(2) For each record series not covered by General Records Schedules established by the Division, each agency shall submit to the Division a request for a records retention schedule on Department of State Form LS5E-105REff.2-09, "Request for Records Retention Schedule" which is hereby incorporated by reference and made part of this rule. A copy of Form LS5E-105REff.2-09, effective February 2009, may be obtained from the Division of Library and Information Services, Department of State, Mail Station 9A, Tallahassee, Florida 32399-0250, or from the Division's Records Management website at <http://dlis.dos.state.fl.us/RecordsManagers>.

(3) In completing Form LS5E-105REff.2-09, "Request for Records Retention Schedule," the agency shall consider the legal, fiscal, administrative, and historical value of each record series to the agency and to the State of Florida. The custodian of the records or his or her designee shall sign the Form LS5E-105REff.2-09 and submit it to the Division for determination of official retention requirements.

(4) Retention and scheduling of intermediate files are not feasible due to their transitory nature; therefore, submission of Form LS5E-105REff.2-09, "Request for Records Retention Schedule" is not required for intermediate files.

(5) Each Request for Records Retention Schedule shall be analyzed by the Division in the context of the submitting agency's statutory functions and authorities. Florida Statutes, administrative rules, operating procedures, applicable federal regulations and other such sources shall be researched to assist in the Division's determination of the value and retention requirements of each record series.

(6) The Division shall review Request for Records Retention Schedule forms to determine whether the records may merit transfer to the Florida State Archives or to a local records office, archives, or historical records repository, based upon the records' enduring legal, fiscal, administrative, and historical values (archival value). If the Division determines that the records may have archival value, an indication of such potential archival value shall be made on the Request for Records Retention Schedule form. The main objectives of this determination are to identify and ensure the preservation of records of archival value pertaining to the operation of government and to protect the rights and interests of the citizens of the state.

(7) The Division, with information submitted on Form LS5E-105REff.2-09, "Request for Records Retention Schedule" and its own research into the legal, fiscal, administrative, and historical value of the record series, shall create an official "Records Retention Schedule." Once the Division has approved an official Records Retention Schedule,

the submitting agency shall adhere to the terms of that schedule for the record series described therein.

(8) An approved Records Retention Schedule may later need to be revised based on new statutory, regulatory, or other requirements or agency needs. When changes are necessary, the agency shall submit a new Form LS5E-105REff.2-09, "Request for Records Retention Schedule" for the record series indicating the nature of the changes and the reason they are necessary. Revised Records Retention Schedules shall be processed in the manner specified in subsections 1B-24.003(2)-(8), F.A.C., above.

(9)(a) Public records may be destroyed or otherwise disposed of only in accordance with retention schedules established by the Division. Photographic reproductions or reproductions through electronic recordkeeping systems may substitute for the original or paper copy, per Section 92.29, F.S., Photographic or electronic copies. Minimum standards for image reproduction shall be in accordance with Rules 1B-26.0021 and 1B-26.003, F.A.C. An electronic or microfilmed copy serving as the record (master) copy must be retained for the length indicated for the record (master) copy in the applicable retention schedule. An agency that designates an electronic or microfilmed copy as the record (master) copy may then designate the paper original as a duplicate and dispose of it in accordance with the retention requirement for duplicates in the applicable retention schedule unless another law, rule, or ordinance specifically requires its retention.

(b) Any state agency record series identified by either a General Records Schedule or approved Records Retention Schedule as having possible archival value shall not be destroyed without the approval of the Florida State Archives.

(c) Where a local government has formally established a records office, archives, or historical records repository, local government agencies within that jurisdiction may transfer records of archival value to that repository. An agency may also loan records to another governmental jurisdiction or to a non-government historical records repository or historical society provided an agreement is signed by both parties specifying the required conditions of the loan, including the responsibilities of both parties for the management of public records in accordance with Chapter 119, F.S. The loaning agency shall remain the legal custodian and retain ultimate responsibility for the maintenance and preservation of the records, including ensuring accessibility to the records and non-disclosure of statutorily exempt or confidential information.

(d) Prior to records disposition, agencies must ensure that all retention requirements have been satisfied. For each record series being disposed of, agencies shall identify and document the following:

1. Records retention schedule number,
2. Item number,

3. Record series title,

4. Inclusive dates of the records,

5. Volume in cubic feet for paper records; for electronic records, record the number of bytes and/or records and/or files if known, or indicate that the disposed records were in electronic form; and,

6. Disposition action (manner of disposition) and date.

Agencies are not required to document the disposition of records with a retention of "Retain until obsolete, superseded or administrative value is lost" (OSA) except for records that have been microfilmed or scanned as part of a retrospective conversion project in accordance with Rule 1B-26.0021 or 1B-26.003, F.A.C., where the microfilm or electronic version will serve as the record (master) copy.

(10) Agencies shall ensure that all destruction of records is conducted in a manner that safeguards the interests of the state and the safety, security, and privacy of individuals. In destroying records containing information that is confidential or exempt from disclosure, agencies shall employ destruction methods that prevent unauthorized access to or use of the information and ensure that the information cannot practicably be read, reconstructed, or recovered. The agency shall specify the manner of destruction of such records when documenting disposition. Where possible, recycling following destruction is encouraged.

(a) For paper records containing information that is confidential or exempt from disclosure, appropriate destruction methods include burning in an industrial incineration facility, pulping, pulverizing, shredding, or macerating. High wet strength paper, paper mylar, durable-medium paper substitute, or similar water repellent papers are not sufficiently destroyed by pulping and require other methods such as shredding or burning.

(b) For electronic records containing information that is confidential or exempt from disclosure, appropriate destruction methods include physical destruction of storage media such as by shredding, crushing, or incineration; high-level overwriting that renders the data unrecoverable; or degaussing/demagnetizing.

(c) For other non-paper media containing information that is confidential or exempt from disclosure, such as audio tape, video tape, microforms, photographic films, etc., appropriate destruction methods include pulverizing, shredding, and chemical decomposition/recycling.

(d) Agencies shall not bury confidential or exempt records since burying does not ensure complete destruction or unauthorized access.

(11) Each agency shall submit to the Division, once a year, a signed statement attesting to the agency's compliance with records management laws, rules, and procedures.

(12) The Division shall compile an annual summary of agency records scheduling and disposition activities to inform the Governor and the Legislature regarding statewide records management practices and program compliance.

PURPOSE AND EFFECT: To update and clarify the rules, and to reflect the adjustment to the gross annual revenue level required by section 367.814(1), Florida Statutes.

Docket No. 20230025-W5

SUMMARY: The proposed amendments to Rules 25-30.455, 25-30.456, and 25-30.457 F.A.C., will increase the gross annual revenue limit that determines eligibility for water and wastewater utilities to receive staff assistance from \$300,000 or less, to \$335,000 or less, per system. Additionally, the proposed amendments to Rules 25-30.455, and 25-30.456, F.A.C., will increase the total gross annual operating revenue threshold from \$600,000 or less, to \$670,000 or less, on a combined basis.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency. The SERC examined the factors required by Section 120.541(2), FS, and concluded that the rule amendments will not have an adverse impact on economic growth, business competitiveness, or small business and that there would likely be transactional cost savings to the individual and entities, including government entities, required to comply with the rule.

The agency has determined that the proposed rule is not expected to require legislative ratification based on the

statement of estimated regulatory costs based upon the information contained in the SERC.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: RULE TITLE:

6A-2.0040 Sanitation Standards in K-12 Private Schools

The Department of Education hereby gives notice: that on March 1, 2023, the department received a Petition for Variance from subsection 6A-2.0040(6), F.A.C., Sanitation Standards in K-12 Private Schools. The petition requests a variance exempting a school from sanitary facility requirements prescribed by the Department’s rule and elsewhere in law and rule, specifically regarding restroom location. The petitioner is Score at the Top Coral Springs, LLC, located in Coral Springs, Florida.

Notice of the petition was published in Vol. 49, No. 43, F.A.R., on March 3, 2023. Having received no public comment on the petition, the Department executed an order denying the petition on April 4, 2023. Specifically, the Department finds that the Petition requests variance of provisions lying outside the Department’s jurisdiction, which the Department lacks authority to accommodate; further, where the petition specifies rules within Department jurisdiction, it fails to plead necessary elements for a variance.

A copy of the Order or additional information may be obtained by contacting: Chris Emerson, Agency Clerk, Department of Education, 325 West Gaines St., Tallahassee, FL 32399 or email: christian.emerson@fldoe.org.

DEPARTMENT OF ENVIRONMENTAL PROTECTION
Notice of Applicable Stream Assessment for Waters in the Tampa Bay Tributaries Basin

The Department of Environmental Protection gives notice that sufficient documentation has been provided to the department to demonstrate that the waterbody segment identified as Buffalo Canal (WBID 1823) located within the Tampa Bay basin meets all of the conditions identified in paragraph 62-302.200(36)(b), Florida Administrative Code (F.A.C.), for an exclusion from

the definition of a stream. For purposes of interpreting the narrative nutrient criterion in paragraph 62-302.530(48)(b), F.A.C., this waterbody segment will be assessed applying the stream nutrient impairment thresholds in subsections 62-303.351(3)-(5) and 62-303.450(1), (2) and (5), F.A.C., rather than the numeric nutrient standard for streams. These assessment thresholds will continue to be applied unless the department receives sufficient countervailing information concerning the applicability of paragraph 62-302.200(36)(b), F.A.C., to this water, including the purpose of the waterbody such as flood protection, stormwater management, irrigation, water supply, navigation, boat access to an adjacent waterbody, or frequent recreational use. A map showing the geographic extent of the stream exclusion is available at http://publicfiles.dep.state.fl.us/dear/dearweb/was/Stream_Exclusions/TB/. Additional information regarding these waterbody segments may be obtained by contacting: Jessica Mostyn, Department of Environmental Protection, 2600 Blair Stone Road, Watershed Assessment Section, MS #3560, Tallahassee, FL 32399-2400, by calling: (850)245-8441.
