**State Board of Education**

**RULE NO.:**       **RULE TITLE:**  
6A-10.0240       Minimum Standards for Out-of-state High School Equivalency Diplomas

**PURPOSE AND EFFECT:** Students seeking admission to Florida College System (FCS) institutions are required to provide documentation of a high school diploma or its equivalent. In Florida, students earn a State of Florida High School Equivalency Diploma by successfully passing the 2014 GED® Test. Other states award state-recognized high school equivalency diplomas through passing scores on the Test Assessing Secondary Completion (TASC), High School Equivalency Test (HiSET) or California High School Proficiency Exam, which are recognized by the U.S. Department of Education as alternatives to the GED® for financial aid purposes. Currently, FCS institutions do not have a mechanism to accept a state-recognized high school equivalency diploma earned via alternatives to the GED®. The proposed rule will reduce a barrier to entry by ensuring reciprocity for prospective students with a state-recognized high school equivalency diploma earned via passing scores on the HiSET, TASC or California High School Proficiency Exam. UF-606 Whitney Laboratory for Marine Bioscience

NOTICE TO CONSTRUCTION MANAGERS:

The University of Florida Board of Trustees announces that CM-At-Risk services will be required for the project listed below:

Project: UF-606, Whitney Laboratory for Marine Bioscience, Marineland Campus, St. Augustine, Florida

The project consists of a new scientific facility to replace the 45 year-old existing laboratory. The new facility will be approximately 36,000 GSF and will house 12 faculty research laboratories with students and postdoctoral staff in a more modern "open-lab" like setting. It will leverage the world class, and recently upgraded, circulating sea water system, and allow for more collaborative and interdisciplinary spaces housing cutting edge technology including but not limited to mass spectroscopy, high resolution optical microscopy, single cells sorting/sequencing. In addition, a public interface to the laboratory's research and conservation efforts is an important component. A public facing Sea Turtle Hospital and Discovery Lobby to share the scientific and conservation goals of the Whitney Laboratory is a key component to the planned facility. The total project budget is \$28,500,000. Construction budget is \$21,450,000 which includes all site improvement/demolition/parking, underground utilities, new construction, staffing, general conditions/requirements/testing, all lab furnishing & equipment and contingencies. Gold LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council (or equivalent sustainability certification by approval) is mandatory.

The contract for construction management services will consist of two phases, pre-construction and construction. Pre-construction services will begin at the Conceptual Schematic Design stage and will include production of cost studies and estimates; value engineering; analysis of the design documents for constructability, coordination, detailing, materials, and systems; development and maintenance of the construction schedule; production of detailed jobsite management plans; development of strategies for the procurement of trade contracts; development of waste management strategies; and development of a Guaranteed Maximum Price (GMP) proposal based on 100% Construction Documents. If the GMP proposal is accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the

construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee, staffing and general conditions fees for the contract, or failure to arrive at an acceptable GMP budget within the time provided in the agreement, may result in the termination of the construction manager's contract.

Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida. The selected applicant will also be required to provide insurance coverage for General Liability, Automotive Liability, Workers' Compensation, and Builder's Risk.

Applicants desiring to provide construction management services for the project shall submit a proposal only after thoroughly reviewing the facilities program, and the construction manager's qualification supplement instructions and other background information. The proposal shall be prepared as specified in the CMQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific "CM Qualifications Supplement" (CMQS) video proposal.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff.
5. Proof of the applicant's corporate status in Florida (if applicable) and a copy of the applicant firm's current contracting license from the appropriate governing board.
6. Proof of applicant's bonding capacity and liability insurance coverage.

If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida. As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected construction manager must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific CMQS forms, instructions, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Agreement for CM Services, and other project and process information – can be found on the Planning Design & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the application submittal as prescribed in the CMQS Instructions package. Submittals must be received in the Planning Design & Construction office by 3:00 p.m. local time on Monday, July 19, 2021. Facsimile (FAX) submittals are not acceptable and will not be considered.

City of Hollywood, Florida

NOTICE OF EXTENSION OF THE SUBMITTAL DEADLINE RELATED TO THE UNSOLICITED PROPOSAL FOR A PUBLIC PRIVATE PARTNERSHIP FOR THE REDEVELOPMENT AND OPERATION OF ORANGEBROOK GOLF & COUNTRY CLUB

The City of Hollywood, Florida (“City”), a municipal corporation of the State of Florida, has received an Unsolicited Proposal (“UP”) for a qualifying project under the provisions of Section 255.065, Florida Statutes (F.S.), Public-Private Partnerships (“P3”), for the design, construction and operation of a new master-planned 36-hole golf facility to replace the current Orangebrook Golf and Country Club (“Orangebrook”). More specifically, the project proposed in the UP includes:

1. A new redesigned 18-hole championship golf course.
2. A new redesigned 18-hole executive golf course.
3. A new clubhouse, golf pro shop, bar, kitchen, restaurant golf cart barn and maintenance building.
4. A new state-of-the art driving range and chipping/putting area.
5. Infrastructure including entryway, parking, outbuildings, drainage/recirculation systems, computer-controlled irrigation system, lighting, and general landscaping.
6. Management of the renovated site and day-to-day operations of the redesigned courses.

The City owns the Orangebrook site, which is approximately 245 acres and is bounded by significant corridors including South Park Road, Pembroke Road, and Interstate 95. The site is also conveniently located a few blocks from a Tri-Rail Commuter train station. In addition to its 36 holes of golf, Orangebrook has a Pro Shop, lighted driving range, restaurant with full bar service, and a banquet room with seating for up to 250 people.

On March 12, 2019, residents of the City of Hollywood voted to pass a General Obligation Bond (GO Bond) during a Special Election to fund a variety of city-wide public improvement projects totaling \$165 million. As part of that referendum, residents agreed to invest up to \$24.7 million in improvements to Orangebrook, including the following:

- A new 15,000 sq. ft. multi-use clubhouse
- An ADA accessible nature preserve path, designed with wildlife habitat/biodiversity for walking, jogging, biking, etc.

- Improved course drainage and enhanced water retention capacity
- Renovated 36 holes of golf to include an 18-hole championship course and an 18-hole Par 3 course
- Enhanced putting/chipping area and driving range
- A new 10,000 sq. ft. cart barn
- A new 12,000 sq. ft. maintenance building, course restrooms and starter shack
- New golf cart paths, illuminated 9 holes for evening play, parking lot and entryway signage

The City has determined that the UP has sufficiently met the criteria for consideration as a qualifying project on a preliminary basis and is publishing notice pursuant to Section 255.065, F.S. In accordance with the aforementioned Statute, the City is accepting other proposals for the Orangebrook improvements described above during this notification period. All proposals received, including the UP and other proposals received as a result of this notification, will be evaluated and ranked in accordance with, but not limited to, the factors outlined in Section 255.065(5)(c), F.S.

The City is expecting each respondent to put forward an innovative proposal with a market-driven concept for the design, construction and operation of a new master-planned 36-hole golf facility to replace the current Orangebrook Golf and Country Club. Respondents are highly encouraged to submit a proposal that incorporates the Orangebrook improvements noted above to align with the City’s approved GO Bond public improvements. Proposals must comport with the parameters of all applicable State Statutes, City of Hollywood Charter provision(s), and existing deed restrictions.

The City has extended the deadline for submitting a competing proposal. Anyone interested in submitting a competing proposal, is hereby invited to submit a proposal in compliance with the provisions of subsection 255.065(3), F.S. Additional information about this P3 opportunity can be found on the City’s website, [www.hollywoodfl.org](http://www.hollywoodfl.org). The submitted proposal shall include eight (8) hard copies and one (1) electronic copy, and shall be submitted no later than 3:00 p.m. on August 12, 2021, to:

City of Hollywood, City Clerk’s Office, 2600 Hollywood Blvd, Room 221, Hollywood Florida 33020

Proposals received after 3:00 p.m. on August 12, 2021 will be rejected.

Dated this 22nd and 29th days of June, 2021.
