RULE NO.: RULE TITLE:
58A-5.036 Emergency Environmental Control for Assisted Living Facilities
NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 43 No. 220, November 14, 2017 issue of the Florida Administrative Register.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this rule will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

Following is a summary of the revised SERC: Several avenues were pursued to determine the estimated regulatory cost to assisted living facilities for compliance with this proposed rule: an assisted living facility trade association provided estimates and quotes submitted by some of their members, estimates were supplied by a national generator supply company, and a sample review of cost information set forth in sworn petitions for variance or waiver submitted by assisted living facilities requesting additional time to comply with the emergency rule. Estimates provided by the assisted

living facility trade association and samples from the petitions were combined to calculate the following estimates.

Less than or equal to 6 beds = \$19,033 average cost per facility, with a range from \$9,390 to \$35,000 per facility. There are 1,568 assisted living facilities in Florida that have fewer than 7 beds; 68 of those facilities have indicated they have achieved compliance with Emergency Rule 58AER17-1 and would be considered in compliance with this proposed rule. The total estimated cost for the remaining 1,500 facilities is \$28,549,500.

7 – 49 beds = \$68,637 average cost per facility, with a range from \$12,280 to \$175,000 per facility. There are 774 assisted living facilities in Florida that have between 7 and 49 beds; 42 of those facilities have indicated they have achieved compliance with Emergency Rule 58AER17-1 and would be considered in compliance with this proposed rule. The total estimated cost for the remaining 732 facilities is \$50,242,284.

50 – 100 beds = \$106,721 average cost per facility (excluding outliers*), with a range of \$47,207 to \$150,000 per facility. There are 433 assisted living facilities in Florida that have between 50 to 100 beds; 17 of those facilities have indicated they have achieved compliance with Emergency Rule 58AER17-1 and would be considered in compliance with this proposed rule. The total estimated cost for the remaining 416 facilities is \$44,395,936. *A conservative approach was used to determine the average cost for this sample size by excluding the higher amount when provided a range of estimated costs. These higher costs differed by almost \$400,000 from the lower range so the outlier higher amount was excluded from the calculation.

Estimates provided by a national generator supplier indicate costs related to a 350KW stationary generator (which would be sufficient to power a 120-bed assisted living facility) are estimated at \$70,000 to purchase, \$70,000 to install, plus fuel costs of \$5,700 (\$145,700 total for each facility). The total estimate for the 28 facilities in Florida with 120 beds is \$145,700 * 28 = \$4,079,600.

100+ beds = \$439,000 average cost per facility (excluding outliers**), with a range of \$306,000 to \$550,000 per facility. There are 286 assisted living facilities in Florida that have 100 or more beds (excluding those with exactly 120 beds); 11 of those facilities have indicated they have achieved compliance with Emergency Rule 58AER17-1 and would be considered in compliance with this proposed rule. The total estimated cost for the remaining 275 facilities is \$116,645,400. **A conservative approach was used to determine the average cost for this sample size by excluding the

lower amount when provided a range of estimated costs. These lower costs differed between \$200,000 and \$400,000 from the upper range so the outlier lower amount was excluded from the calculation.

Thus, the total cost for the remaining 2,951 assisted living facilities to comply with this proposed rule is \$243,912,720.

The Agency has determined that the proposed rule is expected to require legislative ratification based on the statement of estimated regulatory costs.

Copies of the revised SERC can be obtained by contacting Djanet Cannady at cannadyd@elderaffairs.org

RULE NO.: 58A-5.036 RULE TITLE: Emergency Environmental Control for Assisted Living Facilities
 NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 43 No. 220, November 14, 2017 issue of the Florida Administrative Register.

58A-5.036 Emergency Environmental Control for Assisted Living Facilities

(1) DETAILED EMERGENCY ENVIRONMENTAL CONTROL PLAN. Each assisted living facility shall prepare a detailed plan (“plan”) to serve as a supplement to its Comprehensive Emergency Management Plan, to address emergency environmental control in the event of the loss of primary electrical power in that assisted living facility which includes the following information:

(a) The acquisition of a sufficient alternate power source such as a generator(s), ~~installed and~~ maintained at the assisted living facility, to ensure that current licensees of assisted living facilities will be equipped to ensure ambient air temperatures will be maintained at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. ~~For facilities with 16 or fewer beds, “installed” means an alternate power source on site that is readily available for hook up.~~

1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain ~~all~~ residents safely comfortably at all times and that is appropriate for resident care needs and life safety requirements ~~the health, safety, comfort and welfare of all residents~~. For planning purposes, no less than twenty (20) thirty (30)-net square feet per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed

capacity as the number of residents to be used in the calculation to determine the required square footage. This may include areas that are less than the entire assisted living facility if the assisted living facility's comprehensive emergency management plan includes allowing a resident to congregate when he or she desires in relocating residents to portions of the building where temperatures will be maintained and includes procedures for monitoring residents for signs of heat related injury to ensure the health, safety, comfort and welfare of residents as required by this rule. This rule does not prohibit a facility from acting as a receiving provider for evacuees when the conditions stated in s. 408.821, F.S. and Rule 58A-5.026(5), F.A.C., are met. The plan shall include information regarding the area(s) within the assisted living facility where the required temperature will be maintained.

2. The alternate power source and fuel supply shall be located in an area(s) in accordance with local zoning and the Florida Building Code that is not subject to flooding or damage from storm surge.

3. Each assisted living facility is unique in size; the types of care provided; the physical and mental capabilities and needs of residents; the type, frequency, and amount of services and care offered; and staffing characteristics. Accordingly, this rule does not limit the types of systems or equipment that may be used to achieve ambient temperatures at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power to ensure the health, safety, comfort and welfare of residents. The plan shall include information regarding the systems and equipment that will be used by the assisted living facility and the fuel required to operate the systems and equipment.

a. An assisted living facility in an evacuation zone pursuant to chapter 252, F. S. must maintain an alternative power source and fuel as required by this subsection at all times when the assisted living facility is occupied but is permitted to utilize a mobile generator(s) to enable portability if evacuation is necessary.

b. Assisted living facilities located on a single campus with other facilities under common ownership, may share fuel, alternative power resources, and resident space available on the campus if such resources are sufficient to support the requirements of each facility's residents, as specified in this rule. Details regarding how resources will be shared and any necessary movement of residents must be clearly described in the emergency power plan.

c. A multistory facility, whose comprehensive emergency management plan is to move residents to a higher floor during a flood or surge event, must place its alternative power source and all necessary additional equipment so it can safely operate in a location protected from flooding or storm surge damage.

(b) The acquisition of sufficient fuel, and safe maintenance of that fuel at the facility, to ensure that in the event of the loss of primary electrical power there is sufficient fuel available for the alternate power source to maintain ambient temperatures at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours after the loss of primary electrical power during a declared state of emergency. The plan must include information regarding fuel source and fuel storage.

1. Facilities must store minimum amounts of fuel onsite as follows:

a. A facility with a licensed capacity of 16 beds or less must store 48 hours of fuel onsite.

b. A facility with a licensed capacity of 17 or more beds must store 72 hours of fuel onsite.

2. An assisted living facility located in an area in a declared state of emergency area pursuant to section 252.36, F.S. that may impact primary power delivery must secure ninety-six (96) hours of fuel. The assisted living facility may utilize portable fuel storage containers for the remaining fuel necessary for ninety-six (96) hours during the period of a declared state of emergency.

~~3.1. Piped natural gas is an allowable fuel source and meets the onsite fuel supply requirements under this rule. The plan must include information regarding fuel source and fuel storage.~~

~~4.2. If there is a conflicting local ordinance ordinance or other regulations limit the amount of onsite fuel storage for the assisted living facility's location restricting the maximum amount of fuel storage allowed, then the assisted living facility must develop a plan that includes maximum onsite fuel storage allowable by the ordinance or regulation and a reliable method to obtain the maximum additional fuel at least 24 hours prior to depletion of onsite fuel shall maintain the maximum amount of fuel allowable by that local ordinance or code.~~

(c) The acquisition of services necessary to ~~install,~~ maintain, and test the equipment and its functions to ensure the safe and sufficient operation of the alternate power source maintained at ~~installed in~~ the assisted living facility.

(d) The acquisition and maintenance of a carbon monoxide alarm.

(2) SUBMISSION OF THE PLAN.

(a) Each assisted living facility licensed prior to the effective date of this rule shall submit its plan to the local emergency management agency for review ~~and approval~~ within 30 days of the effective date of this rule. Assisted living facility plans previously submitted and approved pursuant to emergency rule 58AER17-1 will require resubmission only if changes are made to the plan.

(b) Each new assisted living facility shall submit the plan required under this rule prior to obtaining a license.

(c) Each existing assisted living facility that undergoes any additions, modifications, alterations, refurbishment, renovations or reconstruction that require modification of its systems or equipment affecting the facility's compliance with required under this rule shall amend its plan and submit it to the local emergency management agency for review and approval prior to undergoing any such additions, modifications, alterations, refurbishment, renovations or reconstruction.

(3) APPROVED PLANS.

(a) Each assisted living facility must maintain a copy of its approved plan in a manner that makes the plan readily available at the licensee's physical address for review by a legally authorized entity. If the plan is maintained in an electronic format, assisted living facility staff must be readily available to access and produce the plan. For purposes of this section, "readily available" means the ability to immediately produce the plan, either in electronic or paper format, upon request.

(b) Within two (2) business days of the approval of the plan from the local emergency management agency, the assisted living facility shall submit in writing proof of the approval to the Agency for Health Care Administration.

(c) The assisted living facility shall submit a consumer-friendly summary of the emergency power plan to the Agency. The Agency shall post the summary and notice of the approval and implementation of the assisted living facility emergency power plans on its website within ten (10) business days of the plan's approval by the local emergency management agency and update within ten (10) business days of implementation.

(4) IMPLEMENTATION OF THE PLAN.

(a) Each assisted living facility licensed prior to the effective date of this rule shall, no later than June 1, 2018, have implemented the plan required under this rule.

(b) The Agency shall allow an extension up to January 1, 2019 to providers in compliance with (c) below and who can show delays caused by necessary construction, delivery of ordered equipment, zoning or other regulatory approval processes. Assisted living facilities shall notify the Agency that they will utilize the extension and keep the Agency apprised of progress on a quarterly basis to ensure there are no unnecessary delays. If an assisted living facility can show in its quarterly progress reports that unavoidable delays caused by necessary construction, delivery of ordered equipment, zoning or other regulatory approval processes will occur beyond the initial extension date, the assisted living facility may request a waiver pursuant to s. 120.542, F.S.

(c) During the extension period, an assisted living facility must make arrangements pending full implementation of its plan that provides the residents with an area or areas to congregate that meets the safe indoor air temperature requirements of subsection (1) (a) for a minimum of ninety-six (96) hours.

1. An assisted living facility not located in an evacuation zone must either have an alternative power source onsite or have a contract in place for delivery of an alternative power source and fuel when requested. Within twenty-four (24) hours of the issuance of a state of emergency for an event that may impact primary power delivery for the area of the assisted living facility, it must have the alternative power source and no less than ninety-six (96) hours of fuel stored onsite.

2. An assisted living facility located in an evacuation zone pursuant to chapter 252, F.S. must either:

a. Fully and safely evacuate its residents prior to the arrival of the event; or

b. Have an alternative power source and no less than ninety-six (96) hours of fuel stored onsite, within twenty-four (24) hours of the issuance of a state of emergency for the area of the assisted living facility.

(d)(b) Each new assisted living facility shall implement the plan required under this rule prior to obtaining a license.

(e)(c) Each Existing assisted living facilities facility that undergo undergoes any additions, modifications, alterations, refurbishment, renovations or reconstruction that require modification of the systems or equipment affecting the assisted living facility's compliance with this rule shall implement its amended plan concurrent with any such additions, modifications, alterations, refurbishment, renovations or reconstruction.

(f)(d) The Agency for Health Care Administration may request cooperation from the State Fire Marshal to shall conduct inspections to ensure implementation of the plan in compliance with this rule.

(5) POLICIES AND PROCEDURES.

(a) Each assisted living facility shall develop and implement written policies and procedures to ensure that the assisted living facility can effectively and immediately activate, operate and maintain the alternate power source and any fuel required for the operation of the alternate power source. The procedures shall ~~be resident focused~~ to ensure that residents do not experience complications from fluctuations in ambient air temperatures inside the facility. Procedures must address the care of residents occupying the facility during a declared state of emergency, specifically, a description of the methods to be used to mitigate the potential for heat related injury including:

1. The use of cooling devices and equipment;

2. The use of refrigeration and freezers to produce ice and appropriate temperatures for the maintenance of medicines requiring refrigeration;

3. Wellness checks by assisted living facility staff to monitor for signs of dehydration and heat injury; and

4. A provision for obtaining medical intervention from emergency services for residents whose life safety is in jeopardy.

(b) Each assisted living facility shall maintain the written policies and procedures in a manner that makes them readily available at the licensee’s physical address for review by a legally authorized entity. If the policies and procedures are maintained in an electronic format, assisted living facility staff must be readily available to access the policies and procedures and produce the requested information. For purposes of this section, “readily available” means the ability to immediately produce the policies and procedures, either in electronic or paper format, upon request.

(c) The written policies and procedures must be readily available for inspection by each resident; each resident’s legal representative, designee, surrogate, guardian, attorney in fact, or case manager; each resident’s estate; and such additional parties as authorized in writing or by law.

(6) ~~REVOCAION OF LICENSE, FINES OR SANCTIONS.~~ For a violation of any part of this rule, the Agency for Health Care Administration may seek any remedy authorized by Chapter 429, Part I, Florida Statutes, or Chapter 408, part II, Florida Statutes, ~~law~~ including, but not limited to, license revocation, license suspension, and the imposition of administrative fines ~~and/or sanctions as provided in Section 429.19, F.S.~~

(7) COMPREHENSIVE EMERGENCY MANAGEMENT PLAN.

(a) ~~Assisted living f~~Facilities whose comprehensive emergency management plan is to evacuate must comply with this rule.

(b) Each facility whose plan has been approved shall submit the plan as an addendum with any future submissions for approval of its comprehensive emergency management plan.

(8) NOTIFICATION.

(a) Within five (5) business ~~three (3)~~ days, each assisted living facility must notify in writing, unless permission for electronic communication has been granted, each resident and the resident’s legal representative:

1. Upon submission of the plan to the local emergency management agency that the plan has been submitted for review and approval;

~~2. Upon approval of the plan by the local emergency management agency; and~~

~~2.3. Upon final implementation of the plan by the assisted living facility, following review by the local State Fire Marshal.~~

(b) Each assisted living facility must maintain a copy of each notification set forth in paragraph (a) above in a manner that makes each notification readily available at the licensee’s physical address for review by a legally authorized entity. If the notifications are maintained in an electronic format, facility staff must be readily available to access and produce the notifications. For purposes of this section, “readily available”

means the ability to immediately produce the notifications, either in electronic or paper format, upon request.

The Southwest Florida Water Management District hereby gives notice:

that on January 17, 2018, it has issued an order granting a variance.

Petitioner's Name: The Fairways at Summertree, HOA, Inc. – File Tracking No. 18-4272

Date Petition Filed: November 13, 2017

Rule No.: 40D-22.201, F.A.C.

Nature of the rule for which variance or waiver was sought: Lawn and landscape irrigation

Date Petition Published in the Florida Administrative Register: November 29, 2017

General Basis for Agency Decision: Petitioner demonstrated substantial hardship and proposed an alternative means of achieving the purpose of the statute implemented by the rule.

A copy of the Order or additional information may be obtained by contacting: Lois Sorensen, 7601 US Highway 301, Tampa, Florida 33637, (813)985-7481, Ext. 2298, water.variances@watermatters.org. A2017061-2

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Division of Hotels and Restaurants

RULE NO.: RULE TITLE:

61C-1.004 General Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice:

On January 10, 2018 the Division of Hotels and Restaurants received a Petition for an Emergency Variance for paragraph 61C-1.004(2)(a), Florida Administrative Code, subsection 61C-

4.010(7), Florida Administrative Code, subsection 61C-4.010(6), Florida Administrative Code, and Section 6-402.11, 2009 FDA Food Code from The Nina Hospitality Co. located in Dunedin. The above referenced F.A.C. addresses the requirement that at least one accessible bathroom be provided for use by customers. They are requesting to share the bathrooms located within a nearby establishment under a different ownership for use by customers and employees. The Petition for this variance was published in Vol. 44, No. 8, F.A.R., on January 11, 2018. The Order for this Petition was signed and approved on January 18, 2018. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship for the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the bathrooms located within Woodwright Brewing Co., 985 Douglas Ave, Dunedin FL, 34698, are maintained in a clean and sanitary manner and are provided with hot and cold running water under pressure, soap, approved hand drying devices, and are available during all hours of operation. The Petitioner shall also ensure directional signage is installed within or outside the establishment clearly stating the location of the bathrooms. If the ownership of Coattails (The Nina Hospitality Co.) and/or Woodwright Brewing Co. (Woodwright Brewing Co.) changes, an updated signed agreement for use of the bathroom facilities will be required immediately.

AGENCY FOR HEALTH CARE ADMINISTRATION
 Certificate of Need
 NOTICE OF HOSPITAL FIXED NEED POOLS FOR PSYCHIATRIC AND SUBSTANCE ABUSE BEDS
 The Agency for Health Care Administration has projected fixed bed need pools for adult and children and adolescent psychiatric and adult substance abuse beds for July 2023 pursuant to the provisions of Rules 59C-1.008, 59C-1.040, and 59C-1.041, F.A.C. Net bed need projections for adult and children and adolescent psychiatric and adult substance abuse hospital beds have been adjusted according to occupancy rate thresholds as prescribed by the above-mentioned rules. A fixed need pool projection for children and adolescent substance abuse beds is not made because the administrative rule governing this service does not include a mathematical formula for the calculation of

need. An applicant seeking approval for these types of beds must establish need in its application. Letters of intent to apply for Certificates of Need pursuant to this notice must be filed with the Certificate of Need Program Office, Building 1, Room 226 MS 28, 2727 Mahan Drive, Tallahassee, Florida, 32308, on or before 5pm, February 5, 2018.

Any person who identifies an error in the fixed need pool numbers must advise the agency of the error within ten (10) days of publication of the number. If the agency concurs with the error, the fixed need pool number will be adjusted and republished in the first available edition of the Florida Administrative Register. Failure to notify the agency of the error during this ten day time period will result in no adjustment to the fixed need pool number for this cycle and a waiver of the person's right to raise the error at subsequent proceedings. Any other adjustments will be made in the first cycle subsequent to identification of the error including those errors identified through administrative hearings or final judicial review. Any person whose substantial interest is affected by this action and who timely advised the agency of any error in the action has a right to request an administrative hearing pursuant to Section 120.57, Florida Statutes. In order to request a proceeding under Section 120.57, Florida Statutes, your request for an administrative hearing must state with specificity which issues of material fact or law are in dispute. All requests for hearings shall be made to the Agency for Health Care Administration and must be filed with the agency clerk at 2727 Mahan Drive, Building 3, Suite 3431, Tallahassee, Florida, 32308. All requests for hearings must be filed with the agency clerk within 21 days of this publication or the right to a hearing is waived.
