DEPARTMENT OF ENVIRONMENTAL PROTECTION

RULE NOS.: RULE TITLES:

62-42.200 Definitions

62-42.300 Minimum Flows and Levels and Recovery and Prevention Strategies

PURPOSE AND EFFECT: The purpose of this rule is to strike the previously-adopted minimum flows (MFLs) for the Lower Santa Fe and Ichetucknee Rivers and Priority Springs (LSFIR) and their recovery strategy and adopt new MFLs for the LSFIR and an associated implementation strategy. This rule is effective in the North Florida Regional Water Supply Partnership

(NFRWSP) area of the St. Johns River and Suwannee River Water Management Districts. Specifically, in Rule 62-42.200, the Department proposes for adoption technical definitions used in the chapter. Rule 62-42.300 proposes for adoption MFLs for the LSFIR and the regulatory components of the associated implementation strategy. The MFLs and Implementation Strategy in this rule amendment would be used as a basis for imposing limitations and requirements for water withdrawals in the consumptive use permit regulatory process and, where applicable, for reviewing proposed surface water management systems in the environmental resource permit regulatory process.

SUMMARY: In 2014, The Florida Department of Environmental Protection (DEP) adopted the current MFLs for the LSFIR, which include six Outstanding Florida Springs (OFS), and adopted regulatory portions of the recovery strategy. The purpose of this proposed rule is to replace the previously-adopted MFLs for the LSFIR with new MFLs and adopt an associated implementation strategy, as required pursuant to Sections 373.0421 and 373.805, F.S. Rule 62-42.200, F.A.C., defines terms applicable to all rules in Chapter 62-42, F.A.C. Rule 62-42.300, F.A.C., proposes for adoption the MFLs for the LSFIR along with the regulatory components of the implementation strategy applicable within the NFRWSP area, including: conservation-related requirements for water use associated with new private residential irrigation wells; water conservation requirements for public supply, agricultural, industrial, commercial, and institutional water uses; monitoring and reporting requirements, updating existing requirements for water uses in the Suwannee River Water Management District; and offset requirements for impacts associated with increases in water use. Department-adopted MFLs and applicable implementation strategies are effective in all applicable water management districts without the need for further rulemaking. SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

The Agency has determined that the proposed rule is expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Rule 62-42.300 requires a SERC and is expected to require legislative ratification based on the estimated costs. Rule 62-42.200 does not require a SERC because it sets forth only definitions and does not have independent regulatory effect and therefore does not require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 373.026(6), 373.043, 373.171, 373.227, 373.250, 373.805, 373.813, F.S.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: December 5, 2025, 10:00 a.m.

PLACE: Suwannee River Water Management District, Suwannee Room, 9225 CR 49, Live Oak, FL 32060

62-42.300 The Lower Santa Fe and Ichetucknee Rivers and Priority Springs Minimum Flows and Levels and Recovery and Prevention Strategies

(1) Minimum Flows for Lower Santa Fe and Ichetucknee Rivers and Priority Springs (LSFIR)

(a) For purposes of this rule, the Lower Santa Fe River includes the watercourse from the Santa Fe River Rise to the confluence with the Suwannee River including the Lower Santa Fe River Priority Springs and associated spring runs; the Ichetucknee River includes the watercourse from the Ichetucknee Headspring to the confluence with the Lower Santa Fe River including the Ichetucknee River Priority Springs and associated spring runs. The Lower Santa Fe River and Ichetucknee River Priority Springs are set forth in Table 1-1 below.

(c) The Agencies shall assess the MFL status as described in section 373.0421, F.S., of the Lower Santa Fe and Ichetucknee Rivers and Priority Springs concurrently with the approval of each Regional Water Supply Plan (RWSP). The assessment shall include a review wherein (1) the current flows at the MFL Compliance Point(s) are compared to the adopted MFLs, and (2) reasonably projected future flows are compared to the adopted MFLs. For reasonably projected future flows, the Agencies will consider impacts from all projected water withdrawals within 20 years. Based on an analysis of the

various stressors on the MFL Compliance Points, including but not limited to rainfall and water withdrawals, if the existing flow in a water body falls below, or is projected within 20 years to fall below, the MFL due to water withdrawals the Agencies shall review the Implementation Strategy in accordance with the requirements of sections 373.0421 and 373.805(4), F.S., and the Implementation Strategy shall be updated as necessary to achieve the MFL within 20 years of the effective date of this rule.

(2) Pursuant to Sections 373.0421 and 373.805, F.S., the regulatory measures in this rule are adopted as part of the Implementation Strategy for the Lower Santa Fe and Ichetucknee River. In accordance with Section 373.042(5), F.S., each district shall implement this rule without the district's adoption by rule. These regulatory measures apply to all consumptive uses of water with withdrawal points within the North Florida Regional Water Supply Partnership (Partnership) area, which includes all of Alachua, Baker, Bradford, Clay, Columbia, Duval, Flagler, Gilchrist, Hamilton, Nassau, Putnam, St. Johns, Suwannee, and Union counties. Unless otherwise stated, these regulatory measures supplement the rules of the Suwannee River Water Management District (SRWMD) and the St. Johns River Water Management District (SJRWMD) for regulating consumptive uses of water in the Partnership area. Where explicitly stated, these rules supersede specifically identified rules of the Districts regulating the consumptive use of water in the Partnership area.

(3) Allocations of Water

(a) All Authorized Uses shall be considered consistent with the Implementation Strategy and will not be subject to revocation in whole or in part on the basis of this rule where the permittee is in compliance with this rule. Permits that do not meet the requirements within this rule will be subject to revocation in whole or in part. Nothing in this rule shall be construed to alter an Agency's authority to enforce or modify a permit under circumstances not addressed in this rule.

(b) When necessary to provide reasonable assurance that the proposed use will be in accordance with the MFL or Implementation Strategy, quantities of water will be authorized in incremental amounts by year(s) based upon the projected need. For example, a stepped allocation may be provided in conjunction with implementation of an alternative water supply project that will make more water available for use. In such a case, as more water becomes available for use (and is needed) the annual allocation will increase.

(4) Where a residence is supplied potable water by a public supplier and such water is available for residential irrigation, no general permit by rule shall be authorized for private residential irrigation water use from a Floridan aquifer private well constructed after [effective date] within the Partnership area. This subsection shall not apply to wells constructed prior to

[effective date]. An applicant may seek a No-Fee Noticed General Consumptive Use Permit, Form 62-42.300(4), incorporated by reference herein, effective [effective date], and available at <http://flrules.org/Gateway/reference.asp?No=Ref-18920>, or on the Department's website at <https://floridadep.gov/owper/water-policy/content/lower-santa-fe-and-ichetucknee-rivers-lsfir-and-priority-springs-minimum>, from the applicable District where the conditions in the No-Fee Noticed General Consumptive Use Permit are met. "Available" means that a point of connection is at or immediately adjacent to the property boundary, and water for the use is able to be provided by a public supplier in sufficient volume and frequency to maintain the landscape. The No-Fee Noticed General Consumptive Use Permit shall have a duration of 10 years, is automatically authorized for the permittee and subsequent owners for the duration of the authorization, and is renewable. To continue using the permit after 10 years, the user must apply for renewal using Form 62-42.300(4).

(5) Upon [effective date], unless otherwise provided by law, each permittee shall comply with the Monitoring and Reporting Requirements: Implementation Strategy for the LSFIR MFLs, adopted and incorporated by reference herein, effective [effective date]. Copies of the Monitoring and Reporting Requirements are available at <http://flrules.org/Gateway/reference.asp?No=Ref-18921>, or on the Department's website at <https://floridadep.gov/owper/water-policy/content/lower-santa-fe-and-ichetucknee-rivers-lsfir-and-priority-springs-minimum>. RULE NO.: RULE TITLE:

64B20-2.006 Licensure by Endorsement

PURPOSE AND EFFECT: The Board proposes a rule amendment to implement the statute setting forth requirements for licensure by endorsement by clarify that certification by the ASLHA can substitute for having passed a national exam.

SUMMARY: The Board proposes a rule amendment to implement the statute setting forth requirements for licensure by endorsement by clarify that certification by the ASLHA can substitute for having passed a national exam.

SUMMARY OF STATEMENT OF ESTIMATED
REGULATORY COSTS AND LEGISLATIVE
RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

WATER MANAGEMENT DISTRICTS

St. Johns River Water Management District

ST. JOHNS RIVER WATER MANAGEMENT DISTRICT
AND SUWANNEE RIVER WATER MANAGEMENT
DISTRICT GIVE NOTICE OF DISTRICT DECISION

The St. Johns River Water Management District (SJRWMD) and Suwannee River Water Management District (SRWMD) give notice of their decision approving the 2025 Implementation Strategy for the Lower Santa Fe and Ichetucknee Rivers and Priority Springs (LSFIR) Minimum Flows and Levels (MFLs) (hereafter the 2025 Implementation Strategy). The Lower Santa Fe and Ichetucknee Rivers and Priority Springs are located in Alachua, Columbia, Gilchrist, and Suwannee Counties. The 2025 Implementation Strategy was jointly developed by the SJRWMD and the SRWMD in coordination with stakeholders and is consistent with the provisions for establishing and implementing minimum flows and levels (MFLs) provided for in subsections 373.0421(2) and 373.805(2) of the Florida Statutes (F.S.). The 2025 Implementation Strategy is available at: <https://www.sjrwmd.com/documents/mfl/#strategies>.

The file(s) containing the 2025 Implementation Strategy are available for inspection Monday through Friday, except for legal holidays, from 8:00 a.m. to 5:00 p.m., at the following locations: St. Johns River Water Management District Headquarters, 4049 Reid St., Palatka, Florida, 32177-2529; and Suwannee River Water Management District Headquarters, 9225 CR 49, Live Oak, FL 32060. If you wish to receive a copy, please submit your request to the Office of Business and Administrative Services, St. Johns River Water Management District; or the Records Manager / District Records Custodian, Suwannee River Water Management District. You may also review these documents by using your web browser to go to the website described above.

A person whose substantial interests may be affected by the Districts' decision on the 2025 Implementation Strategy has the right to request an administrative hearing in accordance with Section 120.569 and 120.57, F.S., and Chapter 28-106, Florida Administrative Code (F.A.C.). Persons seeking a hearing on the Districts' decision which affects or may affect their substantial interests shall file a petition for an administrative hearing in accordance with the filing instructions set forth herein, within twenty-one (21) days of the publication of this notice. A petition must comply with Sections 120.54(5)(b)4. and 120.569(2)(c), F.S., and Chapter 28-106, F.A.C. Mediation pursuant to Section 120.573, F.S., is not available. Because the administrative hearing process is designed to formulate final agency action, the timely filing of a petition may result in the Districts' final action being different from their original action. Any person who receives written notice of the District's decision and fails to file a petition (written request for a hearing) within 21 days of the publication of this notice waives the right to request a hearing on that decision.

A petition requesting an administrative hearing must be filed in accordance with the following:
