### Proposed Rules

#### DEPARTMENT OF EDUCATION

##### State Board of Education

RULE NO.:       RULE TITLE:

6A-10.0240       Minimum Standards for Out-of-state High  
School Equivalency Diplomas

PURPOSE AND EFFECT: Students seeking admission to Florida College System (FCS) institutions are required to provide documentation of a high school diploma or its equivalent. In Florida, students earn a State of Florida High School Equivalency Diploma by successfully passing the 2014 GED® Test. Other states award state-recognized high school equivalency diplomas through passing scores on the Test Assessing Secondary Completion (TASC), High School Equivalency Test (HiSET) or California High School Proficiency Exam, which are recognized by the U.S. Department of Education as alternatives to the GED® for financial aid purposes. Currently, FCS institutions do not have a mechanism to accept a state-recognized high school equivalency diploma earned via alternatives to the GED®. The proposed rule will reduce a barrier to entry by ensuring reciprocity for prospective students with a state-recognized high school equivalency diploma earned via passing scores on the HiSET, TASC or California High School Proficiency Exam. Students seeking admission to Florida College System (FCS) institutions are required to provide documentation of a high school diploma or its equivalent.

SUMMARY: The proposed rule will provide a mechanism for student admission to a FCS institution with a high school equivalency diploma that is issued by another state, which are recognized by the U.S. Department of Education as alternatives to the GED® for financial aid purposes.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within

one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rule will not have any costs to students or institutions since it is expanding the types of high school equivalency diplomas accepted under current law and rule. The rule will not require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

**6A-10.0240 Minimum Standards for Out-of-state High School Equivalency Diplomas**

This rule establishes the following minimum standards for a high school equivalency diploma issued by a state other than Florida for the purpose of admission to an associate degree program at Florida College System institutions:
