(b) The Agency shall compute a quality of care score and rank nursing home licensees, in accordance with the Nursing Home Guide Methodology, which is located on the web at <http://www.floridahealthfinder.gov/CompareCare/MethodologyNH.aspx>.

(c) To be considered further for a Gold Seal Award, the facility's quality of care rank must be in the top 15% of facilities in the applicant's region or top 10% statewide. The facility must also be ranked in the Nursing Home Guide as a five-star facility overall.

(5) Financial Requirements.

(a) To be eligible for a Gold Seal designation, a facility must have been in operation for a minimum of 30 months prior to the date of application and must provide evidence of financial soundness and stability. This subsection provides the criteria for use of financial statements. To demonstrate 30 months of financial soundness and stability prior to the date of the application:

1. The licensee of the facility shall submit financial statements prepared in accordance with Generally Accepted Accounting Principles (GAAP) for the three consecutive fiscal years immediately preceding the date of application. If the most recent fiscal year ended within 120 days prior to the application filing deadline and the audited financial statements are not yet available, then the prior fiscal year will be considered the most recent. Financial statements shall include a balance sheet, income statement and statement of cash flows and all relevant notes. The licensee concurrently shall submit a report from a certified public accountant (CPA) who has audited or reviewed these financial statements. A report of audited financial statements that contains an adverse or disclaimer of opinion will not be considered an acceptable submission for the purposes of this rule. A report on reviewed financial statements must be a standard report and must not contain any departure from GAAP. Financial statements that have been reviewed by a CPA may not be substituted for audited financial statements when the audit was conducted for the same financial accounting period. If the audit of the licensee is not available then the following submissions will satisfy the financial statement submission requirements:

a. Consolidated Financial Statements – For a licensee whose audited or reviewed financial statements are prepared as part of a consolidated entity, the licensee can satisfy the requirements for submitting financial statements by submitting the three most recent consecutive fiscal years of CPA audited or reviewed consolidated financial statements if the statements break out the balance sheet, income statement and statement of cash flows of the individual licensee.

b. Parent Financial Statements – A nursing home that is part of the same corporate entity that operates assisted living facilities and/or independent living facilities can satisfy the requirements for submitting financial statements by submitting the three most recent consecutive fiscal years of CPA audited or reviewed consolidated financial statements for the corporate entity.

c. Continuing Care Retirement Communities (CCRC) – A nursing home that is part of the same corporate entity as a CCRC licensed under Chapter 651, F.S., is considered to have met the evidence of financial soundness and stability requirement of Section 400.235(5)(b), F.S., if it meets its minimum liquid reserve as described in Section 651.035, F.S., and is accredited by a recognized accrediting organization as described in Section 651.028, F.S. In order to meet this requirement and be exempt from the ratio analysis described in paragraph (5)(a)2. of this rule, the applicant must provide a copy of its active certificate of authority, accreditation documentation, and documentation proving that the minimum liquid reserve is met.

2. Each licensee must meet at least two of the three financial soundness and stability thresholds listed below for at least two of three years of the statements, to include the most recent year submitted. Otherwise, its facilities cannot be recommended for the Gold Seal Award except as described in subsection (5)(b) below.

a. A positive current ratio of at least one (1). The current ratio is determined by dividing current liabilities into current assets. Current assets are items on an entity's balance sheet that are either cash, a cash equivalent, or which can be converted into cash within a year or less. Current liabilities are short-term obligations that are due and payable within a year or less.

b. A positive net worth as determined by the balance sheet and/or a positive total margin. Net worth shall be determined as equity (total assets less total liabilities). Total margin shall be considered the net profit or loss from all operations as shown on the income statement.

c. A cash flow to current liabilities ratio of 65 percent or greater. This shall be determined by dividing operating cash flow by current liabilities. Operating cash flow is cash flow generated by core operations and does not include cash flow generated by investing or financing activities as shown on the statement of cash flows on the financial statements.

(b) If the licensee can meet only one of the three financial ratios in paragraph (5)(a)2. above, for one of the two required years, the licensee may be recommended for a Gold Seal Award only if the most recent CPA prepared financial statements provided are for a period ending within six months of the date of the application and these financial statements meet all three of the financial criteria set forth in paragraph (5)(a)2. above.

(c) Neither the licensee nor its parent company shall have been the subject of bankruptcy proceedings during the period beginning 30 months prior to the date of the application and ending on the date of the award of the Gold Seal.

(6) Turnover Ratio.

(a) An applicant for the Gold Seal Award must meet at least one of the following to demonstrate a stable workforce:

1. Have a turnover rate no greater than 50 percent for the most recent 12 month period ending on the last workday of the most recent calendar quarter prior to submission of an application. The turnover rate is the total number of terminations or resignations of certified nursing assistants (CNAs) and licensed nurses during the quarter divided by the number of CNAs and licensed nurses employed at the end of the quarter; or

2. Have a stability rate indicating that at least 50 percent of its staff have been employed at the facility for at least one year. The stability rate is the total number of CNAs and licensed nurses that have been employed for more than 12 months, divided by the total number of CNAs and licensed nurses employed at the end of the quarter.

(b) Each applicant for the Gold Seal Award must submit evidence of an effective recruitment and retention program.

(7) Termination and Frequency of Review.

(a) Termination of Gold Seal Designation. The occurrence of any one of the following events shall disqualify the licensee from continuing as a Gold Seal facility:

1. The filing of a petition by or against the owner or its parent company under the Bankruptcy Code;

2. The issuance of a citation for a Class I or Class II deficiency or the assignment of a conditional license; or

3. The nursing home has a survey, after receipt of the Gold Seal designation that results in an overall rank of less than five stars in the Nursing Home Guide.

(b) For federally certified facilities, if the disqualifying event is the issuance of a citation for a Class I or Class II deficiency or the assignment of a conditional license status, the Gold Seal Award shall be withdrawn only after the results of the federal Informal Dispute Resolution (IDR) process are considered, if an IDR is requested.

(c) The termination or correction of a disqualifying event does not cause the Gold Seal to be reinstated. The licensee shall resubmit a complete application package and must meet all the conditions necessary to be awarded a Gold Seal.

(d) Termination of Gold Seal Applicants. Prior to the Governor’s issuance of the Award, the occurrence of any of the following events shall disqualify the licensee from continuing as a Gold Seal applicant and the application will be denied:

PURPOSE AND EFFECT: To update the procedures governing the implementation of Florida’s Reemployment Assistance Program.

SUMMARY: Chapter 73B-10, Fla. Admin. Code (“F.A.C.”) sets forth procedures for the implementation of Florida’s Reemployment Assistance Program pursuant to Chapter 443, Florida Statutes. The Department seeks to update these rules through rule amendment. Specifically, the Department is

amending Rule 73B-10.025, F.A.C., to remove an expiration date that no longer applies to a form. Rule 73B-10.026, F.A.C., is being amended to correct a statutory reference and remove unnecessary wording, while Rule 73B-10.027, F.A.C., is being amended to delete information about a procedure that is not performed. Rule 73B-10.028, F.A.C., is being amended to remove the requirement of the employer providing written requests for waivers, and Rule 73B-10.031, F.A.C., changes the word “employees” to “unit.” Rule 73B-10.032, F.A.C., is being amended to correct a grammatical error, and Rule 73B-10.035, F.A.C., seeks to add an applicable statutory reference and delete a provision concerning benefit determinations which is unnecessary.

In addition, changes are being made to the following forms listed at Rule 73B-10.037, F.A.C.: Form RTS-72 is updated to add the requirement that the employer provide the location of services which will aid in taxpayer understanding of concurrent employment. Forms RTS-1C and RT-6N are modified to correct the website address. Form RT-7 is being modified to include the thirty day time period set forth in Section 443.141(1)(b)1., FS.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The agency has previously performed a review of the statutory requirements and determined that Rules 73B-10.025, .026, .027, .028, .031, .032, .035, and .037, F.A.C., have no adverse impact or regulatory costs which exceed any of the criteria established in Section 120.541(2)(a), Florida Statutes. These rules are therefore expected be able to take effect without the need of being ratified by the Legislature.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: RULE TITLE:  
 40BER17-01 Minimum Flows for Falmouth Spring, Lafayette Blue Spring, Peacock Springs and Troy Spring

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: The District is required by section 373.042(2)(a), F.S., to adopt a minimum flow or minimum water level (MFL) for Falmouth Spring, Lafayette Blue Spring, Peacock Springs and Troy Spring (Outstanding Florida Springs) by July 1, 2017. To ensure that the District meets its statutory requirement to adopt MFLs for Falmouth Spring, Lafayette Blue Spring,

Peacock Springs and Troy Spring by July 1, 2017, to set limits on further withdrawals that would be significantly harmful to the water resource values (water resources or ecology of the area) of Falmouth Spring, Lafayette Blue Spring, Peacock Springs and Troy Spring, the District is adopting this emergency rule. The basis for this finding of an immediate danger to the public health, safety, or welfare also includes section 373.042(2)(c), F.S., which provides as follows:

The Legislature finds as provided in s. 373.801(3)(b) that the adoption of minimum flows and minimum water levels or recovery or prevention strategies for Outstanding Florida Springs requires immediate action. The department and the districts are authorized, and all conditions are deemed to be met, to use emergency rulemaking provisions pursuant to s. 120.54(4) to adopt minimum flows and minimum water levels pursuant to this subsection and to adopt recovery or prevention strategies concurrently with a minimum flow or minimum water level pursuant to s. 373.805(2). The emergency rules shall remain in effect during the pendency of procedures to adopt rules addressing the subject of the emergency rules.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: The procedure used by the District to adopt the emergency rule is fair under the circumstances. The District caused to be published in the May 15, 2017 edition of the Florida Administrative Weekly (Volume 43, Number 94, page 2249) a notice of the District’s regular June 13, 2017 governing board meeting. The May 15, 2017 notice included a notice that the Governing Board would be considering the adoption of the emergency rule at its June 13, 2017 meeting and identifies the emergency rule by number and title and gives a summary of the emergency rule and the web address where the full text of the emergency rule could be obtained as well as the technical documents used to set the emergency rule. Further, the District included the emergency rule in the Governing Board’s monthly meeting packet which is available to the public at a minimum of seven days prior to the day that the Governing Board approved the emergency rule for adoption. The public is given an opportunity to comment on all matters before the Governing Board during its meetings. The Governing Board’s meeting packet information is posted on the District’s website. Additionally, on or about May 15, 2017, the District posted on its website a notice that the District would hold two public workshops on the emergency rule at 2:00 pm and 6:00 pm on May 24, 2017 at the District headquarters and that the Governing Board would consider the adoption of the emergency rule at its June 13, 2017 meeting. At the public workshops, District staff again stated that the Governing Board would consider the adoption of the emergency rule at its June 13, 2017 meeting. This emergency rule will also be posted on the District’s website.

SUMMARY: Until a non-emergency rule setting a minimum flow and/or minimum water level for the subject springs becomes effective, this emergency rule will temporarily establish minimum water flows for Falmouth Spring, Lafayette Blue Spring, Peacock Springs and Troy Spring, an Outstanding Florida Springs, pursuant to the mandate of section 373.042, F.S. Each water flow has an associated allowable percentage reduction of flow. The terms herein are already defined in Chapter 40B-8, F.A.C. or are defined in the emergency rule itself. As with all minimum flows and levels established by the District, if adopted, the minimum flows and levels in this rule amendment would be used as a basis for imposing limitations on withdrawals of groundwater and surface water in the consumptive use permit regulatory process and for reviewing proposed surface water management systems in the environmental resource permit regulatory process.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Carlos Herd, Water Supply Division Director, Suwannee River Water Management District, 9225 CR 49, Live Oak, Florida 32060; (386)362-1001, Carlos.Herd@srwmd.org.
