Division of Agricultural Water Policy

RULE NOS.:	RULE TITLES:
5M-1.001	Definitions
5M-1.008	Implementation Verification
5M-1.009	Best Management Practices Implementation Assistance

PURPOSE AND EFFECT: Adopts definitions; creates a system for verification of implementation of best management practices for agriculture; identifies means of verification of implementation.

SUMMARY: This rule adopts a system for verification of implementation of best management practices for agriculture and for addressing producers who are determined to not be implementing best management practices.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

The proposed rule includes provision for producers enrolled in the Best Management Practices (BMP) program to perform an annual self-verification of implementation of BMPs. The system being created for this self-verification will allow it to be completed via a web portal. The process and the form have been designed to be completed by the average producer in less than 30 minutes when done the first time; subsequent self-verifications should take less time. The self-verification is the only requirement of the proposed rule that exceeds current requirements of producers. Given the estimated time required, the number of producers subject to the rule, and the estimated cost to the producers, the first year cost is estimated to be \$224,115. Because the self-verification is expected to take less time to complete in subsequent years, the cost over the first 5 years will be approximately \$896,580, for an average of \$179,316 per year.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 403.067(7)(d)2.c., 570.07(10), 570.07(23), FS.

LAW IMPLEMENTED: 403.067(7)(d)2.c., FS.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members and the substance of the rule amendment, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary because the rule has no impact on any persons or businesses; and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
