

Section I

Notice of Development of Proposed Rules and Negotiated Rulemaking

DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

Division of Driver Licenses

RULE NOS.: RULE TITLES:

15A-12.0001	Definitions
15A-12.0002	Course Providers; Application Requirements; Certification by Department
15A-12.0003	Instructors for Motorcycle Safety Courses; Application Requirements; Certification by Department
15A-12.0004	Motorcycle Safety Courses; Curricula Requirements; Maximum Class Size; Application; Examinations; Class Requirements; Approval by Department
15A-12.0005	Program Compliance
15A-12.0006	Penalties for Violations
15A-12.001	Purpose
15A-12.002	Definitions and Course Curriculums
15A-12.003	Exemptions
15A-12.004	Application to Become a Sponsor
15A-12.005	Additional Program Requirements
15A-12.006	Regulation of Authorized Program
15A-12.007	RiderCoaches
15A-12.008	Program Compliance

PURPOSE AND EFFECT: The purpose of this rule development is to update Chapter 15A-12, F.A.C., to be consistent with §§ 322.12 and 322.0255, F.S. This rule chapter was last revised in 2011. As required by § 120.5435, F.S., and the Department's 2025-26 annual regulatory plan, the Department has reviewed this rule chapter and found that revision of the entire chapter is necessary. The revised rules define and update terms used throughout the rule chapter to be consistent with § 322.0255, F.S.; delete obsolete forms and adopt new forms consistent with the revised rules and § 322.0255, F.S.; update the rule chapter to include specific requirements for course providers of motorcycle safety courses necessary for a person to obtain a driver license authorizing operation of a motorcycle, instructors of such motorcycle safety courses, and curricula for such motorcycle safety courses; provide specificity to ensure a consistent motorcycle safety program; revise the rule chapter to comply with the requirements of the Administrative Procedure Act, Chapter 120, F.S.; reduce paperwork; and position the program to better utilize technology.

SUBJECT AREA TO BE ADDRESSED: Florida Motorcycle Safety Education Program established in § 322.0255, F.S.

RULEMAKING AUTHORITY: 322.02(6), 322.0255(6) FS

LAW IMPLEMENTED: 322.0255, 322.12(5) FS

A RULE DEVELOPMENT WORKSHOP WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: Wednesday, August 26, 2026, 1:00 p.m. - 4:00 p.m., Eastern Time

PLACE: Legal Conference Room via Microsoft Teams Meeting:

Join:

<https://teams.microsoft.com/meet/26627345987019?p=Gbf9IdKq7VmPBf4N8K>

Meeting ID: 266 273 459 870 19

Passcode: R7ip9Hg9

THE WORKSHOP AGENDA IS AS FOLLOWS:

1. Introduction/Welcome
2. Explanation of the Department's Rulemaking Proposal
3. Comments and Questions
4. Close of Workshop

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 48 hours before the workshop/meeting by contacting: Department of Highway Safety and Motor Vehicles, Attn: Title VI Coordinator, Neil Kirkman Bldg, Rm A-417, 2900 Apalachee Pkwy, Tallahassee, FL 32399, (850)617-3202. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT, IF AVAILABLE, IS: Kathy Daws, Division of Motorist Services, (850)617-2490.

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS AVAILABLE ON THE DEPARTMENT'S WEBSITE AT: <https://flhsmv.gov/resources/open-government/administrative-rulemaking>

Section II

Proposed Rules

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Board of Professional Engineers

RULE NOS.: RULE TITLES:

61G15-20.002	Experience
61G15-20.006	Educational Requirements

PURPOSE AND EFFECT: The Board proposed rule amendments to update and clarify the rule language and applications regarding experience and educational requirements for a professional engineer.

SUMMARY: The proposed rules update and clarify the rule language and applications regarding experience and educational requirements for a professional engineer.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 471.008, 471.013 FS.

LAW IMPLEMENTED: 471.013, 471.015 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Zana Raybon, Executive Director, Board of Professional Engineers, 2400 Mahan Drive, Tallahassee, FL 32308; (850)521-0500 or by electronic mail, ZRaybon@fbpe.org.

THE FULL TEXT OF THE PROPOSED RULE IS:

61G15-20.002 Experience.

(1)(a) No Change.

(b) Because the evaluation of experience is a complex and subjective matter, the Board establishes the following guidelines which shall be generally applicable absent extraordinary evidence and documentation supporting a departure therefrom:

1. through 5. No Change.

6. Experience gained in the armed services, to be creditable, must be of a character equivalent to that which

would have been gained in the civilian sector doing similar work. ~~If the member's service was not obtained Normally, it would be expected that the applicant while in the armed services served in an engineering or engineering-related group, the applicant must detail how the member's duties involved the practice of engineering.~~

7. through 15. No Change.

(2) through (3) No Change.

Rulemaking Authority 471.008, 471.013(4)(a) FS. Law Implemented 471.013(4)(a), 471.015 FS. History—New 1-8-80, Amended 3-11-80, 6-23-80, 7-7-83, 9-13-84, Formerly 21H-20.01, Amended 8-18-87, 12-4-91, Formerly 21H-20.002, Amended 12-26-94, 5-20-02, 4-5-04, 11-2-15, 8-8-18, 12-18-18, 12-29-19, 1-30-24, Technical Change 3-20-26, Amended .

61G15-20.006 Educational Requirements.

(1) No Change.

(2) A non-EAC/ABET or ETAC/ABET accredited engineering program which seeks approval pursuant to Section 471.013(1)(a), F.S., shall submit the following to the Board:

(a) A completed application form "Request for Evaluation" FBPE Form 15, Rev. 05/26 at <https://www.flrules.org/Gateway/reference.asp?No=Ref-19946> [FBPE/007 (11-07)] and "Self-Study Report" [FBPE Form 16, Rev. 05/26 FBPE/008 (1-08)] at <https://www.flrules.org/Gateway/reference.asp?No=Ref-19947>, hereby incorporated by reference. Copies of FBPE Form 15 and FBPE Form 16 (which may be obtained from the Board by downloading it from the internet website, <https://fbpe.org/your-fbpe/collegiate/>, by writing to: Executive Director, Florida Board of Professional Engineers, 2400 Mahan Drive, Tallahassee, Florida 32308);

(b) No Change.

(3) No Change.

(4) The Meaning of Approval.

(a) Purpose.

1. No Change.

2. In practical terms a graduate of an engineering program that has not been accredited by EAC/ABET or ETAC/ABET but has been approved ~~certified~~ by the Board pursuant to this Rule ~~State of Florida will be eligible for the Fundamentals and Principles and Practice examinations, or for licensure by examination or endorsement.~~

3. No Change.

(b) Standards.

~~4.~~ To be approved, engineering programs must meet the EAC/ABET Criteria For Accrediting Engineering Programs 2026-2027 or the ETAC/ABET Criteria for Accrediting Engineering Technology Programs 2026-2027. These Criteria may be obtained from ABET, 415 North Charles Street, Baltimore, MD 21201 or at <https://www.abet.org/accreditation/accreditation->

~~criteria/criteria-for-accrediting-engineering-programs-2026-2027/ or <https://www.abet.org/accreditation/accreditation-criteria/criteria-for-accrediting-engineering-technology-programs-2026-2027/> standards set forth by the Board in this rule as judged by the Board. These standards are sometimes stated in a fashion that is not susceptible to quantification or to precise definition because the nature of the evaluation is qualitative in character and can be accomplished only by the exercise of professional judgment by qualified persons.~~

~~2. In these standards, the words “must” and “should” have been chosen with care. Use of the word “must” indicates that Florida considers meeting the standard to be absolutely necessary if the program is to be certified. Use of the word “should” indicates that Florida considers an attribute to be highly desirable and makes a judgment as to whether or not its absence may compromise substantial compliance with all of the requirements for approval.~~

~~(5) Objectives.~~

~~(a) An essential objective of a program in engineering education leading to a Bachelor’s of Science in Engineering (BSE) or Bachelor’s of Science in Engineering Technology (BSET) degree must be to meet the standards herein described for approval that its graduates will be prepared to qualify for licensure, to provide competent engineering services and to have the educational background necessary for lifelong learning. An engineering program may establish additional objectives consistent with its available resources. Objectives must be defined in writing and made known to faculty and students. While recognizing the existence and appropriateness of diverse institutional missions and educational objectives, the Board subscribes to the proposition that local circumstances do not justify approval of a program that fails to meet the standards as set forth in this rule.~~

~~(b) Approval is granted on the basis of evidence of an appropriate balance between the size of the enrollment in each class and the total resources of the program, including the faculty, physical facilities, curricular time and methods of instruction, and the budget. If there is to be substantial change in any of the above functions, the Board must be notified in writing so that reevaluation may be instituted.~~

~~(6) Governance.~~

~~(a) Preferably an engineering school should be a component of a university that has other graduate and professional degree granting programs. The environment of a university fosters intellectual challenge, the spirit of inquiry, the seeking of new knowledge and the habit of lifelong learning.~~

~~(b) The engineering school must be accredited by an accrediting organization recognized by the U.S. Department of Education.~~

~~(7) Administration.~~

~~(a) General.~~

~~1. Administrative officers and members of an engineering school faculty must be appointed by, or on the authority of, the governing body of the engineering school.~~

~~2. If the engineering school is part of a university, the dean must have ready access to the university chief executive officer and to such other university officials as may be necessary to fulfill the dean’s responsibilities. If the engineering school is not part of a university, the dean must have ready access to the chief officer of the governing body.~~

~~3. The dean must be qualified by education and experience to provide leadership in engineering education, in scholarly activity and research, and in the practice of professional engineering. The dean should have the assistance of such professional associates and staff as are necessary for administration of admissions, student affairs, academic affairs, business affairs, physical facilities and other activities normally associated with the office of the dean.~~

~~4. The manner in which the engineering school is organized, including the responsibilities and privileges of administrative officers, faculty, students and committees must be formally set forth in writing. It is through committee structure and function that faculty and at times students and others become involved in decisions concerning admissions, promotions, curriculum, library, research, etc. The number and composition of committees may vary among engineering programs.~~

~~5. A budget, showing available revenue sources and expenditures must be prepared for the engineering school at regular and specified periods. To facilitate effective planning, each engineering program should know in advance a reasonable estimate of its available operating resources.~~

~~(b) Geographically Separated Campuses.~~

~~1. If components of the program are conducted at sites geographically separated from the main campus of the engineering school, the administration of the engineering school must be fully responsible for the conduct, and maintenance of the quality of the educational experiences offered at these sites and for identification of the faculty at all sites. In order to ensure that all educational components of the school’s program are equivalent in quality, the principal academic officer of each geographically separated site must be administratively responsible to the chief academic officer of the engineering school conducting the certified program. Similarly, the faculty in each discipline, in all sites, must be functionally integrated by administrative mechanisms that ensure comparable quality of the geographically separated segments of the program.~~

~~2. A large number of program sites or a significant distance between sites may require extra academic and administrative controls in order to maintain the quality of the entire program.~~

~~(c) Design and Management.~~

1. The program's faculty must be responsible for the design, implementation, and evaluation of the educational program. A faculty committee should undertake this responsibility with full support of the chief academic officer and staff. The curriculum of the program leading to the professional engineering or engineering technology degree must be designed to provide a general professional education, recognizing that, this alone, is insufficient to prepare a graduate for independent, unsupervised practice throughout a professional lifetime.

2. The committee responsible for curriculum should give careful attention to the impact on students of the amount of work required. The committee should monitor the content provided in each discipline in order that objectives for education of an engineer are achieved without attempting to present the complete, detailed, systematic body of knowledge in that discipline. The objectives, content, and methods of teaching and learning utilized for each segment of the curriculum, as well as for the entire curriculum, should be subjected to periodic evaluation. Undue repetition and serious omissions and deficiencies in the curriculum identified by these evaluations should be corrected. Review and necessary revision of the curriculum is an ongoing faculty responsibility.

(d) Content.

1. The engineering faculty is responsible for devising a curriculum that permits the student to learn the fundamental principles of engineering, to acquire skills of critical judgment based on evidence and experience, and to develop an ability to use principles and skills wisely in solving engineering problems. In addition, the curriculum must be designed so that students acquire an understanding of the scientific concepts underlying engineering. In designing the curriculum, the faculty must introduce current advances in the basic engineering sciences.

2. The curriculum cannot be all encompassing. However, it must include the sciences basic to engineering and ethical, behavioral, and socioeconomic subjects pertinent to engineering. There should be presentation of material on engineering ethics and human values. The faculty should foster in students the ability to learn through self directed, independent study throughout their professional lives.

3. The required subjects which must be offered are probability and statistics, differential calculus, integral calculus, and differential equations; general chemistry and calculus based general physics, with at least a two semester (or equivalent) sequence of study in either area. Additional courses may include linear algebra, numerical analysis, and advanced calculus, life sciences (biology), earth sciences (geology), and advanced chemistry or physics.

4. The curriculum should provide grounding in the body of knowledge represented in the disciplines that support the

fundamentals of engineering practice, such as, mechanics, thermodynamics, electrical and electronic circuits, and materials science. Courses in engineering design stress the establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. In order to promote breadth, at least one engineering course outside the major disciplinary area is required.

5. The faculty committee responsible for curriculum should develop, and the chief academic officer should enforce, the same rigorous standards for the content of each year of the program leading to the BSE or BSET. The final year should complement and supplement the curriculum of the individual student so that each student will acquire appropriate competence in general engineering care regardless of subsequent career specialty.

6. The curriculum should include elective courses designed to supplement the required courses and to provide opportunities for students to pursue individual scholarly interests. Faculty advisors must be available to guide students in the choice of elective courses. If students are permitted to take electives at other institutions, there should be a system centralized in the dean's office to screen the student's proposed extramural program prior to approval and to ensure the return of a performance appraisal by the host program. Another system, devised and implemented by the dean, should verify the credentials of students from other schools wishing to take courses at the school, approve assignments, maintain a complete roster of visiting students, and provide evaluations to the parent schools.

(e) Evaluation of Student Performance.

1. The faculty must establish principles and methods for the evaluation of student performance and make decisions regarding promotion and graduation. The varied measures utilized should determine whether or not students have attained the school's standards of performance.

2. The faculty of each discipline should set the standards for performance by students in the study of that discipline. The faculty should review the frequency of examinations and their scheduling, particularly when the students are enrolled in several subjects simultaneously. Schools should develop a system of evaluation that fosters self initiated learning by students rather than frequent tests which condition students to memorize details for short term retention only. Examinations should measure cognitive learning, mastery of basic engineering skills, and the ability to use data in realistic problem solving. If geographically separated campuses are operated, a single standard for promotion and graduation of students should be applied.

3. The engineering school must publicize to all faculty members and students its standards and procedures for the evaluation, advancement, and graduation of its students and for

disciplinary action. The school should develop and publish a fair and relatively formal process for the faculty or administration to follow when taking any action that adversely affects the status of a student.

4. The institutions must maintain adequate records. These records should include summaries of admission credentials, attendance, measurement of the performance and promotion of the student, and the degree to which requirements of the curriculum have been met. Evaluation of each student in each course should be part of the record.

5. Academic Counseling. The chief academic officer and the directors of all courses must design and implement a system of evaluation of the work of each student during progression through each course. Each student should be evaluated early enough during a unit of study to allow time for remediation. Course directors and faculty assigned to advise students should consider this duty a primary responsibility. All course directors or departmental heads, or their designates, should serve as expert consultants to the chief academic officer for facilitation of performance of both students and faculty.

(8) Resources for the Educational Program.

(a) Finances. The cost of conducting a certified educational program leading to the BSE or BSET must be supported by sufficient financial resources. Dependence upon tuition must not cause schools to seek enrollment of more students than their total resources can accommodate and provide with a sound education experience.

(b) Faculty.

1. Members of the faculty must have the capability and continued commitment to be effective teachers. Effective teaching requires knowledge of the discipline, and an understanding of pedagogy, including construction of a curriculum consistent with learning objectives, subject to internal and external formal evaluation. The administration and the faculty should have knowledge of methods for measurement of student performance in accordance with stated educational objectives and national norms.

2. Persons appointed to faculty positions must have demonstrated achievements within their disciplines commensurate with their faculty rank. It is expected that faculty members will have a commitment to continuing scholarly productivity, thereby contributing to the educational environment of the engineering school.

3. In each of the major disciplines basic to engineering sciences, a sufficient number of faculty members must be appointed who possess, in addition to a comprehensive knowledge of their major disciplines, expertise in one or more subdivisions or specialties within each of these disciplines.

4. In addition, engineers practicing in the community can make a significant contribution to the educational program of the engineering school, subject to individual expertise,

commitment to engineering education, and availability. Practicing engineers appointed to the faculty, either on a part-time basis or as volunteers, should be effective teachers, serve as role models for students, and provide insight into contemporary engineering methods.

5. There must be clear written policies for the appointment, renewal of appointment, promotion, retention and dismissal of members of the faculty. The appointment process must involve the faculty, the appropriate departmental heads and the dean. Each appointee should receive a clear definition of the terms of appointment, responsibilities, line of communication, privileges and benefits.

6. The education of engineering students requires an academic environment that provides close interaction among the faculty members so that those skilled in teaching and research in the basic sciences can maintain awareness of the relevance of their disciplines to engineering problems.

7. The dean and a committee of the faculty must determine engineering school policies. This committee typically consists of the heads of major departments, but may be organized in any manner that brings reasonable and appropriate faculty influence into the governance and policymaking processes of the school. The full faculty should meet often enough to provide an opportunity for all to discuss, establish, or otherwise become acquainted with engineering school policies and practices.

(c) Library.

1. The engineering school library should be a major component of the school's program of teaching and learning. Attitudes of lifelong learning can only be instilled by instruction in the production, storage and retrieval of new knowledge. Use and importance of the library can be imparted to students by example of faculty.

2. The engineering students and faculty must have ready access to a well-maintained and catalogued library, sufficient in size and breadth to support the educational programs offered by the institution. The library should receive the leading national and international engineering periodicals, the current numbers of which should be readily accessible. The library and any other learning resources should be equipped to allow students to learn new methods of retrieving and managing information, as well as to use self-instructional materials. A professional library staff should supervise the library and provide instruction in its use.

3. If the library serving the engineering school is part of a university library system, the professional library staff must be responsive to the needs of the engineering school, the faculty, resident staff and students who may require extended access to a journal and reference book collection, some of which may be virtual. The librarian should be familiar with the methods for maintaining relationships between the library and national library systems and resources, and with the current technology available to provide services in non-print materials. If the

~~faculty and students served by the library are dispersed, the utilization of departmental and branch libraries should be facilitated by the librarian and by the administration and faculty of the school.~~

~~(9) Site Visit.~~

~~(a) The site visit team shall consist of the Educational Advisory Committee and individual(s) designated by the Board who are or have been engineering educators and practitioners experienced in engineering program evaluation. The applicant must assist the Board in making all necessary arrangements for the site visit, including the opportunity to meet trustees, owners or their representatives, administrators, faculty, students, and any others connected with the program.~~

~~(b) Following the site visit, the Educational Advisory Committee will report its findings to the Board.~~

~~(5)(10) No Change.~~

Rulemaking Authority 471.013(1)(a)3, FS. Law Implemented 471.013(1) FS. History—New 8-18-87, Formerly 21H-20.006, Amended 12-26-94, 4-10-08, 12-29-19, Technical Change 3-20-26, Amended.

NAME OF PERSON ORIGINATING PROPOSED RULE:
Board of Professional Engineers

NAME OF AGENCY HEAD WHO APPROVED THE PROPOSED RULE: Board of Professional Engineers

DATE PROPOSED RULE APPROVED BY AGENCY HEAD: May 27, 2026

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAR: March 30, 2026

Section III

Notice of Changes, Corrections and Withdrawals

DEPARTMENT OF ENVIRONMENTAL PROTECTION

RULE NO.: RULE TITLE:

62-620.100	Scope/Applicability/References
62-620.310	Procedure to Obtain Permits
62-620.325	Revisions to Permit Conditions
62-620.340	Transfer of Permit
62-620.410	General Application Requirements
62-620.610	General Conditions for All Permits

62-620.620	Guidelines for Establishing Specific Permit Conditions
62-620.625	Additional Conditions Applicable to Specific Categories of Facilities
62-620.630	Additional Permit Conditions for Domestic Wastewater Facilities
62-620.910	Forms and Instructions

NOTICE OF WITHDRAWAL

Notice is hereby given that the above rule, as noticed in Vol. 51 No. 247, December 23, 2025 issue of the Florida Administrative Register has been withdrawn.

The proposed rules, including a Notice of Change that was published in Vol. 52, No. 56, March 23, 2026, issue of the FAR, for four of the ten proposed rule sections, while having been previously approved for publication by the agency and reviewed by the Office of Fiscal Accountability and Regulatory Reform, are being withdrawn and will be re-published in a new Notice of Proposed Rule, including the changes as noticed on March 23, 2026. This withdrawal, and the planned re-publication, are being done to comply with timeframes prescribed by Section 120.54, F.S., while ensuring all the affected revised rule sections, which are inextricably linked, are published and can be filed for adoption with the Department of State contemporaneously.

Public participation is solicited without regard to race, color, religion, sex, pregnancy, national origin, age, handicap, or marital status. Persons who require special accommodations under the American with Disabilities Act (ADA) or persons who require translation services (free of charge) are asked to contact DEP's Limited English Proficiency Coordinator at (850)245-2118 or LEP@FloridaDEP.gov. If you have a hearing or speech impairment, please contact the agency using the Florida Relay Service, (800)955-8771 (TDD) or (800)955-8770 (voice).

DEPARTMENT OF HEALTH

RULE NO.: RULE TITLE:
64-4.218 MMTC Trade Name and Logo
NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 52 No. 93, May 13, 2026 issue of the Florida Administrative Register.

64-4.218 MMTC Trade Name and Logo.

(1) through (2) No change.

(3) An MMTC may only use its department-approved logo in color combinations approved by the department. An MMTC may seek approval of its logo in up to four color combinations that include:

(a) One primary, full color logo;

(b) One inverted (i.e., reverse color) logo;

(c) One monochrome, solid black logo; and

(d) One monochrome, solid white logo.

(4) If an MMTC's department approved logo contains both a symbol or image and stylized text, the MMTC may use each component of the logo in any layout, orientation, or configuration, provided that only the approved components are used and that the configuration is consistent with subsection (2) of this rule.

(3) renumbered (5) No change.

Rulemaking Authority Art. X, § 29, Fla. Const., 381.986(8)(k) FS. Law Implemented Art. X, § 29, Fla. Const., 381.986(8)(e), 381.986(8)(h) FS. History – New .

Section IV Emergency Rules

NOTE: The full text of Emergency Rules that are currently in effect can be viewed by going to <https://flrules.org/Notice/emergencyRules.asp>.

Section V Petitions and Dispositions Regarding Rule Variance or Waiver

WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE NO.: RULE TITLE:

40D-21.641 Phase III: Extreme Water Shortage

The SOUTHWEST FLORIDA WATER MANAGEMENT DISTRICT hereby gives notice:

that on August 10, 2026, the Southwest Florida Water Management District has issued an order granting a variance.

Petitioner's Name: The Heights Community Association, Inc. - File Tracking No. 26-4437

Date Petition Filed: May 7, 2026

Rule No.: 40D-21.641, F.A.C.

Nature of the rule for which variance or waiver was sought: Phase III: Extreme Water Shortage

Date Petition Published in the Florida Administrative Register: May 11, 2026

General Basis for Agency Decision: Petitioner demonstrated substantial hardship and proposed an alternative means of achieving the purpose of the statute implemented by the rule.

A copy of the Order or additional information may be obtained by contacting: Camille R. Mourant, 7601 US Highway 301, Tampa, Florida 33637, (813)438-4906, water.variances@watermatters.org.

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Division of Hotels and Restaurants

RULE NO.: RULE TITLE:

61C-5.001 Safety Standards

The Department of Business and Professional Regulation, Division of Hotels and Restaurants, Bureau of Elevator Safety hereby gives notice: On August 06, 2026, the Division issued an order. The Final Order was in response to a Petition for an emergency temporary Variance from the Caridad Center located at 8645 W. Boynton Blvd., Boynton Beach, FL 33472, filed July 07, 2026, and advertised on July 17, 2026, in Vol. 52, No. 137, of the Florida Administrative Register. No comments were received in response to the petition. The Final Order on the Petition for Variance grants the Petitioner a temporary variance from Rule 3.19.3.3.1, ASME A17.1, 2019 Edition, as adopted by Rule 61C-5.001 Florida Administrative Code that requires the flexible hose and fitting assemblies to be steel-wire reinforced, because the Petitioner has demonstrated that the purpose of the underlying statute has been met and that Petitioner would suffer a substantial hardship if required to comply with this rule (VW2026-094).

A copy of the Order or additional information may be obtained by contacting: Division of Hotels and Restaurants, Bureau of Elevator Safety, 2601 Blair Stone Road, Tallahassee, Florida 32399-1013, elevators.dhr@myfloridalicense.com.

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Division of Hotels and Restaurants

RULE NO.: RULE TITLE:

61C-5.001 Safety Standards

The Department of Business and Professional Regulation, Division of Hotels and Restaurants, Bureau of Elevator Safety hereby gives notice: On August 06, 2026, the Division issued an order. The Final Order was in response to a Petition for an emergency temporary Variance from Amkin West Bay, LLC located at 301 W Bay Street, Jacksonville, FL 32202-4408, filed June 30, 2026, and advertised on July 14, 2026, in Vol. 52, No. 135, of the Florida Administrative Register. No comments were received in response to the petition. The Final Order on the Petition for Variance grants the Petitioner a temporary variance from Rules 2.27.2, 2.27.2.2, and 2.27.2.4, ASME A17.1, 2019 Edition, as adopted by Rule 61C-5.001 Florida Administrative Code that requires elevators equipped with an emergency or standby power system must automatically switch from normal power in case of failure, complying with requirements 2.27.2.1 through 2.27.2.5, and if the system cannot operate all elevators at once, must follow guidelines 2.27.2.4.1 through 2.27.2.4.6, because the Petitioner has demonstrated that the purpose of the underlying statute has been

met and that Petitioner would suffer a substantial hardship if required to comply with this rule (VW2026-090).

A copy of the Order or additional information may be obtained by contacting: Division of Hotels and Restaurants, Bureau of Elevator Safety, 2601 Blair Stone Road, Tallahassee, Florida 32399-1013. elevators.dhr@myfloridalicense.com.

DEPARTMENT OF CHILDREN AND FAMILIES

Substance Abuse Program

RULE NO.: RULE TITLE:

65D-30.0042 Clinical and Medical Guidelines

NOTICE IS HEREBY GIVEN that on August 10, 2026, the Department of Children and Families, received a petition for variance of sub subparagraph 65D-30.0042(2)(a)4.b., Florida Administrative Code, from Comprehensive Psychiatric Center. This rule provides, in part, that for medication-assisted treatment for opioid addiction, blood and urine samples shall be taken within seven (7) calendar days prior to placement or two (2) calendar days after placement.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Agency Clerk, Department of Children and Families, 2415 North Monroe Street, Suite 400, Tallahassee, FL 32303 or Agency.Clerk@myflfamilies.com.

ARDURRA GROUP, INC.

The Florida Department of Transportation (FDOT) announces a public meeting to which all persons are invited.

DATE AND TIME: Thursday, August 20, 2026, 5:30 p.m. - 7:00 p.m.

PLACE: In-Person at the Longwood Community Building

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Transportation (FDOT) will hold a project open house regarding proposed improvements on State Road (S.R.) 434 from east of U.S. 17-92 (S.R. 15/600) to S.R. 419 in the cities of Casselberry, Longwood, and Winter Springs. (FPID no. 454207-1)

The purpose of this project is to enhance safety and operations along the corridor, as well as provide a rehabilitated asphalt surface to maintain the roadway. The project will replace a portion of the two-way center turn lane with a raised median and directional median openings between Sheoah Boulevard and Charles Street. The open house is being held to present information and receive community feedback.

The in-person open house will be held at the Longwood Community Building at 200 W. Warren Ave., Longwood, FL 32750. Attendees will be able to view a looping presentation and project displays, speak with project team members, and submit comments or questions.

To provide additional flexibility for stakeholders, the FDOT is also offering participation online through the project website www.CFLRoads.com/project/454207-1. Visitors to the page may watch the project presentation, view project exhibits, and submit comments and questions directly to the project manager. Project materials will be available beginning Thursday, August 20, and will be the same as what will be shared at the in-person open house. While the information will remain on the website throughout the project, please provide comments or questions by September 3 to have the comments included in the open house record.

FDOT is seeking feedback from nearby property owners, business owners, interested persons, organizations, and the general public about this project and the proposed improvements.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Melissa McKinney, FDOT District Five Title VI Coordinator, at Melissa.McKinney@dot.state.fl.us.

A copy of the agenda may be obtained by contacting: Not applicable.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least seven (7) days before the workshop/meeting by contacting: Ryan Frazier at (386)943-5591 or by email at Ryan.Frazier@dot.state.fl.us. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

For more information, you may contact: FDOT Project Manager, Ryan Frazier, P.E., by phone at (386)943-5591, by email at Ryan.Frazier@dot.state.fl.us, or U.S. mail at Florida Department of Transportation, 719 South Woodland Blvd., M.S. 542, DeLand, FL 32720. Information about this project is also available online at www.cflroads.com. Simply type "454207-1" in the search box, click "go" and then select the project. We encourage you to participate in the S.R. 434 Resurfacing project open house.

PATEL, GREENE AND ASSOCIATES, PLLC

The Florida Department of Transportation, District 2 announces a public meeting to which all persons are invited.

DATES AND TIMES: In-person meeting: Tuesday, August 18, 2026, Open House: 4:30 p.m., Presentation & Public Comment Period: 6:00 p.m.; Virtual meeting: Thursday, August 20, 2026, Open House: 5:30 p.m., Presentation & Public Comment Period: 6:00 p.m.

PLACES: In-Person: Sanderson Congregational Holiness Church, 8443 CR 127, Sanderson, FL 32087
