(B) Trading Information by security will be aggregated for members that have executed on average fewer than 200 transactions per day in the security during the applicable Trading Information period.

(3) FINRA will publish on its public web site monthly aggregate block trading statistics, with elements to be determined from time to time by FINRA in its discretion as stated in a Regulatory Notice or other equivalent publication, for each member with the trade reporting obligation under Rules 6282(b), 6380A(b) and 6380B(b). For each member, such block trading statistics shall be aggregated for all MPIDs used by the member (excluding, if applicable, any MPIDs used by the member for reporting trades executed in its alternative trading system), be aggregated across all NMS stocks, be for a minimum time period of one month of trading, and be published no earlier than one month following the end of the month for which trading was aggregated.

(B) the number of trades in an NMS stock executed by the member with the trade reporting obligation under Rules 6282(b), 6380A(b) and 6380B(b) and reported to FINRA.

(2) FINRA will publish on its public web site monthly aggregate ATS block trading statistics, with elements to be determined from time to time by FINRA in its discretion as stated in a Regulatory Notice or other equivalent publication, for each ATS with the trade reporting obligation under Rules 6282(b), 6380A(b) and 6380B(b). For each ATS, such block trading statistics shall be aggregated across all NMS stocks, be for a minimum time period of one month of trading, and be published no earlier than one month following the end of the month for which trading was aggregated.

## 6120. Trading Halts

### (a) Authority to Initiate Halts In Trading Otherwise Than on an Exchange in NMS Stocks and Facility Closures

FINRA, pursuant to the procedures set forth in paragraph (b):

(1) shall halt trading otherwise than on an exchange in any NMS stock, as defined in Rule 600(b) of SEC Regulation NMS, whenever a Primary Listing Market declares a Regulatory Halt in the security.

(2) shall halt trading otherwise than on an exchange in any NMS stock when:

(A) extraordinary market activity in the security is occurring that has a severe and continuing negative impact, on a market-wide basis, on quoting, order, or trading activity or on the availability of market information necessary to maintain a fair and orderly market. For purposes of this paragraph, a severe and continuing negative impact on quoting, order, or trading activity includes (i) a series of quotes, orders, or transactions at prices substantially unrelated to the current market for the security or securities; (ii) duplicative or erroneous quoting, order, trade reporting, or other related message traffic between one or more Trading Centers or members; or (iii) the unavailability of quoting, order, transaction information, or regulatory messages for a sustained period; and

(B)

(i) FINRA determines that such extraordinary market activity is caused by the disruption or malfunction of an electronic quotation, communication, reporting, or execution system operated by, or linked to, FINRA or a FINRA member; or

(ii) After consultation with a national securities exchange trading the security, FINRA determines that such extraordinary market activity is caused by the disruption or malfunction of an electronic quotation, communication, reporting, or execution system operated by, or linked to, such national securities exchange or a member of such exchange.

(3) shall, in its discretion, close the Alternative Display Facility (ADF) or any Trade Reporting Facility (TRF) to quotation and/or trade reporting activity, as applicable, whenever the ADF or such TRF is unable to accept quotes or trade reports from participants or transmit real-time quotation or trade reporting information to the applicable Processor or in the event of any other internal or external systems issue that causes a severe and continuing negative impact on the proper functioning of the facility. If the ADF or any TRF closes to quoting or trading pursuant to this subparagraph (3), members would not be prohibited from quoting or trading through other markets for which quoting or trading is not halted.

Members shall promptly notify FINRA whenever they have knowledge of any matter related to an NMS stock or the issuer thereof that has not been adequately disclosed to the public or where they have knowledge of a regulatory problem relating to such security.

### (b) Commencement and Termination of a Trading Halt or Facility Closure

(1) Regulatory Halts. In the case of a Regulatory Halt, the start time of the trading halt shall be when the Primary Listing Market declares the Regulatory Halt, regardless of whether an issue with communications impacts the dissemination of the notice. Unless otherwise specified in Rule 6121, trading shall resume upon notice from the Primary Listing Market that the Regulatory Halt has been terminated or at the SIP Halt Resume Time specified in such notice, as applicable.

(2) FINRA Halts and Closures. In the event FINRA determines that a basis exists under this Rule 6120 to initiate a trading halt or close the ADF or any TRF, the commencement of the trading halt or closure will be effective simultaneously with appropriate notice from FINRA, and the halt or closure will terminate upon appropriate notice from FINRA that the trading halt or closure is no longer in effect.

### (c) Definitions

For purposes of this Rule 6120, the following terms shall have the meanings as set forth in the NMS Plan of the applicable Securities Information Processor: "Primary Listing Market," "Processor," "Regulatory Halt," "SIP Halt Resume Time" and "Trading Center."

## 6121. Trading Halts Due to Extraordinary Market Volatility

Pursuant to the procedures set forth in [Rule 6120\(b\)](#), FINRA shall halt all trading otherwise than on an exchange in any NMS stock, as defined in Rule 600(b) of SEC Regulation NMS, if other major securities markets initiate market-wide trading halts in response to their rules or extraordinary market conditions or if otherwise directed by the SEC. Members must halt quoting and trading otherwise than on an exchange in any NMS stock as of the time the market-wide trading halt is publicly disseminated.

### • • • Supplementary Material: -----

#### **.01 Resumption of Trading in Securities Subject to the Regulation NMS Plan to Address Extraordinary Market Volatility**

The Regulation NMS Plan to Address Extraordinary Market Volatility (Plan) sets forth the circumstances under which the Primary Listing Exchange shall declare a Trading Pause for an NMS Stock. The Plan expressly provides that no trades in an NMS Stock shall occur during a Trading Pause. The Plan also sets forth the circumstances under which trading in an NMS Stock can resume after a Trading Pause.

(a) A member may not resume trading otherwise than on an exchange following a Trading Pause or Regulatory Halt in an NMS Stock that is subject to the Plan unless trading has commenced on the Primary Listing Exchange and either:

(1) the member has received the Price Bands from the Processor; or

(2) if the Processor has not yet disseminated Price Bands, but a Reference Price is available, the member calculates and applies Price Bands based on the same Reference Price that the Processor would use for calculating such Price Bands until such member receives Price Bands from the Processor, consistent with Section V(A)(1) of the Plan.

(b) Notwithstanding paragraph (a) above, a member may resume trading otherwise than on an exchange in such NMS Stock if the Primary Listing Exchange notifies the Processor that it is unable to reopen an NMS Stock due to a systems or technology issue, or if the Primary Listing Exchange reopens trading with a quotation that has a zero bid or zero offer, or both, and:

(1) the member has received the Price Bands from the Processor; and

(2) trading has commenced on at least one other national securities exchange.

(c) For purposes of this Supplementary Material .01, the following terms shall have the meanings as set forth in the Regulation NMS Plan to Address Extraordinary Market Volatility: "NMS Stock," "Price Bands," "Primary Listing Exchange," "Processor," "Regulatory Halt," "Reference Price" and "Trading Pause."

#### **.02 Market-wide Circuit Breakers in NMS Stocks**

(a) In the event of a Level 1, Level 2 or Level 3 Market Decline, as determined by a primary listing market and publicly disseminated, FINRA shall halt trading otherwise than on an exchange in all NMS stocks and shall not permit the resumption of trading for the time periods specified by the primary listing market, except as otherwise provided below.

(b) For purposes of this Rule, a Market Decline means a decline in the value of the S&P 500® Index between 9:30 a.m. and 4:00 p.m. on a trading day as compared to the closing value of the S&P 500® Index for the immediately preceding trading day.

(c) (1) If trading is halted in all NMS stocks for a Level 1 or a Level 2 Market Decline, FINRA will halt trading otherwise than on an exchange in all NMS stocks until trading has resumed on the primary listing market. If, however, the primary listing market does not reopen a security within 15 minutes following the end of the 15-minute halt period, FINRA may permit the resumption of trading otherwise than on an exchange in that security if trading in the security has commenced on at least one other national securities exchange.

(2) If a Level 3 Market Decline occurs at any time during the trading day, FINRA shall halt trading otherwise than on an exchange in all NMS stocks for the remainder of the trading day.

(d) Market-Wide Circuit Breaker ("MWCB") Testing.

(1) FINRA will participate in all industry-wide tests of the MWCB mechanism. Members designated pursuant to Rule 4380 with respect to a FINRA Trade Reporting Facility (TRF) or the Alternative Display Facility (ADF) to participate in FINRA's periodic, scheduled testing of their business continuity and disaster recovery (BC/DR) plans are required to participate in at least one industry-wide MWCB test each year and to verify their participation in that test by attesting that they are able to or have attempted to:

(A) receive and process MWCB halt messages from the securities information processors ("SIPs");

(B) receive and process resume messages from the SIPs following a MWCB halt;

(C) receive and process market data from the SIPs relevant to MWCB halts; and

(D) send quotes, trades or both, as applicable, to the facility or facilities for which the member has been designated pursuant to Rule 4380 following a Level 1 or Level 2 MWCB halt in a manner consistent with their usual trading behavior.

(2) To the extent that a member participating in a MWCB test is unable to receive and process any of the messages identified in paragraph (d)(1)(A) through (D) of this Supplementary Material .02, its attestation should notify FINRA which messages it was unable to process and, if known, why.

(3) Members not designated pursuant to Rule 4380 are permitted to participate in any MWCB test.

(e) In the event that a halt is triggered under this Supplementary Material .02 following a Level 1, Level 2, or Level 3 Market Decline, FINRA, together with other SROs and industry representatives (the “MWCB Working Group”), will review such event. The MWCB Working Group will prepare a report that documents its analysis and recommendations and will provide that report to the SEC within six months of the event.

(f) In the event that there is (1) a Market Decline of more than five percent, or (2) an SRO implements a rule that changes its reopening process following a MWCB Halt, FINRA, together with the MWCB Working Group, will review such event and consider whether any modifications should be made to this Supplementary Material .02. If the MWCB Working Group recommends that a modification should be made to this Supplementary Material .02, the MWCB Working Group will prepare a report that documents its analysis and recommendations and provide that report to the SEC.

(b) A Trade Reporting Facility Participant that posts a quotation on a FINRA system and reports to that FINRA system or another FINRA system a trade resulting from such posted quotation must utilize the same MPID for reporting purposes (e.g., a member that is both a Trade Reporting Facility Participant and a Registered Reporting ADF ECN must use the same MPID when reporting a trade that resulted from its posted quotation on ADF).

(c) Except as set forth in paragraph (d), a Trade Reporting Facility Participant that operates an alternative trading system ("ATS"), as that term is defined in Rule 300 of SEC Regulation ATS, must obtain a single, separate MPID for each such ATS designated for exclusive use for reporting each ATS's transactions. The member must use such separate MPID to report all transactions executed within the ATS to a Trade Reporting Facility (or Facilities), except if the member is submitting a clearing-only, non-regulatory report pursuant to Rule 7230A(i)(4) or 7230B(h)(4). The member shall not use such separate MPID to report any transaction that is not executed within the ATS. Any member that operates multiple ATSs must obtain a separate MPID for each ATS. Members must have policies and procedures in place to ensure that trades reported with a separate MPID obtained under this paragraph are restricted to trades executed within the ATS.

(d) An ATS is permitted to use two separate MPIDs only if one MPID is used exclusively for reporting transactions to TRACE and the other MPID is used exclusively for reporting transactions to the equity trade reporting facilities (the Alternative Display Facility, the OTC Reporting Facility, the FINRA/Nasdaq TRF, or the FINRA/NYSE TRF).

**.01** FINRA considers the issuance of, and trade reporting with, multiple MPIDs to be a privilege and not a right. If FINRA determines that the use of multiple MPIDs is detrimental to the marketplace, or that a Trade Reporting Facility Participant is using one or more additional MPIDs improperly or for other than the purpose(s) identified by the Participant, FINRA staff retains full discretion to limit or withdraw its grant of the additional MPID(s) to such Trade Reporting Facility Participant for purposes of reporting trades to a Trade Reporting Facility.

**.02** Any FINRA Trade Reporting Facility Business Member that chooses to publish aggregate daily trading volume for transactions executed within an ATS "dark pool" (defined for purposes of this Rule as an ATS that does not display quotations or subscribers' orders to any person or entity either internally within the ATS dark pool or externally beyond the ATS dark pool (other than employees of the ATS)) and reported to the Trade Reporting Facility will base such volume solely on transactions reported by the ATS dark pool for purposes of publication. The Business Member will prominently disclose that its web site may not reflect 100% of the volume for any given ATS dark pool and interested parties must consult all Business Members' web sites for purposes of obtaining an ATS dark pool's total volume.

A member's dark pool transaction data will not be included in the published volume unless the member affirmatively opts in to have its data included. A member operating an ATS dark pool must certify in writing to FINRA that (1) the member is affirmatively opting in for purposes of having its dark pool transaction data included in the published data and acknowledges that its data may be presented as an overall percentage volume only or may be broken down by security; (2) the member meets the definition of ATS dark pool above; and (3) the member has obtained a separate MPID that will be used exclusively for reporting all transactions executed within the ATS dark pool as required by paragraph (c) of this Rule.

## 6170. Multiple MPIDs for Alternative Display Facility Participants

(a) Terms used in this Rule 6170 shall have the same meaning as defined in Rule 6220.

(b) Any ADF participant that is required to obtain, or otherwise wishes to use, more than one Market Participant Identifier ("MPID") for purposes of displaying quotes/orders or reporting trades through the ADF must submit a written request, in the form required by FINRA, to, and obtain approval from, FINRA Market Operations for such additional MPID(s).

(c) An ADF Market Participant that posts a quotation on the ADF and reports a trade to the ADF or a Trade Reporting Facility resulting from such a posted quotation must utilize the same MPID for reporting purposes (e.g., Registered Reporting ADF ECNs must use the same MPID for ADF trade reporting as was used for ADF quotation posting).

(d) Except as set forth in paragraph (e), a member reporting trades to the ADF that operates an alternative trading system ("ATS"), as that term is defined in Rule 300 of SEC Regulation ATS, must obtain a single, separate MPID for each such ATS designated for exclusive use for reporting each ATS's transactions. The member must use such separate MPID to report all transactions executed within the ATS to the ADF, except if the member is submitting a clearing-only, non-regulatory report pursuant to Rule 7130(g)(4). The member shall not use such separate MPID to report any transaction that is not executed within the ATS. Any member that operates multiple ATSs must obtain a separate MPID for each ATS. Members must have policies and procedures in place to ensure that trades reported with a separate MPID obtained under this paragraph are restricted to trades executed within the ATS.

(e) An ATS is permitted to use two separate MPIDs only if one MPID is used exclusively for reporting transactions to TRACE and the other MPID is used exclusively for reporting transactions to the equity trade reporting facilities (the Alternative Display Facility, the OTC Reporting Facility, the FINRA/Nasdaq TRF, or the FINRA/NYSE TRF).

### • • • Supplementary Material: -----

**.01** FINRA considers the issuance of, the display of, and the trade reporting with multiple MPIDs to be a privilege and not a right. An ADF participant must identify the purpose(s) and system(s) for which the multiple MPIDs will be used. If FINRA determines that the use of multiple MPIDs is detrimental to the marketplace, or that an ADF participant is using one or more additional MPIDs improperly or for other than the purpose(s) identified by the participant, FINRA staff retains full discretion to limit or withdraw its grant of the additional MPID(s) to such ADF participant for purposes of displaying quotes/orders or reporting trades through the ADF.

**.02** Each of a Registered Reporting ADF ECN's MPIDs will be subject to the requirements of Rule 6279.

**.03** If an ADF Market Participant no longer fulfills the conditions appurtenant to one of its MPIDs (e.g., by being placed into an unexcused withdrawal), it may not use another MPID for any purpose in that security.

## 6181. Timely Transaction Reporting

FINRA emphasizes the obligations of members to report securities transactions within the required time period. All reportable transactions not reported within the required time period shall be marked late, and FINRA routinely monitors members' compliance with the reporting requirements. If FINRA finds a pattern or practice of unexcused late reporting, that is, repeated reports of executions submitted after the required time period without reasonable justification or exceptional circumstances, the member may be found to be in violation of Rule 2010. Exceptional circumstances will be determined on a case-by-case basis and may include instances of system failure by a member or service bureau, or unusual market conditions, such as extreme volatility in a security, or in the market as a whole. Timely reporting of all transactions is necessary and appropriate for the fair and orderly operation of the marketplace, and FINRA will view noncompliance as a rule violation.

Pursuant to applicable trade reporting rules, members must indicate on trade reports submitted to FINRA whether a transaction is a short sale or a short sale exempt transaction ("short sale reporting requirements"). The short sale reporting requirements apply to transactions in all NMS stocks, as defined in Rule 600(b) of SEC Regulation NMS. Thus, all short sale transactions in these securities reported to FINRA must carry a "short sale" indicator (or a "short sale exempt" indicator if it is a short sale transaction in a "covered security" that may be marked "short exempt" pursuant to SEC Regulation SHO).

## 6183. Exemption from Trade Reporting Obligation for Certain Alternative Trading Systems

- (a) Pursuant to the [Rule 9600](#) Series, the staff for good cause shown after taking into consideration all relevant factors, may exempt, upon application and subject to specified terms and conditions, a member alternative trading system ("ATS") from the trade reporting obligation under paragraph (b) of Rules [6282](#), 6380A and 6380B, if such exemption is consistent with the protection of investors and the public interest. The staff will grant an exemption only if all of the following criteria are satisfied:
- (1) Trades are between ATS subscribers that are both FINRA members.
  - (2) The ATS demonstrates that:
    - (A) The member subscribers are fully disclosed to one another at all times on the ATS;
    - (B) The system does not permit automatic execution, and a member subscriber must take affirmative steps beyond the submission of an order to agree to a trade with another member subscriber;
    - (C) The trade does not pass through any ATS account, and the ATS does not in any way hold itself out to be a party to the trade; and
    - (D) The ATS does not exchange shares or funds on behalf of the member subscribers, take either side of the trade for clearing or settlement purposes, including, but not limited to, at DTC or otherwise, or in any other way insert itself into the trade.
  - (3) The ATS and the member subscribers acknowledge and agree in writing that the ATS shall not be deemed a party to the trade for purposes of trade reporting and that trades shall be reported by the member subscriber that, as between the two member subscribers, would satisfy the definition of "executing party" under FINRA trade reporting rules.
  - (4) The ATS agrees to provide to FINRA on a monthly basis, or such other basis as prescribed by FINRA, data relating to the volume of trades by security executed by the ATS's member subscribers using the ATS's system, and the ATS acknowledges that failure to report such data to FINRA, in addition to constituting a violation of FINRA rules, will result in revocation of any exemption granted pursuant to this Rule.
  - (5) The ATS provides FINRA with a link to a public website that contains, at no charge and in a substantially similar format to ATS Trading Information published by FINRA pursuant to [Rule 6110](#), its ATS Trading Information for NMS stocks on the following timeframes:
    - (A) no later than two weeks following the end of the ATS Trading Information week, ATS Trading Information regarding NMS stocks in Tier 1 of the NMS Plan to Address Extraordinary Market Volatility; and
    - (B) no later than four weeks following the end of the ATS Trading Information week, ATS Trading Information regarding NMS stocks that are subject to FINRA trade reporting requirements and are not in Tier 1 of the NMS Plan to Address Extraordinary Market Volatility.
- (b) Where FINRA has granted an exemption under this Rule, trades shall be reported to FINRA by the member subscriber that, as between the two member subscribers, satisfies the definition of "executing party" under paragraph (b) of Rule [6282](#), 6380A or 6380B.
- (c) Definitions
- For purposes of this Rule, the term:
- (1) "NMS stock" has the same meaning as that term is defined in Rule 600(b) of SEC Regulation NMS; and
  - (2) "ATS Trading Information" means:
    - (A) the number of shares of each NMS stock executed within the ATS or executed by the ATS's member subscribers using the ATS's system; and
    - (B) the number of trades in each NMS stock executed within the ATS or executed by the ATS's member subscribers using the ATS's system.

### • • • Supplementary Material: -----

**.01** When calculating and posting the volume of securities traded and the number of trades pursuant to paragraph (a)(5), an ATS shall include only those trades executed by the ATS's member subscribers using the ATS's system. If two orders are crossed by the ATS, the volume shall include only the number of shares crossed as a single trade (e.g., crossing a buy order of 1,000 shares with a sell order of 1,000 shares would be

calculated as a single trade of 1,000 shares of volume). In addition, to meet the "substantially similar format" requirement in paragraph (a)(5), the data must include the same data elements for the same timeframes, be accessible in the same manner as FINRA makes data available (e.g., downloadable), and include data for the same time periods (including current and historical data).

**.02** For purposes of calculating and posting volume under paragraph (a)(5) of this Rule, a trade is considered to be executed within an ATS if the ATS (i) executes the trade; (ii) is considered the "executing party" to the trade under FINRA rules; or (iii) otherwise matches orders constituting the trade in a manner as contemplated by SEA Rule 3b-16 or SEC Regulation ATS. This would include, but not be limited to: any trade executed as a result of the ATS bringing together the purchaser and seller on or through its systems; any trade executed by the ATS's subscribers where the subscribers used the ATS to negotiate the trade, even if the ATS did not itself execute the trade; or any trade in which the ATS takes either side of a trade for clearing or settlement or in any other way inserts itself into a trade (e.g., exchanging securities or funds on behalf of one or both subscribers taking part in the trade). If an ATS routes an order to another member firm or other execution venue for handling or execution where that initial order matches against interest resident at the other venue, then the ATS would not be considered the executing party and would not include such volume for reporting purposes. A trade continues to be considered executed "within an ATS" for purposes of calculating and posting volume under this Rule, even if the ATS has been granted an exemption to its trade reporting obligations under the Rule.

## 6184. Transactions in Exchange-Traded Managed Fund Shares ("NextShares")

(a) Members that effect secondary market transactions otherwise than on an exchange in exchange-traded managed fund shares or "NextShares," as defined under Nasdaq Rule 5745, must report such transactions to a FINRA/Nasdaq Trade Reporting Facility or the Alternative Display Facility in accordance with this Rule and the rules applicable to the trade reporting facility used by the reporting member. Such transactions cannot be reported to the FINRA/NYSE Trade Reporting Facility. As used in this Rule 6184, the term "FINRA/Nasdaq Trade Reporting Facility" means the FINRA/Nasdaq Trade Reporting Facility Carteret or the FINRA/Nasdaq Trade Reporting Facility Chicago, as applicable, depending on the facility to which the member elects to report.

(b) Reports of transactions in NextShares executed outside of Regular Market Session hours, in violation of Nasdaq Rule 5745, will be rejected by the FINRA trade reporting facility to which the trade report was submitted. "Regular Market Session" for purposes of this Rule shall have the meaning set forth under Nasdaq Rule 4120(b)(4).

(c) Except as otherwise provided in paragraph (d) of this Rule, members must use the "proxy price" format established by Nasdaq, and not the final trade price, on all reports of transactions in NextShares submitted to FINRA, including all tape and non-tape reports, intraday clearing reports, as/of reports and reports of reversals.

### (d) Submission of Transactions in NextShares for Clearing

(1) Transactions in NextShares can only be designated for submission by FINRA to the National Securities Clearing Corporation ("NSCC") for clearance and settlement through the FINRA/Nasdaq Trade Reporting Facility. The Alternative Display Facility does not accept such transactions for clearing purposes. Members that do not clear through the FINRA/Nasdaq Trade Reporting Facility must have an alternative means of clearing (e.g., via direct Qualified Special Representative ("QSR") submission to NSCC) such transactions.

(2) Where a member submits a transaction in NextShares for submission by the FINRA/Nasdaq Trade Reporting Facility to NSCC, the following requirements apply:

(A) For each transaction, members must submit two clearing reports to the FINRA/Nasdaq Trade Reporting Facility. First, the member must submit a clearing report intraday in the proxy price format in accordance with paragraph (c) of this Rule. Second, following publication of the NextShares Fund's net asset value per share ("NAV"), the member must submit a separate "Clearing Copy" report in accordance with paragraph (d)(2)(B) to reflect the final NAV-based trade price.

### (B) Reporting the Final NAV-Based Trade Price

(i) Members must submit a separate clearing-only report for the transaction (a "Clearing Copy" report) with the final NAV-based trade price before the close of the FINRA/Nasdaq Trade Reporting Facility on the same day as submission of the transaction in the proxy price format.

(ii) Clearing Copy reports should only be submitted to the FINRA/Nasdaq Trade Reporting Facility if the transaction was originally reported in the proxy price format to the FINRA/Nasdaq Trade Reporting Facility.

(iii) Multiple transactions reported in the proxy price format cannot be aggregated and submitted in a single Clearing Copy report.

(iv) Clearing Copy reports must contain (1) the unique indicator specified by FINRA to denote a Clearing Copy report; and (2) the control number of the original transaction report assigned by the FINRA/Nasdaq Trade Reporting Facility.

(v) Following submission of the Clearing Copy report, the member is not required to cancel the initial clearing submission for the transaction in the proxy price format.

(C) Clearing reports for the purpose of transferring a position related to a previously executed trade, such as step-outs, must reflect the final NAV-based trade price, if submitted after publication of the NAV. Such reports shall not be "Clearing Copy" reports, as described in paragraph (d)(2)(B).

### .01 Proxy Price Format

FINRA is a registered trademark of the Financial Industry Regulatory Authority, Inc.

Reprinted with permission from FINRA. Version date February 17, 2025.

As provided under Nasdaq Rule 5745, NextShares will trade at market-based premiums or discounts to the fund's next-determined NAV. Because the NAV is not determined until after the market closes, the final NAV-based trade price will not be known at the time of trade execution.

Accordingly, pursuant to paragraph (c) of this Rule, when reporting transactions in NextShares to FINRA, members are required to use the "proxy price" format established by Nasdaq to reflect the trade price. In proxy price format, a NextShares Fund's next-determined NAV is represented as 100.00 and a premium or discount of a stated amount to the next-determined NAV is represented by the same increment or decrement from 100.00. For example, NAV-\$0.01 will be reported as 99.99 and NAV+\$0.01 will be reported as 100.01. The securities information processor will publicly disseminate trades in the proxy price format. Thus, all transactions reported to FINRA for publication purposes must reflect the trade price in the proxy price format, in accordance with paragraph (c) of this Rule, even if the final NAV-based trade price is known at the time of submission (e.g., trades reported on an as/of basis).

Transactions that are designated for submission by the FINRA/Nasdaq Trade Reporting Facility to NSCC must be reported for clearing purposes both intraday in the proxy price format (even if the final NAV-based trade price is known at the time of submission, e.g., trades reported on an as/of basis) and at the final NAV-based trade price. However, transactions will not be submitted by the FINRA/Nasdaq Trade Reporting Facility to NSCC in the proxy price format. Rather, the FINRA/Nasdaq Trade Reporting Facility will calculate the contract price of the trade based on the fund's last published Intraday Indicative Value ("IIV"), as defined under Nasdaq Rule 5745, and submit the transaction in real-time to NSCC for purposes of intraday risk management. Transactions will not clear and settle at the price reported in the proxy price format or the IIV-based price, but instead at the final NAV-based trade price submitted by the reporting member in accordance with paragraph (d)(2)(B) of this Rule.

## .02 End of Day Processing

Members that clear transactions in NextShares directly at NSCC, e.g., via direct QSR submission, must ensure that they submit to NSCC all pricing information, including the IIV-based price on intraday submissions and the final NAV-based trade price after market close, in accordance with NSCC requirements; such information will not be provided to NSCC by FINRA.

Following publication of the NAV, the FINRA/Nasdaq Trade Reporting Facility will make available to market participants a daily file with the final NAV-based trade price for each transaction in NextShares reported during the trading day to the FINRA/Nasdaq Trade Reporting Facility for public dissemination purposes.

#### **(1) Member Compliance**

Members shall establish, maintain and enforce written policies and procedures that are reasonably designed to comply with the applicable quoting and trading requirements of the Plan.

#### **(2) FINRA Compliance**

FINRA systems will not display quotations in violation of the Plan and this Rule.

#### **(3) Pilot Securities That Drop Below \$1.00 during the Pilot Period**

If the price of a Pilot Security drops below \$1.00 during regular trading hours on any trading day, such Pilot Security will continue to be subject to the Plan and the requirements enumerated in subparagraphs (4) through (6) below and will continue to trade in accordance with such Rules. However, if the Closing Price of a Pilot Security on any given trading day is below \$1.00, such Pilot Security will be moved out of its Pilot Test Group into the Control Group, and may then be quoted and traded at any price increment that is currently permitted for the remainder of the Pilot Period. Notwithstanding anything contained herein to the contrary, at all times during the Pilot Period, Pilot Securities (whether in the Control Group or any Pilot Test Group) will continue to be subject to the requirements contained in Paragraph (b).

#### **(4) Pilot Securities in Test Group One**

No member may display, rank, or accept from any person any displayable or nondisplayable bids or offers, orders, or indications of interest in any Pilot Security in Test Group One in increments other than \$0.05. However, orders priced to execute at the midpoint of the national best bid and national best offer ("NBBO") or best protected bid and best protected offer ("PBBO") and orders entered in a Participant-operated retail liquidity program may be ranked and accepted in increments of less than \$0.05. Pilot Securities in Test Group One may continue to trade at any price increment that is currently permitted by applicable Participant, SEC and FINRA rules.

(i) Trading may occur at the midpoint between the NBBO or the PBBO;

(ii) Retail Investor Orders may be provided with price improvement that is at least \$0.005 better than the PBBO;

(iii) Negotiated Trades may trade in increments less than \$0.05; and

(iv) Executions of a customer order to comply with FINRA Rule 5320 following the execution of a proprietary trade by the member at an increment other than \$0.05, where such proprietary trade was permissible pursuant to an exception under the Plan.

#### **(6) Pilot Securities in Test Group Three**

(A) No member may display, rank, or accept from any person any displayable or non-displayable bids or offers, orders, or indications of interest in any Pilot Security in Test Group Three in increments other than \$0.05. (B) Absent any of the exceptions listed in subparagraph (6)(C) below, no member may execute orders in any Pilot Security in Test Group Three in price increments other than \$0.05. The \$0.05 trading increment will apply to all trades, including Brokered Cross Trades.

(C) Pilot Securities in Test Group Three may trade in increments less than \$0.05 under the following circumstances:

(i) Trading may occur at the midpoint between the NBBO or PBBO;

(iv) Executions of a customer order to comply with FINRA Rule 5320 following the execution of a proprietary trade by the member at an increment other than \$0.05, where such proprietary trade was permissible pursuant to an exception under the Plan.

(D) Pilot Securities in Test Group Three will be subject to the following Trade-at Prohibition:

(i) Absent any of the exceptions listed in subparagraph (D)(ii) below, no member that operates a Trading Center may execute a sell order for a Pilot Security in Test Group Three at the price of a Protected Bid or execute a buy order for a Pilot Security in Test Group Three at the price of a Protected Offer during regular trading hours ("Trade-at Prohibition"). Under the Trade-at Prohibition, a member that operates a Trading Center that is displaying a quotation, via either a processor or an SRO quotation feed, that is at a price equal to the traded-at Protected Bid or Protected Offer is permitted to execute orders at that level, but only up to the amount of its displayed size. A member that operates a Trading Center that was not displaying a quotation at a price equal to the traded-at Protected Quotation, via either a processor or an SRO quotation feed, is prohibited from price-matching protected quotations unless an exception applies;

(ii) A member that operates a Trading Center may execute a sell order for a Pilot Security in Test Group Three at the price of a Protected Bid or execute a buy order for a Pilot Security in Test Group Three at the price of a Protected Offer under the following circumstances:

- a. The order is executed within the same independent aggregation unit of the member that operates the Trading Center that displayed the quotation via either a processor or an SRO Quotation Feed, to the extent such member uses independent aggregation units, at a price equal to the traded-at Protected Quotation that was displayed before the order was received, but only up to the full displayed size of that independent aggregation unit's previously displayed quote. A Trading Center that is displaying a quotation as agent or riskless principal may only execute as agent or riskless principal and a Trading Center displaying a quotation as principal (excluding riskless principal) may execute as principal, agent or riskless principal. "Independent aggregation unit" has the same meaning as provided under Rule 200(f) of SEC Regulation SHO;
- b. The order is of Block Size at the time of origin and may not be:
  1. An aggregation of non-block orders; or
  2. Broken into orders smaller than Block Size prior to submitting the order to a Trading Center for execution.
- c. The order is a Retail Investor Order executed with at least \$0.005 price improvement;
- d. The order is executed when the Trading Center displaying the Protected Quotation that was traded at was experiencing a failure, material delay, or malfunction of its systems or equipment;
- e. The order is executed as part of a transaction that was not a "regular way" contract;
- f. The order is executed as part of a single-priced opening, reopening, or closing transaction by the Trading Center;
- g. The order is executed when a Protected Bid was priced higher than a Protected Offer in the Pilot Security;
- h. The order is identified as a Trade-at Intermarket Sweep Order;
- i. The order is executed by a Trading Center that simultaneously routed Trade-at Intermarket Sweep Orders or Intermarket Sweep Orders to execute against the full displayed size of a Protected Quotation that was traded at;
- j. The order is executed as part of a Negotiated Trade;
- k. The order is executed when the Trading Center displaying the Protected Quotation that was traded at had displayed, within one second prior to execution of the transaction that constituted the Trade-at, a Best Protected Bid or Best Protected Offer, as applicable, for the Pilot Security with a price that was inferior to the price of the Trade-at transaction;
- l. The order is executed by a Trading Center which, at the time of order receipt, the Trading Center had guaranteed an execution at no worse than a specified price (a "stopped order"), where:
  1. The stopped order was for the account of a customer;
  2. The customer agreed to the specified price on an order-by-order basis; and
  3. The price of the Trade-at transaction was, for a stopped buy order, equal to or less than the National Best Bid in the Pilot Security at the time of execution or, for a stopped sell order, equal to or greater than the National Best Offer in the Pilot Security at the time of execution, as long as such order is priced at an acceptable increment; or
- m. The order is for a fractional share of a Pilot Security, provided that such fractional share order was not the result of breaking an order for one or more whole shares of a Pilot Security into orders for fractional shares or was not otherwise effected to evade the requirements of the Trade-at Prohibition or any other provisions of the Plan; or

n. The order is to correct a bona fide error, which is recorded by the Trading Center in its error account. A bona fide error is defined as:

1. The inaccurate conveyance or execution of any term of an order including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market;
2. The unauthorized or unintended purchase, sale, or allocation of securities, or the failure to follow specific client instructions;
3. The incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or
4. A delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.

#### **• • • Supplementary Material: -----**

**.01** The terms used in this Rule 6191 shall have the same meaning as provided in the Plan, unless otherwise specified.

**.02** No member shall break an order into smaller orders or otherwise effect or execute an order to evade the requirements of the Trade-at Prohibition of this Rule or any other provisions of the Plan.

**.03** For purposes of the reporting requirement in Appendix B.II.(n), a Trading Center shall report "Y" when it is relying upon the Retail Investor Order exception to Test Groups Two and Three, and "N" in all other instances.

**.04** For purposes of Appendix B.I, the field "Affected by Limit-Up Limit-Down bands" shall be included. A Trading Center shall report a value of "Y" when the ability of an order to execute has been affected by the Limit-Up Limit-Down (LULD) bands in effect at the time of order receipt. A Trading Center shall report a value of "N" when the ability of an order to execute has not been affected by the LULD bands in effect at the time of order receipt. For purposes of Appendix B.I, the Participants shall classify all orders in Pilot and Pre-Pilot Securities that may trade in a foreign market as fully executed domestically or fully or partially executed on a foreign market. For purposes of Appendix B.II, the Participants shall classify all orders in Pilot and Pre-Pilot Securities that may trade in a foreign market as: directed to a domestic venue for execution; may only be directed to a foreign venue for execution; or fully or partially directed to a foreign venue at the discretion of the member.

**.05** (a) For purposes of Appendix B.I.a(14), B.I.a(15), B.I.a(21) and B.I.a(22), the time ranges shall be changed as follows:

(1) Appendix B.I.a(14A): The cumulative number of shares of orders executed from 100 microseconds to less than 1 millisecond after the time of order receipt;

(2) Appendix B.I.a(15): The cumulative number of shares of orders executed from 1 millisecond to less than 100 milliseconds after the time of order receipt;

(3) Appendix B.I.a(21A): The cumulative number of shares of orders canceled from 100 microseconds to less than 1 millisecond after the time of order receipt; and

(4) Appendix B.I.a(22): The cumulative number of shares of orders canceled from 1 millisecond to less than 100 milliseconds after the time of order receipt.

(b) For purposes of Appendix B.I.a(21) through B.I.a(27), unexecuted Immediate or Cancel orders shall be categorized separately irrespective of the duration of time after order receipt.

**.06** The requirement in Appendix B.I.a(33) relating to the share-weighted average BBO Spread also shall apply to a Trading Center that displays on the ADF.

**.07** For purposes of Appendix B.I.a(31)–(33), the relevant measurement is the time of order receipt.

**.08** For purposes of Appendix B.I.a(33), only a Trading Center that is displaying in its own name as a Trading Center when executing an order shall enter a value in this field.

**.09** For purposes of Appendix B, the following order types and numbers shall be included and assigned the following numbers: "not held" orders (18); clean cross orders (19); auction orders (20); orders that cannot otherwise be classified, including orders received when the NBBO is crossed (21); and limit orders priced more than \$0.10 away from the NBBO (22). For purposes of order types 12-14 in Appendix B, such order types shall include all orders and not solely "resting" orders.

**.10** A Member shall not be deemed a Trading Center for purposes of Appendix B of the Plan where that Member only executes orders otherwise than on a national securities exchange for the purpose of: (1) correcting a bona fide error related to the execution of a customer order; (2) purchasing a security from a customer at a nominal price solely for purposes of liquidating the customer's position; or (3) completing the fractional share portion of an order.

**.11** For purposes of Appendix B.IV, the count of the number of Market Makers used in the calculation of share (trade) participation shall be added to each category. For purposes of Appendix B.IV(b) and (c), share participation and trade participation shall be calculated by using a total count instead of a share-weighted average or a trade-weighted average. For purposes of Appendix B, B.IV(d) (cross-quote share (trade) participation), (e) (inside-the-quote share (trade) participation), (f) (at-the-quote share (trade) participation), and (g) (outside-the-quote share (trade) participation), shall be calculated by reference to the National Best Bid or National Best Offer in effect immediately prior to the trade.

**.12** A Trading Center shall begin the data collection required pursuant to Appendix B.I.a(1) through B.II.(y) to the Plan and Item I of Appendix C to the Plan on April 4, 2016. The requirement that FINRA provide information to the SEC within 30 days following month end pursuant to Appendix B and C to the Plan shall commence at the beginning of the Pilot Period. Notwithstanding the provisions of paragraphs (b)(2)(B) and (b)(3)(C) of this Rule, with respect to data for the Pre-Pilot Period and Pilot Period, the requirement that FINRA make Appendix B data publicly available on the FINRA website shall commence on August 31, 2017. Notwithstanding the provisions of paragraphs (b)(4)(B) of this Rule, FINRA shall make Appendix C data for the Pre-Pilot Period through January 2017 publicly available on the FINRA website by February 28, 2017.

**.13** For purposes of Item I of Appendix C, the Participants shall calculate daily Market Maker realized profitability statistics for each trading day on a daily last in, first out (LIFO) basis using reported trade price and shall include only trades executed on the subject trading day. The daily LIFO calculation shall not include any positions carried over from previous trading days. For purposes of Item I.c of Appendix C, the Participants shall calculate daily Market Maker unrealized profitability statistics for each trading day on an average price basis. Specifically, the Participants must calculate the volume weighted average price of the excess (deficit) of buy volume over sell volume for the current trading day using reported trade price. The gain (loss) of the excess (deficit) of buy volume over sell volume shall be determined by using the volume weighted average price compared to the closing price of the security as reported by the primary listing exchange. In calculating unrealized trading profits, the Participant also shall report the number of excess (deficit) shares held by the Market Maker, the volume weighted average price of that excess (deficit), and the closing price of the security as reported by the primary listing exchange used in reporting unrealized profit.

**.14** "Pre-Pilot Data Collection Securities" are the securities designated by the Participants for purposes of the data collection requirements described in Items I, II and IV of Appendix B and Item I of Appendix C to the Plan for the period beginning six months prior to the Pilot Period through thirty-one days prior to the Pilot Period. The Participants shall compile the list of Pre-Pilot Data Collection Securities by selecting all NMS stocks with a market capitalization of \$5 billion or less, a Consolidated Average Daily Volume (CADV) of 2 million shares or less and a closing price of \$1 per share or more. The market capitalization and the closing price thresholds shall be applied to the last day of the Pre-Pilot measurement period, and the CADV threshold shall be applied to the duration of the Pre-Pilot measurement period. The Pre-Pilot measurement period shall be the three calendar months ending on the day when the Pre-Pilot Data Collection Securities are selected. The Pre-Pilot Data Collection Securities shall be selected thirty days prior to the commencement of the six-month Pre-Pilot Period.

The groupings methodology will distinguish between alternative trading systems (“ATs”) and non-ATs, but no other details of the methodology used to formulate the groupings will be disclosed to maintain confidentiality of the published data. ## 6250. Quote and Order Access Requirements

(a) For each security in which an ADF Trading Center displays a bid and offer (for Registered Reporting ADF Market Makers), or a bid or offer (for Registered Reporting ADF ECNs), in the ADF, it must:

(1) Provide other ADF Trading Centers direct electronic access, as defined below;

(2) Provide registered broker-dealers that are not ADF Trading Centers direct electronic access and allow for indirect electronic access, as defined below. In any event, an ADF Trading Center is prohibited from: (A) in any way directly or indirectly influencing or prescribing the prices that its customer broker-dealer may choose to impose for providing indirect access; and (B) precluding or discouraging indirect electronic access, including through the imposition of discriminatory pricing or quality of service with regard to a broker-dealer that is providing indirect electronic access;

(3) Provide a level and cost of access to its quotations in an NMS stock displayed in the ADF that is substantially equivalent to the level and cost of access to quotations displayed by SRO trading facilities in that NMS stock;

(4) Demonstrate that it has sufficient technology to automatically update its quotations and immediately respond to orders for execution directly against the individual ADF Trading Center's best bid or offer;

(5) Ensure that it does not impose unfairly discriminatory terms that prevent or inhibit any person, through a registered broker-dealer, from obtaining efficient access to such quotations;

(6) Provide at least 14 calendar days advance written notice, via facsimile, personal delivery, courier or overnight mail, to FINRA Market Operations before denying any registered broker-dealer direct electronic access as defined below. The notice provided hereunder must be based on the good faith belief of an ADF Trading Center that such denial of access is appropriate and does not violate any of the ADF Trading Center's obligations under FINRA rules or the federal securities laws. Further, any notification or publication of an ADF Trading Center's intent to deny access will have no bearing on the merits of any claim between the ADF Trading Center and any affected registered broker-dealer, nor will it insulate the ADF Trading Center from liability for violations of FINRA rules or the federal securities laws, such as Rule 602 of SEC Regulation NMS. The 14-day period begins on the first business day that FINRA Market Operations has receipt of the notice; and

(7) Comply with the minimum performance standards set forth in paragraph (e) of this Rule and the terms agreed to in the Certification Record.

(b) ADF Trading Centers are required to specify as part of their Certification Record the method and terms by which they will comply with the requirements of this Rule. FINRA will not allow an ADF Trading Center to display quotations in the ADF unless the method and terms provided by the ADF Trading Center are in compliance with this Rule and applicable provisions of SEC Regulation NMS. Acceptance by FINRA of an ADF Trading Center's Certification Record does not relieve an ADF Trading Center of any of its on-going obligations. Moreover, FINRA's acceptance of such Certification Record, shall not constitute an estoppel as to FINRA or bind FINRA in any subsequent administrative, civil or disciplinary proceeding.

### (c) Definitions

(1) "Direct electronic access" means the ability to deliver an order for execution directly against an individual ADF Trading Center's best bid or offer subject to applicable FINRA rules and the federal securities laws, including SEC Regulation NMS. As described herein, ADF Trading Centers must provide direct electronic access, in conformity with this Rule, through the use of a communications service(s) that is deemed to be sufficient by FINRA.

(2) "Indirect electronic access" means the ability to route an order through a FINRA member, subscriber broker-dealer, or customer broker-dealer of an ADF Trading Center that are not an affiliate of the ADF Trading Center, for execution against the ADF Trading Center's best bid or offer subject to applicable FINRA rules and the federal securities laws, including SEC Regulation NMS. An ADF Trading Center shall not impose unfairly discriminatory terms that prevent or inhibit any person from obtaining efficient access to such quotation through a FINRA member, subscriber broker-dealer, or customer broker-dealer. A FINRA member that is providing indirect electronic access shall remain responsible for orders routed through it as though the orders were the firm's own orders.

### (d) Minimum Performance Standards

(1) ADF Trading Centers must submit "Automated Quotations" as defined in Rule 600(b)(6) of SEC Regulation NMS to the ADF for posting. "Manual Quotations," as defined in Rule 600(b)(45) of SEC Regulation NMS, shall not be submitted to the ADF. As a precondition to becoming an ADF Trading Center, an ADF Trading Center must, among other things, certify to FINRA their compliance with this paragraph based on reasonable forecasts of peak volume activity and the establishment of policies and procedures to ensure only "Automated Quotations," as defined in Rule 600(b)(6) of SEC Regulation NMS, are submitted to the ADF.

(2) In the event that an ADF Trading Center experiences three unexcused system outages during a period of five business days, the ADF Trading Center may be suspended from quoting in the ADF in all or certain issues for a period of 20 business days. With respect to an ADF Trading Center, a "system outage" shall mean an inability to post "Automated Quotations," as defined by Rule 600(b)(6) of SEC Regulation NMS, in the ADF or an inability to immediately and automatically respond to orders.

(3) Officers of FINRA designated by the Chief Executive Officer of FINRA shall, pursuant to the procedures set forth in paragraph (e) of this Rule, have the authority to review any system outage to determine whether the system outage should be excused. An officer may deem a system outage excused upon proof by the ADF Trading Center that the system outage resulted from circumstances not within the control of the ADF Trading Center. The burden shall rest with the ADF Trading Center to demonstrate that a system outage should be excused.

(4) An ADF Trading Center may contact FINRA Product Management and request that a system outage be deemed excused, whether or not the system outage resulted from circumstances within the control of the ADF Trading Center; however, if FINRA Product Management becomes aware of the system outage prior to the ADF Trading Center's request for an excused system outage, FINRA Product Management may, at its own discretion, deem the system outage to be unexcused, based on the specific facts and circumstances surrounding the outage.

#### **(e) Procedures for Reviewing System Outages**

(1) Any ADF Trading Center that seeks to have a system outage reviewed pursuant to paragraph (d)(3) of this Rule, shall submit a written request, via facsimile, e-mail, personal delivery, courier or overnight mail to FINRA Product Management by close of the business day on which the system outage occurs, or the following business day if the system outage occurs outside of normal market hours.

(2) An ADF Trading Center that seeks review of a system outage shall supply any supporting information for a determination under paragraph (f)(d) to FINRA staff by the close of business on the day following the system outage.

(3) An ADF Trading Center that seeks review of a system outage shall supply FINRA staff with any information requested to make a determination pursuant to paragraph (d)(3).

(4) An officer shall, in accordance with paragraph (d)(3), make a determination whether a system outage is excused by the close of business on the day following the receipt of information supplied pursuant to paragraphs (e)(2) and (e)(3).

(5) An ADF Trading Center may appeal a determination made under paragraph (d)(3) to a three-member subcommittee comprised of current or former industry members of FINRA's Market Regulation Committee in writing, via facsimile or otherwise, by the close of business on the day a determination is rendered pursuant to paragraph (d)(3). An appeal to the subcommittee shall operate as a stay of the determination made pursuant to paragraph (d)(3). Once a written appeal has been received, the ADF Trading Center may submit any additional supporting written documentation, via facsimile or otherwise, up until the time the appeal is considered by the subcommittee. The subcommittee shall render a determination by the close of business following the day a notice of appeal is received. The subcommittee's determination shall be final and binding.

#### **(f) Inactive Quoting**

In order to maintain ADF certification, Registered Reporting ADF ECNs must post at least one marketable quote/order through the ADF on each side of the market every 30 calendar days. A quote/order that is posted through the ADF will be presumptively a marketable quote/order if such quote/order is accessed (i.e., traded against) by another trading center or market participant (other than a subscriber of the Registered Reporting ADF ECN). A Registered Reporting ADF ECN that fails to post at least one marketable quote/order through the ADF on each side of the market every 30 calendar days, shall lose its ADF certification at the sole discretion of FINRA staff. Registered Reporting ADF ECNs seeking to regain ADF certification shall be required to recertify pursuant to this Rule 6250.

## 6260. Review of Direct or Indirect Access Complaints

### **(a) Authority to Receive Complaints**

(1) For the purposes of this Rule, a "direct or indirect access complaint" is a complaint against an ADF Trading Center, as defined in Rule 6220, that alleges a denial or limitation of access in contravention of Rule 6250 or the federal securities laws.

(2) Any registered broker-dealer that wishes to file a direct or indirect access complaint shall submit a written complaint stating the pertinent facts that constitute the grounds for such complaint, via facsimile, e-mail, personal delivery, courier or overnight mail, to FINRA Market Operations and simultaneously serve by the same means the ADF Trading Center in accordance with Rule 9134(b). Officers of FINRA designated by the Chief Executive Officer of FINRA shall have the authority to review and make a determination regarding direct or indirect access complaints.

(3) Based upon a review of the complaint and such investigation that the officer, in his or her sole discretion, may decide to conduct, the officer shall promptly determine whether there has been a denial of access by the ADF Trading Center. If the officer determines that there has been a denial of access in contravention of Rule 6250 or the federal securities laws, the officer shall direct the ADF Trading Center to provide access to its ADF quotes and may limit participation in the ADF by such party if it does not comply promptly with the directive, including the withdrawal of the ADF Trading Center's quotations from the ADF until access is provided. FINRA shall provide to the parties written notification of the determination by the close of business following the day the determination is rendered. The determination shall be sent to the facsimile number listed in the parties' contact questionnaire submitted to FINRA pursuant to Article IV, Section 3 of the FINRA By-Laws or another contact specifically designated by a party. The determination, and any directive to provide access or action to limit participation in the ADF, shall be effective when issued or as specified, and shall remain in effect during any review or appeal. The determination shall not constitute an estoppel as to FINRA nor bind FINRA in any subsequent administrative, civil, or disciplinary proceeding.

### **(b) Procedures for Review of Determinations**

(1) Any registered broker-dealer, including an ADF Trading Center, that seeks review of a determination issued pursuant to paragraph (a) hereof, shall submit a written appeal setting forth the grounds for such review. The written appeal shall be submitted via facsimile, e-mail, personal delivery, courier or overnight mail, to FINRA and served by the same means on the opposite party, in accordance with Rule 9134(b), by close of the next business day after receipt of the written determination. Written appeals that are not served upon FINRA and the opposite party by the close of the next business day after receipt of the written determination will not qualify for further administrative consideration, without prejudice as to the rights of a party to submit the dispute to arbitration or another adjudicatory forum.

(2) Once a written appeal has been received in accordance with paragraph (b)(1) above:

(A) the party seeking review shall have up to twenty-four (24) hours, or such longer period as specified by FINRA staff, to submit to FINRA and the opposite party via facsimile, personal delivery, courier or overnight mail, any supporting written information concerning the appeal;

(B) after receipt of the foregoing supporting written information, the party served with the appeal shall have up to twenty-four (24) hours, or such longer period as specified by FINRA staff, to submit any relevant written information to FINRA and the party seeking review via facsimile, personal delivery, courier or overnight mail;

(C) if the party seeking review fails to serve the opposite party any written information required pursuant to this subparagraph, that party's written complaint will not qualify for further administrative consideration, without prejudice as to the rights of a party to submit the dispute to arbitration or another adjudicatory forum.

(3) Each registered broker-dealer and/or person associated with a registered broker-dealer involved in the review shall provide FINRA with any information that it requests to resolve the matter on a timely basis notwithstanding the time parameters set forth in paragraph (b) (2) above. If a registered broker-dealer does not provide such requested information in a timely manner, FINRA may, in its discretion, consider the matter based upon the information provided. Moreover, if the registered broker-dealer and/or person associated with a registered broker-dealer is a member or person associated with a member, failure to provide requested information can constitute a violation of FINRA rules.

(4) All requests for information pursuant to this Rule shall be sent by the specified means to a receiving location that, from time to time, may be designated by FINRA.

### **(c) Review by a Subcommittee of the Market Regulation Committee**

(1) If a party has applied for review of a determination, and the procedural requirements of paragraph (b) above have been satisfied, the determination shall be reviewed and a decision rendered by a three-member subcommittee comprised of current or former industry

members of FINRA's Market Regulation Committee. Upon consideration of the record, and after such hearings as it may in its discretion order, the subcommittee, in accordance with the requirements set forth in Rule 6250, shall affirm or reverse the determination of the FINRA officer pursuant to paragraph (a)(3) above.

(2) The subcommittee shall provide written notification of its determination to the parties by the close of business following the day the determination is rendered. The subcommittee's determination shall not prejudice the rights of a party to submit the dispute to arbitration or another adjudicatory forum. The subcommittee's determination, including affirmation of any directive or action rendered in accordance with paragraph (a)(3), shall be effective when issued or as specified, constitute final FINRA action, and remain in effect during any review or appeal. The subcommittee's determination shall not constitute an estoppel as to FINRA nor bind FINRA in any subsequent administrative, civil, or disciplinary proceeding.

## 6271. Registration as an ADF Market Maker or ADF ECN

(a) A member seeking registration as an ADF Market Participant shall:

(1) file an application with FINRA in which the member:

- (A) specifies whether the member is seeking registration in Nasdaq and/or CQS securities;
- (B) certifies the member's good standing with FINRA;
- (C) demonstrates compliance with the net capital and other financial responsibility provisions of the Exchange Act;
- (D) agrees that failing to submit quotes and report trades in NMS stocks to the ADF during the two-year term will result in the forfeiture of some or all of the ADF Deposit Amount pursuant to the ADF Deposit Terms;
- (E) agrees that failing to submit 75% of the ADF Market Participant's quoting and trading volume to the ADF will result in the forfeiture of some or all of the ADF Deposit Amount pursuant to the ADF Deposit Terms;
- (F) provides FINRA with reasonable monthly projections of the volume of data that the member anticipates submitting to the ADF;
- (G) agrees to submit the ADF Deposit Amount in five equal installments into an escrow account at a bank mutually acceptable to the member and FINRA on a timetable as agreed to by the member and FINRA; and
- (H) agrees to the ADF Deposit Terms; and

(2) execute the Certification Record, as defined in Rule 6220; and

(3) execute a Participant Agreement with FINRA at least six months (or such other shorter time period as may be designated by FINRA) prior to quoting or reporting trades on the ADF.

(b) A member's registration as an ADF Market Participant shall not become effective until:

(1) the member has received a notice of approval from FINRA in the designated security types specified in the member's application pursuant to paragraph (a)(1)(A);

(2) the member has executed the Certification Record pursuant to paragraph (a)(2); and

(3) FINRA and the member have executed:

- (A) the application pursuant to paragraph (a)(1); and
- (B) the Participant Agreement pursuant to paragraph (a)(3).

(c) ADF Deposit Amount and ADF Deposit Terms

For purposes of this Rule:

(1) the "ADF Deposit Amount" shall be \$250,000; provided, however, that the ADF Deposit Amount shall be \$500,000 if the member:

- (A) requests that FINRA accelerate the ADF migration onto FINRA's Multi Product Platform; or
- (B) begins quoting on or reporting trades to the ADF within 90 calendar days after an ADF Market Participant that requested acceleration of the ADF migration begins quoting on or reporting trades to the ADF.

(2) the "ADF Deposit Terms" shall include the following, subject to any de minimis additions or qualifications in such terms to which FINRA and the member agree:

- (A) One-fifth of the ADF Deposit Amount shall be released to FINRA if, in any calendar month beginning with the fourth calendar month following certification of the ADF Market Participant to quote on or report trades to the ADF, the ADF Market Participant fails to submit 75% of the member's quoting and trading activity to the ADF as agreed to by the member and FINRA pursuant to paragraph (a)(1)(E) above.

(B) For every \$1.00 received by FINRA from the National Market System Securities Information Processor data plans associated with ADF trade report activity that is attributable, in FINRA's sole discretion, to the member's trading activity on the ADF, the member shall receive \$0.50 out of the escrow account established pursuant to paragraph (a)(1)(G) above. Any such amount due to the member shall be paid to the member on a quarterly basis after FINRA has received its quarterly disbursement from the data plans; provided that the member shall only be entitled to receive up to four-fifths of the ADF Deposit Amount pursuant to this provision until the end of the two-year term agreed to pursuant to paragraph (a)(1)(D) above. At the end of the two-year term agreed to pursuant to paragraph (a)(1)(D) above, the member will be entitled to that portion of the remaining one-fifth of the ADF Deposit Amount on the same basis as the original four-fifths.

(C) If a member is sold, goes out of business, otherwise does not meet its obligations, or fails to complete the process for becoming an ADF Market Participant, the member will forfeit the ADF Deposit Amount, or any lesser amount remaining in the escrow account established pursuant to paragraph (a)(1)(G) above, and all funds will be released from such escrow account to FINRA; provided, that the member will not forfeit the ADF Deposit Amount if the member is sold to an entity that would meet the qualifications as an ADF Market Participant and agrees to be bound by the ADF Deposit Terms. If an amount less than the ADF Deposit Amount has been placed into the escrow account established pursuant to paragraph (a)(1)(G) above, the member shall pay FINRA any difference between that amount and the ADF Deposit Amount, if necessary.

(D) If FINRA fails to make the ADF available for a member within nine months of the date of the member's first deposit into the escrow account established pursuant to paragraph (a)(1)(G) above, one-fifth of the ADF Deposit Amount will be released from such escrow account to the member. An additional one-fifth of the ADF Deposit Amount, or any lesser amount remaining in such escrow account, will be released to the member every month thereafter if FINRA fails to make the ADF available for the member until all funds have been released from such escrow account.

## 6272. Character of Quotations

### **(a) Quotation Requirements and Obligations**

A member registered as a Registered Reporting ADF Market Maker shall engage in a course of dealings for its own account to assist in the maintenance, insofar as reasonably practicable, of fair and orderly markets in accordance with this Rule.

#### **(1) Two-Sided Quote Obligation.**

For each ADF-eligible security for which a member is a Registered Reporting ADF Market Maker, the member shall be willing to buy and sell such security for its own account on a continuous basis during regular market hours and shall enter and maintain a two-sided trading interest ("Two-Sided Obligation"), subject to the procedures for excused withdrawal set forth in Rule 6275.

Interest eligible to be considered as part of the Registered Reporting ADF Market Maker's Two-Sided Obligation shall have a displayed quotation size of at least one normal unit of trading (or a larger multiple thereof); provided, however, that a Registered Reporting ADF Market Maker may augment its Two-Sided Obligation size to display limit orders priced at the same price as the Two-Sided Obligation. Unless otherwise designated, a "normal unit of trading" shall be 100 shares. After an execution against its Two-Sided Obligation, a Registered Reporting ADF Market Maker must ensure that additional trading interest exists to satisfy its Two-Sided Obligation either by immediately entering new interest to comply with this obligation to maintain continuous two-sided quotations or by identifying existing interest on the ADF that will satisfy this obligation.

#### **(2) Pricing Obligations for Registered Reporting ADF Market Makers.**

For ADF-eligible securities, a Registered Reporting ADF Market Maker shall adhere to the pricing obligations established by this Rule during the trading day; provided, however, that such pricing obligations (i) shall not commence during any trading day until after the first regular way transaction on the primary listing market in the security, as reported by the responsible single plan processor, and (ii) shall be suspended during a trading halt, suspension, or pause, and shall not recommence until after the first regular way transaction in the primary listing market in the security following such halt, suspension, or pause, as reported by the responsible single plan processor, except as permitted under the Regulation NMS Plan to Address Extraordinary Market Volatility.

#### **(A) Bid Quotations.**

At the time of entry of bid interest satisfying the Two-Sided Obligation, the price of the bid interest shall be not more than the Designated Percentage away from the then current National Best Bid, or if no National Best Bid, not more than the Designated Percentage away from the last reported sale from the responsible single plan processor. In the event that the National Best Bid (or if no National Best Bid, the last reported sale) increases to a level that would cause the bid interest of the Two-Sided Obligation to be more than the Defined Limit away from the National Best Bid (or if no National Best Bid, the last reported sale), or if the bid is executed or cancelled, the Registered Reporting ADF Market Maker shall enter new bid interest at a price not more than the Designated Percentage away from the then current National Best Bid (or if no National Best Bid, the last reported sale), or identify to FINRA current resting interest that satisfies the Two-Sided Obligation.

#### **(B) Offer Quotations.**

At the time of entry of offer interest satisfying the Two-Sided Obligation, the price of the offer interest shall be not more than the Designated Percentage away from the then current National Best Offer, or if no National Best Offer, not more than the Designated Percentage away from the last reported sale from the responsible single plan processor. In the event that the National Best Offer (or if no National Best Offer, the last reported sale) increases to a level that would cause the offer interest of the Two-Sided Obligation to be more than the Defined Limit away from the National Best Offer (or if no National Best Offer, the last reported sale), or if the bid is executed or cancelled, the Registered Reporting ADF Market Maker shall enter new offer interest at a price not more than the Designated Percentage away from the then current National Best Offer (or if no National Best Offer, the last reported sale), or identify to FINRA current resting interest that satisfies the Two-Sided Obligation.

#### **(3) Quotations Closer to the National Best Bid or Offer.**

Nothing in this Rule shall preclude a Registered Reporting ADF Market Maker from quoting at price levels that are closer to the National Best Bid and Offer than the levels required by this Rule.

#### **(4) Definitions.**

For purposes of this Rule:

(A) the "Defined Limit" shall be:

(i) 9.5% for Designated Stocks (except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Defined Limit for Designated Stocks shall be 21.5%);

(ii) 29.5% for Other NMS Stocks with a price equal to or greater than \$1; and

(iii) 31.5% for Other NMS Stocks with a price less than \$1.

(B) the "Designated Percentage" shall be:

(i) 8% for Designated Stocks (except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Designated Percentage for Designated Stocks shall be 20%);

(ii) 28% for Other NMS Stocks with a price equal to or greater than \$1; and

(iii) 30% for Other NMS Stocks with a price less than \$1.

(C) the term "Designated Stock" shall mean an ADF-eligible security that is included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products;

(D) the term "Other NMS Stock" shall mean any ADF-eligible security that is not a Designated Stock; and

(E) the determination of the price of a stock shall be based on the closing price on the previous trading day, or, if no closing price exists, the last sale reported to the Consolidated Tape on the previous trading day.

#### **(b) Minimum Price Variation for Quotations**

The minimum quotation increment for quotations of \$1.00 or above in all ADF-eligible securities shall be \$0.01. The minimum quotation increment for quotations below \$1.00 in all ADF-eligible securities shall be \$0.0001. Quotations failing to meet this standard shall be rejected.

#### **(c) Firm Quotations**

(1) Consistent with Rule 602(b)(2) of SEC Regulation NMS, an ADF Trading Center that receives an offer to buy or sell from another broker-dealer shall execute a transaction for at least a normal unit of trading at its displayed quotations as disseminated through the ADF at the time of receipt of any such offer. If an ADF Trading Center displays a quotation for a size greater than a normal unit of trading, it shall, upon receipt of an offer to buy or sell from another broker-dealer, execute a transaction at least at the size displayed.

(2) If an ADF Trading Center, upon receipt of an offer to buy or sell from another broker-dealer in any amount that is at least one normal unit of trading greater than its published quotation size as disseminated through the ADF at the time of receipt of any such offer, executes a transaction in an amount of shares less than the size of the offer, then such ADF Trading Center shall, immediately after such execution, display a revised quotation at a price that is inferior to its previous published quotation. The failure of an ADF Trading Center to execute the offer in an amount greater than its published quotation size shall not constitute a violation of paragraph (c)(1) of this Rule.

(d) Quotations and quotation sizes in ADF-eligible securities may be entered into the ADF only by a Registered Reporting ADF Market Maker or Registered Reporting ADF ECN or other entity approved by FINRA to function in such a capacity. The ADF's protected quotation will be identified by FINRA based upon price, size and time priority.

## 6275. Withdrawal of Quotations

(a) An ADF Trading Center that wishes to withdraw quotations in a security, other than instances when an ADF Trading Center is unable to submit automated quotations to the ADF, shall contact ADF Operations to obtain excused withdrawal status prior to withdrawing its quotations. If an ADF Trading Center cannot submit automated quotations or is unable to immediately and automatically respond to orders, as required by [Rule 6250\(c\)](#), the ADF Trading Center must immediately withdraw its quotations and promptly contact ADF Operations. An excused withdrawal of quotations may be granted by ADF Operations upon satisfying one of the conditions specified in this Rule.

(b) Excused withdrawal status based on circumstances beyond the ADF Trading Center's control may be granted for up to five business days, unless extended by ADF Operations. Excused withdrawal status based on demonstrated legal or regulatory requirements, supported by appropriate documentation and accompanied by a representation that the condition necessitating the withdrawal of quotations is not permanent in nature, may, upon notification, be granted for not more than 60 days (unless such request is required to be made pursuant to paragraph (d) of this Rule). Excused withdrawal status based on religious holidays may be granted only if notice is received by FINRA one business day in advance and is approved by FINRA. Excused withdrawal status based on vacation may be granted only if:

- (1) the request for withdrawal is received by FINRA one business day in advance, and is approved by FINRA; and
- (2) the request includes a list of the securities for which withdrawal is requested.

(c) Excused withdrawal status may be granted to a Registered Reporting ADF Market Maker that has withdrawn from an issue prior to the public announcement of a merger or acquisition and wishes to re-register in the issue pursuant to the same-day registration procedures contained in [Rule 6271](#), above, provided the Registered Reporting ADF Market Maker has remained registered in one of the affected issues. The withdrawal of quotations because of pending news, a sudden influx of orders or price changes, or to effect transactions with competitors shall not constitute acceptable reasons for granting excused withdrawal status.

(d) Excused withdrawal status may be granted by ADF Operations to an ADF Trading Center that experiences a documented problem or failure impacting the operation or utilization of any automated system operated by or on behalf of the ADF Trading Center (chronic system failures within the control of the member will not constitute a problem or failure impacting a firm's automated system).

(e) Excused withdrawal status may be granted by ADF Operations to an ADF Trading Center that fails to maintain a clearing arrangement with a registered clearing agency or with a member of such an agency, thereby terminating its registration as an ADF Trading Center; provided however, that if FINRA finds that the ADF Trading Center's failure to maintain a clearing arrangement is voluntary, the withdrawal of quotations will be considered voluntary and unexcused pursuant to [Rule 6276](#).

(f) Excused withdrawal status may be granted by ADF Operations to a Registered Reporting ADF Market Maker that is a distribution participant, affiliated purchaser, selling security holder or issuer of a distribution of a security that is a covered security subject to a restricted period under Rule 101 or 102 of SEC Regulation M on the following conditions:

(1) Such Registered Reporting ADF Market Maker shall, unless another member has assumed responsibility in writing for compliance with this Rule, provide a written request to FINRA, in such form as specified by FINRA, to withdraw the Registered Reporting ADF Market Maker's quotations, no later than the business day prior to the first complete trading session of the one-day or five-day restricted period under Rule 101 or 102 of SEC Regulation M, unless later notification is necessary under the specific circumstances.

(2) Such Registered Reporting ADF Market Maker shall submit a written request to FINRA, in such form as specified by FINRA, to rescind the Registered Reporting ADF Market Maker's excused withdrawal status, which request shall include the date and time of the pricing of the offering and the offering price, no later than the close of business the next business day following the pricing of the distribution.

(g) A three-member subcommittee comprised of current or former industry members of FINRA's Market Regulation Committee shall have jurisdiction over proceedings brought by market makers seeking review of a denial of an excused withdrawal pursuant to this Rule, or the conditions imposed on their reentry.

.01 If FINRA finds that an ADF Market Maker's failure to maintain a clearing arrangement pursuant to [Rule 7120](#) is voluntary, the withdrawal of quotations will be considered voluntary and unexcused under this Rule.

## 6276. Voluntary Termination of Registration

A Registered Reporting ADF Market Maker may voluntarily terminate its registration in a security by (1) withdrawing its quotations from the Alternative Display Facility and not re-entering its quotations for five (5) minutes, or (2) failing to re-enter quotations within thirty (30) minutes of the end of a trading halt. A Registered Reporting ADF Market Maker that voluntarily terminates its registration in a security may not re-register as a market maker in that security for twenty (20) business days, absent an excused withdrawal specified in Rule 6275. Withdrawal from participation as a Registered Reporting ADF Market Maker in the Alternative Display Facility shall constitute termination of registration as a market maker in that security for purposes of this Rule; provided, however, that a Registered Reporting ADF Market Maker that fails to maintain a clearing arrangement with a registered clearing agency or with a member of such an agency and thereby terminates its registration as a market maker in Nasdaq securities may register as a market maker at any time after a clearing arrangement has been reestablished.

## 6279. Alternative Trading Systems

(a) FINRA may provide a means to permit alternative trading systems ("ATSs"), as such term is defined in Regulation ATS, and electronic communications networks ("ECNs"), as such term is defined in Rule 600(b)(31) of SEC Regulation NMS, to comply with the display requirements of Rule 301(b)(3) of SEC Regulation ATS and the terms of the ECN display alternative provided for in Rule 602(b)(5)(ii)(A) and (B) of SEC Regulation NMS ("ECN display alternatives"). FINRA will not facilitate compliance with access requirements, which are the responsibility of ADF Trading Centers under Rule 6250.

(b) An ATS or ECN that seeks to use FINRA-provided means to comply with Rule 301(b)(3) of SEC Regulation ATS and/or the ECN display alternatives, or to provide orders to the ADF voluntarily shall:

(1) demonstrate to FINRA that it is in compliance with Regulation ATS or that it qualifies as an ECN meeting the definition in the SEC Regulation NMS;

(2) be registered as a FINRA member;

(3) agree to provide for FINRA's dissemination in the quotation data made available to quotation vendors the prices and sizes of FINRA Registered Market Maker orders (and orders from other subscribers of the ATS or ECN, if the ATS or ECN so chooses or is required by Rule 301(b)(3) of SEC Regulation ATS to display a subscriber's order in the ADF), at the highest buy price and the lowest sell price for each ADF-eligible security entered in and disseminated by the ATS or ECN; and prior to entering such prices and sizes, register with FINRA Market Operations as a Registered Reporting ADF ECN; and

(4) comply with Rule 6250.

(c) When a FINRA member attempts to access electronically an ATS or ECN-displayed order by sending an order that is larger than the ATS' or ECN's ADF-displayed size and the ATS or ECN is displaying the order on a reserved size basis, the FINRA member that operates the ATS or ECN shall execute such delivered order:

(1) up to the size of the delivered order, if the ATS or ECN order (including the reserved size and displayed portions) is the same size or larger than the delivered order; or

(2) up to the size of the ATS or ECN order (including the reserved size and displayed portions), if the delivered order is the same size or larger than the ATS or ECN order (including the reserved size and displayed portions).

No Registered Reporting ADF ECN operating through the ADF pursuant to this Rule is permitted to provide a reserved-size function unless the size of the order displayed through the ADF is 100 shares or greater. For purposes of this Rule, the term "reserved size" shall mean that a customer entering an order into an ATS or ECN has authorized the ATS or ECN to display publicly part of the full size of the customer's order with the remainder held in reserve on an undisplayed basis to be displayed in whole or in part as the displayed part is executed.

## 6282. Transactions Reported by Members to the ADF

### (a) When and How Transactions are Reported

#### (1) Transaction Reporting During Normal Market Hours

Members shall, as soon as practicable but no later than 10 seconds after execution, transmit to the ADF, or if the ADF is unavailable due to system or transmission failure, by telephone, facsimile or e-mail to FINRA Market Operations, last sale reports of transactions in ADF-eligible securities executed between 9:30 a.m. and 4:00 p.m. Eastern Time otherwise than on an exchange. Transactions not reported within 10 seconds after execution shall be designated as late.

#### (2) Transaction Reporting Outside Normal Market Hours

(A) Last sale reports of transactions in ADF-eligible securities executed between 8:00 a.m. and 9:30 a.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(B) Last sale reports of transactions in ADF-eligible securities executed between 4:00 p.m. and 6:30 p.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(C) Last sale reports of transactions in ADF-eligible securities executed between midnight and 8:00 a.m. Eastern Time shall be reported by 8:15 a.m. Eastern Time on trade date and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(D) Last sale reports of transactions in ADF-eligible securities executed (i) between 6:30 p.m. and midnight Eastern Time or (ii) on any non-business day (i.e., weekend or holiday) shall be reported the following business day by 8:15 a.m. Eastern Time, be designated "as/of" trades to denote their execution on a prior day and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

#### (3) All Trade Tickets Must be Time-Stamped

Members shall time-stamp all trade tickets at the time of execution for transactions in ADF-eligible securities. Execution time shall be reported to FINRA on all last sale reports and shall be expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included on the report.

#### (4) Other Modifiers Required to be Reported

Reporting Members also shall append the applicable trade report modifiers as specified by FINRA to all last sale reports, including reports of "as/of" trades:

(A) if the trade is executed during normal market hours and it is reported later than 10 seconds after execution;

(B) if the trade is a Seller's Option Trade, denoting the number of days for delivery;

(C) if the trade is a Cash Trade;

(D) Reserved;

(E) if the trade occurs at a price based on an average weighting or another special pricing formula;

(F) if the trade is a Stop Stock Transaction (as defined in [Rule 6220](#)) (Note: the transaction report shall include both the time of execution of the trade and the time at which the member and the other party agreed to the Stop Stock Price; if the Stop Stock Transaction is executed and reported within 10 seconds of the time the member and the other party agree to the Stop Stock Price, the designated modifier shall not be appended and only the time of execution of the trade shall be reported);

(G) if the transaction report reflects a price different from the current market when the execution price is based on a prior reference point in time (Note: the transaction report shall include both the time of execution of the trade and the prior reference time; if the trade is executed and reported within 10 seconds from the prior reference point in time, the designated modifier shall not be appended and only the time of execution of the trade shall be reported);

(H) to identify pre-opening and after-hours trades (executed between 8:00 a.m. and 9:30 a.m. Eastern Time or between 4:00 p.m. and 6:30 p.m. Eastern Time) reported more than 10 seconds after execution;

(I) if the trade would be a trade-through of a protected quotation, but for the trade being qualified for an exception or exemption from Rule 611 of SEC Regulation NMS (Note: to ensure consistency in the usage of Rule 611 of SEC Regulation NMS related modifiers by registered broker-dealers, this modifier will be used in conformity with the specifications approved by the Operating Committee of the relevant National Market System Plans to identify trades executed pursuant to an exception or exemption from Rule 611 of SEC Regulation NMS);

(J) if the trade would be a trade-through of a protected quotation, but for the trade being qualified for an exception or exemption from Rule 611 of SEC Regulation NMS, members must, in addition to the modifier required in subparagraph (I) above, append an appropriate unique modifier, specified by FINRA, that identifies the specific applicable exception or exemption from Rule 611 of SEC Regulation NMS that a member is relying upon (Note: to ensure consistency in the usage of Rule 611 of SEC Regulation NMS related modifiers by registered broker-dealers, these modifiers will be used in conformity with the specifications approved by the Operating Committee of the relevant National Market System Plans to identify trades executed pursuant to an exception or exemption from Rule 611 of SEC Regulation NMS); and

(K) any other modifier as specified by FINRA or the SEC.

To the extent that any of the modifiers required by this Rule conflict, FINRA shall provide guidance regarding the priorities among modifiers and members shall report in accordance with such guidance, as applicable.

(5) The ADF will append the appropriate modifier to indicate that a trade was executed outside normal market hours or that a report was submitted late to the ADF, where such report contains the time of execution, but does not contain the appropriate modifier.

(6) To identify pre-opening and after-hours trades reported late, the ADF will convert to the late modifier, as applicable, on any pre-opening or after-hours report submitted to the ADF more than 10 seconds after execution.

#### **(7) Form T Reporting Obligations**

All members shall report as soon as practicable to the Market Regulation Department on Form T, last sale reports of transactions in ADF-eligible securities for which electronic submission to the ADF is not possible (e.g., the ticker symbol for the security is no longer available or a market participant identifier is no longer active). Transactions that can be reported to the ADF, whether on trade date or on a subsequent date on an "as/of" basis (T+N), shall not be reported on Form T.

(8) Transactions not reported within 10 seconds after execution, or such other time period prescribed by rule, shall be designated as late. Any transaction that is required to be reported on trade date, but is not reported on trade date, must be reported on an "as/of" basis on a subsequent date (T+N) and shall be designated as late. Any transaction that is required to be reported on an "as/of" basis the following business day (T+1), but is not reported T+1, must be reported on a subsequent date (T+N) and shall be designated as late. A pattern or practice of late reporting without reasonable justification or exceptional circumstances may be considered conduct inconsistent with high standards of commercial honor and just and equitable principles of trade in violation of [Rule 2010](#).

#### **(b) Which Party Reports Transaction**

(1) In transactions between two members, the executing party shall report the trade.

(2) In transactions between a member and a customer or non-member, the member shall report the trade.

For purposes of this paragraph (b), "executing party" shall mean the member that receives an order for handling or execution or is presented an order against its quote, does not subsequently re-route the order, and executes the transaction. In a transaction between two members where both members may satisfy the definition of executing party (e.g., manually negotiated transactions via the telephone), the member representing the sell-side shall report the transaction, unless the parties agree otherwise and the member representing the sell-side contemporaneously documents such agreement.

#### **(c) Information To Be Reported**

Each last sale report shall contain the following information:

(1) Stock symbol of the designated security;

(2) Number of shares or bonds;

(3) Price of the transaction as required by paragraph (d) below;

(4) A symbol indicating whether the transaction is a buy, sell or cross, and if applicable, sell short or sell short exempt;

(5) The time of execution expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included in the report; and

FINRA is a registered trademark of the Financial Industry Regulatory Authority, Inc.

Reprinted with permission from FINRA. Version date February 17, 2025.

(6) For any transaction in an order for which a member has recording and reporting obligations under Rules [6830](#) and [6870](#), the trade report must include an order identifier, meeting such parameters as may be prescribed by FINRA, assigned to the order that uniquely identifies the order for the date it was received (see Rule [6830](#)(a)(1)(A)).

**(d) Procedures for Reporting Price, Volume, Capacity and Identification of Other Members**

Members that report transactions pursuant to paragraph (b) above shall transmit last sale reports in the following manner:

**(1) Reporting Agency Transactions**

For agency transactions, report the number of shares (or bonds) and the price excluding the commission charged.

**Example:**

SELL as agent 100 shares at 40 less a commission of \$12.50;

REPORT 100 shares at 40.

**(2) Reporting Dual Agency Transactions**

For dual agency transactions, report the number of shares (or bonds) only once, and report the price excluding the commission charged.

**Example:**

SELL as agent 100 shares at 40 less a commission of \$12.50;

BUY as agent 100 shares at 40 plus a commission of \$12.50;

REPORT 100 shares at 40.

**(3) Reporting Principal and Riskless Principal Transactions**

(A) For principal transactions, except as provided below, report each purchase and sale transaction separately and report the number of shares (or bonds) and the price. For principal transactions that are executed at a price that includes a mark-up, mark-down or service charge, the price reported shall exclude the mark-up, mark-down or service charge. Such reported price shall be reasonably related to the prevailing market, taking into consideration all relevant circumstances including, but not limited to, market conditions with respect to the security, the number of shares (or bonds) involved in the transaction, the published bids and offers with size at the time of the execution (including the reporting firm's own quotation), the cost of execution and the expenses involved in clearing the transaction.

**Example:**

BUY as principal 100 shares from another member at 40 (no mark-down included);

REPORT 100 shares at 40.

**Example:**

BUY as principal 100 shares from a customer at 39.85 which includes a .15 mark-down from prevailing market at 40;

REPORT 100 shares at 40.

**Example:**

SELL as principal 100 shares to a customer at 40.15, which includes a .15 mark-up from the prevailing market of 40;

REPORT 100 shares at 40.

**Example:**

BUY as principal 10,000 shares from a customer at 39.75, which includes a .25 mark-down or service charge from the prevailing market of 40;

REPORT 10,000 shares at 40.

(B) Exception: A "riskless" principal transaction in which a member after having received an order to buy a security, purchases the security as principal at the same price to satisfy the order to buy or, after having received an order to sell, sells the security as principal at the same price to satisfy the order to sell, shall be reported to the ADF as one transaction in the same manner as an agency transaction, excluding the mark-up or mark-down, commission-equivalent, or other fee. Alternatively, a member may report a riskless principal transaction by submitting the following report(s):

(i) The member with the obligation to report the transaction pursuant to paragraph (b) above must submit a last sale report for the initial leg of the transaction.

(ii) Where the initial leg of the transaction has been reported to FINRA, regardless of whether a member has a reporting obligation pursuant to paragraph (b) above, the firm must submit, for the offsetting, "riskless" portion of the transaction, either:

a. a clearing-only report with a capacity indicator of "riskless principal," if a clearing report is necessary to clear the transaction; or

b. a non-tape, non-clearing report with a capacity indicator of "riskless principal," if a clearing report is not necessary to clear the transaction.

**Example:**

SELL as a principal 100 shares to another member at 40 to fill an existing order;

BUY as principal 100 shares from a customer at 40 minus a mark-down of \$12.50;

REPORT 100 shares at 40 by submitting a single trade report marked with a "riskless principal" capacity indicator to the ADF or by submitting the following reports:

1. where required by this Rule, a tape report marked with a "principal" capacity indicator; and

2. either a non-tape, non-clearing report or a clearing-only report marked with a "riskless principal" capacity indicator.

In a riskless principal transaction in which a member purchases or sells the security on an exchange to satisfy a customer's order, the trade will be reported by the exchange. A member may, however, submit to the ADF a clearing only report or a non-tape, non-clearing report for the "riskless" leg of a riskless principal transaction where the initial leg has been reported on or through an exchange. Any such report submitted to the ADF shall comply with all applicable requirements for trade reports set forth in this [Rule 6282](#).

**Example:**

BUY as principal 100 shares on an exchange at 40 to fill an existing order;

DO NOT REPORT this leg (will be reported by exchange).

SELL as principal 100 shares to a customer at 40 plus a mark-up of \$12.50.

A member MAY submit to the ADF either a non-tape, non-clearing report or a clearing-only report for this leg marked with a "riskless principal" capacity indicator.

**(4) Identification of Other Members for Agency and Riskless Principal Transactions**

Any member that has a reporting obligation pursuant to paragraph (b) above and is acting in a riskless principal or agency capacity on behalf of one or more other members shall submit to FINRA one or more non-tape (either non-tape, clearing-only or non-tape, non-clearing) report(s) identifying such other member(s) as a party to the transaction, if such other member(s) is not identified on the initial trade report submitted to FINRA or a report submitted to FINRA pursuant to Rule 6282(d)(3)(B) for the offsetting leg of a riskless principal transaction. Nothing in this Rule 6282(d)(4) shall negate or modify the riskless principal transaction reporting requirements set forth in Rule 6282(d)(3)(B).

**Example #1:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares from Member C at 40 (no mark-down included)

Member A has the reporting obligation under Rule 6282(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member C

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B

**Example #2A:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6282(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member B (or Member C)

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C (or Member B)

**Example #2B:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6282(b)

TAPE REPORT a CROSS of 100 shares at 40 By Member A

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B *and*

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C

**Example #3:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares on an exchange at 40

DO NOT TAPE REPORT this leg (will be reported by exchange)

NO NON-TAPE REPORT required; however, Member A *may* submit a NON-TAPE REPORT as between Member A and Member B

**(e) Prohibition on Aggregation of Transactions**

Individual executions of orders in a security at the same price may not be aggregated, for transaction reporting purposes, into a single transaction report.

**(f) Reporting Requirements For Certain Transactions and Transfers of Securities**

(1) The following shall not be reported to the ADF:

(A) transactions that are part of a primary distribution by an issuer or of a registered secondary distribution (other than "shelf distributions") or of an unregistered secondary distribution; for purposes of this subparagraph, the term "distribution" has the meaning set forth under Rule 100 of SEC Regulation M;

(B) transactions made in reliance on Section 4(2) of the Securities Act;

(C) transactions reported on or through an exchange;

(D) the acquisition of securities by a member as principal in anticipation of making an immediate exchange distribution or exchange offering on an exchange;

(E) purchases of securities off the floor of an exchange pursuant to a tender offer;

(F) transfers of securities made pursuant to an asset purchase agreement (APA) that is subject to the jurisdiction and approval of a court of competent jurisdiction in insolvency matters, provided that the purchase price under the APA is not based on, and cannot be adjusted to reflect, the current market prices of the securities on or following the effective date of the APA; and

(G) the transfer of equity securities for the sole purpose of creating or redeeming an instrument that evidences ownership of or otherwise tracks the underlying securities transferred (e.g., an American Depositary Receipt or exchange-traded fund).

(2) The following shall not be reported to the ADF for publication purposes, but shall be reported for regulatory transaction fee assessment purposes under [Rule 7130\(f\)](#):

(A) transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security, e.g., to enable the seller to make a gift;

(B) purchases or sales of securities effected upon the exercise of an option pursuant to the terms thereof or the exercise of any other right to acquire securities at a pre-established consideration unrelated to the current market; and

(C) transfers of proprietary securities positions where the transfer (1) is effected in connection with a merger or direct or indirect acquisition and (2) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception.

**(g) Reporting Cancelled and Reversed Trades**

**(1) Obligation and Party Responsible for Reporting Cancelled and Reversed Trades**

With the exception of trades cancelled in accordance with the [Rule 11890](#) Series, members shall report the cancellation or reversal of any trade through the ADF that was previously submitted to FINRA through the ADF. The member responsible under Rule 6282 for submitting the original trade report shall submit the cancellation or reversal report in accordance with the procedures set forth in paragraphs (g)(2) and (3).

**(2) Deadlines for Reporting Cancelled and Reversed Trades**

(A) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or before 4:00 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation as soon as practicable but no later than 10 seconds after the time the trade is cancelled.

(B) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled after 4:00 p.m., but before 6:30 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall use its best efforts to report the cancellation not later than 6:30 p.m. on the date of execution, and otherwise it shall report the cancellation on the following business day by 6:30 p.m.

(C) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or after 6:30 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation on the following business day by 6:30 p.m.

(D) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled prior to 6:30 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation by 6:30 p.m.

(E) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled at or after 6:30 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation on the following business day by 6:30 p.m.

(F) For any trade cancelled or reversed on any date after the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation (or reversal) (i) by 6:30 p.m. on the date of cancellation (or reversal) if the trade is cancelled (or reversed) before 6:30 p.m., or (ii) by 6:30 p.m. on the following business day if the trade is cancelled (or reversed) at or after 6:30 p.m.

(G) For purposes of determining the deadline by which a trade cancellation (or reversal) must be reported to FINRA pursuant to paragraph (g) of this Rule the term "cancelled" (or "reversed," as applicable) shall mean the time at which (i) the member with the reporting responsibility informs its contra party, or is informed by its contra party, that a trade is being cancelled (or reversed), (ii) the member with the reporting responsibility and its contra party agree to cancel (or reverse) a trade if neither party can unilaterally cancel (or reverse) the trade, or (iii) the member with the reporting responsibility takes an action to cancel (or reverse) the trade on its books and records, whichever event occurs first.

(3) When submitting a report of a reversal to the ADF, members must identify the original report of the previously submitted trade by including the original report date and the control number assigned by the ADF to the original trade report.

(h) A member may agree to allow a Participant to report and lock-in trades on its behalf, if both parties have completed an agreement to that effect as specified by FINRA and submitted it to FINRA Market Operations. However, the member with the reporting obligation remains responsible for the transaction submitted on its behalf. Further, both the member with the reporting obligation and the member submitting the trade to the ADF are responsible for ensuring that the information submitted is in compliance with all applicable rules and regulations.

---

**• • • Supplementary Material: -----**

**.01** Members that would otherwise have the trade reporting obligation under paragraph (b) of this Rule must provide to FINRA notice that they are relying on the exception from trade reporting under paragraph (f)(1)(A) of this Rule for transactions that are part of an unregistered secondary distribution. For each transaction that is part of the unregistered secondary distribution and not trade reported, the member must provide the following information to FINRA: security name and symbol, execution date, execution time, number of shares, trade price and parties to the trade. Such notice and information must be provided no later than three (3) business days following trade date and in such form as specified by FINRA. If the trade executions will occur over multiple days, then initial notice and available information must be provided no later than three (3) business days following the first trade date and final notice and information must be provided no later than three (3) business days following the last trade date. The member must retain records sufficient to document the basis for relying on this trade reporting exception, including but not limited to, the basis for determining that the definition of "distribution" under Rule 100 of SEC Regulation M has been satisfied, as well as evidence of compliance with applicable notification requirements under [Rule 5190](#).

**.02 Trade Reporting Time Frame**

(a) With respect to the requirement under paragraphs (a) and (g) of this Rule that members report trades and trade cancellations "as soon as practicable," a member with the trade reporting obligation under paragraph (b) of this Rule must adopt policies and procedures reasonably designed to comply with this requirement and must implement systems that commence the trade reporting process without delay upon execution (or cancellation, as applicable). Where a member has such reasonably designed policies, procedures and systems in place, the member generally will not be viewed as violating the "as soon as practicable" requirement because of delays in trade reporting that are due to extrinsic factors that are not reasonably predictable and where the member does not purposely intend to delay the reporting of the trade. In no event may a member purposely withhold trade reports, e.g., by programming its systems to delay reporting until the last permissible second.

(b) FINRA recognizes that a very small universe of trades are reported manually, and as a result, even where a member does not purposely withhold trade reports, the trade reporting process may not be completed within 10 seconds following execution. In these cases, for purposes of determining whether "reasonable justification" exists to excuse what otherwise may be deemed to be a pattern or practice of late trade reporting under this Rule and [Rule 6181](#), FINRA will take into consideration such factors as the complexity and manual nature of the execution and reporting of the trade, where the trade details must be manually entered into the trade reporting system following execution.

**.03** Trade reports of block transactions using the Intermarket Sweep Order (ISO) exception (outbound) under Rule 611 of SEC Regulation NMS must include the time that all material terms of the transaction are known (including, but not limited to, the final number of shares executed after reflecting any fills of routed ISOs) and, if different from the time of execution, members must also include the time that ISOs are sent to trading centers with protected quotations that are priced superior to the block transaction price.

**.04** All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

## 6300A. FINRA/NASDAQ TRADE REPORTING FACILITIES

There are two FINRA/Nasdaq Trade Reporting Facilities: FINRA/Nasdaq Trade Reporting Facility Carteret and FINRA/Nasdaq Trade Reporting Facility Chicago. As used in the Rule 6300A Series, the term "FINRA/Nasdaq Trade Reporting Facility" means either the FINRA/Nasdaq Trade Reporting Facility Carteret or FINRA/Nasdaq Trade Reporting Facility Chicago, as applicable, depending on the facility to which the Participant elects to report. The two FINRA/Nasdaq Trade Reporting Facilities are separate and distinct facilities, and as such, for example, the correction, cancellation or reversal of a trade can only be reported to the FINRA/Nasdaq Trade Reporting Facility to which the trade was originally reported.

The forms of agreements required under the Rule 6300A Series, including the agreement to allow a Participant to report and lock-in trades on a member's behalf required under Rule 6380A(h), shall be identical for both FINRA/Nasdaq Trade Reporting Facilities and a single agreement can be used for purposes of both FINRA/Nasdaq Trade Reporting Facilities. Members that elect to participate in both FINRA/Nasdaq Trade Reporting Facilities must amend any existing agreements under the Rule 6300A Series to reflect their application to both Facilities.

Any determinations made by FINRA to suspend, condition, limit or terminate a Participant's ability to use one of the FINRA/Nasdaq Trade Reporting Facilities shall also apply to the other FINRA/Nasdaq Trade Reporting Facility with respect to that Participant.

## 6380A. Transaction Reporting

### (a) When and How Transactions are Reported

(1) Trade Reporting Facility Participants shall, as soon as practicable but no later than 10 seconds after execution, transmit to the FINRA/Nasdaq Trade Reporting Facility or if the FINRA/Nasdaq Trade Reporting Facility is unavailable due to system or transmission failure, by telephone to the FINRA/Nasdaq Trade Reporting Facility Operations Department, last sale reports of transactions in designated securities executed during normal market hours. Transactions not reported within 10 seconds after execution shall be designated as late.

#### (2) Transaction Reporting to the FINRA/Nasdaq Trade Reporting Facility Outside Normal Market Hours

(A) Last sale reports of transactions in designated securities executed between 8:00 a.m. and 9:30 a.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(B) Last sale reports of transactions in designated securities executed between 4:00 p.m. and 8:00 p.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(C) Last sale reports of transactions in designated securities executed between midnight and 8:00 a.m. Eastern Time shall be reported by 8:15 a.m. Eastern Time on trade date and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(D) Last sale reports of transactions in designated securities executed (i) between 8:00 p.m. and midnight Eastern Time or (ii) on any non-business day (i.e., weekend or holiday) shall be reported the following business day by 8:15 a.m. Eastern Time, be designated "as/of" trades to denote their execution on a prior day and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(3) Members shall time-stamp all trade tickets at the time of execution for transactions in designated securities. Execution time shall be reported to FINRA on all last sale reports and shall be expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included on the report.

(4) Transactions not reported within 10 seconds after execution, or such other time period prescribed by rule, shall be designated as late. Any transaction that is required to be reported on trade date, but is not reported on trade date, must be reported on an "as/of" basis on a subsequent date (T+N) and shall be designated as late. Any transaction that is required to be reported on an "as/of" basis the following business day (T+1), but is not reported T+1, must be reported on a subsequent date (T+N) and shall be designated as late. A pattern or practice of late reporting without reasonable justification or exceptional circumstances may be considered conduct inconsistent with high standards of commercial honor and just and equitable principles of trade in violation of [Rule 2010](#).

(5) Members also shall append the applicable trade report modifiers as specified by FINRA to all last sale reports, including reports of "as/of" trades:

(A) if the trade is executed during normal market hours and it is reported later than 10 seconds after execution;

(B) if the trade is a Seller's Option Trade, denoting the number of days for delivery;

(C) if the trade is a Cash Trade;

(D) Reserved;

(E) if the trade occurs at a price based on an average weighting or another special pricing formula;

(F) if the trade is a Stop Stock Transaction (as defined in Rule 6320A) (Note: the transaction report shall include both the time of execution of the trade and the time at which the member and the other party agreed to the Stop Stock Price; if the Stop Stock Transaction is executed and reported within 10 seconds of the time the member and the other party agree to the Stop Stock Price, the designated modifier shall not be appended and only the time of execution of the trade shall be reported);

(G) if the transaction report reflects a price different from the current market when the execution price is based on a prior reference point in time (Note: the transaction report shall include both the time of execution of the trade and the prior reference time; if the trade is executed and reported within 10 seconds from the prior reference point in time, the designated modifier shall not be appended and only the time of execution of the trade shall be reported);

(H) to identify pre-opening and after-hours trades (executed between 8:00 a.m. and 9:30 a.m. Eastern time or between 4:00 p.m. and 8:00 p.m. Eastern time) reported more than 10 seconds after execution;

(I) if the trade would be a trade-through of a protected quotation, but for the trade being qualified for an exception or exemption from Rule 611 of SEC Regulation NMS (Note: to ensure consistency in the usage of Rule 611 of SEC Regulation NMS related modifiers by registered broker-dealers, this modifier will be used in conformity with the specifications approved by the Operating Committee of the relevant National Market System Plans to identify trades executed pursuant to an exception or exemption from Rule 611 of SEC Regulation NMS);

(J) if the trade would be a trade-through of a protected quotation, but for the trade being qualified for an exception or exemption from Rule 611 of SEC Regulation NMS, members must, in addition to the modifier required in subparagraph (I) above, append an appropriate unique modifier, specified by FINRA, that identifies the specific applicable exception or exemption from Rule 611 of SEC Regulation NMS that a member is relying upon (Note: to ensure consistency in the usage of Rule 611 of SEC Regulation NMS related modifiers by registered broker-dealers, these modifiers will be used in conformity with the specifications approved by the Operating Committee of the relevant National Market System Plans to identify trades executed pursuant to an exception or exemption from Rule 611 of SEC Regulation NMS); and

(K) any other modifier as specified by FINRA or the SEC.

To the extent that any of the modifiers required by this Rule conflict, FINRA shall provide guidance regarding the priorities among modifiers and members shall report in accordance with such guidance, as applicable.

(6) The FINRA/Nasdaq Trade Reporting Facility will append the appropriate modifier to indicate that a trade was executed outside normal market hours or that a report was submitted late to the FINRA/Nasdaq Trade Reporting Facility, where such report contains the time of execution, but does not contain the appropriate modifier.

(7) To identify pre-opening and after-hours trades reported late, the FINRA/Nasdaq Trade Reporting Facility will convert to the late modifier, as applicable, on any pre-opening or after-hours report submitted to the FINRA/Nasdaq Trade Reporting Facility more than 10 seconds after execution.

(8) All members shall report as soon as practicable to the Market Regulation Department on Form T, last sale reports of transactions in designated securities for which electronic submission to the FINRA/Nasdaq Trade Reporting Facility is not possible (e.g., the ticker symbol for the security is no longer available or a market participant identifier is no longer active). Transactions that can be reported to the FINRA/Nasdaq Trade Reporting Facility, whether on trade date or on a subsequent date on an "as/of" basis (T+N), shall not be reported on Form T.

#### **(b) Which Party Reports the Transaction**

(1) In transactions between two members, the executing party shall report the trade.

(2) In transactions between a member and a non-member or customer, the member shall report the trade.

For purposes of this paragraph (b), "executing party" shall mean the member that receives an order for handling or execution or is presented an order against its quote, does not subsequently re-route the order, and executes the transaction. In a transaction between two members where both members may satisfy the definition of executing party (e.g., manually negotiated transactions via the telephone), the member representing the sell-side shall report the transaction, unless the parties agree otherwise and the member representing the sell-side contemporaneously documents such agreement.

#### **(c) Information To Be Reported**

Each last sale report shall contain the following information:

(1) Stock symbol of the designated security;

(2) Number of shares or bonds;

(3) Price of the transaction as required by paragraph (d) below;

(4) A symbol indicating whether the transaction is a buy, sell or cross, and if applicable, sell short or sell short exempt;

(5) The time of execution expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included in the report; and

(6) For any transaction in an order for which a member has recording and reporting obligations under Rules [6830](#) and [6870](#), the trade report must include an order identifier, meeting such parameters as may be prescribed by FINRA, assigned to the order that uniquely identifies the order for the date it was received (see Rule [6830\(a\)\(1\)\(A\)](#)).

**(d) Procedures for Reporting Price, Volume, Capacity and Identification of Other Members**

Members that report transactions to the FINRA/Nasdaq Trade Reporting Facility, pursuant to paragraph (b) above shall transmit last sale reports for all purchases and sales in designated securities in the following manner:

**(1) Reporting Agency Transactions**

For agency transactions, report the number of shares and the price excluding the commission charged.

**Example:**

SELL as agent 100 shares at 40 less a commission of \$12.50;

REPORT 100 shares at 40.

**(2) Reporting Dual Agency Transactions**

For dual agency transactions, report the number of shares only once, and report the price excluding the commission charged.

**Example:**

SELL as agent 100 shares at 40 less a commission of \$12.50;

BUY as agent 100 shares at 40 plus a commission of \$12.50;

REPORT 100 shares at 40.

**(3) Reporting Principal and Riskless Principal Transactions**

(A) For principal transactions, except as provided below, report each purchase and sale transaction separately and report the number of shares or bonds and the price. For principal transactions that are executed at a price that includes a mark-up, mark-down or service charge, the price reported shall exclude the mark-up, mark-down or service charge. Such reported price shall be reasonably related to the prevailing market, taking into consideration all relevant circumstances including, but not limited to, market conditions with respect to the security, the number of shares or bonds involved in the transaction, the published bids and offers with size at the time of the execution (including the reporting firm's own quotation), the cost of execution and the expenses involved in clearing the transaction.

**Example:**

BUY as principal 100 shares from another member at 40 (no mark-down included);

REPORT 100 shares at 40.

**Example:**

BUY as principal 100 shares from a customer at 39.90 which includes a \$0.10 mark-down from prevailing market at 40;

REPORT 100 shares at 40.

**Example:**

SELL as principal 100 shares to a customer at 40.10, which includes a \$0.10 mark-up from the prevailing market of 40;

REPORT 100 shares at 40.

**Example:**

BUY as principal 10,000 shares from a customer at 39.75, which includes a \$0.25 mark-down or service charge from the prevailing market of 40;

REPORT 10,000 shares at 40.

(B) Exception: A "riskless" principal transaction in which a member after having received an order to buy a security, purchases the security as principal at the same price to satisfy the order to buy or, after having received an order to sell, sells the security as principal at the same price to satisfy the order to sell, shall be reported to the FINRA/Nasdaq Trade Reporting Facility as one transaction in the same manner as an agency transaction, excluding the mark-up or mark-down, commission-equivalent, or other fee. Alternatively, a member may report a riskless principal transaction by submitting the following report(s):

(i) The member with the obligation to report the transaction pursuant to paragraph (b) above must submit a last sale report for the initial leg of the transaction.

(ii) Where the initial leg of the transaction has been reported to FINRA, regardless of whether a member has a reporting obligation pursuant to paragraph (b) above, the firm must submit, for the offsetting, "riskless" portion of the transaction, either:

a. a clearing-only report with a capacity indicator of "riskless principal," if a clearing report is necessary to clear the transaction; or

b. a non-tape, non-clearing report with a capacity indicator of "riskless principal," if a clearing report is not necessary to clear the transaction.

**Example:**

SELL as a principal 100 shares to another member at 40 to fill an existing order;

BUY as principal 100 shares from a customer at 40 minus a mark-down of \$12.50;

REPORT 100 shares at 40 by submitting a single trade report marked with a "riskless principal" capacity indicator to the FINRA/Nasdaq Trade Reporting Facility or by submitting the following reports:

1. where required by this Rule, a tape report marked with a "principal" capacity indicator; and

2. either a non-tape, non-clearing report or a clearing-only report marked with a "riskless principal" capacity indicator.

In a riskless principal transaction in which a member purchases or sells the security on an exchange to satisfy a customer's order, the trade will be reported by the exchange. A member may, however, submit to the FINRA/Nasdaq Trade Reporting Facility a clearing only report or a non-tape, non-clearing report for the "riskless" leg of a riskless principal transaction where the initial leg has been reported on or through an exchange. Any such report submitted to the FINRA/Nasdaq Trade Reporting Facility shall comply with all applicable requirements for trade reports set forth in this Rule 6380A.

**Example:**

BUY as principal 100 shares on an exchange at 40 to fill an existing order;

DO NOT REPORT this leg (will be reported by exchange).

SELL as principal 100 shares to a customer at 40 plus a mark-up of \$12.50.

A member MAY submit to the FINRA/Nasdaq Trade Reporting Facility either a non-tape, non-clearing report or a clearing-only report for this leg marked with a "riskless principal" capacity indicator.

**(4) Identification of Other Members for Agency and Riskless Principal Transactions**

Any member that has a reporting obligation pursuant to paragraph (b) above and is acting in a riskless principal or agency capacity on behalf of one or more other members shall submit to FINRA one or more non-tape (either non-tape, clearing-only or non-tape, non-clearing) report(s) identifying such other member(s) as a party to the transaction, if such other member(s) is not identified on the initial trade report submitted to FINRA or a report submitted to FINRA pursuant to Rule 6380A(d)(3)(B) for the offsetting leg of a riskless principal transaction. Nothing in this Rule 6380A(d)(4) shall negate or modify the riskless principal transaction reporting requirements set forth in Rule 6380A(d)(3)(B).

**Example #1:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares from Member C at 40 (no mark-down included)

Member A has the reporting obligation under Rule 6380A(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member C

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B

**Example #2A:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6380A(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member B (or Member C)

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C (or Member B)

**Example #2B:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6380A(b)

TAPE REPORT a CROSS of 100 shares at 40 By Member A

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B *and*

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C

**Example #3:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares on an exchange at 40

DO NOT TAPE REPORT this leg (will be reported by exchange)

NO NON-TAPE REPORT required; however, Member A *may* submit a NON-TAPE REPORT as between Member A and Member B

**(e) Reporting Requirements For Certain Transactions and Transfers of Securities**

(1) The following shall not be reported to the FINRA/Nasdaq Trade Reporting Facility:

(A) transactions that are part of a primary distribution by an issuer or of a registered secondary distribution (other than "shelf distributions") or of an unregistered secondary distribution; for purposes of this subparagraph, the term "distribution" has the meaning set forth under Rule 100 of SEC Regulation M;

(B) transactions made in reliance on Section 4(2) of the Securities Act;

(C) transactions reported on or through an exchange;

(D) the acquisition of securities by a member as principal in anticipation of making an immediate exchange distribution or exchange offering on an exchange;

(E) purchases of securities off the floor of an exchange pursuant to a tender offer;

(F) transfers of securities made pursuant to an asset purchase agreement (APA) that is subject to the jurisdiction and approval of a court of competent jurisdiction in insolvency matters, provided that the purchase price under the APA is not based on, and cannot be adjusted to reflect, the current market prices of the securities on or following the effective date of the APA; and

(G) the transfer of equity securities for the sole purpose of creating or redeeming an instrument that evidences ownership of or otherwise tracks the underlying securities transferred (e.g., an American Depositary Receipt or exchange-traded fund).

(2) The following shall not be reported to the FINRA/Nasdaq Trade Reporting Facility for publication purposes, but shall be reported for regulatory transaction fee assessment purposes under Rule 7230A(g):

(A) transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security, e.g., to enable the seller to make a gift;

(B) purchases or sales of securities effected upon the exercise of an option pursuant to the terms thereof or the exercise of any other right to acquire securities at a pre-established consideration unrelated to the current market; and

(C) transfers of proprietary securities positions where the transfer (1) is effected in connection with a merger or direct or indirect acquisition and (2) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception.

Individual executions of orders in a security at the same price may not be aggregated, for purposes of transaction reporting to the FINRA/Nasdaq Trade Reporting Facility, into a single transaction report.

**(g) Reporting Cancelled and Reversed Trades**

**(1) Obligation and Party Responsible for Reporting Cancelled and Reversed Trades**

With the exception of trades cancelled in accordance with the [Rule 11890](#) Series, members shall report to the FINRA/Nasdaq Trade Reporting Facility the cancellation or reversal of any trade previously submitted to the FINRA/Nasdaq Trade Reporting Facility. The member responsible for submitting the original trade report shall submit the cancellation or reversal report in accordance with the procedures set forth in paragraphs (g)(2) and (3).

**(2) Deadlines for Reporting Cancelled and Reversed Trades**

(A) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or before 4:00 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation as soon as practicable but no later than 10 seconds after the time the trade is cancelled.

(B) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled after 4:00 p.m., but before 8:00 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall use its best efforts to report the cancellation not later than 8:00 p.m. on the date of execution, and otherwise it shall report the cancellation on the following business day by 8:00 p.m.

(C) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or after 8:00 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation on the following business day by 8:00 p.m.

(D) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled prior to 8:00 p.m. on the date of execution, the member responsible for reporting under paragraph (g)(1) shall report the cancellation by 8:00 p.m.

(E) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled at or after 8:00 p.m. on the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation on the following business day by 8:00 p.m.

(F) For any trade cancelled or reversed on any date after the date of execution, the member responsible under paragraph (g)(1) shall report the cancellation (or reversal) (i) by 8:00 p.m. on the date of cancellation (or reversal) if the trade is cancelled (or reversed) before 8:00 p.m., or (ii) by 8:00 p.m. on the following business day if the trade is cancelled (or reversed) at or after 8:00 p.m.

(G) For purposes of determining the deadline by which a trade cancellation (or reversal) must be reported pursuant to paragraph (g) of this Rule the term "cancelled" (or "reversed," as applicable) shall mean the time at which (i) the member with the reporting responsibility informs its contra party, or is informed by its contra party, that a trade is being cancelled (or reversed), (ii) the member with the reporting responsibility and its contra party agree to cancel (or reverse) a trade if neither party can unilaterally cancel (or reverse) the trade, or (iii) the member with the reporting responsibility takes an action to cancel (or reverse) the trade on its books and records, whichever event occurs first.

(3) When submitting a report of a reversal to the FINRA/Nasdaq Trade Reporting Facility, members must identify the original report of the previously submitted trade by including the original report date and the control number assigned by the FINRA/Nasdaq Trade Reporting Facility to the original trade report.

(h) A member may agree to allow a Participant to report and lock-in trades on its behalf, if both parties have completed an agreement to that effect as specified by FINRA and submitted it to the FINRA/Nasdaq Trade Reporting Facility. However, the member with the reporting obligation remains responsible for the transaction submitted on its behalf. Further, both the member with the reporting obligation and the member submitting the trade to the FINRA/Nasdaq Trade Reporting Facility are responsible for ensuring that the information submitted is in compliance with all applicable rules and regulations.

---

**• • • Supplementary Material: -----**

**.01** Members that would otherwise have the trade reporting obligation under paragraph (b) of this Rule must provide to FINRA notice that they are relying on the exception from trade reporting under paragraph (e)(1)(A) of this Rule for transactions that are part of an unregistered secondary distribution. For each transaction that is part of the unregistered secondary distribution and not trade reported, the member must provide the following information to FINRA: security name and symbol, execution date, execution time, number of shares, trade price and parties to the trade. Such notice and information must be provided no later than three (3) business days following trade date and in such form as specified by FINRA. If the trade executions will occur over multiple days, then initial notice and available information must be provided no later than three (3) business days following the first trade date and final notice and information must be provided no later than three (3) business days

following the last trade date. The member must retain records sufficient to document the basis for relying on this trade reporting exception, including but not limited to, the basis for determining that the definition of "distribution" under Rule 100 of SEC Regulation M has been satisfied, as well as evidence of compliance with applicable notification requirements under [Rule 5190](#).

## **.02 Trade Reporting Time Frame**

(a) With respect to the requirement under paragraphs (a) and (g) of this Rule that members report trades and trade cancellations "as soon as practicable," a member with the trade reporting obligation under paragraph (b) of this Rule must adopt policies and procedures reasonably designed to comply with this requirement and must implement systems that commence the trade reporting process without delay upon execution (or cancellation, as applicable). Where a member has such reasonably designed policies, procedures and systems in place, the member generally will not be viewed as violating the "as soon as practicable" requirement because of delays in trade reporting that are due to extrinsic factors that are not reasonably predictable and where the member does not purposely intend to delay the reporting of the trade. In no event may a member purposely withhold trade reports, e.g., by programming its systems to delay reporting until the last permissible second.

(b) FINRA recognizes that a very small universe of trades are reported manually, and as a result, even where a member does not purposely withhold trade reports, the trade reporting process may not be completed within 10 seconds following execution. In these cases, for purposes of determining whether "reasonable justification" exists to excuse what otherwise may be deemed to be a pattern or practice of late trade reporting under this Rule and [Rule 6181](#), FINRA will take into consideration such factors as the complexity and manual nature of the execution and reporting of the trade, where the trade details must be manually entered into the trade reporting system following execution.

**.03** Trade reports of block transactions using the Intermarket Sweep Order (ISO) exception (outbound) under Rule 611 of SEC Regulation NMS must include the time that all material terms of the transaction are known (including, but not limited to, the final number of shares executed after reflecting any fills of routed ISOs) and, if different from the time of execution, members must also include the time that ISOs are sent to trading centers with protected quotations that are priced superior to the block transaction price.

**.04** All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

(A) Last sale reports of transactions in designated securities executed between 8:00 a.m. and 9:30 a.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(B) Last sale reports of transactions in designated securities executed between 4:00 p.m. and 8:00 p.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(C) Last sale reports of transactions in designated securities executed between midnight and 8:00 a.m. Eastern Time shall be reported by 8:15 a.m. Eastern Time on trade date and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(D) Last sale reports of transactions in designated securities executed (i) between 8:00 p.m. and midnight Eastern Time or (ii) on any non-business day (i.e., weekend or holiday) shall be reported the following business day by 8:15 a.m. Eastern Time, be designated "as/of" trades to denote their execution on a prior day and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(3) Members shall time-stamp all trade tickets at the time of execution for transactions in designated securities. Execution time shall be reported to FINRA on all last sale reports and shall be expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included on the report.

(4) Transactions not reported within 10 seconds after execution, or such other time period prescribed by rule, shall be designated as late. Any transaction that is required to be reported on trade date, but is not reported on trade date, must be reported on an "as/of" basis on a subsequent date (T+N) and shall be designated as late. Any transaction that is required to be reported on an "as/of" basis the following business day (T+1), but is not reported T+1, must be reported on a subsequent date (T+N) and shall be designated as late. A pattern or practice of late reporting without reasonable justification or exceptional circumstances may be considered conduct inconsistent with high standards of commercial honor and just and equitable principles of trade in violation of [Rule 2010](#).

(5) Members also shall append the applicable trade report modifiers as specified by FINRA to all last sale reports, including reports of "as/of" trades:

(A) if the trade is executed during normal market hours and it is reported later than 10 seconds after execution;

(B) if the trade is a Seller's Option Trade, denoting the number of days for delivery;

(C) if the trade is a Cash Trade;

(D) Reserved;

(E) if the trade occurs at a price based on an average weighting or another special pricing formula;

(F) if the trade is a Stop Stock Transaction (as defined in Rule 6320B) (Note: the transaction report shall include both the time of execution of the trade and the time at which the member and the other party agreed to the Stop Stock Price; if the Stop Stock Transaction is executed and reported within 10 seconds of the time the member and the other party agree to the Stop Stock Price, the designated modifier shall not be appended and only the time of execution of the trade shall be reported);

(G) if the transaction report reflects a price different from the current market when the execution price is based on a prior reference point in time (Note: the transaction report shall include both the time of execution of the trade and the prior reference time; if the trade is executed and reported within 10 seconds from the prior reference point in time, the designated modifier shall not be appended and only the time of execution of the trade shall be reported);

(H) to identify pre-opening and after-hours trades (executed between 8:00 a.m. and 9:30 a.m. Eastern time or between 4:00 p.m. and 8:00 p.m. Eastern time) reported more than 10 seconds after execution;

(I) if the trade would be a trade-through of a protected quotation, but for the trade being qualified for an exception or exemption from Rule 611 of SEC Regulation NMS (Note: to ensure consistency in the usage of Rule 611 of SEC Regulation NMS related modifiers by registered broker-dealers, this modifier will be used in conformity with the specifications approved by the Operating Committee of the relevant National Market System Plans to identify trades executed pursuant to an exception or exemption from Rule 611 of SEC Regulation NMS);

(J) if the trade would be a trade-through of a protected quotation, but for the trade being qualified for an exception or exemption from Rule 611 of SEC Regulation NMS, members must, in addition to the modifier required in subparagraph (I) above, append an appropriate unique modifier, specified by FINRA, that identifies the specific applicable exception or exemption from Rule 611 of SEC Regulation NMS that a member is relying upon (Note: to ensure consistency in the usage of Rule 611 of SEC Regulation NMS related modifiers by registered broker-dealers, these modifiers will be used in conformity with the specifications approved by the Operating Committee of the relevant National Market System Plans to identify trades executed pursuant to an exception or exemption from Rule 611 of SEC Regulation NMS); and

(K) any other modifier as specified by FINRA or the SEC.

To the extent that any of the modifiers required by this Rule conflict, FINRA shall provide guidance regarding the priorities among modifiers and members shall report in accordance with such guidance, as applicable.

(6) The FINRA/NYSE Trade Reporting Facility will append the appropriate modifier to indicate that a trade was executed outside normal market hours or that a report was submitted late to the FINRA/NYSE Trade Reporting Facility, where such report contains the time of execution, but does not contain the appropriate modifier.

(7) To identify pre-opening and after-hours trades reported late, the FINRA/NYSE Trade Reporting Facility will convert to the late modifier, as applicable, on any pre-opening or after-hours report submitted to the FINRA/NYSE Trade Reporting Facility more than 10 seconds after execution.

(8) Participants must use an alternative mechanism, and comply with all rules applicable to such alternative mechanism, to report transactions to FINRA in designated securities for which electronic submission to the FINRA/NYSE Trade Reporting Facility is not possible. Where last sale reports of transactions in designated securities cannot be submitted to FINRA via an alternative electronic mechanism (e.g., the ticker symbol for the security is no longer available or a market participant identifier is no longer active), members shall report such transactions as soon as practicable to the FINRA Market Regulation Department on Form T. Transactions that can be reported to FINRA electronically, whether on trade date or on a subsequent date on an "as/of" basis (T+N), shall not be reported on Form T.

#### **(b) Which Party Reports the Transaction**

(1) In transactions between two members, the executing party shall report the trade.

(2) In transactions between a member and a non-member or customer, the member shall report the trade.

For purposes of this paragraph (b), "executing party" shall mean the member that receives an order for handling or execution or is presented an order against its quote, does not subsequently re-route the order, and executes the transaction. In a transaction between two members where both members may satisfy the definition of executing party (e.g., manually negotiated transactions via the telephone), the member representing the sell-side shall report the transaction, unless the parties agree otherwise and the member representing the sell-side contemporaneously documents such agreement.

#### **(c) Information To Be Reported**

Each last sale report shall contain the following information:

(1) Stock symbol of the designated security;

(2) Number of shares or bonds;

(3) Price of the transaction as required by paragraph (d) below;

(4) A symbol indicating whether the transaction is a buy, sell or cross, and if applicable, sell short or sell short exempt;

(5) The time of execution expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included in the report; and

(6) For any transaction in an order for which a member has recording and reporting obligations under Rules [6830](#) and [6870](#), the trade report must include an order identifier, meeting such parameters as may be prescribed by FINRA, assigned to the order that uniquely

**(d) Procedures for Reporting Price, Volume, Capacity and Identification of Other Members**

Members that report transactions to the FINRA/NYSE Trade Reporting Facility, pursuant to paragraph (b) above shall transmit last sale reports for all purchases and sales in designated securities in the following manner:

**(1) Reporting Agency Transactions**

For agency transactions, report the number of shares or bonds and the price excluding the commission charged.

**Example:**

SELL as agent 100 shares at 40 less a commission of \$12.50;

REPORT 100 shares at 40.

**(2) Reporting Dual Agency Transactions**

For dual agency transactions, report the number of shares or bonds only once, and report the price excluding the commission charged.

**Example:**

SELL as agent 100 shares at 40 less a commission of \$12.50;

BUY as agent 100 shares at 40 plus a commission of \$12.50;

REPORT 100 shares at 40.

**(3) Reporting Principal and Riskless Principal Transactions**

(A) For principal transactions, except as provided below, report each purchase and sale transaction separately and report the number of shares or bonds and the price. For principal transactions that are executed at a price that includes a mark-up, mark-down or service charge, the price reported shall exclude the mark-up, mark-down or service charge. Such reported price shall be reasonably related to the prevailing market, taking into consideration all relevant circumstances including, but not limited to, market conditions with respect to the security, the number of shares or bonds involved in the transaction, the published bids and offers with size at the time of the execution (including the reporting firm's own quotation), the cost of execution and the expenses involved in clearing the transaction.

**Example:**

BUY as principal 100 shares from another member at 40 (no mark-down included);

REPORT 100 shares at 40.

**Example:**

BUY as principal 100 shares from a customer at 39.90 which includes a \$0.10 mark-down from prevailing market at 40;

REPORT 100 shares at 40.

**Example:**

SELL as principal 100 shares to a customer at 40.10, which includes a \$0.10 mark-up from the prevailing market of 40;

REPORT 100 shares at 40.

**Example:**

BUY as principal 10,000 shares from a customer at 39.75, which includes a \$0.25 mark-down or service charge from the prevailing market of 40;

REPORT 10,000 shares at 40.

(B) Exception: A "riskless" principal transaction in which a member after having received an order to buy a security, purchases the security as principal at the same price to satisfy the order to buy or, after having received an order to sell, sells the security as principal at the same price to satisfy the order to sell, shall be reported to the FINRA/NYSE Trade Reporting Facility as one transaction in the same manner as an agency transaction, excluding the mark-up or mark-down, commission-equivalent, or other fee. Alternatively, a member may report a riskless principal transaction by submitting the following report(s):

(i) The member with the obligation to report the transaction pursuant to paragraph (b) above must submit a last sale report for the initial leg of the transaction.

(ii) Where the initial leg of the transaction has been reported to FINRA, regardless of whether a member has a reporting obligation pursuant to paragraph (b) above, the firm must submit, for the offsetting, "riskless" portion of the transaction, either:

a. a clearing-only report with a capacity indicator of "riskless principal," if a clearing report is necessary to clear the transaction; or

b. a non-tape, non-clearing report with a capacity indicator of "riskless principal," if a clearing report is not necessary to clear the transaction.

**Example:**

SELL as a principal 100 shares to another member at 40 to fill an existing order;

BUY as principal 100 shares from a customer at 40 minus a mark-down of \$12.50;

REPORT 100 shares at 40 by submitting a single trade report marked with a "riskless principal" capacity indicator to the FINRA/NYSE Trade Reporting Facility or by submitting the following reports:

1. where required by this Rule, a tape report marked with a "principal" capacity indicator; and
2. either a non-tape, non-clearing report or a clearing-only report marked with a "riskless principal" capacity indicator.

In a riskless principal transaction in which a member purchases or sells the security on an exchange to satisfy a customer's order, the trade will be reported by the exchange. A member may, however, submit to the FINRA/NYSE Trade Reporting Facility a clearing-only report or a non-tape, non-clearing report for the "riskless" leg of a riskless principal transaction where the initial leg has been reported on or through an exchange. Any such report submitted to the FINRA/NYSE Trade Reporting Facility shall comply with all applicable requirements for trade reports set forth in this Rule 6380B.

**Example:**

BUY as principal 100 shares on an exchange at 40 to fill an existing order;

DO NOT REPORT this leg (will be reported by exchange).

SELL as principal 100 shares to a customer at 40 plus a mark-up of \$12.50.

A member MAY submit to the FINRA/NYSE Trade Reporting Facility either a non-tape, non-clearing report or a clearing-only report for this leg marked with a "riskless principal" capacity indicator.

**(4) Identification of Other Members for Agency and Riskless Principal Transactions**

Any member that has a reporting obligation pursuant to paragraph (b) above and is acting in a riskless principal or agency capacity on behalf of one or more other members shall submit to FINRA one or more non-tape (either non-tape, clearing-only or non-tape, non-clearing) report(s) identifying such other member(s) as a party to the transaction, if such other member(s) is not identified on the initial trade report submitted to FINRA or a report submitted to FINRA pursuant to Rule 6380B(d)(3)(B) for the offsetting leg of a riskless principal transaction. Nothing in this Rule 6380B(d)(4) shall negate or modify the riskless principal transaction reporting requirements set forth in Rule 6380B(d)(3)(B).

**Example #1:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares from Member C at 40 (no mark-down included)

Member A has the reporting obligation under Rule 6380B(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member C

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B

**Example #2A:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6380B(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member B (or Member C)

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C (or Member B)

**Example #2B:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6380B(b)

TAPE REPORT a CROSS of 100 shares at 40 By Member A

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B *and*

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C

**Example #3:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares on an exchange at 40

DO NOT TAPE REPORT this leg (will be reported by exchange)

NO NON-TAPE REPORT required; however, Member A *may* submit a NON-TAPE REPORT as between Member A and Member B

**(e) Reporting Requirements For Certain Transactions and Transfers of Securities**

(1) The following shall not be reported to the FINRA/NYSE Trade Reporting Facility:

(A) transactions that are part of a primary distribution by an issuer or of a registered secondary distribution (other than "shelf distributions") or of an unregistered secondary distribution; for purposes of this subparagraph, the term "distribution" has the meaning set forth under Rule 100 of SEC Regulation M;

(B) transactions made in reliance on Section 4(2) of the Securities Act;

(C) transactions reported on or through an exchange;

(D) the acquisition of securities by a member as principal in anticipation of making an immediate exchange distribution or exchange offering on an exchange;

(E) purchases of securities off the floor of an exchange pursuant to a tender offer;

(F) transfers of securities made pursuant to an asset purchase agreement (APA) that is subject to the jurisdiction and approval of a court of competent jurisdiction in insolvency matters, provided that the purchase price under the APA is not based on, and cannot be adjusted to reflect, the current market prices of the securities on or following the effective date of the APA; and

(G) the transfer of equity securities for the sole purpose of creating or redeeming an instrument that evidences ownership of or otherwise tracks the underlying securities transferred (e.g., an American Depositary Receipt or exchange-traded fund).

(2) The following shall not be reported to the FINRA/NYSE Trade Reporting Facility for publication purposes, but shall be reported for regulatory transaction fee assessment purposes under Rule 7230B(f):

(A) transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security, e.g., to enable the seller to make a gift;

(B) purchases or sales of securities effected upon the exercise of an option pursuant to the terms thereof or the exercise of any other right to acquire securities at a pre-established consideration unrelated to the current market; and

(C) transfers of proprietary securities positions where the transfer (1) is effected in connection with a merger or direct or indirect acquisition and (2) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception.

**(f) Reporting Cancelled and Reversed Trades**

With the exception of trades cancelled in accordance with the [Rule 11890](#) Series, members shall report to the FINRA/NYSE Trade Reporting Facility the cancellation or reversal of any trade previously submitted to the FINRA/NYSE Trade Reporting Facility. The member responsible for submitting the original trade report shall submit the cancellation or reversal report in accordance with the procedures set forth in paragraphs (f)(2) and (3).

**(2) Deadlines for Reporting Cancelled and Reversed Trades**

(A) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or before 4:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation as soon as practicable but no later than 10 seconds after the time the trade is cancelled.

(B) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled after 4:00 p.m., but before 8:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall use its best efforts to report the cancellation not later than 8:00 p.m. on the date of execution, and otherwise it shall report the cancellation on the following business day by 8:00 p.m.

(C) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or after 8:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation on the following business day by 8:00 p.m.

(D) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled prior to 8:00 p.m. on the date of execution, the member responsible for reporting under paragraph (f)(1) shall report the cancellation by 8:00 p.m.

(E) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled at or after 8:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation on the following business day by 8:00 p.m.

(F) For any trade cancelled or reversed on any date after the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation (or reversal) (i) by 8:00 p.m. on the date of cancellation (or reversal) if the trade is cancelled (or reversed) before 8:00 p.m., or (ii) by 8:00 p.m. on the following business day if the trade is cancelled (or reversed) at or after 8:00 p.m.

(G) For purposes of determining the deadline by which a trade cancellation (or reversal) must be reported pursuant to paragraph (f) of this Rule the term "cancelled" (or "reversed," as applicable) shall mean the time at which (i) the member with the reporting responsibility informs its contra party, or is informed by its contra party, that a trade is being cancelled (or reversed), (ii) the member with the reporting responsibility and its contra party agree to cancel (or reverse) a trade if neither party can unilaterally cancel (or reverse) the trade, or (iii) the member with the reporting responsibility takes an action to cancel (or reverse) the trade on its books and records, whichever event occurs first.

(3) When submitting a report of a reversal to the FINRA/NYSE Trade Reporting Facility, members must identify the original report of the previously submitted trade by including the original report date and the control number assigned by the FINRA/NYSE Trade Reporting Facility to the original trade report.

(g) A member may agree to allow a Participant to report and lock-in trades on its behalf, if both parties have completed an agreement to that effect (a "give up agreement") as specified by FINRA and submitted it to the FINRA/NYSE Trade Reporting Facility. However, the member with the reporting obligation remains responsible for the transaction submitted on its behalf. Further, both the member with the reporting obligation and the member submitting the trade to the FINRA/NYSE Trade Reporting Facility are responsible for ensuring that the information submitted is in compliance with all applicable rules and regulations.

**(h) Prohibition on Aggregation of Transaction Reports**

Individual executions of orders in a security at the same price may not be aggregated, for purposes of transaction reporting to the FINRA/NYSE TRF, into a single transaction report.

---

**• • • Supplementary Material: -----**

.01 Members that would otherwise have the trade reporting obligation under paragraph (b) of this Rule must provide to FINRA notice that they are relying on the exception from trade reporting under paragraph (e)(1)(A) of this Rule for transactions that are part of an unregistered secondary distribution. For each transaction that is part of the unregistered secondary distribution and not trade reported, the member must provide the following information to FINRA: security name and symbol, execution date, execution time, number of shares, trade price and parties to the trade. Such notice and information must be provided no later than three (3) business days following trade date and in such form as specified by FINRA. If the trade executions will occur over multiple days, then initial notice and available information must be provided no later than three (3) business days following the first trade date and final notice and information must be provided no later than three (3) business days following the last trade date. The member must retain records sufficient to document the basis for relying on this trade reporting exception, including but not limited to, the basis for determining that the definition of "distribution" under Rule 100 of SEC Regulation M has been satisfied, as well as evidence of compliance with applicable notification requirements under [Rule 5190](#).

**.02 Trade Reporting Time Frame**

(a) With respect to the requirement under paragraphs (a) and (f) of this Rule that members report trades and trade cancellations "as soon as practicable," a member with the trade reporting obligation under paragraph (b) of this Rule must adopt policies and procedures reasonably designed to comply with this requirement and must implement systems that commence the trade reporting process without delay upon execution (or cancellation, as applicable). Where a member has such reasonably designed policies, procedures and systems in place, the member generally will not be viewed as violating the "as soon as practicable" requirement because of delays in trade reporting that are due to extrinsic factors that are not reasonably predictable and where the member does not purposely intend to delay the reporting of the trade. In no event may a member purposely withhold trade reports, e.g., by programming its systems to delay reporting until the last permissible second.

(b) FINRA recognizes that a very small universe of trades are reported manually, and as a result, even where a member does not purposely withhold trade reports, the trade reporting process may not be completed within 10 seconds following execution. In these cases, for purposes of determining whether "reasonable justification" exists to excuse what otherwise may be deemed to be a pattern or practice of late trade reporting under this Rule and [Rule 6181](#), FINRA will take into consideration such factors as the complexity and manual nature of the execution and reporting of the trade, where the trade details must be manually entered into the trade reporting system following execution.

**.03** Trade reports of block transactions using the Intermarket Sweep Order (ISO) exception (outbound) under Rule 611 of SEC Regulation NMS must include the time that all material terms of the transaction are known (including, but not limited to, the final number of shares executed after reflecting any fills of routed ISOs) and, if different from the time of execution, members must also include the time that ISOs are sent to trading centers with protected quotations that are priced superior to the block transaction price.

**.04** All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

## 6420. Definitions

(a) Terms used in this Rule shall have the same meaning as those defined in the FINRA By-Laws and rules unless otherwise specified herein.

(b) "Direct participation program" or DPP, means a program which provides for flow-through tax consequences regardless of the structure of the legal entity or vehicle for distribution including, but not limited to, oil and gas programs, real estate programs, agricultural programs, cattle programs, condominium securities, Subchapter S corporate offerings and all other programs of a similar nature, regardless of the industry represented by the program, or any combination thereof. A program may be composed of one or more legal entities or programs but when used herein, the term shall mean each of the separate entities or programs making up the overall program and/or the overall program itself. Excluded from this definition are real estate investment trusts, tax qualified pension and profit sharing plans pursuant to Sections 401 and 403(a) of the Internal Revenue Code and individual retirement plans under Section 408 of that Code, tax sheltered annuities pursuant to the provisions of Section 403(b) of the Internal Revenue Code, and any company, including separate accounts, registered pursuant to the Investment Company Act.

(c) "Inter-dealer quotation system" shall mean any system of general circulation to brokers or dealers which regularly disseminates quotations of identified brokers or dealers.

(d) "Non-Market Maker" means a member of FINRA that is not an OTC Market Maker with respect to a particular OTC Equity Security.

(e) "Normal market hours" means 9:30 a.m. Eastern Time to 4:00 p.m. Eastern Time.

(f) "OTC Equity Security" means any equity security that is not an "NMS stock" as that term is defined in Rule 600(b) of SEC Regulation NMS; provided, however, that the term "OTC Equity Security" shall not include any Restricted Equity Security.

(g) "OTC Market Maker" means a member of FINRA that holds itself out as a market maker by entering proprietary quotations or indications of interest for a particular OTC Equity Security in any inter-dealer quotation system, including any system that the SEC has qualified pursuant to Section 17B of the Exchange Act. A member is an OTC Market Maker only in those OTC Equity Securities in which it displays market making interest via an inter-dealer quotation system.

(h) "Priced entry" shall mean a quotation consisting of a bid, offer, or both at a specified price.

(i) "Quotation" shall mean any bid or offer at a specified price with respect to an OTC Equity Security, or any indication of interest by a broker or dealer in receiving bids or offers from others for such a security, or any indication by a broker or dealer that it wishes to advertise its general interest in buying or selling a particular non-exchange-listed security.

(j) "Quotation medium" means any inter-dealer quotation system or any publication or electronic communications network or other device that is used by brokers or dealers to make known to others their interest in transactions in any OTC Equity Security, including offers to buy or sell at a stated price or otherwise, or invitations of offers to buy or sell.

(k) "Restricted Equity Security" means any equity security that meets the definition of "restricted security" as contained in Securities Act Rule 144(a)(3).

(l) "Stop Stock Price" means the specified price at which a member and another party agree a Stop Stock Transaction shall be executed, and which price is based upon the prices at which the security is trading at the time the order is received by the member, taking into consideration that the specified price may deviate from the current market prices to factor in the size of the order and the number of shares available at those prices.

(m) "Stop Stock Transaction" means any transaction that meets both of the following conditions:

(1) the transaction is the result of an order in which a member and another party agree that the order shall be executed at a Stop Stock Price or better; and

(2) the order is executed at the Stop Stock Price.

(n) "OTC Reporting Facility" means the service provided by FINRA that accommodates reporting for trades in OTC Equity Securities executed other than on or through an exchange and for trades in Restricted Equity Securities effected under Securities Act Rule 144A and dissemination of last sale reports. Regarding those OTC Equity Securities and Restricted Equity Securities that are not eligible for clearance and settlement through the facilities of the National Securities Clearing Corporation, the OTC Reporting Facility comparison function will not be available. However, the OTC Reporting Facility will support the entry and dissemination, as applicable, of last sale data on such securities.

(o) "OTC Reporting Facility Participant" means any member of FINRA in good standing that uses the OTC Reporting Facility.

## 6432. Compliance with the Information Requirements of SEA Rule 15c2-11

(a) Except as provided in SEA Rules 15c2-11(a)(1)(ii), 15c2-11(f)(1) through (7), and 15c2-11(g), no member shall initiate or resume the quotation of a non-exchange-listed security in any quotation medium unless the member has demonstrated compliance with this Rule and the applicable requirements for information maintenance under SEA Rule 15c2-11. Except as provided in paragraph (b) of this Rule, a member shall demonstrate compliance by making a filing with, and in the form required by, FINRA and must receive notification from FINRA that such form has been processed before initiating or resuming quotations in the quotation medium.

(b) Any qualified inter-dealer quotation system that has made a publicly available determination described in SEA Rule 15c2-11(a)(2) with respect to a non-exchange-listed security shall demonstrate compliance with this Rule and the applicable requirements for information maintenance under SEA Rule 15c2-11 by making a filing with, and in the form required by, FINRA. Such filing must be received no later than 6:30:00 p.m. Eastern Time on the business day following the qualified inter-dealer quotation system's publicly available determination under SEA Rule 15c2-11(a)(2).

(c) The information to be filed shall contain:

(1) One copy of all information required to be maintained under SEA Rule 15c2-11(b)(1), (2), (3), (4), or (5), including any information that may be required by future amendments thereto. Members are not required to file with FINRA copies of any information that is available through the SEC's Electronic Data Gathering, Analysis, and Retrieval ("EDGAR") system; provided, however, that the filing with FINRA shall contain identifying information for each issuer report or statement available through EDGAR that was relied upon in satisfying the member's obligations under this Rule and SEA Rule 15c2-11(b), (including the type of report, report date and any other information as may be requested by FINRA). If the information specified under SEA Rule 15c2-11(b)(1), (2), (3), (4), or (5) is not available on EDGAR and is publicly available through a qualified inter-dealer quotation system, in lieu of filing a copy of the required information, the filing with FINRA may contain identifying information for each issuer report or statement available through the qualified inter-dealer quotation system that was relied upon in satisfying the member's obligations under this Rule and SEA Rule 15c2-11(a)(1)(i) or (a)(2), as applicable (including the type of report, report date, the permanent website address of the location of the information on the website of the qualified inter-dealer quotation system or its affiliate broker-dealer, and any other information as may be requested by FINRA).

(2) Identification of the issuer, the issuer's predecessor in the event of a merger or reorganization within the previous 12 months, the type of non-exchange-listed security to be quoted (e.g., ADR, warrant, unit, or common stock), the quotation medium to be used, a list of all officers and directors of the issuer, the member's initial or resumed quotation (except with respect to a qualified inter-dealer quotation system), and the particular subsection of SEA Rule 15c2-11 with which the member is demonstrating compliance.

(3) If a member is initiating or resuming quotation of a non-exchange-listed security with a priced entry, the basis upon which that priced entry was determined and the factors considered in making that determination.

(4) A certification that neither the member nor persons associated with the member have accepted or will accept any payment or other consideration prohibited by FINRA [Rule 5250](#).

(d) Except with respect to a qualified inter-dealer quotation system, if a member's initial or resumed quotation does not include a priced entry, a member shall supplement its prior filing under this Rule, in the form required by FINRA, before inserting a priced entry for the affected non-exchange-listed security in a quotation medium. The supplemental filing shall specify the basis upon which the proposed priced entry was determined and the factors considered in making that determination. A member other than a qualified inter-dealer quotation system must submit the supplemental filing to FINRA and must receive notification from FINRA that such filing has been processed before the member may enter a priced quotation for the non-exchange-listed security in the quotation medium.

(e) All filings made with FINRA under this Rule must be reviewed and signed by a principal of the member firm.

(f) For purposes of this Rule, the term "non-exchange-listed security" means any equity security, other than a Restricted Equity Security, that is not traded on any national securities exchange.

(g) The term "qualified inter-dealer quotation system" has the same meaning as defined in SEA Rule 15c2-11(e)(6).

---

### • • • Supplementary Material: -----

.01 Any member initiating or resuming quotations in reliance on the exception provided by SEA Rule 15c2-11(f)(2) must be able to demonstrate eligibility for the exception by making a contemporaneous record of:

(a) the identification of each associated person who receives the unsolicited customer order or indication of interest directly from the customer, if applicable;

(b) the identity of the customer;

(c) the date and time the unsolicited customer order or indication of interest was received; and

(d) the terms of the unsolicited customer order or indication of interest that is the subject of the quotation (e.g., security name and symbol, size, side of the market, duration (if specified) and, if priced, the price).

Any member displaying a quote representing an unsolicited customer order or indication of interest that was received from another broker-dealer must contemporaneously record the identity of the person from whom information regarding the unsolicited customer order or indication of interest was received, if applicable; the date and time the unsolicited customer order or indication of interest was received by the member displaying the quotation; and the terms of the order that is the subject of the quotation.

**.02 Qualified Inter-dealer Quotation System Daily File.** Where the qualified inter-dealer quotation system has made one or more publicly available determinations described in SEA Rule 15c2-11(a)(2), (f)(2)(iii)(B), (f)(3)(ii)(A), or (f)(7), the qualified inter-dealer quotation system must submit to FINRA a daily file containing the following information for all non-exchange listed equity securities quoted on its system:

(a) Security symbol;

(b) Issuer name;

(c) If the non-exchange-listed security is being quoted pursuant to a processed Form 211 under Rule 6432(a);

(d) If applicable, the type of publicly available determination made by the qualified inter-dealer quotation system (e.g., pursuant to SEA Rule 15c2-11(a)(2), 15c2-11 (f)(2)(iii)(B), 15c2-11(f)(7), etc.) and the date on which such publicly available determination was made by the qualified inter-dealer quotation system;

(e) With respect to a non-exchange-listed security for which the qualified inter-dealer quotation system has made a publicly available determination under SEA Rule 15c2-11(f)(7) relating to the availability of the piggyback exception under SEA Rule 15c2-11(f)(3), whether the issuer is a shell company and, if a shell company, the number of days remaining in the applicable 18-month period under SEA Rule 15c2-11(f)(3)(i)(B)(2);

(f) If applicable, that the security is being quoted pursuant to an exception that does not rely on the qualified inter-dealer quotation system's publicly available determination and, if so, identify the exception relied upon by the subscriber; and

(g) Such other information as specified by FINRA in a Regulatory Notice (or similar communication).

(a) The member inter-dealer quotation system must establish, maintain and enforce written policies and procedures relating to the collection and dissemination of quotation information in OTC Equity Securities on or through its system. Such written policies and procedures and any material updates, modifications and revisions thereto must be prominently disclosed to subscribers within five business days following the date of establishment of the policy or procedure or implementation of the material change and provided to prospective subscribers upon request. These policies and procedures must be reasonably designed to ensure that quotations received and disseminated are informative, reliable, accurate, firm and treated in a not unfairly discriminatory manner, including by establishing non-discretionary standards under which quotations are prioritized and displayed;

(b) The member inter-dealer quotation system must establish non-discriminatory written standards for granting access to quoting and trading in OTC Equity Securities on its system that do not unreasonably prohibit or limit any person in respect to access to services offered by such member inter-dealer quotation system. Such written standards and any material updates, modifications and revisions thereto must be prominently disclosed to subscribers within five business days following the date of establishment of the written standards or implementation of the material change and provided to prospective subscribers upon request. A member inter-dealer quotation system must make and keep records of all grants of access including (for all subscribers) the reasons for granting such access and all denials or limitations of access and reasons (for each applicant) for denying or limiting access;

(c) Member inter-dealer quotation systems that do not automatically execute all orders presented for execution against displayed quotations for which a member subscriber has a Rule 5220 obligation must establish, maintain and enforce written policies and procedures reasonably designed to address instances of unresponsiveness to orders in an OTC Equity Security. These policies and procedures must, at a minimum, specify an efficient process for:

(1) monitoring subscriber unresponsiveness;

(2) subscribers submitting to the member inter-dealer quotation system complaints regarding potential instances of order unresponsiveness;

(3) documenting the subscriber's rationale for unresponsiveness; and

(4) determining specified steps when an instance or repeated order unresponsiveness may have occurred;

(d) Member inter-dealer quotation systems that do not automatically execute all orders presented for execution against displayed quotations for which a member subscriber has a Rule 5220 obligation must provide to FINRA aggregated information per member subscriber market participant identifier (MPID) across all symbols quoted by the MPID during the preceding calendar month. The following information must be reported on a monthly basis in the form and manner prescribed by FINRA:

(1) Total number of marketable orders presented for execution against the MPID's quotation;

(2) Average execution (full or partial) time for marketable orders presented against the MPID's quotation based on the time an order is presented;

(3) Total number of full or partial executions based on the time a marketable order is presented that are within the following execution timeframes: < 5 seconds; ≥ 5 seconds and < 10 seconds; ≥10 and < 20 seconds; and ≥ 20 seconds;

(4) Total number of marketable orders presented against the MPID's quotation that did not receive a full or partial execution; and

(5) Average response time of the highest 10% and highest 50% of the MPID's response times for marketable orders (for full or partial executions);

(e) The member inter-dealer quotation system must make available to customers on its (or its affiliate distributor's) website a written description of each OTC Equity Security order- or quotation-related data product offered by such member inter-dealer quotation system and all related pricing information, including fees, rebates, discounts and cross-product pricing incentives. Such information must be made available at least two business days in advance of offering the data product. The website page(s) describing the OTC Equity Security order or quotation data product offerings and all related pricing information must be kept accurate and up-to-date with respect to the required data product descriptions and pricing information. Such notification must include, on a reasonable best efforts basis, a brief description of the event, its impact, and the member inter-dealer quotation system's resolution efforts.

## 6440. Trading and Quotation Halt in OTC Equity Securities

### (a) Authority for Initiating a Trading and Quotation Halt

In circumstances in which it is necessary to protect investors and the public interest, FINRA may direct members, pursuant to the procedures set forth in paragraph (b), to halt trading and quotations in OTC Equity Securities (as such term is defined in Rule 6420) if:

- (1) the OTC Equity Security or the security underlying an American Depositary Receipt ("ADR") that is an OTC Equity Security ("OTC ADR") is listed on or registered with a foreign securities exchange or market, and the foreign securities exchange, market, or regulatory authority overseeing such issuer, exchange, or market, halts trading in such security for regulatory reasons because of public interest concerns or for news pending; provided, however, that FINRA will not impose a trading and quotation halt if the Foreign Regulatory Halt was imposed solely for a regulatory filing deficiency, or operational reasons ("Foreign Regulatory Halt");
- (2) the OTC Equity Security or the security underlying an OTC ADR is a derivative or component of a security listed on or registered with a national securities exchange or foreign securities exchange or market ("listed security") and the national securities exchange, or foreign securities exchange or market imposes a trading halt in the listed security ("Derivative Halt"); or
- (3) FINRA determines that an extraordinary event has occurred or is ongoing that has had a material effect on the market for the OTC Equity Security or the security underlying an OTC ADR or has caused or has the potential to cause major disruption to the marketplace or significant uncertainty in the settlement and clearance process ("Extraordinary Event Halt").

### (b) Procedure for Initiating a Trading and Quotation Halt

- (1) Upon notice of a Foreign Regulatory Halt or Derivative Halt from: (A) the national or foreign securities exchange or market on which the OTC Equity Security or the security underlying the OTC ADR is listed or registered, (B) a regulatory authority overseeing such issuer, exchange, or market, or (C) another reliable third-party source where FINRA can validate the information provided, FINRA will promptly initiate a trading and quotation halt in the OTC Equity Security. The commencement of the trading and quotation halt for the OTC Equity Security will be effective simultaneous with the issuance of appropriate public notice by FINRA.
- (2) After FINRA initiates a halt in an OTC Equity Security as a result of a Foreign Regulatory Halt or a Derivative Halt, FINRA may continue the halt in trading and quoting in the OTC market for the OTC Equity Security until such time as FINRA receives notice that the applicable regulatory authority has or intends to resume trading in the security.
- (3) After FINRA initiates a halt in an OTC Equity Security as a result of an Extraordinary Event Halt, trading and quotations in the OTC market for the OTC Equity Security may resume when FINRA determines that the basis for the halt no longer exists, or when ten business days have elapsed from the date FINRA initiated the trading and quotation halt in the security, whichever occurs first.
- (4) FINRA shall disseminate appropriate public notice that a trading and quotation halt initiated under this Rule is no longer in effect.

### (c) Violation of OTC Trading and Quotation Halt Rule

If a security is subject to a trading and quotation halt initiated pursuant to this Rule, it shall be deemed conduct inconsistent with just and equitable principles of trade and a violation of Rule 2010 for a member:

- (1) to effect, directly or indirectly, a trade in such security; or
- (2) to publish a quotation, a priced bid and/or offer, an unpriced indication of interest (including "bid wanted" and "offer wanted" indications), or a bid or offer accompanied by a modifier to reflect unsolicited customer interest, in any quotation medium. For purposes of this Rule, "quotation medium" shall mean any: system of general circulation to brokers or dealers that regularly disseminates quotations of identified brokers or dealers; or publication, alternative trading system or other device that is used by brokers or dealers to disseminate quotations to others.

---

### • • • Supplementary Material: -----

**.01 Discretion for Extraordinary Event Halts.** FINRA may impose a trading and quotation halt in an OTC Equity Security pursuant to Rule 6440(a)(3) where FINRA determines, in its discretion, based on the facts and circumstances of the particular event, that halting trading in the security is the appropriate mechanism to protect investors and ensure a fair and orderly marketplace. As a general matter, FINRA does not favor imposing a trading and quotation halt in an OTC Equity Security and will exercise this authority in very limited circumstances. FINRA may also determine to extend an Extraordinary Event Halt that has been initiated pursuant to Rule 6440 (a)(3) to continue in effect for subsequent periods of up to 10 business days each if, at the time of any such extension, FINRA finds that the extraordinary event is ongoing and determines that the continuation of the halt beyond the prior 10 business day period is necessary in the public interest and for the protection of investors.

**.02 Factors Considered.** In determining whether to impose an Extraordinary Event Halt under Rule 6440(a)(3), FINRA will consider several factors in making its determination, including but not limited to: (1) the material nature of the event; (2) the material facts surrounding the event are undisputed and not in conflict; (3) the event has caused widespread confusion in the trading of the security; (4) there has been a material negative effect on the market for the subject security; (5) the potential exists for a major disruption to the marketplace; (6) there is significant uncertainty in the settlement and clearance process for the security; and/or (7) such other factors as FINRA deems relevant in making its determination. FINRA may review all or some of these factors as it determines appropriate.

## 6490. Processing of Company-Related Actions

### (a) General

(1) In furtherance of FINRA's obligations to foster cooperation and coordination of the clearing, settling and processing of transactions in equity and debt securities of any issuer with a class of publicly traded, non-exchange listed, securities in the OTC market and, in general, to protect investors and the public interest, FINRA's Operations Department ("Department") reviews and processes documents related to announcements for SEA Rule 10b-17 Actions and Other Company-Related Actions to facilitate the orderly trading and settlement of OTC securities.

(2) For purposes of this Rule, the term "SEA Rule 10b-17 Actions" includes, dividends or other distributions in cash or kind, stock splits or reverse stock splits, or rights or other subscription offerings, and such other actions as are provided for in SEA Rule 10b-17; and the term "Other Company-Related Actions" includes, but is not limited to, any issuance or change to a symbol or name, mergers, acquisitions, dissolutions or other company control transactions; and bankruptcy or liquidations.

(3) This Rule details the advance notification, supporting documentation and fees required by FINRA to process documentation related to such requests.

### (b) Request for FINRA Action

(1) An issuer or other duly authorized representative of the issuer may request that FINRA process documentation related to an SEA Rule 10b-17 Action or Other Company-Related Action by submitting a signed request in the manner and form required by FINRA ("Requesting Party"). Initial symbol set up requests may also be submitted by members or associated persons of members in order to comply with regulatory reporting requirements.

(2) All requests to process documentation related to an SEA Rule 10b-17 Action must be complete and submitted to the Department, in the manner and form required, no later than the time frame specified in SEA Rule 10b-17. A Requesting Party that does not submit a completed request to the Department, in the manner and form required, within the time frame specified in SEA Rule 10b-17, shall be deemed "late" and, as set forth in this Rule, subject to an additional fee before the request may be processed. Nothing in the Rule shall alter the obligations of an issuer under SEA Rule 10b-17 and the processing of documentation related to a "late" SEA Rule 10b-17 Action request by FINRA shall not relieve an issuer of any violations under such rule.

(3) All requests to process documentation related to Other Company-Related Actions must be complete and submitted to the Department, in the manner and form required, no later than the time period prescribed for such Other Company-Related Action by FINRA. Notice and information submitted for Other Company-Related Actions must be submitted no later than 10 calendar days prior to the effective date of the company action. A Requesting Party that does not submit a completed FINRA action form to the Department, in the manner and form prescribed, at least ten (10) calendar days prior to the proposed effective date of the company action, shall be deemed "late" and as set forth in this Rule, subject to an additional fee before being processed.

(4) The Department may request such additional information or documentation as may be necessary for the Department to review the request to process documentation related to an SEA Rule 10b-17 Action or Other Company-Related Action and verify the accuracy of the information submitted.

### (c) Fees

The Requesting Party shall pay the following non-refundable fees for the review and processing of documentation related to an SEA Rule 10b-17 Action and Other Company-Related Action:

SEA Rule 10b-17 Action	Fee
Timely SEA Rule 10b-17 Notification	\$200
Late SEA Rule 10b-17 Notification Submitted at least 5 calendar days prior to Corporate Action Date	\$1,000

Late SEA Rule 10b-17 Notification Submitted at least 1 calendar day prior to Corporate Action Date	\$2,000
Late SEA Rule 10b-17 Notification Submitted on or after Corporate Action Date	\$5,000
<b>Other Company-Related Action</b>	<b>Fee</b>
Voluntary Symbol Request Change	\$500
Initial Symbol Set Up	No Charge
Symbol Deletion	No Charge
<b>Appeals</b>	<b>Fee</b>
Action Determination Appeal Fee	\$4,000

#### **(d) Procedures for Reviewing Submissions**

##### **(1) Review**

The Department shall review all requests to process documentation related to SEA Rule 10b-17 Actions and Other Company-Related Actions that are submitted pursuant to this Rule, including any additional documents or information requested in accordance with paragraph (b) above. All such requests must be accompanied by proof of payment of the requisite fee when appropriate in accordance with paragraph (c) above.

##### **(2) Lapsed Requests**

Where a Requesting Party does not, in the reasonable determination of the Department, sufficiently respond to any request by the Department for additional information or documentation pursuant to paragraph (b)(3) above within 90 calendar days following such Department request, such party's request shall be deemed "lapsed" and be closed.

##### **(3) Deficiency Determination**

In circumstances where an SEA Rule 10b-17 Action or Other Company-Related Action is deemed deficient, the Department may determine that it is necessary for the protection of investors, the public interest and to maintain fair and orderly markets, that documentation related to such SEA Rule 10b-17 Action or Other Company-Related Action will not be processed. In instances where the Department makes such a deficiency determination, the request to process documentation related to the SEA Rule 10b-17 Action or Other Company-Related Action, as applicable, will be closed, subject to paragraphs (d)(4) and (e) of this Rule. The Department shall make such deficiency determinations solely on the basis of one or more of the following factors: (1) FINRA staff reasonably believes the forms and all supporting documentation, in whole or in part, may not be complete, accurate or with proper authority; (2) the issuer is not current in its reporting requirements, if applicable, to the SEC or other regulatory authority; (3) FINRA has actual knowledge that the issuer, associated persons, officers, directors, transfer agent, legal adviser, promoters or other persons connected to the issuer or the SEA Rule 10b-17 Action or Other Company-Related Action are the subject of a pending, adjudicated or settled regulatory action or investigation by a federal, state or foreign regulatory agency, or a self-regulatory organization; or a civil or criminal action related to fraud or securities laws violations; (4) a state, federal or foreign authority or self-regulatory organization has provided information to FINRA, or FINRA otherwise has actual knowledge indicating that the issuer, associated persons, officers, directors, transfer agent, legal adviser, promoters or other persons connected with the issuer or the SEA Rule 10b-17 Action or Other Company-Related Action may be potentially involved in fraudulent activities related to the securities markets and/or pose a threat to public investors; and/or (5) there is significant uncertainty in the settlement and clearance process for the security.

##### **(4) Notice Regarding Determination**

If the Department determines that a request to process documentation related to a SEA Rule 10b-17 Action or a Other Company-Related Action is deficient, FINRA staff shall provide written notice to the Requesting Party. Any notice issued under this paragraph shall state the specific factor(s) that caused the request to be deemed deficient and the Requesting Party may appeal a determination pursuant to paragraph (e) of this Rule.

##### **(5) Notice Issuance**

#### (e) Request for an Appeal to Subcommittee of Uniform Practice Code Committee

A Requesting Party issued a notice under this Rule may appeal a determination made under paragraph (d)(3) of this Rule to a three-member subcommittee composed of current or former industry members of FINRA's Uniform Practice Code Committee in writing via electronic mail, unless an alternative method of service is ordered by the Adjudicator, within seven calendar days after service of the notice. Service of the appeal by electronic mail shall be deemed complete upon sending. The written request for an appeal must be accompanied by proof of payment of the non-refundable Action Determination Appeal Fee. A request for an appeal must set forth with specificity any and all defenses to the Department's determination that a request was unacceptable or otherwise deficient. An appeal to the subcommittee shall operate to stay the processing of the company-related action (i.e., the requested company-related action shall not be processed during the period that the Requesting Party requests an appeal or while any such appeal is pending). Once a written appeal has been received, the Requesting Party may submit any additional supporting written documentation via electronic mail, unless an alternative method of service is ordered by the Adjudicator, up until the time the appeal is considered by the subcommittee. The subcommittee shall convene once each calendar month to consider all appeals received under this Rule during the prior month. The subcommittee shall render a determination within three business days following the day the appeal is considered by the subcommittee. The subcommittee's determination shall constitute final action by FINRA. The subcommittee's determination shall not constitute an estoppel as to FINRA nor bind FINRA in any subsequent administrative, civil, or disciplinary proceeding. If the Requesting Party fails to file a written request for an appeal within seven calendar days after service of the notice by the Department, the Department's determination shall constitute final action by FINRA.

**.01 SEA Rule 10b-17 Fee Accumulations.** In accordance with the time-frames specified in SEA Rule 10b-17, OTC issuers must provide FINRA with written notice prior to a dividend or any other distribution in cash or in kind, rights or other subscription offerings, forward stock splits, and reverse stock splits. In addition, pursuant to Rule 6490 OTC issuers must pay any applicable fees. Notwithstanding the timeliness of the SEA Rule 10b-17 Action submission or the failure to pay applicable fees, FINRA will make its best efforts to process documentation related to SEA Rule 10b-17 Actions that are not otherwise deemed incomplete or otherwise deficient by FINRA because of the critical nature of this information to the marketplace. Although FINRA may process documentation related to SEA Rule 10b-17 Actions even if a fee remains unpaid, FINRA accumulates all unpaid SEA Rule 10b-17 Action fees associated with a specific OTC issuer symbol. Regardless of the current ownership status or transaction history of an OTC issuer, FINRA will not process documentation related to Voluntary Symbol Request Changes until all unpaid accumulated late fees have been paid for the associated OTC symbol.

**.02 Requests by Third-Parties.** Pursuant to SEA Rule 10b-17, OTC issuers must provide FINRA with written notice generally within the time-frames specified in SEA Rule 10b-17. In certain circumstances, FINRA is contacted by a third-party, such as DTCC, foreign exchanges or regulators, members or associated persons, regarding an SEA Rule 10b-17 Action or Other Company Related Action. In such cases, FINRA requests that the third-party contact the issuer in question regarding its obligations under SEA Rule 10b-17 or other rules and regulations, as applicable, and instruct such issuer to contact FINRA directly to provide notice and complete the requisite forms. However, FINRA may in its discretion review and process an SEA Rule 10b-17 Action or Other Company-Related Action based on information from a third-party when it believes such action is necessary for the protection of the market and investors and/or FINRA has been unable to obtain notification from the issuer.

• • • **Supplementary Material:** -----

**.01 De Minimis Loan Transaction Activity.** Notwithstanding paragraph (c)(1) of this Rule, FINRA will not include aggregate volume information for a Reportable Security unless there were reports submitted to SLATE on the prior business day for at least ten distinct Covered Securities Loans in the Reportable Security (represented by different FINRA-assigned unique loan identifiers).

**.02 Means of Data Dissemination.** FINRA will make the data pursuant to this Rule available on its website free of charge for personal, non-commercial purposes only. Nothing in this Rule shall prohibit FINRA from also publishing or distributing SLATE data for fees that have been filed with the SEC pursuant to Rule 19b-4 under the Exchange Act.

## 6622. Transaction Reporting

### (a) When and How Transactions are Reported

(1) OTC Reporting Facility Participants shall, as soon as practicable but no later than 10 seconds after execution, transmit to the OTC Reporting Facility, or if the OTC Reporting Facility is unavailable due to system or transmission failure, by telephone to the Operations Department, last sale reports of transactions in OTC Equity Securities executed during normal market hours. Transactions not reported within 10 seconds after execution shall be designated as late.

### (2) Transaction Reporting Outside Normal Market Hours

(A) Last sale reports of transactions in OTC Equity Securities executed between 8:00 a.m. and 9:30 a.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(B) Last sale reports of transactions in OTC Equity Securities executed between 4:00 p.m. and 8:00 p.m. Eastern Time shall be reported as soon as practicable but no later than 10 seconds after execution and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(C) Last sale reports of transactions in OTC Equity Securities executed between midnight and 8:00 a.m. Eastern Time shall be reported by 8:15 a.m. Eastern Time on trade date and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

(D) Last sale reports of transactions in OTC Equity Securities executed (i) between 8:00 p.m. and midnight Eastern Time or (ii) on any non-business day (i.e., weekend or holiday) shall be reported the following business day by 8:15 a.m. Eastern Time, be designated "as/of" trades to denote their execution on a prior day and be designated with the unique trade report modifier, as specified by FINRA, to denote their execution outside normal market hours.

### (3) Transaction Reporting for Restricted Equity Securities

(A) Last sale reports of transactions in Restricted Equity Securities effected under Securities Act Rule 144A and executed between midnight and 8:00 p.m. Eastern Time shall be reported on the same business day as the transaction.

(B) Last sale reports of transactions in Restricted Equity Securities effected under Securities Act Rule 144A executed (i) between 8:00 p.m. and midnight Eastern Time or (ii) on any non-business day (i.e., weekend or holiday) shall be reported the following business day by 8:00 p.m. Eastern Time and be designated "as/of" trades to denote their execution on a prior day.

(4) Transactions not reported within 10 seconds after execution, or such other time period prescribed by rule, shall be designated as late. Any transaction that is required to be reported on trade date, but is not reported on trade date, must be reported on an "as/of" basis on a subsequent date (T+N) and shall be designated as late. Any transaction that is required to be reported on an "as/of" basis the following business day (T+1), but is not reported T+1, must be reported on a subsequent date (T+N) and shall be designated as late. A pattern or practice of late reporting without reasonable justification or exceptional circumstances may be considered conduct inconsistent with high standards of commercial honor and just and equitable principles of trade in violation of [Rule 2010](#).

(5) Members also shall append the applicable trade report modifiers as specified by FINRA to all last sale reports, including reports of "as/of" trades:

(A) if the trade is executed during normal market hours and it is reported later than 10 seconds after execution;

(B) if the trade is a Seller's Option Trade, denoting the number of days for delivery;

(C) if the trade is a Cash Trade;

(D) Reserved;

(E) if the trade occurs at a price based on an average weighting or another special pricing formula;

(F) if the trade is a Stop Stock Transaction (as defined in [Rule 6420](#)) (Note: the transaction report shall include both the time of execution of the trade and the time at which the member and the other party agreed to the Stop Stock Price; if the Stop Stock Transaction is executed and reported within 10 seconds of the time the member and the other party agree to the Stop Stock Price, the designated modifier shall not be appended and only the time of execution of the trade shall be reported);

Reprinted with permission from FINRA. Version date February 17, 2025.

(G) if the transaction report reflects a price different from the current market when the execution price is based on a prior reference point in time (Note: the transaction report shall include both the time of execution of the trade and the prior reference time; if the trade is executed and reported within 10 seconds from the prior reference point in time, the designated modifier shall not be appended and only the time of execution of the trade shall be reported); and

(H) to identify pre-opening and after-hours trades (executed between 8:00 a.m. and 9:30 a.m. Eastern Time or between 4:00 p.m. and 8:00 p.m. Eastern Time) reported more than 10 seconds after execution.

To the extent that any of the modifiers required by this Rule conflict, FINRA shall provide guidance regarding the priorities among modifiers and members shall report in accordance with such guidance, as applicable.

(6) The OTC Reporting Facility will append the appropriate modifier to indicate that a trade was executed outside normal market hours or that a report was submitted late to the OTC Reporting Facility, where such report contains the time of execution, but does not contain the appropriate modifier.

(7) To identify pre-opening and after-hours trades in OTC Equity Securities reported late, the OTC Reporting Facility will convert to the late modifier, as applicable, on any pre-opening or after-hours report submitted to the OTC Reporting Facility more than 10 seconds after execution.

(8) All members shall report as soon as practicable to the Market Regulation Department on Form T, last sale reports of transactions in OTC Equity Securities or Restricted Equity Securities for which electronic submission to the OTC Reporting Facility is not possible (e.g., the ticker symbol for the security is no longer available or a market participant identifier is no longer active). Transactions that can be reported to the OTC Reporting Facility, whether on trade date or on a subsequent date on an "as/of" basis (T+N), shall not be reported on Form T.

#### **(b) Which Party Reports Transaction**

(1) In transactions between two members, the executing party shall report the transaction.

(2) In transactions between a member and a non-member or customer, the member shall report the transaction.

For purposes of this paragraph (b), "executing party" shall mean the member that receives an order for handling or execution or is presented an order against its quote, does not subsequently re-route the order, and executes the transaction. In a transaction between two members where both members may satisfy the definition of executing party (e.g., manually negotiated transactions via the telephone), the member representing the sell-side shall report the transaction, unless the parties agree otherwise and the member representing the sell-side contemporaneously documents such agreement.

#### **(c) Information To Be Reported**

Each last sale report shall contain the following information:

(1) Symbol of the OTC Equity Security or Restricted Equity Security;

(2) Number of shares;

(3) Price of the transaction as required by paragraph (d) below;

(4) A symbol indicating whether the transaction is a buy, sell or cross, and if applicable, sell short; and

(5) The time of execution expressed in hours, minutes, and seconds based on Eastern Time, unless another provision of FINRA rules requires that a different time must be included on the report.

#### **(d) Procedures for Reporting Price, Volume, Capacity and Identification of Other Members**

Members that are required to report pursuant to paragraph (b) above shall transmit last sale reports for all purchases and sales in OTC Equity Securities and Restricted Equity Securities in the following manner:

##### **(1) Reporting Agency Transactions**

For agency transactions, report the number of shares and the price excluding the commission charged.

##### **(2) Reporting Dual Agency Transactions**

For dual agency transactions, report the number of shares only once, and report the price excluding the commission charged.

##### **(3) Reporting Principal and Riskless Principal Transactions**

FINRA is a registered trademark of the Financial Industry Regulatory Authority, Inc.

Reprinted with permission from FINRA. Version date February 17, 2025.

(A) For principal transactions, except as provided in subparagraph (B) hereof, report each purchase and sale transaction separately and report the number of shares and the price. For principal transactions that are executed at a price that includes a mark-up, mark-down or service charge, the price reported shall exclude the mark-up, mark-down or service charge. Such reported price shall be reasonably related to the prevailing market, taking into consideration all relevant circumstances including, but not limited to, market conditions with respect to the OTC Equity Security, the number of shares involved in the transaction, the published bids and offers with size displayed in any inter-dealer quotation system at the time of the execution (including the reporting firm's own quotation), the cost of execution and the expenses involved in clearing the transaction.

(B) Exception: A "riskless" principal transaction in which a member, after having received an order to buy a security, purchases the security as principal at the same price to satisfy the order to buy or, after having received an order to sell, sells the security as principal at the same price to satisfy the order to sell, shall be reported as one transaction in the same manner as an agency transaction, excluding the mark-up or mark-down, commission-equivalent, or other fee. Alternatively, a member may report a riskless principal transaction by submitting the following report(s) to the OTC Reporting Facility:

(i) The member with the obligation to report the transaction pursuant to paragraph (b) above must submit a last sale report for the initial leg of the transaction.

(ii) Regardless of whether a member has a reporting obligation pursuant to paragraph (b) above, the firm must submit, for the offsetting, "riskless" portion of the transaction, either:

a. a clearing-only report with a capacity indicator of "riskless principal," if a clearing report is necessary to clear the transaction; or

b. a non-tape, non-clearing report with a capacity indicator of "riskless principal," if a clearing report is not necessary to clear the transaction.

**Example:**

SELL as a principal 100 shares to another member at 40 to fill an existing order;

BUY as principal 100 shares from a customer at 40 minus a mark-down of \$12.50;

REPORT 100 shares at 40 by submitting to the OTC Reporting Facility either a single trade report marked with a "riskless principal" capacity indicator or by submitting the following reports:

(1) where required by this Rule, a tape report marked with a "principal" capacity indicator; and

(2) either a non-tape, non-clearing report or a clearing-only report marked with a "riskless principal" capacity indicator.

**(4) Identification of Other Members for Agency and Riskless Principal Transactions**

Any member that has a reporting obligation pursuant to paragraph (b) above and is acting in a riskless principal or agency capacity on behalf of one or more other members shall submit to FINRA one or more non-tape (either non-tape, clearing-only or non-tape, non-clearing) report(s) identifying such other member(s) as a party to the transaction, if such other member(s) is not identified on the initial trade report submitted to FINRA or a report submitted to FINRA pursuant to Rule 6622(d)(3)(B) for the offsetting leg of a riskless principal transaction. Nothing in this Rule 6622(d)(4) shall negate or modify the riskless principal transaction reporting requirements set forth in Rule 6622(d)(3)(B).

**Example #1:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares from Member C at 40 (no mark-down included)

Member A has the reporting obligation under Rule 6622(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member C

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B

**Example #2A:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6622(b)

TAPE REPORT 100 shares at 40 By Member A between Member A and Member B (or Member C)

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C (or Member B)

**Example #2B:**

Member A MATCHES, as agent, the orders of Member B and Member C for 100 shares at 40

Member A has the reporting obligation under Rule 6622(b)

TAPE REPORT a CROSS of 100 shares at 40 By Member A

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member B *and*

NON-TAPE REPORT 100 shares at 40 By Member A identifying Member C

**Example #3:**

Member A, as agent or riskless principal on behalf of Member B, BUYS 100 shares on a foreign exchange at 40

DO NOT TAPE REPORT this leg if reported to foreign exchange

NO NON-TAPE REPORT required; however, Member A *may* submit a NON-TAPE REPORT as between Member A and Member B

**(e) Reporting Requirements For Certain Transactions and Transfers of Securities**

(1) The following shall not be reported to the OTC Reporting Facility:

(A) transactions that are part of a primary distribution by an issuer or a registered secondary distribution (other than "shelf distributions") or of an unregistered secondary distribution; for purposes of this subparagraph, the term "distribution" has the meaning set forth under Rule 100 of SEC Regulation M;

(B) transactions made in reliance on Section 4(2) of the Securities Act;

(C) transactions reported on or through an exchange;

(D) transfers of securities made pursuant to an asset purchase agreement (APA) that is subject to the jurisdiction and approval of a court of competent jurisdiction in insolvency matters, provided that the purchase price under the APA is not based on, and cannot be adjusted to reflect, the current market prices of the securities on or following the effective date of the APA; and

(E) the transfer of equity securities for the sole purpose of creating or redeeming an instrument that evidences ownership of or otherwise tracks the underlying securities transferred (e.g., an American Depositary Receipt or exchange-traded fund).

(2) The following shall not be reported to the OTC Reporting Facility for publication purposes, but shall be reported for regulatory transaction fee assessment purposes under [Rule 7330\(g\)](#):

(A) Transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security;

(B) Purchases or sales of securities effected upon the exercise of an option pursuant to the terms thereof or the exercise of any other right to acquire securities at a pre-established consideration unrelated to the current market; and

(C) Transfers of proprietary securities positions where the transfer (1) is effected in connection with a merger or direct or indirect acquisition and (2) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception.

**(f) Reporting Cancelled and Reversed Trades**

**(1) Obligation and Party Responsible for Reporting Cancelled and Reversed Trades**

With the exception of trades cancelled in accordance with the [Rule 11890](#) Series, members shall report to the OTC Reporting Facility the cancellation or reversal of any trade previously submitted to the OTC Reporting Facility. The member responsible under Rule 6622 for submitting the original trade report shall submit the cancellation or reversal report in accordance with the procedures set forth in paragraphs (f)(2), (3) and (4).

**(2) Deadlines for Reporting Cancelled and Reversed Trades in OTC Equity Securities**

(A) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or before 4:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation as soon as practicable but no later than 10 seconds after the time the trade is cancelled.

(B) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled after 4:00 p.m., but before 8:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall use its best efforts to report the cancellation not later than 8:00 p.m. on the date of execution, and otherwise it shall report the cancellation on the following business day by 8:00 p.m.

(C) For trades executed between 9:30 a.m. and 4:00 p.m. Eastern Time and cancelled at or after 8:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation on the following business day by 8:00 p.m.

(D) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled prior to 8:00 p.m. on the date of execution, the member responsible for reporting under paragraph (f)(1) shall report the cancellation by 8:00 p.m.

(E) For trades executed outside the hours of 9:30 a.m. to 4:00 p.m. Eastern Time and cancelled at or after 8:00 p.m. on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation on the following business day by 8:00 p.m.

(F) For any trade cancelled or reversed on any date after the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation (or reversal) (i) by 8:00 p.m. on the date of cancellation (or reversal) if the trade is cancelled (or reversed) before 8:00 p.m., or (ii) by 8:00 p.m. on the following business day if the trade is cancelled (or reversed) at or after 8:00 p.m.

(G) For purposes of determining the deadline by which a trade cancellation (or reversal) must be reported to the OTC Reporting Facility pursuant to paragraph (f) of this Rule, the term "cancelled" (or "reversed," as applicable) shall mean the time at which (i) the member with the reporting responsibility informs its contra party, or is informed by its contra party, that a trade is being cancelled (or reversed), (ii) the member with the reporting responsibility and its contra party agree to cancel (or reverse) a trade if neither party can unilaterally cancel (or reverse) the trade, or (iii) the member with the reporting responsibility takes an action to cancel (or reverse) the trade on its books and records, whichever event occurs first.

### **(3) Deadlines for Reporting Cancelled and Reversed Trades in Restricted Equity Securities**

(A) For trades previously submitted to the OTC Reporting Facility and cancelled before 8:00 p.m. Eastern Time on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation by 8:00 p.m.

(B) For trades cancelled at or after 8:00 p.m. Eastern Time on the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation on the following business day by 8:00 p.m.

(C) For any trade cancelled or reversed on any date after the date of execution, the member responsible under paragraph (f)(1) shall report the cancellation or reversal

(i) by 8:00 p.m. on the date of cancellation if the trade is cancelled before 8:00 p.m., or

(ii) by 8:00 p.m. on the following business day if the trade is cancelled at or after 8:00 p.m.

(4) When submitting a report of a reversal to the OTC Reporting Facility, members must identify the original report of the previously submitted trade by including the original report date and the control number assigned by the OTC Reporting Facility to the original trade report.

### **(g) Transactions in Foreign Equity Securities**

(1) For purposes of this paragraph, the term "foreign equity security" means any OTC Equity Security that is issued by a corporation or other entity incorporated or organized under the laws of any foreign country.

(2) Transactions in foreign equity securities shall be reported to the OTC Reporting Facility unless:

(A) the transaction is executed on and reported to a foreign securities exchange; or

(B) the transaction is executed over the counter in a foreign country and is reported to the regulator of securities markets for that country.

(h) A member may agree to allow another member to report and lock-in trades on its behalf, if both parties have completed an agreement to that effect (a "give up agreement") as specified by FINRA and submitted it to the OTC Reporting Facility. However, the member with the reporting obligation remains responsible for the transaction submitted on its behalf. Further, both the member with the reporting obligation and the member submitting the trade to the OTC Reporting Facility are responsible for ensuring that the information submitted is in compliance with all applicable rules and regulations.

Reprinted with permission from FINRA. Version date February 17, 2025.

**.01** For purposes of reporting secondary market transactions in non-exchange-listed DPP securities pursuant to this Rule 6622, the following definitions shall apply. "Date of execution" means the date when the parties to a transaction in a DPP have agreed to all of the essential terms of the transaction, including the price and number of the units to be traded. "Time of execution" means the time when the parties to a transaction in a DPP have agreed to all of the essential terms of the transaction, including the price and number of the units to be traded.

**.02** Members that would otherwise have the trade reporting obligation under paragraph (b) of this Rule must provide to FINRA notice that they are relying on the exception from trade reporting under paragraph (e)(1)(A) of this Rule for transactions that are part of an unregistered secondary distribution. For each transaction that is part of the unregistered secondary distribution and not trade reported, the member must provide the following information to FINRA: security name and symbol, execution date, execution time, number of shares, trade price and parties to the trade. Such notice and information must be provided no later than three (3) business days following trade date and in such form as specified by FINRA. If the trade executions will occur over multiple days, then initial notice and available information must be provided no later than three (3) business days following the first trade date and final notice and information must be provided no later than three (3) business days following the last trade date. The member must retain records sufficient to document the basis for relying on this trade reporting exception, including but not limited to, the basis for determining that the definition of "distribution" under Rule 100 of SEC Regulation M has been satisfied, as well as evidence of compliance with applicable notification requirements under [Rule 5190](#).

### **.03 Trade Reporting Time Frame**

(a) With respect to the requirement under paragraphs (a) and (f) of this Rule that members report trades and trade cancellations "as soon as practicable," a member with the trade reporting obligation under paragraph (b) of this Rule must adopt policies and procedures reasonably designed to comply with this requirement and must implement systems that commence the trade reporting process without delay upon execution (or cancellation, as applicable). Where a member has such reasonably designed policies, procedures and systems in place, the member generally will not be viewed as violating the "as soon as practicable" requirement because of delays in trade reporting that are due to extrinsic factors that are not reasonably predictable and where the member does not purposely intend to delay the reporting of the trade. In no event may a member purposely withhold trade reports, e.g., by programming its systems to delay reporting until the last permissible second.

(b) FINRA recognizes that a very small universe of trades are reported manually, and as a result, even where a member does not purposely withhold trade reports, the trade reporting process may not be completed within 10 seconds following execution. In these cases, for purposes of determining whether "reasonable justification" exists to excuse what otherwise may be deemed to be a pattern or practice of late trade reporting under this Rule and [Rule 6623](#), FINRA will take into consideration such factors as the complexity and manual nature of the execution and reporting of the trade, where the trade details must be manually entered into the trade reporting system following execution.

**.04** All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

## 6623. Timely Transaction Reporting

FINRA emphasizes the obligations of members to report securities transactions within the required time period. All reportable transactions not reported within the required time period shall be marked late, and FINRA routinely monitors members' compliance with the reporting requirements. If FINRA finds a pattern or practice of unexcused late reporting, that is, repeated reports of executions submitted after the required time period without reasonable justification or exceptional circumstances, the member may be found to be in violation of Rule 2010. Exceptional circumstances will be determined on a case-by-case basis and may include instances of system failure by a member or service bureau, or unusual market conditions, such as extreme volatility in a security, or in the market as a whole. Timely reporting of all transactions is necessary and appropriate for the fair and orderly operation of the marketplace, and FINRA will view noncompliance as a rule violation.

## 6624. Trade Reporting of Short Sales

Pursuant to applicable trade reporting rules, members must indicate on trade reports submitted to FINRA whether a transaction is a short sale transaction ("short sale reporting requirements"). The short sale reporting requirements apply to transactions in all OTC Equity Securities, as defined in Rule 6420. Thus, all short sale transactions in these securities reported to FINRA must carry a "short sale" indicator.

## 6625. Exemption from Trade Reporting Obligation for Certain Alternative Trading Systems

(a) Pursuant to the Rule 9600 Series, the staff for good cause shown after taking into consideration all relevant factors, may exempt, upon application and subject to specified terms and conditions, a member alternative trading system ("ATS") from the trade reporting obligation under paragraph (b) of Rule 6622, if such exemption is consistent with the protection of investors and the public interest. The staff will grant an exemption only if all of the following criteria are satisfied:

(1) Trades are between ATS subscribers that are both FINRA members.

(2) The ATS demonstrates that:

(A) The member subscribers are fully disclosed to one another at all times on the ATS;

(B) The system does not permit automatic execution, and a member subscriber must take affirmative steps beyond the submission of an order to agree to a trade with another member subscriber;

(C) The trade does not pass through any ATS account, and the ATS does not in any way hold itself out to be a party to the trade; and

(D) The ATS does not exchange shares or funds on behalf of the member subscribers, take either side of the trade for clearing or settlement purposes, including, but not limited to, at DTC or otherwise, or in any other way insert itself into the trade.

(3) The ATS and the member subscribers acknowledge and agree in writing that the ATS shall not be deemed a party to the trade for purposes of trade reporting and that trades shall be reported by the member subscriber that, as between the two member subscribers, would satisfy the definition of "executing party" under FINRA trade reporting rules.

(4) The ATS agrees to provide to FINRA on a monthly basis, or such other basis as prescribed by FINRA, data relating to the volume of trades by security executed by the ATS's member subscribers using the ATS's system, and the ATS acknowledges that failure to report such data to FINRA, in addition to constituting a violation of FINRA rules, will result in revocation of any exemption granted pursuant to this Rule.

(5) The ATS provides FINRA with a link to a public website that contains, at no charge and in a substantially similar format to ATS Trading Information published by FINRA pursuant to Rule 6110, its ATS Trading Information for OTC Equity Securities no later than four weeks following the end of the ATS Trading Information week.

(b) Where FINRA has granted an exemption under this Rule, trades shall be reported to FINRA by the member subscriber that, as between the two member subscribers, satisfies the definition of "executing party" under paragraph (b) of Rule 6622.

(c) Definitions

For purposes of this Rule, the term:

(1) "OTC Equity Security" has the same meaning as that term is defined in Rule 6420; and

(2) "ATS Trading Information" means:

(A) the number of shares of each OTC Equity Security executed within the ATS or executed by the ATS's member subscribers using the ATS's system; and

(B) the number of trades in an OTC Equity Security executed within the ATS or executed by the ATS's member subscribers using the ATS's system.

### ••• Supplementary Material: -----

**.01** When calculating and posting the volume of securities traded and the number of trades pursuant to paragraph (a)(5), an ATS shall include only those trades executed by the ATS's member subscribers using the ATS's system. If two orders are crossed by the ATS, the volume shall include only the number of shares crossed as a single trade (e.g., crossing a buy order of 1,000 shares with a sell order of 1,000 shares would be calculated as a single trade of 1,000 shares of volume). In addition, to meet the "substantially similar format" requirement in paragraph (a)(5), the data must include the same data elements for the same timeframes, be accessible in the same manner as FINRA makes data available (e.g., downloadable), and include data for the same time periods (including current and historical data).

Reprinted with permission from FINRA. Version date February 17, 2025.

.02 For purposes of calculating and posting volume under paragraph (a)(5) of this Rule, a trade is considered to be executed within an ATS if the ATS (i) executes the trade; (ii) is considered the "executing party" to the trade under FINRA rules; or (iii) otherwise matches orders constituting the trade in a manner as contemplated by SEA Rule 3b-16 or SEC Regulation ATS. This would include, but not be limited to: any trade executed as a result of the ATS bringing together the purchaser and seller on or through its systems; any trade executed by the ATS's subscribers where the subscribers used the ATS to negotiate the trade, even if the ATS did not itself execute the trade; or any trade in which the ATS takes either side of a trade for clearing or settlement or in any other way inserts itself into a trade (e.g., exchanging securities or funds on behalf of one or both subscribers taking part in the trade). If an ATS routes an order to another member firm or other execution venue for handling or execution where that initial order matches against interest resident at the other venue, then the ATS would not be considered the executing party and would not include such volume for reporting purposes. A trade continues to be considered executed "within an ATS" for purposes of calculating and posting volume under this Rule, even if the ATS has been granted an exemption to its trade reporting obligations under the Rule.

## 6710. Definitions

The terms used in this Rule 6700 Series shall have the same meaning as those defined in the FINRA By-Laws and rules unless otherwise specified. For the purposes of this Rule 6700 Series, the following terms have the following meaning:

(a) "TRACE-Eligible Security" means a debt security that is United States ("U.S.") dollar-denominated and is: (1) issued by a U.S. or foreign private issuer, and, if a "restricted security" as defined in Securities Act Rule 144(a)(3), sold pursuant to Securities Act Rule 144A; (2) issued or guaranteed by an Agency as defined in paragraph (k) or a Government-Sponsored Enterprise as defined in paragraph (n); (3) a U.S. Treasury Security as defined in paragraph (p); or (4) a Foreign Sovereign Debt Security as defined in paragraph (kk). "TRACE-Eligible Security" does not include a debt security that is a Money Market Instrument as defined in paragraph (o).

(b) "Trade Reporting and Compliance Engine" or "TRACE" means the automated system developed by FINRA that, among other things, accommodates reporting and dissemination of transaction reports where applicable in TRACE-Eligible Securities.

(c) "Reportable TRACE Transaction" means any transaction in a TRACE-Eligible Security except: (1) a transaction that is not reported as specified in Rule 6730(e); and (2) a sale from an issuer to an underwriter(s) or initial purchaser(s) as part of an offering, except a sale of an Agency Pass-Through Mortgage-Backed Security as defined in paragraph (v) from a Securitizer as defined in paragraph (s) to any purchaser.

(d) "Time of Execution" for a transaction in a TRACE-Eligible Security means the time when the Parties to a Transaction agree to all of the terms of the transaction that are sufficient to calculate the dollar price of the trade. The Time of Execution for transactions involving TRACE-Eligible Securities that are trading "when issued" on a yield basis shall be when the yield for the transaction has been agreed to by the Parties to a Transaction. For a transaction in a TRACE-Eligible Security in which the actual yield for the transaction is established by determining the yield from one or more designated securities (e.g., a "benchmark security" such as a U.S. Treasury Security maturing in 5 years, or a combination of such "benchmark securities") and adding the agreed upon "yield spread" (e.g., 150 basis points above the benchmark security), the Time of Execution occurs when the yield has been agreed to by the Parties to a Transaction.

(e) "Party to a Transaction" means an introducing broker-dealer, if any, an executing broker-dealer, or a customer. "Customer" includes a broker-dealer that is not a FINRA member.

(f) "TRACE Participant" means any FINRA member that reports transactions to the TRACE system, directly or indirectly.

(g) "Introducing Broker" means the FINRA member that has been identified in the TRACE system as a Party to a Transaction, but does not execute or clear the transaction.

(h) "Investment Grade" means a TRACE-Eligible Security that, if rated by only one nationally recognized statistical rating organization ("NRSRO"), is rated in one of the four highest generic rating categories; or if rated by more than one NRSRO, is rated in one of the four highest generic rating categories by all or a majority of such NRSROs; provided that if the NRSROs assign ratings that are evenly divided between (i) the four highest generic ratings and (ii) ratings lower than the four highest generic ratings, FINRA will classify the TRACE-Eligible Security as Non-Investment Grade for purposes of TRACE. If a TRACE-Eligible Security is unrated, for purposes of TRACE, FINRA may classify the TRACE-Eligible Security as an Investment Grade security. FINRA will classify any Agency Debt Security as defined in paragraph (l) as an Investment Grade security for purposes of the dissemination of transaction volume.

(i) "Non-Investment Grade" means a TRACE-Eligible Security that, if rated by only one NRSRO, is rated lower than one of the four highest generic rating categories; or if rated by more than one NRSRO, is rated lower than one of the four highest generic rating categories by all or a majority of such NRSROs. Except as provided in paragraph (h), if a TRACE-Eligible Security is unrated, FINRA may classify the TRACE-Eligible Security as a Non-Investment Grade security.

(j) "Split-Rated" means an Investment Grade or a Non-Investment Grade security that is assigned ratings by multiple NRSROs that, for an Investment Grade security, are not in the same generic Investment Grade rating category, or, for a Non-Investment Grade security, are not in the same generic Non-Investment Grade rating category. After determining if a security is Investment Grade or Non-Investment Grade, FINRA will disregard any rating, if the security is Investment Grade, that is Non-Investment Grade, or, if the security is Non-Investment Grade, that is Investment Grade. With respect to an Investment Grade security, if multiple NRSROs assign ratings that are not in the same generic Investment Grade rating category, or, with respect to a Non-Investment Grade security, if multiple NRSROs assign ratings that are not in the same generic Non-Investment Grade rating category, FINRA will classify the TRACE-Eligible Security for purposes of TRACE by the generic rating that a majority or, if no majority, a plurality of the NRSROs assigns the security, provided that (i) if the NRSROs assign ratings that are evenly divided between two generic rating categories, FINRA will classify the TRACE-Eligible Security by the lower of the ratings; or (ii) if each NRSRO assigns a different generic rating, FINRA will classify the TRACE-Eligible Security by the lower or lowest of the ratings.

(k) "Agency" means a U.S. "executive agency" as defined in 5 U.S.C. 105 that is authorized to issue debt directly or through a related entity, such as a government corporation, or to guarantee the repayment of principal and/or interest of a debt security issued by another entity. The

term excludes the U.S. Department of the Treasury ("Treasury") in the exercise of its authority to issue U.S. Treasury Securities as defined in paragraph (p).

(l) "Agency Debt Security" means a debt security (i) issued or guaranteed by an Agency as defined in paragraph (k); (ii) issued or guaranteed by a Government-Sponsored Enterprise as defined in paragraph (n); or (iii) issued by a trust or other entity that was established or sponsored by a Government-Sponsored Enterprise for the purpose of issuing debt securities, where such enterprise provides collateral to the trust or other entity or retains a material net economic interest in the reference tranches associated with the securities issued by the trust or other entity. The term excludes a U.S. Treasury Security as defined in paragraph (p) and a Securitized Product as defined in paragraph (m), where an Agency or a Government-Sponsored Enterprise is the Securitizer as defined in paragraph (s) (or similar person), or the guarantor of the Securitized Product.

(m) "Securitized Product" means a security collateralized by any type of financial asset, such as a loan, a lease, a mortgage, or a secured or unsecured receivable, and includes but is not limited to an asset-backed security as defined in Section 3(a)(79)(A) of the Exchange Act, a synthetic asset-backed security, and any residual tranche or interest of any security specified above, which tranche or interest is a debt security for purposes of paragraph (a) and the Rule 6700 Series.

(n) "Government-Sponsored Enterprise" ("GSE") has the same meaning as defined in 2 U.S.C. 622(8).

(o) "Money Market Instrument" means, other than a U.S. Treasury Security, a debt security that at issuance has a maturity of one calendar year or less, or, if a discount note issued by an Agency, as defined in paragraph (k), or a Government-Sponsored Enterprise, as defined in paragraph (n), a maturity of one calendar year and one day or less.

(p) "U.S. Treasury Security" means a security, other than a savings bond, issued by the U.S. Department of the Treasury to fund the operations of the federal government or to retire such outstanding securities. The term "U.S. Treasury Security" also includes separate principal and interest components of a U.S. Treasury Security that has been separated pursuant to the Separate Trading of Registered Interest and Principal of Securities (STRIPS) program operated by the U.S. Department of Treasury.

(q) "List or Fixed Offering Price Transaction" means a primary market sale transaction sold on the first day of trading of a security, including an Asset-Backed Security as defined in paragraph (cc), but excluding any other Securitized Product as defined in paragraph (m): (i) by a sole underwriter, syndicate manager, syndicate member or selling group member at the published or stated list or fixed offering price, or (ii) in the case of a primary market sale transaction effected pursuant to Securities Act Rule 144A, by an initial purchaser, syndicate manager, syndicate member or selling group member at the published or stated fixed offering price.

(r) "Takedown Transaction" means a primary market sale transaction sold on the first day of trading of a security, including an Asset-Backed Security as defined in paragraph (cc), but excluding any other Securitized Product as defined in paragraph (m): (i) by a sole underwriter or syndicate manager to a syndicate or selling group member at a discount from the published or stated list or fixed offering price, or (ii) in the case of a primary market sale transaction effected pursuant to Securities Act Rule 144A, by an initial purchaser or syndicate manager to a syndicate or selling group member at a discount from the published or stated fixed offering price.

(s) "Securitizer" has the same meaning as defined in Section 15G(a)(3) of the Exchange Act.

(t) "TRACE System Hours" means the hours the TRACE system is open, which are 8:00:00 a.m. Eastern Time through 6:29:59 p.m. Eastern Time on a business day, unless otherwise announced by FINRA.

(u) "To Be Announced" ("TBA") means a transaction in an Agency Pass-Through Mortgage-Backed Security as defined in paragraph (v) or an SBA-Backed ABS as defined in paragraph (bb) where the parties agree that the seller will deliver to the buyer a pool or pool(s) of a specified face amount and meeting certain other criteria but the specific pool or pool(s) to be delivered at settlement is not specified at the Time of Execution, and includes TBA transactions "for good delivery" ("GD") and TBA transactions "not for good delivery" ("NGD").

(v) "Agency Pass-Through Mortgage-Backed Security" means a type of Securitized Product issued in conformity with a program of an Agency as defined in paragraph (k) or a Government-Sponsored Enterprise ("GSE") as defined in paragraph (n), for which the timely payment of principal and interest is guaranteed by the Agency or GSE, representing ownership interest in a pool (or pools) of mortgage loans structured to "pass through" the principal and interest payments to the holders of the security on a pro rata basis.

(w) "Factor" means the decimal value representing the proportion of the outstanding principal value or remaining face amount of a pool of assets underlying a security to the original principal value or original face amount of such assets.

(x) "Specified Pool Transaction" means a transaction in an Agency Pass-Through Mortgage-Backed Security as defined in paragraph (v) or an SBA-Backed ABS as defined in paragraph (bb) requiring the delivery at settlement of a pool or pool(s) that is identified by a unique pool identification number at the Time of Execution.

(y) "Stipulation Transaction" means a transaction in an Agency Pass-Through Mortgage-Backed Security as defined in paragraph (v) where, at the Time of Execution, the parties agree that the seller will deliver to the buyer an Agency Pass-Through Mortgage-Backed Security of a specified face amount and coupon from a specified Agency or Government-Sponsored Enterprise program that represents a pool (or pools) of mortgages, at a specified price, and the parties stipulate that the pool or pools to be delivered meet certain conditions.

(z) "Dollar Roll" means a simultaneous sale and purchase of an Agency Pass-Through Mortgage-Backed Security as defined in paragraph (v) for different settlement dates, where the initial seller agrees to take delivery, upon settlement of the re-purchase transaction, of the same or substantially similar securities.

(aa) "Remaining Principal Balance" or "RPB" means, for a Securitized Product backed by a pool of mortgages or other assets that are self-amortizing, the total unpaid principal balance of all such mortgages, or the equivalent remaining value of such self-amortizing assets held in the asset pool, at a specific time, such as the Time of Execution.

(bb) "SBA-Backed ABS" means a Securitized Product issued in conformity with a program of the Small Business Administration ("SBA"), for which the timely payment of principal and interest is guaranteed by the SBA, representing ownership interest in a pool (or pools) of loans or debentures and structured to "pass through" the principal and interest payments made by the borrowers in such loans or debentures to the holders of the security on a pro rata basis.

# 6720. Participation in TRACE

## (a) Mandatory Member Participation

(1) Member participation in TRACE for trade reporting purposes is mandatory. Such mandatory participation obligates members to submit transaction reports in TRACE-Eligible Securities in conformity with the Rule 6700 Series.

(2) Participation in TRACE shall be conditioned upon the TRACE Participant's initial and continuing compliance with the following requirements:

(A) Execution of, and continuing compliance with, a TRACE Participant application agreement and all applicable rules and operating procedures of FINRA and the SEC; and

(B) Maintenance of the physical security of the equipment located on the premises of the TRACE Participant to prevent unauthorized entry of information into TRACE.

(3) Each TRACE Participant shall be obligated to inform FINRA of non-compliance with, or changes to, any of the participation requirements set forth above.

## (b) Participant Obligations in TRACE

Upon execution and receipt by FINRA of the TRACE Participant application agreement, a TRACE Participant may commence input of trade information in TRACE-Eligible Securities. TRACE Participants may access the service via a FINRA-approved facility during TRACE System Hours.

## (c) Alternative Trading Systems

(1) Except as set forth in subparagraph (2), a TRACE Participant that operates an alternative trading system ("ATS"), as that term is defined in Rule 300 of SEC Regulation ATS, must obtain a single, separate Market Participant Identifier ("MPID") for each such ATS designated for exclusive use for reporting each ATS's transactions. The member must use such separate MPID to report all transactions executed within the ATS to TRACE. The member shall not use such separate MPID to report any transaction that is not executed within the ATS. Any member that operates multiple ATSs must obtain a separate MPID for each ATS. Members must have policies and procedures in place to ensure that trades reported with a separate MPID obtained under this paragraph are restricted to trades executed within the ATS.

(2) An ATS is permitted to use two separate MPIDs only if one MPID is used exclusively for reporting transactions to TRACE and the other MPID is used exclusively for reporting transactions to the equity trade reporting facilities (the Alternative Display Facility, the OTC Reporting Facility, the FINRA/Nasdaq TRF, or the FINRA/NYSE TRF).

**(6)** Members have an ongoing obligation to report transaction information promptly, accurately, and completely. The member may employ an agent for the purpose of submitting transaction information. However, the primary responsibility for the timely, accurate, and complete reporting of transaction information remains the non-delegable duty of the member obligated to report the transaction.

**(7)** A member may be required to report as soon as practicable to the Market Regulation Department on a paper form, the transaction information required under Rule 6730 if electronic submission into TRACE is not possible. Transactions that can be reported into TRACE, including transactions executed on a Saturday, a Sunday, a federal or religious holiday or other day on which the TRACE system is not open at any time during that day (determined using Eastern Time), and transactions that can be submitted on the trade date or a subsequent date on an "as/of" basis shall not be reported on a paper form.

**(8)** If a member that is a Party to a Transaction makes a good faith determination that a transaction involves a TRACE-Eligible Security, the member must report the transaction as provided in this Rule, and if the TRACE-Eligible Security is not entered in the TRACE system, the member must promptly notify and provide FINRA Operations the information required under Rule 6760(b) prior to reporting the transaction.

#### **(b) Which Party Reports Transaction**

Trade data input obligations are as follows:

- (1) In transactions between two members, both members shall submit a trade report to TRACE;

- (2) The size (volume) of the transaction as required by paragraph (d)(2) below;
- (3) Price of the transaction (or the elements necessary to calculate price, which are contract amount and accrued interest) or, for When-Issued Transactions in U.S. Treasury Securities executed before the Auction for the security, the yield as required by paragraph (d)(1) of this Rule;
- (4) A symbol indicating whether the transaction is a buy or a sell;
- (5) Date of Trade Execution ("as/of" trades only);
- (6) Contra-party's identifier (MPID, customer, or a non-member affiliate, as applicable);

- (11) The commission (total dollar amount), if applicable;
- (12) Date of settlement;

(13) If the member is reporting a transaction that occurred on an ATS pursuant to Rule 6732, the ATS's separate MPID obtained in compliance with Rule 6720(c); and

(14) Such trade modifiers as required by either the TRACE rules or the TRACE users guide.

**(d) Procedures for Reporting Price, Capacity, Volume**

**(1) Price**

(A) Except as noted in subparagraph (B), for principal transactions, report the price, which must include the mark-up or mark-down. (However, if a price field is not available, report the contract amount and, if applicable, the accrued interest.) For agency transactions, report the price, which must exclude the commission. (However, if a price field is not available, report the contract amount and, if applicable, the accrued interest.) Report the total dollar amount of the commission if one is assessed on the transaction. Notwithstanding the foregoing, a member is not required to include a commission, mark-up or mark-down where one is not assessed on a trade-by-trade basis at the time of the transaction or where the amount is not known at the time the trade report is due. A member must use the "No Remuneration" indicator described in paragraph (d)(4)(F) where a trade report does not reflect either a commission, mark-up or mark-down, except for an inter-dealer transaction, a "List or Fixed Offering Price Transaction," as defined in Rule 6710(q), or a "Takedown Transaction," as defined in Rule 6710(r).

(B) For When-Issued Transactions in U.S. Treasury Securities executed before the Auction for the security and conducted on a principal basis, report the yield, which must include the mark-up or mark-down, of the security in lieu of price. For When-Issued Transactions in U.S. Treasury Securities executed before the Auction for the security and conducted on an agency basis, report the yield, which must exclude the commission, of the security in lieu of price. Report the total dollar amount of the commission.

**(2) Size (Volume)**

**(A) General**

For a transaction in a TRACE-Eligible Security, except a Securitized Product, report the total par value or principal value of the security traded.

**(B) Securitized Products**

(i) For a transaction in a Securitized Product traded TBA ("TBA transaction"), report the original face value of such security.

(ii) For a transaction, other than a TBA transaction, in a Securitized Product that is subject to amortization, report the original face value of such security and, if a member uses a Factor to execute the transaction that is not the most current Factor publicly available at the Time of Execution, report the Factor used, except as provided in subparagraph (iv) below regarding certain transactions executed in an agency capacity.

(iii) For a transaction in a Securitized Product that does not amortize, report the total par value, principal value or original face value of such security, except as provided in subparagraph (iv) below regarding certain transactions executed in an agency capacity.

(iv) For a transaction, other than a TBA transaction, in a Securitized Product that is executed in an agency capacity and subject to a commission charge, report the original face value of such security and the Factor used to execute the transaction.

**(3) Crosses**

For in-house cross transactions, a member must report two transactions, which are the member's purchase transaction and the member's sale transaction.

**(4) Modifiers and Indicators**

Members shall append the applicable trade report modifiers or indicators as specified by FINRA to all transaction reports.

**(A) Special Price Modifier**

If a transaction is not executed at a price that reflects the current market price, select the modifier, "special price." When the reporting method chosen provides a "special price memo" field, state why the transaction was executed at other than the current market price in the "special price memo" field (e.g., when a debt security is traded conventionally and in the current market does not have a due bill and/or a warrant attached, but in the transaction to be reported is traded with a due bill and/or warrant attached, the price of the transaction is a "special price"). Do not select the modifier, "special price," where the transaction price is determined using a weighted average price.

**(B) Weighted Average Price Modifier**

If the price of the transaction is determined using a weighted average price method, select the modifier, ".w."

**(C) List or Fixed Offering Price Transaction or Takedown Transaction Indicator**

If reporting a primary market transaction that is a List or Fixed Offering Price Transaction or a Takedown Transaction, select the appropriate indicator.

**(D) Securitized Product Indicators**

Select the indicator:

- (i) ".O," if the transaction is a Specified Pool Transaction;
- (ii) ".N," if the transaction is a Stipulation Transaction;
- (iii) ".D," if the transaction is a Dollar Roll; or
- (iv) ".L," if the transaction is a Dollar Roll and a Stipulation Transaction.

**(E) Non-member Affiliate—Principal Transaction Indicator**

If reporting a transaction with a "non-member affiliate," as defined in Rule 6710, in which both the member and non-member affiliate act in a principal capacity, and that occurs within the same day, at the same price and in the same security as a transaction by the member with another contra-party, select the non-member affiliate—principal transaction indicator. If a member does not reasonably expect to engage in a subsequent same day, same price transaction in the same security with another contra-party, the member is not required to append the principal transaction indicator or subsequently correct a prior trade report with its non-member affiliate solely for the purpose of appending the non-member affiliate—principal transaction indicator. If, however, a member appends the non-member affiliate—principal transaction indicator to a trade report reflecting a transaction with a non-member affiliate and, ultimately, does not engage in a same day, same price transaction in the same security with another contra-party, the member must correct the prior trade report to exclude the non-member affiliate—principal transaction indicator.

**(F) No Remuneration Indicator**

Where a trade report does not reflect either a commission, mark-up or mark-down, select the "No Remuneration" indicator, subject to the exceptions provided in paragraph (d)(1) above.

**(G) U.S. Treasury Security Indicators and Modifiers**

- (i) If reporting a When-Issued Transaction, select the appropriate indicator.
- (ii) Select the modifier:
  - a. ".B," if the transaction is part of a series of transactions where at least one of the transactions involves a futures contract;
  - b. ".S," if the transaction is part of a series of transactions and may not be priced based on the current market.
- (iii) If reporting a transaction executed to hedge a List or Fixed Offering Price Transaction or Takedown Transaction, select the appropriate modifier.

**(H) Portfolio Trade Modifier**

If reporting a transaction in a corporate bond: (i) executed between only two parties; (ii) involving a basket of corporate bonds of at least 10 unique issues; and (iii) for a single agreed price for the entire basket, select the appropriate modifier.

**(e) Reporting Requirements for Certain Transactions and Transfers of Securities**

The following shall not be reported:

- (1) Transfers of TRACE-Eligible Securities for the sole purpose of creating or redeeming an instrument that evidences ownership of or otherwise tracks the underlying securities transferred (e.g., an exchange-traded fund).
- (2) Transactions in TRACE-Eligible Securities that are listed on a national securities exchange, when such transactions are executed on and reported to the exchange and the transaction information is disseminated publicly.
- (3) Transactions where the buyer and the seller have agreed to trade at a price substantially unrelated to the current market for the TRACE-Eligible Security (e.g., to allow the seller to make a gift).

(4) Provided that a data sharing agreement between FINRA and NYSE related to transactions covered by this Rule remains in effect, transactions in TRACE-Eligible Securities that are executed on a facility of NYSE in accordance with NYSE Rules 1400, 1401 and 86 and disseminated publicly by NYSE.

(5) Transactions resulting from the exercise or settlement of an option or a similar instrument, or the termination or settlement of a credit default swap, other type of swap, or a similar instrument.

(6) Transfers of securities made pursuant to an asset purchase agreement (APA) that is subject to the jurisdiction and approval of a court of competent jurisdiction in insolvency matters, provided that the purchase price under the APA is not based on, and cannot be adjusted to reflect, the current market prices of the securities on or following the effective date of the APA.

(7) Bona fide repurchase and reverse repurchase transactions involving TRACE-Eligible Securities.

(8) Auction Transactions.

#### **(f) Compliance With Reporting Obligations**

A pattern or practice of late reporting without exceptional circumstances may be considered conduct inconsistent with high standards of commercial honor and just and equitable principles of trade, in violation of Rule 2010.

#### **• • • Supplementary Material: -----**

**.01 Scope of Factor Reporting Requirement.** For transactions, other than TBA transactions, in Securitized Products executed in an agency capacity and subject to a commission charge, members must report the Factor for every such transaction, including a transaction where the Factor is 1.0.

**.02** For purposes of compliance with paragraphs (c)(6) and (d)(4)(E), a member must identify those entities that would meet the definition of "non-member affiliate" at least annually. However, where the member has undergone an organizational or operational restructuring that may impact its non-member affiliate relationships, it must promptly review and update, as necessary, its identification of non-member affiliates for purposes of this rule.

#### **.03 Trade Reporting Time Frame**

(a) Each member with an obligation to report a transaction in a TRACE-Eligible Security "as soon as practicable" pursuant to paragraph (a) of this Rule must adopt policies and procedures reasonably designed to comply with this requirement by implementing systems that commence the trade reporting process at the Time of Execution without delay. Where a member has such reasonably designed policies, procedures and systems in place, the member generally will not be viewed as violating the "as soon as practicable" requirement because of delays in trade reporting that are due to extrinsic factors that are not reasonably predictable and where the member does not purposely intend to delay the reporting of the trade. In no event may a member purposely withhold trade reports, e.g., by programming its systems to delay reporting until the end of the reporting time period.

(b) FINRA recognizes that members may manually report transactions in TRACE-Eligible Securities and, as a result, the trade reporting process may not be completed as quickly as where an automated trade reporting system is used. In these cases, FINRA will take into consideration the manual nature of the member's trade reporting process in determining whether the member's policies and procedures are reasonably designed to report the trade "as soon as practicable" after execution.

**.04 Time of Execution for Transactions in U.S. Treasury Securities.** When reporting transactions in U.S. Treasury Securities executed electronically, members must report the Time of Execution pursuant to paragraph (c)(8) of this Rule to the finest increment of time captured by the execution system (e.g., millisecond, microsecond), but reporting must be in an increment of (i) no longer than a second and (ii) no shorter than a microsecond.

**.05 STRIPS Program (Separate Trading of Registered Interest and Principal of Securities).** Members are not required to report transactions undertaken as part of the process of separating and reconstituting securities pursuant to the STRIPS Program operated by the U.S. Department of Treasury under which eligible U.S. Treasury Securities are authorized to be separated into principal and interest components and transferred separately.

#### **.06 ATS Identification of Non-FINRA Member Counterparties for Transactions in U.S. Treasury Securities**

(a) Each "covered ATS," as defined below, must provide to FINRA a list of all of its non-FINRA member subscribers, as that term is defined in Rule 300 of SEC Regulation ATS, and must obtain from FINRA an MPID for each such subscriber. Each covered ATS must comply with paragraph (c) (6) of this Rule by identifying each non-FINRA member subscriber in the contra-party field using the MPID assigned by FINRA for the subscriber. A covered ATS may not identify a contra-party using the "customer" or "non-member affiliate" identifiers.

(b) For purposes of this Supplementary Material .07, a "covered ATS" is an alternative trading system ("ATS"), as that term is defined in Rule 300 of SEC Regulation ATS, that executed transactions in U.S. Treasury Securities against non-FINRA member subscribers of \$10 billion or more in

(c) An ATS must commence complying with the requirements of this Supplementary Material .07 within 60 calendar days of the end of the calendar quarter in which it becomes a covered ATS.

(d) Once an ATS is deemed a covered ATS, it must continue to comply with the requirements of this Supplementary Material .07 irrespective of whether its volume of executed transactions in U.S. Treasury Securities against non-FINRA member subscribers falls below \$10 billion or more in monthly par value in any two months in a calendar quarter.

#### **.07 Exception for Members with Limited Trading Volume in U.S. Treasury Securities**

(a) Supplementary Material .04 shall not apply to a member with limited trading volume in U.S. Treasury Securities, as defined in paragraph (b) of this Supplementary Material .07, provided that, when reporting transactions in U.S. Treasury Securities executed electronically, such member reports the Time of Execution pursuant to paragraph (c)(8) of this Rule to the finest increment of time captured in the member's system (e.g., millisecond, microsecond), but reporting must be in an increment of: (i) no longer than a second and (ii) no shorter than a microsecond.

(b) For purposes of this Supplementary Material .07, a "member with limited trading volume in U.S. Treasury Securities" is a member that executed transactions in U.S. Treasury Securities of \$10 million or less in average daily par value, computed by aggregating buy and sell transactions, during the preceding calendar year.

(c) A member relying on the exception under paragraph (a) of this Supplementary Material .07 shall confirm on an annual basis that it continues to meet the criteria for a "member with limited trading volume in U.S. Treasury Securities" set forth in paragraph (b) of this Supplementary Material .07. If a member no longer meets the criteria set forth in paragraph (b) in a given calendar year, such member shall no longer be eligible for the exception under paragraph (a) beginning 90 days after the end of such calendar year. Thereafter, such member may no longer rely on the exception under paragraph (a), irrespective of whether such member meets the criteria in a subsequent calendar year, except where the member has changed business lines or undergone a corporate restructuring that significantly impacts its level of activity in U.S. Treasury Securities.

## 6731. Exemption from Trade Reporting Obligation for Certain Alternative Trading Systems

(a) Pursuant to the Rule 9600 Series, the staff for good cause shown after taking into consideration all relevant factors, may exempt, upon application and subject to specified terms and conditions, a member alternative trading system ("ATS") from the trade reporting obligation under Rule 6730, if such exemption is consistent with the protection of investors and the public interest. The staff will grant an exemption only if all of the following criteria are satisfied:

(1) Trades are between ATS subscribers that are both FINRA members.

(2) The ATS demonstrates that:

(A) The member subscribers are fully disclosed to one another at all times on the ATS;

(B) The system does not permit automatic execution, and a member subscriber must take affirmative steps beyond the submission of an order to agree to a trade with another member subscriber;

(C) The trade does not pass through any ATS account, and the ATS does not in any way hold itself out to be a party to the trade; and

(D) The ATS does not exchange TRACE-Eligible Securities or funds on behalf of the member subscribers, take either side of the trade for clearing or settlement purposes, including, but not limited to, at DTC or otherwise, or in any other way insert itself into the trade.

(3) The ATS and the member subscribers acknowledge and agree in writing that the ATS shall not be deemed a party to the trade for purposes of trade reporting and that trades shall be reported by each member subscriber that satisfies the definition of "Party to a Transaction" under Rule 6710.

(4) The ATS agrees to provide to FINRA on a monthly basis, or such other basis as prescribed by FINRA, data relating to the volume of trades by security executed by the ATS's member subscribers using the ATS's system, and the ATS acknowledges that failure to report such data to FINRA, in addition to constituting a violation of FINRA rules, will result in revocation of any exemption granted pursuant to this Rule.

(b) Where FINRA has granted an exemption under this Rule, trades shall be reported to FINRA in accordance with Rule 6730 by each member subscriber that satisfies the definition of "Party to a Transaction" under Rule 6710(e).

Adopted by SR-FINRA-2012-016 eff. Feb. 28, 2012.

## 6732. Exemption from Trade Reporting Obligation for Certain Transactions on an Alternative Trading System

(a) Pursuant to the [Rule 9600](#) Series, the staff for good cause shown after taking into consideration all relevant factors, may exempt, upon application and subject to specified terms and conditions, a member alternative trading system ("ATS") from the trade reporting obligation under [Rule 6730](#), if such exemption is consistent with the protection of investors and the public interest. The staff will grant an exemption to permit an ATS and members engaging in trades on such ATS to report trades as described below, where all of the following criteria are satisfied:

(1) The trade involves at least one member (other than the ATS) that meets the definition of "Party to a Transaction";

(2) The trade does not pass through any ATS account, and the ATS does not exchange TRACE-Eligible Securities or funds on behalf of the subscribers, take either side of the trade for clearing or settlement purposes, including, but not limited to, at DTC or otherwise, or in any other way insert itself into the trade;

(3) The ATS agrees to provide to FINRA on a monthly basis, or such other basis as prescribed by FINRA, data relating to each exempted trade occurring on the ATS's system pursuant to this Rule 6732, and the ATS acknowledges that failure to report such data to FINRA, in addition to constituting a violation of FINRA rules, will result in revocation of any exemption granted pursuant to this Rule;

(4) The ATS remits to FINRA a transaction reporting fee based on the fee schedule set forth in [Rule 7730\(b\)\(1\)](#) for each exempted sell transaction occurring on the ATS; and

(5) The ATS has entered into a written agreement with each member that is a "Party to a Transaction" with respect to any trade for which the ATS is exempted under this Rule specifying that such trade must be reported by such party pursuant to [Rule 6730\(c\)\(13\)](#), identifying the trade as having occurred on the ATS using the ATS's separate MPID obtained in compliance with [Rule 6720\(c\)](#).

(b) Where the above criteria are satisfied, an exempted trade occurring on the ATS must be reported by a member (other than the ATS) that meets the definition of "Party to a Transaction" identifying a contra-party other than the ATS with respect to each side of the trade.

(c) For a transaction between a member and a non-member on an ATS that is a "covered ATS" under Rule 6730.07, the ATS must provide to the member subscriber (and the member subscriber must report to TRACE using) the FINRA-assigned identifier for each non-FINRA member subscriber.

## 6760. Obligation To Provide Notice

### (a) Members Required to Provide Notice

(1) To facilitate trade reporting and dissemination of transactions in TRACE-Eligible Securities, a member that is a managing underwriter of a distribution or offering ("offering"), other than a secondary offering, of a TRACE-Eligible Security must obtain information and provide notice to FINRA Operations as set forth in this Rule. If a managing underwriter is not designated, an underwriter must provide such notice. In offerings where managing underwriters and/or underwriters are not designated, the lead initial purchaser must provide such notice, and if there is no lead initial purchaser, an initial purchaser must provide such notice. If more than one person is obligated to provide notice (e.g., multiple underwriters), such persons may submit jointly a single notice containing the required information to FINRA Operations. A member that is an underwriter or a Securitizer of a Securitized Product is a managing underwriter for purposes of this Rule. A member that is required to provide notice must make a good faith determination that the security is a TRACE-Eligible Security before providing such notice.

(2) The information must be provided using the method of communication or media specified by FINRA.

### (b) Information Required

The notice must contain the following information: (1) the CUSIP number or if a CUSIP number is not available, a similar numeric identifier (e.g., a mortgage pool number); (2) the issuer name, or, for a Securitized Product, the names of the Securitizers; (3) the coupon rate; (4) the maturity; (5) whether Securities Act Rule 144A applies; (6) the time that the new issue is priced, and, if different, the time that the first transaction in the offering is executed; (7) a brief description of the issue (e.g., senior subordinated note, senior note); and, (8) such other information FINRA deems necessary to properly implement the reporting and dissemination of a TRACE-Eligible Security, or if any of items (2) through (8) has not been determined or a CUSIP number (or a similar numeric identifier as referenced above) is not assigned or is not available when notice must be given, such other information that FINRA deems necessary and is sufficient to identify the security accurately.

### (c) When Required

A notice required under this Rule must be provided to FINRA Operations prior to the execution of the first transaction of the offering, except as provided below.

(1) If an offering of a security is priced and commences on the same business day between 9:30:00 a.m. Eastern Time and 4:00:00 p.m. Eastern Time, a person that is required to provide notice must provide to FINRA Operations as much of the information set forth in paragraph (b) that is available prior to the execution of the first transaction of the offering, which must be sufficient to identify the security accurately, and such other information that FINRA deems necessary and provide all other information required under paragraph (b) within 15 minutes of the Time of Execution of the first transaction.
