When it becomes necessary to confiscate and impound the authorized personal property of an inmate subsequent to his reception in the institution, it will be immediately inventoried by an officer in the presence of the inmate, and a written, signed receipt, Form

DC6-220, Inmate Impounded Personal Property List, itemizing the property will be given to the inmate. If the inmate's behavior is such that the security and order of the institution is jeopardized by his presence during the inventory process, the inmate's presence shall not be required. In such cases a second officer shall witness the inventory process. Proper procedures will be taken to safeguard and store such property so as to prevent its loss, damage or theft. Upon release of the property, a signed receipt will be obtained from the inmate. Money in excess of the amount allowed by institutional policies found in the possession of an inmate will be handled in accordance with rule 33-602.203(5)(a).

(4)(4) No change.

(5)(2) Unauthorized Property. (Also see Control of Contraband, 33-602.203).

(a) through (b) No change.

(c) Property that is authorized for inmates in general population such as shaving powders, oils and lotions shall be unauthorized or restricted based upon an inmate's confinement or other high security status when that item presents a security risk. Further limits on personal items for inmates in confinement or other high security statuses are authorized as referenced in rules 33-602.220, 33-602.221, 33-602.222 and 33-601.811.

(6)(3) Impounded Property.

(a) No change.

(b) When personal property of an inmate is taken, it will be inventoried according to the following procedure on Form DC6-220 ~~DC3-009~~, Inmate Impounded Personal Property List, and, whenever practical, in the presence of the inmate. Exceptions may be made when the inmate's presence during this process jeopardizes institutional security or in times of an emergency such as a general disturbance creating security concerns. New inmates being processed into the department at one of the reception centers will have their property recorded on Form DC6-220 ~~DC3-004~~ with a copy being given to the inmate. Unauthorized property will be stored pending final disposition as provided in this rule. At the time of receipt into the department each inmate will also sign an Authorization for Disposition of Mail and Property, Form DC6-226 ~~DC3-003~~, which authorizes the department to dispose of the property should the inmate abandon it.

1. The inventory shall specifically list and identify each item or each group or package of personal items such as letters, legal papers, etc., as an assortment on Form DC6-220 ~~DC3-009~~.

2. The inventory list shall be signed and dated by the employee recording the inventory and signed by the inmate, each in the presence of the other, unless doing so would be a danger or a threat to security, or unless the inmate is unavailable.

3. If an inmate refuses to sign the inventory list, or is not present, that fact will be noted on the inventory and signed by the employee making the inventory and also by a second employee present.

4. The inventoried property will be kept together and identified by placing one signed copy of the inventory with the property.

5. One signed copy of the inventory shall be given to the inmate.

(c) through (d) No change.

(e) If it is appropriate to return part, but not all, of the impounded property to the inmate, the following procedure will be followed:

1. That part of the property being returned will be listed on the approved release Form DC6-225 ~~DC3-002~~, Inmate Partial Property Return Receipt, and any property found to be missing at that time will be noted on the form. The employee making the release and the inmate will date and sign the release form each in the presence of the other. One signed copy of the release form shall be given to the inmate. One copy shall be attached to the original inventory list and kept with the remaining impounded property until all property is returned to the inmate, and then to the inmate's property file.

2. The remaining unauthorized impounded property shall be held by the institution for 30 days. It shall be the responsibility of the inmate to make arrangements to have the property picked up by an approved visitor, relative or friend. In the alternative, the inmate may pay to have the property mailed sent to one of these approved individuals. The 30-day time period shall not include any time during which an appeal or grievance proceeding relating to the impounded property is pending. This paragraph does not apply to property that will be returned to the inmate pursuant to subsection (6) ~~3~~(d) after release from close management, administrative or disciplinary confinement.

3. No change.

(f) No change.

(g) When an inmate whose personal property has been taken and impounded is transferred to another facility, that property shall be transported with the inmate or as soon as possible thereafter. It is the responsibility of the sending location to ensure that only authorized property is transported and that the inmate has signed the proper receipt for the property, Form DC6-227, Receipt for Personal Property ~~(DC3-304)~~. The procedures for returning property listed in ~~(e)~~ and (f) shall be followed. When the inmate has excessive authorized property which cannot be transported with the inmate, the procedures for making a partial return listed in ~~(e)~~ ~~(f)~~ shall be followed.

(h) Whenever an inmate is transferred from one institution to another, the inmate's personal property and personal property file shall be transferred with him. The sending institution shall have the responsibility of ensuring that the

inmate being transferred has only that property which belongs to him and that such property is authorized. The inmate and the officer inspecting the property shall sign and date Form DC6-227, Receipt for Personal Property, at the time of transfer. Any property that is left behind or missing shall be noted on the form.

(i) If an inmate is transferred without his personal property, the property shall be forwarded to the inmate by the sending institution within five working days. The property, along with an itemized list, shall be placed in a sealed container for transporting. A staff member at the receiving institution shall, in the presence of the inmate to whom the property belongs, check the property against the property list to ensure that all property is accounted for. The inmate shall sign Form DC6-227, Receipt for Personal Property, when the property is given to the inmate. Any discrepancies shall be noted on the form. If the inmate refuses to sign Form DC6-227, Receipt for Personal Property, a notation to that effect shall be placed on the form and a second employee shall witness and sign the form.

(7) Any inmate transferring to an outside community hospital for treatment or to a court appearance shall take only items of personal clothing and hygiene items except in those cases in which the inmate is expected to be absent for a period of more than 30 days. If the inmate is to return within 30 days, remaining personal property shall be inventoried utilizing Form DC6-220, Inmate Impounded Personal Property List, and stored in a secure location.

(8) Any inmate being released by parole or expiration of sentence shall take all personal property with him and sign Form DC6-227, Receipt for Personal Property, at the time of release.

(9)(h) No change.

(10)(i) When an inmate dies, escapes, or otherwise voluntarily abandons his or her property, that property will be inventoried and the procedures listed below will be followed:

(a) The property will be inventoried and stored in a secure area.

1. through 3. renumbered (b) through (d) No change.

(e) Abandoned property will be held by the institution for a period of 30 days to ensure sufficient time to incorporate the procedures outlined above.

(f) through (i) No change.

(j) 1. through 3. renumbered (11)(a) through (c) No change.

(12)(k) The warden or his designee is authorized to require an inmate to bring all of his personal property to the disciplinary hearing if he determines that this is necessary after evaluating the factors set out in paragraph (11)(j) above.

(13)(l) If items of impounded property cannot be located and are missing any time stored when the property is returned to an inmate, a written report of this fact, listing the missing items and their possible value, with attached property records

documenting ownership, shall be given to the Assistant warden or other designee of the warden or ~~Officer in Charge~~, who will conduct or initiate a thorough investigation of the loss.

1. through 3. renumbered (a) through (c) No change.

(d) 4. If claims are substantiated, the warden shall forward a cover letter, along with a copy of the investigation and verification of ownership through inmate property records to the ~~service center general services manager Regional Safety/Loss Control Manager~~ outlining reasons for recommending reimbursement.

(e) 5. The ~~service center general services manager Regional Safety/Loss Control Manager~~ shall:

1. a. Ensure that the claim has been properly investigated and contains all supporting documents.

2. b. Ensure that supporting documents provide evidence of ownership of lost or destroyed property.

3. e. Return the claim to the institution for further investigation or action if the claim is incomplete or if there is insufficient evidence available to support the claim.

d. Forward the claim and supporting documents to the ~~Bureau of General Services Safety Office~~ for processing if the claim is complete.

4. 6. The ~~Bureau of General Services Safety Office~~ shall review and forward the claim to the Department of Insurance, Division of Risk Management, for review and reimbursement consideration. Form DC6-238, Report of Risk Management Claim for Inmate Property, shall be used for this purpose.

(4) through (5) renumbered (14) through (15) No change.

APPENDIX ONE
PROPERTY LIST

This list incorporates all property authorized to be possessed by inmates in all Department institutions and facilities except community correctional centers. Except for items specified below as "exemptions", property received on or after January 1, 1996 must be in compliance with this list. Inmates in possession of property previously approved for receipt prior to January 1, 1996, but which is not in compliance with the property list, shall be allowed to retain this property until January 1, 1998, but upon that date the property must be disposed of unless the item is specifically exempted as set forth below. Effective January 1, 1998 all inmates must be in compliance with this list except for items specifically exempted below. Inmates in possession of previously approved property which meets the description of property on the list shall be allowed to retain the property.

Definitions.

The "quantity" establishes a maximum possession limit. This does not mean that all state issue items will be issued to each inmate, or that the maximum number of items will be issued. Where there is a "value" indicated, the authorized item shall not exceed that value. The terms "canteen" and "state issue" refer to the sources from which property can be obtained after January 1, 1996. All items with the "canteen" designation shall be available in all institutional canteens or through canteen order. All canteen items are transferable between institutions. ~~If a superintendent wishes to exclude a particular listed canteen item at his institution based on security needs, he shall forward a written request to the regional director outlining the reasons for the exclusion request. The regional director shall approve the request only when it is clear that the item would present a threat to the security and order at that particular institution or would present a threat to the safety of staff or inmates at that particular institution. In such cases, the item shall be impounded and held while the inmate is housed at that location and shall be returned to the inmate when he leaves that institution.~~ "State issue" means that the institution has the authority to issue this item to inmates based upon the character of the institution, the location of the institution, the housing or work assignment of the inmate, or other factors related to institution or inmate needs. Institutions housing death row inmates shall make adjustments to this property list when possession of listed items by death row inmates would create a threat to the security of the institution.

Exemptions.

Inmates already in possession of the following previously approved items shall be allowed to retain the items until they are no longer serviceable, but shall not be allowed to replace them with like items.

Clothing items of a different color than specified on the property list.

- Locks other than V68 series
- Plastic bowls, tumblers, cups and lids
- Pantyhose
- Nail clippers larger than 2-1/2" ~~3-1/2"~~

RULE TITLES: Establishment

RULE NOS.: 42DD-1.001

PURPOSE, EFFECT AND SUMMARY: The purpose of this proposed rule is to establish a community development district (CDD), the Sampson Creek Community Development District, pursuant to Chapter 190, F.S. The petition filed by The St. Joe/Arvida Company, L.P., requests that the Commission establish a community development district located in St. Johns County, Florida. The land area proposed to be served by the District comprises approximately 1,015 acres. The proposed District is generally located 0.5 miles west of Interstate 95 and on the south side of County Road 210. The site is located on the east and west sides of Leo Maguire Road. There are two parcels within the external boundaries of the proposed District that are to be excluded from the District. The two out-parcels include a tower site of approximately 2.4 acres owned by AT&T Communications of Southern States, Inc., and a cemetery site of approximately 1.3 acres owned by Sampson Cemetery, Inc. The proposed development within the District contemplates the construction of approximately 799 single family residential dwelling units, with associated retention areas, roadways, common areas, a recreation complex and an eighteen-hole golf course including associated maintenance facilities. The Petitioner has obtained written consent to establish the District from the owners of 100% of the real property located within the proposed District. Development is projected to occur over an estimated ten (10) year period. The proposed land uses for lands contained within the proposed District are consistent with the approved St. Johns County Future Land Use Plan. The majority of the land in the proposed District is part of a planned community included in a Planned Unit Development approval issued by St. Johns County (the "PUD"). The PUD was approved on February 10, 1998. The District, if established, intends to participate in the construction of certain facilities and services such as roadways, lighting, water and wastewater, water management, landscaping and irrigation, recreation, and security on the lands within the District.

SUMMARY OF THE ESTIMATED REGULATORY COST: The statement of estimated regulatory costs (SERC) supports the petition to establish the District. The complete text of the SERC is contained as Exhibit 8 to the petition to establish the District. The scope of the SERC is limited to evaluating the regulatory cost consequences of approving the proposal to establish the District. The requirements for a SERC are found in Section 120.541(2), F.S. A SERC must contain (a) a good faith estimate of the number and types of individuals likely to be required to comply with the rule or who will be affected; (b) a good faith estimate of the costs to any state and local government entities of implementing and enforcing the proposed rule, and any anticipated affect on state and local revenues; (c) a good faith estimate of the transactional costs

likely to be incurred by individuals and entities; (d) an analysis of the impact on small businesses, small counties, and small cities; (e) any additional information that the agency determines may be useful; and (f) any good faith written proposal submitted under paragraph (1)(a) and either a statement adopting the alternative or a statement rejecting the alternative in favor of the proposed rule. Addressing section (a), the principal entities that are likely to be required to comply with the rule include the District, the State of Florida, and St. Johns County. In addition, future property owners will be affected by the establishment of the proposed District. Under section (b), the FLWAC and State of Florida incur minimal one-time administrative costs. St. Johns County also incurred one-time administrative costs which are offset by the required filing fee paid to the County. Adoption of the proposed rule to approve the formation of the District will not have an adverse impact on State and local revenues. Addressing section (c), the District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. Also, various financing reserves must be provided for, such as a Debt Service and capitalized interest in addition to estimated costs of bond issuance. The District may issue notes, bonds, or other indebtedness to fund its improvement program. Prospective future land owners would be required to pay off such indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operations and maintenance of the District. Under section (d), approval of the petition to establish the District will have only incidental or a positive impact on small businesses and will not have any impact on small counties and cities. St. Johns County is not a small county as defined. Under section (e), the analysis was based on an application of economic theory with input received from the petitioner's engineer and other professionals associated with the petitioner.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
