The District currently covers approximately 4,119 acres of land and after amendment the District will encompass approximately 4,145.86 acres. Petitioner has obtained written consent to

amend the boundaries of the District from the owners of 100% of the real property comprising the expansion parcel. The District intends to construct, acquire or install recreation improvements (recreation complex) for the expansion parcel as outlined in the District's Improvement Plan.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: In association with the Petition, the Petitioner has caused a Statement of Estimated Regulatory Costs ("SERC") to be prepared in compliance with section 120.541, F.S. The complete text of the SERC is contained at Exhibit "8" to the Petition. By way of summary, the SERC estimates the principal individuals and entities likely to be required to comply with the amended rule are the District, the state, and St. Johns County, Florida. The SERC estimates that rule amendment implementation and enforcement costs to the above-described entities will be minimal and/or are offset by the payment of requisite filing and annual fees; and, estimates there will be no negative impact on state and local revenues from the proposed amendment of the rule. With respect to an estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the rule, the SERC indicates that to fund the cost of maintaining infrastructure, assessments and fees will be imposed on the District property owners. The proposed lands to be added to the boundaries of the District are owned by the District and as such these lands will be exempt from non-ad valorem assessments. The District acquired these lands in 2006 in anticipation of constructing a new recreation center for the District. Finally, the SERC concludes that the amendment of the District's boundary will have no impact on small businesses and should not have negative impact on small counties and cities as defined in Section 120.52, F.S. St. Johns County is not a small county as defined by Section 120.52, F.S. According to the SERC, the SERC analysis is based on a straightforward application of economic theory and input was received from the District's Engineer and other professionals associated with the District.
