Warners Bayou	16,978	3,456	5.0			97	13
Whitaker Bayou	4,446	2,391	5.0	42			30
Total	984,080	310,178					

¹ Dredge and channel length estimates of WCIND public jurisdiction are subject to additional field or legal review, as such they are to be considered preliminary and approximate.

² Public channel designation includes the Intracoastal Waterway and any other waterway as determined by the WCIND Board to make a significant contribution to boat traffic in the four county district, including access channels connecting the inland waterways to residential canal systems (see P. Perrey letter to R. Combs, 1/12/2000).

³ Maximum proposed depth of access channels and canals, based on providing access for all boats using public navigation channel; overdredging not allowed.
