RULE NO.: RULE TITLE:

59A-3.272 Governing Body

PURPOSE AND EFFECT: The Agency is proposing to amend this rule to clarify language, change a phrase to align with statute, and expand protection to additional licensed professionals considered for the governing board.

SUMMARY: This revision will clarify language and align terminology with statute.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: A SERC has not been prepared by the agency. For rules listed where no SERC was prepared, the Agency prepared a checklist for each rule to determine the necessity for a SERC. Based on this information at the time of the analysis and pursuant to section 120.541, Florida Statutes, the rule will not require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

The delineation of privileges shall not be stated simply as a specialty designation, such as "general surgery" or "general medicine" unless such terms are specifically defined elsewhere.

(e) The governing board body shall require that eligibility for privileges, delineation of privileges, and reappointments, be based on the applicant's background, experience, health, training, demonstrated current competence, adherence to applicable professional ethics, reputation, ability to work with others, ability of the hospital to provide adequate facilities and

supportive services for the applicant and his patients, and such other elements as the governing board body determines that are not inconsistent with this part.

to how well a child develops socially and emotionally. Understanding infant mental health is the key to preventing and treating the mental health problems of very young children and their families. The first years of life provide the foundation for children’s mental health and their social-emotional development.

The Department of Children and Families will host seven meetings throughout the State to discuss infant and early childhood mental health. The Department would like to invite infant and early mental health providers to join the discussion on infant and early childhood mental health services, and best practices.

Through the collaboration of all involved, attendees will come together to identify community resources to provide guidance, best practices, interventions, and connections to promote infant and early childhood mental health services.

The purpose of these meetings is to gather early childhood partners to discuss what is happening around the state, facilitate connections, and discuss next steps towards supporting services for early childhood mental health.

Providers and those involved with the 0-5 population are invited to attend. Seven meetings have been scheduled.

NOTICE IS HEREBY GIVEN that the Florida Office of Financial Regulation has issued an order disposing of the petition for declaratory statement filed by C2 Financial Corporation on June 07, 2018. The following is a summary of the agency's disposition of the petition:

On 6/7/2018, the Florida Office of Financial Regulation (Consumer Finance) received a Petition for Declaratory Statement from C2 Financial Corporation.
