Section II Proposed Rules

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Division of Agricultural Environmental Services

RULE NOS.: RULE TITLES:
5E-14.142 Responsibilities and Duties - Records,
 Reports, Advertising, Applications
5E-14.149 Enforcement and Penalties

PURPOSE AND EFFECT: The proposed rules are being developed to clarify recordkeeping requirements for pest control business licensees, to clarify the type of pest control business changes that require a licensee to notify their contract holders, and to adopt more specific language clarifying the issuance of a notice of noncompliance, specifically what constitutes a minor rule violation as defined in Section 120.695 F.S. In addition, language is being proposed to establish that a violation of Section 482.121 F.S. is a major violation. Finally, two additional types of criminal convictions are added to the list for which denial of pest control licensure is authorized.

SUMMARY: Clarification is needed in subsection 5E-14.142(1) regarding recordkeeping. A specific timeframe is not currently stated for the length of time that records are required to be kept at the licensed business locations. A two-year period is proposed for retention of such records and also for records relating to the application of Restricted Use Pesticides. In addition, language is stricken from subsection 5E-14.142(7) to clarify that licensees must notify all contract holders and the department of any change to the licensee’s business location and of any changes relating to responsibility for existing pest control contracts. Changes in subsection 5E-14.149(6) pertaining to the addition of Notice of Noncompliance language are in accordance with the requirements outlined in Section 120.695 F.S., which states that the department is to issue a notice of noncompliance as a first response to a minor violation of a rule. In addition, the rule changes will establish penalties for violations of Section 482.091, F.S. It is also being proposed that a violation of Section 482.121 F.S., misuse of a certified operator certificate, now be considered a major violation. Further it is proposed that subsection (5)(c) is modified to include two additional conditions upon which the department may deny licensure for criminal convictions directly related to the practice of pest control.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within

one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: There are no adverse regulatory impacts associated with implementing this rule. The proposed modifications serve to provide clarification regarding the period for which pest control records must be maintained, to specify the significant alterations to licensee business information that require notification of contract-holders, and to delineate minor, intermediate and major violations and the associated enforcement actions the department may take for such violations. These changes are intended to facilitate industry compliance and enhance consumer protections. They will impose negligible administrative costs which will not adversely affect small businesses or pest control operators. The adverse impact or potential regulatory costs of the proposed rule modifications did not exceed any of the criteria established in Section 120.541(2)(a), Florida Statute. Additionally, no interested parties have submitted information regarding the economic impact of the proposed changes.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
