NOTICE IS HEREBY GIVEN that the Florida Building Commission has issued an order disposing of the petition for declaratory statement filed by Dan Johnson, on behalf of Swim, Incorporated on October 26, 2011. The following is a summary of the agency's disposition of the petition:

The Florida Building Commission determined that for the project in question: 1) A pool contractor achieves compliance with NSPI-5 and R4101.6.3, F.B.C. by applying the design flow rate when specifying pipe sizes; 2) a pool contractor achieves compliance with ANSI/APSP/ICC-15 by applying the maximum design flow rate when specifying swimming pool filtration pipe sizes, where the maximum design flow rate is the greater of the calculated 6-hour turnover flow rate or the optional auxiliary feature (spa) with the highest design flow requirements if operated by the circulations pump; 3) a pool contractor achieves compliance with ANSI/APSP-7 by applying the maximum operational flow rate when specifying suction pipe sizes. The answers to the Petitioner's three questions were given with the understanding that the questions are to be considered individually and not collectively.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Department of Business and Professional Regulation, Agency Clerk's Office, 1940 North Monroe Street, Suite 92, Tallahassee, Florida 32399-2203.

The University of South Florida Sarasota-Manatee announces that continuing professional services are required for the following discipline:

Architecture: Up to two (2) consultants for University of South Florida Sarasota-Manatee Campus with ability to include other campuses as required.

PROJECT DESCRIPTION:

Projects included in the scope of this Agreement will be specific projects for renovations, alterations, new construction and additions for University facilities that have a basic construction budget that does not exceed \$2,000,000 or survey or studies for which the fee for professional services that does not exceed \$200,000. Projects for University facilities may include Teaching, Research, Health, Academic, Administrative, Recreation and Residence Life Facilities, as well as Infrastructure and Utility projects. Continuing Service contracts for these projects provide that the consultant will be available on an as-needed basis for an initial contract period of one (1) year with an Owner’s option to renew for one (1) additional year at a time up to a total of two (2) additional years. This selection is based upon Architectural services only. Engineering services (mechanical, electrical, structural and civil) required for specific projects shall be provided as part of basic services through the selected Architect(s) based upon project need. Use of USF continuing service engineers by the selected Architect(s) shall be encouraged. The consultant(s) receiving the award will not have an exclusive contract to perform services for these projects. The University may have additional continuing service professionals under contract during the same time period. Blanket professional liability insurance shall be required for the contract. Services required to be provided under the Continuing Services Contracts include the development of record drawings by the Continuing Service Consultant for projects designed by that consultant to reflect as-built conditions to facilitate the University’s space management program. Any new construction projects should have the ability to be LEED certified if required by the Owner and shall be included as part of basic services and will not be considered as an additional service.

INSTRUCTIONS:

Firms desiring to provide professional services shall submit one (1) original submittal and five (5) spiral bound copies consisting of the information as required in the “SUBMITTAL REQUIREMENTS” of the Project Fact Sheet including a letter of interest, a completed “USF Professional Qualifications Supplement” dated March 2010 and any required or additional information within the proposal limits as described in the PQS General Instructions. Submittals that do not comply with these requirements or do not include the requested information may not be considered. No submittal material will be returned. Submittals become part of the public record. An applicant must be properly registered at the time of application to practice its profession in the State of Florida. If the applicant is a corporation, it must be properly chartered by the Florida Department of State to operate in Florida. The plans and specifications for University of South Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.
