Board of Optometry

RULE NO.: RULE TITLE:

64B13-4.001 Examination Requirements

The Board of Optometry hereby gives notice: of the issuance of an Order regarding the Petition for Waiver or Variance, which was filed on December 11, 2019, by Shawn D. Westbrook, O.D. Petitioner was seeking a waiver or variance from subsection 64B13-4.001(1), F.A.C., entitled, "Examination Requirements" that states an applicant for licensure must achieve a passing score on all four (4) parts of the licensure examination in order to be licensed in Florida. The Notice was published in Volume

The Board considered the instant Petition at a duly-noticed meeting held January 17, 2020, in Orlando, Florida. Florida Building Commission

RULE NO.: RULE TITLE:

61G20-1.001 Florida Building Code Adopted

NOTICE IS HEREBY GIVEN that the Florida Building Commission has issued an order disposing of the petition for declaratory statement filed by Grayscale Partners, LLC on December 05, 2019. The following is a summary of the agency's disposition of the petition: Petitioner requested an answer to the following questions, based upon the project described within its petition: 1. Do the dwelling units in Project A meet the definition of townhouse under the Florida Building Code? 2. Do the dwelling units in Project B meet the definition of townhouse under the Florida Building Code? 3. Do the dwelling units in Project C meet the definition of townhouse under the Florida Building Code? 4. If the answer is yes to one or more of the above questions, does it follow that the townhouses in that project are subject to the Florida Building Code, Residential, and therefore not subject to the Florida Building Code, Building? On February 11, 2020, the Commission provided the following answers: For questions one through three, the answer to each is no. Each project in question does not meet the fire separation requirements of sections R302.1, R302.2 and R302.2.1 of the Florida Building Code, Residential, 6th Edition (2017), which require that each townhouse be considered a separate building and be separated by a separate and continuous fire rated wall assembly meeting the requirements of zero clearance from property lines of section R302.1, Florida Building Code, Residential, 6th Edition (2017), for exterior walls. Since the answers to questions one through three were all no, Petitioner's fourth question does not require an answer.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk's Office, Department of Business and Professional Regulation, 2601 Blair Stone Road, Tallahassee, Florida 32399, (850)921-0342, AGC.Filing@myfloridalicense.com.

UF-656 UF Landscape Master Plan Implementation

The University of Florida Board of Trustees announces that Professional Services in the discipline of landscape architecture will be required for the project listed below:

Project: UF-656, Landscape Master Plan Implementation (Gainesville, FL)

This project will be the implementation phase of the established Landscape Master Plan which provides a vision for the UF landscape that will further the University's pursuit of preeminence. The landscape vision addresses five key components of the campus—its edges, its campus core, its roadways, its natural systems, and its landscape elements—and expands upon the best examples of these components present on campus today. Underlying the landscape vision is a recognition of the significant role that large institutions, and especially educational institutions, should play in the 21st century in setting the standards and educating the public about a sustainable approach to the landscape.

The estimated construction budget is approximately \$3,975,000, including landscape, hardscape, roadwork, and civil design. The project will be delivered using the Construction Manager method. (Gold) LEED SITES (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is mandatory.

The selected firm will provide design, construction documents and construction administration services for the referenced project. Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Blanket design professional liability insurance will be required from the landscape architect and engineering consultants for this project and will be provided as a part of Basic Services. The selected applicant will also be required to provide insurance coverage for General Liability, Automotive Liability, and Workers' Compensation.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design ability, references, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant and its landscape architectural and engineering consultants must possess current design licenses from the appropriate governing board and be properly registered to practice its profession in the State of

Florida. If the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida.

Applicants desiring to provide professional services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the PQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, design intent, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. A completed, project-specific "Professional Qualifications Supplement" (PQS) proposal with signed certification. Applications on any other form will not be considered.
3. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff (applicant and consultants).
4. Proof of the applicant's corporate status in Florida (if applicable) and copies of current licenses for applicant firm and all engineering and landscape architecture consultants (firms) from the appropriate governing board.
5. Proof of the applicant's and all engineering consultants' ability to be insured for the level of professional liability coverage demanded for this project.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected professional must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific PQS forms, instructions, Project Fact Sheet, facilities program, UF Design and Commissioning Services Guide, UF Design and Construction Standards, standard University of Florida Owner-Professional agreement, and other project and process information – can be found on the Planning Design & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Planning Design & Construction office by 3:00 p.m. local time, on Tuesday March 13, 2020. Facsimile (FAX) submittals are not acceptable and will not be considered.
