PURPOSE AND EFFECT: The purpose of the amendment is to remove old text in reference.

SUMMARY: Update rule text.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

RULE NOS.: RULE TITLES:
 62-701.220 General Applicability
 62-701.310 Approval of Alternate Procedures and Requirements
 62-701.805 Coal Combustion Residuals Facility Permitting Requirements and Procedures
 62-701.900 Forms

PURPOSE AND EFFECT: The purpose and effect of the proposed rule development is to add a new rule to Chapter 62-701, F.A.C., in order to adopt procedures in Rule 62-701.805, F.A.C., by which the Department of Environmental Protection will issue Coal Combustion Residuals (CCR) Permits to facilities in Florida that are currently required to comply with the requirements in 40 CFR Part 257.50 through 257.107, which will be adopted separately through the Fast Track rulemaking process under s. 403.8055, F.S., as Rule 62-701.804, F.A.C.

SUMMARY: This proposed rule will specify the requirements of a State CCR Permitting Program for CCR landfills and CCR surface impoundments. Federal rule 40 CFR Part 257 became effective on April 19, 2015, and CCR facilities in Florida have been required to complete applicable federal requirements since that time, along with compliance with separate state specific requirements in Chapter 62-701, F.A.C. Adoption of these rules and adopting by reference parts of 40 CFR Part 257 through the Fast Track process for Rule 62-701.804, F.A.C., will provide CCR facilities in Florida one set of rules to comply with resulting in a more streamlined permitting process.

OTHER RULES INCORPORATING THIS RULE: 62-110.104, 62-113.200, 62-704.400, 62-704.410, 62-709.300, 62-709.530, 62-710.401, 62-710.800, 62-711.500, 62-711.520, 62-711.530, 62-711.550, 62-711.801, 62-713.220, 62-713.300, 62-713.400, 62-713.600, 62-716.470, 62-722.400, 62-737.840, FS.

EFFECT ON THOSE OTHER RULES: Amendments to Chapter 62-701, F.A.C., in this Notice of Proposed Rule are not expected to have any significant impact on other rules incorporating this rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

This rule will not impact small businesses, however, the proposed rule will specify the requirements of a State CCR Permitting Program and is expected to result in only a minor increase in regulation for facilities that currently are required to manage CCR materials.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: This rule will not require legislative ratification based on the SERC. The proposed rule will specify the requirements of a State CCR Permitting Program and is expected to result in only a minor increase in regulation for facilities that currently are required to manage CCR materials.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 403.061, 403.0877, 403.704, 403.707, 403.7125, FS.

2. A modification which does not require substantial technical evaluation by the Department, does not require a new site inspection by the Department, and is not expected to lead to substantially different environmental impacts or will lessen the impacts of the original permit is considered a minor modification, the fee for which is set forth in paragraph 62-4.050(4)(s), F.A.C.

3. A modification which is reasonably expected to lead to substantially different environmental impacts which require a detailed review by the Department is considered a substantial modification, the fee for which is set forth in subsection 62-4.050(7), F.A.C.

4. A modification which is reasonably expected to lead to substantially different environmental impacts, but which requires a less detailed review than does a substantial modification, is considered an intermediate modification, the fee for which is one-half of that required for a substantial modification.

5. The public notice requirements for CCR permits modified by the Department are specified in section 403.815, F.S., section 403.707, F.S., Rule 62-110.106, F.A.C., and Rule 62-701.320, F.A.C.

(d) Coal Combustion Residual Unit Permit Renewals

1. A renewal application shall be timely and sufficient. If the renewal application is submitted prior to sixty days before expiration of the existing permit, it will be considered timely and sufficient. If the renewal application is submitted at a later date, it will not be considered timely and sufficient unless it is submitted and made complete prior to the expiration of the existing permit. When the application for renewal is timely and sufficient, the existing permit shall remain in effect until the renewal application has been finally acted upon by the Department or as otherwise provided in section 120.60, F.S.

2. Applicants for permit renewal shall demonstrate how they will comply with any applicable new or revised laws or rules relating to construction, operation, or closure of CCR units. Closure plans shall be updated at least once every five years to reflect changes in closure design, long-term care requirements, and financial assurance requirements.

3. Facility information that was submitted to the Department to support the expiring permit, and which is still valid, does not need to be resubmitted for permit renewal. The permit renewal application shall list and reaffirm that the information is still valid.

(e) CCR Unit Permit Transfers.

1. Any person wishing to transfer a CCR unit permit shall submit such a request using Form 62-701.900(8), Permit

Transfer Form, incorporated by reference in paragraph 62-701.320(11)(a), F.A.C. The form must be completed with the signatures of both the permittee and the proposed new permittee and submitted to the Department's Solid Waste Section in Tallahassee.

2. A transfer of permit is required upon the sale or transfer of a facility. A transfer of permit is also required if a new or different person takes ownership or control of the facility. A transfer of permit is not required if the facility simply changes its name, although the permittee must notify the Department of such a change using Form 62-701.900(8). A transfer of permit is also not required solely as a result of the sale of stock or assets or a change of operating personnel, as long as ownership or control of the facility has not changed. A permittee may apply for a permit transfer prior to the sale or change of control of the facility, but the permit transfer shall not be effective prior to the sale or change of control.

3. The proposed new permittee shall provide reasonable assurance that it has the ability to comply with the conditions of the existing permit, that it either owns the property or has legal authorization from the property owner to use the site, and that it meets any financial assurance requirements of the permit or applicable rules.

4. Within 30 days of receipt of an application for permit transfer, the Department shall request additional information if the application is not complete. Within 30 days of receipt of a complete application, the Department shall either approve or deny the permit transfer. The Department's determination shall be based solely on its evaluation of the requirements in paragraphs (a) through (c) above. If the Department fails to take action to approve or deny the transfer within 30 days of receipt of a complete application, the transfer shall be deemed approved.

5. Until this transfer is approved by the Department, the permittee and any other person constructing, operating, or maintaining the permitted facility shall be liable for compliance with the terms of the permit. The permittee seeking to transfer the permit shall remain liable for corrective actions that may be required as a result of any violations occurring prior to the sale or legal transfer of the facility. If the existing permittee is under a continuing obligation to perform corrective actions as a result of a Department enforcement action or consent order, the permit may not be transferred until the proposed new permittee agrees in writing to accept responsibility for performing such corrective actions.

6. If financial assurance for closure is required for the permit being transferred, the existing permittee shall maintain that financial assurance until the Department approval of the transfer is final. The proposed new permittee shall also provide financial assurance before the transfer is approved by the Department.

64B6-5.001 Continuing Education as a Condition for Renewal

PURPOSE AND EFFECT: The proposed rule amendment is intended to revise the rule language regarding continuing education as a condition for renewal.

SUMMARY: The proposed rule amendment updates the rule language regarding continuing education as a condition for renewal.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No

person or interested party submitted additional information regarding the economic impact at that time.

64B6-7.002 Guidelines for Disposition of Disciplinary Cases.

(1) Purpose. The Board provides within this rule disciplinary guidelines which shall be imposed upon applicants or licensees whom it regulates under Chapter 484, F.S., or a telehealth provider registered under section 456.47(4), F.S. The purpose of this rule is to notify applicants and licensees of the ranges of penalties which will routinely be imposed unless the Board finds it necessary to deviate from the guidelines for the stated reasons given within this rule. The ranges of penalties provided below are based upon a single count violation of each provision listed and are also provided for repeat violations;

multiple counts of the violated provisions or a combination of the violations may result in a higher penalty than that for a single, isolated violation. Each range includes the lowest and highest penalty and all penalties falling between. The purposes of the imposition of discipline are to punish the applicants, licensees, or trainees for violations and to deter them from future violations; to offer opportunities for rehabilitation, when appropriate; and to deter other applicants, licensees, or trainees from violations.

(2) Violations and Range of Penalties. For applicants, all violations are sufficient for refusal to certify an application for licensure. For licensees or trainees, the imposition of probation as a penalty shall ordinarily require compliance with conditions such as restitution, continuing education and/or training, indirect or direct supervision by a Board-approved monitor, restrictions on practice, submission of reports, appearances before the Board, and/or hours of community service. As appropriate, such conditions of probation also shall be required following any period of suspension. In addition to any other discipline imposed, the Board shall assess the actual costs related to the investigation and prosecution of a case. In imposing discipline pursuant to Sections 120.57(1) and 120.57(2), F.S., the Board shall act in accordance with the following disciplinary guidelines and shall impose a penalty as authorized by Section 456.072(2), F.S., within the range corresponding to the violations set forth below. Pursuant to section 456.47, F.S., disciplinary guidelines for registered out-of-state telehealth providers may include suspension or revocation of the provider's registration or the issuance of a reprimand or letter of concern. A suspension may be accompanied by a corrective action plan as determined by the board. The verbal identification of offenses are descriptive only; the full language of each statutory provision cited must be consulted in order to determine the conduct included:

(a) Section 484.056(1)(a), F.S.: Violating Section 456.072(1), 484.0512, or 484.053, F.S.— restitution if applicable and from a minimum fine of \$100 and/or a letter of concern to a maximum fine of \$7,500 and/or revocation. For a second offense, from a minimum fine of \$300 and/or a year of probation to a maximum fine of \$10,000 and/or revocation. WATER MANAGEMENT DISTRICTS

South Florida Water Management District

RULE NO.: RULE TITLE:

40E-63.410 Waivers

The South Florida Water Management District hereby gives notice: On July 2, 2021, the District denied the Devils Garden Investment LLC’s (Petitioner) Request for Waiver from Chapter 40E-63, F.A.C., requirements. Chapter 40E-63, F.A.C., provides that all lands within the C-139 Basin are users of the Works of the District within the C-139 Basin and must obtain a permit unless expressly exempt. Petitioner requested a waiver in accordance with Rule 40E-63.410, F.A.C., which allows for waivers from the requirement to obtain a permit when evidence is submitted to the District demonstrating that any water discharged from the petitioner’s property does not use the Works of the District within the C-139 Basin. The District received the petition for waiver on June 7, 2021. Notice of receipt of the petition requesting the waiver was published in the Florida Administrative Register, Vol. 47, No. 115 on June 15, 2021. No public comment was received. This denial is based on the following: 1) Petitioner’s property connects to or makes use of a Works of the District within the C-139 Basin, and is therefore, not entitled to a waiver of the Chapter 40E-63, F.A.C., requirements; 2) Petitioner failed to demonstrate that application of the Chapter 40E-63, F.A.C., requirements would create a substantial hardship or violate the principals of fairness as required under Section 120.542, F.S.; and 3) Petitioner did not provide the District with reasonable assurance demonstrating that the purpose of Chapter 373, F.S., will be achieved by other means if the waiver were granted.

A copy of the Order or additional information may be obtained by contacting: Aubrey Frye at the South Florida Water Management District, 3301 Gun Club Road, West Palm Beach, FL 33406-4680, telephone: (561)682-2642, or by email at: afrye@sfwmd.gov.

DEPARTMENT OF HEALTH

Board of Osteopathic Medicine

The Board of Osteopathic Medicine hereby gives notice: of the issuance of an Order regarding the Petition for Variance or Waiver, filed on January 14, 2020, by Pamela Hughes, D.O. The Notice of Petition for Variance or Waiver was published in Vol. 46, No. 11, of the January 16, 2020, Florida Administrative Register. Petitioner sought a variance and waiver of Rule 64B15-13.001, Florida Administrative Code, requiring for biennial renewal CME to be in live lecture format.
