RULE NO.: RULE TITLE:

64B8-30.014 Citation Authority

PURPOSE AND EFFECT: The proposed rule amendment will update the rule text to advise the licensees of a new citation offense relating to refunding overpayments to patients pursuant to Section 456.072(1)(tt), F.S. The new violation will take effect January 1, 2026.

SUMMARY: To update the rule text to advise licensees of the new citation offense relating to refunding overpayments to patients.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

PURPOSE AND EFFECT: The proposed amendment incorporates the revised license application.

SUMMARY: Update application.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Florida State University

Florida State University Welcome Center Renovation,
Tallahassee, FL

NOTICE TO PROFESSIONAL CONSULTANTS: FLORIDA STATE UNIVERSITY WELCOME CENTER RENOVATION

Florida State University announces that Professional Services in the discipline of Architecture/Engineering will be required for the project listed below:

RFQ NUMBER: RFQ 6761-J (FSU Procurement Portal)

PROJECT NAME AND LOCATION: Florida State University Welcome Center Renovation, Tallahassee, FL

PROJECT DESCRIPTION: Florida State University (FSU) invites qualified architectural and engineering firms to submit proposals for design services associated with the renovation and expansion of the University's Visitor Center.

Project Background

The current Visitor Center is located in the DeVoe Moore University Center Building B, adjacent to Doak Campbell Stadium. It serves as the primary gateway for prospective students, their family members, and other visitors to the Greater Tallahassee area and FSU by providing a starting point for campus tours, admission information sessions, and one on one meetings with admissions counselors.

To enhance the visitor experience and better reflect the University's mission and identity, the Visitor Center will be relocated to Moore Auditorium, a 12,500 GSF facility constructed in 1964. The Moore Auditorium building is located at the north gate of campus, flanked by the new Student Union to the west, the Classroom Building to the south, and the Rovetta Business Building to the east. Originally created as a movie theater, the facility currently functions as a 300-seat classroom space, and a multipurpose venue for orientation programs and student organizations.

Project Vision

The University seeks to transform the Moore Auditorium building into a marquee space by leveraging FSU's educational curriculum, its research, technology, and other creatively relevant and memorable means to create a uniquely welcoming and engaging experience for all visitors to campus. The design should allow for personalization of the visitor's experience while paying tribute to the university's rich academic and athletic history and its special ties to the Seminole Tribe of Florida. To maximize the utilization of this building, the renovated facility may include expansion of floor area and/or additional levels to allow for one-of-a-kind event spaces.

FSU seeks a creative, budget-responsible design team that can provide guidance and innovative means to develop a facility of monumental experience and significance for FSU and its visitors.

Key design objectives include:

- Visitor Circulation & Experience: Develop a facility that allows FSU to provide a clear, intuitive sequence for visitors to

navigate from the initial arrival and parking on campus, to entry into the Welcome Center.

- Reception & Orientation: Create spaces that accommodate large groups and smaller intimate spaces that allow for more personalized interactions, including welcoming lobbies, reception areas, and wayfinding signage.
- Exhibition & Engagement: Design interactive and engaging exhibit areas featuring archival pieces, multimedia displays, and innovative technologies that allow for self-paced exploration of FSU's history, achievements, and student life.
- Auditorium Integration: Reimagine the existing auditorium as the centerpiece for actively engaged academic classes, scheduled information sessions, immersive video experiences, and presentations by university ambassadors, admissions counselors, and university leadership.
- Transition to Campus Tours: Ensure a seamless flow from auditorium programs and/or other event space to guided walking tours of campus.
- Meeting & Event Spaces: Incorporate flexible meeting rooms to support small groups as well as larger events.

Project Significance

The Welcome Center will serve as the front door to the University—serving as the first impression for thousands of visitors to Tallahassee and FSU each year. This marquee facility will tell the story of Florida State University: its unique history, faculty and student accomplishments, and its aspirations for the future. The project represents a unique opportunity to create a space that highlights the strong FSU brand and its accomplishments, traditions, and past and future innovations.

Finalists will be provided with a description of the final interview requirements and a copy of the standard Florida State University's standard agreement terms and conditions. The Selection Committee may reject all proposals and stop the selection process at any time.

All applicants must be licensed to practice Architecture/Engineering in the State of Florida at the time of application. The selected firm must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, consultant or subconsultant for more than \$50,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list
