

Section I
Notice of Development of Proposed Rules
and Negotiated Rulemaking

REGIONAL UTILITY AUTHORITIES

Tampa Bay Water - A Regional Water Supply Authority

RULE NOS.:	RULE TITLES:
49B-1.007	Agency Description
49B-1.010	Statutes and Rules Affecting Agency Operations
49B-1.011	Delegation of Authority by the Board of Directors
49B-1.013	Designation of Agency Clerk and Official Reporter
49B-1.077	Plan

PURPOSE AND EFFECT: The purpose of this rule development is to amend Rules 49B-1.007 and 49B-1.010, F.A.C., to update statutory references; to amend Rule 49B-1.011, F.A.C., to increase the General Manager's spending authority and settlement authority from \$50,000 to \$100,000; to amend Rule 49B-1.013, F.A.C., to reference that the General Manager may delegate the functions of Agency Clerk to another agency employee; and to amend Rule 49B-1.077, F.A.C., to reflect the agency's current physical address.

SUBJECT AREA TO BE ADDRESSED: Statutory authority for the agency, delegation of authority to the agency's General Manager, delegation of Agency Clerk functions, and agency address.

RULEMAKING AUTHORITY: 163.01, 373.713, 373.715, 120.53 FS.

LAW IMPLEMENTED: 373.713, 373.715, 120.53, 163.01(5), Ch. 91-30, S.10, Laws of Florida.

IF REQUESTED IN WRITING AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE NOTICED IN THE NEXT AVAILABLE FLORIDA ADMINISTRATIVE REGISTER.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT, IF AVAILABLE, IS: Barrie Buenaventura, Tampa Bay Water, General Counsel, 2701 N. Rocky Point Drive, Suite 900, Tampa, FL 33607, Telephone: (813)639-9599

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS AVAILABLE AT NO CHARGE FROM THE CONTACT PERSON LISTED ABOVE.

Section II
Proposed Rules

WATER MANAGEMENT DISTRICTS

South Florida Water Management District

RULE NO.:	RULE TITLE:
40E-4.091	Publications, Rules and Interagency Agreements Incorporated by Reference

PURPOSE AND EFFECT: The District is proposing to adopt the "Procedure for Environmental Resource Permit (ERP) Water Quality Evaluations for Applications Involving Discharges to Outstanding Florida Waters and Water Bodies that Do Not Meet State Water Quality Standards." This procedure will be included in a new Appendix E to "Environmental Resource Permit Applicant's Handbook Volume II: For Use Within the Geographic Limits of the South Florida Water Management District" (Volume II).

SUMMARY: This procedure will incorporate into rule the substance of the existing "impaired waters memo", which was initially issued in 2004 and revised in 2009 and 2013. This rule will not create new standards or change the existing ERP application process.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

Since the proposed rule formally codifies current guidance and procedures for environmental resource permit applications, there is no incremental regulatory burden associated with the proposed rule's incorporation by reference. Consequently, there are no "de novo" transactional or regulatory costs or administrative burdens arising out of the proposed rule being incorporated by reference in the District's rules.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rule is not expected to have an adverse impact on economic growth, private-sector job creation or employment, or private-sector investment in excess of \$1 million (in the aggregate) within 5 years after the rule's implementation.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 373.044, 373.103(8), 373.113, 373.171, 373.413, 373.4131, 373.441 FS.

LAW IMPLEMENTED: 373.413, 373.4131, 373.4135, 373.4137, 373.414, 373.4142, 373.416, 373.418, 373.421, 373.426, 373.441 FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: June 12, 2014, 9:00 a.m.

PLACE: Osceola County Commission Chambers, 1 Courthouse Square, Suite 4100, Kissimmee, Florida 34741

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 5 hours before the workshop/meeting by contacting: South Florida Water Management District Clerk, 1(800)432-2045, ext. 2087. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Daniel Waters, P.E., Regulation Service Center Administrator, Lower West Coast Service Center, 2301 McGregor Boulevard, Fort Myers, FL 33901, telephone: (239)338-2929, ext. 7763, email: dwaters@sfwmd.gov. For questions regarding the rulemaking process, contact Jan Sluth, Sr. Paralegal, CP, FRP, Sr. Paralegal, South Florida Water Management District, 3301 Gun Club Road, West Palm Beach, FL 33406, telephone: 1(800)432-2045, ext. 6299 or (561)682-6299, email: jsluth@sfwmd.gov

THE FULL TEXT OF THE PROPOSED RULE IS:

40E-4.091 Publications, Rules and Interagency Agreements Incorporated by Reference.

(1) The following publications, rules and interagency agreements are incorporated by reference herein:

The proposed Volume II including Appendix E is available online at www.sfwmd.gov/rules, and selecting “Impaired Waters”. An excerpt of the proposed changes to Volume II, is as follows:

PART IV STORMWATER QUALITY

4.1 through 4.1.3 No change.

4.1.4 Projects Discharging to Impaired Waters or to Outstanding Florida Waters

Systems discharging to a waterbody that has been identified as impaired by the Department of Environmental Protection under Chapter 62-303, F.A.C., or to an Outstanding Florida Water, shall be designed in accordance with the procedures in Appendix E.

APPENDIX E

Procedure for Environmental Resource Permit Water Quality Evaluations for Applications Involving Discharges to Outstanding Florida Waters and Water Bodies that Do Not Meet State Water Quality Standards

This procedure shall be utilized in coordination with the “Environmental Resource Permit Applicant’s Handbook Volume I: General and Procedural” (Volume I) and “Environmental Resource Permit Applicant’s Handbook Volume II: For Use within the South Florida Water Management District” (District) (Volume II). This procedure pertains to the application of existing District rules in the evaluation of permit applications for projects which discharge to Outstanding Florida Waters (OFWs) and water bodies that do not meet State water quality standards identified on the State’s “Verified List” of impaired waters or water bodies that have a State adopted Total Maximum Daily Load (TMDL) (impaired water bodies).

“Impaired Water Bodies”

Chapter 62-303, Florida Administrative Code (F.A.C.), describes impaired water bodies. Water bodies that have been assessed and determined to be impaired by the Department of Environmental Protection (DEP) due to pollutant discharges are included on the “Verified List” adopted by DEP Secretarial Order. Water bodies on the “Verified List” can be determined from DEP’s web site at: <http://www.dep.state.fl.us/water/watersheds/assessment/a-lists.htm>.

Relationship Between “Impaired Waters” and District Water Quality Rules

Chapter 62-303, F.A.C., does not limit the applicability of existing environmental resource permit (ERP) rules and other criteria under other provisions of Florida law. Consequently, the District implements its existing rules to ensure non-degradation of OFWs and prevent further degradation of impaired water bodies.

This procedure highlights the requirements in the existing District ERP rules to meet water quality criteria. This procedure also provides additional measures which shall be considered, on a project by project basis, as necessary to provide reasonable assurance that new activities regulated pursuant to Part IV of Chapter 373, Florida Statutes (F.S.) will not degrade an OFW or will not contribute additional causative pollutants to an impaired water body.

Existing ERP Water Quality Requirements and Evaluation

The design requirements in Section 4, Stormwater Quality, of Volume II are applied in conjunction with the water quality requirements in Section 8, Criteria for Evaluation and Section 10, Environmental Criteria, Volume I.

State surface water quality standards are outlined in Chapter 62-302, F.A.C., and require that reasonable assurances be provided to ensure that proposed discharges do not cause or contribute to violations of State water quality standards. As a part of the review of ERP applications, the District evaluates whether discharges from a project will be directed to an OFW or a water body that has been identified as impaired pursuant Chapter 62-303, F.A.C. If a proposed project discharges to an OFW or an impaired water body, the District will require that additional protective measures be incorporated into the project’s design and operation to provide reasonable assurance that the proposed discharge will not cause or contribute to violations of State water quality standards. The additional protective measures shall include a site-specific pollutant loading analysis and an additional 50% water quality treatment volume above the amounts required pursuant to Section 4.2.1, Volume II. Best management practices (BMPs), source controls or protective measures shall be considered as discussed below.

Section 4.1, Volume II requires that “projects shall be designed and operated so that off-site discharges will meet State water quality standards.” Section 4.1.3, Volume II, states that “systems which have a direct discharge to an OFW, must provide an additional fifty percent of the required treatment.” Section 4.9.1, Volume II specifies a more detailed evaluation by the District staff for new developments which outfall to sensitive receiving waters. Such sensitive receiving waters include all OFWs as well as other water bodies specifically named in this rule.

Section 10.2.4, Volume I states:

An applicant must provide reasonable assurance that the regulated activity will not violate water quality standards.

Reasonable assurance regarding water quality must be provided both for the short term and the long term The following requirements are in addition to the water quality requirements found in Sections 8.2.3 and 8.3 through 8.3.3.

In cases where a project will discharge to a water body that does not meet standards, Section 10.2.4.5, Volume I requires that:

The applicant must demonstrate that the proposed activity will not contribute to the existing violation.

Section 10.2.4.5, Volume I also states, “If the proposed activity will contribute to the existing violation, mitigation may be proposed as described in subsection 10.3.1.4 (Volume I).”

In addition, where the applicant is unable to meet water quality standards because existing ambient water quality does not meet standards, Section 373.414(1)(b)3, F.S., states that the Governing Board shall:

consider mitigation measures proposed by or acceptable to the applicant that cause net improvement of the water quality in the receiving body of water for those parameters which do not meet standards.

Required Analysis

The applicant must submit the following for each project:

Construction Phase Pollution Prevention Plan

A Stormwater Pollution Prevention Plan for construction activities resulting in greater than 1 acre of land clearing, soil disturbance, excavation, or deposition of dredge material. The plan shall be prepared in accordance with recognized engineering practices and shall identify the potential sources of pollution that shall reasonably be expected to affect the quality of stormwater discharge associated with the construction activity.

Operation Phase Pollution Prevention Plan

A Post-construction Pollution Prevention Plan to be submitted as part of the permit application, which provides details of controls and practices to be implemented after construction is completed to reduce or eliminate the generation and accumulation of potential stormwater runoff contaminants at or near their source. A Post-construction Pollution Prevention Plan shall include plans for surface water management system operation and maintenance, nutrient and pesticide management, solid waste management, and/or animal/livestock waste storage and disposal, if applicable. Records of maintenance, operation and inspection shall be kept by the permittee and shall be available for inspection and copying by the District staff upon request.

Site-Specific Water Quality Evaluation

In order to demonstrate that the proposed activities will not contribute to an existing impairment of a water body, will not

degrade an OFW, or will provide a “net improvement,” an applicant shall provide reasonable assurance based on site-specific information to demonstrate that discharges of the parameter or parameters which have caused the impairment do not have the potential to cause or contribute to water quality violations in the basin. This demonstration shall be accomplished through the use of a site-specific water quality evaluation.

Additional Source Controls, BMPs and Other Protective Measures

In addition to the extra 50% water quality treatment volume for discharges to OFWs or impaired water bodies, a site-specific water quality analysis is required. Before submitting an application, the applicant shall perform an initial site-specific water quality analysis. The initial analysis must demonstrate that the proposed project’s stormwater management system will not degrade an OFW or will provide a net improvement in an impaired water body for any parameters which are impaired. If the site-specific water quality analysis does not demonstrate that an OFW will not be degraded or a net improvement will occur in an impaired water body, then additional protective measures are required. These protective measures shall consist of source controls, BMPs or other protective measures. The applicant must then submit a site-specific water quality analysis to the District that demonstrates that an OFW will not be degraded or that a net improvement will occur in an impaired water body of any parameter which is impaired.

Listed below are typical source and structural controls commonly incorporated into proposed project stormwater designs and site specific water quality analysis as a part of the evaluation of whether an applicant has provided reasonable assurance to demonstrate that a proposed activity will not degrade an OFW, or in the case of an impaired water body, will not contribute to a violation of the impaired parameter. Such evaluation must take into consideration the particular water quality parameter which is not being met in the water body and whether the proposed project will contribute to the continued violation. The listed additional protective measures are not considered exhaustive. The District will consider other protective measures proposed by the applicant which include the necessary detailed documentation to demonstrate reasonable assurance that water quality standards will not be violated during construction and during long term operation. A combination of protective measures must be based on the proposed project, receiving water body, and specific pollutant(s) causing or contributing to the impairment of the receiving water body. Examples of protective measures are:

Increased Hydraulic Residence Time

Increased average wet season hydraulic residence time of wet detention ponds to at least 21 days using a maximum depth of

12 feet from the control elevation to calculate the residence time.

Pollutant Source Controls

Source controls typically include reduced turf coverage; native landscape plantings; stormwater harvesting and recycling; rooftop runoff management and recycling; pervious pavement; and vegetated non-turf buffers around detention/retention ponds.

Conveyance and Pretreatment BMPs

Stormwater conveyance and pretreatment BMPs typically include filter strips; vegetated stormwater inlets; vegetated swales; sediment trap structures such as baffle boxes; and dry retention or detention pretreatment.

Water Quality Treatment Enhancement

Stormwater treatment system enhancements typically include the use of on-site created wetlands in a treatment train as a polishing cell after primary treatment; detention ponds with littoral berms, settling basins or phyto-zones within the detention areas; planted wetland filter marshes just upstream of project outfall structures; detention ponds with increased effective treatment time by use of internal levees and/or berms and/or location of inflow and outflow structures to increase the flow path distance.

Treatment Efficiency of BMPs in Series

If a stormwater treatment system is designed in series as part of a BMP treatment train to increase the pollutant removal efficiency of the overall system, the treatment efficiencies of BMPs in series must account for the reduced loading transferred to subsequent downstream treatment devices as well as irreducible concentrations of certain pollutants. After treatment occurs in the first system, a load reduction occurs, which is a function of the type of treatment provided. After migrating through the initial treatment system, the remaining load consists of pollutant mass which was not removed in the initial system. This mass is then acted upon by the second treatment system with an efficiency associated with the particular type of BMP used until the irreducible concentration level is met.

When treatment systems are used in series, and a continuous model of the treatment systems is not used, the efficiency of the overall treatment train shall be calculated using the following equation:

$$\textit{Treatment Train Efficiency} = \textit{Eff1} + [(1 - \textit{Eff1}) \times \textit{Eff2}]$$

Attention must be paid to the treatment efficiency used for each downstream BMP to account for the diminishing “treatability” of stormwater as concentrations are reduced.

Water Quality Mitigation

In cases where ambient water quality does not meet State water quality standards and it is determined that the proposed activity

will contribute to the violation (e.g., the water body is impaired for nutrients and the proposed project will discharge an increased nutrient load), Section 373.414(1)(b)3, F.S., and the Section 10.3.1.4. Volume I include provisions for water quality mitigation that will cause a net improvement. Water quality mitigation can be accomplished in a variety of ways. The typical concept is to provide net improvement through implementation of a water quality treatment system or retrofit of an area that currently discharges untreated stormwater runoff to the same receiving body as the proposed project. The type of land use, runoff rates, removal efficiencies and the pollutants expected from the mitigation area all must be compared to the proposed activity to assure the proposed mitigation is sufficient to cause a net improvement in the receiving water. Any areas used for off-site treatment must include a perpetual easement for this purpose, over the off-site treatment area, which cannot be amended, altered, released or revoked without the prior written consent of the District.

Water Quality Monitoring

Section 4.9.1(b), Volume II states that “new projects entailing a more intensified land use, such as industrial parks, and planning to discharge to a sensitive receiving water directly or indirectly, shall be required to institute a water quality monitoring program if the applicant is unable to provide adequate assurances (by such means as routing drainage of areas where polluting materials would be located away from the stormwater management system); developing restrictive covenants, or similar documents, which would have the effect of prohibiting polluting materials on the project site or proposing other methods of assurance that degradation of the receiving body water quality will not occur.” Based on the fact that permits are not typically issued without an applicant providing the reasonable assurances discussed in Section 4.9.1, Volume II and the District’s long-term experience with current water management system designs, the District has not routinely required permit-level water quality monitoring.

NAME OF PERSON ORIGINATING PROPOSED RULE:
Anita R. Bain, Bureau Chief, Environmental Resource Permitting

NAME OF AGENCY HEAD WHO APPROVED THE PROPOSED RULE: South Florida Water Management District Governing Board

DATE PROPOSED RULE APPROVED BY AGENCY HEAD: April 10, 2014

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAR: October 23, 2013

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Florida Real Estate Commission

RULE NO.: 61J2-1.011 RULE TITLE: License Fees and Examination Fees
PURPOSE AND EFFECT: The rule amendment proposes to reduce certain licensing and renewal fees.

SUMMARY: Fees.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 475.05 FS.

LAW IMPLEMENTED: 68.065(2), 455.217, 455.2281, 475.04, 475.125, 475.15, 475.182, 475.24, 475.451 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Juana Watkins, Director, Division of Real Estate, 400 West Robinson Street, N801, Orlando, Florida 32801, (850)487-1395

THE FULL TEXT OF THE PROPOSED RULE IS:

61J2-1.011 License Fees and Examination Fees.

(1) through (2) No change.

(3) Effective July 1, 2014, ~~t~~The biennial license fee for an active licensee shall be:

Broker	\$ 72.00 90.00
Sales Associate	\$ 64.00 80.00
Branch office for Broker	\$ 64.00 80.00

(4) through (5) No change.

(6) The license fee for school related categories shall be as follows:

(a) No change.

(b) Effective July 1, 2014, ~~t~~The biennial Permit Fees shall be:

School Permitholder	\$ 104.00 130.00
Additional Location for Permitholder	\$45.00
School Instructor	\$ 64.00 80.00

(7) No change.

(8) Effective July 1, 2014, ~~t~~The initial application for registration of a corporation, partnership, limited liability company or limited liability partnership is:

 Emergency Rules**

NONE

**Section V
 Petitions and Dispositions Regarding Rule Variance or Waiver**

DEPARTMENT OF LAW ENFORCEMENT
 Criminal Justice Standards and Training Commission
 RULE NO.: RULE TITLE:
 11B-27.002 Certification, Employment or Appointment, Reactivation, and Terminating Employment or Appointment of Officers

NOTICE IS HEREBY GIVEN that on May 01, 2014, the Criminal Justice Standards and Training Commission, received a petition for a temporary 180 day waiver of the requirements of paragraphs 11B-27.002(4)(a), (b), F.A.C., by Robert Houghton. Petitioner wishes to waive that portion of the rule which requires an officer to obtain employment within four years of beginning basic recruit training. The Petitioner asserts that he could not obtain employment within the four year window. The Petitioner asserts that he is in the process of becoming hired by Sanford Police Department. The Petition states that the operation of the rule would violate the principles of fairness because Petitioner is so close to employment with Sanford Police Department. The Petition states that the operation of the rule creates a substantial hardship for Petitioner because to force him to retake basic and pass the exam at this point would be penalizing him for the lengthy hiring process he has been through. Petitioner seeks a temporary variance to ensure that the Petitioner can be processed into his position with Sanford Police Department.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephone: (850)410-7676.

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Division of Hotels and Restaurants
 RULE NO.: RULE TITLE:
 61C-1.004 General Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice:

On April 23, 2014 the Division of Hotels and Restaurants received a Petition for an Emergency Variance for paragraph 61C-1.004(1)(a), Florida Administrative Code, and Paragraph 5-202.11(A), 2009 FDA Food Code from Yo-Good located in Cutler Bay. The above referenced F.A.C. addresses the requirement that each establishment have an approved plumbing system installed to transport potable water and wastewater. They are requesting to utilize holding tanks to provide potable water and to collect wastewater at the handwash and three-compartment sinks.

The Petition for this variance was published in Vol. 40/81 on April 25, 2014. The Order for this Petition was signed and approved on May 01, 2014. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the wastewater holding tank for the handwash and three-compartment sinks is emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that the handwash and three-compartment sinks are provided with hot and cold running water under pressure; the handwash sink is provided with soap, an approved hand drying device and a handwashing sign.

A copy of the Order or additional information may be obtained by contacting: Lydia.Gonzalez@myfloridalicense.com, Division of Hotels and Restaurants, 1940 North Monroe Street, Tallahassee, Florida 32399-1011.

DEPARTMENT OF HEALTH
 Board of Medicine

RULE NO.: RULE TITLE:
 64B8-4.009 Applications
 NOTICE IS HEREBY GIVEN that on May 01, 2014, the Board of Medicine, received a petition for waiver filed by John Aaron, M.D., from Rule 64B8-4.009, F.A.C., with regard to the requirement for submission of documentation of medical education directly from Petitioner's medical school. Comments on this petition should be filed with the Board of Medicine, 4052 Bald Cypress Way, Bin #C03, Tallahassee, Florida 32399-3053, within 14 days of publication of this notice.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Allison M. Dudley, J.D., Executive Director, Board of Medicine, at the above address or telephone: (850)245-4131.

Section VI
Notice of Meetings, Workshops and Public Hearings

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

The Florida State Fair Authority Board announces a public meeting to which all persons are invited.

DATE AND TIME: May 12, 2014, 10:00 a.m.

PLACE: Florida State Fairgrounds

DATE AND TIME: Thursday, May 15, 2014, 4:00 p.m.

PLACE: Florida Horse Park, 11008 South Highway 475, Ocala, FL 34480

GENERAL SUBJECT MATTER TO BE CONSIDERED: This is a meeting of the Executive Committee to discuss general board business.

A copy of the agenda may be obtained by contacting: Shawn Doherty, Executive Director, (352)307-6699.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 2 days before the workshop/meeting by contacting: Shawn Doherty, Executive Director, (352)307-6699. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

DEPARTMENT OF TRANSPORTATION

The Florida Department of Transportation, District 2 announces a public meeting to which all persons are invited.

DATE AND TIME: Monday, May 12, 2014, 4:30 p.m. – 6:30 p.m. followed by public comments

PLACE: Legends Center, 5130 Soutel Drive, Jacksonville, FL

GENERAL SUBJECT MATTER TO BE CONSIDERED: This meeting is being held to give interested persons the opportunity to express their views concerning the location, conceptual design and social, economic and environment effects of Financial Project ID Number 415250-1, otherwise known as the Howell Drive Bridge Replacement over the Ribault River in Duval County, Florida.

The existing two lane bridge will be replaced by a new two lane bridge with wider shoulders and new sidewalks. Construction also includes the approaches to the bridge which will consist of bike lanes, curbs and new sidewalks.

Two alternatives will be presented. Alternative #1 places the new bridge to the west of the existing bridge. Alternative #2 places the new bridge to the east of the existing bridge. Department staff will be available to assist in reviewing the displays and to answer your questions.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status.

A copy of the agenda may be obtained by contacting: Mr. Bill Henderson, District Planning and Environmental Manager, Florida Department of Transportation District 2, 1109 S. Marion Avenue, MS 2007, Lake City, Florida 32025-5874.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting: Mr. Bill Henderson, District Planning and Environmental Manager, Florida Department of Transportation District 2, 1109 S. Marion Avenue, MS 2007, Lake City, Florida 32025-5874. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

REGIONAL PLANNING COUNCILS

Southwest Florida Regional Planning Council

The Southwest Florida Regional Planning Council announces a public meeting to which all persons are invited.

DATE AND TIME: Thursday, May 15, 2014, 9:00 a.m.

PLACE: Southwest Florida Regional Planning Council, 1st Floor Conference Room, 1926 Victoria Avenue, Fort Myers
