RULE NO.: RULE TITLE:

64B3-9.009 Duplicate License Fee

PURPOSE AND EFFECT: The Board proposes a repeal of the rule because it is no longer necessary.

SUMMARY: The rule regarding duplicate license fee is being repealed because it is no longer necessary.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**Emergency Rules**

**DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES**

**Division of Agricultural Water Policy**

RULE NO.: RULE TITLE:  
 5MER24-9 Hurricane Debby Replacement Fertilizer Applications

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: As a result of the impacts to the agricultural industry and its perishable commodities caused by Hurricane Debby, extreme and unusual circumstances exist that threaten the livelihood of producers throughout the affected area. The damage and destruction caused by Hurricane Debby require immediate action to replant and reestablish important food

crops. Further, the storm washed away the fertilizers previously applied by agricultural producers. Thus, producers require additional fertilizer applications that would otherwise result in the improper implementation of best management practices adopted by the Department by rule. These circumstances present an immediate danger to public health, safety and welfare, and require emergency action.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: This emergency rule was initiated at the request of industry representatives and only affects those producers that are enrolled in the best management practices program administered by the Department and are located within counties that were impacted by hurricane force or tropical storm force winds and/or excessive rainfall. There are no affirmative requirements of any other citizens or property owners in Florida and the affected producers need only maintain accurate records of soil or tissue tests and replacement fertilizer amounts, which are routinely maintained in accordance with best management practices. For these reasons, notice of the emergency rule will provide at least the procedural protection given by other statutes, the State Constitution, and the United States Constitution, and is both necessary and fair.

SUMMARY: This emergency rule authorizes agricultural producers that are enrolled in Best Management Practices (BMPs) for Florida Vegetable and Agronomic Crop Operations (Rule Chapter 5M-8, F.A.C.), Florida Sod (Rule Chapter 5M-9, F.A.C.), Florida Cattle Operations (Rule Chapter 5M-11, F.A.C.), Florida Specialty Fruit and Nut Crop Operations (Rule Chapter 5M-13, F.A.C.), Florida Citrus Operations (Rule Chapter 5M-16, F.A.C.), and Florida Dairy Operations (Rule Chapter 5M-17, F.A.C.) and that have encountered hurricane force or tropical storm force winds and/or extreme rainfall as a result of Hurricane Debby (either three inches in three days or four inches in seven days) to apply replacement fertilizer to reestablish impacted crops. The emergency rule requires the application of replacement fertilizer to be made between August 9, 2024, and the expiration of the rule. The emergency rule also provides that the application of replacement fertilizer by these producers shall not constitute an improper implementation of best management practices for implementation verification purposes. The emergency rule encourages soil or tissue testing to confirm the need for replacement fertilizer prior to application and requires producers to maintain records of such tests and applications.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Angela Chelette, Chief, Bureau of Policy Planning and Coordination, 407 South Calhoun Street, Mail Stop AX2, Tallahassee, Florida 32399-0800, (850)617-1719.

THE FULL TEXT OF THE EMERGENCY RULE IS:

**5MER24-9 – Hurricane Debby Replacement Fertilizer Applications.**

(1) The following counties encountered hurricane force or tropical storm force winds and/or received rainfall that exceeded either three inches in three days or four inches in seven days as a direct result of Hurricane Debby: Alachua, Baker, Bradford, Charlotte, Citrus, Clay, Collier, Columbia, Dixie, Duval, Franklin, Gadsden, Gilchrist, Hamilton, Hernando, Hillsborough, Jefferson, Lafayette, Lake, Lee, Leon, Levy, Liberty, Madison, Manatee, Marion, Nassau, Pasco, Pinellas, Putnam, Sarasota, St. Johns, Sumter, Suwannee, Taylor, Union, and Wakulla counties. Producers in these counties that are enrolled in Best Management Practices (BMPs) for Florida Vegetable and Agronomic Crop Operations (Rule Chapter 5M-8, F.A.C.), Florida Sod (Rule Chapter 5M-9, F.A.C.), Florida Cattle Operations (Rule Chapter 5M-11, F.A.C.), Florida Specialty Fruit and Nut Crop Operations (Rule Chapter 5M-13, F.A.C.), Florida Citrus Operations (Rule Chapter 5M-16, F.A.C.), and Florida Dairy Operations (Rule Chapter 5M-17, F.A.C.) are authorized to apply replacement fertilizer applications to reestablish crops impacted by Hurricane Debby.

(2) Replacement fertilizer applications must be made between August 9, 2024, and the expiration of this rule. The Department recommends that producers conduct soil testing or tissue testing to confirm the need for replacement fertilizer prior to applications.

(3) Any replacement fertilizer applications authorized by this rule shall not constitute an improper implementation of best management practices for BMP implementation verification purposes pursuant to Rule Chapter 5M-1, F.A.C.

(4) In addition to nutrient application records required by the department rules referenced in subsection (1), producers applying replacement fertilizer, pursuant to this rule, shall maintain all testing records and nutrient application records for the replacement fertilizer.

**DEPARTMENT OF FINANCIAL SERVICES**

**OIR – Insurance Regulation**

RULE NO.: RULE TITLE:

69OER24-2 Premium Tax Discounts

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: Section 627.5108(2), F.S., requires that insurers

list the deductions provided for in this statute on the declarations page of certain policies with an effective date between October 1, 2024, and September 30, 2025. These policies are sent to the insured before the effective date of the policy, and the insurers need adequate time to revise their forms. Regular rulemaking would not result in the rule governing how these deductions should be listed on the declarations page being promulgated in time for insurers to meet this requirement. Section 627.5108(8), F.S., requires each insurer to file specified information to the Office regarding these deductions on a quarterly basis. Regular rulemaking would not result in the form for filing this information being promulgated in time for insurers to meet this requirement. Emergency rulemaking authority for this rule is granted in section 624.5108(12), F.S.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: The Office of Insurance Regulation believes that adopting an emergency rule is the fairest method to protect the public because section 624.5108, F.S., requires that insurers list the deductions provided for in this statute on the declarations page of certain policies with an effective date between October 1, 2024, and September 30, 2025, which are sent to the insured before the effective date of the policy. In addition, section 627.5108(8), F.S., requires each insurer to file specified information to the Office regarding these deductions on a quarterly basis. Regular rulemaking would not result in the rule governing how these deductions should be listed or the form for submitting the required information being promulgated in time for insurers to meet these requirements, and emergency rulemaking authority for this rule is granted in section 624.5108(12), F.S.

SUMMARY: Section 627.5108(2), F.S., requires that insurers list the deductions provided for in this statute on the declarations page of certain policies with an effective date between October 1, 2024, and September 30, 2025. Section 627.5108(8), F.S., requires each insurer to file specified information to the Office regarding these deductions on a quarterly basis. The emergency rule specifies now these deduction are to be listed on the declarations page, the format of the required reports, and provides guidance regarding the application of these deductions.

## Section VII Notice of Petitions and Dispositions Regarding Declaratory Statements

#### DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

##### Construction Industry Licensing Board

NOTICE IS HEREBY GIVEN that the Construction Industry Licensing Board has received the petition for declaratory statement from Jason M. Davies, on behalf of Pool Envy, LLC, filed on August 16, 2024. The petition seeks the agency's opinion as to the applicability of Section 489.105(3)(j)(k), F.S. and Section 489.113(3)(c), F.S. as it applies to the petitioner.

Petitioner asks the Board, "(1) May a swimming pool contractor be permitted to perform electrical testing and perform work on load-side electrical equipment related to the replacement of swimming pool pumps, including replacement of code required GFCI breakers? Is then guarantee of work fulfillment therefore, to require that the contractor must take out an electrical permit and be granted the right to do so; and must undergo inspection for each specific job site to meet both NEC 680 requirements and practice within a legal scope of chapter 489? (2) Under the provision of NEC 680.23(b)(6)-are contractors permitted to service swimming pool lights? (3) Under 489 description of repair/replacement – Is a contractor permitted to remove any existing swimming pool light from a swimming pool and therefore, replace it with a suitable swimming pool light as per the requirements within NEC 680.23(A) and (B) (F) – Meaning, can a contractor remove a 120V pool light, and replace it with a potentially safer GFCI breaker, transformer, and 12V light? (4) If clarification can be provided to a limited scope of electrical work by a pool contractor; can it be conveyed that a pool contractor may perform "load side" from the nearest sub-panel? (5) Encompassing all the previous questions, is a commercial contractor permitted to perform low-voltage wiring to control centers or automation for pump control or other devices where the current is less than 48V?" Except for good cause shown,

motions for leave to intervene must be filed within 21 days after publication of this notice.

UF-689, Hamilton Center for Classical and Civic Education - CM Selection

**NOTICE TO CONSTRUCTION MANAGERS:**

The University of Florida Board of Trustees announces that CM-At-Risk services will be required for the project listed below:

Project: UF-689, Hamilton Center for Classical and Civic Education (Gainesville)

This project consists of rehabilitating and remodeling the Infirmary building to house the new Hamilton Center for Classical and Civic Education, soon to be UF's 17th college. The Infirmary, a Collegiate Gothic building listed in the National Register of Historic Places and located within the Historic District of campus, is befitting of the Hamilton Center's state-mandated directive to develop a curriculum in Western Civilization, the Great Books, and the American Founding.

Originally constructed in 1931, the Infirmary has deteriorated considerably, and its condition is generally unacceptable in terms of health, safety, and ADA compliance. This project will rehabilitate this building while remodeling to provide for faculty and affiliated scholar offices, classrooms, conference rooms, book storage, and flexible spaces for reading and studying across the buildings 48,724 gross square feet. This project must coordinate with utilities updates on the surrounding site, and anticipated construction on Fletcher Drive.

The estimated construction budget is approximately \$33,000,000, including, but not limited to, site improvements, underground utilities, roof rehabilitation, building envelope rehabilitation, ADA accessibility and required accommodations, and other building modifications/renovations. Leadership in Energy and Environmental Design (LEED) Gold certification by the U.S. Green Building Council or equivalent certification of either GG of FGBC as selected by Owner is mandatory. This project must also coordinate all design efforts with the Florida Division of Historical Resources.

The contract for construction management services will consist of two phases, pre-construction and construction. Pre-construction services will begin at the Advanced Schematic Design stage and will include production of cost studies and estimates; value engineering; analysis of the design documents for constructability, coordination, detailing, materials, and systems; development and maintenance of the construction schedule; production of detailed jobsite management plans; development of strategies for the procurement of trade contracts; development of waste management strategies; and development of a Guaranteed Maximum Price (GMP) proposal based on 100% Construction Documents. If the GMP proposal is accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the

construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for phase one of the contract, or failure to arrive at an acceptable GMP budget within the time provided in the agreement, may result in the termination of the construction manager's contract.

Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, workload, best values, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida. The selected applicant will also be required to provide insurance coverage for General Liability, Automotive Liability, Workers' Compensation, and Builder's Risk.

Applicants desiring to provide construction management services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the CMQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific "CM Qualifications Supplement" (CMQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff.
5. Proof of the applicant's corporate status in Florida (if applicable) and a copy of the applicant firm's current contracting license from the appropriate governing board.
6. Proof of applicant's bonding capacity and liability insurance coverage.

If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida. As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected construction manager must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific CMQS forms, instructions, Project Fact Sheet, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Agreement for CM Services, and other project and process information – can be found on the Planning Design & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the application submittal as prescribed in the Project Fact Sheet. Electronic submittals must be received by the Planning Design & Construction office by 3:00 p.m. local time on Thursday, September 19, 2024. Facsimile (FAX) submittals are not acceptable and will not be considered.
