### Notices of Development of Proposed Rules and Negotiated Rulemaking

#### DEPARTMENT OF STATE

##### Division of Elections

RULE NO.: 1S-2.049  
 RULE TITLE: Absentee Ballots – Absent Stateside  
 Uniformed Services Voters

**PURPOSE AND EFFECT:** This rule deals exclusively with the request delivery and return of absentee ballots for absent stateside (but not overseas) uniformed services voters and their dependent children and spouses who are absent from county as a result of that active duty. The proposed revisions are made to the ballot instructions to conform to new absentee ballot instruction language in sections 38 and 39 of chapter 2011-40, Laws of Florida, which became effective May 19, 2011. The new instructions in law put the voter on notice as to what was already the law which says that if a signature on the certificate does not match the signature on record at the time of canvassing, the ballot will not count. The instructions in the rule are also changed to reflect what is now in law that says canvassing of absentee ballots can begin as early as 15 days in lieu of 6 days before election day. The revisions also clarify that a blank absentee ballot can be delivered or transmitted to an absent stateside uniformed services voter via electronic means other than by mail. This conforms to federal law in s. 578 of the Military Overseas Voter Empowerment Act. No statement of estimated regulatory cost is triggered and therefore statement is prepared. No legislative ratification is required for this rule revision to become effective.

**SUBJECT AREA TO BE ADDRESSED:** Absentee ballot process for absent stateside military voters.

1T-1.038 Individual Artist Fellowship Program.

(1) The Individual Artist Fellowship Program fosters the development of individual artists through a selection procedure that identifies individual artists of exceptional talent and demonstrated ability.

(2) To be eligible for a fellowship an applicant must:

(a) Be a legal resident of Florida as defined by Section 196.015 or 222.17, F.S., and agree to maintain Florida residency for the duration of the fellowship period;

(b) Be at least 18 years of age;

(c) Not be enrolled in any undergraduate or graduate degree-seeking program during the fellowship period;

(d) Not have received a fellowship award during the five-year period preceding the new award period; and

(e) Not ~~be currently serving~~ ~~have served~~ as a grant review panelist if he/she has an application before the same discipline panel.

(3) Eligible applicants must submit a completed Fellowship Application (Form CA2E012, Form CA2E158 for the Folk Arts category), effective 10/09 and respectively, incorporated by reference, and available at [www.Florida-arts.org](http://www.Florida-arts.org) with all required samples of work in the discipline appropriate formats described in the program guidelines, on or before the announced deadline. Samples of work must be original and authentic representations of the applicant's work. Applications are accepted in each discipline on a rotating cycle. The disciplines of visual arts and media arts will apply together in odd years while the disciplines of literature, folk arts, music, interdisciplinary, dance, and theatre apply in even years. If additional funding becomes available and all disciplines can be accommodated in one application cycle, the two discipline groups will be combined.

(4) Review panel scoring for the ~~disciplines of dance, interdisciplinary, media arts, and folk arts~~ discipline must range from one (1) to ~~fifty ten (50+0)~~ and be scored according to the following criteria: Artistic Excellence (up to 20 points), Tradition and Authenticity (up to 15 points) and Community Impact and Engagement (up to 15 points), based on the following criteria: the quality and consistency in the body of work, professional achievements, reputation, peer support and respect. Folk art applicants are also evaluated on the "traditionality" of the art form. These applications are evaluated in two (2) phases. During the first phase, applications are rated from 1-10 by each panel member and averaged. Only applications ranked eight (8) or higher are eligible for the second phase of review. For the second phase, panelists determine which applications will be funded based on available funding, professional judgement, and previously described evaluation criteria.

(5) Work submitted by applicants in the visual arts, music, literature, media arts, dance, interdisciplinary and theatre categories are initially evaluated through a blind review process, or without revealing the applicant's identity. During the first phase of the review, panelists will not know the applicant's identity and will assign each application a score between 1 and 40 for the criteria of Artistic Excellence based on the work samples submitted. Applications scoring a total of 32 points or higher will then move on to the second phase of the review and their identity will be released to the panel. During this phase panelists will review the applications based on the Professional Achievement of the applicant which may total up to 10 points. Applications scoring a total of 40 points or higher will be eligible for a fellowship award subject to budgetary considerations and panel recommendation. These applications are also evaluated in two (2) phases. During the first phase, applications are rated from one (1) to ten (10), based on the quality and consistency in the body of work, and

~~the panel's score for each application is averaged. Only applications ranked eight (8) or higher are eligible for the second phase of review. For the second phase, panelists evaluate eligible applicants and award funds based on professional achievements, reputation, peer support and respect, and available funding, and award funds accordingly.~~

(6) Panelists will award fellowships in the amount of \$2,500 or \$5,000 in order of score, starting with the highest score until funds are depleted. The panel may choose to award fellowships in the amount of \$2,500 or \$5,000.

~~(7)~~ Funds are administered through a Grant Agreement (Form CA2E076, effective 10/09, incorporated by reference, and available at [www.Florida-arts.org](http://www.Florida-arts.org)); and are awarded on a non-matching basis.

~~(8)~~ Grant Report. Grant recipients are required to complete a Grant Report (Form CA2E003, effective 10/09, incorporated by reference, and available at [www.Florida-arts.org](http://www.Florida-arts.org)); which details expenditures and activities during the grant period. 19-8.028

Reimbursement Premium Formula

PURPOSE AND EFFECT: This rule is promulgated to implement Section 215.555, Florida Statutes, regarding the Florida Hurricane Catastrophe Fund, for the 2012-2013 contract year.

SUMMARY: In accordance with Section 215.555(5), Florida Statutes, proposed amended Rule 19-8.028, F.A.C., Reimbursement Premium Formula, adopts the 2012-2013 reimbursement premium formula and 2012-2013 Reimbursement Premium Rates. In addition, obsolete or unnecessary language has been removed and in paragraph (4)(d) of the Rule, the title has been clarified and new language has been added to allow scheduled personal property with a limit equal to or exceeding \$10 million dollars and which predominantly covers one or more collectible types of property to be exempt from the FHCF coverage. The proposed amendments to Rule 19-8.028, F.A.C., are necessitated by Section 215.555(5), Florida Statutes, which requires the State Board of Administration to employ an independent consultant

to develop actuarially indicated premiums for the annual reimbursement contract, by the Governor's initiative to rid rules of duplicative, obsolete or unnecessary language and by the need to add clarification to the rule.

**OTHER RULES INCORPORATING THIS RULE:** There are no other rules incorporating this rule. However, there are three rules which reference this rule: subparagraph 19-8.012(3)(d)2., F.A.C., paragraph 19-8.013(2)(q), F.A.C., and paragraph 19-8.030(3)(m), F.A.C.

**EFFECT ON THOSE OTHER RULES:** The proposed changes to this rule have no impact on any of the three rules referencing this rule.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Upon review of the proposed changes to the rule and the incorporated documents, the State Board of Administration of Florida has determined that the rule does not meet the statutory threshold for ratification by the legislature.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

(4)(a) No change.

(b) Forfeiture or Surrender of Certificates of Authority; Insurers Which Do Not Have Exposure For Covered Policies For an Entire Contract Year.

1. Insurers which have forfeited their certificates of authority or which have withdrawn from the state or discontinued writing all kinds of insurance in this state after the beginning of the Contract Year shall have their Premiums determined in accordance with subsection (3), above.

2. Special recognition is not given to insurers which do not have exposure for Covered Policies for an entire Contract Year, except for New Participants as described in paragraph (c) of this subsection (4).

~~3.2.~~ Any insurer which has forfeited its certificate of authority or which has discontinued writing in accordance with an order issued by the Department of Financial Services effective prior to June 1 of each calendar year shall not be required to execute a Reimbursement Contract with the Board provided that the insurer has no exposure to hurricane loss after June 1.

(c) New Participants.

1. All New Participants shall enter into a Reimbursement Contract with the Fund.

2. All New Participants shall pay a Reimbursement Premium to the Fund in accordance with the applicable subparagraphs below and in accordance with the applicable provisions of the Reimbursement Contract ~~adopted in Rule 19-8.010, F.A.C.~~

3. This subparagraph applies to Companies writing new business after June 1 but prior to December 1 of the Contract Year.

a. All New Participants writing new business during the period specified above shall pay a provisional Premium of \$1,000 to provide consideration for the contract.

b. On or before March 1 of the Contract Year, the Company shall report its actual exposure as of December 31 of the Contract Year to the Administrator in accordance with the Data Call on Form FHCF-D1A, "Florida Hurricane Catastrophe Fund Data Call" which is adopted and incorporated by reference in Rule 19-8.029, F.A.C., and is available from the Administrator as described in subsection (5), below. The Administrator shall calculate the Company's actual Reimbursement Premium for the period specified in subparagraph (c)2. based on its actual exposure. To recognize that New Participants have limited exposure during this period, the actual Premium as determined by processing the Company's exposure data shall then be divided in half, the provisional Premium shall be credited, and the resulting amount shall be the total Premium due for the Company for the remainder of the Contract Year. However, if that amount is less than \$1,000, then the Company shall pay \$1,000. The Premium payment is due no later than May 1 of the Contract Year. The Company's retention and coverage will be determined based on the total Premium due which is the Premium calculated based on the Company's December 31 exposure and divided in half as described in this sub-subparagraph.

(c)4. through 5. No change.

(d) Specialized Fine Arts Risks. The provisions of this paragraph apply to certain policies and endorsements predominantly or exclusively covering specialized fine arts risks that are subject to loss control measures as specified in subparagraph 1. and scheduled personal property as specified in subparagraph 2.

1. Any policy or endorsement exclusively covering Specialized Fine Arts Risks and not covering any residential structure and/or contents thereof other than such specialized fine arts items covered in the fine arts policy, shall be exempt from the Fund as a risk meeting specialized loss control requirements if the insurer employs underwriting criteria ~~that and requires its policyholders to adhere~~ to subparagraphs ~~a.1.~~ through ~~c.7.~~, immediately below. For purposes of the exemption in this ~~subparagraph~~ paragraph, a Specialized Fine Arts Risk is a policy or endorsement which insures paintings, works on paper, etchings, art glass windows, pictures, statuary, sculptures, tapestries, antique furniture, antique silver, antique rugs, rare books, and other bona fide works of art, of rarity, of historic value, or artistic merit; which charges a minimum premium of \$500; which insures scheduled items valued, in the aggregate, at no less than \$100,000; and which requires an investment by the insured in loss control measures to protect the Specialized Fine Arts Risks being insured.

~~1. The policyholder must demonstrate a willingness and determination to reduce the probability of loss.~~

~~a.2.~~ The insurer must perform a periodic and thorough specialized inspection and must provide a specialized loss prevention service designed to prevent or minimize loss.

~~3. Insurable values must be sufficient to produce a premium amount to warrant the furnishing of special inspection and loss prevention service by the insurer. For purposes of this rule, the insurable value of the scheduled items must be, in the aggregate, no less than \$100,000 and the minimum premium amount must be no less than \$500.~~

4. The structural design of the residence and the degree of protection, together with efficient specialized inspection and loss protection service, must have the effect of reducing the ~~relative importance of such otherwise applicable rating factors as exposure and quality of public fire protection.~~

~~5. The structure in which the fine arts being insured are housed must be fire-resistive or incombustible, made of heavy timber or other approved construction, and in good state of preservation and repair.~~

~~b.6.~~ The structure and its fine arts contents must be provided with satisfactory watchman or alarm service or its equivalent where necessary.

~~c.7.~~ The insurer must maintain a force of trained and competent loss prevention specialists, who perform the following tasks:

~~(1)a.~~ Make complete loss prevention surveys of each Specialized Fine Arts Risk;

~~(II)b-~~ Make available specialized loss prevention service for the purpose of providing consultation regarding hazards to the fine arts being insured;

~~(III)e-~~ Confirm through periodic ~~and unannounced~~ inspections that loss prevention devices are properly maintained;

~~(IV)d-~~ Investigate reported losses; and

~~(V)e-~~ Confer with the policyholder and confirm through periodic and unannounced inspections that recommended safety and loss control improvements are actually made.

2. Any individual policy written to solely cover scheduled personal property with a policy limit equal to or exceeding \$10 million and which predominantly covers one or more classes of collectible types of property shall be exempt from coverage under the Fund. Generally such classes of collectible property have unusually high values due to their investible, artistic, or unique intrinsic nature. Additionally, such exempt policy may also include coverage for incidental items of personal property that may also be scheduled although such property may not be considered as a collectible. The predominant class of property covered under such excluded policy represents an unusually high exposure value and such policy is intended to provide coverage for a class or classes of property that is not typical for the contents coverage under residential property insurance policies. In many cases property may be located at various locations either in or outside the state of Florida or the location of the property may change from time to time.

PURPOSE AND EFFECT: The purpose and effect of the proposed rule amendment will be to repeal rules identified during the comprehensive rule review required by Executive Order 11-01 as duplicative, unnecessarily burdensome and no longer necessary.

SUMMARY: The rulemaking authority for these rules no longer exists. The Coastal Energy Impact Program was transferred to the Department of Environmental Protection during the 2011 Legislative Session. The Administration Commission no longer has authority for implementation of the program.

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Administration Commission has determined that the proposed rule repeal is not expected to require legislative ratification based on the fact that the rules are currently ineffective and without authority.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: 1) No requirement for a SERC was triggered under Section 120.541(1); and (2) the proposed changes will not exceed any one of the economic analysis criteria in a SERC, as set forth in Section 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

PURPOSE AND EFFECT: The purpose of the proposed rule amendments is to repeal Rules 69W-700.018, 69W-700.0024, and 69W-700.028, F.A.C. The Office has identified the rules for repeal as the result of the comprehensive review that it undertook pursuant to Sections 120.74 and 120.745, F.S. The **Division of Air Resource Management** announces a hearing to which all persons are invited.

DATE AND TIME: June 13, 2012, 1:00 p.m.

PLACE: Department of Environmental Protection, Division of Air Resource Management, 111 South Magnolia Drive, Suite 23, Tallahassee, Florida

**GENERAL SUBJECT MATTER TO BE CONSIDERED:** Pursuant to 40 CFR 51.102, the Department of Environmental Protection (DEP) announces an opportunity to offer comments or request a public hearing on a proposed revision to Florida's State Implementation Plan (SIP) under the Clean Air Act. On November 22, 2010 (effective December 31, 2010), the Environmental Protection Agency (EPA) designated a small area (1.5 kilometer radius circle) in Hillsborough County nonattainment for lead (Pb). This nonattainment area is centered on a lead recycling facility that received a federally enforceable air construction permit in 2009, which provides for a complete modernization of the facility and the implementation of a variety of top level controls and emission limits associated with lead recycling. DEP is proposing that the air construction permit be incorporated into Florida's SIP in satisfaction of Clean Air Act requirements for attainment and maintenance of the revised lead (Pb) National Ambient Air Quality Standard in the Hillsborough County nonattainment area. A public hearing will be held, if requested, at the date, time and place given above. It is not necessary that the hearing be held or attended in order for persons to comment on DEP's proposed submittal to EPA. Any request for a public hearing must be submitted by letter or e-mail to Marnie Brynes, Department of Environmental Protection, Division of Air Resource Management, 2600 Blair Stone Road, MS #5500, Tallahassee, Florida 32399-2400, Marnie.Brynes@dep.state.fl.us by June 4, 2012. Any comments must be submitted by letter or e-mail to Will Sexton at the above address or Will.Sexton@dep.state.fl.us, with a copy to Ms. Brynes, by June 4, 2012. If no request for a public hearing is received, the hearing will be cancelled, and notice of the cancellation will be posted at the following website: <http://sharepoint.dep.state.fl.us/PublicNotices/default.asp>. The materials may also be inspected during normal business hours at the DEP, Division of Air Resource Management offices, 111 S. ## Section VII Notices of Petitions and Dispositions Regarding Declaratory Statements

### DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

NOTICE IS HEREBY GIVEN that Construction Industry Licensing has issued an order disposing of the petition for declaratory statement filed by Pete Quintela, City of Miami Beach Building Department on February 21, 2012. The following is a summary of the agency's disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 38, No. 10, of the March 9, 2012, Florida Administrative Weekly. The Petitioner was seeking the Board to interpret Section 489.105(3)(g), Florida Statutes, and whether it is in the scope of a Class B air conditioning contractor to replace or repair a broken shut-off valve feeding a water cooled 2 ton unit which is connected to the riser of a 500 ton water cooling tower. The Board considered the Petition at a duly-noticed public meeting held on March 16, 2012. The Board's Order, filed on April 20, 2012, denies the Petition for Declaratory Statement. Petitioner did demonstrate he is substantially affected, as required by Section 120.565, Florida Statutes. The petition did not contain sufficient information for the Board to provide a Declaratory Statement.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Industry Licensing Board, P.O. Box 5257, Tallahassee, Florida 32314-5257.

Please refer all comments to: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

NOTICE IS HEREBY GIVEN that Construction Industry Licensing Board has issued an order disposing of the petition for declaratory statement filed by Ista North America, Inc on January 10, 2012. The following is a summary of the agency's disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 38, No. 5, of the February 3, 2012, Florida Administrative Weekly. The Board considered the Petition at a duly-noticed public meeting held on March 16, 2012. The Petitioner requested the Board's interpretation of Section 489.105(3), Florida Statutes, and whether a contractor's license is required for installation of utility sub-meters. The Board's Order, filed on April 20, 2012, grants the Petition for Declaratory Statement. Pursuant to Section 489.105, Florida Statutes, a general contractor's license will satisfy the requirements for providing all of the proposed services in the petition, but the statement does not address the requirements for electrical contracting.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Industry Licensing Board, P.O. Box 5257, Tallahassee, Florida 32314-5257.

Please refer all comments to: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

NOTICE IS HEREBY GIVEN that Construction Industry Licensing Board has issued an order disposing of the petition for declaratory statement filed by Pool & Kent Company of Florida, Inc., on February 7, 2012. The following is a summary of the agency's disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 38, No. 8, of the February 24, 2012, Florida Administrative Weekly. The petition seeks the Board's interpretation of Sections 489.105(3)(a),(i),(m) and (n), 489.113(3), F.S., and Rule 61G4-12.011, F.A.C., and whether a mechanical contractor's license is required to perform the mechanical work on wastewater treatment facility projects, or whether the mechanical work on such projects may be self-performed by general contractors, even if they do not also possess a mechanical contractor's license. The Board considered the Petition at a duly-noticed public meeting held on March 16, 2012. The Board's Order, filed on April 20, 2012, denies the Petition for Declaratory Statement. Petitioner is not substantially affected, as required by Section 120.565, Florida Statutes, as Petitioner possesses the necessary license. The Petition appears to refer to the conduct of another, contrary to Rule 28-105.001, Florida Administrative Code.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Industry Licensing Board, P.O. Box 5257, Tallahassee, Florida 32314-5257.

Please refer all comments to: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

NOTICE IS HEREBY GIVEN that the Florida Building Commission has received the petition for declaratory statement from the Broward County Board of Rules and Appeals. The petition seeks the agency's opinion as to the applicability of Section 105.1, Florida Building Code, as it applies to the petitioner.

The petitioner asks if a permit must be obtained from the local building official in order to repair or remodel a mobile home.

The petitioner requests clarification regarding the applicable risk category to be used in the structural design of telecommunication equipment located on an elevated platform.

A copy of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk, Department of Business and Professional Regulation, 1940 North Monroe Street, Tallahassee, Florida 32399.

The petition seeks the agency's opinion as to the applicability of provisions of the Unfair Insurance Trade Practices Act, specifically, Section 626.9541(1)(h), Florida Statutes, as it applies to the petitioner.

The petition seeks the agency's opinion as to whether the provisions of the Unfair Insurance Trade Practices Act, specifically, Section 626.9541(1)(h), Florida Statutes, or any other provision of Chapter 626, Florida Statutes (or rules promulgated thereunder) prohibit its proposal to enter into agreements with insurance agencies whereby the agencies would pay an annual referral fee to the Petitioner for referral of Petitioner's clients to the agencies for purposes of providing an insurance premium quote.

**NOTICE TO CONSTRUCTION MANAGERS:**

The University of Florida Board of Trustees announces that CM-At-Risk services will be required for the project listed below:

Project: UF-380, School of Business Building (Gainesville, FL)

The project consists of the construction of a new 52,000 gross square foot classroom building for the Warrington College of Business Administration to support its undergraduate programs, plus site development and utilities infrastructure.

The detailed scope of work is outlined in the Facilities Program, along with project-specific background, goals, and requirements.

The overall project budget is approximately \$21,400,000, with an estimated construction budget of \$16.9M, and the goal is to complete and occupy the facility by or before June 2014. Minimum Gold LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is mandatory. Design and construction documents will be created using Building Information Modeling (BIM) software, and the CM is expected to use these models and participate in the creation of record (“as built”) models for the Owner’s use.

The contract for construction management services will consist of two phases, pre-construction and construction. Pre-construction services will begin at the Program Verification / Conceptual Schematic Design stage and will include production of cost studies and estimates; value engineering; analysis of the design documents for constructability, coordination, detailing, materials, and systems; development and maintenance of the construction schedule; production of detailed jobsite management plans; development of strategies for the procurement of trade contracts; development of waste management and other sustainability strategies; and development of a Guaranteed Maximum Price (GMP) proposal based on 100% Construction or Bid Documents. If the GMP proposal is accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for phase one of the contract, or failure to agree on the GMP may result in termination of the contract.

Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, safety record, workload, ability, approach, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida. Joint venture applications will not be considered.

Applicants desiring to provide construction management services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the CMQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant’s understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific “CM Qualifications Supplement” (CMQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff.
5. Proof of the applicant’s corporate status in Florida (if applicable) and a copy of the applicant’s current contracting license from the appropriate governing board.
6. Proof of applicant’s bonding capacity and liability insurance coverage.
7. Proof of the applicant’s Experience Modification Rating (EMR) safety rating.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected construction manager must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific CMQS forms, instructions, Project Fact Sheet, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Agreement for CM Services, and other project and process information – can be found on the Facilities Planning & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Facilities Planning & Construction office by 3:00 p.m. local time on Tuesday, June 5, 2012. Facsimile (FAX) submittals are not acceptable and will not be considered.

The University of Florida Board of Trustees announces that Professional Services in the discipline of architecture and engineering will be required for the project listed below:

Project: UF-368, Reitz Union Expansion & Renovation (Gainesville, FL)

The project consists of the expansion and renovation of the J. Wayne Reitz Union (JWRU) in the heart of campus at the University of Florida. The project will demolish the existing colonnade building, build approximately 100,000 GSF in this location and renovate roughly 50,000 GSF in the existing building. The JWRU was constructed in 1967 when there were only 19,000 students and 150 student clubs. UF currently has approximately 50,000 students and over 900 registered clubs and organizations without any significant expansion to the student space.

The estimated construction budget is approximately \$47,000,000, including demolition, site improvements, window replacement, emergency shelter requirements and utility infrastructure improvement. The project will be delivered using the Construction Manager method and construction shall be phased with demolition, new construction and renovation. Platinum LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is mandatory.

The selected firm will provide program verification, design, construction documents and construction administration services for the referenced project. Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Blanket design professional liability insurance will be required from the architect and structural engineering sub-consultant for this project and will be provided as a part of Basic Services.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design ability, references, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant and its landscape architectural and engineering consultants must possess current design licenses from the appropriate governing board and be properly registered to practice its profession in the State of Florida. If the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida.

The proposed team should not include a MEP/FP engineer. UF will be selecting the MEP/FP Engineer with the Architect through a separate RFQ process after the Architect is selected. The selected MEP/FP Engineer will become a full member of the design team and the Architect's contract will be amended to

include the MEP/FP firm. The selected MEP/FP Engineer will be coordinated by the Architect, billed through the Architect and a consultant to the Architect.

Applicants desiring to provide professional services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the PQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, design intent, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. A completed, project-specific "Professional Qualifications Supplement" (PQS) proposal with signed certification. Applications on any other form will not be considered.
3. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff (applicant and consultants).
4. Proof of the applicant's corporate status in Florida (if applicable) and copies of current licenses for applicant and all engineering and landscape architecture consultants from the appropriate governing board.
5. Proof of the applicant's and structural and civil engineering consultants' ability to be insured for the level of professional liability coverage demanded for this project.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected professional must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific PQS forms, instructions, Project Fact Sheet, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Owner-Professional agreement, and other project and process information – can be found on the Facilities Planning & Construction website.
