33-602.211 Restraint of Pregnant Inmates.

(1) Definitions.

(a) Extraordinary circumstance: means that the inmate poses a substantial flight risk or that there is some other extraordinary medical or security circumstance that dictates restraints be used to ensure the safety and security of the prisoner, the staff of the correctional institution or medical facility, other prisoners, the unborn child or the public.

(b) Restraints: refers to any physical restraint or mechanical device used to control the movement of a prisoner's body or limbs, including, but not limited to, flex cuffs, soft restraints, hard metal handcuffs, a black box, chubb cuffs, leg irons, belly chains, a security or tether chain, or a convex shield.

(c) Third trimester: refers, for the purposes of this rule, to the period of time from the start of the 28th week of pregnancy.

(2) Prior to the start of a pregnant inmate's labor, the correctional officer chief will individually evaluate each pregnant inmate to determine if the inmate presents a documentable extraordinary circumstance requiring the use of restraints during labor, delivery or postpartum recovery. If the correctional officer chief determines that extraordinary circumstances exist, the circumstances and the specific restraints recommended will be documented on Form DC6-210, Incident Report. The report will be forwarded to the warden. Form DC6-210 is incorporated by reference in Rule 33-602.210, F.A.C. The effective date of the form is _____.

(3) The warden will make the final determination of whether an extraordinary circumstance exists, noting the approval or disapproval of the specific restraints recommended by the correctional officer chief. A copy of the finalized incident report will be placed in the inmate's file.

(4) Any restraint of a pregnant prisoner must be done in the least restrictive manner necessary in order to mitigate the possibility of adverse clinical consequences. Treating physicians may request that restraints not be used for documentable medical purposes; however, if the correctional officer, correctional institution employee, or other officer accompanying the pregnant prisoner determines that there is an extraordinary safety risk, the officer is authorized to apply restraints in the least restrictive manner necessary and in compliance with the restrictions set forth below.

(5) Unless there is a documentable extraordinary circumstance:

(a) Pregnant inmates will not be restrained with their hands behind their back nor will leg irons be utilized due to the possibility of a fall.

(b) Leg, ankle and waist restraints will not be used during the third trimester.

(6) When restraints are authorized as described herein, inmates will remain restrained during transport and at the medical facility unless removal of the restraints is required for medical reasons and then, except for emergency situations, only after the shift supervisor has been apprised of the situation and has given her/his approval to remove the restraints.

(7) Unarmed escort officers will maintain close supervision of pregnant inmates providing a custodial touch with the hand firmly grasped around the inmate's triceps or elbow when necessary to prevent falls.

(8) Pregnant inmates will not be restrained in any manner during labor, delivery, or postpartum recovery unless the warden makes an individualized determination that the prisoner presents an extraordinary circumstance. However, under no circumstances shall leg, ankle, or waist restraints be used on any prisoner who is in labor or delivery, as defined in chapter 2012-41, Laws of Florida.

(9) Staff utilizing restraints on a compliant pregnant inmate under extraordinary circumstances during labor, delivery, or postpartum recovery will document the application of restraints in the inmate's file on Form DC6-210, Incident Report. If the inmate is noncompliant, the use of restraints will be documented on Form DC6-230, Institutions Report of Force Used. In either case, such documentation shall be prepared within 10 days. Form DC6-230 is incorporated by reference in Rule 33-602.210, F.A.C. The effective date of the form is _____.

RULE NO.: RULE TITLE:

6M-4.710 School Readiness Program Curricula
PURPOSE AND EFFECT: The purpose of the proposed rule development is to establish the process for selection and review of curricula for use in the School Readiness Program.

SUMMARY: In order to offer the School Readiness Program, providers must use a developmentally appropriate curriculum. The proposed rule establishes the process by which developmentally appropriate curricula are recognized and by which individuals or organizations can request that the Office determine whether a curriculum is developmentally appropriate.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

All School Readiness Providers are required by statute to use a developmentally appropriate curriculum in order to be eligible to offer the School Readiness Program. It is anticipated that it will take School Readiness Providers a maximum of 15 minutes to review a list of developmentally appropriate curricula developed and maintained by the Office under this rule. At a cost of \$9 per hour for staff time, it is anticipated that this rule will have a financial impact of \$2.25 per School Readiness Provider annually for a total of \$22,500 per year. The total recurring financial impact of this rule over five years would therefore be \$112,500.

The Office further anticipates that approximately 200 curricula will be submitted for review under this rule in the first year the rule is effective. The Office estimates that, including the cost of staff time for compliance, postage, and time for preparation of materials, a financial impact of \$22.20 per curriculum can be expected. Therefore, the Office anticipates approximately \$4,400 will be expended in one-time costs.

The total financial impact over a five year period is therefore anticipated to be approximately \$116,900.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 6M-4.720
 RULE TITLE: Screening of Children in the School Readiness Program

PURPOSE AND EFFECT: The purpose of the proposed rule is to utilize the Office's authority to standardize screenings of children enrolled in the School Readiness (SR) Program.

SUMMARY: The proposed rule establishes criteria for selection of screening instruments, processes by which early learning coalitions will ensure screenings are conducted, and minimum requirements for maintenance of information regarding screenings.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

The Office estimates a cost of \$180,781.83 a year will be incurred statewide by small businesses. The Office reached this conclusion based on the following estimates.

Based on information provided by experts in the field, the Office anticipates that it will take approximately 15 minutes to conduct a screening of each child enrolled in the School Readiness Program. At an average rate of \$9 an hour for School Readiness provider staff time, it will cost approximately \$2.25 to screen each child.

It is anticipated that 80,341 of the children enrolled in the School Readiness Program will be screened by a total of 4369 child care providers which will be conducting screenings. Therefore, the average cost to each provider conducting screenings will be approximately \$38.97.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

PROPERTY LIST

This list incorporates all property authorized to be possessed by inmates in all department institutions and facilities except community correctional centers. Except for items specified below as “exemptions,” property received must be in compliance with this list. Inmates in possession of property previously approved by the Department of Corrections which meets the description of property on the list shall be allowed to retain the property. Inmates transferring to department facilities from private correctional facilities shall be allowed to retain only those items that are in compliance with the list of authorized property. As items sold in canteens at private facilities may differ from those sold in department canteens, items purchased in canteens at private facilities will not always be admissible in department facilities.

Definitions.

The “quantity” establishes a maximum possession limit. This does not mean that all state issue items will be issued to each inmate, or that the maximum number of items will be issued. All canteen items are subject to availability and may not be available for purchase. Items found in the possession of an inmate that are in excess of the established “quantity” shall be treated as contraband in accordance with Rule 33-602.203, F.A.C. Where there is a “value” indicated, the authorized item shall not exceed that value. The terms “canteen” and “state issue” refer to the sources from which property can be obtained after January 1, 1996. All items with the “canteen” designation shall be available in all institutional canteens or through canteen order. All canteen items are transferable between department institutions. “State issue” means that the institution has the authority to issue this item to inmates based upon the character of the institution, the location of the institution, the housing or work assignment of the inmate, or other factors related to institution or inmate needs. Institutions housing death row inmates shall make adjustments to this property list when possession of listed items by death row inmates would create a threat to the security of the institution.

Exemptions.

Inmates already in possession of the following previously approved items shall be allowed to retain the items until they are no longer serviceable, but shall not be allowed to replace them with like items.

- Clothing items of a different color than specified on the property list.
- Locks other than V68 series
- Plastic bowls, tumblers, cups and lids
- Pantyhose
- Nail clippers larger than 2-1/2"

THE FULL TEXT OF THE PROPOSED RULE IS:

40C-1.1101 Amendments to and Releases of Conservation Easements.

(1) This section establishes the terms and conditions under which the District shall agree to amend or release all or part of a conservation easement conveyed to it, pursuant to Section 704.06, F.S., solely for mitigation or in compliance with other regulatory requirements of the District or another governmental entity. It does not apply to conservation easements that were acquired by the District partly through purchase and partly through a regulatory program. The District’s decision to release or amend a conservation easement is a proprietary decision and does not result in any waiver of regulatory requirements. Property owners shall be responsible for obtaining all necessary permits for their construction activities, including any dredging or filling of wetlands. A request for the release or amendment of a conservation easement shall include a copy of the recorded conservation easement; a copy of any conservation easement over other property offered in exchange for the requested release or amendment; and a map showing the location of the recorded conservation easement and any conservation easement offered in exchange. For the District to agree to release or amend a conservation easement, the request for release or amendment shall satisfy the conditions of any one of the following ~~seven~~ six categories and the general condition in paragraph 40C-1.1101(1)(~~h~~)(g), F.A.C.:

(a) through (f) No change.

(g) Other Requests. For the purpose of this paragraph, “other requests” are requests for release or amendment of conservation easements that do not involve public projects as defined in paragraph 40C-1.1101(1)(c), F.A.C., or requests for release or amendment where the conservation easement that is the subject of the request is located on a single-family lot or within a permitted residential development. The District shall release or amend a conservation easement under this “other requests” category, under the following terms and conditions:

1. The entity making the request must provide the District with a conservation easement having substantially similar terms, over other lands within the same drainage basin, with the new conservation easement having equivalent or greater ecological and monetary value when compared to the conservation easement to be released or amended.

a. To establish ecological values, the District shall use the Uniform Mitigation Assessment Method (UMAM) in Chapter 62-345, F.A.C. For the conservation easement that is proposed for release or amendment, the District shall determine the

reduction in ecological value that would occur if the request were approved, based on the ecological value accorded to the conservation easement at the time of permit issuance, or the conservation easement's current ecological value, whichever is greater. For the conservation easement proposed in exchange for the release or amendment, the District shall determine the increase in ecological value that would be attributed to the new conservation easement.

b. To establish monetary values, the District shall obtain an appraisal for the conservation easement area to be released or amended and for the conservation easement offered in exchange for the release or amendment. The appraisal must be in accordance with subsection 40C-1.1101(3), F.A.C., below.

2. In addition to encumbering the lands needed to establish equivalent ecological value pursuant to subparagraph 1.a. of this paragraph, the conservation easement proposed in exchange for the release or amendment shall also encumber an additional contiguous acreage of both uplands and wetlands that is at least equal to the acreage of both uplands and wetlands to be released or amended and that provides ecological value at least equivalent to the current ecological value of both the uplands and wetlands to be released or amended. The District shall not accept additional contiguous acreage that must be enhanced or otherwise modified to provide equivalent ecological value to the current ecological value of the uplands and wetlands to be released or amended.

3. The release or amendment shall not be approved if it would adversely affect the ecological value of other conservation lands or interests in lands.

4. The decision to release or amend a conservation easement shall include consideration of the effect, if any, on the reasonable expectation of persons who own property abutting the conservation easement area that the area proposed to be released or amended would be held in perpetuity as a conservation area.

~~(h)(g)~~ No change.

(2) No change.

(3) Appraisals.

(a) through (c) No change.

(d) All appraisals shall be prepared by appraisers certified under Chapter 475, F.S.

1. Appraisals for Public Projects and Other Requests.

a. The appraisal assignment shall be to provide an opinion of market value of the District conservation easement over the release or amendment area and of the conservation easement offered in exchange. The market value of the conservation easement over the release or amendment area shall be based on the difference between the full fee simple valuation after the release or amendment and the value of the interests remaining with the person seeking the release before the release or amendment. The market value of the conservation easement over the area offered in exchange shall be based on the difference between the value of the full fee simple valuation

before the conveyance of a conservation easement and the value of the interest remaining with the grantor of the easement after conveyance of the conservation easement.

2. Single Family Lots.

a. The appraisal assignment shall be to provide an opinion of market value of the District conservation easement over the release or amendment area. The market value of the conservation easement over the release or amendment area shall be based on the difference between the value of the single-family lot after the conservation easement is released or amended and the value of the single-family lot without the conservation easement release or amendment.

(e) All appraisals shall be prepared by an appraiser selected and retained by the District.

(f) The person requesting the release or amendment shall pay the District for the cost of any appraisal and payment for the cost of the appraisal(s) shall be made before the District proceeds with the appraisal(s).

WATER MANAGEMENT DISTRICTS

St. Johns River Water Management District

RULE NO.: 40C-2.101

RULE TITLE:

Publications Incorporated by Reference

PURPOSE AND EFFECT: The purpose and effect of the proposed rule amendments will be to specify the kinds of information required for a consumptive use permit applicant to document the availability of reclaimed water for the applicant's use, as part of the applicant's evaluation of the feasibility of using reclaimed water from the reuse utility providing the information.

SUMMARY: The proposed amendments satisfy the legislative mandate of subsection 373.250(3), F.S., that each water management district implement paragraphs 373.250(3)(c) and (d), F.S., through rulemaking. Paragraph 373.250(3)(c), F.S., requires certain permit applicants for a consumptive use of water to provide (as part of their reclaimed water feasibility evaluation) written documentation from a provider of

reclaimed water (“the reuse utility”) addressing the availability of reclaimed water to the applicant. The documentation requirement of paragraph (c) applies only for an applicant whose proposed use lies within an area that is served with reclaimed water by a reuse utility or will be so served within five years, as determined by the reuse utility and provided to the district. As required by paragraph 373.250(3)(d), F.S., the proposed rule amendments would specify the content of the documentation required in paragraph (c) on the availability and costs associated with the connection to and the use of reclaimed water, to facilitate the permit applicant’s evaluation of the feasibility of using reclaimed water from the reuse utility providing the information. All the substantive amendments would appear in subsection 10.3(f) of the Applicant’s Handbook for consumptive use permits. The proposed amendment to Rule 40C-2.101, F.A.C., would revise the date of the adopted version of the Handbook, coinciding with the date on which the rule amendments would take effect.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The District has completed the “Is a SERC Required?” form for the Governor’s Office of Fiscal Accountability and Regulatory Reform (OFARR) and prepared a summary of the proposed rule amendments, which are both available on request. Based on that completed form and the summary and analysis performed by the District’s economist, the proposed rule amendments are not expected to require legislative ratification under subsection 120.541(3), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

59G-1.020 Definition of County of Residence.

For the purpose of county financial participation in the Medicaid Program, the county of residence for inpatient hospital care and nursing home care is determined by the recipient’s address information contained in the federally approved Medicaid eligibility system defined as follows:

(1) For hospital claims, whether through fee-for-service or managed care, the address is based on the current living or residential address, with the exception of when the resident lives in a nursing home. When an individual lives in a nursing home, the address is based on the prior address. A person is considered to be residing in a county when they establish or maintain a physical living arrangement, outside of a medical facility, which they or someone responsible for them, consider to be home. A visit to another county does not make a person a resident of that county, nor does a planned temporary living arrangement prior to admission in a medical facility. Except in unusual situations related to an extended visit, it makes no difference how long a person has been physically located in the county if they maintain a primary residence in another county, and intend to return to that county. In all instances the person’s intent to reside in a county is the determining factor, regardless of the length of time involved.

(2) For nursing home claims, whether through fee-for-service or managed care, the address is based on the prior address, except when an individual is admitted to a nursing home directly from a place of residence outside of the State of Florida. If the individual is admitted to a nursing home from another state, the nursing home address will be used for county billing purposes. When an applicant has been admitted to a nursing home directly from a place of residence outside of

~~the State of Florida, so that no Florida residency has been established, the certified county of residency will be considered as that county in which the nursing home is located.~~

(3) Since address information for children in custody is unavailable, counties are not responsible for these payments. In situations that are not clear cut, or otherwise unusually complicated, the determination of residency should be made on the basis of the preponderance of evidence. If a decision is not possible on this basis, the case should be referred to the Office of Social and Economic Services for determination

(s) Responsibility for property and equipment obtained under a grant cannot be transferred under any circumstances. If a sale or transfer of such property or equipment occurs within five years after a grant ends, funds must be returned to the E911 Board on a pro rata basis.

(t) The amount and availability of funds in the Trust Fund for allocation each year is subject to an annual appropriation by the Legislature. The E911 Board will adjust the funds awarded to a county based upon the availability of funds, eligibility of requested items, published quotes, increased effectiveness of grant funds, minimum system requirements for performing the needed E911 function as specified in the State E911 plan, or documented factors provided in the grant application submission.

(u) The allowable grant funding for travel expenses is limited to the authorized amounts established in Section 112.061, Florida Statutes, and the Department of Financial Services Guidelines for State Expenditures. Allowable costs for daily per diem shall not exceed \$186.00.

(v) Funding requests must include all necessary costs required for full implementation of the proposed solution including that of any third party. Should the county grant application request or grant award be less than the projected cost of the equipment or service, the county should provide verification of the ability to fund the difference. Pricing submitted cannot be contingent upon "yet to be" determined fees for products and services by the proposer or any other third party required for implementation.

(4)(a) The E911 State Grant program will operate on the following schedule:

(b) Schedule:

1. Counties submit applications: by November 1;

2. E911 Board evaluates applications: November–December;

3. E911 Board votes on applications at regularly scheduled meetings November – December;

4. E911 Board sends notification of award and issues checks to counties approved for funding: before January 30:

5. Implementation period: One year from receipt of award and funds:

6. Expiration of the right to incur costs: Two years from receipt of award and funds.

RULE NO.: 64B20-7.001
 RULE TITLE: Disciplinary Guidelines

PURPOSE AND EFFECT: The Board proposes the rule amendments to clarify language, to update existing penalties, and to set forth additional violations and appropriate penalties.

SUMMARY: The rule amendment will clarify language, to update existing penalties, and to set forth additional violations and appropriate penalties.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

64B20-7.001 Disciplinary Guidelines.

(1) Purpose. ~~The Legislature created the Board to assure protection of the public from persons who do not meet minimum requirements for safe practice or who pose a danger to the public.~~ Pursuant to Section 456.079, F.S., the Board provides within this rule disciplinary guidelines which shall be imposed upon applicants or licensees whom it regulates under Chapter 468, Part I, F.S. The purpose of this rule is to notify applicants and licensees of the ranges of penalties which will routinely be imposed unless the Board finds it necessary to deviate from the guidelines for the stated reasons given within this rule. The ranges of penalties provided below are based upon a single count violation of each provision listed; multiple counts of the violated provisions or a combination of the violations may result in a higher penalty than that for a single, isolated violation. Each range includes the lowest and highest penalty and all penalties falling between. The purposes of the imposition of discipline are to punish the applicants or licensees for violations and to deter them from future violations; to offer opportunities for rehabilitation, when appropriate; and to deter other applicants or licensees from violations.

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 38, No. 21, May 25, 2012 issue of the Florida Administrative Weekly.

The following summary of the agency’s statement of estimated regulatory costs is provided:

Approximately 170 persons apply for licenses each year that require the communicable disease course. The required 2 hour course is offered by online vendors for \$50 or less. Assume that the value of the applicant’s time is valued at \$12 per hour; the time to register for and complete the course and obtain the certificate of completion is estimated at 2.5 hours; total time cost is thus \$30. Add the cost of the course, and the total cost per affected person is estimated at \$80. However, this is a reduction from the current situation, which requires a course in HIV-AIDs in addition to a communicable disease course.

WATER MANAGEMENT DISTRICTS

The South Florida Water Management District (District) hereby gives notice on June 14, 2012, the District's Governing Board issued SFWMD Order No. 2012-064-DAO-ROW to Brian and Tammy Rayfield (Application No. 11-0818-3). The petition for waiver was received by the District on April 18, 2012. Notice of receipt of the petition requesting the waiver was published in the Florida Administrative Weekly, Vol. 38, No. 18, on May 4, 2012. No public comment was received. This Order provides a waiver of the District's criteria to allow an existing dock within the north right of way of the C-16 Canal at the rear of the east 25' of Lot 42 and the west 6' of Lot 43, Harbor Estates to remain; Section 22, Township 45 South, Range 43 East, Palm Beach County. Specifically, the Order grants a waiver from paragraph 40E-6.221(2)(j), Florida Administrative Code, and the Basis of Review for Use or Occupancy of the Works or Lands of the District, incorporated by reference in subsection 40E-6.091(1), Florida Administrative Code, which governs the low member elevation of pile-supported docking facilities within works or lands of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver as follows: 1) the dock is located downstream of the District's S-41 Water Control Structure and will not interfere with the District's operation, and routine maintenance activities; and 2) the Order granting a waiver from the subject rule is based upon substantial hardship and principles of fairness.

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice on May 24, 2012 the Division of Hotels and Restaurants received a Petition for an Emergency Variance for paragraph 61C-1.004(1)(a), Florida Administrative Code and Paragraph 5-202.11(A), 2001 FDA Food Code from Crepe Maker located in Miami. The above referenced F.A.C. addresses the requirement that each establishment have an approved plumbing system installed to transport potable water and collect wastewater. They are requesting to utilize holding tanks to provide potable water and to collect wastewater at the handwash and three-compartment sinks.

The Petition for this variance was published in Vol. 38, No. 23 on June 8, 2012. The Order for this Petition was signed on June 15, 2012 and after a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the wastewater holding tanks for the handwash and three-compartment sinks are emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that the handwash and three-compartment sinks are provided with hot and cold running water under pressure. The handwash sink must also be equipped with soap, approved hand drying device and a handwashing sign.

Section VII Notices of Petitions and Dispositions Regarding Declaratory Statements

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

NOTICE IS HEREBY GIVEN that the Construction Industry Licensing Board has issued an order disposing of the petition for declaratory statement filed by Champion Services of Florida, LLC. on March 23, 2012. The following is a summary of the agency's disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 38, No. 14, of the April 6, 2012, Florida Administrative Weekly. The Board considered the Petition at a duly-noticed public meeting held on May 11, 2012. The Petitioner requested the Board's interpretation of Chapter 489, Part I, Florida Statutes, and whether any statewide license is required when entering into a subcontract with, and supervised by, a state certified Division I contractor to demolish and remove elements and systems such as sheet metal, mechanical, plumbing and commercial pool and spa systems that have been previously disconnected and decommissioned by the appropriate Division II contractors. The Board's Order, filed on June 13, 2012, issues a declaratory statement that Petitioner is not required to have a Division 2 license when working under a Division 1 contractor to demolish and remove elements and systems, after all such items described in the petition are decommissioned by a Division 2 contractor.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

Please refer all comments to: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

NOTICE IS HEREBY GIVEN that the Construction Industry Licensing Board has issued an order disposing of the petition for declaratory statement filed by Mat Concessionaire, LLC on March 5, 2012. The following is a summary of the agency’s disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 38, No. 12, of the March 23, 2012, Florida Administrative Weekly. The Board considered the Petition at a duly-noticed public meeting held on May 11, 2012. The Petitioner requested the Board’s interpretation of Chapter 489, Chapter I, Florida Statutes, and whether licensure is required for a Florida Department of Transportation (“FDOT”) prequalified Public-Private Partnership for the financing, development, design, construction, operation and maintenance of a transportation facility project pursuant to the Public-Private Partnership Act, Section 334.30, Florida Statutes. The Board’s Order, filed on June 12, 2012, denies issuance of a declaratory statement due to lack of standing. Petitioner is not substantially affected, as required by Section 120.565, Florida Statutes. The Petitioner is currently licensed as a general contractor.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

Please refer all comments to: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

NOTICE IS HEREBY GIVEN that the Construction Industry Licensing Board has issued an order disposing of the petition for declaratory statement filed by Glenn Pereno on April 9, 2012. The following is a summary of the agency’s disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 38, No. 16, of the April 20, 2012, Florida Administrative Weekly. The Board considered the Petition at a duly-noticed public meeting held on May 11, 2012. The Petitioner is requesting an interpretation of Section 489.105(3)(b), Florida Statutes, and whether a certified building contractor can perform remodeling, repairs, or improvements of any size building including buildings up to three-story(s) when such remodeling, repairs, or improvements do not effect the structural members of a building. The Board’s Order, filed on June 13, 2012, denies issuance of a declaratory statement because the Petitioner is not substantially affected, as required by Section 120.565, Florida Statutes, as he is asking about the conduct of another and he himself has no doubt as to the interpretation of the statute in question.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

Please refer all comments to: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

NOTICE IS HEREBY GIVEN that the Construction Industry Licensing Board has issued an order disposing of the petition for declaratory statement filed by Justin Singley, Singley Construction Company on April 10, 2012. The following is a summary of the agency’s disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 38, No. 17, of the April 27, 2012, Florida Administrative Weekly. The Board considered the Petition at a duly-noticed public meeting held on May 11, 2012. The Petitioner did not state in his request which statute the Petitioner was seeking the Board to interpret. However, Petitioner appeared to be requesting an interpretation of Section 489.105(3)(p), Florida Statutes, and whether a State license is required for soil excavation where there is no tank on site. The Board’s Order, filed on June 13, 2012, denies issuance of a declaratory statement because the Petitioner is not substantially affected, as required by Section 120.565, Florida Statutes, as he is already licensed as a pollutant storage system contractor.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

Please refer all comments to: Drew Winters, Executive Director, Construction Industry Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.
