Proposed Rules

DEPARTMENT OF HEALTH

Board of Osteopathic Medicine

RULE NO.: RULE TITLE:
64B15-6.013 Physician Assistant Fees

PURPOSE AND EFFECT: The proposed rule amendment will update the rule text to reflect a change of date of the biennial renewal fee to January 31, 2030.

SUMMARY: To update the rule text to reflect the change of the biennial renewal fee date to January 31, 2030.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

STATE BOARD OF ADMINISTRATION

Estimated Capacity

NOTICE IS HEREBY GIVEN by the State Board of Administration of Florida (the "Board") of the estimated borrowing capacity, estimated claims-paying capacity, and projected balance of the Florida Hurricane Catastrophe Fund (the "Fund") as of December 31, 2025, in compliance with the requirements of Section 215.555(4)(c)2., Florida Statutes. These estimates relate to the 2025-2026 Reimbursement Contract Year. The projected year-end fund balance available for reimbursement of participating insurers on December 31, 2025, is estimated to be \$8.67 billion, which represents the amount of assets available to pay claims resulting from Covered Events which may occur during the June 1, 2025 through May 31, 2026 Contract Year, not including any bond proceeds. The projected year-end fund balance of \$8.67 billion is net of losses and loss reserves from Hurricanes Ian (2022), Idalia (2023), Milton (2024) and Helene (2024), which the FHCF's consulting actuary has estimated to be \$9.8 billion. The 2025-2026 Contract Year claims paying estimate includes the use of \$8.67 billion of projected year-end fund balance, \$3.25 billion of 2020A and 2024A pre-event bond proceeds and \$7.10 billion of 0-12 month borrowing capacity for a total of \$19.02 billion, which exceeds the \$17 billion limit on the Fund's single-season obligation as specified in Section 215.555, Florida Statutes. The borrowing capacity estimate is dependent on constraints of the financial markets to absorb potential debt issuances, the time necessary to access such markets, and the existing level of interest rates at the time of issuance. Greater detail may be

obtained in the October 23, 2025 Claims-Paying Capacity Estimates Report, which can be found on the Fund's website at <https://fhcf.sbafla.com> under "Bonding Program." The Board recognizes that this good faith estimate is being made while volatile global financial market conditions exist, and therefore, changing market conditions can impact the Fund's actual claims-paying capacity either positively or negatively. Current conditions may or may not be the same if and when the Board issues revenue bonds. Participating insurers that rely on these estimates should recognize the potential impact the financial markets can have on the Board's claims-paying ability and plan accordingly.
