If one is enrolled and one is not, regardless of which spouse is the employee, the rate charged shall be adjusted to reflect the reduction of exposure due to the fact that one spouse is enrolled in Medicare. The rate shall be determined assuming that one individual is enrolled in Medicare. The rate for the

individual enrolled in Medicare will be isolated, multiplied by the Medicare primary to Medicare secondary ratio, and then added back to the portion of the rate that is not Medicare primary. A sample illustrative calculation follows; other combinations should be calculated in a similar manner:

a. For employee + spouse coverage where the spouse is Medicare primary — The difference between the employee + spouse Medicare secondary rate and the employee only Medicare secondary rate shall be determined. This shall reflect the implied spouse rate. This implied spouse rate shall be multiplied by the ratio of the Medicare primary rate divided by the Health plan primary rate. This resulting rate shall be added to the employee only rate.

b. For family coverage — The difference between the family rate and the employee + dependent rate shall be determined. This shall reflect the implied spouse rate. This implied spouse rate shall be multiplied by the ratio of the Medicare primary rate divided by the Health plan primary rate. (b) CARES. Small group standard and basic product rates must be filed on a 2-50 life basis using the Rate Collection Systems (CARES), Form OIR-B2-CARES (Rev. 9/19/05), which is hereby adopted and incorporated by reference. These forms are available at: <https://portal.fldfs.com/cares/Product/Product.asp>.

(5) through (7) No change.

(8) Calculation of COBRA Rates. The premium paid for continuation of coverage may not exceed 115 percent of the group rate for groups that consist of fewer than 20 employees as permitted by Section 627.6692(5)(f), F.S., and 102 percent for groups with 20 or more employees as provided by Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C.A. § 1162(2005). The additional rate indicated above, i.e., 15 percent and 2 percent shall be hereinafter referred to as the applicable load.

(a) Qualified beneficiaries, as defined in Section 627.6692(4)(f), F.S., electing continuation of coverage shall be charged the group rate applicable to the qualified beneficiary on the day before the qualifying event, as increased by the applicable load. Whenever the small employer group's rates change, generally on the group's anniversary, the rate subsequently charged to the qualified beneficiary for the continuation of coverage will be based on the small employer

group's rate which the qualified beneficiary would have been charged if the qualified beneficiary had remained within the group. If the qualified beneficiary electing continuation of coverage is a spouse or dependent of the covered employee, and the covered employee remains in the group, the rate charged to the covered employee shall be adjusted to reflect the reduction of risk exposure to the company, e.g., the group's rate applicable after the demographic change. The rate charged for the spouse or dependent shall be isolated from the group's rate and multiplied by a factor, not to exceed one plus the applicable load, to determine the COBRA rate. Samples of illustrative calculations are as follows and other combinations should be calculated in a similar manner:

1. For employee + dependent coverage when the dependent is electing continuation of coverage, the difference between the employee + dependent rate and the employee only rate shall be determined. This difference shall then be divided by the average number of dependents used by the carrier in developing the rate schedule. This value shall reflect the implied single dependent rate. To determine the COBRA rate, the implied dependent rate shall be multiplied by a factor that does not exceed one plus the applicable load. The employee shall be charged the group employee only rate.

2. For family coverage where the dependent is electing continuation of coverage, the difference between the family rate and the employee + spouse only rate shall be determined. This difference shall then be divided by the average number of dependents used by the carrier in developing the rate schedule. This value shall reflect the implied single dependent rate. To determine the COBRA rate, the implied single dependent rate shall be multiplied by a factor that does not exceed one plus the applicable load. The employee shall be charged the group rate applicable to the remaining covered lives in the group, e.g., if the remaining covered lives are the employee, spouse and another dependent, then the family rate would be charged. If the remaining covered lives are only the employee and spouse, then the employee + spouse rate would be charged.

3. If a small employer carrier uses optional dependent children categories as provided by subparagraph (4)(a)2.b. above, the dependent rate shall be directly determined by calculating the difference between the two family tier rates, e.g., a rate with two dependents minus the rate with one dependent shall determine the single dependent rate.

(b) COBRA rates do not need to be filed unless the small employer carrier seeks to utilize a different rating methodology other than the one described above.
