DEPARTMENT OF ENVIRONMENTAL PROTECTION

NOTICE OF AVAILABILITY

FLORIDA CATEGORICAL EXCLUSION NOTIFICATION

OCU South Service Area

East Service Area 36-inch Potable Water Main Project

The Florida Department of Environmental Protection has determined that the Orange County Utilities' interconnection project to install a 36-inch diameter water transmission main between International Drive, John Young Parkway, and Town Center Boulevard will not adversely affect the environment. The total cost of the project is estimated to be \$10,826,258. The project may qualify for a Drinking Water State Revolving Fund loan composed of federal funds and state funds.

A full copy of the Florida Categorical Exclusion Notification can be obtained by writing to: Gregory M. Brown, P.E., Department of Environmental Protection, Bureau of Water Facilities Funding, 2600 Blair Stone Road, MS #3505, Tallahassee, Florida 32399-2400 or calling: (850)245-8371.

NOTICE OF INTENT TO ISSUE PROPOSED MODIFICATION OF POWER PLANT CERTIFICATION AND TRANSFER OF CERTIFICATION

The Florida Department of Environmental Protection (Department) hereby provides notice of an intent to modify the Power Plant Site Certification and the Conditions of Certification (COC) issued pursuant to the Florida Electrical Power Plant Siting Act, Chapter 403.501 et seq., Florida Statutes (F.S.) and to transfer the site certification, concerning: Florida Crushed Stone Company Brooksville South Cement Plant's Steam Electric Generating Plant, PA82-17. On October 17, 2011, the Department received a request to modify the Certification and the COC for the Florida Crushed Stone Company Brooksville South Cement Plant's Steam Electric Generating Plant pursuant to Section 403.516(1)(c), F.S., to allow for the existing 125-megawatt (MW) coal-fired electrical generating unit to be converted to a 70- to 80- MW biomass-fired electrical generating unit, including installation of new biomass fuel delivery, unloading, storage and handling facilities. The Department has also received a notice of intent to transfer the site certification for the electrical generating unit and associated onsite and offsite facilities from CEMEX Construction Materials Florida, LLC, to Central Power & Lime, LLC as a co-licensee. The Department proposes to

modify the COC to allow the conversion to a biomass-fired electrical generating unit and to transfer the site certification for the electrical generating unit and associated facilities to Central Power & Lime, LLC. A copy of the proposed modification and transfer of certification may be obtained by contacting: Cindy Mulkey, Administrator, Siting Coordination Office, Department of Environmental Protection, 3900 Commonwealth Boulevard, MS #48, Tallahassee, Florida 32399-3000, phone: (850)245-2002. Pursuant to Section 403.516(1)(c)2., F.S., parties to the certification hearing have 45 days from issuance of notice to such party's last address of record in which to object to the proposed modification. Pursuant to Section 403.516(1)(c)2., F.S., any person who is not already a party to the certification hearing and whose substantial interest is affected by the proposed modification has 30 days from the date of publication of this public notice to object in writing. Pursuant to subsection 62-17.211(3), Florida Administrative Code (F.A.C.), parties have 30 days to file in writing with the Department any objections to transfer of the certification. Failure to act within these timeframes constitutes a waiver of the right to object to the modification and transfer of certification. Any written objection must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, MS #35, Tallahassee, Florida 32399-3000. If no objections are received, then a Final Order approving the modification and transfer of the certification shall be issued by the Department. If written objections are timely filed which address only a portion of the modification, then pursuant to subparagraph 62-17.211(1)(b)6., F.A.C., the Department shall issue an Order approving that portion of the modification to which no objections were filed, unless that portion of the modification is substantially related to or necessary to implement the portion to which written objections are filed. If written objections are timely filed and agreement cannot be subsequently reached, then pursuant to Section 403.516(1)(c), F.S. and subparagraph 62-17.211(1)(b)7., F.A.C., the applicant may file a petition for modification with the Department and the Division of Administrative Hearings seeking approval for those portions of the modification to which written objections were timely filed. The request for hearing will be handled pursuant to Chapter 120, F.S., and in accordance with Section 403.516(1)(c)4, F.S., and subparagraph 62-17.211(1)(b)7., F.A.C. Mediation is not available in this proceeding.

ENVIRONMENTAL PROTECTION AGENCY

Outer Continental Shelf Air Permit OCS-EPA-R4009 for Murphy Exploration & Production Co.

Public Comment Period: February 29, 2012 – March 30, 2012
 The United States Environmental Protection Agency (EPA) is seeking public comment on a draft Clean Air Act (CAA) Outer Continental Shelf (OCS) air permit for Murphy Exploration & Production Co. (Murphy), 16290 Katy Freeway, Suite 600, Houston, Texas 77094. The draft permit will regulate air pollutant emissions from the dynamically positioned Diamond Offshore Ocean Confidence drilling vessel and its associated support fleet that Murphy proposes to operate within its current Lloyd Ridge lease block 317 on the OCS in the Gulf of Mexico. The drilling area is located approximately 135 miles southeast of the mouth of the Mississippi River and 180 miles southwest of the Florida shoreline. Murphy proposes to conduct exploratory drilling at one well location within the lease block for up to 90 calendar days within a two year period. If natural gas reserves are discovered, the project will proceed to the completion phase using the Ocean Confidence and the well will be tied back to a floating production facility located west of longitude 87°30'00"W for processing and transporting to the intrastate gas marketing system. This air permit is for both the drilling and completion phases of the project.

EPA Region 4 is the agency responsible for implementing and enforcing CAA requirements for OCS sources in the Gulf of Mexico east of 87°30' (87.5). Pursuant to section 328 of the CAA, 42 U.S.C. § 7627, and the air quality regulations applicable to OCS sources set forth in Title 40, Code of Federal Regulations (CFR), part 55, an OCS source is required to obtain an air quality permit before beginning construction. EPA has completed review of Murphy’s air permit application and supplemental material and is soliciting comments on our proposal to issue Permit No. OCS-EPA-R4009 to Murphy for an exploratory drilling project subject to the terms and conditions described in the permit.

EPA has prepared a draft permit for public comment, as well as a preliminary determination/statement of basis document that explains the derivation of the permit conditions. These documents are available on EPA Region 4’s website at: <http://www.epa.gov/region4/air/permits/ocspermits/ocspermits.html>.

To request a copy of these documents or to be added to our Murphy permit mailing list, please contact: Ms. Rosa Yarbrough, Permit Support Specialist, (404)562-9643 or R4OCSpermits@epa.gov. For questions on the draft permit, please contact: Ms. Lori Shepherd, (404)562-8435 or email: shepherd.lorinda@epa.gov.

Send comments on the draft permit and requests for a public hearing to: Lori Shepherd, EPA Region 4, APTMD, 61 Forsyth Street, S.W., Atlanta, GA 30303, Fax: (404)562-9066, Email: R4OCSpermits@epa.gov.

Public Comments must be received by email or postmarked by March 30, 2012.

Public Hearing requests must be received by EPA by email or mail by March 16, 2012.

Project Emissions: The maximum potential annual emissions in tons per year (TPY) from the Diamond Offshore Ocean Confidence drilling vessel and its associated support fleet are summarized in the following table. Murphy’s exploration drilling program is a major temporary source under the applicable Prevention of Significant Deterioration (PSD) permitting requirements, because emissions of oxides of nitrogen (NOx) exceed the major source applicability threshold of 250 TPY. Hence, Murphy is required to apply Best Available Control Technology (BACT) for NOx (as both a criteria pollutant and precursor to ozone and PM2.5).

Pollutant	Potential to Emit, Tons per Year	Significant Emission Rate, Tons per year	PSD Review Required
CO	58.2	100	No
NO _x ¹	966.7	40	Yes
VOC ¹	38.5	40	No
PM	19.8	25	No
PM ₁₀	10.6	15	No
PM _{2.5}	9.9	10	No
SO ₂	8.7	40	No
CO _{2e}	30,319	75,000	No

¹VOC and NO_x are the measured precursors for the criteria pollutant ozone and NO_x is also a precursor for PM_{2.5}.

Public Comments: Any interested person may submit written comments on the draft permit during the public comment period. If you believe any condition of the permit is inappropriate, you must raise all reasonably ascertainable issues and submit all reasonably available arguments supporting your position by the end of the comment period. Any documents supporting your comments must be included in full and may not be incorporated by reference unless they are already part of the record for this permit or consist of state or federal statutes or regulations, EPA documents of general applicability, or other generally available reference materials.

Comments should focus on the draft air quality permit, the permit terms, and the air quality aspects of the project. The objective of the OCS air quality program is to control air pollution from OCS sources to attain and maintain ambient air quality standards and to prevent significant adverse environmental impact from air pollution by a new or modified OCS source. If you have more general concerns regarding things such as leasing, non-air quality impacts, drilling safety, discharge, etc., these should be addressed during the leasing and approval proceedings of the Bureau of Ocean Energy Management, which is the lead agency for this project.

All timely comments will be considered in making the final decision, included in the record, and responded to by EPA. EPA may group similar comments together in our response, and will not respond to individual commenters directly.

All comments on the draft permit must be received by email or postmarked by March 30, 2012. An extension of the 30-day comment period may be granted if the request for an extension adequately demonstrates why additional time is required to prepare comments. Comments must be sent or delivered in writing to the address above. All comments will be included in the public docket without change and may be made available to the public, including any personal information provided, unless the comment includes Confidential Business Information or other information whose disclosure is restricted by statute. Information that you consider Confidential Business Information or otherwise protected should be clearly identified as such and should not be submitted through email. If you send email directly to EPA, your email address will be captured automatically and included as part of the public comment. Please note that an email or postal address must be provided with your comments if you wish to receive direct notification of EPA's final decision regarding the permit and responses to comments submitted during the public comment period.

Public Hearing: EPA has discretion to hold a public hearing if we determine there is a significant amount of public interest in the draft permit. Requests for a public hearing must be received by EPA by email or mail by March 16, 2012, and must state the nature of the issues proposed to be raised in the hearing. If a public hearing is held, you may submit oral or

written comments on the proposed permit at the hearing. You do not need to attend the public hearing to submit written comments. If there is significant public interest, a public hearing will be held on March 29, from 3:00 p.m. to 5:00 p.m., at the following location:

Bay County Public Library
Northwest Regional Library System
898 W. 11th Street
Panama City, FL 32412-0625
(850)522-2119

If no timely request for a public hearing is received or EPA determines that there is not significant interest, the hearing will be cancelled. An announcement of cancellation will be posted on EPA's website at: <http://www.epa.gov/region4/air/permits/ocspermits/ocspermits.html> or you may call EPA at the contact number above to determine if the public hearing has been cancelled.

Permit Documents: EPA's draft permit, EPA's preliminary determination and statement of basis, Murphy's application and supporting documentation, and comments received from the public, other government agencies, and the applicant during the public comment period become part of the administrative record for the permit. All data submitted by the applicant is available as part of the administrative record. The administrative record is available to the public and is available at the following locations (please call in advance for available viewing times):

Bay County Public Library
Northwest Regional Library System
898 W. 11th Street
Panama City, FL 32412-0625
(850)522-2119

EPA Region 4 Office
61 Forsyth Street, S.W.
Atlanta, GA 30303
Phone: (404)562-9043

The administrative record is also available on EPA's website at:
<http://www.epa.gov/region4/air/permits/ocspermits/ocspermits.html>.

Final Determination: A final decision to issue a permit, or to deny the application for the permit, shall be made after all comments have been considered. Notice of the final decision shall be sent to each person who has submitted written comments or requested notice of the final permit decision, provided EPA has adequate contact information.
