6A-20.033	Florida Postsecondary Student Assistance Grant

PURPOSE AND EFFECT: This amendment is to be in alignment with revised federal laws on measuring a student's net financial need that is currently defined as the difference between a student's cost of education and the expected family contribution and other financial resources available to the student. Students will experience a simplified Free Application for Federal Student Application (FAFSA) when applying for federal and state student financial assistance and experience a new need calculation process that ties a student's FAFSA to their federal tax return. The revised need calculation will result in the usage of a new indicator called the student aid index.

SUBJECT AREA TO BE ADDRESSED: Definitions of net financial need will be updated based on updated federal guidelines that replace the need calculation index from the "expected family contribution" to the "student aid index."
