25-18.020 Pole Safety, Inspection, Maintenance, and Vegetation Management.

(1) This rule applies to all communications services providers as defined in Section 366.02(5), F.S., that own poles as defined in Section 366.02(6), F.S. This rule does not apply to poles used solely to support wireless communications service facilities or poles with no public utility electrical overhead facilities attached. For the purposes of this rule, “overhead facilities” are defined as fixtures, conductors, wires, cables, and other devices owned by public utilities that are attached to poles owned by a communications services provider.

(2) Safety, Inspection, and Maintenance Standards. Each communications services provider must exercise due care to reduce hazards to which its employees, customers, and the public may be subjected by reason of its poles. Accordingly, all poles of communications services providers subject to the Commission’s jurisdiction under Section 366.04(9), F.S., must be constructed, installed, maintained, relocated, and inspected in accordance with the National Electrical Safety Code (NESC), which is incorporated by reference in Rule 25-6.0345, F.A.C.

(3) Inspection, Repair, and Replacement of Poles. Each communications services provider must conduct inspections of its poles at least every eight (8) years to ensure adherence to the strength and clearance standards of the NESC. Inspections must include visual checks to determine compliance with the strength and clearance standards of the NESC. Poles not in compliance with NESC standards must be repaired or replaced to meet those standards.

(4) Vegetation Management of Poles. Each communications services provider must ensure that the vegetation management of its poles meets the standards set forth in Part 2 of the NESC.

(5) Emergency Response and Storm Restoration Procedures and Protocols. Within six months of the effective date of this Rule, each communications services provider must provide a copy of its emergency response and storm restoration procedures and protocols to the Division of Engineering.

(a) The procedures and protocols must include the following:

1. A description of the communications services provider’s procedures and protocols for communicating with federal, state, and local emergency operations officials;

2. A description of how the public can contact the communication services provider to report issues with its poles.

such as broken poles, downed overhead facilities, or obstructive vegetation; and

3. A description of the communication services provider's procedures to repair and replace damaged poles and overhead facilities, including protocols for coordinating with public utilities, through emergency response and storm restoration efforts.

(b) If the communication services provider makes changes to its emergency response and storm restoration procedures and protocols, the communication services provider must file the updated emergency response and storm restoration procedures and protocols with the Division of Engineering within 30 days of the change.

(c) Every three calendar years after the initial submission, each communication services provider must notify the Division of Engineering in writing that it has reviewed its emergency response and storm restoration procedures and protocols.

(6) Reporting Requirements. By June 1 of each year, each communications services provider must file with the Commission Clerk an Annual Report.

(a) The Annual Report must include the following information for the prior calendar year:

1. The number of poles owned in whole or in part by the communications services provider at the beginning and at the end of the calendar year;

2. The number of poles that were scheduled for inspection;

3. The number of poles actually inspected;

4. The number of poles that failed inspection;

5. The number of poles strength tested and the methods used to ensure compliance with the NESC strength requirements;

6. The number of poles that failed strength testing;

7. The number of poles repaired and a summary of the repairs;

8. The number of poles replaced and reason for replacement; and

9. The total miles of vegetation management conducted.

(b) The Annual Report must include the following information for the upcoming calendar year:

1. The number of poles to be inspected; and

RULE NO.: 68A-25.002
RULE TITLE: General Provisions for Taking Possession and Sale of Reptiles

PURPOSE AND EFFECT: The purpose of this rule revision is to align the scientific names in the Florida Administrative Code (F.A.C.) with recent taxonomic changes for box turtles (genus *Terrapene*). The effect of the rule amendment is to improve taxonomic accuracy related to box turtles.

SUMMARY: The advancement of molecular techniques in genetic research has led to better understanding of the relationships between species and subspecies within taxonomic groups, leading to revisions in scientific names. The Florida box turtle (*Terrapene bauri*) was previously considered a subspecies of the eastern box turtle (*Terrapene carolina*) but is now widely accepted as a separate species by scientists and biological authorities, while other subspecies of box turtles also native to Florida are still under evaluation. Revising the rule to reflect the accepted taxonomic change of *T. bauri* as a separate species and identifying in rule the remaining subspecies will maintain current protections and provide clarity for both stakeholders and staff regarding possession limits for box turtles. In addition to updating the taxonomy of box turtles in Florida, the revised rule will provide language inclusive of hybrids and future taxonomic revisions, with no change to the regulations for these species. At the March 2, 2022, meeting, the Commission reviewed and approved these rule changes.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is

required, the information expressly relied upon and described herein: the nature of the rule and the preliminary analysis conducted to determine whether a SERC was required.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Petitioner seeks a variance or waiver of Rule 64B18-17.005, F.A.C., which requires that during the first biennium or within 24 months of initial licensure, whichever ends later, practitioners are required to obtain five (5) hours of continuing education in the subject area of risk management by attending one full day of a meeting of the Board of Podiatric Medicine at which disciplinary hearings are conducted. The practitioner is then exempt from any other continuing education requirements for his or her first renewal except for a 1-hour course on human trafficking and the hours mandated for prevention of medical errors and HIV/AIDS. Petitioner seeks a waiver due to vacancies on the board and the lack of disciplinary hearings to attend and thus meet this requirement.

Comments on this petition should be filed with the Board of Podiatric Medicine, 4052 Bald Cypress Way, Bin # C08, Tallahassee, Florida 32399-1708, within 14 days of publication of this notice.

Florida Building Commission

RULE NO.: RULE TITLE:

61G20-3.001 Scope

NOTICE IS HEREBY GIVEN that the Florida Building Commission has issued an order disposing of the petition for declaratory statement filed by Advanced Building Products, Inc. on November 15, 2021. The following is a summary of the agency's disposition of the petition: Petitioner requested an answer to the following question, based upon the project described within its petition: Do Petitioner's products manufactured for drainage and ventilation need to go through the product approval process to be approved for the Florida Building Code if they are not structural? On February 8, 2022, the Commission provided the following answer: no. Based on the provisions of Rules 61G20-3.001 and 61G20-3.002, Florida Administrative Code, the drainage and ventilation products in question are not structural products and therefore do not fall within the scope of the state product approval program. However, these products must meet the requirements of the Florida Building Code and are subject to approval by the local authority having jurisdiction.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk's Office, Department of Business and Professional Regulation, 2601 Blair Stone Road, Tallahassee, Florida 32399, (850)921-0342, AGC.Filing@myfloridalicense.com.

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Florida Building Commission

NOTICE IS HEREBY GIVEN that the Florida Building Commission has issued an order disposing of the petition for declaratory statement filed by the American Council of Engineering Companies of Florida on January 7, 2022. The following is a summary of the agency's disposition of the petition: Petitioner requested an answer to the following question, based upon the project described within its petition: Pursuant to Sections 553.79 and 553.791, Florida Statutes (2021), may a qualified private entity perform both private provider services and required threshold inspections on the same threshold building? On February 8, 2022, the Commission provided the following answer: yes; paragraph 553.79(5)(a) Florida Statutes (2021), does not prohibit an entity from both performing special inspections on a threshold building and

private provider services for that building. A special inspector does not “serve as a surrogate” for carrying out the responsibilities of the building official merely by providing private provider services, since the local enforcing agency possesses and retains various oversight responsibilities and powers with respect to both special inspections and private provider services. As long as an entity has the appropriate qualifications to offer private provider services and to perform threshold inspections, the provisions of subsection 553.79(5), Florida Statutes (2021), do not prohibit that entity from performing both private provider services and threshold inspections on the same building.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk’s Office, Department of Business and Professional Regulation, 2601 Blair Stone Road, Tallahassee, Florida 32399, (850)921-0342, AGC.Filing@myfloridalicense.com.
