60Y-5.008 Petition for Relief from an Unlawful Employment Practice.

(1) Petition. A complainant may file a Petition for Relief from an Unlawful Employment Practice within 35 days of the Date of Determination of Reasonable Cause, No Reasonable Cause, No Jurisdiction or Untimeliness. In the event that the Commission does not issue a determination within 180 days after the complaint was filed, a complainant may also file a Petition for Relief from an Unlawful Employment Practice within 35 days of the date the Commission certifies mailing the notice required under section 760.11(8)(b), Florida Statutes. A complainant who is not represented by an attorney may file a Petition for Relief without copies or proof of service, and the Clerk shall prepare copies and serve them upon all other parties.

(2) For good cause shown, the Chairperson may grant an extension of time to file the Petition for Relief from an Unlawful Employment Practice, provided the motion for extension of time is filed within the 35-day period prescribed by subsection 60Y-5.008(1), F.A.C.

(3) Procedures. Petitions for Relief, and proceedings thereupon, are governed by the provisions of Chapters 28-106 and 60Y-4, F.A.C., except as otherwise provided by this section.

(4) Class Allegations.

(a) The petition may include an allegation that the respondent has acted or refused to act on grounds generally

applicable to a class, in which case the petition shall also include a description of the class of persons allegedly affected.

(b) If the petition contains class allegations, the administrative law judge, on motion of a party, may include in the recommended order a proposed certification of the class if:

1. The class is so numerous that joinder of all members is impractical,

2. There are questions of law or fact common to the class,

3. The claims of the petitioner are typical of the claims of the class, and

4. The petitioner will fairly and adequately protect the interests of the class.

However, the administrative law judge shall not initially consider other class issues unless it is determined that such consideration will not cause undue delay to the completion of the hearing.

(5) Final Orders; Relief; Remand. Upon consideration of a recommended order, the Commission or Panel may order that the petition and complaint be dismissed or may determine that an unlawful employment practice has occurred. In the event the Commission or Panel determines that an unlawful employment practice has occurred, it shall issue an order prohibiting the practice and providing relief from the effects of the practice. If the Commission or Panel finds that the proceeding is properly maintained as a class proceeding, the order of the Commission or Panel may direct a remand to the administrative law judge of any class issue which the Commission or Panel has not determined. The order of the Commission or Panel shall constitute final agency action as to all matters except those which are remanded to the administrative law judge.

(6) Proceedings After Remand. An order of remand, pursuant to subsection (5), or a subsequent order of the administrative law judge, may direct that notice of pendency of the proceeding be served upon members of the class. Such an order shall specify the manner of service of the notice and the person responsible for service. Any member of the class who does not, within 15 days of service of the notice of pendency or within such other time as the order may provide, file with the Commission an election of non- participation in the class shall be bound by an order of the Commission or Panel made subsequent to the giving of such notice.

The dismissal operates

with prejudice with respect to Petitioner’s Chapter 760, F.S., administrative remedies and constitutes final agency action. Rulemaking Authority 760.06(132) FS. Law Implemented 760.06, 760.10 FS. Finally, Rule 69U-110.021,

F.A.C., is updated to include the agency’s mailing and email addresses for filings.

The Florida Department of Transportation, District One announces a public meeting to which all persons are invited.

DATE AND TIME: March 23, 2021, 5:00 p.m. – 7:00 p.m.

PLACE: Harbourside Ballroom (Dining Room) located at 3000 Harbourside Ballroom, Longboat Key, FL 34228

GENERAL SUBJECT MATTER TO BE CONSIDERED: This Hybrid Public Kickoff Meeting will be held online on the project website, www.swflroads.com/sr789/longboatkey and with a live in-person component.

The PD&E study is being conducted to evaluate and document potential engineering and environmental effects of the proposed alternatives. During the PD&E process, FDOT will develop alternatives and provide opportunities for your input. Alternatives to be evaluated will include rehabilitation of the existing bridge as well as replacement. Each alternative will be evaluated to determine social and environmental impacts,

safety needs, additional right-of-way, and traffic performance. Throughout this process, FDOT will consider a “no-build” option which assumes no improvements to SR 789 (Longboat Key) other than routine maintenance. If the study results in the selection of a “build” alternative, the project can proceed to the design phase, during which construction plans are prepared.

The Hybrid Public Kickoff Meeting will consist of project meeting materials available online for review and comment for 18 days, from Tuesday, March 16, 2021 through Friday, April 2, 2021. The live component will be held on Tuesday, March 23, 2021, 5:00 p.m. – 7:00 p.m. at the Harbourside Ballroom (Dining Room), located at 3000 Harbourside Ballroom, Longboat Key, FL 34228. To attend the live in-person component, you will need to go through the guard-gate on Bay Isles Parkway and state you are attending the meeting, then take a left and then take the first right. The same information will be presented at both the live in-person component and online component on the project website so attending both is not needed.

After reviewing the meeting materials, you can submit any comments that you may have on the project in four ways: through links on the project website, by emailing the FDOT Project Manager, Patrick Bateman, P.E., at patrick.bateman@dot.state.fl.us, mailing your comment to Patrick Bateman, P.E. at FDOT District One, MS 1-40, P.O. Box 1249, Bartow, FL 33831, or submitting a written comment at the live component on March 23, 2021. Please note that comments must be received (or postmarked if mailed) by April 2, 2021, to be part of the meeting record.

We encourage you to participate in the online component and for you to submit any questions you may have through the project website or contact the FDOT Project Manager, Patrick Bateman, P.E. A member of the project team will follow up with you to address your question(s). Also, the project team will post a summary of the comments received during the kickoff meeting and responses to the project website approximately 30 days following the end of the comment period.

FDOT is sending notices to property owners located a minimum of 300 feet on either side of roadway within the project limits, as well as additional surrounding areas. We encourage all interested people to participate and express their views regarding the project and information presented.

FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at 1(863)519-2287, or email at cynthia.sykes@dot.state.fl.us at least seven days prior to the public kickoff meeting.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated December 14, 2016, and executed by FHWA and FDOT.

Florida International University

FIU- BT-927 Trish & Dan Bell Chapel & BT-929 East Loop Road Realignment A/E

NOTICE TO ARCHITECT/ENGINEERS

BT-927 Trish & Dan Bell Chapel & BT-929 East Loop Road Realignment

The Florida International University Board of Trustees announces that services in the discipline of Architecture/Engineering are required for the project identified below:

Project Name and Number: Trish& Dan Bell Chapel, BT-927 and BT-929 East Loop Road Realignment

Project Location: Modesto Maidique Campus, Miami, Florida

This notice is for Architect/Engineer services for the combined east loop road realignment and a new chapel building to be constructed on the MMC Campus. FIU intends to merge these two projects together as one to help ensure cost efficiency and coordinated construction workflow sequencing. Individual project names and numbers from the two facilities programs will be retained to separate accounting of project components. The work on the combined project has been authorized and funded through completion of design. Funding for construction work will require additional authorization by the FIU Board of Trustees.

Project Description - Chapel:

FIU embraces a multi-dimensional experience for students—engaging the mind, body, and spirit – to provide the necessary foundation for our students to develop as well-rounded persons, professionals, citizens, and world changers. The Trish and Dan Bell Chapel intends to serve as the pivotal venue on campus that enhances the spiritual component of the student experience at FIU, creating a community united by faith. FIU intends to build a multifaith chapel – a quiet oasis from the fast pace of university life. Not inherently a temple, mosque, synagogue, church, or gurdwara, the chapel will be a welcoming place for all faiths. It will be a place where spiritual inquiry is encouraged and serve as a gathering place for worship, contemplation,

spiritual strengthening, and understanding. It will offer a sanctuary and auxiliary spaces for ceremonies, lectures, retreats, prayer, spiritual guidance, and individual reflection. FIU hopes that the multifaith chapel will help draw individuals to deep thought and encourage them to intentions of human betterment and a commitment to action that will make a positive difference in the lives of others.

With over 16 active faith-based groups and devoted student clubs at FIU, a shared space for discovery and understanding will facilitate their work. Although FIU’s faith-based groups all meet on campus, there is currently only one dedicated space in student-support facilities to accommodate them – a small 250-square-foot room. There is no dedicated space for directors of faith-based groups to hold office hours or meet with interested members of the university community.

Located on FIU’s main campus on the lake adjacent to the Ronald W. Reagan Presidential House, the chapel will serve as a celebratory center for religious life-stage milestones and as an impromptu place of respite for any who are in need of solace and peace.

The main space in the chapel will seat up to 250 persons and there must be sufficient meeting space for leaders in our multifaith community to have offices to meet with and counsel individuals from the university community in privacy and confidence. The building should include several smaller spaces allowing for group meetings and smaller-scale events to take place simultaneously within the chapel. A small reflection room should be accessible 24/7 via a separate entrance. Per the gift agreement, there shall be an appropriately-sized bell tower on the exterior of the chapel, preferably the roof.

The design challenge is to create a space which celebrates the shared values and principles of our multifaith community while not relying on the display of religious symbols. It is expected the building architecture should visually grab your attention; generating curiosity, collaboration and extend feelings of welcome and belonging. There is a desire to use elements of nature as inspiration to express the shared spiritual experience which is unique to the planet we inhabit. The design should emphasize sustainable design practice. The University is committed to producing buildings that comply with sustainable energy conservation strategies and standards (minimum LEED Silver Certification).

Project Description – Road Realignment:

The East Loop Road project seeks to realign a part of the original campus loop road to enhance traffic flow and improve turning radii for large vehicles servicing the Graham Center. It is intended that this project create a larger available site area east of the Graham Center Ballrooms to allow expansion of Graham Center meeting facilities as well as allowing/enhancing bus and VIP pickup, drop-off and valet parking for Graham Center events.

Partial filling of Lake #4 (a man-made borrow pit) will be required as part of this project.

This Project shall be coordinated with "Trish & Dan Bell Chapel" so that a suitable site for construction is created adjacent to Lake #4 including required drop-off, service access and clearance from lake edge. If practicable, stub-outs or sleeves shall be provided to the Chapel site so that the newly realigned road will not have to be cut for Chapel utility connections.

This Project shall include design considerations for tram, cart and/or van routes and bus stops being proposed or developed in the area by FIU that may cross or parallel or be located on the campus loop road. Bus shelters located along the loop road in areas where it is to be realigned, shall be relocated along the realigned road.

This road realignment project may be done in two phases. The mandatory first phase is from near the entrance of Parking Lot #35 south to the north part of the traffic circle on SW 16th Street. If budget allows or additional funds become available, a second phase of work may be included to complete work north from Parking Lot #35 to the area indicated in diagrams on pages VII-1 and VIII-1 of the Program published on the project website.

Note:

Applicants are hereby notified that in the event the University is unable to secure full funding, the University intends to proceed only with design and construction of fully funded project components, if any.
