A permit transfer cannot occur until the property has been sold and the change of ownership has been recorded. A permit transfer is automatically approved provided the new owner submits all information requested on the transfer agreement form. No construction by the new owner is authorized until the Department approves the permit transfer agreement and the approved permit transfer agreement is posted on the site.

All construction must conform strictly to the requirements of the permit. Should the new owner propose changes in the authorized work, the Department must approve the changes in writing prior to their implementation. Copies of the permit and approved construction plans (if any) should be obtained from the previous owner.

If you have questions about the form, please contact the Department at (850) 245-8570 8336 (ask the operator to connect you with the CCCL staff member responsible for permit transfer agreements in the coastal county in which your project is proposed).
