62-213.205 Annual Emissions Fee.

~~Each Title V source permitted to operate in this state must pay between January 15 and April 1 of each year, upon written notice as provided in the Title V permit, an annual emissions fee in an amount determined as set forth in subsection 62-~~

~~213.205(1), F.A.C.~~

(1) Emissions Fee Calculation and Payment. Each Title V source permitted to operate in this state must pay between January 15 and April 1 of each year, upon written notice as provided in the Title V permit, an annual emissions fee in an amount determined as set forth in subsection 62-213.205(1), F.A.C. Each Title V source must calculate the annual fee, based upon the source's previous year's emissions, by multiplying the applicable annual emissions fee factor times the tons of each regulated air pollutant actually emitted, as calculated in accordance with the department's emissions computation and reporting rules. The annual fee shall only apply to those regulated pollutants, except carbon monoxide and greenhouse gases, for which an allowable numeric emission-limiting standard is specified in the source's most recent construction permit or operation permit. The emissions fee factor is \$30.00. Provided, however, that:

~~(a) For emissions occurring in calendar year 2013, the emissions fee factor is \$27.00.~~

~~(a)(b) The amount of each regulated air pollutant in excess of 4,000 tons per year allowed to be emitted, in total, by any Title V source will not be included in the calculation of the fee. Any Title V source which does not emit any regulated air pollutant in excess of 4,000 tons per year may request a one-time credit not to exceed 25 percent of its first annual emissions fee for the prorated portion of the existing air operation permit application fees remaining upon commencement of its annual emissions fees.~~

(c) renumbered (b) No change.

~~(c)(d) Notwithstanding any other provisions of this rule, the annual emissions fee for any Title V source, other than a Title V source authorized to operate under a Title V air general permit, shall not be less than \$250.00.~~

(e) renumbered (d) No change.

~~(f) For an Acid Rain Part processed separately from a Title V permit, the Title V permit together with the Acid Rain Part shall be the most recent operation permit for Title V fee purposes. An Acid Rain Part processed separately from a Title V permit is not a separate permit and shall not be used as the most recent operation permit for Title V fee purposes.~~

SUMMARY: The Board proposes the rule to make clear to applicants that they may not retake the dental hygiene examination without taking the required remedial coursework.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change

will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.
