7120. Trade Reporting Participation Requirements

(a) Mandatory Participation for Clearing Agency Members

(1) Participation in the System is mandatory for any FINRA member that has an obligation to report an over the counter transaction to FINRA, unless the member has an alternative electronic mechanism pursuant to FINRA rules for reporting and clearing such transaction. Such participation in the System shall include the reconciliation of all over the counter clearing agency eligible transactions.

(2) Participation in the System shall be conditioned upon the Participant's initial and continuing compliance with the following requirements:

(A) execution of, and continuing compliance with, a Participant Application Agreement;

(B) membership in, or maintenance of an effective clearing arrangement with a member of, a clearing agency registered pursuant to the Exchange Act;

(C) compliance with all applicable rules and operating procedures of FINRA and the SEC;

(D) maintenance of the physical security of the equipment located on the premises of the Participant to prevent unauthorized entry of information into the System; and

(E) acceptance and settlement of each trade that the System identifies as having been effected by such Participant, or if settlement is to be made through a clearing member, guarantee of the acceptance and settlement of each System identified trade by the clearing member on the regularly scheduled settlement date.

(3) Participation in the System as a Clearing Broker shall be conditioned upon the Clearing Broker's initial and continuing compliance with the following requirements:

(A) execution of, and continuing compliance with, a Participant Application Agreement;

(B) membership in a clearing agency registered pursuant to the Exchange Act;

(C) compliance with all applicable rules and operating procedures of FINRA and the SEC;

(D) maintenance of the physical security of the equipment located on the premises of the System Clearing Broker to prevent the unauthorized entry of information into the System; and

(E) acceptance and settlement of each trade that the System identifies as having been effected by itself or any of its correspondents on the regularly scheduled settlement date.

(4) Each Participant shall be obligated to inform FINRA of non-compliance with any of the participation requirements set forth above.

(b) Participant Obligations

(1) Access

Upon execution and receipt by FINRA of the Participant Application Agreement, a Participant may commence input and validation of trade information in ADF-eligible securities. Participants may access the service through computer interface or such other service as may be designated by FINRA during the hours of operation specified by FINRA. Prior to such input, all Participants, including those that have trade report information submitted to FINRA by any third party, must obtain from FINRA a unique identifying Market Participant Symbol ("MPID"), and use that identifier for trade reporting and audit trail purposes.

(2) Participant Obligations

(A) Participants shall commence participation in the System by initially contacting FINRA Market Operations to verify authorization for submitting trade data to the System for ADF-eligible securities.

(B) A Participant that is a self-clearing firm shall be obligated to accept and clear each trade that the System identifies as having been effected by that Participant.

(C) A Participant that is an introducing broker or a correspondent executing broker shall identify its clearing broker when it becomes a System participant and notify FINRA Market Operations if its clearing broker is to be changed; this will necessitate execution of a revised Participant Application Agreement.

(D) If at any time a Participant (either the Reporting Party or contra party) fails to maintain a clearing arrangement, it shall be removed from the System, and be precluded from participation in ADF until such time as a clearing arrangement is reestablished and notice of such arrangement, with an amended Participant Application Agreement, is filed with FINRA.

(E) Testing

Except as set forth below, Participants that intend to use the ADF for trade reporting only and connect to the ADF via a Financial Information eXchange (FIX) line must participate in annual connectivity and capacity/stress testing. Members required to participate in annual testing pursuant to this Rule shall not be charged fees under Rule 7530(c) for the annual testing.

(i) Participants are not required to participate in connectivity testing if they report at least 100 trades per month to the ADF.

(ii) Participants are not required to participate in capacity/stress testing unless their ADF activity levels or their capacity projections based on their current usage of a Trade Reporting Facility have increased by more than 20% from the previous year.

(3) Clearing Broker Obligation

(A) System clearing brokers shall be obligated to accept and clear as a party to the transaction each trade that the System identifies as having been effected by itself or any of its correspondent executing brokers. Clearing brokers may cease to act as principal for a correspondent executing broker at any time provided that notification has been given to, received and acknowledged by FINRA Market Operations and affirmative action has been completed by FINRA Market Operations to remove the clearing broker from the System for that correspondent executing broker. The clearing broker's obligation to accept and clear trades for its correspondents shall not cease prior to the completion of all of the steps detailed in this subparagraph (3).

(B) If at any time a System clearing broker fails to maintain a clearing arrangement, it shall be removed from the System until such time as a clearing arrangement is reestablished, and notice of such arrangement, with an amended Participant Application Agreement, is filed with FINRA.

7130. Trade Report Input

(a) Reportable System Transactions

Members shall comply with the [Rule 7100](#) Series when reporting transactions to the System, including executions of less than one round lot if those executions are to be compared and locked-in. All trades that are reportable transactions will be processed pursuant to an effective transaction reporting plan. Trades that are not already locked-in trades will be compared and locked-in through the System.

(b) When and How Trade Reports are Submitted

Participants shall transmit trade reports to the System for Reportable System Transactions as soon as practicable but no later than 10 seconds after execution, or such other time period prescribed by rule, or shall accept or decline trades within twenty (20) minutes after execution, according to the requirements of paragraph (c) of this Rule.

(c) Which Party Inputs Trade Reports

Participants shall, subject to the input requirements below, either input trade reports or accept or decline a trade within the applicable timeframes as specified in paragraph (b) of this Rule. Trade reports shall be submitted by the member as required pursuant to [Rule 6282\(b\)](#).

(d) Trade Information To Be Input

The information listed below must be provided for each transaction that is reported to the System. Unless the contra side will have an opportunity to provide its own trade information, the Reporting Member is responsible for the complete and accurate submission of information for both sides of the trade.

(1) Security identification symbol of the eligible security (SECID);

(2) Number of shares;

(3) Unit price, excluding commissions, mark-ups or mark-downs;

(4) The time of execution expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included on the report;

(5) A symbol indicating whether the party submitting the trade report represents the Reporting Member (denoted as the Executing Party or "EPID") side or the Non-Reporting Party (denoted as the Contra Party or "CPID") side;

(6) A symbol indicating whether the transaction is a buy, sell or cross, and if applicable, a symbol indicating that the transaction is a sell short or sell short exempt trade from the Reporting Member perspective or contra side perspective, irrespective of whether the contra side is a member, except the sell short or sell short exempt indicator is not required on any clearing-only, non-regulatory report submitted pursuant to [Rule 7130\(g\)\(4\)](#);

(7) A symbol indicating whether the trade is as principal, riskless principal, or agent;

(8) Reporting side clearing broker (if other than normal clearing broker);

(9) Reporting side executing broker as "give-up" (if any);

(10) Contra side executing broker;

(11) Contra side introducing broker in case of "give-up" trade;

(12) Contra side clearing broker (if other than normal clearing broker);

(13) Designated indicator for special trades and "step outs";

(14) For any transaction in an order for which a member has recording and reporting obligations under [Rules 6830](#) and [6870](#), the trade report must include an order identifier, meeting such parameters as may be prescribed by FINRA, assigned to the order that uniquely identifies the order for the date it was received (see [Rule 6830\(a\)\(1\)\(A\)](#)).

(15) For any transaction for which the System is used to transfer a transaction fee between two FINRA members, the trade report must comply with the requirements of [Rule 7130\(h\)](#).

(16) For any transaction for which the System is used to clear a transaction, the trade report must indicate whether the trade is to be compared in the System or is locked-in pursuant to an Automatic Give Up Agreement ("AGU") or a Qualified Special Representative Agreement ("QSR").

(17) If applicable, a unique indicator specified by FINRA to denote a clearing-only, non-regulatory report in accordance with Rule 7130(g)(4).

(e) Reporting Cancelled and Reversed Trades

(1) Obligation and Party Responsible for Reporting Cancelled and Reversed Trades

With the exception of trades cancelled by FINRA staff in accordance with the [Rule 11890](#) Series, members shall report to the System the cancellation or reversal of any trade previously submitted to the System. The member responsible under FINRA rules for submitting the original trade report shall submit the cancellation or reversal report in accordance with the requirements set forth in paragraph (e)(2).

(2) Deadlines and Other Requirements for Reporting Cancelled and Reversed Trades

Members shall comply with deadlines and other requirements set forth in [Rule 6282](#) for reporting cancelled and reversed trades.

(f) Reporting Certain Transactions for Purposes of Regulatory Transaction Fee Assessment

The following types of transactions that are assessed a regulatory transaction fee in accordance with Section 3 of Schedule A to the FINRA By-Laws shall be reported in the manner prescribed by FINRA to denote that they are submitted for regulatory purposes and not for dissemination. Transactions must be submitted to the System by 6:30 p.m. Eastern Time (or the end of the System reporting session that is in effect at that time). Transactions may be entered as clearing or non-clearing.

(1) Transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security, and consideration is given (away from the market sales);

(2) Transactions effected pursuant to the exercise of an OTC option; and

(3) Transfers of proprietary securities positions where the transfer (A) is effected in connection with a merger or direct or indirect acquisition and (B) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception. Members must report such transfers on the same day as the ultimate transfer of the positions on their books and records, unless later reporting is warranted under specific circumstances.

(g) Submission of Non-Tape Reports Associated With Previously Executed Trades

(1) Members shall not submit to the System any non-tape report (either a non-tape, non-clearing report or a clearing-only report), including but not limited to reports of step-outs and reversals, associated with a previously executed trade that was not reported to the System, unless such report is submitted, pursuant to [Rule 6282\(d\)](#), to reflect the offsetting riskless portion of a riskless principal transaction.

(2) Where permitted by subparagraph (1) above, any non-tape report (either a non-tape, non-clearing report or a clearing-only report) associated with a previously executed trade(s) that was not reported to the System must identify the facility or market where the associated trade(s) was reported, as specified by FINRA. For any such report, members must retain and produce, upon request, documentation relating to the associated trade(s).

(3) Where permitted by subparagraph (1) above, if both parties are submitting a clearing-only report to effectuate a step-out, the member transferring out of the position must report a "step-out" and the member receiving the position must report a "step-in."

(4) Clearing-Only, Non-Regulatory Reports

(A) For a previously executed trade for which a tape report has been submitted to the System, or for the offsetting portion of a riskless principal or agency transaction for which a non-tape, non-clearing report has been submitted to the System, a member may submit a "clearing-only, non-regulatory report" to the System solely for purposes of clearing the transaction. A clearing-only, non-regulatory report cannot be used to satisfy any regulatory reporting requirement under FINRA rules that may apply to the transaction, e.g., the identification of other members for agency or riskless principal transactions under [Rule 6282\(d\)](#). As such, submission of a clearing-only, non-regulatory report constitutes certification by the member that it has satisfied all applicable regulatory reporting requirements under FINRA rules relating to the transaction through the submission of other reports (tape or non-tape, non-clearing) to the System.

(B) Members that submit a clearing-only, non-regulatory report must use the unique indicator specified by FINRA to denote that the report is submitted solely for purposes of clearing the transaction and not for purposes of satisfying any regulatory reporting requirements.

(h) Inclusion of Transaction Fees in Clearing Reports Submitted to the System

FINRA members may agree in advance to transfer a transaction fee charged by one member to another member on a transaction reported to the System through the submission of a clearing report to the System. Such report, inclusive of the transaction fee, will be submitted to the National Securities Clearing Corporation for processing. To facilitate the transfer of the transaction fee, the report submitted to the System shall provide, in addition to all other information required to be submitted by any other rule, pricing information to indicate a total per share or contract price amount, inclusive of the transaction fee. Prior to submitting any such report, both members and their respective clearing firms, as applicable, must have executed an agreement, as specified by FINRA, permitting the facilitation of the transfer of the transaction fee through the System, as well as any other applicable agreement, such as a give up agreement pursuant to [Rule 6282\(h\)](#), and submitted the executed agreement(s) to FINRA Market Operations. Such agreement(s) are considered member records for purposes of [Rule 4511](#) and must be made and preserved by both members in conformity with applicable FINRA rules. Nothing in this paragraph shall relieve a member from its obligations under FINRA rules and the federal securities laws, including but not limited to, [Rule 2232](#) and SEA Rule 10b-10.

Example:

SELL 100 shares to another member at 10 plus a transaction fee of .01 per share;

REPORT 100 shares at 10 (the per share price exclusive of the transaction fee) to the System for publication and also report pricing information to indicate a 10.01 per share price inclusive of the transaction fee for purposes of clearance and settlement through the National Securities Clearing Corporation.

• • • Supplementary Material: -----

.01 All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

7140. Trade Report Processing

(a) Locked-in trades may be determined in the System through one of the following methods:

(1) Trade by Trade Match

Both parties to the trade submit transaction data and the System performs an on-line match;

(2) Trade Acceptance

The Reporting Party enters its version of the trade into the system and the contra party reviews the trade report and accepts or declines the trade. An acceptance results in a locked-in trade. A declined trade report will be carried over at the end of trade date processing and will remain in the System, but will not be subject to the automatic lock-in process. A declined trade must be cancelled by the Reporting Party pursuant to [Rule 6282\(g\)](#) if the trade was originally reported to the System for dissemination purposes.

(3) Automatic Lock-in

Any trade that remains open (i.e. unmatched or unaccepted) at the end of its entry day will be carried over for continued comparison and reconciliation. The System will automatically lock in and submit to DTCC as such any carried-over T to T+21 (calendar day) trade if it remains open as of noon Eastern Time on the next business day. The System will carry over any T+22 (calendar day) or older "as/of" trade that remains open, but such trade will not be subject to the automatic lock-in process.

(b) T+N Trade Processing

T+N (or "as/of") entries may be submitted until 6:30 p.m. each business day. "As/of" reports of trades executed on non-business days and T+365 or greater trades will not be submitted to clearing by the System.

(b) Participant Obligations

(1) Access

Upon execution and receipt by FINRA of the Participant Application Agreement, as applicable, a Participant may commence input and validation of trade information in Reportable Securities. Participants may access the service through computer interface or such other service as may be designated by FINRA during the hours of operation specified by FINRA. Prior to such input, all Participants, including those that have trade report information submitted by any third party, must obtain from the System a unique identifying Market Participant Symbol ("MPID"), and use that identifier for trade reporting and audit trail purposes.

(2) System Participant Obligations

(A) Participants shall commence participation in the System by initially contacting the System Operation Center to verify authorization for submitting trade data to the System for Reportable Securities.

(B) A Participant that is a self-clearing firm shall be obligated to accept and clear each trade that the System identifies as having been effected by that Participant.

(C) A Participant that is an Introducing Broker or a Correspondent Executing Broker shall identify its Clearing Broker when it becomes a Participant and notify the System Operation Center if its Clearing Broker is to be changed; this will necessitate execution of a revised Participant Application Agreement.

(D) If at any time a Participant fails to maintain a clearing arrangement, it shall be removed from the System until such time as a clearing arrangement is reestablished and notice of such arrangement, with an amended Reporting Participant Application Agreement, is filed with FINRA.

(3) Clearing Broker Obligations

(A) System Clearing Brokers shall be obligated to accept and clear as a party to the transaction each trade that the System identifies as having been effected by itself or any of its Correspondent Executing Brokers. Clearing Brokers may cease to act as principal for a Correspondent Executing Broker at any time provided that notification has been given to, received and acknowledged by the System Operation Center and affirmative action has been completed by the Center to remove the Clearing Broker from the System for that Correspondent Executing Broker. The Clearing Broker's obligation to accept and clear trades for its correspondents shall not cease prior to the completion of all of the steps detailed in this subparagraph (3).

7230A. Trade Report Input

(a) Reportable Transactions

Members shall comply with the Rule 7200A Series when reporting transactions to the System, including executions of less than one round lot if those executions are to be compared and locked-in. All trades that are reportable transactions will be processed pursuant to an effective transaction reporting plan. Trades that are not already locked-in trades will be compared and locked-in through the System.

(b) When and How Trade Reports are Submitted

Participants shall transmit trade reports to the System for transactions in Reportable Securities as soon as practicable but no later than 10 seconds after execution, or such other time period prescribed by rule, or shall use the Browse function to accept or decline trades within twenty (20) minutes after execution, according to the requirements of paragraph (c) of this Rule.

(c) Which Party Inputs Trade Reports

Participants shall, subject to the input requirements below, either input trade reports or use the Browse feature to accept or decline a trade within the applicable time-frames as specified in paragraph (b) of this Rule. Trade reports shall be submitted by the member as required by Rule 6380A(b).

(d) Trade Information To Be Input

The information listed below must be provided for each transaction that is reported to the System. Unless the contra side will have an opportunity to provide its own trade information, the Reporting Member is responsible for the complete and accurate submission of information for both sides of the trade.

(1) Security identification symbol of the eligible security (SECID);

(2) Number of shares;

(3) Unit price, excluding commissions, mark-ups or mark-downs;

(4) The time of execution expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included on the report;

(5) A symbol indicating whether the party submitting the trade report represents the Reporting Member (denoted as the Executing Party or "EPID") side or the Non-Reporting Party (denoted as the Contra Party or "CPID") side;

(6) A symbol indicating whether the transaction is a buy, sell or cross, and if applicable, a symbol indicating that the transaction is a sell short or sell short exempt trade from the Reporting Member perspective or contra side perspective, irrespective of whether the contra side is a member, except the sell short or sell short exempt indicator is not required on any clearing-only, non-regulatory report submitted pursuant to Rule 7230A(i)(4);

(7) A symbol indicating whether the trade is as principal, riskless principal, or agent;

(8) Reporting side Clearing Broker (if other than normal Clearing Broker);

(9) Reporting side executing broker as "give-up" (if any);

(10) Contra side executing broker;

(11) Contra side introducing broker in case of "give-up" trade;

(12) Contra side Clearing Broker (if other than normal Clearing Broker).

(13) For any transaction in an order for which a member has recording and reporting obligations under Rules [6830](#) and [6870](#), the trade report must include an order identifier, meeting such parameters as may be prescribed by FINRA, assigned to the order that uniquely identifies the order for the date it was received (see Rule [6830](#)(a)(1)(A)).

(14) For any transaction for which the FINRA/Nasdaq Trade Reporting Facility is used to transfer a transaction fee between two FINRA members, the trade report must comply with the requirements of Rule 7230A(h).

(15) If applicable, a unique indicator specified by FINRA to denote a clearing-only, non-regulatory report in accordance with Rule 7230A(i)(4).

Individual executions of orders in a security at the same price and with the identical contra party may be aggregated into a single report and submitted to the System for purposes of clearing only; provided, however, that a Reporting Party may not withhold reporting a trade in anticipation of aggregating the transaction with other transactions.

(f) Reporting Cancelled and Reversed Trades

(1) Obligation and Party Responsible for Reporting Cancelled and Reversed Trades

With the exception of trades cancelled by FINRA staff in accordance with the [Rule 11890](#) Series, members shall report to the System the cancellation or reversal of any trade previously submitted to the System. The member responsible under FINRA rules for submitting the original trade report shall submit the cancellation or reversal report in accordance with the requirements set forth in paragraph (f)(2).

(2) Deadlines and Other Requirements for Reporting Cancelled and Reversed Trades

Members shall comply with deadlines and other requirements set forth in Rule 6380A for reporting cancelled and reversed trades.

(g) Reporting Certain Transactions for Purposes of Regulatory Transaction Fee Assessment

The following types of transactions that are assessed a regulatory transaction fee in accordance with Section 3 of Schedule A to the FINRA By-Laws shall be reported in the manner prescribed by FINRA to denote that they are submitted for regulatory purposes and not for dissemination. Transactions must be submitted to the System by 8:00 p.m. Eastern Time (or the end of the System reporting session that is in effect at that time). Transactions may be entered as clearing or non-clearing.

(1) Transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security, and consideration is given (away from the market sales);

(2) Transactions effected pursuant to the exercise of an OTC option; and

(3) Transfers of proprietary securities positions where the transfer (A) is effected in connection with a merger or direct or indirect acquisition and (B) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception. Members must report such transfers on the same day as the ultimate transfer of the positions on their books and records, unless later reporting is warranted under specific circumstances.

(h) Inclusion of Transaction Fees in Clearing Reports Submitted to the FINRA/Nasdaq Trade Reporting Facility

FINRA members may agree in advance to transfer a transaction fee charged by one member to another member on a transaction in NMS stocks, as defined in Rule 600(b) of SEC Regulation NMS, effected otherwise than on an exchange through the submission of a clearing report to the FINRA/Nasdaq Trade Reporting Facility. Such report, inclusive of the transaction fee, will be submitted to the National Securities Clearing Corporation for processing. To facilitate the transfer of the transaction fee, the report submitted to the FINRA/Nasdaq Trade Reporting Facility shall provide, in addition to all other information required to be submitted by any other rule, a total per share or contract price amount, inclusive of the transaction fee. Prior to submitting any such report, both members and their respective clearing firms, as applicable, must have executed an agreement, as specified by FINRA, permitting the facilitation of the transfer of the transaction fee through the FINRA/Nasdaq Trade Reporting Facility, as well as any other applicable agreement, such as a give up agreement pursuant to Rule 6380A(h), and submitted the executed agreement(s) to the FINRA/Nasdaq Trade Reporting Facility. Such agreement(s) are considered member records for purposes of [Rule 4511](#) and must be made and preserved by both members in conformity with applicable FINRA rules. Nothing in this paragraph shall relieve a member from its obligations under FINRA rules and the federal securities laws, including but not limited to, [Rule 2232](#) and SEA Rule 10b-10.

Example:

SELL 100 shares to another member at 10 plus a transaction fee of .01 per share;

REPORT 100 shares at 10 (the per share price exclusive of the transaction fee) to the FINRA/Nasdaq Trade Reporting Facility for publication and also report 10.01 (the per share price inclusive of the transaction fee) for purposes of clearance and settlement through the National Securities Clearing Corporation.

(i) Submission of Non-Tape Reports Associated With Previously Executed Trades

(1) Members shall not submit to the System any non-tape report (either a non-tape, non-clearing report or a clearing-only report), including but not limited to reports of step-outs and reversals, associated with a previously executed trade that was not reported to the System, unless such report is submitted, pursuant to Rule 6380A(d), to reflect the offsetting riskless portion of a riskless principal transaction.

Reprinted with permission from FINRA. Version date February 18, 2025.

(2) Where permitted by subparagraph (1) above, any non-tape report (either a non-tape, non-clearing report or a clearing-only report) associated with a previously executed trade(s) that was not reported to the System must identify the facility or market where the associated trade(s) was reported, as specified by FINRA. For any such report, members must retain and produce, upon request, documentation relating to the associated trade(s).

(3) Where permitted by subparagraph (1) above, if both parties are submitting a clearing-only report to effectuate a step-out, the member transferring out of the position must report a "step-out" and the member receiving the position must report a "step-in."

(4) Clearing-Only, Non-Regulatory Reports

(A) For a previously executed trade for which a tape report has been submitted to the System, or for the offsetting portion of a riskless principal or agency transaction for which a non-tape, non-clearing report has been submitted to the System, a member may submit a "clearing-only, non-regulatory report" to the System solely for purposes of clearing the transaction. A clearing-only, non-regulatory report cannot be used to satisfy any regulatory reporting requirement under FINRA rules that may apply to the transaction, e.g., the identification of other members for agency or riskless principal transactions under Rule 6380A(d). As such, submission of a clearing-only, non-regulatory report constitutes certification by the member that it has satisfied all applicable regulatory reporting requirements under FINRA rules relating to the transaction through the submission of other reports (tape or non-tape, non-clearing) to the System.

(B) Members that submit a clearing-only, non-regulatory report must use the unique indicator specified by FINRA to denote that the report is submitted solely for purposes of clearing the transaction and not for purposes of satisfying any regulatory reporting requirements.

(C) Except where otherwise expressly provided under FINRA rules, information contained in a clearing-only, non-regulatory report must be consistent with information in any other report submitted to the System for the same transaction.

• • • Supplementary Material: -----

.01 All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

7240A. Trade Report Processing

(a) Locked-in trades may be determined in the System by matching the trade information submitted by the Reporting Parties through one of the following methods:

(1) Trade by Trade Match

Both parties to the trade submit transaction data and the System performs an on-line match;

(2) Trade Acceptance

The Reporting Party enters its version of the trade into the System and the contra party reviews the trade report and accepts or declines the trade. An acceptance results in a locked-in trade. A declined trade report will be carried over at the end of trade date processing and will remain in the System, but will not be subject to the automatic lock-in process. A declined trade must be cancelled by the Reporting Party pursuant to Rule 6380A(g) if the trade was originally reported to the System for dissemination purposes.

(3) Automatic Lock-in

Any trade that remains open (i.e. unmatched or unaccepted) at the end of its entry day will be carried over for continued comparison and reconciliation. The System will automatically lock in and submit to DTCC as such any carried-over T to T+21 (calendar day) trade if it remains open as of noon Eastern Time on the next business day. The System will carry over any T+22 (calendar day) or older "as/of" trade that remains open, but such trade will not be subject to the automatic lock-in process.

(b) T+N Trade Processing

T+N (or "as/of") entries may be submitted until 8:00 p.m. each business day. "As/of" reports of trades executed on non-business days and T+365 or greater trades will not be submitted to clearing by the System.

7230B. Trade Report Input

(a) Reportable Transactions

Members shall comply with the Rule 7200B Series when reporting transactions to the System, including executions of less than one round lot. All trades that are reportable transactions will be processed pursuant to an effective transaction reporting plan. Trades that are not already locked-in trades will not be accepted by the System. Members must use an alternative mechanism to report and clear these trades.

(b) When and How Trade Reports are Submitted

Participants shall transmit trade reports to the System for transactions in Reportable Securities as soon as practicable but no later than 10 seconds after execution, or such other time period prescribed by rule.

(c) Which Party Inputs Trade Reports

Participants shall, subject to the input requirements below, input trade reports. Trade reports shall be submitted by the member as required by Rule 6380B(b).

(d) Trade Information To Be Input

The information listed below must be provided for each transaction that is reported to the System. Unless the contra side will have an opportunity to provide its own trade information, the Reporting Member is responsible for the complete and accurate submission of information for both sides of the trade.

(1) Security Identification Symbol of the eligible security (SECID);

(2) Number of shares or bonds;

(3) Unit price, excluding commissions, mark-ups or mark-downs;

(4) The time of execution expressed in hours, minutes and seconds based on Eastern Time in military format, unless another provision of FINRA rules requires that a different time be included on the report;

(5) A symbol indicating whether the party submitting the trade report represents the Reporting Member (denoted as the Executing Party or "EPID") side or the Non-Reporting Party (denoted as the Contra Party or "CPID") side;

(6) A symbol indicating whether the transaction is a buy, sell or cross, and if applicable, a symbol indicating that the transaction is a sell short or sell short exempt trade from the Reporting Member perspective or contra side perspective, irrespective of whether the contra side is a member, except the sell short or sell short exempt indicator is not required on any clearing-only, non-regulatory report submitted pursuant to Rule 7230B(h)(4);

(7) A symbol indicating whether the trade is as principal, riskless principal, or agent;

(8) Reporting side Clearing Broker (if other than normal Clearing Broker);

(9) Reporting side executing broker in the case of a give up agreement, as defined in Rule 6380B(g);

(10) Contra side executing broker;

(11) Contra side Introducing Broker in the case of a give up agreement, as defined in Rule 6380B(g);

(12) Contra side Clearing Broker (if other than normal Clearing Broker); and

(13) For any transaction in an order for which a member has recording and reporting obligations under Rules [6830](#) and [6870](#), the trade report must include an order identifier, meeting such parameters as may be prescribed by FINRA, assigned to the order that uniquely identifies the order for the date it was received (see Rule [6830](#)(a)(1)(A)).

(14) For any transaction for which the FINRA/NYSE Trade Reporting Facility is used to transfer a transaction fee between two FINRA members, the trade report must comply with the requirements of Rule 7230B(i).

(15) If applicable, a unique indicator specified by FINRA to denote a clearing-only, non-regulatory report in accordance with Rule 7230B(h)(4).

(e) Reporting Cancelled and Reversed Trades

With the exception of trades cancelled by FINRA staff in accordance with the [Rule 11890](#) Series, members shall report to the System the cancellation or reversal of any trade previously submitted to the System. The member responsible under FINRA rules for submitting the original trade report shall submit the cancellation or reversal report in accordance with the requirements set forth in paragraph (e)(2).

(2) Deadlines and Other Requirements for Reporting Cancelled and Reversed Trades

Members shall comply with deadlines and other requirements set forth in Rule 6380B for reporting cancelled and reversed trades.

(f) Reporting Certain Transactions for Purposes of Regulatory Transaction Fee Assessment

The following types of transactions that are assessed a regulatory transaction fee in accordance with Section 3 of Schedule A to the FINRA By-Laws shall be reported in the manner prescribed by FINRA to denote that they are submitted for regulatory purposes and not for dissemination. Transactions must be submitted to the System by 8:00 p.m. Eastern Time (or the end of the System reporting session that is in effect at that time). Transactions may be entered as clearing or non-clearing.

(1) Transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security, and consideration is given (away from the market sales);

(2) Transactions effected pursuant to the exercise of an OTC option; and

(3) Transfers of proprietary securities positions where the transfer (A) is effected in connection with a merger or direct or indirect acquisition and (B) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception. Members must report such transfers on the same day as the ultimate transfer of the positions on their books and records, unless later reporting is warranted under specific circumstances.

(g) Prohibition on Aggregation of Transaction Reports

Individual executions of orders in a security at the same price may not be aggregated for System reporting purposes.

(h) Submission of Non-Tape Reports Associated With Previously Executed Trades

(1) Members shall not submit to the System any non-tape report (either a non-tape, non-clearing report or a clearing-only report), including but not limited to reports of step-outs and reversals, associated with a previously executed trade that was not reported to the System, unless such report is submitted, pursuant to Rule 6380B(d), to reflect the offsetting riskless portion of a riskless principal transaction.

(2) Where permitted by subparagraph (1) above, any non-tape report (either a non-tape, non-clearing report or a clearing-only report) associated with a previously executed trade(s) that was not reported to the System must identify the facility or market where the associated trade(s) was reported, as specified by FINRA. For any such report, members must retain and produce, upon request, documentation relating to the associated trade(s).

(3) Where permitted by subparagraph (1) above, if both parties are submitting a clearing-only report to effectuate a step-out, the member transferring out of the position must report a "step-out" and the member receiving the position must report a "step-in."

(4) Clearing-Only, Non-Regulatory Reports

(A) For a previously executed trade for which a tape report has been submitted to the System, or for the offsetting portion of a riskless principal or agency transaction for which a non-tape, non-clearing report has been submitted to the System, a member may submit a "clearing-only, non-regulatory report" to the System solely for purposes of clearing the transaction. A clearing-only, non-regulatory report cannot be used to satisfy any regulatory reporting requirement under FINRA rules that may apply to the transaction, e.g., the identification of other members for agency or riskless principal transactions under Rule 6380B(d). As such, submission of a clearing-only, non-regulatory report constitutes certification by the member that it has satisfied all applicable regulatory reporting requirements under FINRA rules relating to the transaction through the submission of other reports (tape or non-tape, non-clearing) to the System.

(B) Members that submit a clearing-only, non-regulatory report must use the unique indicator specified by FINRA to denote that the report is submitted solely for purposes of clearing the transaction and not for purposes of satisfying any regulatory reporting requirements.

(C) Except where otherwise expressly provided under FINRA rules, information contained in a clearing-only, non-regulatory report must be consistent with information in any other report submitted to the System for the same transaction.

(i) Inclusion of Transaction Fees in Clearing Reports Submitted to the FINRA/NYSE Trade Reporting Facility

FINRA is a registered trademark of the Financial Industry Regulatory Authority, Inc.

Reprinted with permission from FINRA. Version date February 18, 2025.

FINRA members may agree in advance to transfer a transaction fee charged by one member to another member on a transaction reported to the FINRA/NYSE Trade Reporting Facility through the submission of a clearing report to the FINRA/NYSE Trade Reporting Facility. Such report, inclusive of the transaction fee, will be submitted to the National Securities Clearing Corporation for processing. To facilitate the transfer of the transaction fee, the report submitted to the FINRA/NYSE Trade Reporting Facility shall provide, in addition to all other information required to be submitted by any other rule, pricing information to indicate a total per share or contract price amount, inclusive of the transaction fee. Prior to submitting any such report, both members and their respective clearing firms, as applicable, must have executed an agreement, as specified by FINRA, permitting the facilitation of the transfer of the transaction fee through the FINRA/NYSE Trade Reporting Facility, as well as any other applicable agreement, such as a give up agreement pursuant to Rule 6380B(g), and submitted the executed agreement(s) to the FINRA/NYSE Trade Reporting Facility. Such agreement(s) are considered member records for purposes of [Rule 4511](#) and must be made and preserved by both members in conformity with applicable FINRA rules. Nothing in this paragraph shall relieve a member from its obligations under FINRA rules and the federal securities laws, including but not limited to, [Rule 2232](#) and SEA Rule 10b-10.

Example:

SELL 100 shares to another member at 10 plus a transaction fee of .01 per share;

REPORT 100 shares at 10 (the per share price exclusive of the transaction fee) to the FINRA/NYSE Trade Reporting Facility for publication and also report pricing information to indicate a 10.01 per share price inclusive of the transaction fee for purposes of clearance and settlement through the National Securities Clearing Corporation.

• • • **Supplementary Material:** -----

.01 All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

(13) For any transaction in an order for which a member has recording and reporting obligations under Rules [6830](#) and [6870](#), the trade report must include an order identifier, meeting such parameters as may be prescribed by FINRA, assigned to the order that uniquely identifies the order for the date it was received (see Rule [6830\(a\)\(1\)\(A\)](#)).

(14) For any transaction for which the OTC Reporting Facility is used to transfer a transaction fee between two FINRA members, the trade report must comply with the requirements of Rule 7330(i).

(15) If applicable, a unique indicator specified by FINRA to denote a clearing-only, non-regulatory report in accordance with Rule 7330(h)(4).

(e) Aggregation of Transaction Reports for Clearing Purposes Only

FINRA is a registered trademark of the Financial Industry Regulatory Authority, Inc.

Reprinted with permission from FINRA. Version date February 18, 2025.

Individual executions of orders in a security at the same price and with the identical contra party may be aggregated into a single report and submitted to the System for purposes of clearing only; provided, however, that a Reporting Party may not withhold reporting a trade in anticipation of aggregating the transaction with other transactions.

(f) Reporting Cancelled and Reversed Trades

(1) Obligation and Party Responsible for Reporting Cancelled and Reversed Trades

With the exception of trades cancelled by FINRA staff in accordance with the [Rule 11890](#) Series, members shall report to the System the cancellation or reversal of any trade previously submitted to the System. The member responsible under FINRA rules for submitting the original trade report shall submit the cancellation or reversal report in accordance with the requirements set forth in paragraph (f)(2).

(2) Deadlines and Other Requirements for Reporting Cancelled and Reversed Trades

Members shall comply with deadlines and other requirements set forth in [Rule 6622](#) for reporting cancelled and reversed trades.

(g) Reporting Certain Transactions for Purposes of Regulatory Transaction Fee Assessment

The following types of transactions that are assessed a regulatory transaction fee in accordance with Section 3 of Schedule A to the FINRA By-Laws shall be reported in the manner prescribed by FINRA to denote that they are submitted for regulatory purposes and not for dissemination. Transactions must be submitted to the System by 8:00 p.m. Eastern Time (or the end of the System reporting session that is in effect at that time). Transactions may be entered as clearing or non-clearing.

(1) Transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security, and consideration is given (away from the market sales);

(2) Transactions effected pursuant to the exercise of an OTC option; and

(3) Transfers of proprietary securities positions where the transfer (A) is effected in connection with a merger or direct or indirect acquisition and (B) is not in furtherance of a trading or investment strategy. Members must provide FINRA at least three business days advance written notice of their intent to use this exception, including the basis for their determination that the transfer meets the terms of the exception. Members must report such transfers on the same day as the ultimate transfer of the positions on their books and records, unless later reporting is warranted under specific circumstances.

(h) Submission of Non-Tape Reports Associated With Previously Executed Trades

(1) Members shall not submit to the System any non-tape report (either a non-tape, non-clearing report or a clearing-only report), including but not limited to reports of step-outs and reversals, associated with a previously executed trade that was not reported to the System, unless such report is submitted, pursuant to [Rule 6622\(d\)](#), to reflect the offsetting riskless portion of a riskless principal transaction.

(2) Where permitted by subparagraph (1) above, any non-tape report (either a non-tape, non-clearing report or a clearing-only report) associated with a previously executed trade(s) that was not reported to the System must identify the facility or market where the associated trade(s) was reported, as specified by FINRA. For any such report, members must retain and produce, upon request, documentation relating to the associated trade(s).

(3) Where permitted by subparagraph (1) above, if both parties are submitting a clearing-only report to effectuate a step-out, the member transferring out of the position must report a "step-out" and the member receiving the position must report a "step-in."

(4) Clearing-Only, Non-Regulatory Reports

(A) For a previously executed trade for which a tape report has been submitted to the System, or for the offsetting portion of a riskless principal or agency transaction for which a non-tape, non-clearing report has been submitted to the System, a member may submit a "clearing-only, non-regulatory report" to the System solely for purposes of clearing the transaction. A clearing-only, non-regulatory report cannot be used to satisfy any regulatory reporting requirement under FINRA rules that may apply to the transaction, e.g., the identification of other members for agency or riskless principal transactions under [Rule 6622\(d\)](#). As such, submission of a clearing-only, non-regulatory report constitutes certification by the member that it has satisfied all applicable regulatory reporting requirements under FINRA rules relating to the transaction through the submission of other reports (tape or non-tape, non-clearing) to the System.

(B) Members that submit a clearing-only, non-regulatory report must use the unique indicator specified by FINRA to denote that the report is submitted solely for purposes of clearing the transaction and not for purposes of satisfying any regulatory reporting requirements.

(C) Except where otherwise expressly provided under FINRA rules, information contained in a clearing-only, non-regulatory report must be consistent with information in any other report submitted to the System for the same transaction.

FINRA members may agree in advance to transfer a transaction fee charged by one member to another member on a transaction reported to the OTC Reporting Facility through the submission of a clearing report to the OTC Reporting Facility. Such report, inclusive of the transaction fee, will be submitted to the National Securities Clearing Corporation for processing. To facilitate the transfer of the transaction fee, the report submitted to the OTC Reporting Facility shall provide, in addition to all other information required to be submitted by any other rule, a total per share or contract price amount, inclusive of the transaction fee. Prior to submitting any such report, both members and their respective clearing firms, as applicable, must have executed an agreement, as specified by FINRA, permitting the facilitation of the transfer of the transaction fee through the OTC Reporting Facility, as well as any other applicable agreement, such as a give up agreement pursuant to [Rule 6622\(h\)](#), and submitted the executed agreement(s) to the OTC Reporting Facility. Such agreement(s) are considered member records for purposes of [Rule 4511](#) and must be made and preserved by both members in conformity with applicable FINRA rules. Nothing in this paragraph shall relieve a member from its obligations under FINRA rules and the federal securities laws, including but not limited to, [Rule 2232](#) and SEA Rule 10b-10.

Example:

SELL 100 shares to another member at 10 plus a transaction fee of .01 per share;

REPORT 100 shares at 10 (the per share price exclusive of the transaction fee) to the OTC Reporting Facility for publication and also report 10.01 (the per share price inclusive of the transaction fee) for purposes of clearance and settlement through the National Securities Clearing Corporation.

• • • Supplementary Material: -----

.01 All time fields required by this Rule must be reported in hours, minutes, seconds and milliseconds, if the member's system captures time in milliseconds. Pursuant to the FINRA Rule 6800 Series (Consolidated Audit Trail Compliance Rule), Industry Members must report the execution of an order, in whole or in part ("order execution events") to the Central Repository. Industry Members must report time fields required by this Rule using the same timestamp granularity that they use to report order execution events to the Central Repository, in accordance with [Rule 6860](#).

7340. Trade Report Processing

(a) Locked-in trades may be determined in the System by matching the trade information submitted by the Reporting Parties through one of the following methods:

(1) Trade by Trade Match

Both parties to the trade submit transaction data and the System performs an on-line match;

(2) Trade Acceptance

The Reporting Party enters its version of the trade into the System and the contra party reviews the trade report and accepts or declines the trade. An acceptance results in a locked-in trade. A declined trade report will be carried over at the end of trade date processing and will remain in the System, but will not be subject to the automatic lock-in process. A declined trade must be cancelled by the Reporting Party pursuant to [Rule 6622\(f\)](#) if the trade was originally reported to the System for dissemination purposes.

(3) Automatic Lock-in

Any trade that remains open (i.e. unmatched or unaccepted) at the end of its entry day will be carried over for continued comparison and reconciliation. The System will automatically lock in and submit to DTCC as such any carried-over T to T+21 (calendar day) trade if it remains open as of noon Eastern Time on the next business day. The System will carry over any T+22 (calendar day) or older "as/of" trade that remains open, but such trade will not be subject to the automatic lock-in process.

(b) T+N Trade Processing

T+N (or "as/of") entries may be submitted until 8:00 p.m. each business day. "As/of" reports of trades executed on non-business days and T+365 or greater trades will not be submitted to clearing by the System.

(b) In assessing capacity penalties incurred under the National Market System Plans:

(1) FINRA will use the metrics of the applicable Securities Information Processor (SIP) to determine if a penalty has been incurred and will use its own metrics to allocate the penalty to the appropriate ADF Trading Centers (in the event that more than one ADF Trading Center has exceeded its projections);

(2) FINRA will notify each ADF Trading Center as soon as possible after it has exceeded its projections; and

(3) The ADF Trading Center will be invoiced for the penalties once FINRA has received its invoice from the SIP(s).

7610A. Securities Transaction Credit

FINRA members that trade securities listed on the NYSE ("Tape A"), Amex and regional exchanges ("Tape B"), or Nasdaq ("Tape C") in over-the-counter transactions reported to the FINRA/Nasdaq Trade Reporting Facility may receive from the FINRA/Nasdaq Trade Reporting Facility transaction credits based on the transactions attributed to them. A transaction is attributed to a member if the member is identified as the executing party in a trade report submitted to the FINRA/Nasdaq Trade Reporting Facility that the FINRA/Nasdaq Trade Reporting Facility submits to the Consolidated Tape Association or the Nasdaq Securities Information Processor. A FINRA member may earn credits from any of three pools maintained by the FINRA/Nasdaq Trade Reporting Facility, each of which represents the revenue paid by the Consolidated Tape Association or the Nasdaq Securities Information Processor with respect to the FINRA/Nasdaq Trade Reporting Facility for each of Tape A, Tape B, and Tape C transactions. A FINRA member may earn credits from the pools according to the pro rata share of revenue attributable to over-the-counter transactions reported to the FINRA/Nasdaq Trade Reporting Facility by the member in each of Tape A, Tape B, and Tape C for each calendar quarter. Credits will be paid on a quarterly basis.

Retail Participants, as that term is defined in Supplementary Material .01 to Rule 7620A, are not eligible to receive from the FINRA/Nasdaq Trade Reporting Facility transaction credits.

The percentage of attributable revenue shared with a particular member (excluding a Retail Participant) will be determined as follows:

Tape A

Percentage Market Share	Percent of attributable revenue shared
Greater than or equal to 2%	98%
Less than 2% but greater than or equal to 1%	95%
Less than 1% but greater than or equal to 0.50%	85%
Less than 0.50% but greater than or equal to 0.10%	20%
Less than 0.10%	0%

Tape B

Percentage Market Share	Percent of attributable revenue shared
Greater than or equal to 2%	98%
Less than 2% but greater than or equal to 1%	95%
Less than 1% but greater than or equal to 0.35%	85%
Less than 0.35% but greater than or equal to 0.10%	10%
Less than 0.10%	0%

Tape C

Percentage Market Share	Percent of attributable revenue shared
Greater than or equal to 2%	98%
Less than 2% but greater than or equal to 1%	95%
Less than 1% but greater than or equal to 0.50%	85%

Less than 0.50% but greater than or equal to 0.10%	20%
Less than 0.10%	0%

For purposes of this Rule, "Market Share" means a percentage calculated by dividing the total number of shares represented by trades reported by a FINRA member to the FINRA/Nasdaq Trade Reporting Facility during a given calendar quarter by the total number of shares represented by all trades reported to the Consolidated Tape Association or the Nasdaq Securities Information Processor, as applicable, during that quarter. Market Share is calculated separately for each tape.

For avoidance of doubt, if a FINRA member reports trades to both the FINRA/Nasdaq Trade Reporting Facility Carteret and the FINRA/Nasdaq Trade Reporting Facility Chicago during a given calendar quarter, "Market Share" shall be calculated by dividing the total number of shares represented by trades reported by the member to both the FINRA/Nasdaq Trade Reporting Facility Carteret and the FINRA/Nasdaq Trade Reporting Facility Chicago during that calendar quarter by the total number of shares represented by all trades reported to the Consolidated Tape Association or the Nasdaq Securities Information Processor, as applicable, during that quarter.

The following charges shall be paid by participants for use of the FINRA/Nasdaq Trade Reporting Facility. In the case of trades where the same market participant is on both sides of a trade report, applicable fees assessed on a "per side" basis will be assessed once, rather than twice, and the market participant will be assessed applicable Trade Report Fees as the Executing Party side only. For avoidance of doubt, if a market participant reports trades to both the FINRA/Nasdaq Trade Reporting Facility Carteret and the FINRA/Nasdaq Trade Reporting Facility Chicago during a given month, then the participant's aggregate reporting volume on both FINRA/Nasdaq Trade Reporting Facilities will be considered for the purpose of determining whether and to what extent the following charges, discounts or caps apply to the participant during that month.

To the extent that a participant's activity on the FINRA/Nasdaq Trade Reporting Facility qualifies it for more than one special pricing program during a given month, then the participant will automatically receive the benefit of the lowest fee applicable to such activity.

(5) Academic Corporate Bond TRACE Data as used in Rule 7730 means historic transaction-level data on all transactions in corporate bonds reported to TRACE (except a transaction that is a List or Fixed Offering Price Transaction, as defined in Rule 6710(q), or a Takedown Transaction, as defined in Rule 6710(r)), including Rule 144A transactions in corporate bonds, with elements to be determined from time to time by FINRA in its discretion and as stated in a Regulatory Notice or other equivalent publication. Academic Corporate Bond TRACE Data will be delayed a minimum of 36 months and will not include MPIDs, but will substitute a masked dealer identifier for each MPID included in the data.

(6) "End-of-Day TRACE Transaction File" as used in Rule 7730 means, for Data Sets other than U.S. Treasury Securities, a daily file that includes all transaction data disseminated as part of Real-Time TRACE transaction data on that day and is separately available for each data set for which Real-Time TRACE transaction data is available (i.e., the Corporate Bond Data Set, Agency Data Set, SP Data Set, and Rule 144A Data Set). The End-of-Day TRACE Transaction File for U.S. Treasury Securities means a separately available daily file that includes transaction data for On-the-Run Nominal Coupons reported to TRACE on that day. The End-of-Day TRACE Transaction File is made available daily after the TRACE system closes.

(7) TRACE Security Activity Report

The "TRACE Security Activity Report" is a monthly report containing basic descriptive security elements, aggregate par value volume information, number of transactions, number of unique market participant identifiers ("MPIDs"), and top 5 statistics for disseminated transactions in Corporate and Agency Bonds. The TRACE Security Activity Report will be delayed a minimum of 90 days.

(A) Par Value Volume Information

The aggregate par value volume information provided in the TRACE Security Activity Report will include the total par value traded, par value traded of customer buys, par value traded of customer sells, and par value traded of interdealer transactions. For uncapped transactions, the aggregate par value volume information will reflect the actual trade size of each transaction. If there are six or more capped transactions disseminated during the calendar month, the aggregate par value volume information will reflect the actual trade size of each transaction, as well as the par value traded within specified size categories. If there are fewer than six disseminated capped transactions during the calendar month, the aggregate par value volume information will reflect the capped volumes disseminated by TRACE.

(B) Number of Transactions

The transaction totals provided in the TRACE Security Activity Report will include the total number of transactions, the number of customer buys, the number of customer sells, and the number of interdealer transactions. If there are six or more capped transactions disseminated during the calendar month, the report will provide the total number of transactions and an estimate (provided as incremental ranges) of the number of transactions with a par value volume within specified size categories.

(C) Number of Unique Market Participant Identifiers and Top 5 Statistics

The TRACE Security Activity Report will provide the number of unique reporting MPIDs (displaying the actual number of unique MPIDs where there are six or more unique MPIDs or "1 to 5," as applicable) and the number of unique reporting MPIDs for disseminated capped transactions (displaying the actual number of unique MPIDs where there are six or more unique MPIDs, or "0" or "1 to 5," as applicable); the percentage of the total number of transactions traded by the top five MPIDs for each CUSIP; and the percentage of total par value traded by the top five MPIDs for each CUSIP.

(h) FINRA ADDS Fees

The FINRA Automated Data Delivery System ("FINRA ADDS") provides a member access to TRACE trade journal files. FINRA offers two optional FINRA ADDS services: TRACE Data Delivery and TRACE Data Delivery Secure File Transfer Protocol.

(1) TRACE Data Delivery

There is no charge to a market participant identifier ("MPID") that is a subscriber for TRACE Data Delivery reports provided to the MPID in response to requests by the MPID via the FINRA ADDS website.

(2) TRACE Data Delivery Secure File Transfer Protocol Fee

The TRACE Data Delivery Secure File Transfer Protocol ("TRACE Data Delivery SFTP") fees are charged to a market participant identifier ("MPID") that is a subscriber and are:

(A) Set-Up Fee — a one-time fee of \$250 per MPID that subscribes to the service.

(B) Monthly Fee — a monthly fee of \$200 per MPID that subscribes to the service.

¹ Charges that may be imposed by third parties, such as FIX line providers, are not included in these fees.

² Under the Vendor Real-Time Data Feed Fee and service, Real-Time TRACE transaction data (or Data Set(s) of such data) may not be used in any display application that permits end users to determine individual transaction pricing.
