40A-8.041 Minimum Flow for Wakulla Spring and Sally Ward Spring

The Governing Board hereby establishes the following minimum flow. The Governing Board finds that the following minimum flow is the limit at which further withdrawals would be significantly harmful to the water resources or ecology of the area. The minimum flow for Wakulla Spring and Sally Ward Spring, combined and undivided, is 539 cubic feet per second and is calculated as the sum of the Wakulla Spring Average Flow and the Sally Ward Spring Average Flow. The minimum flow of 539 cubic feet per second represents an allowable flow reduction of 9.9%, or 59 cubic feet per second, from the baseline period value of 598 cubic feet per second. The baseline period is October 23, 2004, to December 31, 2019. The District will evaluate the minimum flow for Wakulla Spring and Sally Ward Spring every five years as part of the regional water

supply planning process to determine the extent to which the sum of the Wakulla Spring Average Flow and the Sally Ward Spring Average Flow has been reduced due to withdrawals as of the date of each evaluation. Each evaluation will be completed using flows beginning on October 23, 2004, and include a review of:

- (1) Flow data;
- (2) Water withdrawals;
- (3) Aquifer water levels; and
- (4) Rainfall data.

Each evaluation is independent from and not a determination of water use permit compliance or environmental resource permit compliance. Permit compliance is a regulatory function that is not within the scope of this subsection.

Notice of Extension

RULE NO.: RULE TITLE:

69A-2.024 Construction Materials Mining Activities

This Notice of Extension is being published pursuant to subsection 120.74(5), F.S., to extend the April 1, 2021, deadline for publishing a Notice of Proposed Rule for Rule 69A-2.024. The Notice of Rule Development was published in the Vol. 46, No. 209, October 26, 2020, issue of the Florida Administrative Register. This Notice is being filed because the Division is still in the process of finalizing the rule language. The Division provided an opportunity for the public to request a rule workshop in its Notice of Rule Development, but the January 13, 2021 workshop was not requested and, therefore, was not held. The Division subsequently scheduled a workshop that was conducted on March 10, 2021. The Division received a multitude of public comments regarding the draft rule language

from the mining industry and members of the public. These recent comments will necessitate revisions to the draft language. The Division recently hired a subject matter expert who is assisting with revising the draft language and reviewing the public comments. The Division may also need to seek further public comments through additional workshops.
