THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

6M-8.601 Voluntary Prekindergarten (VPK) Provider Kindergarten Readiness Rate.

(1) Purpose. The purpose of this rule is to implement the requirements of Section 1002.69, F.S.

(2) Accuracy of Data.

(a) Prior to the calculation of the final VPK Provider Kindergarten Readiness Rate, as described in subsection (3) of this rule, private and public school VPK providers shall have the opportunity to review a preliminary readiness rate which includes a cumulative list of all of the children served in their program and the total number of hours they attended.

(b) If a private or public provider disputes the accuracy of the cumulative list of VPK participants or the total number of hours the VPK participants attended when such change would result in their inclusion or exclusion in the calculation of the VPK Provider Kindergarten Readiness Rate, as measured by the threshold of seventy (70) percent, as described in subparagraph (3)(a)1., of this rule, the provider may submit corrective information to the Office of Early Learning Department of Education within the review period described below after publication of the cumulative list on the Office's readiness rate Department's website (vpk.fldoe.org). The processes described in this rule shall be conducted on the Office's readiness rate website (vpk.fldoe.org), which is hereby adopted by reference. ~~The Department, in collaboration with Florida's Office of Early Learning and the respective Early Learning Coalition, shall review the corrective information and accept or reject the requested corrective information within the review period described below.~~

(c) If a private or public school provider disputes the accuracy of the preliminary VPK Provider Kindergarten Readiness Rate as published on the Office's Department's website or if a private provider disputes ownership ~~at the time of the 2009-10 VPK program~~, the provider may file a dispute on the Office's Department's website and submit documentation to the Office Department for its review and consideration after publication of the preliminary rate. This review period shall be at least less than twenty-one (21) days following publication of the preliminary readiness rate. The Office and the respective Early Learning Coalition Department shall review and accept or reject any changes to the data within fourteen (14) days after the close of the review period. The VPK Provider Kindergarten Readiness Rate will be recalculated in accordance with the method described in subsection (3) of this rule.

(3) Criteria for Inclusion in and Calculations of the VPK Readiness Rate.

(a) After the conclusion of the review of the data described in subsection (2) of this rule, the Office Department shall calculate the Kindergarten Readiness Rate for each private or public school VPK provider of either the school year (five hundred forty (540) hour) or summer (three hundred (300) hour) program that served at least four (4) children who:

1. Attended the VPK program for seventy (70) percent or more of the total number of instructional hours; and

2. Are matched to a valid score on ~~both~~ of the kindergarten screening measure.

(b) Calculation of the VPK readiness rate:

1. ~~Kindergarten student scores on the Florida Assessments for Instruction in Reading (FAIR) assessment administered during the first thirty (30) days of the school year must demonstrate a probability of reading success of .67 or high to be considered "ready for kindergarten."~~ Kindergarten student scores on the Work Sampling System (WSS) Early Childhood Observation System (ECHOS) must indicate that these behaviors are the student is either "In Progress" or "Proficient" ~~"emerging/progressing"~~ or ~~"demonstrating"~~ to be considered "ready for kindergarten." In order for a provider to be considered to have successfully administered the VPK program, the provider must have seventy (70) percent of children ready using the calculation in this section. A provider failing to meet this standard will be placed on probation.

2. The "Percent of Children Ready for Kindergarten" shall be calculated as the number of "Children Ready for Kindergarten" on the both screening measures divided by the total number of "Children in the Readiness Rate Calculation" ~~"Children Screened"~~ meeting the requirements ~~set by the State Board of Education~~ in subparagraphs (3)(a)1. and (3)(a)2., of this rule.

(c) If a private or public school provider does not meet the criteria described above, information as to why the provider was not included in the VPK Provider Readiness Rate calculation shall be displayed on the VPK Provider Profile required by Section 1002.53(5), F.S.

(d) The Department shall publish each VPK program provider's readiness rate.

(4) VPK Provider Kindergarten Readiness Rates. VPK Provider Kindergarten Readiness Rates shall be binding on new private VPK owners if the change of ownership occurred at a point in time in which seventy (70) percent or more of the VPK school-year or summer program remained for that program type. For the purpose of this rule, a change of ownership does not include the sale or transfer to family members or persons with a pre-existing ownership interest in the business.

(a) Where a change of ownership has occurred and a person with previous ownership interest maintains a business or employment interest in the business, that provider shall be bound to the readiness rates attributed to the provider prior to the change of ownership.

(b) When no sale occurs and a provider closes and a new entity opens as a VPK provider at the same location and the previous owner has an interest, either ownership or employment in the new entity, the previous readiness rates shall be binding on the new provider.

(c) In the event that a provider changes the physical location of the provider, the previous readiness rates shall be binding on that provider regardless of a change in address, name, or child care license number.

(d) In the event that the provider is sold to a person who was employed by the business within the last two (2) years prior to the sale, the previous readiness rates shall be binding on the provider.

(5) Providers Placed on Probation. If the readiness rate of a private or public VPK provider falls below the minimum rate adopted by the ~~Office State Board~~, the provider shall be placed on probation ~~and— notified of such each designation, by the Department, and The provider shall~~ acknowledge such designation on the ~~Office's Department's~~ readiness rate website within twenty-one (21) days of the release of the final readiness rates. State Board of Education's adoption of the minimum readiness rate.

(a) As a result of the calculation of readiness rates, providers on probation will fall into one of the following status categories:

1. Provider on Probation, Year 1 (POP1). POP1 are defined and subject to Rule 6M-8.700, F.A.C.

2. Provider on Probation, Year 2 (POP2). POP2 are defined and subject to Rule 6M-8.701, F.A.C.

3. Provider on Probation, Year 3 (POP3) or higher. POP3 or higher (i.e., POP4, POP5, etc.) defined and subject to Rule 6M-8.701, F.A.C. and Rule 6M-8.603. Depending upon the outcome of a good cause exemption application, a provider in this status may be subject to Rule 6M-8.702.

4. Provider on Probation without a current readiness rate. A provider who was previously on probation but did not receive a readiness rate in the following year remains as a provider on probation in the same year status (i.e., POP1, POP2, etc.). A provider in this status is subject to the rule(s) associated with the number of years they have been designated a Provider on Probation.

## Section II Proposed Rules

### DEPARTMENT OF ENVIRONMENTAL PROTECTION

RULE NOS.:	RULE TITLES:
62-701.210	Documents Incorporated by Reference
62-701.730	Construction and Demolition Debris Disposal and Recycling
62-701.900	Forms

PURPOSE AND EFFECT: The Department is proposing to amend Chapter 62-701, F.A.C., which contains regulations for a wide variety of solid waste facilities including landfills, construction and demolition (C&D) debris disposal facilities, and waste processing and recycling facilities. This chapter was last amended with an effective date of June 11, 2015. The proposed amendments address a requirement in paragraph 403.707(9)(g), F.S., to process construction and demolition debris prior to disposal, to the extent economically feasible. In addition, changes are being proposed to implement a request by the Joint Administrative Procedures Committee (JAPC) to incorporate certain secondary references. The Department is also proposing a new form for facilities to use in certifying their efforts to process construction and demolition debris prior to disposal, if it is economically feasible.

SUMMARY: This chapter is being amended in two places to address the requirement that construction and demolition debris be processed prior to disposal, either at a permitted materials recovery facility or at a permitted disposal facility, to the extent economically feasible. Rule language addressing the requirements of this new law are being added to paragraph 62-701.730(13)(e), F.A.C., and a new form whereby facility owners and operators can certify that they evaluated the economic feasibility of processing construction and demolition debris prior to disposal is being added to rule 62-701.900, F.A.C. Finally, at the request of JAPC, the

Department is adding subsection 62-701.210(21), F.A.C., to incorporate secondary references in the chapter that are required practices as part of the primary referenced documents that are already included in the chapter.

(a) through (d) No change.

(e) The owner or operator of any permitted materials recovery or disposal facility that accepts dedicated loads of construction and demolition debris shall ensure that such materials are processed, to the extent economically feasible, to remove recyclable materials prior to disposal. The owner or operator of such a facility shall evaluate the economic feasibility of processing to remove recyclable materials prior to disposal, and shall certify that they have evaluated the economic feasibility for processing construction and demolition debris. The certification shall indicate the economic factors that were considered in the evaluation, the types of construction and demolition debris materials that were evaluated, and whether it was determined that processing to remove recyclable materials prior to disposal was economically feasible. The evaluation and certification shall be documented on Form 62-701.900(36), Certification of Economic Feasibility to Process C&D Debris Prior to Disposal, effective date [eff. date], hereby adopted and incorporated by reference. This certification shall be completed no later than [eff. date plus 180 days] for existing facilities, or prior to operating a new facility on or after [eff. date]. Thereafter, the evaluation and certification shall be completed at least annually. Where an owner or operator becomes aware of changed conditions that they believe warrant discontinuing processing to remove recyclable materials prior to disposal, the owner or operator may temporarily discontinue such processing for a period of up to 12 months; however, such changed conditions shall be incorporated in the next evaluation and certification on Form 62-701.900(36). Documentation of each evaluation and certification shall be kept at the facility and made available to the Department upon request, along with supporting documentation for the items considered in the course of the economic evaluation. If the owner or operator determines that it is economically feasible to process some or all of a material being accepted, but the material currently is not being processed, then such material shall be processed prior to disposal to remove the fraction of the recyclable material to

the extent economically feasible no later than three months after completion of any process changes that were identified by the owner or operator as part of the associated economic feasibility evaluation. Reporting the amounts of any recovered materials separated from the waste stream shall continue to be provided in accordance with the requirements of Chapter 62-722, F.A.C. Other than the referenced provisions of Chapter 62-722 F.A.C., this paragraph does not apply to:

- 1. Recovered materials;
- 2. Materials that have previously been source-separated and offered for recycling;
- 3. Materials that have been previously processed to remove recyclable materials; or,
- 4. Off-site disposal of yard trash authorized in accordance with Rule 62-701.803, F.A.C.
