DEPARTMENT OF EDUCATION

UF-363 College of Engineering Renovations Design Build NOTICE TO DESIGN/BUILDER:

The University of Florida Board of Trustees announces that Design/Build services will be required for the project listed below:

Project: UF-363, College of Engineering Renovations (Gainesville, FL)

The project consists of the renovation of 4 – 5 buildings within the College of Engineering. These projects are estimated at 35,000 – 40,000 total square feet. The purpose of these renovations is to create more lab space, reduce energy consumption, upgrade space to latest code, and allow for more technologically advanced lab space. The scope may also include the renovation of temporary space as laboratories are renovated. The spaces are identified as follows:

Benton Hall (Building #0721) – approximately 5,200 square feet of offices and labs (10/90) including some circulation space.

Nuclear Science Building (Building #0634) – approximately 8,000 square feet of offices and labs (30/70) including restrooms, data closet, and circulation space.

Weil Hall (Building #0024) – approximately 14,800 square feet of offices and labs (50/50) including mechanical and electrical systems, server room, data closet, and circulation space.

Larsen Hall (Building #0722) – approximately 10,500 square feet of offices and labs (20/80) including restrooms, mechanical and electrical systems, data storage, and circulation space.

The total project budget is up to \$7.5 million, including fees, surveys and tests, total building commissioning (if any), furnishings and equipment, and contingencies. Construction shall be “fast tracked” to begin by January 2010. (Gold) LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is mandatory.

The contract for design/build services will consist of two parts. Part one services include design, construction administration, value engineering, constructability analyses, development of a cost model, estimating, and the development of a Guaranteed Maximum Price (GMP) proposal based on 60/100% Construction Documents, for which the design/builder will be paid a fixed fee.

If the GMP is accepted, part two, the construction phase, will be implemented. In part two of the contract, the design/builder becomes the single point of responsibility for completion of the construction documents, performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for part one of the contract, or to arrive at an acceptable GMP within the time provided in the agreement may result in the termination of the design/builder’s contract.

Blanket design professional liability insurance will be required from the architect, mechanical, electrical, plumbing, fire protection and structural engineering subconsultants for this project in the amount of \$1,000,000 each, and will be provided as a part of Basic Services. Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design and construction ability, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and the applicant or its architectural, landscape architectural, and engineering consultants must possess current design licenses from the appropriate governing board and be properly registered to practice its profession in the State of Florida.

Applicants desiring to provide design/build services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the DBQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific "Design/Builder Qualifications Supplement" (DBQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff (applicant and consultants).
5. Proof of the applicant's corporate status in Florida (if applicable) and copies of current licenses for all construction, architectural, landscape architectural, and engineering entities (applicant and consultants) from the appropriate governing board.
6. Proof of bonding capacity and proof of all design entities' or consultants' (architecture and engineering) ability to be insured for the level of professional liability coverage demanded for this project.

If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida. As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected design/builder must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific DBQS forms, instructions, Project Fact Sheet, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Owner-Design/Builder agreement, and other project and process information – can be found on the Facilities Planning and Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Facilities Planning and Construction office by 3:00 p.m. (Local Time), Monday, November 23, 2009. Facsimile (FAX) submittals are not acceptable and will not be considered.

DEPARTMENT OF HEALTH

PROFESSIONAL SERVICES FOR ARCHITECTURE-ENGINEERING CONTINUING CONTRACTS FOR NORTH FLORIDA REGION

The State of Florida, Department of Health, Division of Administration, Bureau of General Services, Office of Design and Construction, announces that professional services are required for the Contract listed below. These Services may be used for projects anywhere in the State of Florida at the sole discretion of the Department of Health, however, it is

anticipated that the vendors selected will primarily be activated for projects in the Northern region of the state. For this contract, the Northern Region is defined as all counties north of, but not including, Levy, Marion and Volusia. Multiple firms may be selected under this Continuing Contract and may be activated at the sole discretion of the Department as workload may occasion. Selected firms may be assigned projects having estimated construction cost, planning or study fees not exceeding the threshold amounts of \$2,000,000 (Construction) and \$200,000 (Planning or Study fee) respectively, provided for in Section 287.055, Florida Statutes. This contract will be for an initial period of two (2) years with an option to renew for an additional two-year period.

QUALIFICATIONS SELECTION CRITERIA: Firms must be properly licensed in the State of Florida at the time of submittal. Selections will be made in accordance with Section 287.055, Florida Statutes. The Selection Committee will conduct interviews with and may require public presentation by no fewer than three (3) firms regarding their qualifications, understanding of program/requirements and approach and methodology for providing required services.

SELECTION OF FINALIST FOR INTERVIEW: Selection for interview will be made on the basis of professional services qualifications including relevant experience and ability, location, recent experience, current and projected workloads of the firms, technical and Florida licensed professional staff and volume of Florida Departments of Health and Management Services work. The firm or firms selected must be registered with MyFloridaMarketPlace (MFMP) prior to execution of a contract. However, they will be exempt from the one percent MFMP fee.

Applications being sent via the U.S. Mail or via overnight express service shall be sent to: Thomas Matthias, Senior Architect, Florida Department of Health, Office of Design and Construction, 4052 Bald Cypress Way, BIN #B06, Tallahassee, Florida 32399-1734, (850)245-4444, ext. 3166, Fax: (850)412-1419.

1. Table of contents
2. Letter of interest

3. A copy of the current Department of Health Professional Qualifications Supplement (PQS) Form DBC5112 Revised 7/1/04. A copy of this form can be obtained by calling (850)245-4444, ext 3167 and at the following Website: http://vbs.dms.state.fl.us/vbs/main_menu
4. A copy of the firm's current Florida Professional License registration. (Proper registration at the time of application is required.)
5. (CORPORATIONS ONLY) Current Corporate Certificate providing evidence of validation date and designation of professional or professionals qualifying the corporation to practice Architecture and/or Engineering.
6. Completed Standard Form 330
 *In Article 19, Relevant Projects, and Article 23, Project Owner's Information, list only projects designed, under construction, and/or completed within the past five (5) years.
7. All future notices regarding this solicitation and results of selection will be posted at the following web site: http://vbs.dms.state.fl.us/vbs/main_menu
 * All applicants are urged to limit their submittal content to fifty (50) pages, excluding front and back covers and any section dividers. However, this is not a mandatory requirement.

EVALUATION: All proposals submitted shall become the property of the Department of Health. The submitted proposals will be placed on file and not returned. The Department reserves the right to deem proposals that do not comply with the above instructions and/or do not include the required qualification data non-responsive. The applicant will not receive further consideration.

POSTING OF RESULTS: Results of the short listing evaluation will be posted on the DMS Vendor Bid System at http://vbs.dms.state.fl.us/vbs/main_menu within 48 hours after the committee's recommendation. In the event that this information cannot be posted within this time frame, then the applicant firms will be notified of the results by e-mail. Proposals shall include, in the cover letter of each submission, the name of the contact person, e-mail address and direct phone number to be used. All future announcements, results and information about the selection for this project will be posted on the DOH Website at http://vbs.dms.state.fl.us/vbs/main_menu.
