PURPOSE AND EFFECT: The Board proposes the development to review and update the rule language.

SUMMARY: Date change due to JAPC comment.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

GENERAL SUBJECT MATTER TO BE CONSIDERED: Financial Management (FM) No. 441412-1

Brevard County has rescheduled a Virtual Public Meeting (VPM) for the St. Johns Heritage Parkway Alternative Corridor Evaluation (ACE) Study. The meeting will now take place on Thursday, December 8, 2022.

The ACE Study is being conducted to evaluate the potential for a new roadway corridor that could connect the existing segments of the St. Johns Heritage Parkway between Babcock Street on the south to Malabar Road on the north, a distance of approximately 14 miles.

The ACE Study began in January 2020 and the first VPM was held in May 2021. The Study evaluated five alternative corridors, as well as the no-build option. The proposed alternatives were studied for impacts on the social, cultural, natural, and physical environments. Consideration was also given to engineering criteria, and project cost. Based on the analysis conducted, two corridors are recommended for further study to move forward into a future Project Development and Environment (PD&E) study. At this time, the PD&E Study, Design, Right-of-Way, and Construction phases are not funded. The VPM is being held to present the results of the ACE study and obtain public and stakeholder input. The meeting is being conducted as a VPM, which is a free, live webinar that is hosted online. If you wish to participate in the VPM, registration is required prior to joining. Interested participants will need to register at: <https://tinyurl.com/StJohnsHeritagePkwVPM>. Once registered, participants will receive a confirmation email.
