Section II Proposed Rules

DEPARTMENT OF EDUCATION

State Board of Education

RULE NO.: RULE TITLE:

6A-10.0315 Demonstration of Readiness for College-Level Communication and Computation

PURPOSE AND EFFECT: The rule amendment adds the Classic Learning Test 10 (CLT10) and its standard scores as an additional alternative methods assessment option. Section 1008.30, F.S., provides authority to the State Board of Education to adopt common placement tests/alternative methods and standard scores in rule. The effect of this change will result in a new assessment option and standard scores that may be used to assess readiness for college-level work. This amendment will also address assessment of college-level communication and computation skills of students who intend to enter an A.S. or A.A.S. degree program at district career centers, pursuant to s. 1007.331, F.S.

SUMMARY: Add an additional alternative methods assessment option as well as include specific requirements for students entering A.A.S. and A.S. programs at school district

career centers that are approved to offer A.A.S. and A.S. degree programs.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rule is not expected to have any adverse impact on economic growth, business competitiveness or any other factors listed in s. 120.541(2)(a), F.S., and will not require legislative ratification. No increase in regulatory costs are anticipated as a result of this rule. This is based upon the nature of the proposed rule.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 1001.02(6), 1008.30(1), (2), F.S.

LAW IMPLEMENTED: 1001.02, 1007.263, 1007.271, 1008.02, 1008.30, F.S.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: June 4, 2025, 9:00 a.m.

PLACE: Miami Dade College, Wolfson Campus, 254 N.E. 4th St., Building 3, Chapman Conference Room 3210, Miami, FL 33132.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Mike Sfiropoulos, Division of Florida Colleges, (850)245-9523, or Mike.Sfiropoulos@fldoe.org

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-10.0315 Demonstration of Readiness for College-Level Communication and Computation.

(1) Definitions. For the purposes of this rule and forms incorporated herein, the following definitions shall be used.

(a) "Department" means the Florida Department of Education.

(b) "Developmental education" means instruction that prepares students for college level reading, writing, and mathematics coursework.

(c) "Division" means the Division of Florida Colleges.

(d) "Institution" means a Florida College System institution or a school district career center approved as a site-determined associate in applied science and associate in science degree granting institution in accordance with Section 1007.331, F.S.

(2)(4) Purpose. The purpose of this rule is to establish methods for assessing communication and computation skills and the minimum standards a student must achieve to demonstrate readiness to perform college-level work pursuant to Section 1008.30, F.S. ~~"Developmental education" prepares students for college level reading, writing and mathematics courses.~~ A student admitted to ~~an a Florida College System~~ institution, who is assessed for readiness for college-level computation and communication under paragraph ~~(2)(4)(a)~~ or ~~(2)(4)(b)~~ and whose assessment results indicate a need for developmental education, must be advised of all the developmental education options offered at the institution and, after advisement, shall be allowed to enroll in the developmental education option of his or her choice.

(a) Exempt students. Further in accordance with Section 1008.30, F.S., a student who entered 9th grade in a Florida public school in the 2003-2004 school year, or any year thereafter, and earned a Florida standard high school diploma or a student who is serving as an active duty member of any branch of the United States Armed Services shall not be required to be assessed for readiness for college-level work in communication and computation and shall be considered exempt. Exempt students shall not be required to enroll in developmental education instruction ~~in a Florida College System institution.~~ However, an exempt student may opt to be assessed and to enroll in developmental education, and the ~~institution college~~ shall provide such assessment and courses upon the student's request.

(b) Non-exempt students. Non-exempt students who have not earned credit for ~~college-level college-level~~ coursework for reading, writing, and mathematics shall be assessed for readiness for college-level work prior to the completion of initial registration. Non-exempt students whose assessment results indicate a need for developmental education shall enroll in developmental education in the area of the deficiency.

(3)(2) Common placement tests. Exempt and non-exempt students meeting or exceeding standard scores on any of the following tests, using the highest score in the case of multiple scores, may be enrolled in ~~college-level college-level~~ courses. Institutions shall accept scores on the public high school transcript as an official record of scores in addition to official score reports from the issuing entity listed in this subsection. A student who demonstrates readiness by achieving or exceeding standard test scores established herein and enrolls in ~~an a Florida College System~~ institution within two (2) years after achieving such scores shall not be required to retest or complete

developmental education at a ~~Florida College System institution.~~

(b) through (c) No change.

(d) Local placement methods for developmental education (~~Florida College System institutions only~~). To use a local placement method, a ~~Florida College System~~ institution must first receive approval of that method by the Department. Approval is based on a satisfactory demonstration that the method is a valid and reliable indication of a student's readiness for college-level coursework in the subject area addressed in the method. The process for receiving approval is as follows.

1. No change.

2. ~~Florida College System~~ institutions must complete Form No. ALTPLACE-01 for each local placement method requested. Evidence must include information on the method's

availability and accessibility and supporting documentation containing quantitative and/or qualitative data to demonstrate the validity and reliability of the local placement method. The documentation must be recent, which is defined as within the last three to five years, and must demonstrate why the method and the minimum standard identified by the college for the method represent an accurate measure of college readiness comparable to other alternative assessments and standards identified in this rule.

3. Florida College System institutions must submit Form No. ALTPLACE-01 the term preceding the term in which the local placement method becomes effective: spring for a summer effective date, summer for a fall effective date, and fall for a spring effective date. The Division of ~~Florida Colleges~~ (Division) will publish the specific deadlines at <https://www.fldoe.org/schools/higher-ed/fl-college-system/academic-student-affairs/>. Form No. ALTPLACE-01 and supporting documentation must be submitted via email to FCSInfo@fldoe.org.

4. The Division will provide the institution with a written decision upon review of a complete submission.

a. "Full approval" indicates the application and supporting documentation were sufficient in demonstrating the local placement method is a valid and reliable placement tool; the Florida College System institution is fully approved to use the local placement method for developmental education placement.

b. "Provisional approval" indicates the application and supporting documentation demonstrated the local placement method may be a valid and reliable placement tool, but up-front information is limited. The provisionally approved Florida College System institution has approval to use the local placement method for a period of three terms, during which time the institution will be required to collect data on the efficacy of the method. At the conclusion of the provisional period, the Florida College System institution will be required to resubmit their application and supporting documentation to the Division for consideration.

c. "Denial" indicates the application and supporting documentation did not demonstrate the local placement method may be a valid and reliable placement tool. If the application is denied, the Florida College System institution will receive written notification identifying the specific areas of deficiency ~~and the institution~~ may resubmit its application at a later date once any outstanding issues are resolved.

5. Florida College System institutions receiving approval must participate in an annual data collection process to monitor usage of local methods and student performance in coursework.

~~(5)~~(4) No change.

~~(6)~~(5) Florida College System institutions may establish local policies and procedures governing the use of assessments and alternative methods for placement.

DEPARTMENT OF CORRECTIONS

RULE NO.: RULE TITLE:

33-602.701 Use of Blue Lights and Sirens

PURPOSE AND EFFECT: Rule amendment is necessary to permit the Secretary or designee to authorize certain non-emergency vehicles to be equipped with blue lights only (no siren) for use in specific circumstances; permit wardens, regional directors, and other Department staff authorized by the Secretary or designee to operate these designated non-emergency vehicles without completing the emergency vehicle operation course; and permit Inspector General personnel to operate blue lights and sirens in accordance with the rule's provisions.

SUMMARY: Rule amendment permits the Secretary or designee to authorize certain non-emergency vehicles to be equipped with blue lights only (no siren) for use in specific circumstances. The amendment also permits wardens, regional directors, and other Department staff authorized by the Secretary or designee to operate these designated non-emergency vehicles without completing the emergency vehicle operation course. The amendment provides that Inspector General personnel may operate blue lights and sirens in accordance with the rule's provisions.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the

statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department used an itemized checklist to conduct an economic analysis and determine if there is an adverse impact or regulatory cost associated with this rule that exceeds the criteria. Upon review of the proposed changes to the rule, the Department has determined that the amendments will not exceed any one of the economic analysis criteria in a SERC as set forth in s. 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

Substantial rewording of Rule 33-602.701, F.A.C., follows. See Florida Administrative Code for present text.

33-602.701 Use of Blue Lights and Sirens.

(1) Authorized Emergency Vehicles.

(a) The following vehicles will be authorized as emergency vehicles pursuant to section 316.003, Florida Statutes, and will be equipped with both blue lights and a siren to be operated in accordance with this rule:

1. Designated emergency response vehicles assigned to the Office of the Inspector General.

2. Primary and secondary canine vehicles, not to exceed three (3) vehicles per facility.

3. Vehicles specifically designated for use to “trail” EMS transports, not to exceed two (2) vehicles per facility.

4. Other vehicles designated by Secretary or designee.

(b) Vehicles equipped with blue lights only (no siren) are not considered emergency vehicles for purposes of this rule.

(2) Use of Blue Lights Only.

(a) Blue lights may be used without a siren as a visual alert to the general public when:

1. Responding to escapes from secure custody, except as provided in paragraph (3)(d) of this rule.

2. Responding to medical emergencies at external work areas.

3. Responding to riots, disturbances, or other similar incidents.

4. Responding to natural disasters.

5. Establishing a perimeter.

6. Participating in escape simulation drills or other similar drills where a visual warning may be necessary to alert the public.

7. Working in accord with local law enforcement agencies.

(b) The Secretary or designee may authorize non-emergency vehicles owned, operated, or leased by the Department to be equipped with blue lights only (no siren) for the specific purposes listed in this subsection.

(c) Under no circumstances will any vehicle displaying blue lights only, without the use of a siren, exceed posted speed limits or disregard traffic laws.

(3) Use of Blue Lights and a Siren.

(a) Only emergency vehicles authorized under subsection (1) of this rule will be equipped with a siren.

(b) Under no circumstances will a siren or other audible device be operated alone without a display of blue lights.

(c) Blue lights and a siren may be operated in unison when:

1. Responding to escapes from secure custody, except as provided in paragraph (3)(d) of this rule.

2. Providing armed escort to emergency vehicles such as ambulances transporting inmates when those emergency vehicles are operating lights and sirens.

3. Working with other law enforcement agencies in emergency situations, when such assistance has been requested by the law enforcement agency.

(d) In addition to the circumstances listed in paragraph (3)(c), emergency response vehicles assigned to the Office of the Inspector General may use blue lights and a siren in unison when responding to a life-threatening emergency as a first responder while traveling to or on Department-owned or Department-leased property or while traveling to or on the property of a contractor-operated correctional facility.

(e) The driver of an emergency vehicle equipped with both blue lights and a siren may exercise the following privileges granted by Section 316.072, F.S., when responding to an emergency call, unless otherwise directed by a law enforcement officer:

1. Park or stand, irrespective of other provisions in Chapter 316, F.S.

2. Proceed past a red or stop signal or a stop sign, but only after slowing down as may be necessary for safe operations.

3. Exceed the maximum speed limits, so long as the driver does not endanger life or property.

4. Disregard regulations governing direction or movement or turning in specified directions, so long as the driver does not endanger life or property.

(f) The foregoing provisions will not relieve the driver from the duty to drive with due regard for the safety of all persons, nor will such provisions protect the driver from the consequences of his or her reckless disregard for the safety of others. Additionally, all staff engaged in any emergency response situation must comply with the following procedures:

1. Stop for all stop signs and red traffic lights and proceed only after all other vehicles have yielded the right-of-way.

2. Speed will not exceed 15 MPH over the posted speed limit unless circumstances exist that would provide for the safe operation of the vehicle at higher speeds and the gravity of the situation so warrants. Speed entering and exiting a tollbooth shall never be greater than the posted speed limit or if not posted 15 MPH.

3. In the event of an equipment failure that could result in the unsafe operation of a vehicle during an emergency response mode, the emergency response mode must be terminated, and the appropriate institution's control room will be notified. If such equipment failure involves an Office of the Inspector General-designated emergency response vehicle, the driver must notify his or her supervisor upon terminating the emergency response mode.

(4) Use of Vehicles in Recapture Efforts.

(a) The Department has a "no motor vehicle pursuit" policy. Motor vehicle pursuits will be handled by the law enforcement agencies involved in the recapture efforts.

(b) If an escapee is detected and flees in a motor vehicle, the detecting correctional officer or Office of the Inspector General personnel will immediately communicate this information to the assisting agencies and allow them to take over any pursuit of a motor vehicle.

(c) The detecting correctional officer or Office of the Inspector General personnel will obtain as much descriptive information as possible about the suspect vehicle (location, direction of travel, color, make of vehicle, model of vehicle, tag, and occupant description).

(5) Responsibilities.

(a) It will be the responsibility of the appropriate assistant deputy director, regional director, warden, or Inspector General to:

1. Ensure all officers and Office of the Inspector General personnel assigned as drivers of emergency vehicles authorized under subsection (1) of this rule are properly trained in the safe operation of emergency vehicles and have completed an emergency vehicle operations course or a reasonable equivalent as approved by the Department.

2. Ensure all officers and Office of the Inspector General personnel assigned as drivers of emergency vehicles authorized under subsection (1) of this rule maintain American Safety and Health Institute CPR certification or its equivalent.

3. Ensure all emergency and non-emergency vehicles authorized under this rule are maintained in good condition.

4. Ensure all officers and Office of the Inspector General personnel assigned as drivers of emergency or non-emergency vehicles authorized under this rule have not, within the past three years, been convicted of reckless driving or driving under the influence of alcohol or controlled substances and have not had their driver's license suspended under the point system provided for in Chapter 322, F.S.

5. Ensure all officers and Office of the Inspector General personnel assigned as drivers of emergency or non-emergency vehicles authorized under this rule possess a valid State of Florida driver's license.

6. Ensure that all drivers of emergency or non-emergency vehicles authorized under this rule are periodically inspected for continued compliance with the provisions of this subsection.

(b) It will be the responsibility of the driver of any emergency or non-emergency vehicle authorized under this rule to:

1. Advise his or her supervisor of any change to his or her driving status, including but not limited to license suspension.

2. Advise his or her supervisor of any physical or mental defect, disease, or condition that would adversely affect or impair his or her ability to drive an emergency vehicle. This includes the use of prescription or over the counter medication that may impair a person's reaction time, cause drowsiness, or result in any other mental or physical impairment.

3. Comply with all provisions of this rule and state Uniform Traffic Control laws of Chapter 316, F.S.

(6) Training.

(a) The Bureau of Staff Development will design and implement an emergency vehicle operation course of no less than sixteen hours. This training will mirror that which is currently afforded law enforcement students in certified law enforcement academies. This course may be condensed to better suit the Department's needs; however, it will provide students with advanced driving techniques and a clear understanding of current law and legal expectations.

(b) Correctional officers and Office of the Inspector General personnel who have attended and successfully completed a certified law enforcement crossover course and have their certificates of certification as law enforcement officers on file with the Department will be required to complete only the 4-hour classroom portion of the 16-hour training course. In the event there is no cross over emergency vehicle operation course, the additional Department training described in paragraph (6)(a) of this rule will be required.

(c) The Bureau of Staff Development will ensure this course is updated annually or as needed based on current state Uniform Traffic Control laws, Chapter 316, F.S.

(d) The course of study will be mandatory for all persons prior to operating any vehicle equipped with both blue lights and a siren and will be documented in each person's personnel file and training record.

(e) Wardens, regional directors, and other staff authorized by the Secretary or designee may operate non-emergency vehicles equipped with blue lights only (no siren) without completing the emergency vehicle operation course.

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 51 No. 29, February 12, 2025 issue of the Florida Administrative Register.

59G-6.010 Payment Methodology for Nursing Home Services.

- (1) No change.
- (2) Definitions.
- (a) through (j) No change.

(k) Fair Rental Value System (FRVS) Rate – A FRVS is used to reimburse providers for their facility related capital costs. A provider must submit an FRVS survey to the Agency for Health Care Administration (AHCA) using the electronic form and instructions on the Florida Nursing Home: Fair Rental Value Survey web page. The survey information is used to compute an adjusted age for each provider, based on the most recent survey received by April 30 of each year for the subsequent rate period. The nursing facility provider's FRVS survey will be used to calculate the rate for a future rate period.

~~Facilities must report each project in chronological order by date from initial construction to present. Each project must be reported separately regardless of type of project and year of completion. A project will either be a bed addition, bed replacement, or renovation/major improvement. Facilities should be prepared to define each project in such a way that makes clear the separation of individual projects. It is possible to have multiple projects of the same type in the same year. Example—a roof replacement project would be reported separately from a kitchen renovation project even if they were completed in the same year. The minimum cost of a renovation is \$500 per bed. If a project does not meet this minimum threshold, it will not be used in the FRVS calculation.~~

(l) through (gg) No change.

(3) through (6) No change.
