is required, the information expressly relied upon and described herein: The proposed changes will update and adopt materials incorporated by reference and will update material references. According to the department’s economic analysis, the adverse impact or potential regulatory costs of the proposed rules do not exceed any of the criteria established in Section 120.541(2)(a), Florida Statutes. The department relied upon the Fair Rides database and the American Society for Testing and Materials (ASTM) website to determine approximate costs of each standard identified. The department also determined that some regulated entities will not incur any costs due to the proposed rules because the national standards being adopted in Florida are already in use within the industry and have already been adopted in other jurisdictions where the regulated entities have operated. No interested party submitted additional information regarding the economic impact.

Any person who wishes to provide information regarding the statement of estimated regulatory costs or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**RULEMAKING AUTHORITY:** 616.165, 616.242(3)(p), (q), (4), (b), (c), (d), (5), (6), (7), (8), (9), (11)(a)1., (12), (l) (14), (15), (16), (17) FS.

**LAW IMPLEMENTED:** 616.242, (4), (4)(b), (5), (6), (7), (8), (a), (9), (11)(a)1., (12), (j), (l), (15), (16), (17), (19), (21) FS.

**IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FLORIDA ADMINISTRATIVE REGISTER.**

**THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS:** Michelle Faulk, Chief, Bureau of Fair Rides Inspection, 2005 Apalachee Parkway, Tallahassee, FL 32399 (850)410-3820.

The Petition for Variance of Rule 59A-3.243(4)(c) and (6), F.A.C. is granted upon finding that the Petitioner demonstrated that the purpose of the underlying statute will be or has been achieved by other means and that application of the rule to Petitioner would create a substantial hardship or violate principles of fairness.
