**NOTICE OF INTENT TO FIND
PUBLIC SCHOOLS INTERLOCAL AGREEMENT
CONSISTENT WITH SECTION 163.31777(2), FLORIDA
STATUTES – DCA DOCKET NO. 35-13**

The Department gives notice of its intent to find the Public Schools Interlocal Agreement (“Agreement”) executed between the Lake County School Board and each of the following local government(s): Mount Dora, pursuant to Section 163.31777, F.S., to be consistent with the minimum requirements of Sections 163.31777(2) and (3), F.S.

The Agreement is available for public inspection Monday through Friday, except for legal holidays, during normal business hours, at the City of Mount Dora, Planning and Development, City Hall, 510 North Baker Street, Mount Dora, Florida 32757.

Any affected person, as defined in Section 163.31777(3)(b), F.S., has a right to petition for an administrative hearing to challenge the proposed agency determination that the Agreement is consistent with the minimum requirements of Section 163.31777(2), F.S. The petition must be filed within twenty-one (21) days after publication of this notice in the Florida Administrative Weekly, and must include all of the information and contents described in Uniform Rule 28-106.201, F.A.C. The petition must be filed with the Agency Clerk, Department of Community Affairs, 2555 Shumard Oak Boulevard, Tallahassee, Florida 32399-2100, and a copy mailed or delivered to Lake School Board, Mount Dora. Failure to timely file a petition shall constitute a waiver of any right to request an administrative proceeding as a petitioner under Sections 120.569 and 120.57, F.S. If a petition is filed, the purpose of the administrative hearing will be to present evidence and testimony and forward a recommended order to the Department. If no petition is filed, this Notice of Intent shall become final agency action.

If a petition is filed, other affected persons may petition for leave to intervene in the proceeding. A petition for intervention must be filed at least twenty (20) days before the final hearing and must include all of the information and contents described in Uniform Rule 28-106.205, F.A.C. A petition for leave to intervene shall be filed at the Division of Administrative Hearings, Department of Management Services, 1230 Apalachee Parkway, Tallahassee, Florida 32399-1550. Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such a person has to request a hearing under Sections 120.569 and 120.57, F.S., or to participate in the administrative hearing.

If a formal or informal proceeding is commenced as described above, any party to that proceeding may suggest mediation under Section 120.573, F.S. Mediation is not available as of right, and will not occur unless all parties agree to participate in the mediation. Choosing mediation does not affect the right to an administrative hearing.

STATE BOARD OF ADMINISTRATION

Estimated Borrowing Capacity

NOTICE IS HEREBY GIVEN by the State Board of Administration of Florida ("the Board") of its estimate of the borrowing capacity and the projected year-end (as of December 31, 2008) fund balance for the Florida Hurricane Catastrophe Fund ("the Fund"), in compliance with the requirements of Section 215.555(4)(c)2., Florida Statutes. This estimate is as of May 1, 2008. The projected year-end balance on December 31, 2008, is estimated to be \$3,621,600,000 which represents available funds to pay losses during the 2008/2009 Contract Year. The Fund's estimated borrowing capacity, defined as the amount that the Board will need to raise through the issuance of revenue bonds under Section 215.555(6), Florida Statutes, pursuant to the limitations in Section 215.555(4), Florida Statutes, is \$25,508,400,000. The liability of the Board under the Act and the Reimbursement Contracts for payment of reimbursable losses under all Reimbursement Contracts for a Contract Year in which a Covered Event has occurred will not exceed the actual claims-paying capacity of the Fund, up to a maximum limit of \$29,130,000,000 for that Contract Year. Given the projected year-end cash balance of \$3,621,600,000, the Board estimates that if interest rates and the Fund's credit ratings remain stable and if there are no unforeseen exogenous factors that impact the financial markets that the Fund's estimated borrowing capacity is \$25,508,400,000 given actual coverage selections by insurers for the 2008/2009 reimbursement contract year. This estimate is based upon the Board's good faith assessment of the current global market conditions and is net of required debt service reserve funds and the costs of issuing the bonds. These conditions may or may not be the same if and when the Board determines that it is necessary to seek the issuance of revenue bonds. The Board's estimate is also based upon projected year-end reimbursement premiums. Emergency assessments are based on the data available as of this estimate. This estimate is provided to comply with the requirements of Section 215.555(4)(c)2., Florida Statutes, and should only be relied upon after careful consideration of all relevant assumptions and reservations, including those set forth below.

Assumptions:

- 1) The Board assumes that both the annual reimbursement premiums and up to 6% emergency assessments as described in Section 215.555(6)(b)2., Florida Statutes, will be used as the revenue source to service the debt and to provide debt service coverage.
- 2) The debt service coverage ratio is assumed to be 1.73x, this means that the revenue stream available to service the debt is 1.73 times the amount actually needed to service the debt. The debt service coverage ratio is sensitive to actual reimbursement premiums collected during the year. Changes in deductible distributions and other factors that impact actual reimbursement premiums may impact the coverage ratio.
- 3) The Board has assumed interest rates reflecting market conditions on May 1, 2008. Many factors will impact the interest rates that will ultimately be used when the Board determines that bonds must be issued. It is not possible to predict the actual interest rate at the time of a bond issuance.
- 4) In response to the private letter ruling received in March 1998, and renewed on June 13, 2003, the Internal Revenue Service ruled that interest on the bonds issued under Section 215.555(6), Florida Statutes, is exempt from federal taxation.
- 5) The Fund has issued bonds. On July 6, 2006, Series 2006A, \$1,350,025,000 in post-event revenue bonds were issued. On July 21, 2006, Series 2006B, \$2,800,000,000 in pre-event extendable floating rate notes were issued. On October 3, 4, 5, 10, 12 and 15, 2007, a total of \$3,500,000,000 in Series 2007A pre-event floating rate notes were issued.

Reservations:

- 1) If additional bonding is necessary, there are a number of uncertainties. Among these are the following: the financial condition of the insurance industry, the state, and the national economy at the time of a catastrophic loss. The stability of the revenue stream and potential litigation could adversely impact the Fund's bonding capacity.
- 2) A more general uncertainty is the condition of the financial markets at the time the bonds are issued and the familiarity of investors with the Fund.
- 3) Another general uncertainty is the ability of the capital markets to absorb a bond issue of the magnitude that may be required at the time of the bond issuance.
- 4) On May 14, 2008, the Florida Hurricane Catastrophe Fund Advisory Council members noted that they continue to be uncomfortable with the increased funding levels of the Fund since the enactment of CS/HB 1A in January 2007. This heightened level of concern stems from the recent increased

volatility in the financial markets, coupled with the additional uncertainty brought about by the financial market conditions evidenced since August 2007 associated with the sub-prime mortgage problem and the continuing impact on financial market liquidity. It is the Advisory Council's considered opinion that the additional capacity offered by the Fund should be reduced legislatively to a level which can be financed with greater certainty. The Advisory Council cautions that a large hurricane combined with unfavorable financial market conditions could result in liquidity issues, slower payments to insurers and a significant subsequent season shortfall in anticipated Fund capacity.

AGENCY FOR HEALTH CARE ADMINISTRATION

NOTICE OF LITIGATION

The Agency for Health Care Administration has received the following petitions for administrative hearings as of the close of business on May 16, 2008, concerning certificate of need decisions. No decision has been made as to the sufficiency of these petitions. A brief description of these projects is listed below. Resolution of these requests for hearings by way of a grant or denial of their certificate of need at issue will determine the substantial interest of persons. Those persons whose substantial interest may be determined by these proceedings including settlements, grants, and denials are advised to govern themselves accordingly and may wish to exercise rights including intervention. See Chapter 120, F.S., as well as Section 408.039, F.S. and Rule 59C-1.012, F.A.C. In deference to rights of substantially affected persons, AHCA will not settle or otherwise reach a final resolution of these matters for a period of 30 days from the date of the publication.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notices for the Department of Environmental Protection between December 28, 2001 and June 30, 2006, go to <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

The Department of Environmental Protection (Department) gives notice of its intent to issue a variance (175252-005-EV) to Rinker Materials of Florida, 1501 Belvedere Road, West Palm Beach, Florida 33406, under Sections 373.414(17) and 403.201(1)(a), Florida Statutes, (F.S.), from the provisions of subsection 62-302.530(31), Florida Administrative Code (F.A.C.), which provides minimum standards for dissolved oxygen levels in surface waters. This variance will apply to dissolved oxygen levels in the lower layers of all reclaimed lakes at the completion of mining proposed in Environmental Resource Permit modification application No. 175252-004.

On November 17, 2005, Rinker Materials of Florida, Inc., applied for a permit modification to permit No. 175252-003 for the SCL Quarry in Miami-Dade County, a limestone mining operation with a 1,071.65-acre project area. The modification will add an additional 57.69 acres to the 325.24 acre surface water management system currently permitted for mining. During mining, stormwater within the expanded mining area will be contained within the mine pits by using a system of berms. At the completion of mining, the reclaimed lakes will be re-connected with state waters by the removal of all upland berms, and the water quality standards listed in Rule 62-302.530, F.A.C. will apply to all surface waters within the mine. The project area will require a variance from the established water quality standard for dissolved oxygen in the lower layers of all reclaimed lakes (hypolimnion) within the project boundary, since dissolved oxygen at depths may not meet the minimum required by subsection 62-302.530(31), F.A.C. The dissolved oxygen levels in the hypolimnion are expected to drop below the mandatory minimum of 5.0 mg/l at times. Stratification and the associated reduction of dissolved oxygen in the hypolimnion are natural phenomena in

deep-water bodies, especially during warmer parts of the year. This was anticipated by the Florida Legislature in Section 373.414(6)(a), F.S., which states that “[w]here such mining activities otherwise meet the permitting criteria contained in this section, such activities may be eligible for a variance from the established water quality standard for dissolved oxygen within the lower layers of the reclaimed pit.” On April 7, 2008, Rinker Materials of Florida, Inc., submitted a petition for a variance, under Sections 373.414(17) and 403.201(1)(a), F.S., from the provisions of subsection 62-302.530(31), F.A.C., which provides minimum standards for dissolved oxygen levels in surface waters.

Low dissolved oxygen levels in the hypolimnion of the lakes are not expected to result in any adverse on-site or off-site impacts. Oxygen levels in the upper layers of the lakes are expected to meet the requirements of Rule 62-302.530, F.A.C., and be adequate to support healthy fish populations during warm months when lake water stratification occurs. It is not expected that the low dissolved oxygen water from the hypolimnion will be exchanged with off-site waters. The Department considered requiring a berm to sever the hydrologic connection between the reclaimed lakes and adjacent waters, alleviating the need to meet water quality standards within the lakes. This approach was rejected in favor of a variance for three reasons. Construction of a berm would provide no environmental benefit, would require the filling of wetland areas, and may reduce the habitat value of the area by restricting the movement of water, nutrients, and fish and wildlife between the lakes and the surrounding habitat. In addition, berms would provide potential vehicle and pedestrian access to the area, which may encourage dumping and other activities harmful to the habitat value and water quality of the lakes and surrounding areas.

There is no practicable means known or available to prevent the low dissolved oxygen levels at depth within the mining lakes. Therefore, the Department intends to issue a variance in conjunction with this permit, pursuant to Section 403.201(1)(a), F.S., for dissolved oxygen in the lower layers of the reclaimed lakes.

Under this intent to issue, this variance is hereby granted subject to the applicant’s compliance with any requirement in this intent to publish notice of this intent in a newspaper of general circulation and to provide proof of such publication in accordance with Section 50.051, Florida Statutes. This action is final and effective on the date filed with the Clerk of the Department unless a sufficient petition for an administrative hearing is timely filed under Sections 120.569 and 120.57,

Florida Statutes as provided below. If a sufficient petition for an administrative hearing is timely filed, this intent to issue automatically becomes only proposed agency action on the application, subject to the result of the administrative review process. Therefore, on the filing of a timely and sufficient petition, this action will not be final and effective until further order of the Department. When proof of publication is provided, if required by this intent, and if a sufficient petition is not timely filed, the variance will be issued as a ministerial action. Because an administrative hearing may result in the reversal or substantial modification of this action, the applicant is advised not to commence construction or other activities until the deadlines noted below for filing a petition for an administrative hearing or request for an extension of time have expired and until the variance has been executed and delivered. Mediation is not available.

A person whose substantial interests are affected by the Department’s action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Under subsection 62-110.106(4), Florida Administrative Code, a person whose substantial interests are affected by the Department’s action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon. If a request is filed late, the Department may still grant it upon a motion by the requesting party showing that the failure to file a request for an extension of time before the deadline was the result of excusable neglect.

If a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have the right to petition to intervene in the proceeding. Intervention will be permitted only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, Florida Administrative Code.

In accordance with Sections 373.414(17) and 403.201, Florida Statutes, petitions for an administrative hearing by the applicant must be filed within 14 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under Section 120.60(3), Florida Statutes, must be filed within 14 days of publication of the notice or within 14 days of receipt of the written notice, whichever occurs first. Under Section 120.60(3), Florida Statutes, however, any person who has asked the Department for notice of agency action may file a petition within 14 days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, Florida Statutes.

A petition that disputes the material facts on which the Department's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, Florida Administrative Code. Under paragraphs 120.569(2)(c) and (d), Florida Statutes, a petition for administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This intent to issue a variance constitutes an order of the Department. Subject to the provisions of Section 120.68(7)(a), Florida Statutes, which may require a remand for an administrative hearing, the applicant has the right to seek judicial review of the order under Section 120.68, Florida Statutes, by the filing of a notice of appeal under rule 9.110 of the Florida Rules of Appellate Procedure with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000; and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when the order is filed with the Clerk of the Department.
