PURPOSE AND EFFECT: The Board proposes the rule and incorporated form are amended to reduce from three years to two years, the required length of time applicants must have

practiced the profession over the preceding four year period as amended by HB 1299 and as set for in Chapter 2025-114, Laws of Florida

SUMMARY: The Board proposes the rule and incorporated form are amended to reduce from three years to two years, the required length of time applicants must have practiced the profession over the preceding four year period as amended by HB 1299 and as set for in Chapter 2025-114, Laws of Florida  
SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**DEPARTMENT OF ENVIRONMENTAL PROTECTION  
Notice of Applicable Stream Assessment for Waters in the  
Kissimmee River Basin**

The Florida Department of Environmental Protection gives notice that sufficient documentation has been provided to the department to demonstrate that the waterbody segments identified as Partin Canal (WBID 3173A1), Lake Tohopekaliga Drain (South Segment) (WBID 3173C) and Shingle Creek Headwaters (WBID 3169G1) located within the Kissimmee River basin meet all the conditions identified in paragraph 62-302.200(36)(b), Florida Administrative Code, for an exclusion from the definition of a stream. For purposes of interpreting the narrative nutrient criterion in paragraph 62-302.530(48)(b), F.A.C., these waterbody segments will be assessed applying the stream nutrient impairment thresholds in subsections 62-303.351(3)-(5) and 62-303.450(1), (2) and (5), F.A.C., rather than the numeric nutrient standard for streams. This action only affects the implementation of nutrient criteria for the specified waters; all other applicable water quality standards remain in effect. These assessment thresholds will continue to apply unless the department receives sufficient countervailing information concerning the applicability of paragraph 62-302.200(36)(b), F.A.C., to these waters, including the purpose of the waterbody such as flood protection, stormwater management, irrigation, water supply, navigation, boat access to an adjacent waterbody, or frequent recreational use. A map showing the geographic extent and supporting documentation of the stream exclusion is available at <https://floridadep.gov/dear/watershed-assessment-section>.

Additional information regarding these waterbody segments may be obtained by contacting: Kevin O'Donnell, Department of Environmental Protection, 2600 Blair Stone Road,

Watershed Assessment Section, MS #3555, Tallahassee, FL 32399-2400, or by calling: (850)245-8469.
