64B16-27.700    Definition of Compounding

PURPOSE AND EFFECT: The Board proposes the rule amendment to update language regarding compounding.

SUMMARY: Language regarding compounding will be clarified.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Committee meetings and Board meetings, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

## Section IV Emergency Rules

### AGENCY FOR HEALTH CARE ADMINISTRATION

#### Health Facility and Agency Licensing

RULE NO.: 59AER24-3  
 RULE TITLE: Medical Records Procedures for Treatment of Premature Rupture of Membranes and Other Life Threatening Conditions.

**SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE:** On April 1, 2024, the Florida Supreme Court issued its decision in *Planned Parenthood of Southwest and Central Florida, et al., v. State of Florida, et al.* (Case No. SC2022-1050). Pursuant to section 9, ch. 2023-21, Laws of Florida, this decision triggered a change in the law. Effective May 1, 2024, the Heartbeat Protection Act went into effect, and a physician may not knowingly perform or induce a termination of pregnancy if the physician determines the gestational age of the unborn baby is more than 6 weeks, except under certain circumstances. Prior to this change in the law, abortions had been permitted up to a gestational age of 15 weeks. Preterm premature rupture of membranes, premature rupture of membranes, ectopic pregnancy, and molar pregnancy are medical conditions that can occur when the gestational age of an unborn child is greater than 6 weeks, and can present an immediate danger to the health, safety, and welfare of women and unborn children in hospitals and abortion clinics if immediate and proper care and treatment is not rendered. The Agency finds there is an immediate danger to the health, safety, and welfare of pregnant women and babies due to a deeply dishonest scare campaign and disinformation being perpetuated by the media, the Biden Administration, and advocacy groups to misrepresent the Heartbeat Protection Act and the State's efforts to protect life, moms, and families. The Agency is initiating rulemaking to safeguard against any immediate harm that could come to pregnant women due to disinformation. This rulemaking will ensure health care providers establish medical records procedures that will adequately protect the care and safety of both mothers and their unborn babies during medical emergencies. Hospital patients will benefit from immediate enhancements to recordkeeping as these facilities continue to administer emergency medical procedures to save the lives of pregnant women and unborn children. Therefore, emergency rulemaking is justified.

**REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES:** The procedure used to adopt this emergency rule is fair as a significant change in the law has occurred. Immediate guidance is necessary in order for licensed facilities to continue to administer life-saving

procedures as disinformation spreads. The Heartbeat Protection Act became effective May 1. Therefore, non-emergency rulemaking was not feasible or practicable before that date. Non-emergency rulemaking has been initiated but has not yet been completed. This emergency rule is necessary to ensure the health, safety, and welfare of pregnant women and unborn babies during medical emergencies; provides at least the procedural protection given by other statutes, the State Constitution, or the United States Constitution; and takes only the action necessary to protect the public interest under the emergency procedure.

**SUMMARY:** This emergency rule requires policies and procedures for the maintenance of medical records for the treatment of premature rupture of membranes, ectopic pregnancies, trophoblastic tumors, and other life-threatening conditions.

**THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS:** Kelli Fillyaw at Agency for Health Care Administration, Division of Health Care Policy and Oversight, Bureau of Health Facility Regulation, 2727 Mahan Drive, MS# 28A, Tallahassee, FL 32308, email Kelli.Fillyaw@ahca.myflorida.com or phone (850)412-4442.

THE FULL TEXT OF THE EMERGENCY RULE IS:

**59AER24-3 Medical Records Procedures for Treatment of Premature Rupture of Membranes and Other Life Threatening Conditions.**

Each hospital shall maintain written policies and procedures governing the maintenance of medical records for the treatment of preterm premature rupture of membranes, premature rupture of membranes, ectopic pregnancies, trophoblastic tumors, and other life-threatening conditions. The policies and procedures shall be reviewed at least annually, dated to indicate time of last review, and revised as necessary. At a minimum, the policies and procedures shall address the following:

(1) When a patient receives a diagnosis of preterm premature rupture of membranes or premature rupture of membranes, the patient shall be admitted for observation unless the treating physician determines that another course of action is more medically appropriate under the circumstances to ensure the health of the mother and the unborn baby. When the treating physician determines that another course of action is more medically appropriate, the physician shall document the reasons why the alternate course of action is more appropriate.

(2) When a physician attempts to induce the live birth of an unborn baby, regardless of gestational age, to treat the preterm premature rupture of membranes or premature rupture of membranes, and the unborn baby does not survive, the incident does not constitute an abortion and shall not be

reported pursuant to Rule 59A-9.034. The treating physician shall document the treatment in the patient's medical record.

(3) The treatment of an ectopic pregnancy is not an abortion and shall not be reported pursuant to Rule 59A-9.034. The treating physician shall document the treatment in the patient's medical record.

(4) The treatment of a trophoblastic tumor is not an abortion and shall not be reported pursuant to Rule 59A-9.034. The treating physician shall document the treatment in the patient's medical record.

Rulemaking Authority 395.1055 FS. Law Implemented 390.0112, 395.3015 FS. History—New 8-2-24.

GENERAL SUBJECT MATTER TO BE CONSIDERED: The PD&E Study will consider, analyze, and evaluate the location and potential phasing of an approximately 15-20-mile expressway connection from Florida’s Turnpike (SR 91) northeast to US 192 and north to SR 534. The study’s objectives include providing additional east-routes, promoting regional connectivity and enhancing mobility for the area’s growing population and economy.

This will be the first of four CEG meetings anticipated to be held as part of the PD&E Study. During this meeting, the CFX project study team will present information about the study, including initial corridor evaluation results, and receive input from CEG members. All factors related to conceptual design and location of the facility, including transportation needs, financial feasibility, social impacts, economic factors, environmental impacts, engineering analysis, and right-of-way requirements, are being considered in the study.

As a special advisory resource to CFX and the consultant team, the CEG is an important component of this study process. The CEG's input regarding local needs, concerns and social impacts is crucial in the evaluation of the feasibility of the project.

**DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES**

Division of Food, Nutrition and Wellness  
Child Nutrition Programs State Waiver Request

**CHILD NUTRITION PROGRAM  
STATE WAIVER REQUEST TEMPLATE**

Child Nutrition Programs are expected to be administered according to all statutory and regulatory requirements; waivers to the requirements are exceptions. However, Section 12(l) of the Richard B. Russell National School Lunch Act, 42 U.S.C. 1760(l), provides authority for USDA to waive requirements for State agencies or eligible service providers under certain circumstances. When requesting the waiver of statutory or regulatory requirements for the Child Nutrition Programs (CNPs), including the Child and Adult Care Food Program (CACFP), the Summer Food Service Program (SFSP), the National School Lunch Program (NSLP), the Fresh Fruit and Vegetable Program (FFVP), the Special Milk Program (SMP), and the School Breakfast Program (SBP), State agencies and eligible service providers should use this template. State agencies and eligible service providers should consult with their FNS Regional Offices when developing waiver requests to ensure a well-reasoned, thorough request is submitted. State agencies and eligible service providers are encouraged to submit complete waiver requests at least 60 calendar days prior to the anticipated implementation date. Requests submitted less than 60 calendar days prior to the anticipated implementation should be accompanied by an explanation of extenuating circumstances.

For more information on requests for waiving Program requirements, refer to SP 15-2018, CACFP 12-2018, SFSP 05-2018, Child Nutrition Program Waiver Request Guidance and Protocol- Revised, May 24, 2018.

State agency submitting waiver request and responsible State agency staff contact information:

Lisa Church Chief, Bureau of Child Nutrition Programs, Division of Food, Nutrition and Wellness, Florida Department of Agriculture and Consumer Services, (850)617-7413 Direct Line, (850)509-7884 Cell, Lisa.Church@fdacs.gov  
Region: SERO

Eligible service providers participating in waiver and affirmation that they are in good standing:

The waiver would apply to NSLP, SBP, ASP, FFVP, SFSP, SSO, SMP sponsors throughout the state of Florida.

Description of the challenge the State agency is seeking to solve, the goal of the waiver to improve services under the Program, and the expected outcomes if the waiver is granted. [Section 12(l)(2)(A)(iii) and 12(l)(2)(A)(iv) of the NSLA]:

As sponsors respond to and recover from emergencies, it is important to reduce administrative burden to the fullest extent possible. FDACS desires to provide administrative and operational flexibility, where possible, while maintaining program integrity in providing nutritious meals during emergency situations. A relief of these regulatory requirements will help us to better meet the needs of our customers.  
Challenge without waiver

Sponsors continue to face uncertainty in how to streamline operations while continuing to respond to disaster related challenges, especially power outages, flooding and school closures. Without these waivers, sponsors will spend an extraordinary amount of time completing activities related to regulatory burden rather than focusing on properly servicing students and children.

Decreased program participation.

Food insecurity will continue to be an issue for students and children.

Goal of Waiver to Improve Services

Decrease some administrative pressures for the sponsor during this difficult time.

Continued flexibility of the service options; non-congregate meals service, parent/guardian pick-up, meal service time, offer vs serve and meals at school sites provide sponsors the flexibility needed to continue to provide meals in response to emergency situations.

Maintain sponsor and site program participation and minimize hunger in the local communities.

Expected Outcome of Waiver

Sponsors will have an opportunity to transition back to normal operations over a longer period, which helps to assure success. Sponsors will implement flexibilities, as needed, to minimize the negative impact on program participation because of emergencies.

Simplify program administration for the sponsors, so they can focus on the highest priority needs of their program/sites.

Specific Program requirements to be waived (include statutory and regulatory citations). [Section 12(1)(2)(A)(i) of the NSLA]: NSLP, SBP, ASP, SSO:

Nutrition and meal component requirements under 7 CFR 210.10(b)-(f) and the required nutrient analysis under 210.10(h)(i)

Afterschool snack component and nutrition requirements under 7 CFR 210.10(o)

Preschooler and infant lunch nutrition and meal component requirements under 7 CFR 210.10(p)-(q)

Requirements under 7 CFR 220.8(c)-(f) and (h)-(j) that breakfast meals meet certain nutrition and component requirements and that FDACS conduct a nutrient analysis.

Requirements under 7 CFR 220.8(o)-(p) that breakfast meals for preschoolers and infants meet certain nutrition and component requirements.

Allow, if needed, two schools to utilize the same locations and claim separately as necessary.

SFSP:

Summer Sponsor Application Deadline and to Allow Reimbursement for Meals Served Prior to Approval of Operations 7 CFR 225.6(b)(1) and 7 CFR 225.9(d).

Allow schools/site to operate open sites in areas that are not located in "Areas in which poor economic conditions exist," as defined at section 13(a)(1)(A) of the Richard B. Russell National School Lunch Act (NSLA) and as referenced at 42 U.S.C. 1761(a)(1)(A)(i) and in regulation at 7 CFR 225.2, 7 CFR 225.6(c)(2)(i)(G), 7 CFR 225.6(c)(3)(i)(B), 7 CFR 225.6(d)(1)(i), 225.14(c)(3), and 7 CFR 225.16(b)(4).

Detailed description of alternative procedures and anticipated impact on Program operations, including technology, State systems, and monitoring:

If approved, there are no significant impacts on technology or state systems. These waivers will allow NSLP, SBP, ASP, FFVP, SMP, SSO and SFSP sponsors in good standing to serve meals during extraordinary cases due to a disaster, in a non-congregate setting. Approval of these waivers will ensure that children have the nutrition needed during an unanticipated school closure due to an emergency and when the children return to school. Through trainings, visits and reviews, FDACS will track sponsors that were approved to utilize these waivers during an emergency or extraordinary case related to it.

Anticipated impact:

The waivers will decrease the administrative burden, allow for efficient and effective oversight of program operation, and allow SFAs and SFSP sponsors to meet the needs of their families and children. The FDACS will continue to ensure program integrity through the application approval process and technical assistance visits.

If the waivers are not approved, the following impact will likely occur:

The students and children will not have access to meals daily; The SFAs and SFSP sponsors cannot be empathic with their needy communities, serving meals to students and walking children;

The SFAs and SFSP sponsors will not receive funds by reimbursement; affecting their financial area, leading them to not comply with the program meal patterns, forcing them to close operations, and

Affect nutritional, physical and well-being of families' health.

Description of any steps the State has taken to address regulatory barriers at the State level. [Section 12(1)(2)(A)(ii) of the NSLA]:

The state agency has not had to address any barriers as these flexibilities were in place. If the waiver is not approved, there will be an increase in administrative burdens, an increase in barriers to participation, and it will create a negative effect on program operations.

Anticipated challenges State or eligible service providers may face with the waiver implementation:

There are no anticipated challenges with waiver implementation for eligible sponsors.

Description of how the waiver will not increase the overall cost of the Program to the Federal Government. If there are anticipated increases, confirm that the costs will be paid from non-Federal funds. [Section 12(l)(1)(A)(iii) of the NSLA]:  
 There is no anticipated impact on SA administrative cost, SAE and SAF, for state agency oversight with implementation of this waiver.

Anticipated waiver implementation date and time period:  
 The waiver will take place immediately through October 1, 2024 These waivers will only be authorized by the FDACS for case-by-case disaster situations and only those entities requiring the waiver(s).

Proposed monitoring and review procedures:  
 Sponsors and sites will continue to be monitored by the FDACS and standard review procedures will continue to be followed. A corrective action plan and follow-up will address any noncompliance issues.

Proposed reporting requirements (include type of data and due date(s) to FNS):  
 FDACS will collect and submit data as required.

Link to or a copy of the public notice informing the public about the proposed waiver [Section 12(l)(1)(A)(ii) of the NSLA]:  
 Disaster waiver – link will be provided once live in Florida system.
