RULE NO.: 6M-8.410
 RULE TITLE: Voluntary Prekindergarten Program Substitute Instructors

PURPOSE AND EFFECT: The proposed rule revision will address updates to references to rules adopted by the Department of Children and Families, the number of hours a

substitute teacher may be assigned to a classroom, and the length of time a provider must retain records.

SUMMARY: The proposed rule revision will amend references to rules adopted by the Department of Children and Families, reduce the number of hours that a substitute teacher may be assigned to a classroom and increase the length of time for record retention.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The office’s economic analysis of the adverse impact or potential regulatory costs of the proposed rule revisions did not exceed any of the criteria established in Section 120.541(2)(a), Florida Statutes. A SERC is not required because the rule revisions do not increase cost to the threshold required for the SERC.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 64B8-13.005

RULE TITLE: Continuing Education for Biennial Renewal

PURPOSE AND EFFECT: The proposed rule amendments set forth the additional entities approved by the Board to provide the prescribing controlled substances course.

SUMMARY: The proposed rule amendments add the additional entities of the University of Florida, NetCE and The Doctors Company as those entities authorized by the Board to provide the continuing education course for those physicians who prescribe controlled substances.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit

opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Florida Coastal Management Program Notice of Routine Program Change Request

The Department of Environmental Protection's Office of Resilience and Coastal Protection has requested the concurrence of the federal Office of Ocean and Coastal Resource Management (OCRM) of the National Oceanic and Atmospheric Administration (NOAA), in updating the statutory authorities included within the Florida Coastal Management Program (FCMP) as a routine program change (RPC). The Department of Environmental Protection has determined that the proposed program changes are a routine program change as

defined by 15 CFR 923.84. This routine program change submission will incorporate relevant new Florida Statutes enacted by the Florida Legislature during the 2018 legislative session into the Florida Coastal Management Program. This includes incorporation of Section 373.4146, Florida Statutes, as an enforceable policy for federal consistency purposes. The routine program change submittal is available at <https://floridadep.gov/rcp/fcmp/content/routine-program-changes> and describes the nature of the changes as well as identifies the enforceable policies to be added to the management program of the State if approved. A list of all statutes that make up the FCMP is available at <https://floridadep.gov/rcp/fcmp/content/24-florida-statutes-florida-coastal-management-program>.

Staff has evaluated these changes pursuant to 15 CFR 923, Subpart H and concluded that the changes are routine program changes, rather than more elaborate amendments to the FCMP. These changes will not result in any substantial change to the enforceable policies or authorities of the FCMP related to uses subject to management, special management areas, boundaries, authorities and organization, or coordination, public involvement and the national interest.

Notice is being provided to the general public and affected parties, including local governments, state agencies, and regional offices of relevant federal agencies as required by 15 CFR paragraph 923.84(b)(2). A list of persons and organizations notified is available for inspection or can be provided upon request from the department contact below.

Pursuant to 15 CFR 923.84, comments on whether the changes constitute a routine program change of the FCMP may be submitted to Joelle Gore, NOAA/OCRM, 1305 East-West Highway, Silver Spring, MD 20910 within 21 days of the date of issuance of this notice.
