**Section II
Proposed Rules**

WATER MANAGEMENT DISTRICTS

South Florida Water Management District

RULE NOS.: RULE TITLES:
40E-41.221 Definitions
40E-41.263 Conditions for Issuance of Permits in the C-51 Basin

PURPOSE AND EFFECT: Update the District's C-51 Basin rules to reflect changes in basin conditions since the rules were originally implemented in 1987. These changes include an update to the extent of the basin boundaries and the topographic information within the basin, the installation and operation of water control facilities associated with the C-51 West project (STA-1E, the S-319 pump station, the S-155A "Divide" Structure, and the S-155 Structure), as well as the resulting changes in the allowable 10-year, three-day peak discharge rates and the minimum 100-year, 3-day finished floor elevations.

SUMMARY: The proposed rules update Figures 41-5, 41-6, 41-7 and 41-8 to revise sub-basin boundaries and the overall boundary of the C-51 Basin due to the addition or subtraction of areas from the basin as determined by contemporary discharge patterns; revise the 10-year, 3-day peak discharge coefficients used in establishing the 10-year, 3-day allowable peak discharge rate; consolidate Figure 41-9 with Figure 41-8; correct typographical error in Rule 40E-41.263(1)(b), F.A.C., from 27 "cfs" to 27 "CSM" to be consistent with Appendix A of the "Environmental Resource Permit Applicant's Handbook Volume II: For Use Within the Geographic Limits of the South Florida Water Management District"; and revise the 1-in-100 year storm elevations used, in part, to establish minimum finished floor elevations as well as compensatory soil and surface storage volumes. The updated Figures 41-5 through 41-8 are available online at www.sfwmd.gov/rules, C-51 Basin Rule, C-51 Notice of Proposed Rule – August 13, 2015 (under Documents).

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS (SERC) AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business and will likely not increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rules. A SERC has been prepared by the Agency.

The proposed rules revise current rules for Environmental Resource Permit applications; therefore, there are no material incremental regulatory burdens associated with the proposed rules. There is a possibility of some “de novo” construction costs arising for some projects out of the proposed rule revision. However, on an overall C-51 Basin-wide basis, there should be net benefit savings from the rule update.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the SERC, or if no SERC is required, the information expressly relied upon and described herein: from an analysis of basin economic data and trends it is likely that the proposed rules will not have an adverse impact on economic growth, private-sector job creation or employment, or private-sector investment in excess of \$1 million (in the aggregate) within 5 years after the rule’s implementation.

Any person who wishes to provide information regarding a SERC, or provide a proposal for a lower cost regulatory alternative, must do so in writing within 21 days of this notice. RULEMAKING AUTHORITY: 373.044, 373.113, 373.4131 FS.

LAW IMPLEMENTED: 373.085, 373.086, 373.413, 373.416 FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: October 8, 2015, 9:00 a.m.

PLACE: South Florida Water Management District, B-1 Auditorium, 3301 Gun Club Road, West Palm Beach, FL 33406

64B9-6.002 Biennial Renewal of Inactive Status

PURPOSE AND EFFECT: This rule is being repealed because it restates the statute.

SUMMARY: Repeal rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members and the substance of the repealed rule, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary because the rule does not impose additional rights, obligations, or duties on any persons or businesses, and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

DEPARTMENT OF ENVIRONMENTAL PROTECTION
 NOTICE OF PROPOSED WATER QUALITY STUDY

Pursuant to subsection 62-650.500(6), Florida Administrative Code (F.A.C.), the Florida Department of Environmental Protection (Department) gives notice of the intent of Telogia Power, L.L.C., to conduct a study of water quality in an unnamed tributary to Stokes Branch and Stokes Branch, to which the company currently discharges under its wastewater permit (No. FL0039951). One purpose of the study is to establish appropriate numeric interpretations of the narrative water quality standard for nutrients for this existing discharge. At the conclusion of the study, these numeric interpretations may be established in the form of Site Specific Alternative Criteria (SSAC), Water Quality Based Effluent Limits (WQBELs), or other site-specific order of the Department. In addition, the study is designed to collect water quality and biological data to support potential SSAC development for dissolved oxygen (DO) and specific conductance within the same stream segments.

Any interested person may submit written comments on the plan of study (POS) to Kaitlyn Summerfield with the Division of Environmental Assessment and Restoration, Department of Environmental Protection, 2600 Blair Stone Road, M.S. 6511, Tallahassee, FL 32399-2400 or email: Kaitlyn.Summerfield@dep.state.fl.us. Comments must be received within 14 days of publication of this notice.

In response to comments received pertaining to the POS prior to the proposed commencement date, the applicant may revise the POS if necessary. If there are any revisions to the POS, they must be approved by the Department.

Although the Department may allow for informal dispute resolution during the study period, the study is free form agency decision making and does not constitute proposed agency action until notice of such is given pursuant to subsection 62-650.500(8), F.A.C.

Upon request, the POS is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, 2600 Blair Stone Road, Room 238G, Tallahassee, FL 32399, (850)-245-8819 or electronically by email: Kaitlyn.Summerfield@dep.state.fl.us.
