RULE NO.: RULE TITLE:
12D-8.0064 Assessments; Correcting Errors in Assessments of a Homestead

PURPOSE AND EFFECT: The purpose of the draft amendments to Rule 12D-8.0064, F.A.C., is to implement

statutory amendments that provide the procedure for calculating liens on portions of homestead property as described in section 193.155(10), F.S., relating to the assessment increase limitation, section 193.703(7), F.S., relating to parent or grandparent living quarters, section 196.075(9), F.S., relating to the homestead exemption for persons 65 and older, and sections 196.011(9), F.S., and 196.161(1)(b), F.S., relating to the homestead exemption. These statutes were amended by Chapter 2024-158, L.O.F., sections 4, 7, 9 11, 12 and 17, to set forth new procedures beginning in 2025 in certain circumstances where property improperly received one of the previously listed exemptions or assessment limitations. The amendments also require property appraisers to provide a property owner with notice of the reason why the owner is not entitled to an exemption, assessment limitation, or reduction in assessment and how back taxes, interest, and penalties due are calculated. The draft amendments also implement the Florida Supreme Court’s short order to upholding the Third DCA’s opinion and the Monroe County circuit court in the Russell vs. Hassett case, 373 So.3d 1242 (2023), applying the ten percent assessment increase limitation to the property appraiser’s retroactive homestead revocation liens. The draft amendments also provide that when property improperly receives a homestead exemption or limitation, the property must be reassessed at just value before it can receive the benefit of the ten percent limitation in subsequent tax years.

SUBJECT AREA TO BE ADDRESSED: The amendments specify the procedure for calculating liens, and the information property appraisers must give in a notice to property owners who do not qualify for an exemption or limitation and provide how the ten percent assessment increase limitation applies to property once a homestead exemption is removed.

RULE NO.: RULE TITLE:

61C-1.004 General Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice: On June 6, 2024 the Division of Hotels and Restaurants received a Petition for an Emergency Variance for paragraph 61C-1.004(1)(a), Florida Administrative Code and Paragraph 5-202.11(A), 2017 FDA Food Code from MBM Edison Mall LLC. located in Fort Myers. The above referenced F.A.C. addresses the requirement that each establishment have an approved plumbing system installed to transport potable water and wastewater. They are requesting to utilize holding tanks to provide potable water and to collect wastewater at the handwash and 3-compartment sinks.

The Petition for this variance was published in Vol. 50/112 on June 07, 2024. The Order for this Petition was signed and approved on June 18, 2024. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the

Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the wastewater holding tank for the handwash and 3-compartment sinks are emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that the handwash sinks are provided with hot and cold running water under pressure, soap, an approved hand drying device and a handwashing sign.

A copy of the Order or additional information may be obtained by contacting: Daisy.Lee@myfloridalicense.com, Division of Hotels and Restaurants, 2601 Blair Stone Road, Tallahassee, Florida 32399-1011.

The above referenced F.A.C. addresses the requirement for proper handling and dispensing of food. They are requesting to dispense bulk time/temperature control for safety foods from an open air mobile food dispensing vehicle.

The Petition for this variance was published in Vol. 50/107 on May 31, 2024. The Order for this Petition was signed and approved on June 18, 2024. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring that each pan within the steam table is properly covered with an individual lid; the steam table is enclosed within a cabinet with tight-fitting doors, and is protected by an air curtain installed and operated according to the manufacturer’s specifications that protects against flying vermin or other environmental contaminants; all steam table foods must be properly reheated for hot holding at approved commissaries and held hot at the proper minimum temperature per the parameters of the currently adopted FDA Food Code; and steam table food is to

be dispensed by the operator with no customer self-service. The Petitioner shall also strictly adhere to the operating procedures and copies of the variance and operating procedures are to be present on the MFDV during all periods of operation.
