RULE NO.: RULE TITLE:
 6M-8.621 Program Assessment Requirements for the Voluntary Prekindergarten (VPK) Education Program

PURPOSE AND EFFECT: To establish a re-entry pathway for private prekindergarten providers and public schools that must meet the contract minimum threshold on the program assessment to participate in the Voluntary Prekindergarten (VPK) Education Program in accordance with Section 1002.68(5)(a), F.S. Additionally, the proposed amendment requires observation notes to be provided with the composite program assessment score, updates procedures for second program assessments and revises program assessment requirements for programs that undergo an ownership change before the end of the school year.

SUMMARY: Pursuant to Section 1002.68(2), F.S., each private prekindergarten provider and public school that participates in the VPK program must complete a program assessment. The

proposed rule develops a re-entry pathway for providers that failed to meet the minimum composite program assessment score and revises administrative requirements related to VPK program assessments in accordance with Section 1002.68(5)(a), F.S.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: An economic analysis for the proposed rule determined that there are no potential regulatory costs that exceed the criteria under Section 120.541(2)(a), F.S. and it will not require legislative ratification.

THE FULL TEXT OF THE PROPOSED RULE IS:

6M-8.621 Program Assessment Requirements for the Voluntary Prekindergarten (VPK) Education Program.

(1) Definitions. The following definitions are applicable to all rules under Chapter 6M-8, F.A.C.

(a) through (d) No change.

(e) "Negative Climate Score" means the measure of the level of expressed negativity shown by teachers, children; or both in a classroom.

(f) "Observer" means a certified reliable prekindergarten observer that meets the requirements outlined by the program assessment vendor to conduct a classroom observation with validity and reliability.

(g) through (i) No change.

(2) Program Assessment Administration. ~~Early Learning Coalitions~~ are responsible for the administration of the program assessments. Each VPK provider must annually participate in a program assessment of each VPK classroom for both the school-year and summer VPK programs. All program assessments must occur during VPK instructional hours with the coalition-approved lead VPK instructor, aide, substitute, or VPK director present for the duration of the observation. All program assessments must occur with at least 25% one (1) ~~enrolled VPK students~~ student present.

(a) No change.

(b) All observers must have a current certification required by the vendor to conduct a classroom observation with validity and reliability. To the ~~extent~~ extent possible observers must have the ability to speak, understand, and write in the language of the classrooms they are observing.

(c) No change.

(d) Within fourteen (14) calendar days of the observation being completed, ~~The coalition must notify VPK providers via the Provider Portal of their composite program assessment score and score for each observed VPK classroom and provide VPK providers with the classroom observation notes within fourteen (14) calendar days of the observation being completed.~~ An observation is considered complete, when the observer has entered the classroom observation data into the FDOE-approved system. ~~Upon a provider's written request, and within fourteen (14) calendar days, the coalition must provide individual classroom notes to the provider.~~

(e) No change.

(3) Contract Minimum Threshold. The minimum composite program assessment score a VPK program must achieve is 4.00. A provider's school-year and summer VPK programs are considered separately. ~~Providers that score below the contract minimum threshold, may not participate in the VPK Program in the consecutive program year and thereafter until the provider meets the contract minimum threshold.~~

(a) VPK providers that score below the contract minimum threshold based on their composite program assessment score may request from the ~~early learning~~ coalition a second program assessment within the same program type and year at the provider's expense. Providers must provide payment to the ~~early learning~~ coalition for the second program assessment prior to the program assessment being conducted.

(b) A second program assessment for a VPK classroom or classrooms must be requested from the coalition in writing within thirty (30) days of receipt of the composite program assessment score. For second program assessments, each requested classroom will be observed, and its score will replace the previous score to calculate a new composite program assessment score. For the requested classrooms, if the originally

assessed teacher is no longer active in their assigned VPK classroom, and a new teacher has been moved there from another assigned VPK classroom, both classrooms will be reassessed, and the new VPK classroom scores will replace the previous ones.

(4) Re-entry Pathway. A provider that scores below the contract minimum threshold defined in subsection (3) of this rule cannot participate in the VPK Program the following year or in any future year until it has sat out a full program year as defined in Rule 6M-8.100(9), F.A.C., and successfully completed the re-entry pathway. To requalify for participation in the VPK program a provider must:

(a) Notify the coalition of its desire to provide the VPK program at least sixty (60) calendar days prior to anticipated contract execution.

(b) Obtain a re-entry composite program assessment score, valid for one (1) year, issued by coalition or FDOE-approved vendor observers at or above the contract minimum threshold defined in subsection (3) of this rule based on one (1) of the following methods:

1. Most recent observations for School Readiness (SR) preschool classrooms at a current SR provider that serves 3- to- 5-year-old children;

2. Most recent observations for the provider's other VPK program type (e.g., a summer VPK composite program assessment score for school-year VPK program); or

3. Most recent observations completed in all the provider's preschool classrooms with 3- to- 5-year-old children. The provider bears responsibility for the cost of this re-entry program assessment and is limited to two (2) re-entry program assessment requests per year.

(c) Meet all VPK requirements in accordance with ss. 1002.55, 1002.61 and 1002.63, F.S., as applicable.

(5)(4) Special Considerations.

(a) In the event of a change of ownership, sale, sale of assets, conveyance of ownership, or other transfer of ownership interest that requires a VPK provider to execute a new VPK Provider Contract per subsection 6M-8.301(9), F.A.C., the provider may submit a request to the coalition to retain the existing composite program assessment score if at least 50% of VPK classrooms and their assigned instructors that were previously assessed remain the same. If the provider elects not to retain the existing score, the provider is required to obtain a program assessment pursuant to subsection (2) of this rule. If 25% 30% or fewer of the VPK program hours remain at the time of the ownership change, a program assessment is not required until the consecutive program year.

(b) No change.

(6)(5) No change.

(7)(6) Program Assessment Scheduling.

(a) In scheduling a program assessment ~~early learning~~ coalitions or their designees must select a two (2)-week window when a VPK provider's regular activities are occurring, and allow the provider to choose up to three (3) days the provider is not available for observation.

(b) No change.

(c) If ~~a~~ the coalition-approved lead VPK instructor, aide, substitute, and VPK director have an extenuating circumstance which causes all to be absent from a classroom on the day it is scheduled to be observed, the observer must reschedule the program assessment within two (2) weeks of the original program assessment. A provider should notify the observer as soon as the provider is aware of any extenuating circumstance which would cause rescheduling of the program assessment.

FISH AND WILDLIFE CONSERVATION COMMISSION

Marine Fisheries

RULE NOS.: **RULE TITLES:**

68B-7.002 Definitions

68B-7.008 Spatial Gear and Harvest Limitations

PURPOSE AND EFFECT: The purpose of this rulemaking is to create spatial gear and fishing restrictions at a bonefish pre-spawning aggregation site within the boundaries of Biscayne National Park (BNP) to reduce post-release mortality of bonefish when they aggregate at this site. The effect of these changes would be to establish spatial gear and fishing restrictions within a 1.74-square-mile area inside BNP.

SUMMARY: The Florida Fish and Wildlife Conservation Commission (FWC) made bonefish a catch-and-release only fishery in 2011 to address a population decline in the 1990s caused by a combination of harvest and environmental impacts. Reduced bonefish mortality by prohibiting harvest has led to an observed increase in bonefish abundance. Recently, the Bonefish Tarpon & Trust (BTT) identified and began monitoring a re-formed bonefish pre-spawning aggregation site in BNP. From late fall through spring, bonefish form pre-spawning aggregations at this site, where they prepare to move into deep, offshore waters to spawn.

Anglers could easily target bonefish at this site, and these aggregations attract predators. Researchers experienced a higher post-release mortality at this pre-spawning aggregation site compared to the inshore waters that bonefish typically inhabit. Thus, to reduce post-release mortality of bonefish at this pre-spawning aggregation site and to prevent disruption of spawning, staff are recommending establishing a Bonefish Seasonal Closed Area within BNP. The proposed rules would establish a 1.74-square-mile area where hook-and-line fishing and the simultaneous possession of fish and hook-and-line fishing gear would be prohibited from November 1 through May 31 each year. These rules would sunset five years after the first seasonal closure.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: the nature of the rule and the preliminary analysis conducted to determine whether a SERC was required.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

(c) The prohibitions described in paragraph (b) shall only remain in effect through October 31, 2030. However, the Commission shall review the seasonal closure prior to that date and determine whether repeal is appropriate or if the closure should be renewed or modified.
