(4)(3) For conversions of existing overhead facilities to underground facilities, the utility shall, if the applicant for service is a local government that provides all necessary permits and meets the utility's legal, financial, and operational requirements, place facilities in road rights-of-way in lieu of requiring easements.

(5)(4) Where the expansion, rebuild, or relocation of electric distribution facilities affects existing third-party attachments or the facilities of existing joint users, and will result in the relocation of such facilities to a new location adjacent to a public road, the utility shall notify and attempt in good faith to accommodate concerns raised by third-party attachers and joint users, including input and concerns related to the cost impacts of the proposed relocation on attaching entities. The electric utility shall also, to the extent practical, coordinate the construction of its facilities with the affected third-party attachers and joint users.

(6) Any dispute or challenge related to the implementation of this rule by a customer, applicant for service, or attaching entity shall be resolved by the Commission.

25-6.0342 Electric Infrastructure Storm Hardening.

(1) Application and Scope. This rule is intended to ensure the provision of safe, adequate, and reliable electric transmission and distribution service for operational as well as emergency purposes; require the cost-effective strengthening of critical electric infrastructure to increase the ability of transmission and distribution facilities to withstand extreme weather conditions; and reduce restoration costs and outage times to end-use customers associated with extreme weather conditions. This rule applies to all investor-owned electric utilities.

(2) Storm Hardening Plans. Each utility shall, no later than 90 days after the effective date of this rule, file with the Commission for its approval a detailed storm hardening plan. Each utility's plan shall be updated every 3 years, unless the Commission, on its own motion or on petition by a substantially affected person or utility, initiates a proceeding to review and, if appropriate, modify the plans. In a proceeding to approve a utility's plan, the Commission shall consider whether the utility's plan meets the desired objectives of enhancing reliability and reducing restoration costs and outage times in a prudent, practical, and cost-effective manner to the affected parties.

(3) Contents of Plan: Each utility storm hardening plan shall contain a detailed description of the construction standards, policies, practices, and procedures employed to enhance the reliability of overhead and underground electrical transmission and distribution facilities in conformance with the provisions of this rule. Each filing shall, at a minimum, address the extent to which the utility's storm hardening plan:

(a) Complies, at a minimum, with the National Electric Safety Code (ANSI C-2) [NESC] that is applicable pursuant to subsection 25-6.034(2), F.A.C.

(b) Adopts the extreme wind loading standards specified by Figure 250-2(d) of the 2007 edition of the NESC for the following distribution facilities:

1. New construction;

2. Major planned work, including expansion, rebuild, or relocation of existing facilities, assigned on or after the effective date of this rule; and

3. Critical infrastructure facilities and along major thoroughfares taking into account political and geographical boundaries and other applicable operational considerations.

(c) Is designed to mitigate damage to underground and supporting overhead transmission and distribution facilities due to flooding and storm surges.

(d) Provides for the placement of new and replacement distribution facilities so as to facilitate safe and efficient access for installation and maintenance pursuant to Rule 25-6.0341, F.A.C.

(4) Deployment Strategy: Each utility storm hardening plan shall explain the systematic approach the utility will follow to achieve the desired objectives of enhancing reliability and reducing restoration costs and outage times associated with extreme weather events. The utility's storm hardening plan shall provide a detailed description of its deployment strategy including, but not limited to the following:

(a) A description of the facilities affected; including technical design specifications, construction standards, and construction methodologies employed.

(b) The communities and areas within the utility's service area where the electric infrastructure improvements, including facilities identified by the utility as critical infrastructure and along major thoroughfares pursuant to subparagraph (3)(b)3, are to be made.

(c) The extent to which the electric infrastructure improvements involve joint use facilities on which third-party attachments exist.

(d) An estimate of the costs and benefits to the utility of making the electric infrastructure improvements, including the effect on reducing storm restoration costs and customer outages.

(e) An estimate of the costs and benefits, obtained pursuant to subsection (6) below, to third-party attachers affected by the electric infrastructure improvements, including the effect on reducing storm restoration costs and customer outages realized by the third-party attachers.

(5) Attachment Standards and Procedures: As part of its storm hardening plan, each utility shall maintain written safety, reliability, pole loading capacity, and engineering standards and procedures for attachments by others to the utility's electric transmission and distribution poles (Attachment

Standards and Procedures). The Attachment Standards and Procedures shall meet or exceed the edition of the National Electrical Safety Code (ANSI C-2) that is applicable pursuant to subsection 25-6.034(2), F.A.C., so as to assure, as far as is reasonably practicable, that third-party facilities attached to electric transmission and distribution poles do not impair electric safety, adequacy, or pole reliability; do not exceed pole loading capacity; and are constructed, installed, maintained, and operated in accordance with generally accepted engineering practices for the utility's service territory.

(6) Input from Third-Party Attachers: In establishing its storm hardening plan and Attachment Standards and Procedures, or when updating or modifying such plan or Attachment Standards and Procedures, each utility shall seek input from and attempt in good faith to accommodate concerns raised by other entities with existing agreements to share the use of its electric facilities. Any third-party attacher that wishes to provide input under this subsection shall provide the utility contact information for the person designated to receive communications from the utility.

(7) Dispute Resolution: Any dispute or challenge to a utility's storm hardening plan, construction standards, deployment strategy, Attachment Standards and Procedures, or any projects implementing any of the above by a customer, applicant for service, or attaching entity shall be resolved by the Commission.

(8) Nothing in this rule is intended to conflict with Title 47, United States Code, Section 224, relating to Federal Communications Commission jurisdiction over pole attachments.

**PART IV
GENERAL SERVICE PROVISIONS**

25-6.064 Contribution-in-Aid-of-Construction for Installation of New or Upgraded Facilities.

(1) Application and scope. The purpose of this rule is to establish a uniform procedure by which investor-owned electric utilities calculate amounts due as contributions-in-aid-of-construction (CIAC) from customers who request new facilities or upgraded facilities in order to receive electric service, except as provided in Rule 25-6.078, F.A.C.

(2) Contributions-in-aid-of-construction for new or upgraded overhead facilities (CIAC_{OH}) shall be calculated as follows:

CIAC _{OH}	=	Total estimated work order job cost of installing the facilities	=	Four years expected incremental base energy revenue	=	Four years expected incremental base demand revenue, if applicable
--------------------	---	--	---	---	---	--

(a) The cost of the service drop and meter shall be excluded from the total estimated work order job cost for new overhead facilities.

(b) The net book value and cost of removal, net of the salvage value, for existing facilities shall be included in the total estimated work order job cost for upgrades to those existing facilities.

(c) The expected annual base energy and demand charge revenues shall be estimated for a period ending not more than 5 years after the new or upgraded facilities are placed in service.

(d) In no instance shall the CIAC_{OH} be less than zero.

(3) Contributions-in-aid-of-construction for new or upgraded underground facilities (CIAC_{UG}) shall be calculated as follows:—

CIAC _{UG}	=	CIAC _{OH}	+	Estimated difference between cost of providing the service underground and overhead
--------------------	---	--------------------	---	---

(4) Each utility shall apply the formula in subsections (2) and (3) of this rule uniformly to residential, commercial and industrial customers requesting new or upgraded facilities at any voltage level.

(5) The costs applied to the formula in subsections (2) and (3) shall be based on the requirements of Rule 25-6.0342, F.A.C., Electric Infrastructure Storm Hardening Standards of Construction.

(6) All CIAC calculations under this rule shall be based on estimated work order job costs. In addition, each utility shall use its best judgment in estimating the total amount of annual revenues which the new or upgraded facilities are expected to produce.

(a) A customer may request a review of any CIAC charge within 12 months following the in-service date of the new or upgraded facilities. Upon request, the utility shall true-up the CIAC to reflect the actual costs of construction and actual base revenues received at the time the request is made.

(b) In cases where more customers than the initial applicant are expected to be served by the new or upgraded facilities, the utility shall prorate the total CIAC over the number of end-use customers expected to be served by the new or upgraded facilities within a period not to exceed 3 years, commencing with the in-service date of the new or upgraded facilities. The utility may require a payment equal to the full amount of the CIAC from the initial customer. For the 3-year period following the in-service date, the utility shall collect from those customers a prorated share of the original CIAC amount, and credit that to the initial customer who paid the CIAC. The utility shall file a tariff outlining its policy for the proration of CIAC.

(7) The utility may elect to waive all or any portion of the CIAC for customers, even when a CIAC is found to be applicable. If however, the utility waives a CIAC, the utility shall reduce net plant in service as though the CIAC had been collected, unless the Commission determines that there is a quantifiable benefit to the general body of ratepayers

commensurate with the waived CIAC. Each utility shall maintain records of amounts waived and any subsequent changes that served to offset the CIAC.

(8) A detailed statement of its standard facilities extension and upgrade policies shall be filed by each utility as part of its tariffs. The tariffs shall have uniform application and shall be nondiscriminatory.

(9) If a utility and applicant are unable to agree on the CIAC amount, either party may appeal to the Commission for a review.

PART V

RULES FOR RESIDENTIAL ELECTRIC UNDERGROUND EXTENSIONS

25-6.078 Schedule of Charges.

(1) Each utility shall file with the Commission a written policy that shall become a part of the utility's tariff rules and regulations on the installation of underground facilities in new subdivisions. Such policy shall be subject to review and approval of the Commission and shall include an Estimated Average Cost Differential, if any, and shall state the basis upon which the utility will provide underground service and its method for recovering the difference in cost of an underground system and an equivalent overhead system from the applicant at the time service is extended. The charges to the applicant shall not be more than the estimated difference in cost of an underground system and an equivalent overhead system.

(2) For the purpose of calculating the Estimated Average Cost Differential, cost estimates shall reflect the requirements of Rule 25-6.0342, Electric Infrastructure Storm Hardening Standards of Construction.

(3) On or before October 15 of each year each utility shall file with the Commission's Division of Economic Regulation Form PSC/ECR 13-E, Schedule 1, using current material and labor costs. If the cost differential as calculated in Schedule 1 varies from the Commission-approved differential by plus or minus 10 percent or more, the utility shall file a written policy and supporting data and analyses as prescribed in subsections (1), (4) and (5) of this rule on or before April 1 of the following year; however, each utility shall file a written policy and supporting data and analyses at least once every 3 years.

(4) Differences in Net Present Value of operational costs, including average historical storm restoration costs over the life of the facilities, between underground and overhead systems, if any, shall be taken into consideration in determining the overall Estimated Average Cost Differential. Each utility shall establish sufficient record keeping and accounting measures to separately identify operational costs for underground and overhead facilities, including storm related costs.

(5) Detailed supporting data and analyses used to determine the Estimated Average Cost Differential for underground and overhead distribution systems shall be concurrently filed by the utility with the Commission and shall be updated using cost data developed from the most recent 12-month period. The utility shall record these data and analyses on Form PSC/ECR 13-E (10/97). Form PSC/ECR 13-E, entitled "Overhead/Underground Residential Differential Cost Data" is incorporated by reference into this rule and may be obtained from the Division of Economic Regulation, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, (850)413-6900.

(6) Service for a new multiple-occupancy building shall be constructed underground within the property to be served to the point of delivery at or near the building by the utility at no charge to the applicant, provided the utility is free to construct its service extension or extensions in the most economical manner.

(7) The recovery of the cost differential as filed by the utility and approved by the Commission may not be waived or refunded unless it is mutually agreed by the applicant and the utility that the applicant will perform certain work as defined in the utility's tariff, in which case the applicant shall receive a credit. Provision for the credit shall be set forth in the utility's tariff rules and regulations, and shall be no more in amount than the total charges applicable.

(8) The difference in cost as determined by the utility in accordance with its tariff shall be based on full use of the subdivision for building lots or multiple-occupancy buildings. If any given subdivision is designed to include large open areas, the utility or the applicant may refer the matter to the Commission for a special ruling as provided under Rule 25-6.083, F.A.C.

(9) The utility shall not be obligated to install any facilities within a subdivision until satisfactory arrangements for the construction of facilities and payment of applicable charges, if any, have been completed between the applicant and the utility by written agreement. A standard agreement form shall be filed with the company's tariff.

(10) Nothing in this rule shall be construed to prevent any utility from waiving all or any portion of a cost differential for providing underground facilities. If, however, the utility waives the differential, the utility shall reduce net plant in service as though the differential had been collected unless the Commission determines that there is a quantifiable benefit to the general body of ratepayers commensurate with the waived differential.

PART VII

UNDERGROUND ELECTRIC DISTRIBUTION FACILITY CHARGES

25-6.115 Facility Charges for Conversion of Existing Overhead Investor-owned Distribution Facilities.

(1) Each investor-owned shall file a tariff showing the non-refundable deposit amounts for standard applications addressing the conversion of existing overhead electric distribution facilities to underground facilities. The tariff shall include the general provisions and terms under which the public utility and applicant may enter into a contract for the purpose of converting existing overhead facilities to underground facilities. The non-refundable deposit amounts shall be calculated in the same manner as the engineering costs for underground facilities serving each of the following scenarios: urban commercial, urban residential, rural residential, existing low-density single family home subdivision and existing high-density single family home subdivision service areas.

(2) For purposes of this rule, the applicant is the person or entity requesting the conversion of existing overhead electric distribution facilities to underground facilities. In the instance where a local ordinance requires developers to install underground facilities, the developer who actually requests the construction for a specific location is deemed the applicant for purposes of this rule.

(3) Nothing in the tariff shall present the applicant from constructing and installing all or a portion of the underground distribution facilities provided:

(a) Such work meets the investor-owned utility's construction standards;

(b) The investor-owned utility will own and maintain the completed distribution facilities; and

(c) Such agreement is not expected to cause the general body of ratepayers to incur additional costs.

(4) Nothing in the tariff shall prevent the applicant from requesting a non-binding cost estimate which shall be provided to the applicant free of any charge or fee.

(5) Upon an applicant's request and payment of the deposit amount, an investor-owned utility shall provide a binding cost estimate for providing underground electric service.

(6) An applicant shall have at least 180 days from the date the estimate is received to enter into a contract with the public utility based on the binding cost estimate. The deposit amount shall be used to reduce the charge as indicated in subsection (7) only when the applicant enters into a contract with the public utility within 180 days from the date the estimate is received by the applicant, unless this period is extended by mutual agreement of the applicant and the utility.

(7) The charge paid by the applicant shall be the charge for the proposed underground facilities as indicated in subsection (8) minus the charge for overhead facilities as indicated in

subsection (9) minus the non-refundable deposit amount. The applicant shall not be required to pay an additional amount which exceeds 10 percent of the binding cost estimate.

(8) For the purpose of this rule, the charge for the proposed underground facilities shall include:

(a) The estimated cost of construction of the underground distribution facilities based on the requirements of Rule 25-6.0342, F.A.C., Electric Infrastructure Storm Hardening Standards of Construction, including the construction cost of the underground service lateral(s) to the meter(s) of the customer(s); and

(b) The estimated remaining net book value of the existing facilities to be removed less the estimated net salvage value of the facilities to be removed.

(9) For the purpose of this rule, the charge for overhead facilities shall be the estimated construction cost to build new overhead facilities, including the service drop(s) to the meter(s) of the customer(s). Estimated construction costs shall be based on the requirements of Rule 25-6.0342, F.A.C., Electric Infrastructure Storm Hardening Standards of Construction.

(10) An applicant requesting construction of underground distribution facilities under this rule may challenge the utility's cost estimates pursuant to Rule 25-22.032, F.A.C.

(11) For purposes of computing the charges required in subsections (8) and (9):

(a) The utility shall include the Net Present Value of operational costs including the average historical storm restoration costs for comparable facilities over the expected life of the facilities.

(b) If the applicant chooses to construct or install all or a part of the requested facilities, all utility costs, including overhead assignments, avoided by the utility due to the applicant assuming responsibility for construction shall be excluded from the costs charged to the customer, or if the full cost has already been paid, credited to the customer. At no time will the costs to the customer be less than zero.

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made in accordance with subparagraph 120.54(3)(d)1., F.S. to the proposed rule, published in Vol. 31, No. 11 of the March 18, 2005 issue of the Florida Administrative Weekly. The changes reflect additional amendments to the proposed rule that have been made since a Notice of Change was published in Vol. 32, No. 22 of the June 2, 2006 issue of the Florida Administrative Weekly. These additional changes were made to address concerns expressed by the Joint Administrative Procedure Committee, and to delete unnecessary duplicate language. The additional changes were approved by the Board at its November 30, 2006 meeting. After the changes are made to the affected parts of the rule, those parts of the rule will read as follows:

Subsection (2) of Rule 64B9-17.001 will now read as follows:

(2) The purpose of this rule is to protect the public by ensuring that competent registered nurses administer conscious sedation and deep sedation. The rule sets out the education and/or competency verification necessary to administer medications for conscious sedation and deep sedation under specific conditions. Pursuant to Section 464.018(1)(h), F.S., the act of administering medications for conscious sedation by a registered nurse without the education and verification of competency outlined in these ~~this~~ rules would constitute unprofessional conduct and would also be a violation of Section 464.018(1)(j) and (n), F.S. Further, this rule is beyond the scope of practice for the licensed practical nurse or the tasks allowed for unlicensed assistive personnel. The administration of medications via any route for the purpose of general anesthesia or medications that the manufacturer package insert indicates should be administered only by persons trained in the administration of anesthesia is not within the scope of registered nursing or licensed practical nursing practice.

Subsection (1) of Rule 64B9-17.003 will now read as follows:

(1) A registered nurse may administer medications to achieve conscious sedation during therapeutic, diagnostic, or surgical procedures; provided the registered nurse has completed the knowledge, education and competency requirements in this rule, and may manage patients who are receiving and recovering from conscious sedation.

Paragraph (1)(c) of Rule 64B9-17.003 will now read as follows:

(c) The registered nurse must have successfully completed a minimum of eight hours of education or training program in conscious sedation ~~developed by the institution or by an approved continuing education provider~~. The content of that education or training program must, at a minimum, ~~be eight hours in length, include instruction contain information~~ on the definitions, knowledge, education and competency requirements and scope of practice set forth in this rule, including the continuum of levels of sedation; ~~and~~ on drugs used during conscious sedation, including reversal agents, their actions, side-effects and untoward effects, and any manufacturer package insert; and assessment and monitoring of the patient receiving the medication. The education or training program must also include instruction on ~~address~~ recognition of emergency situations; ~~institution of appropriate nursing interventions;~~ and evaluation of physiologic measurements, such as respiratory rate, oxygen saturation, blood pressure, cardiac rate and rhythm, and the patient’s level of consciousness. An educational or training program developed by the employing institution or an approved continuing education provider that meets the requirements of this rule may be used to demonstrate appropriate competency.

Subsection (2) of Rule 64B9-17.003 will now read as follows:

(2) In a hospice program, a registered nurse may administer medications to achieve conscious sedation for palliative care and may manage patients who are receiving conscious sedation, provided the registered nurse has completed the knowledge, education and competency requirements and adheres to the scope of practice provisions in this rule, and the hospice program meets the requirements of subsections (1)(i) and (j) of this rule, and may manage patients who are receiving conscious sedation.

~~(a) The registered nurse administers medications only in dosages titrated to achieve conscious sedation for palliative care.~~

~~(b) The registered nurse must have successfully completed a program in conscious sedation developed by the institution or by an approved continuing education provider. The content of that program must, at a minimum, be four hours in length, contain information on the definitions, knowledge, education and competency requirements in this rule, including the continuum of levels of sedation, and on drugs used during conscious sedation, including reversal agents, their actions, side effects and untoward effects, manufacturer package insert, and assessment and monitoring of the patient receiving the medication. The program shall be appropriate to palliative care and must also address recognition of emergency situations, institution of appropriate nursing interventions, and evaluation of physiologic measurements, such as respiratory rate, oxygen saturation, blood pressure, cardiac rate and rhythm, and the patient's level of consciousness.~~

~~(c) The registered nurse administers medications to achieve conscious sedation by executing the order of a qualified anesthesia provider or physician licensed under Chapter 458 or 459, F.S. Although the determination of medical dosage and the patient's medical status is a medical decision, the registered nurse has the right and the obligation to question orders and decisions which are contrary to acceptable standards of nursing practice, to refuse to participate in procedures which may result in harm to the patient, and to refuse to administer or continue to administer medications in amounts that may induce general anesthesia or that may lead to respiratory or cardiovascular compromise.~~

~~(d) The institution must have written protocols in place to include, but not be limited to: drug administration, location and availability of manufacturer package inserts for medication to be used in conscious sedation, and availability of a physician. These protocols must be reviewed at frequent intervals to assure that they are within current and accepted standards of practice. The frequency of review should be consistent with review of other policies in the institution or practice setting.~~

~~(e) The institution must have a mechanism for determining and documenting education/training, clinical competency, and a process for documenting the individual's demonstration of knowledge, skills, and ability related to management of patients during conscious sedation. Both evaluation and~~

~~documentation of competence shall be done on an annual basis and within current and expected standards of nursing practice and within parameters established in manufacturer package inserts for medications used for conscious sedation.~~

Emergency Rules**

DEPARTMENT OF REVENUE

Miscellaneous Tax

RULE NOS.:	RULE TITLES:
12BER06-6	Scope; Definitions; Index Price
12BER06-7	Imposition of the Gross Receipts Tax
12BER06-8	Registration for Gross Receipts Tax Purposes
12BER06-9	Payment of Gross Receipts Tax; Reports

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: Chapter 2005-148, Laws of Florida, authorizes the Department of Revenue to promulgate emergency rules, and to renew such rules, to implement the provisions of that law. The promulgation of these emergency rules ensures that the appropriate procedures and forms are available for reporting and remitting gross receipts tax on utility service.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: The Legislature expressly authorized the promulgation of emergency rules, and the renewal of such rules, to ensure the prompt availability of procedures taxpayers can follow to comply with Chapter 203, F.S. (as amended by Chapter 2005-148, Laws of Florida). The Department of Revenue previously sought comment on these emergency rules to the extent possible within the time restraints resulting from the statutory requirements. The preliminary text of proposed rules regarding the imposition of the gross receipts tax on utility services was posted on the Department of Revenue web site. A rule development workshop was held on November 16, 2005, to receive public comments regarding the preliminary text. The public comments received were considered by the Department in preparation of these emergency rules.

SUMMARY: Emergency Rule 12BER06-6 (Scope; Definitions; Index Price): (1) provides that Emergency Rules 12BER06-6 through 12BER06-9 apply to the tax imposed under Chapter 203, F.S., on utility services delivered to a retail consumer in Florida; (2) defines the terms “cost price,” “distribution company,” “Department,” “electricity index price,” “gas index price,” “gross receipts,” “utility services,” and “person” for purposes of Emergency Rules 12BER06-6 through 12BER06-9; (3) provides that the gross receipts tax imposed on certain utility services delivered to a retail consumer in Florida is based on an index price; (4) provides

how the Department will announce the annual index prices for electricity and for natural and manufactured gas; and (5) provides that the index price applies to electricity only if the transportation of the electricity is sold independent of the sale of the electricity itself.

Emergency Rule 12BER06-7. (Imposition of the Gross Receipts Tax), provides: (1) that the 2.5 percent gross receipts tax is imposed on distribution companies' gross receipts from the privilege of selling and transporting natural or manufactured gas to retail consumers in Florida; (2) how the tax is computed based on the index price; (3) that the sale or transportation of natural or manufactured gas to public or private utilities for use as a fuel in the generation of electricity or for resale is not subject to tax; (4) that the sale or transportation of natural or manufactured gas to persons eligible for an exemption under Section 212.08(7)(ff)2., F.S., for use as an energy source or a raw material is not subject to tax and guidelines on how to document such sales; (5) that the 2.5 percent gross receipts tax is imposed on distribution companies' gross receipts from the privilege of selling and transporting electricity to retail consumers in Florida and how the tax is to be calculated; (6) that the tax does not apply to receipts from customers for purposes of resale; (7) that receipts from separately itemized charges for the connection, disconnection, suspension, or restoration of utility services are not subject to tax; (8) that receipts from separately itemized fees for returned checks, late payments, and interest due on late payments are not subject to the gross receipts tax; (9) that receipts from separately itemized charges for the sale, lease, rental, repair, or maintenance of customer premises equipment are not subject to gross receipts tax; (10) guidelines on how gross receipts tax is applied to charges for utility services separately itemized to customers as an amount for services based on a standard rate amount with a separate rate adjustment; (11) that each and every fee imposed by a political subdivision of the State of Florida that is passed on to the customer as a separately itemized charge is included in the gross receipts subject to tax; (12) that any municipal public service tax and any sales tax separately itemized to the customer is not included in the gross receipts subject to tax; (13) that the sale or delivery of electricity as part of an electric interchange agreement or contract between utilities is not subject to tax and guidelines on how to document such sale or delivery; (14) that wholesale sales of electric transmission services and the loss of electricity from the generation, transmission, or distribution of electricity is not subject to tax; (15) guidelines regarding any separately itemized charge for gross receipts tax on a customer's bill, invoice, statement, or other evidence of sale; (16) guidelines on the imposition of tax on natural or manufactured gas imported into Florida for which the Florida gross receipts tax has not been paid; (17) guidelines on how to document sales of utility services for purposes of resale; and (18) recordkeeping requirements for taxpayers who sell or deliver utility services.

Emergency Rule 12BER06-8. (Registration for Gross Receipts Tax Purposes), provides: (1) that prior to engaging in the business of selling, transporting, delivering, or importing utility services in Florida, every person is required to register with the Department; and (2) guidelines on how to register with the Department.

Emergency Rule 12BER06-9. (Payment of Gross Receipts Tax; Reports): (1) provides guidelines on the how to report and remit to the Department the gross receipts tax imposed on utility services; (2) provides guidelines for when taxpayers may elect to pay the gross receipts tax on total billings for electricity each month or on the actual gross receipts for electricity received in that month; and (3) provides that persons engaged in the transportation of natural or manufactured gas must provide the Department with a list of customers to whom transportation services were provided in the prior year or post such a list on a publicly-accessible Internet web site.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Robert Babin, Deputy Director, Technical Assistance and Dispute Resolution, Department of Revenue, P. O. Box 7443, Tallahassee, Florida 32314-7443, telephone (850)922-4842

THE FULL TEXT OF THE EMERGENCY RULE IS:

12BER06-6 Scope; Definitions; Index Price.

(1) SCOPE. Emergency Rules 12BER06-6 through 12BER06-9, apply to the tax imposed by Chapter 203, F.S., on utility services delivered to a retail consumer in Florida. Where any conflicting language exists between Emergency Rules 12BER06-6 through 12BER06-9 and Rules 12B-6.001, 12B-6.0021, and 12B-6.005, F.A.C., the provisions of these emergency rules are controlling.

(2) DEFINITIONS. For purposes of Rules 12BER06-6 through 12BER06-9:

(a) "Cost price" means the actual cost of articles of tangible personal property without any deductions therefrom on account of the cost of materials used, labor or service costs, transportation charges, or any expenses whatsoever.

(b) "Distribution company" means any person owning or operating local electric, or natural or manufactured gas, utility distribution facilities within this state for the transmission, delivery, and sale of electricity or natural or manufactured gas. The term does not include natural gas transmission companies that are subject to the jurisdiction of the Federal Energy Regulatory Commission.

(c) "Department" means the Florida Department of Revenue.

(d) "Electricity index price" means the applicable residential, industrial, or commercial price per kilowatt hour for retail consumers in Florida in the previous calendar year, as published in the United States Energy Information Administration Electric Power Monthly.

(e) “Gas index price” means the applicable residential, industrial, or commercial price per 1,000 cubic feet for retail consumers in Florida in the previous calendar year, as published in the United States Energy Information Administration Natural Gas Monthly.

(f) “Gross receipts” means the total payments received in money, goods, services, or other consideration.

(g) “Person” includes any individual, firm, copartnership, joint adventure, association, corporation, estate, trust, business trust, receiver, syndicate, or other group or combination acting as a unit and also includes any political subdivision, municipality, state agency, bureau, or department and includes the plural as well as the singular number.

(h) “Utility services” means electricity for light, heat, or power; and natural or manufactured gas for light, heat, or power, including transportation, delivery, transmission, and distribution of the electricity or natural or manufactured gas. This paragraph does not broaden the definition of utility service to include separately stated charges for tangible personal property or services which are not charges for the electricity or natural or manufactured gas or the transportation, delivery, transmission, or distribution of electricity or natural or manufactured gas. Liquefied petroleum gas is sold in liquid form and transformed into gas when released from the container to be used for fuel. The term “utility services” does not include liquefied petroleum gas.

(3) INDEX PRICE. The calculation of the tax imposed on certain utility services delivered to a retail consumer in Florida is based on an index price.

(a) The Department will announce the residential, commercial, and industrial index prices for electricity and for natural and manufactured gas on June 1 of each year through issuance of a Taxpayer Information Publication and by posting the rates on the Department’s Internet web site located on the Internet at www.myflorida.com/dor/taxes. The index prices announced by the Department on June 1 will be effective from the following July 1 through June 30, and will apply to any bill dated on or after July 1 in the year in which the change becomes effective. The index prices effective July 1, 2006, through June 30, 2007, have been announced by the Department in Tax Information Publication 06B06-01 and apply to any bill dated on or after July 1, 2006, until the new index prices become effective on July 1, 2007.

(b) The index prices for electricity only apply if the transportation of electricity is sold independent of the sale of the electricity itself. If electricity is sold to a retail consumer in Florida for a price that includes both a charge for the electricity and a charge for the transportation of the electricity, the tax imposed by Chapter 203, F.S., is calculated by using the distribution company’s gross receipts, rather than through use of an index price.

(c) When the calculation of the tax imposed on utility services delivered to a retail consumer in Florida requires the use of an index price, the distribution company must use a reasonable methodology to apply the residential, commercial, and industrial classifications to its existing rate structure.

This rule shall take effect on January 1, 2007.

Specific Authority s. 3, Ch. 2005-148, L.O.F. Law Implemented 203.01, 203.012 FS. History—New 1-1-07.

12BER06-7 Imposition of the Gross Receipts Tax.

(1) NATURAL OR MANUFACTURED GAS.

(a) A tax is imposed at the rate of 2.5 percent on distribution companies’ gross receipts from the privilege of selling or transporting natural or manufactured gas to a retail consumer in this state. The gross receipts tax on the sale or transportation of natural or manufactured gas is calculated as follows: (number of cubic feet of gas sold or transported) ÷ 1,000 × (the applicable gas index price) × (2.5 percent).

(b) The tax implemented in paragraph (1)(a) does not apply to:

1. The sale or transportation of natural or manufactured gas to a public or private utility, including a municipal corporation, or agency thereof, or rural electric cooperative association for use as a fuel in the generation of electricity;

2. Subject to the documentation requirements outlined in subsection (5), the sale or transportation of natural or manufactured gas to a public or private utility, including a municipal corporation or agency thereof, or rural electric cooperative association for resale;

3. The sale or transportation to, or use of, natural or manufactured gas by any person eligible for an exemption under Section 212.08(7)(ff)2., F.S., for use as an energy source or a raw material. Possession by a seller of natural or manufactured gas or by any person providing transportation or delivery of natural or manufactured gas of a written certification by the purchaser relieves the seller or person providing transportation or delivery from the responsibility of remitting tax on the nontaxable amounts, and the Department shall look solely to the purchaser for recovery of such tax if the Department determines that the purchaser was not entitled to the exclusion. The certification must include an acknowledgment by the purchaser that it will be liable for tax pursuant to Section 203.01(1)(f), F.S., if the requirements for exclusion are not met. The following is a suggested format of an exemption certificate to be issued by a manufacturer to a natural or manufactured gas distribution company:

CERTIFICATION

A PERSON ELIGIBLE FOR EXEMPTION UNDER
INDUSTRIAL CLASSIFICATIONS IN SECTION
212.08(7)(ff)2., F.S.

This is to certify that I have purchased natural or manufactured gas for use as an energy source or raw material that is excluded from tax pursuant to Section 203.01(3)(d), Florida Statutes.

I certify that the applicable purchases were made by a company whose four-digit SIC Industry Number, as listed below, is classified under SIC Industry Major Group Number 10, 12 through 14, 20, or 22 through 39 or Group Number 212 in the Standard Industrial Classification (SIC) Manual, 1987, published by the Office of Management and Budget.

I acknowledge that I will be liable for tax pursuant to Section 203.01(1)(f), Florida Statutes, if the requirements for exclusion pursuant to Section 203.01(3)(d), F.S., are not satisfied.

I understand that if such purchases of natural or manufactured gas do not qualify for the exclusion as indicated on this certification, I must pay the applicable tax directly to the Department of Revenue.

Under penalties of perjury, I declare that I have read the foregoing certificate and the facts stated herein are true.

(2) ELECTRICITY.

(a) A tax is imposed at the rate of 2.5 percent on a distribution company's gross receipts from the privilege of selling electricity that is delivered to a retail consumer in this state when the charge to the consumer includes charges for both the electricity and the transportation of the electricity. Tax imposed pursuant to this subparagraph is calculated by multiplying the distribution company's gross receipts by 2.5 percent.

1. The tax implemented in paragraph (2)(a) does not apply to:

a. Receipts from customers for separately itemized charges for the connection, disconnection, suspension, or restoration of electricity;

b. Receipts from customers for separately itemized charges for returned checks or other forms of payment, late payments, or interest due on late payments;

c. Receipts from customers for separately itemized charges for the sale, lease, rental, repair, or maintenance of customer premises equipment;

2.a. When charges for utility services are separately itemized as an amount for services based on a standard rate amount with a separate rate adjustment on the same billing,

invoice, statement, or other evidence of sale for services, gross receipts tax is due on the receipts for utility services after the application of the rate adjustment.

b. Example: A customer purchases electricity from an electric utility under an energy management program. The customer is billed the standard residential rate. In addition, the customer receives load management monthly credits for allowing specified electrical equipment to be interrupted at the option of the electric utility. The charge for electric service after the load management credits are applied against the charge at the standard residential rate is the amount subject to the gross receipts tax.

c. Example: A customer purchases electricity from an electric utility at the standard residential service rate. The electric utility charges each residential customer in this rate class an additional energy cost recovery factor, called "energy charges," on a per kilowatt hour basis. The customer is billed for electricity at the standard residential rate, plus the applicable energy charges. The amount charged to the customer at the standard residential rate, plus the amount of the energy charges, is the amount subject to the gross receipts tax.

3. Each and every fee imposed by a political subdivision of the State of Florida on the distribution company, such as a franchise fee, is included in the charge upon which the gross receipts tax is computed, when the fees are passed on to the customer and separately itemized on a customer's bill, invoice, statement, or other evidence of sale.

4. Any municipal public service tax imposed under Section 166.231 or 166.232, F.S., or any sales tax imposed under Chapter 212, F.S., on the sale or purchase of electric power or energy is not included in the charge upon which the gross receipts tax is computed when the municipal tax or sales tax is separately itemized on a customer's bill, invoice, statement, or other evidence of sale.

(b) Each distribution company that receives payment for the delivery of electricity to a retail consumer in this state is subject to tax on the exercise of this privilege as provided by this paragraph, unless the payment is subject to tax under paragraph (a). Under this paragraph, the gross receipts tax on the delivery of electricity is calculated as follows: (number of kilowatt hours delivered) × (the applicable electricity index price) × (2.5 percent).

(c) The tax implemented in paragraphs (2)(a) and (b) does not apply to:

1. The sale or delivery of electricity to a public or private utility, including a municipal corporation or agency thereof, or rural electric cooperative association, for resale subject to the documentation requirements outlined in subsection (5);

2. The sale or delivery of electricity to a public or private utility, including a municipal corporation or agency thereof, or rural electric cooperative association, as part of an electric

interchange agreement or contract between such utilities for the purpose of transferring more economically generated power.

a. The electric utility is required to maintain a copy of the agreement or contract in its books and records and is not required to meet the provisions of this rule regarding sales for resale.

b. The internal use, including interdepartmental transfers, of the purchased power is not subject to tax.

3. Wholesale sales of electric transmission service.

4. The loss of electricity resulting from the generation, transmission, or distribution of electricity, including line losses, generation losses, and any other losses for which charges are not made to the electric utility's customers.

(3) SEPARATELY ITEMIZED CHARGES. A distribution company may wholly or partially separately itemize the gross receipts tax on the customer's bill, invoice, statement, or other evidence of sale. However, the gross receipts tax is imposed on the privilege of doing business, and it is an item of cost to the distribution company. The distribution company remains fully and completely liable for the payment of the tax, even when the tax is wholly or partially separately itemized on the customer's bill, invoice, statement, or other evidence of sale. When the tax is wholly or partially separately itemized, every person, including governmental units and charitable and religious organizations, is liable for the payment of the tax to the distribution company.

(4) USE TAX.

(a) Gross receipts tax is levied upon a person's cost price of electricity, or natural or manufactured gas, imported into this state or severed within this state for the person's own use or consumption as a substitute for purchasing utility, transportation, or delivery services taxable under Chapter 203, F.S., and who cannot demonstrate payment of the tax imposed by Chapter 203, F.S. The tax implemented pursuant to this paragraph is calculated by multiplying the cost price of the utility service by 2.5 percent.

(b) The tax implemented pursuant to paragraph (4)(a) does not apply to:

1. The use of natural gas in the production of oil or gas, or the use of natural or manufactured gas by a person transporting natural or manufactured gas, when used and consumed in providing such services;

2. The use of natural gas or manufactured gas by a person eligible for an exemption under Section 212.08(7)(ff)2., F.S., for use as an energy source or a raw material; or

3. The loss of electricity resulting from the generation, transmission, or distribution of electricity, including line losses, generation losses, and any other losses for which charges are not made to the electric utility's customers.

(5) SALES FOR RESALE. The sale, transportation, or delivery of utility services for resale is only exempt from the tax imposed under Chapter 203, F.S., if the sale, transportation,

or delivery is documented in strict compliance with this rule. Distribution companies must document sales for resale by obtaining resale certificates from customers who purchase transportation, delivery, or utility services for the purposes of resale. The distribution company is only required to obtain one certificate for sales made for the purposes of resale from each customer making purchases for the purposes of resale. The certificate must contain the purchaser's name and address, the purchaser's gross receipts tax registration number and its effective date, a statement that the purchases are for the purpose of resale, the signature of the purchaser or an authorized representative of the purchaser, and the date of issuance. The following is a suggested format of a resale certificate:

RESALE CERTIFICATE FOR GROSS RECEIPTS TAX ON UTILITY SERVICES

This is to certify that the electricity for light, heat, or power or the natural or manufactured gas for light, heat, or power purchased after (date) from (seller's name) is purchased for the purpose of resale pursuant to Chapter 203, F.S.

I understand that if I fraudulently issue this certificate to evade the payment of gross receipts tax I will be liable for payment of the tax directly to the Department of Revenue and subject to the penalties imposed under Section 203.03(2), F.S.

I understand that I must disclose to the seller, or remit tax on, any purchase not for resale when tax was not paid to the seller and/or distribution company.

Under penalties of perjury, I declare that I have read the foregoing certificate and the facts stated herein are true.

(6) RECORDKEEPING REQUIREMENTS. Distribution companies that sell, transport, or deliver utility services to retail consumers in Florida and taxpayers that import utility services into Florida for their own use must maintain electrical interchange agreements or contracts, resale certificates, exemption certificates, and other documentation required under the provisions of this rule chapter in their books and records until tax imposed under Chapter 203, F.S., may no longer be determined and assessed under Section 95.091, F.S. Electronic storage of required documentation through the use of imaging, microfiche, or other electric storage media will satisfy compliance with recordkeeping requirements.

This rule shall take effect on January 1, 2007.

Specific Authority s. 3, Ch. 2005-148, L.O.F. Law Implemented 203.01, 213.37 FS. History—New 1-1-07.

12BER06-8 Registration for Gross Receipts Tax Purposes.

(1) Prior to engaging in the business of selling, transporting, delivering, or importing utility services, every person, distribution company, or other entity upon which the gross receipts tax is imposed is required to register with the Department.

(2) Registration with the Department for gross receipts tax purposes is available by using one of the following methods:

(a) Registering through the Department's "e-Services" system located on the Department's Internet site at www.myflorida.com/dor;

(b) Filing an Application to Collect and/or Report Tax in Florida (R. 01/06) (Form DR-1, incorporated by reference in Rule 12A-1.097, F.A.C.), with the Department as indicated on the form. This rule shall take effect on January 1, 2007.

Specific Authority s. 3, Ch. 2005-148, L.O.F. Law Implemented 203.01 FS. History—New 1-1-07.

12BER06-9 Payment of Gross Receipts Tax; Reports.

(1)(a) Except as provided in Rule Chapter 12-24, F.A.C., and paragraph (c) below, all taxes imposed on utility services are due to the Department on or before the last day of the month following the date of the sale or transaction. The payment and return must either reach the Department or be postmarked on or before the last day of the month for receipts for utility services received in the preceding calendar month for a taxpayer to avoid penalty and interest for late filing. When the last day of the month falls on a Saturday, Sunday, or a legal holiday, payments accompanied by returns will be accepted as timely if postmarked or delivered to the Department on the next succeeding day that is not a Saturday, a Sunday, or a legal holiday. A tax return is required to be filed on or before the last day of each month even when no tax is due. The report is required to be signed by an officer or a representative duly authorized to act by the taxpayer. For this purpose, a legal holiday means a holiday that is observed by federal or state agencies as a legal holiday as this term is defined in Chapter 683, F.S., and Section 7503 of the 1986 Internal Revenue Code, as amended. A "legal holiday"

pursuant to Section 7503 of the Internal Revenue Code of 1986, as amended, means a legal holiday in the District of Columbia or a statewide legal holiday at a location outside the District of Columbia but within an internal revenue district.

(b) Form DR-133, Gross Receipts Tax Return (R. 01/06, hereby incorporated by reference), is the return to be used to report the gross receipts tax imposed on utility services. Copies of this form are available, without cost, by one or more of the following methods: 1) downloading selected forms from the Department's Internet site at www.myflorida.com/dor; or, 2) faxing a forms request to the Distribution Center at (850)922-2208; or, 3) calling the Distribution Center at (850)488-8422; or, 4) writing the Florida Department of Revenue, Distribution Center, 168A Blountstown Highway, Tallahassee, Florida 32304; or, 5) visiting any local Department of Revenue Service Center to personally obtain a copy. Persons with hearing or speech impairments may call the Department's TDD at (800)367-8331.

(c) When quarterly, semiannual, or annual reporting is authorized by the Department pursuant to Section 203.01(1)(j), F.S., the tax is due on or before the last day of the month following the authorized reporting period and becomes delinquent on the first day of the next succeeding month.

(d) Payments and returns for reporting tax must be submitted to the Department, as provided in Rule Chapter 12-24, F.A.C., when:

1. Payment of the tax is required to be made by electronic means;

2. Any return for reporting tax is required to be submitted by electronic means; or

3. No tax is due with a return for reporting tax.

(e)1. For taxes implemented pursuant to paragraph (2)(a) of Rule 12BER06-7, the taxpayer may elect to pay the gross receipts tax on total billings for electricity for each month or on the actual gross receipts for electricity received in that month.

2. When the taxpayer elects to pay gross receipts tax on total billings for electricity, the taxpayer may take a credit for net uncollectibles for which gross receipts tax has been previously paid to the Department. The credit must be reported on the provider's return in accordance with the timing provisions of Section 215.26(2), F.S.

3. In lieu of a credit for net uncollectibles, the taxpayer may seek a refund of tax previously paid by filing an Application for Refund (R. 07/06) (Form DR-26, hereby incorporated by reference) with the Department. The application for refund must be filed in accordance with the timing provisions of Section 215.26(2), F.S., and must meet the requirements of Sections 213.255(2) and (3), F.S., and Rule 12-26.003, F.A.C.

4. Form DR-26, Application for Refund, must be filed with the Department within 3 years after the date the tax was paid. Credits for tax paid must be reported on the provider's return within 3 years after the date the tax was paid.

(2) Persons who engage in the transportation of natural or manufactured gas must provide the Department with a list of customers to whom transportation services were provided in the prior year. A person may satisfy the customer-reporting requirement by: 1) providing a written list of customers to the Department; or 2) maintaining a publicly-accessible customer list on the person's Internet web site. The person must provide the written list of customers or the Internet address of the publicly-accessible Internet web site by January 31 of each year to GTA Miscellaneous Tax Coordinator, c/o GTA Program Director, Florida Department of Revenue, 5050 W. Tennessee Street, Bldg D-1, Tallahassee, Florida 32399-0100. Persons who choose to satisfy the customer-reporting requirement by posting a list of customers on a publicly-accessible Internet web site must update the list by January 31 of each year. This reporting requirement does not apply to distribution companies. Any person required to furnish such a list may elect to identify only those customers who take direct delivery without purchasing interconnection services from a distribution company.

This rule shall take effect on January 1, 2007.

NOTICE IS HEREBY GIVEN that on December 4, 2006, the Board of Accountancy has issued an order.

The order is regarding the Petition for Waiver or Variance, filed on June 30, 2006, by Vickie L. Bebout. The Notice of Petition for Waiver or Variance was published in the F.A.W., Vol. 32, No. 29, of the July 21, 2006 issue. The Petitioner sought a waiver or variance of subsection 61H1-28.0052(4), F.A.C., entitled "Number of Sittings, and Granting of Credit, Release of Grades and Completion of Examination, Transition Rules" with regard to allowing an extension of time for passing all four sections of the CPA examination. The Board considered the instant Petition at a duly-noticed public meeting, held September 15, 2006, in Tampa, Florida. The Board's Order granted the petition finding that Petitioner established that the purpose of the underlying statute, Section 473.306, Florida Statutes, would be met by granting a variance or waiver from subsection 61H1-28.0052(4), F.A.C. The Board further found that Petitioner had established that applying the requirements of the aforementioned Rule to her circumstances would violate principles of fairness and impose substantial hardship.

A copy of the Order may be obtained by contacting: Veloria Kelly, Acting Division Director, Board of Accountancy, 240 N. W. 76th Dr., Suite A, Gainesville, Florida 32607.

This solicitation is issued pursuant to the Consultants Competitive Negotiations Act, Section 287.055, F.S. Submittals should be in compliance with that act and other related general laws.

As a result of a recent acquisition, the PA now owns approximately 68 acres near the mouth of the Gulf County Canal (ICWW) at St. Joseph Bay and with a water frontage of approximately 1400 feet. The PA has recently completed and transmitted the Port St. Joe Port Master Plan 2006 (the Plan) which provides the framework for the development of the properties into a functioning port. A copy of the Plan in CD format may be obtained by making request to the Port staff office at phone number (850)229-5240.

EXPERTISE AND EXPERIENCE: The firm/team selected through this process will be engaged to provide general engineering services to the PA. Those services are anticipated to cover the broad range of disciplines needed to develop a greenfield port site, including but not limited to: marine, civil, and environmental engineering; facility design and planning, including buildings, warehouses, etc. and both deep and shallow draft marine facilities; specifications and bid document preparation; construction management and oversight; and such other services as might be required. The information submitted in response to this RFQ shall demonstrate the respondents' expertise and experience in these areas.

BULKHEAD PROJECT: The initial task for the firm chosen through this selection process will be the design of improvements identified in the Plan as Phase I (Figure 4-1, attached). Its most significant feature is bulkheading along the waterfront but also includes an access road, cargo apron, grading and drainage, security measures, and related improvements. A contract will be negotiated with the selected firm for the design of these improvements with the deliverable being plans, specifications, and other related documents that are "bid ready" – complete and available for distribution in a bid solicitation to construction contractors. A second phase of this project is anticipated to include assistance in evaluation of the bids, contract negotiation with the successful bidder, and construction management and oversight of the work as the owner's representative on behalf of the P.A.

QUALIFICATIONS OF KEY PERSONNEL: Responses to this RFQ should identify the project manager/point of contact as well as other key personnel who are anticipated to be assigned to tasks and projects for the Port of Port St. Joe. Information must be included to show their qualifications and experience on projects of similar scope and magnitude.

REFERENCES: Responses to this RFQ should include references from at least five clients for whom the firm has performed work similar in nature. Provide client name, project title and description, cost, date of assignment, and telephone number of contact person.

SUBMITTAL REQUIREMENTS: Nine bound copies of the response to this RFP should be submitted to the following address by 5:00 p.m., January 19, 2007. Faxed or e-mail submittals will not be accepted.

DEPARTMENT OF COMMUNITY AFFAIRS

COMPETITIVE GRANT PROGRAM

The Division of Emergency Management gives notice of its intent to open the Fiscal Year 2007-2008 application cycle for competitive awards from the Emergency Management

Preparedness, and Assistance (EMPA) Trust Fund. The application cycle officially opens December 22, 2006 with an application submission deadline of February 22, 2007. Contingent on a Legislative appropriation, funds provided under the Fiscal Year 2007-2008 cycle will be available to award recipients no earlier than July 1, 2007.

Due to the uncertainty of the Fiscal Year 2007-2008 Legislative Appropriations, the amount of funds available for this program cannot be determined at this time. As soon as the appropriation is approved, notification of these funds will be posted on our website at www.floridadisaster.org/cps/grants.htm

The Department encourages all interested and eligible parties with projects that will enhance emergency management capabilities within the State of Florida to apply for funds during this open period.

As provided for in Rule Chapter 9G-19, F.A.C., two programs offering competitive awards encompassing four separate categories are available as follows:

PROGRAMS

- 1) **EMERGENCY MANAGEMENT COMPETITIVE GRANT PROGRAM – (General)**
Provides competitive grants to state or regional agencies, local governments, and private non-profit organizations to implement projects that will further state and local emergency management objectives. Eligible applicants may submit multiple applications; however, no single application shall seek or receive an award in excess of \$200,000. All eligible applicants, with the exception of counties shall be limited to no more than three (3) application submissions in an application cycle.
- 2) **MUNICIPAL COMPETITIVE GRANT PROGRAM –** provides competitive grants to municipalities that are legally constituted, have an authorized, established, and maintained emergency management program; have a signed current Statewide Mutual Aid Agreement (SMAA) and have supplied all required information and documentation such that the SMAA is ready to be signed by the Division of Emergency Management by the date of the application deadline. Each Municipal Emergency Management Program may apply for one competitive grant under this program, not to exceed \$50,000 in requested grant funds.

APPLICATION CATEGORIES:

Applications are accepted in the following four categories under both programs:

- 1) Projects that will promote public education on disaster preparedness and recovery issues.
- 2) Projects that will enhance coordination of relief efforts of statewide private sector organizations, including public-private business partnership efforts.

- 3) Projects that will improve the training and operations capabilities of agencies assigned lead or support responsibilities in the Florida Comprehensive Emergency Management Plan.
- 4) Other projects that will further state and local emergency management objectives designated as priorities in the applicable Notice of Funding Availability. NOTE: PRIORITY POINTS ARE AVAILABLE FOR APPLICATIONS SUBMITTED UNDER THIS CATEGORY ONLY.

Priority Area:

Projects that will promote solutions for removing barriers to emergency preparedness. These may include, but are not limited to, projects which address community preparedness, such as Community Emergency Response Teams (CERTs) and county/local Emergency Operations Centers/Emergency Management Incident Management Teams (IMTs); public information and education building on the theme of "Get a Plan"; special needs populations to include the low income, the frail, elderly and the disabled and language barriers, the care and sheltering of people with their pets, and/or transportation issues.

Applications addressing the above priority must be submitted under Project Category #4, – "Other projects that will further state and local emergency management objectives which have been designated by the State of Florida as priorities in the applicable Notice of Funding Availability."

All critical facility projects, at a minimum, whether mitigation, retrofit, renovations or new construction, must conform to the hurricane vulnerability guidelines established in the American Red Cross' publication "Standards for Hurricane Evacuation Shelter Selection" (ARC 4496, January 2002). To assist in the determination of a facility's compliance with these guidelines, an ARC 4496 Evaluation Questionnaire will be made available. If these standards cannot be met until the project is complete, the evaluation will need to reflect what measures will be used to reach a compliance status. THE EVALUATION QUESTIONNAIRE MUST BE COMPLETED AND SUBMITTED WITH THE APPLICATION. Critical facilities include, but are not limited to, hurricane shelters, Emergency Operations Centers, structures for fire stations, rescue operations or law enforcement facilities, hospitals and public works facilities, etc. Other more stringent codes and standards may apply to new construction or substantial renovation/retrofit projects.

Applicants who are eligible under Rural Economic Development Initiatives (REDI)-Rural Area of Critical Economic Concern may be entitled for a waiver or reduction of financial match requirements. Applicants will need to provide the most current memorandum from the Executive Office of The Governor, Office of Tourism Trade and Economic

Development that confirms their eligibility when submitting their application. This waiver will be considered by the Review Committee when determining match score.

In conjunction with this offering, in lieu of workshops, a tutorial PowerPoint presentation will be on our website, www.floridadisaster.org/cps/grants.htm. This tutorial will provide more detailed information about the State's priority issues, a review of the application format, a review of the Rule Chapter 9G-19, F.A.C., and other important information relevant to the programs.

In re: CITY OF MARATHON LAND

DEVELOPMENT REGULATIONS

ADOPTED BY ORDINANCE NO. 2006-18

FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues its Final Order, pursuant to §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and the City of Marathon is a local government within the Florida Keys Area.
2. On October 13, 2006, the Department received for review City of Marathon Ordinance No. 2006-18 that was adopted by the City of Marathon Board of City Commissioners on August 8, 2006 ("Ord. 2006-18"). Ord. 2006-18 amends the Residential Rate of Growth Ordinance ("ROGO") regulations set forth in Section 9.5-125 of the city code relating to the 30 ROGO allocations rendered to the City. In separate action, the Department previously approved the City's Comprehensive Plan Amendment 06-1 amending Policy 1-3.5.1 to establish 30 annual ROGO allocations, with up to 24 allocated for market rate units and a minimum of 6 allocated for affordable housing for the City starting with years 2005-2006.
3. Ord. 2006-18 is consistent with the City's 2010 Comprehensive Plan.

CONCLUSIONS OF LAW

4. The Department is required to approve or reject land development regulations that are enacted, amended or rescinded by any local government in the Florida Keys Area of Critical State Concern. §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006).
5. The City of Marathon is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Fla. Stat. (2006) and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.
6. "Land development regulations" include local zoning, subdivision, building and other regulations controlling the development of land. § 380.031(8), Fla. Stat. (2006). The regulations adopted by Ord. 2006-18 are land development regulations.
7. All land development regulations enacted, amended or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in § 380.0552(7), Fla. Stat. See *Rathkamp v. Department of Community Affairs*, 21 F.A.L.R. 1902 (Dec. 4, 1998), *aff'd*, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.
8. Ord. 2006-18 promotes and furthers the following Principles:
 - (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.
 - (j) Make available affordable housing for all sectors of the population of the Florida Keys.
9. Ord. 2006-18 is not inconsistent with the remaining Principles. Ord. 2006-18 is consistent with the Principles for Guiding Development as a whole.

WHEREFORE, IT IS ORDERED that Ord. 2006-18 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED.

STATE OF FLORIDA
DEPARTMENT OF COMMUNITY AFFAIRS
In re: ISLAMORADA, VILLAGE OF ISLANDS,
A LAND DEVELOPMENT REGULATION
ADOPTED BY ORDINANCE NO. 06-20

IMMEDIATE FINAL ORDER

The Department of Community Affairs (the “Department”) hereby issues this Immediate Final Order, pursuant to §120.569(2)(n), §380.05(6), and §380.0552(9), Fla. Stat. (2006), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern and Islamorada, Village of Islands (“Village”) is a local government within the Florida Keys Area of Critical State Concern.
2. On November 17, 2006, the Department received for review Village Ordinance No. 06-20, adopted by the Village Council on November 6, 2006 (“Ord. 06-20”).
3. The purpose of Ord. 06-20 is to amend Ordinance Nos. 04-10, 05-19, and 06-04; extending the moratorium on the acceptance of development applications for the redevelopment of mobile home parks within the Village. Extending the moratorium will allow adequate time for Village Staff to continue the process of adopting new regulations that will provide guidelines for the redevelopment and development of mobile home parks. Ord. 06-20 is a temporary measure; Section 2 provides that Ord. 06-20 shall automatically dissolve on December 12, 2007 unless otherwise extended in accordance with applicable law, or upon the effective date of new comprehensive plan policies and land development regulations concerning affordable housing, the formulation of which shall be expeditiously pursued.
4. As a result of the work performed by the Village’s planning staff, the Village’s Workforce/Affordable Housing Citizens’ Advisory Committee, the Village’s Local Planning Agency and the Village Council in the creation of new regulations to address the redevelopment of Mobile Home Parks; the expiration of the Moratorium prior to the adoption of new regulations may affect the public health, safety and welfare of the Village by

impacting the existing inventory of workforce and affordable housing stock and its availability for those who live in the Village. Based upon the information contained in Ord. 06-20, the Department finds that there is an immediate danger to the public health, safety and welfare that requires the issuance of an Immediate Final Order.

5. Ord. 06-20 is consistent with the Village's 2010 Comprehensive Plan.

CONCLUSIONS OF LAW

6. The Department is required to approve or reject land development regulations that are enacted, amended or rescinded by any local government in the Florida Keys Area of Critical State Concern. §380.05(6), and §380.0552(9), Fla. Stat. (2006).
7. Islamorada, Village of Islands is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Fla. Stat. (2006) and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.
8. "Land development regulations" include local zoning, subdivision, building and other regulations controlling the development of land. §380.031(8), Fla. Stat. (2006). The regulations adopted by Ord. 06-20 are land development regulations.
9. All land development regulations enacted, amended or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in §380.0552(7), Fla. Stat. See *Rathkamp v. Department of Community Affairs*, 21 F.A.L.R. 1902 (Dec. 4, 1998), aff'd, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.
10. Ord. 06-20 promotes and furthers the following Principles:
 - (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.
 - (l) To protect the public health, safety, and welfare of the citizens of the Florida Keys.
11. Ord. 06-20 is not inconsistent with the remaining Principles. Ord. 06-20 is consistent with the Principles for Guiding Development as a whole.
12. Since there is an immediate danger to the public health, safety and welfare, the approval of Ord. 06-20 shall be effective immediately. §120.569(2)(n), Fla. Stat. (2006).
WHEREFORE, IT IS ORDERED that:

A. Islamorada, Village of Islands Ordinance 06-20 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED; and

B. This Order and Village Ordinance 06-20 shall become effective immediately upon filing with the Agency Clerk.

DONE AND ORDERED in Tallahassee, Florida.

DCA Final Order No.: DCA06-OR-304

STATE OF FLORIDA

DEPARTMENT OF COMMUNITY AFFAIRS

In re: CITY OF MARATHON LAND

DEVELOPMENT REGULATIONS

ADOPTED BY ORDINANCE NO. 2006-26

FINAL ORDER

The Department of Community Affairs (the “Department”) hereby issues its Final Order, pursuant to §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and the City of Marathon is a local government within the Florida Keys Area.
2. On October 13, 2006, the Department received for review City of Marathon Ordinance No. 2006-26 that was adopted by the City of Marathon Board of City Commissioners on September 12, 2006 (“Ord. 2006-26”). Ord. 2006-26 creates a moratorium on the acceptance of residential Rate of Growth applications that seek development permits to develop properties containing high quality natural areas and adopting interim development regulations deferring ROGO allocations in high quality natural areas until land development regulations and comprehensive plan amendments are adopted by the City Council or one year, whichever comes first.
3. Ord. 2006-26 is consistent with the City’s 2010 Comprehensive Plan.

CONCLUSIONS OF LAW

4. The Department is required to approve or reject land development regulations that are enacted, amended or rescinded by any local government in the Florida Keys Area of Critical State Concern. §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006).
5. The City of Marathon is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Fla. Stat. (2006) and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.
6. “Land development regulations” include local zoning, subdivision, building and other regulations controlling the development of land. § 380.031(8), Fla. Stat. (2006). The regulations adopted by Ord. 2006-18 are land development regulations.
7. All land development regulations enacted, amended or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the “Principles”) as set forth in § 380.0552(7), Fla. Stat. See Rathkamp v. Department of Community Affairs, 21 F.A.L.R. 1902 (Dec. 4, 1998), aff’d, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.
8. Ord. 2006-26 promotes and furthers the following Principles:
 - (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.

(b) Protect upland resources, tropical biological communities, freshwater wetlands, native tropical vegetation (for example, hardwood hammocks and pinelands), dune ridges and beaches, wildlife, and their habitat.

9. Ord. 2006-26 is not inconsistent with the remaining Principles. Ord. 2006-26 is consistent with the Principles for Guiding Development as a whole.

WHEREFORE, IT IS ORDERED that Ord. 2006-26 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED.

This Order becomes effective 21 days after publication in the Florida Administrative Weekly unless a petition is filed as described below.

FINANCIAL SERVICES COMMISSION

NOTICE OF ORDER

NOTICE IS HEREBY GIVEN that the Office of Insurance Regulation has issued the following:

IN THE MATTER OF: CASE NO: 88231-06
 CITIZENS PROPERTY
 INSURANCE CORPORATION

ORDER APPROVING CITIZENS' HIGH-RISK ACCOUNT REFUNDING BONDS AND RELATED DOCUMENTS

THIS MATTER came before the Office of Insurance Regulation for consideration and final agency action upon the request of Citizens Property Insurance Corporation ("Citizens"), pursuant to Section 627.351(6), Florida Statutes, as amended (the "Citizens Act"), and Sections 19(B) and 20 of Citizens' Plan of Operation (the "Plan of Operation"), for approval of the issuance by Citizens of its High-Risk Account

Senior Secured Refunding Bonds, Series 2007, in one or more series, in the aggregate principal amount of not exceeding \$1,200,000,000 (the "Series 2007 Bonds") and related documentation.

Citizens' request is based on the adoption by its Board of Governors ("the Board") of the Authorizing Resolution attached as Exhibit "A" and described herein, providing that the 1999A Notes (as defined in the Fifth Supplemental Indenture hereinafter referred to) are to be refunded and redeemed through the issuance of the Series 2007 Bonds in a manner that maximizes the tax-exempt component of the Series 2007 Bonds while minimizing the taxable component thereof, thereby maximizing the debt service savings to be achieved by the refunding and redemption of the 1999A Notes. Amendments to Section 627.351(6)(b)(2)(b), Florida Statutes, require Citizens' Board to exercise its best efforts to retire existing debt and to report to the Financial Services Commission, the President of the Senate, and the Speaker of the House of Representatives, the actions the Board has taken to minimize the cost of carrying debt.

The Series 2007 Bonds are to be issued pursuant to that certain Trust Indenture dated as of August 6, 1997 (the 1997 "Indenture"), as amended, and as further amended by that certain Fifth Supplemental Indenture (the "Fifth Supplemental Indenture" and, together with the 1997 Indenture as amended, the "Indenture"), by and between Citizens and the successor Indenture Trustee named therein. The Fifth Supplemental Indenture is to be in substantially the same form as the copy received and reviewed by the Office of Insurance Regulation prior to the entry of this Order. Citizens is also entering into or will utilize, as applicable, other related documents and agreements in connection with the issuance of the Series 2007 Bonds, including, without limitation, an interest rate lock agreement if deemed in the best interests of Citizens in order to hedge Citizens' exposure to an increase in the make-whole redemption premium for the 1999A Notes.

Citizens is a statutorily created corporation, established pursuant to the Citizens Act. Citizens, through its High-Risk Account, has become a significant provider of residential and commercial windstorm insurance in the State of Florida, thereby creating the imminent potential of a substantial shortage of funds to meet its policyholder claims and other obligations in the event of a catastrophic hurricane or other weather-related event. The Citizens Act authorizes Citizens to borrow funds for the High-Risk Account by issuing bonds or by incurring other indebtedness and to pledge assessments under the Act and other funds available to Citizens' High-Risk

Account as the source of security and repayment for such borrowings. In order to provide funds to, among other things, meet policyholder claims and other obligations of the High-Risk Account, Citizens has previously issued debt obligations under the 1997 Indenture, as supplemented and amended, including the 1999A Notes.

On December 7, 2006, Citizens' Board adopted a resolution (the "Authorizing Resolution") finding and determining that it is in Citizens' best interests to refund and redeem the 1999A Notes and authorizing the issuance of the Series 2007 Bonds, in one or more series, in the aggregate principal amount of not exceeding \$1,200,000,000 to refund and redeem the 1999A Notes. The Authorizing Resolution provides that the 1999A Notes are to be refunded and redeemed through the issuance of the Series 2007 Bonds in a manner that maximizes the tax-exempt component of the Series 2007 Bonds while minimizing the taxable component thereof, thereby maximizing the debt service savings to be achieved by the refunding and redemption of the 1999A Notes.

As required by Section 19(B) of the Plan of Operation, Citizens has filed with the Office of Insurance Regulation a statement of the purpose of the Series 2007 Bonds and an estimate of the costs to be incurred by Citizens in connection with the issuance of the Series 2007 Bonds.

The Office of Insurance Regulation, having considered this submission, and being otherwise advised in the premises, hereby finds that:

1. The Office of Insurance Regulation, by and through the Insurance Commissioner, has jurisdiction over the subject matter of, and the parties to, this proceeding pursuant to the Citizens Act.
2. The Series 2007 Bonds are being issued for the primary purpose of providing funds, together with other available moneys of the High-Risk Account, to refund and redeem the 1999A Notes, thereby achieving debt service savings for Citizens. The Indenture is hereby deemed to be a "trust indenture" within the meaning of, and is approved for purposes of, Section 19(B) of the Plan of Operation.
3. Pursuant to the Citizens Act, and Sections 19(B) and 20 of the Plan of Operation, Citizens has authority to enter into the Fifth Supplemental Indenture, to issue the Series 2007 Bonds under the Indenture and to make the same payable and secured as provided in the Indenture.

IT IS THEREFORE ORDERED:

That the Office of Insurance Regulation hereby APPROVES, the Fifth Supplemental Indenture, the issuance of the Series 2007 Bonds under the Indenture and the pledge by Citizens of the Pledged Revenues (as defined in the Indenture) and, in particular, the Emergency Assessments to be levied and collected in connection with the High-Risk Account's 2005 Plan Year Deficit (as defined in the Indenture), to secure the Series 2007 Bonds.

DONE and ORDERED this 13th day of December 2006.

KEVIN M. MCCARTY
COMMISSIONER
