

(c) Except as provided in subparagraph (8)(a)3., any expenses associated with the mediation conference, such as travel, telephone, postage, meals, lodging, facilities, and other related expenses, shall be borne by the party, mediator or other person incurring the expense.

(10) Post-Mediation.

(a) At the conclusion of the mediation conference, the mediator will file with the Department the "Disposition of Property Insurance Mediation Conference," Form DFS-15-1971 indicating whether or not the parties reached a settlement. If the parties reached any settlement, then the mediator shall include a copy of the settlement agreement with Form DFS-15-1971. In the event a settlement is reached, the insured shall have 3 business days from the date of the written settlement within which he or she may rescind the settlement provided that the insured has not cashed or deposited any check or draft disbursed to him or her for the disputed matters as a result of the conference. If a settlement agreement is reached and not rescinded, it shall act as a release of specific issues that were presented at the conference.

(b) Any additional claims under the policy shall be presented as separate claims. However, the release shall not constitute a final waiver of rights of the insured with respect to claims for damages or expenses if circumstances that are reasonably unforeseen arise resulting in additional costs which would have been covered under the policy but for the release.

(11) The Department is authorized to designate an entity or person as its Administrator to carry out any of the Department's duties under this rule.

(12) If a court holds any subsection or portion of a subsection of this rule or the applicability thereof to any person or circumstance invalid, the remainder of the rule shall not be affected thereby.

RULE NO.: 60BB-8.410
RULE TITLE: Voluntary Prekindergarten Program Substitute Instructors

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 35, No. 7, February 20, 2009 issue of the Florida Administrative Weekly.

The text of the proposed rule has been substantially revised from the previous publication and approved by the Agency Head, Interim Director Cynthia R. Lorenzo. Upon adoption, the text of the proposed rule will read:

(1) As used in this rule, the term "credentialed instructor" means a prekindergarten instructor who has the credentials required under Sections 1002.55(3)(c), 1002.55(4), or 1002.61(4), F.S.

(2) Qualifications. Voluntary Prekindergarten (VPK) substitute instructors must be of good moral character and be screened using the level 2 screening requirements in Section 435.04, F.S., before employment as a VPK substitute instructor. In addition, before employment as a VPK substitute instructor, a VPK substitute instructor must:

- (a) Meet the qualifications of a credentialed instructor; or
- (b) Successfully complete one or more of the following:

1. In a summer VPK program class:

- a. An associate's or higher degree in any field of study;
- b. A child development associate (CDA) credential issued by the National Credentialing Program of the Council for Professional Recognition; or
- c. A credential approved by the Department of Children and Family Services as being equivalent to or greater than the national CDA.

2. In a school year VPK program class:

- a. Any of the credentials listed in subparagraph (2)(b)1. of this rule;

b. A Department of Children and Family Services 40-hour Introductory Child Care Training course, as described in Rule 65C-22.003, F.A.C., if the class is offered in a child care facility;

c. A Department of Children and Family Services 30-clock-hour Family Child Care Home training as described in Rule 65C-20.013, F.A.C., if the class is offered in a large family child care home;

d. A Department of Children and Family Services 30-clock-hour Family Child Care Home training as described in Rule 65C-20.009, F.A.C., if the class is offered in a family day care home;

e. The local school district's requirements to be employed as a substitute teacher as adopted by each school district under Section 1012.35, F.S.

(3) Circumstances. A VPK provider may assign a substitute instructor when a credentialed instructor is absent from the provider's premises. A substitute instructor may not be assigned when a credentialed instructor remains on the provider's premises in order for the credentialed instructor to offer instruction in a classroom other than the one to which the credentialed instructor is assigned.

(4) Time limitation. Substitute instructors may not be assigned to substitute for an absent credentialed instructor in excess of 30 percent of the program hours. A new credentialed instructor must be assigned to replace the absent instructor in the event the absence of the credentialed instructor will exceed 30 percent of the program hours.

(a) A VPK provider shall maintain a record of the number of hours a substitute instructor has been assigned to each VPK classroom.

(b) Records created under paragraph (4)(a) shall be maintained by the VPK provider for a minimum of 1 year and shall be made available for inspection to the VPK provider's early learning coalition or the Agency during normal hours of operation, and shall submit a copy of the documentation to the coalition or Agency upon the request of the coalition or Agency.

(5) Before a provider may assign a substitute instructor to a VPK classroom, the provider must ensure that the coalition substitute instructor has received documentation of the substitute instructor's current level 2 background screening and applicable credentials. A coalition may maintain and publish a list of substitute instructors for whom the coalition has previously received documentation which shall indicate, at a minimum, the name of the substitute instructor and the expiration date of the instructor's level 2 background screening. If the coalition maintains a list, a provider shall not be required to submit documentation for a substitute instructor whose name and level 2 background screening expiration date appear on the list.

(6) Nothing in this rule shall be considered to supersede employment requirements for instructional personnel in public schools which are more stringent than the requirements of this rule. This subsection shall not be construed to permit employment of substitute instructors in public schools for time periods greater than those enumerated in this rule.

RULE NOS.: 64E-6.009
 RULE TITLES: Alternative Systems
 64E-6.011 Abandonment of Systems

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 35, No. 9, March 6, 2009 issue of the Florida Administrative Weekly.

These changes are made in addition to a previous Notice of Change published in the April 10, 2009, issue of the Florida Administrative Weekly.

64E-6.009 Alternative Systems.

Unnumbered Paragraph No change.

(1) through (2) No change.

(3) Mound systems – are used to overcome certain limiting site conditions such as an elevated seasonal high water table, shallow permeable soil overlying slowly permeable soil and shallow permeable soil located over creviced or porous bedrock. Special installation instructions or design techniques to suit a particular site shall, using the criteria in subsection 64E-6.004(4), F.A.C., be specified on the construction permit in addition to the following general requirements.

(a) through (e) No change.

(f) There shall be a minimum 4 feet separation between the shoulder of the fill and the nearest trench or absorption bed sidewall. Where a portion of the mound slope will be placed adjacent to building foundations, pilings or supports for elevated structures, mobile home walls, swimming pool walls,

retaining walls, or similar obstructions there shall be a minimum 5 foot separation between the sidewall of the absorption area and the obstruction. Such obstructions shall impact the slope on no more than 50 percent of the shoulder perimeter. Retaining walls must be designed by a professional engineer licensed in the state of Florida to withstand the lateral earth forces under saturated conditions and to prevent seepage. Where mounds are placed on slopes exceeding 2 percent, the toe of the slope on the downslope side of the mound shall extend an additional 4 inches for each additional 1 percent of slope. To taper the maximum elevation of the mound at the outer perimeter of the shoulder down to the toe of the slope, additional moderately or slightly limited fill shall be placed at a minimum 2 foot horizontal to 1 foot vertical grade where mound height does not exceed 36 inches. Mound heights which exceed 36 inches shall have a slope not steeper than 3 foot horizontal to 1 foot vertical. The entire mound including slopes, shoulders and the soil cap shall be stabilized with vegetation. Slopes steeper than 5:1 shall be sodded or hydroseeded. Soil caps and unsodded slopes must, at a minimum, be hydroseeded or seeded with grass and a layer of hay or similar cover. Where fill material is present in the amount so as to provide a level surface from the top of the required cover over the system over the area where the slopes would normally be located, no slopes shall be required. For example, if the neighboring lot has been permanently filled to the same level as the applicant's lot, a five-foot separation from the property line to the system will be required, as opposed to requiring the slope area. Stabilization of a mound shall be the responsibility of the septic tank contractor who constructed the mound system unless the written agreement for system construction clearly states the system owner is responsible. Mound slopes which do not conform to permit requirements shall at a minimum be restored to permit specifications prior to stabilizing. Other synthetic or vegetative covers providing protection from mound erosion equal to or better than sod shall be approved by the State Health Office. Final installation approval shall not be granted until sodding, hydroseeding, seeding and haying or other approved stabilization of the mound has occurred. No portion of the drainfield or shoulder area shall be covered with asphalt or a concrete driveway or be subject to vehicular traffic. Landscaping features such as boulders or trees which obstruct drainfield or fill shoulder area shall not be used. Hydroseeding shall be performed in accordance with the product manufacturer's instructions and Section 7.5, Permanent Seeding, of the Florida Erosion and Sedimentation Control Inspector's Manual, July 2008, Chapter 6, Best Management Practices—Vegetation for Erosion Control, herein incorporated by reference.
