2025-2026 Master Credentials List
Industry Certifications

Credentials highlighted in yellow are in their first year of "flagged-for-removal" status based on demand and/or wage deficiencies. Credentials on the 2025-26 MCL whose demand/wage deficiencies are not cured by February 2026 will remain on the list for a second year. See Notes column for details.
The local demand and credential sequencing fast-track applications can be found near the top of the page [here](#).

Beginning with the initial 2025-26 MCL published in February 2025, these credentials will be highlighted in orange to indicate they are in their second year of "flagged-for-removal" status. Additional information to cure the demand/wage deficiencies associated with credentials highlighted in orange must be submitted by no later than December 1, 2025, to prevent the removal of these credentials from the initial 2026-27 MCL published in February 2026. See Notes column for details.

Green Highlights = Credential is new to the MCL in 2025-2026.
