**Board of Athletic Training**

RULE NO.: RULE TITLE:  
64B33-3.001 Fees

PURPOSE AND EFFECT: The proposed amendment repeals the fee for a duplicate license, because licensees can now retrieve duplicate licenses at no cost in digital format directly from the Florida Department of Health Medical Quality Assurance Online Services Portal.

SUMMARY: The proposed amendment repeals the fee for a duplicate license, because licensees can now retrieve duplicate licenses at no cost in digital format directly from the Florida Department of Health Medical Quality Assurance Online Services Portal.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

The construction would include demolition for improvements. For interior spaces, sustainable program certification is mandatory. The overall project cost may reach to \$400M which will include demolition, restoration, upgrade, new space and improvements which the construction may be performed in 3 or 4 consecutive years and in between scheduled games/events. (Gold) LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council (or equivalent sustainability certification by approval) is mandatory.

The contract for construction management services will consist of two phases, pre-construction and construction. Pre-construction services will begin at the programming verification and schematics design stage and will include production of cost studies and estimates; value engineering; analysis of the design documents for constructability,

If the GMP proposal is accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts. Failure to arrive at an acceptable GMP budget within the time provided in the agreement, may result in the termination of the construction manager's contract. Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida.
