Federally Insured Bank Accounts - Plan fiduciaries may consider establishing an interest bearing federally insured bank account in the name of a missing participant, provided the participant would have an unconditional right to withdraw funds from the account. In selecting a bank and accepting an initial interest rate, with or without a guarantee period, a plan fiduciary must give appropriate consideration to all available information relevant to such selection and interest rate, including associated bank charges.

Escheat To State Unclaimed Property Funds - As an alternative, plan fiduciaries may also consider transferring missing participants' account balances to state unclaimed property funds in the state of each participant's last known residence or work location. We understand that some states accept such distributions on behalf of missing participants. We also understand that states often provide searchable Internet databases that list the names of property owners and, in some instances, award minimal interest on unclaimed property funds.

In prior guidance, the Department concluded that, if a state unclaimed property statute were applied to require an ongoing plan to pay to the state amounts held by the plan on behalf of terminated employees, the application of that statute would be preempted by section 514(a) of ERISA.(18) However, we do not believe that the principles set forth in Advisory Opinion 94-41A, which dealt with a plan fiduciary's duty to preserve plan assets held in trust for an ongoing plan, prevent a plan fiduciary from voluntarily deciding to escheat missing participants' account balances under a state's unclaimed property statute in order to complete the plan termination process.

Additionally, we believe that a plan fiduciary's transfer of a missing participant's account balance from a terminated defined contribution plan to a state's unclaimed property fund would constitute a plan distribution, which ends both the property owner's status as a plan participant and the property's status as plan assets under ERISA.(19)

In deciding between distribution into a state unclaimed property fund and distribution into a federally insured bank account, we believe that a plan fiduciary should evaluate any interest accrual and fees associated with a bank account against the availability of the state unclaimed property fund's searchable database that may facilitate the potential for recovery. In any event, transfer to state unclaimed property funds must comply with state law requirements.

100% Income Tax Withholding - We are aware that some plan fiduciaries believe that imposing 100% income tax withholding on missing participant benefits, in effect transferring the benefits to the IRS, is an acceptable means by which to deal with the benefits of missing participants. After reviewing this option with the staff of the Internal Revenue Service, we have concluded that the use of this option would not be in the interest of participants and beneficiaries and, therefore, would violate ERISA's fiduciary requirements. Based on discussions with the IRS staff and our understanding of the IRS's current data processing, the 100% withholding distribution option would not necessarily result in the withheld amounts being matched or applied to the missing participants'/taxpayers' income tax liabilities resulting in a refund of the amount in excess of such tax liabilities.(20) This option, therefore, should not be used by plan fiduciaries as a means to distribute benefits to plan participants and beneficiaries.

Miscellaneous Issues

Fiduciaries have expressed concerns about legal impediments that might hinder the establishment of individual retirement plans or bank accounts on behalf of missing participants. These impediments include perceived conflicts with the customer identification and verification provisions of the USA PATRIOT Act (Act).(21) With regard to this problem, we note that Treasury staff, along with the staff of the other Federal functional regulators,(22) has issued helpful guidance for fiduciaries that are establishing an individual retirement plan or federally insured bank account in the name of a missing participant. This guidance was published in a set of questions and answers on the customer identification and verification provision (CIP) of the Act, "FAQs: Final CIP Rule," on the regulators' Web sites.(23)

The Federal functional regulators advised the Department that they interpret the CIP requirements of section 326 of the Act and implementing regulations to require that banks and other financial institutions implement their CIP compliance program with respect to an account (including an individual retirement plan or federally

insured bank account) established by an employee benefit plan in the name of a former participant (or beneficiary) of such plan, only at the time the former participant or beneficiary first contacts such institution to assert ownership or exercise control over the account. CIP compliance will not be required at the time an employee benefit plan establishes an account and transfers the funds to a bank or other financial institution for purposes of a distribution of benefits from the plan to a separated employee.

With regard to the application of state laws, including those governing signature requirements and escheat, we note that such issues are beyond the Department's jurisdiction.

Conclusion

Actions taken to implement the decision to terminate a plan, including the search for missing participants, and if search efforts fail, the selection of a distribution option for the benefits of missing participants, are governed by the fiduciary responsibility provisions of ERISA. In fulfilling their duties of prudence and loyalty to missing participants, we believe there are certain search methods which involve such nominal expense and potential for effectiveness that fiduciaries must always use them, regardless of the size of the account balance, as discussed in detail above.

We also believe that these duties require that fiduciaries consider establishing individual retirement plans as the preferred method of distribution for the benefits of missing participants. In this regard, the selection of an individual retirement plan provider and the initial investment for an individual retirement plan also constitute fiduciary decisions. If plan fiduciaries are unable to locate an individual retirement plan provider that is willing to accept a rollover distribution, fiduciaries may consider distributing a missing participant's benefits into a federally insured bank account or transferring a missing participant's benefit to a state unclaimed property fund; the factors to be considered in choosing between these options are discussed more fully above.

Subject: Fiduciary Responsibilities Of Directed Trustees

Issue

In the context of publicly traded securities, what are the fiduciary responsibilities of a directed trustee?

Background

Many employee pension plans use directed trustees to carry out transactions according to instructions from a named fiduciary of the plan. During investigations of such transactions by the Department, difficult questions may arise regarding the scope of the directed trustee's fiduciary duties. Recent court decisions, addressing this issue in the context of purchases and holdings of publicly traded employer securities in particular, have focused attention on the nature and scope of a directed trustee's fiduciary duties. This bulletin provides general guidance to EBSA regional offices regarding the Department's views on the responsibilities of directed trustees under ERISA, particularly with respect to directions involving employer securities.

Fiduciary Status Of Directed Trustee

Section 403(a) provides that a plan trustee "shall have exclusive authority and discretion to manage and control the assets of the plan." Section 3(21)(A) provides that a person is a fiduciary with respect to a plan "to the extent . . . he . . . exercises any authority or control respecting management or disposition of its assets." A plan trustee, therefore, will, by definition, always be a "fiduciary" under ERISA as result of its authority or control over plan assets. Not all trustees, however, have the same authority or discretion to manage or control the assets of a plan. In this regard, section 403(a) specifically recognizes that a trustee or trustees will have limited authority or discretion when:

(1) the plan expressly provides that the trustee or trustees are subject to the direction of a named fiduciary who is not a trustee, in which case the trustees shall be subject to proper directions of such fiduciary which are made in accordance with the terms of the plan and which are not contrary to this Act.

While section 403(a)(1) does not remove a directed trustee from section 3(21)'s purview, it significantly limits such a trustee's responsibilities as a plan fiduciary. As the district court in In re Enron Corp. Securities, Derivative & ERISA Litig., 284 F. Supp. 2d 511, 601 (S.D. Tex. 2003), recognized:

At least some fiduciary status and duties of a directed trustee are preserved, even though the scope of its exclusive authority and discretion to manage and control the assets of the plan' has been substantially constricted by the directing named fiduciary's correspondingly broadened role . . . .

The court in In re WorldCom, Inc. ERISA Litig., 263 F. Supp. 2d 745, 762 (S.D.N.Y. 2003) also noted that, while the directed trustee provision serves as a limiting principle, "section 403(a) does not . . . eliminate the fiduciary status or duties that normally adhere to a trustee with responsibility over ERISA assets." See also

FirsTier Bank, N.A. v. Zeller, 16 F.3d 907, 9110 (8th Cir.), cert. denied sub nom, Vercoe v. FirsTier Bank, N.A., 513 U.S. 871 (1994); Herman v. NationsBank Trust Co., 126 F.3d 1354, 1361-62, 1370 (11th Cir. 1997).

The duties of a directed trustee under section 403(a)(1) are therefore significantly narrower than the duties generally ascribed to a discretionary trustee under common law trust principles.(1)

Determining Whether A Direction Is "Proper"

Under section 403(a)(1), a directed trustee is subject to proper directions of a named fiduciary. For purposes of section 403(a)(1), a direction is proper only if the direction is "made in accordance with the terms of the plan" and "not contrary to the Act [ERISA]." Accordingly, when a directed trustee knows or should know that a direction from a named fiduciary is not made in accordance with the terms of the plan or is contrary to ERISA, the directed trustee may not, consistent with its fiduciary responsibilities, follow the direction.

In accordance with plan terms

Under section 403(a)(1), a directed trustee may not follow a direction that the trustee knows or should know is inconsistent with the terms of the plan. In order to make such determinations, directed trustees necessarily have a duty to request and review all the documents and instruments governing the plan that are relevant to its duties as directed trustee. Accordingly, if a directed trustee either fails to request such documents or fails to review the documents furnished in response to its request and, as a result of such failure, follows a direction contrary to the terms of the plan, the directed trustee may be liable for following such direction because the directed trustee had a duty to request and review pertinent plan documents and, therefore, should have known that the direction was not in accordance with the terms of the plan. If a directed trustee follows an improper direction, as would be the case where the purchase of a particular stock at the direction of the plan's named fiduciary is contrary to the plan's investment policy, the directed trustee may be liable for a breach of its fiduciary duty to follow only proper directions.

It is the view of the Department that a direction is consistent with the terms of a plan if the documents pursuant to which the plan is established and operated do not prohibit the direction. It is also the view of the Department that if, in the course of reviewing the propriety of a particular direction, a directed trustee determines that the terms of the relevant documents are ambiguous with respect to the permissibility of the direction, the directed trustee should obtain a clarification of the plan terms from the fiduciary responsible for interpreting such terms in order to ensure that the direction is proper. In this regard, the directed trustee may rely on the interpretation of such fiduciary.

Not contrary to ERISA

Even when a direction is consistent with the terms of the plan, the direction may nonetheless fail to be a proper direction because it is contrary to ERISA. Under section 403(a)(1), a directed trustee may not follow a direction that the trustee knows or should know is contrary to ERISA. For example, the directed trustee cannot follow a direction that the directed trustee knows or should know would require the trustee to engage in a transaction prohibited under section 406 or violate the prudence requirement of section 404(a)(1). The following discussion further clarifies the duties of a directed trustee in this area.

Prohibited transaction determinations

A directed trustee must follow processes that are designed to avoid prohibited transactions. A directed trustee could satisfy its obligation by obtaining appropriate written representations from the directing fiduciary that the plan maintains and follows procedures for identifying prohibited transactions and, if prohibited, identifying the individual or class exemption applicable to the transaction. A directed trustee may rely on the representations of the directing fiduciary unless the directed trustee knows that the representations are false.

Prudence determinations

The named fiduciary has primary responsibility for determining the prudence of a particular transaction, whether the transaction involves buying, selling or holding particular assets. Accordingly, as the courts and the Department have long recognized, the scope of a directed trustee's responsibility is significantly limited. A directed trustee does not, in the view of the Department, have an independent obligation to determine the prudence of every transaction. The directed trustee does not have an obligation to duplicate or second-guess the work of the plan fiduciaries that have discretionary authority over the management of plan assets and does not have a direct obligation to determine the prudence of a transaction. See In re WorldCom ERISA Litig., 263 F. Supp. 2d at 761; Herman v. NationsBank Trust Co., 126 F.3d at 1361-62, 1371 (directed trustee does not have a direct obligation of prudence under ERISA section 404; its obligation is simply "to make sure" the

"directions were proper, in accordance with the terms of the plan, and not contrary to ERISA").

Duty to act on non-public information

The directed trustee's obligation to question market transactions involving publicly traded stock on prudence grounds is quite limited. The primary circumstance in which such an obligation could arise is when the directed trustee possesses material non-public information regarding a security. If a directed trustee has material non-public information that is necessary for a prudent decision, the directed trustee, prior to following a direction that would be affected by such information, has a duty to inquire about the named fiduciary's knowledge and consideration of the information with respect to the direction. For example, if a directed trustee has non-public information indicating that a company's public financial statements contain material misrepresentations that significantly inflate the company's earnings, the trustee could not simply follow a direction to purchase that company's stock at an artificially inflated price.

Generally, the possession of non-public information by one part of an organization will not be imputed to the organization as a whole (including personnel providing directed trustee services) where the organization maintains procedures designed to prevent the illegal disclosure of such information under securities, banking or other laws.(2) If, despite such procedures, the individuals responsible for the directed trustee services have actual knowledge of material non-public information, the directed trustee, prior to following a direction that would be affected by such information, has a duty, as indicated above, to inquire about the named fiduciary's knowledge and consideration of the information with respect to the direction. Similarly, if the directed trustee performs an internal analysis in which it concludes that the company's current financial statements are materially inaccurate, the directed trustee would have an obligation to disclose this analysis to the named fiduciary before making a determination whether to follow a direction to purchase the company's security. The directed trustee would not have an obligation to disclose reports and analyses that are available to the public.

Duty to act on public information

Absent material non-public information, a directed trustee, given its limited fiduciary duties as determined by statute, will rarely have an obligation under ERISA to question the prudence of a direction to purchase publicly traded securities at the market price solely on the basis of publicly available information. Three considerations counsel in favor of this view: (1) markets generally are assumed to be efficient so that stock prices reflect publicly available information and known risks; (2) in the case of employer securities, the securities laws impose substantial obligations on the company, its officers, and its accountants to state their financial records accurately; and (3) ERISA section 404 requires the instructing fiduciary to adhere to a stringent standard of care.(3) Furthermore, because stock prices fluctuate as a matter of course, even a steep drop in a stock's price would not, in and of itself, indicate that a named fiduciary's direction to purchase or hold such stock is imprudent and, therefore, not a proper direction.

In limited, extraordinary circumstances, where there are clear and compelling public indicators, as evidenced by an 8-K filing with the Securities and Exchange Commission (SEC), a bankruptcy filing or similar public indicator, that call into serious question a company's viability as a going concern,(4) the directed trustee may have a duty not to follow the named fiduciary's instruction without further inquiry.(5) For example, if a company filed for bankruptcy under circumstances which make it unlikely that there would be any distribution to equity-holders, or otherwise publicly stated that it was unlikely to survive the bankruptcy proceedings in a manner that would leave current equity-holders with any value, the directed trustee would have an obligation to question whether the named fiduciary has considered the prudence of the direction.(6) It also is the view of the Department that, in situations where a fiduciary who is a corporate employee gives an instruction to buy or hold stock of his or her company subsequent to the company, its officers or directors, being formally charged by state or Federal regulators with financial irregularities, the directed trustee, taking such facts into account, may need to decline to follow the direction or may need to conduct an independent assessment of the transaction in order to assure itself that the instruction is consistent with ERISA.(7) If, however, an independent fiduciary was appointed to manage the plan's investment in company stock, a directed trustee could follow the proper directions of the independent fiduciary without having to conduct its own independent assessment of the transaction.

Effect Of Questioning Directions On Fiduciary Status

It is the view of the Department that the nature and scope of a directed trustee's fiduciary responsibility, as discussed herein, does not change merely because the directed trustee, in carrying out its duties, raises questions concerning whether a direction is "proper" or declines to follow a direction that the directed trustee does not believe is a proper direction within the meaning of section 403(a)(1). For example, information provided to a named fiduciary concerning the prudence of a direction is not investment advice for purposes of

ERISA §3(21)(A)(ii). Similarly, if a named fiduciary changes a direction in response to a directed trustee's inquiries or information, the directed trustee's fiduciary responsibility with respect to the changed direction remains governed by section 403(a)(1). The directed trustee does not become primarily responsible for the prudence of the direction.

Co-Fiduciary Duties

Under ERISA section 405(a)(1), a fiduciary is liable for the breach of another fiduciary if the fiduciary "participates knowingly" in the breach of the other fiduciary. Accordingly, if a directed trustee has knowledge of a fiduciary breach, the directed trustee may be liable as a co-fiduciary unless the directed trustee takes reasonable steps to remedy the breach. Thus, if the directed trustee knew that the named fiduciary was failing to discharge its obligations in accordance with ERISA's requirements, it could not simply follow directions from the breaching fiduciary. Efforts to remedy a breach (or to prevent an imminent breach) may include reporting the breach to other fiduciaries of the plan or the Department of Labor.

Conclusion

Although its responsibilities are significantly limited under the statute, a directed trustee is a fiduciary under ERISA and must exercise its duties prudently and solely in the interest of the plan participants and beneficiaries. Particularly in the context of purchasing, selling or holding publicly traded securities on a generally recognized market, the trustee may follow the named fiduciary's directions absent extraordinary circumstance as discussed above.

Footnotes

1. It is assumed for purposes of this guidance that discretionary authority or control over plan assets, beyond that discussed herein as applicable to a person serving as a directed trustee under section 403(a)(1), has not been conferred upon a directed trustee under the terms of the plan, including trust and service provider agreements.
2. The Department expresses no view as to whether, or under what circumstances, other procedures established by an organization to limit the disclosure of information will serve to avoid the imputation of information to a directed trustee.
3. It should be noted that, in the case of an individual account plan, the diversification requirements of section 404(a)(1)(C) do not apply to the acquisition or holding of qualifying employer securities within the meaning of section 407(d)(5).
4. We note that section 409 of the Sarbanes-Oxley Act of 2002, 15 U.S.C. 78(m)(l), requires public companies to disclose "on a rapid and current basis" material information regarding changes in the company's financial condition or operations as the SEC by rule determines to be necessary or useful for the protection of investors or in the public interest. The SEC has recently updated its disclosure requirements related to Form 8-K, expanding the number of reportable events and shortening the filing deadline for most items to four business days after the occurrence of the event triggering the disclosure requirements of the form. 69 FR. 15594 (Mar. 25, 2004). Not all 8-K filings regarding a company would trigger a duty on the part of a directed trustee to question a direction to purchase or hold securities of that company. Only those relatively few 8-Ks that call into serious question a company's ongoing viability may trigger a duty on the part of the directed trustee to take some action.
5. A directed trustee's actual knowledge of media or other public reports or analyses that merely speculate on the continued viability of a company does not, in and of itself, constitute knowledge of clear and compelling evidence concerning the company sufficient to give rise to a directed trustee's duty to act.
6. Even under such circumstances, it might not be imprudent to purchase or hold stock in a distressed company in bankruptcy. There may be situations in which the plan's fiduciaries could reasonably conclude that the stock investment makes sense, even for a long-term investor, in light of the proposed restructuring of the company's debts or other factors.
7. Nothing in the text should be read to suggest that a directed trustee would have a heightened duty whenever a regulatory body opens an investigation of a company whose securities are the subject of a direction, merely based on the bare fact of the investigation.

Director of Regulations and Interpretations

Subject: The Distribution To Plans Of Settlement Proceeds Relating To Late Trading And Market-Timing

Issue

What are the duties and responsibilities under ERISA of independent distribution consultants (IDCs), plan service-providers and fiduciaries with respect to the allocation and distribution of mutual fund settlement proceeds to plans and plan participants?

Background

Pursuant to Orders entered by the Securities and Exchange Commission (SEC) in several SEC enforcement matters alleging late trading and market timing activities, SEC distribution funds have been created for the purpose of making distributions to investors who suffered losses as a result of the conduct alleged in the matters. For each relevant mutual fund or series of funds, an independent distribution consultant (IDC) has been or will be appointed pursuant to SEC Orders to establish a plan to distribute the monies from the settlement fund to appropriate fund shareholders, subject to the SEC's approval.

A number of ERISA-covered plans will be entitled to settlement proceeds by virtue of their mutual fund investments. In some cases, plans will be the shareholder of record and receive their settlement distribution directly from the settlement fund. In other cases, an intermediary, e.g., a broker-dealer, underwriter, and/or record-keeper, will be the shareholder of record and plans, as well as non-plan investors, will receive their settlement distribution based on their interest in an "omnibus account" operated by the intermediary. When an intermediary is involved, we understand that distribution plans may provide an intermediary with the option of either receiving the settlement proceeds in a lump sum and making the requisite distribution of proceeds to the individual investors in its omnibus account or providing the IDC the necessary client and transaction records, based on which the IDC will make distributions to the individual investors. In other instances, we understand that distribution plans will provide that the IDC will allocate and distribute settlement proceeds directly to all beneficial shareholders, including plans.

Under certain settlement agreements, mutual fund companies or settling parties may agree to pay the costs associated with allocations and distributions made by the IDCs with respect to omnibus account clients of intermediaries. However, in most instances it is anticipated that settlements will not provide for the costs associated with allocations among plans or, at the plan level, among plan participants and beneficiaries.

A number of issues have been raised by IDCs, intermediaries, plan sponsors, plan-level fiduciaries, and others regarding the application of ERISA's fiduciary responsibility rules to the distribution and allocation of these settlement proceeds. Among the issues raised are questions about whether and/or when settlement proceeds will become "plan assets" under ERISA and when an intermediary or other plan service-provider may become a "fiduciary" by virtue of its receipt and investment of such proceeds. Other issues concern the duties of a plan fiduciary with respect to the allocation of such proceeds among plans and participants and beneficiaries.

This bulletin provides general guidance to EBSA regional offices regarding the Department's views on the application of ERISA's fiduciary rules to parties involved in the distribution and allocation of mutual fund settlement proceeds to employee benefit plans and among the participants and beneficiaries of such plans.

Analysis

Independent Distribution Consultants (IDCs) – Allocation among shareholders

In light of the fact that some ERISA-covered employee benefit plans, as investors in the relevant mutual funds, will be entitled to a portion of the mutual fund settlement proceeds, questions have been raised as to whether an IDC, in developing and implementing a distribution plan, is subject to ERISA's fiduciary rules. It is the view of the Department that the development and implementation of settlement fund distribution plans will not, in and of itself, cause an IDC to become a fiduciary under ERISA.

Section 3(21) of ERISA defines a fiduciary as one who has or exercises discretionary authority or control in the administration or management of an employee benefit plan or exercises any authority or control respecting management or disposition of its assets. In determining whether particular funds constitute plan assets, the Department has issued regulations describing what constitutes plan assets with respect to a plan's investment in other entities and with respect to participant contributions. See 29 C.F.R. § § 2510.3-101 and 2510.3-102. The Department also has indicated that the assets of an employee benefit plan generally are to be identified in other situations on the basis of "ordinary notions of property rights."(1)

As discussed above, IDCs are appointed pursuant to SEC Orders to establish a plan to distribute the monies from the settlement fund to affected shareholders, and prior to implementation, distribution plans must be approved by the SEC. The IDC, in this capacity, has not been engaged to act on behalf of an employee benefit plan or plans and is not an agent of the plans. Moreover, we have been informed by the SEC that no mutual fund investor, including employee benefit plan investors, has an interest in or claims against settlement fund proceeds prior to their distribution to the affected shareholders.(2) For these reasons, in our view, under the regulations and applying ordinary notions of property rights, settlement fund proceeds, in whole or in part, would not constitute plan assets prior to their distribution by an IDC to affected plan shareholders or intermediaries acting on their behalf. Accordingly, an IDC, in developing and implementing a distribution plan, would not be exercising any authority or control in the administration or management of an employee benefit plan or its assets. Therefore, the development and implementation of settlement fund distribution plans will not, in and of itself, cause an IDC to become a fiduciary under ERISA.

This conclusion would not be affected by the fact that the IDC, as part of its distribution plan, applied a de minimis threshold for determining which shareholders, including plans, received distributions, or imposed conditions on the receipt of a distribution, such as conditioning receipt on the use of a particular allocation methodology at the participant-level(3) or furnishing a report to the IDC on how the distributed funds were allocated among participants.

Intermediaries – Allocation among omnibus account clients

Unlike IDCs acting under the auspices of the SEC, intermediaries, in receiving settlement fund proceeds, will be acting on behalf of their omnibus account clients, including employee benefit plan clients.(4) The omnibus account clients, therefore, will have a beneficial interest in the settlement fund proceeds received by the intermediary, without regard to whether determinations have been made as to the specific entitlement of each omnibus account client. Accordingly, applying ordinary notions of property rights, settlement fund proceeds received by intermediaries on behalf of employee benefit plan clients will constitute plan assets and, as such, will be required to be held in trust and managed in accordance with the fiduciary responsibility provisions of Part 4 of Title I of ERISA.(5)

Without regard to whether an intermediary was a fiduciary with respect to an employee benefit plan prior to receiving a distribution of settlement proceeds, an intermediary receiving proceeds on behalf of an employee benefit plan would, in the view of the Department, be assuming fiduciary responsibilities upon receipt of such proceeds as a result of having discretionary authority or control respecting administration or management of an ERISA plan or exercising any authority or control respecting management or disposition of plan assets. The Department notes that the decision by an intermediary, who is not otherwise a fiduciary, to decline to receive a settlement fund distribution on behalf of its omnibus account clients would not, in and of itself, be viewed as a fiduciary decision. The intermediary's decision or related actions, however, may nonetheless give rise to fiduciary liability if such actions adversely affect the plan's right to receive proceeds in accordance with the IDC's plan of distribution.(6)

As noted above, an intermediary in receipt of settlement fund proceeds will be required to hold the proceeds in

trust and manage those proceeds in accordance with the fiduciary responsibility provisions of Part 4 of Title I. Among other things, an intermediary in discharging its responsibilities to act prudently and solely in the interest of plan participants and beneficiaries, in accordance with section 404(a) of ERISA, may have to invest the proceeds pending the development and/or implementation of a plan for distributing the proceeds to individual omnibus account clients. In such instances, the intermediary may also be responsible for developing and/or implementing a plan for allocating settlement proceeds among individual omnibus account clients.

If an IDC, as part of its distribution plan approved by the SEC, makes available to an intermediary or requires, as a condition to the distribution, that the intermediary utilize a particular methodology for allocating settlement fund proceeds among individual omnibus account clients, the Department will, as an enforcement matter, view the application of such methodology to the allocation of settlement fund proceeds among individual omnibus account clients as satisfying the requirements of section 404(a) with respect to the methodology for allocating assets to employee benefit plans. We note that while the use of a particular allocation methodology may be considered prudent, fiduciaries also need to ensure that implementation of the methodology (e.g., making allocations and distributions in accordance with such methodology) is carried out in a prudent manner.

In some instances, the intermediary will be responsible both for developing and implementing the plan for allocating proceeds among its omnibus account clients. As fiduciaries, intermediaries must be prudent in the selection of the method of allocating the proceeds among its clients in an omnibus account, including plans. Prudence in such instances would, at a minimum, require a process by which the fiduciary chooses a methodology where the proceeds of the settlement would be allocated, where possible, to the affected clients in relation to the impact the late trading and market timing activities may have had on the particular plan. However, prudence would also require a process by which the fiduciary weighs the costs and ultimate benefit to the clients associated with achieving that goal. For example, there may be instances where the cost of allocating an amount to a particular plan may exceed the projected amount of the proceeds with respect to which the plan might be entitled under a prudent methodology. In such instances (i.e., where the cost to the plan is projected to exceed the benefit to the plan), an allocation plan would not be considered imprudent merely because it included an objective formula pursuant to which amounts otherwise allocable to a plan are forfeited and reallocated among other omnibus account clients, provided that any such formula applies to all omnibus account clients, not just employee benefit plans, and does not permit the exercise of discretion by the intermediary.

Further, it is our view that an allocation plan would not fail to be “solely in the interest of participants,” for purposes of section 404(a)(1), merely because the allocation methodology does not result in an exact reflection of transactional activity of the clients, provided such method is reasonable, fair and objective. For example, if a fiduciary determines that it would be more cost-effective to do so, it may allocate the proceeds among clients in an omnibus account according to the average share or dollar balance of the clients’ investment in the mutual fund during the relevant period.

In some instances, the services rendered by intermediaries in connection with the receipt, allocation and/or distribution of settlement fund proceeds may involve services or compensation not contemplated in the service provider agreement between the employee benefit plan(s) and the intermediary. While an intermediary may charge plans for any direct expenses incurred in connection with receipt, allocation and/or distribution of settlement fund proceeds, an intermediary, as a plan fiduciary, cannot compensate itself from plan assets beyond direct expenses without violating the prohibited transaction rule of section 406 of ERISA.(7)

If the receipt, allocation and/or distribution services of the intermediary, and compensation for such services, are carried out in accordance with the directions and approval of appropriate plan fiduciaries, the intermediary may be able to avoid fiduciary status and issues relating to self-dealing under ERISA. However, determinations as to whether approval by a plan fiduciary has occurred would be factual in nature and would involve considerations such as language in relevant service contracts or whether the intermediary has disclosed to its employee benefit plan clients sufficient information concerning its proposed administration of the settlement proceeds so that the plan client reasonably can approve the arrangement based upon its understanding of the arrangement and related expenses.(8)

In some instances, an intermediary may receive settlement proceeds with respect to plans that have, since the event leading to the settlement, hired a new record keeper or intermediary for investments made by the plan. In such instances, the intermediary in receipt of the proceeds would still be considered a fiduciary with respect to plan assets in its possession and would be expected to transfer the assets to the plan’s new record keeper or to an appropriate fiduciary of the plan.

An intermediary may also receive proceeds on behalf of plans that have terminated. In such instances, an intermediary should make reasonable efforts to deliver such assets to a responsible plan fiduciary (most likely,

the plan sponsor) for distribution to plan participants or other appropriate disposition. If the intermediary is unable to locate a responsible plan fiduciary after a reasonable and diligent search, the intermediary may reallocate such proceeds among its other clients. Under no circumstances may an intermediary retain such assets for its own use.

Plan Fiduciary – Allocation among participants and beneficiaries

The following discussion focuses on the obligations of the plan fiduciary in allocating settlement fund proceeds among the plan's participants and beneficiaries. For purposes of this discussion, the fiduciary might be the plan sponsor, intermediary or other person charged with allocating the proceeds among participants and beneficiaries.

Similar to the allocation of settlement fund proceeds among plans, if an IDC, as part of its distribution plan approved by the SEC, requires, as a condition to the distribution, that the fiduciary utilize a particular methodology for allocating settlement fund proceeds among plan participants and beneficiaries, the Department will, as an enforcement matter, view the application of such methodology to the allocation of proceeds among participants and beneficiaries as satisfying the requirements of section 404(a) with respect to the methodology for allocating assets to participants and beneficiaries.

If an IDC's distribution plan provides, but does not require the use of, a methodology for allocating proceeds among plan participants and beneficiaries, the Department also will, as an enforcement matter, view the use of such methodology as satisfying the requirements of section 404(a)(1)(A) and (B) of ERISA with respect to a methodology for allocating assets to participants and beneficiaries. As noted above, while the use of a particular allocation methodology may be treated as prudent, fiduciaries also need to ensure that implementation of the IDC allocation methodology (e.g., making allocations to participants and beneficiaries in accordance with the methodology) is carried out in a prudent manner.

In the absence of guidance in the IDC's distribution plan with respect to allocations to a plan's participants and beneficiaries, fiduciaries must select a method or methods for allocating proceeds. In this regard, a plan fiduciary must be prudent in the selection of a method of allocating settlement proceeds among plan participants. Prudence in such instances, at a minimum, would require a process by which the fiduciary chooses a methodology where the proceeds of the settlement would be allocated, where possible, to the affected participants in relation to the impact the market timing and late trading activities may have had on the particular account. However, prudence would also require a process by which the fiduciary weighs the costs to the plan or the participant accounts and ultimate benefit to the plan or the participants associated with achieving that goal.

In addition, a fiduciary's decision must satisfy the "solely in the interest of participants" standard of section 404(a)(1) of ERISA. In this regard, a method of allocation would not fail to be "solely in the interest of participants" merely because the selected method may be seen as disadvantaging some affected participants or groups of participants. In deciding on an allocation method, the plan fiduciary may properly weigh the competing interests of various participants or classes of plan participants (e.g., affected versus current participants) and the effects of the allocation method on those participants provided a rational basis exists for the selected method and such method is reasonable, fair and objective. For example, if a fiduciary determines that plan records are insufficient to reasonably determine the extent to which participants invested in mutual funds during the relevant period should be compensated, the fiduciary may properly decide to allocate the proceeds to current participants invested in the mutual fund based upon a reasonable, fair and objective allocation method. Similarly, if a plan fiduciary determines that the cost to allocate the proceeds among participants whose accounts were invested in the mutual fund during the entirety of the relevant period approximates the amount of the proceeds, the fiduciary may properly decide to allocate the proceeds to current participants invested in the mutual fund based upon a reasonable, fair and objective allocation method.

As plan assets, the proceeds of the settlement may not be used to benefit employers, fiduciaries or other parties in interest with respect to the plan. Sections 403(c) and 406 of ERISA. Such proceeds should not be used to offset an employer's future contributions to the plan, unless such use is permissible under the terms of the plan and would not violate applicable provisions of the Internal Revenue Code (e.g., such as when amounts involved would be considered "forfeitures" under the terms of the plan). However, we believe that a plan fiduciary, consistent with its obligations under sections 404 and 406,(9) may reasonably conclude that certain participant-level allocations that are not "cost-effective" (e.g., allocations to participant accounts of de minimis amounts) may instead be used for other permissible plan purposes, such as the payment of reasonable expenses of administering the plan.

It is the view of the Department that compliance with ERISA's fiduciary rules generally will require that a

fiduciary accept a distribution of settlement proceeds. The Department recognizes, however, that in rare instances the cost attendant to the receipt and distribution of such proceeds may exceed the value of such proceeds to the plan's participants. In such instances, and provided that there is no other permissible use for such proceeds by the plan (e.g., payment of plan administrative expenses), it might be appropriate for a plan fiduciary to not accept the settlement distribution.

Conclusion

SEC settlement fund proceeds resulting from market timing and late trading activities will not be considered "plan assets" until distributed from the settlement fund. A party will be a fiduciary to the extent it exercises any authority or control over such plan assets following distribution by an IDC.

Settlement fund proceeds will upon distribution to a plan or an intermediary constitute plan assets and, therefore, will be required to be held in trust and managed in accordance with ERISA's fiduciary responsibility rules. In general, as an enforcement matter, plan fiduciaries and intermediaries will be considered to satisfy their fiduciary duty to prudently select a method for allocating settlement proceeds if they utilize an allocation methodology provided or required by an IDC in a distribution plan approved by the SEC.

While plan fiduciaries generally have flexibility in designing a methodology for allocating settlement fund proceeds among the plan's participants and beneficiaries, plan fiduciaries must ensure that the selected methodology does not otherwise violate the prudence and "solely in the interest" requirements of section 404(a).

Finally, plan fiduciaries should document appropriately the plan's receipt and use of such settlement proceeds and work closely with their record-keepers and other service-providers in completing the process.

3. Among other things, an allocation methodology might include the use of a particular algorithm or a restriction on the depositing of proceeds in the forfeiture account of a plan.
4. Some IDC plans may include ERISA plans within the definition of "intermediaries." This discussion of intermediaries is intended to include only those intermediaries that are not ERISA plans. Where ERISA plans are themselves shareholders of record, the fiduciaries of such plans are generally acting in a fiduciary capacity with respect to the settlements.

6. For example, if an intermediary elects not to receive settlement fund proceeds on behalf of its employee benefit plan clients and also refuses to provide client records and other information necessary for an IDC to make the required distributions, the intermediary would be considered to be effectively exercising discretion or control over plan assets and, thereby, subject to ERISA's fiduciary standards because its actions will have prevented the plan from receiving a share of the settlement.

In this advisory opinion involving demutualization proceeds distribution, Prudential provided the policyholder advance notice of the allocation options and a reasonable period of time (here at least 60 days) to select an option. As long as the plan fiduciary actually chose the default allocation, its failure affirmatively to communicate that decision to Prudential did not cause Prudential to become a fiduciary by implementing that option.

Subject: Health Savings Accounts - ERISA Q&As

Background

In general, a Health Savings Account (HSA) is an account established pursuant to section 223 of the Internal Revenue Code (Code) to pay or reimburse the qualified medical expenses of eligible individuals. Although the requirements for tax qualified HSAs are found in the Code, questions regarding the application of the Employee Retirement Income Security Act of 1974 (ERISA) to HSAs arise because employers may establish and contribute to an employee's HSA. On April 7, 2004, the Department of Labor's Employee Benefits Security Administration issued Field Assistance Bulletin (FAB) 2004-01 addressing the status of HSAs under ERISA. That guidance explained that HSAs generally will not constitute "employee welfare benefit plans" covered by Title I of ERISA where employer involvement with the HSA is limited.

In FAB 2004-01, the Department specifically indicated that employer contributions to HSAs would not give rise to an ERISA-covered plan where the establishment of the HSA is completely voluntary on the part of the employees and the employer does not: limit the ability of eligible individuals to move their funds to another HSA or impose conditions on utilization of HSA funds beyond those permitted under the Code; make or influence the investment decisions with respect to funds contributed to an HSA; represent that the HSA is an employee welfare benefit plan established or maintained by the employer; or receive any payment or compensation in connection with an HSA.

Since the issuance of FAB 2004-01, the Department has received a number of recurring questions about the guidance and the evolving practices regarding the offering of HSAs. The following provides further guidance on many of the frequently asked questions raised with the Department.

Questions And Answers

In the absence of an employee's affirmative consent, may an employer open an HSA for an employee and deposit employer funds into the HSA without violating the condition in the FAB that requires that the establishment of an HSA by an employee be "completely voluntary"?
Yes. The intended purpose of the "completely voluntary" condition in FAB 2004-01 is to ensure that any contributions an employee makes to an HSA, including salary reduction amounts, will be voluntary. HSA accountholders have sole control and are exclusively responsible for expending HSA funds and generally may move the funds to another HSA or otherwise withdraw the funds. The fact that an employer unilaterally opens an HSA for an employee and deposits employer funds into the HSA does not divest the HSA accountholder of this control and responsibility and, therefore, would not give rise to an ERISA-covered plan so long as the conditions described in FAB 2004-01 are met.

If an employer maintains a high deductible health plan (HDHP) for its employees, can the employer limit the HSA providers that it allows to market their HSA products in the workplace or select a single HSA provider to which it will forward contributions without making the HSA part of the employer's ERISA-covered group health plan?
Yes. As stated in FAB 2004-01, an employer may offer an HSA to its employees without establishing an ERISA-covered plan in one of two ways. The employer may rely on the group-type insurance safe harbor in 29 C.F.R. § 2510.3-1(j), in which case the employer cannot make contributions to the HSA, or it may rely on the separate conditions outlined in FAB 2004-01, in which case the employer may or may not elect to make employer contributions to the HSA.

If the employer relies on the group-type insurance safe harbor in 29 C.F.R. § 2510.3-1(j), it cannot "endorse" the HSA provider. In the Department's view, an employer would not be considered to "endorse" an HSA within the meaning of the regulation merely by limiting the HSA providers that it allows to market their HSA products in the workplace or selecting a single HSA provider to which it will forward contributions. Employers may also provide employees general information on the advisability of using an HSA in conjunction with the HDHP without "endorsing" the program. See generally Interpretive Bulletin 99-1, 29 C.F.R. § 2509.99-1.

The separate conditions in FAB 2004-01, though including completely voluntary employee participation and employer neutrality in not representing that the HSA is an employee welfare benefit plan established or maintained by the employer, do not include the group-type insurance safe harbor's prohibition on employer "endorsement." As explained in FAB 2004-01, an employer could limit the HSA providers that it allows to market their HSA products in the workplace or select a single HSA provider to which it will forward contributions and still satisfy the conditions outlined in the FAB without converting the HSA into an ERISA-covered plan.

Would an employer be viewed as "making or influencing" the HSA investment decisions of employees, within the meaning of the FAB, merely because the employer selects an HSA provider that offers some or all of the investment options made available to the employees in their 401(k) plan?
No. The mere fact that an employer selects an HSA provider to which it will forward contributions that offers a limited selection of investment options or investment options that replicate the investment options available to employees under their 401(k) plan would not, in the view of the Department, constitute the making or influencing of an employee's investment decisions giving rise to an ERISA-covered plan, so long as employees are afforded a reasonable choice of investment options and employees are not limited in moving their funds to another HSA. The selection of a single HSA provider that offers a single investment option would not, in the view the Department, afford employees a reasonable choice of investment options.

If contributions to an HSA are made through a cafeteria plan, would the savings that benefit the employer from non-payment of FICA and FUTA taxes on those contributions be considered "payment or compensation received in connection with an HSA" that would subject the HSA to Title I coverage?
No. The Department does not view an employer's non-payment of FICA and FUTA taxes on amounts contributed to an HSA as "payment or compensation" for purposes of the guidance issued in FAB 2004-01.

Can an employer pay the fees associated with the HSA that the employee would normally be expected or required to pay without causing the HSA to become an ERISA-covered plan?
Yes. As stated in the FAB, the mere fact that an employer contributes to an HSA does not result in the HSA being an ERISA-covered plan. Therefore, the Department does not believe that an employer paying fees associated with an HSA that the employee would otherwise be required to pay would make that HSA an ERISA-covered plan.

May an HSA vendor offer an HSA product it offers to the public to its own employees without the HSAs being considered employee benefit plans covered by ERISA?
Yes. Offering HSA products that the employer offers to the public in the regular course of business would not

mean the HSA provider established or is maintaining the HSA as an employer to provide benefits to its employees.

If the employer limits the number of HSA vendors to which it will forward contributions, may the employer receive a discount on another product from one of the selected HSA vendors?
No. In the Department's view, receiving a discount on another product from an HSA vendor selected by the employer would constitute the employer receiving a "payment" or "compensation" in connection with an HSA. In the Department's view, the arrangement would also give rise to fiduciary and prohibited transaction issues.

Are HSAs subject to the prohibited transaction provisions of section 4975 of the Internal Revenue Code?
Yes. Although the Department believes that HSAs meeting the conditions of FAB 2004-01 generally will not be ERISA-covered plans, the Medicare Modernization Act specifically provided that HSAs will be subject to the prohibited transaction provisions in section 4975 of the Code. In that regard, the Department's plan asset regulation at 29 C.F.R. § 2510.3-102 states, in relevant part, that "[f]or purposes of [certain specified provisions of ERISA] and section 4975 of the Internal Revenue Code only . . . the assets of the plan include amounts . . . that a participant or beneficiary pays to an employer, or amounts that a participant has withheld from his wages by an employer, for contribution to the plan as of the earliest date on which such contributions can reasonably be segregated from the employer's general assets." (Emphasis added). As a result, employers who fail to transmit promptly participants' HSA contributions may violate the prohibited transaction provisions of section 4975 of the Code. See Code § 4975(c)(1)(D) (prohibited transactions include the "transfer to, or use by or for the benefit of, a disqualified person of the income or assets of a plan").

Do the class prohibited transaction exemptions for owners of individual retirement accounts (IRAs) apply to accountholders of HSAs?
No. The class exemptions issued by the Department for products and services offered owners of IRAs, PTE 97-11, PTE 93-33, PTE 93-1, do not apply to HSA accountholders.

Is it a prohibited transaction for an HSA provider to offer a cash incentive for establishing an HSA with that provider?
No, if the provider deposits the incentive into the HSA. The Department stated in Advisory Opinion 2004-09A that, in certain situations, an HSA provider would not violate the prohibited transaction provisions under Code section 4975(c) or ERISA section 406 where the HSA provider offers an incentive to individuals for establishing an HSA with that provider by depositing cash directly into the individual's HSA. A cash contribution to an HSA generally would not be considered a "sale or exchange of property" or "a transfer of plan assets" for purposes of the prohibited transaction provisions of the Code. Because the cash contribution goes to the HSA and not the HSA account holder, the HSA's receipt of the cash contribution also would not be considered an act of self dealing on the part of the HSA account holder nor a receipt by the HSA account holder in his or her individual capacity of any consideration from a party dealing with the HSA.

May an HSA vendor provide a line of credit for HSA expenses to an HSA accountholder choosing its HSA?
The Internal Revenue Service has issued guidance permitting eligible individuals to use debit, credit, or stored-value cards to receive distributions from an HSA for qualified medical expenses. See IRS Notice 2004-2, Q&A 37. Subsequent guidance by the Service explains that, under section 223(e)(2) of the Code, account beneficiaries, HSA trustees, and HSA custodians may not enter into certain "prohibited transactions" with an HSA. See IRS Notice 2004-50, Q&A 67, 68. For example, an account beneficiary may not borrow or pledge the assets of the HSA or receive a benefit in his or her own individual capacity as a result of opening or maintaining an HSA because such a transaction would constitute a prohibited transfer to or use of the HSA assets by or for the benefit of the account beneficiary. See Advisory Opinion 89-12A. Whether a credit card arrangement between a vendor and owner of an HSA results in a prohibited transaction would depend on

specific facts and circumstances. A prohibited transaction would not result merely from an HSA accountholder directing the payment of HSA funds to the credit line vendor to reimburse the vendor for HSA expenses paid with a credit card.

Subject: Periodic Pension Benefit Statements - Pension Protection Act of 2006

Background

Section 105 of the Employee Retirement Income Security Act (ERISA) sets forth the requirements applicable to the furnishing of pension benefit statements to plan participants and beneficiaries. Section 508(a) of the Pension Protection Act of 2006 (PPA)(1) amended section 105, making a number of significant changes to the pension benefit statement requirements for both individual account plans and defined benefit plans. Among other things, the amendments to section 105 establish an affirmative obligation to automatically furnish pension benefit statements – at least once each quarter, in the case of individual account plans that permit participants to direct their investments; at least once each year, in the case of individual account plans that do not permit participants to direct their investments; and at least once every three years in the case of defined benefit plans. The amendments also increase the amount of information required to be contained in pension benefit statements for both individual account and defined benefit plans.

The amendments to section 105 are generally applicable to plan years beginning after December 31, 2006, with special rules for plans maintained pursuant to collective bargaining agreements.(2) Section 508(b) of the PPA requires the Department to develop one or more model pension benefit statements within one year of the date of enactment of the PPA (i.e., by August 18, 2007).

Since the enactment of the PPA, representatives of plan sponsors, service providers and others in the employee benefits community have raised a number of interpretive and compliance issues concerning the new pension benefit statement provisions. In particular, concerns have been expressed about the imminent effective date, the absence of guidance, and the cost and burdens attendant to pension benefit statement compliance efforts prior to the adoption of pension benefit statement regulations and the issuance of model pension benefit statements by the Department.

In recognition of the foregoing concerns, including the fact that major changes in what, how, and when pension benefit statement information is furnished to participants and beneficiaries may, in the absence of regulatory guidance from the Department, result in plan sponsors, plans, or participants and beneficiaries (in the case of individual account plans) incurring excessive or unnecessary compliance costs, the Department is providing general guidance in this Bulletin for EBSA's national and regional offices, as well as plan sponsors and administrators, concerning good faith compliance with the pension benefit statement provisions pending the issuance of regulations.

Good Faith Compliance

The Department has not yet issued regulations or other guidance concerning compliance with the pension benefit statement provisions of section 105 of ERISA, as amended by section 508(a) of the PPA. Until such regulations or guidance is issued, the Department will, as an enforcement matter, treat a plan administrator as satisfying the requirements of section 105 if the administrator has acted in good faith with a reasonable

interpretation of those requirements. This Bulletin provides the Department's views as to what constitutes good faith compliance with certain requirements of section 105.

Issues

1. Form of furnishing statements. In the case of individual account plans that provide for participant direction of investments, to what extent can the benefit statement requirements be satisfied by using multiple documents or sources for the required information?

It appears that, in the case of individual account plans that provide for participant direction, the information required to be included in pension benefit statements will, in many instances, involve multiple service providers, each of whom is a source for some, but not all, of the required information. For example, the plan administrator may be the source for information on vesting, whereas the plan's recordkeeper or brokerage firm may be the source for investment-related account information. We understand that, in the short term, compiling all the required information for disclosure in a single document may be impractical for plans.

Pending the issuance of further guidance, it is the view of the Department that good faith compliance with the pension benefit statement provisions does not preclude the use of multiple documents or sources for benefit statement information, provided that participants and beneficiaries have been furnished notification that explains how and when the information required by section 105 will be furnished or made available to participants and beneficiaries. Such notification should be written in a manner calculated to be understood by the average plan participant, furnished in any manner that a pension benefit statement could be furnished under this Bulletin (see issue two, below), and furnished in advance of the date on which a plan is required to furnish the first pension benefit statement pursuant to section 105(a)(1)(A)(i) of ERISA.

2. Manner of furnishing statements. To what extent can the pension benefit statement requirements be satisfied using electronic media?

Section 105(a)(2)(A)(iv) provides that a pension benefit statement may be delivered in written, electronic, or other appropriate form to the extent such form is reasonably accessible to the participant or beneficiary. In the Technical Explanation of the PPA, prepared by the staff of the Joint Committee on Taxation, the Committee explains, by way of example, that regulations relating to the furnishing of pension benefit statements, "could permit current benefit statements to be provided on a continuous basis through a secure plan web site for a participant or beneficiary who has access to the web site."(3)

With regard to the use of electronic media generally, the Department has issued a regulation, at 29 C.F.R. § 2520.104b-1(c), setting forth conditions under which a plan administrator will be deemed to satisfy the requirement, in section 2520.104b-1(b), that certain disclosures be furnished using "measures reasonably calculated to ensure actual receipt of the material." While the furnishing of the required pension benefit statement information in accordance with the safe harbor prescribed in paragraph (c) of section 2520.104b-1 would constitute good faith compliance with section 105, the Department notes that such manner of furnishing is not the exclusive means by which plan administrators could, in the absence of guidance to the contrary, satisfy their obligation to furnish pension benefit statement information. In this regard, we note that the Department of the Treasury and Internal Revenue Service recently issued guidance, at 26 C.F.R. § 1.401(a)-21,(4) relating to the use of electronic media to provide certain notices and documents required to be furnished to participants by retirement plans under the Internal Revenue Code. For purposes of section 105 of ERISA, the Department, pending further guidance and a review of the provisions of section 2520.104b-1(c), will view the furnishing of pension benefit statements in accordance with the provisions of section 1.401(a)-21, as good faith compliance with the requirement to furnish pension benefit statements to participants and beneficiaries.

With regard to pension plans that provide participants continuous access to benefit statement information through one or more secure web sites, the Department will view the availability of pension benefit statement information through such media as good faith compliance with the requirement to furnish benefit statement information, provided that participants and beneficiaries have been furnished notification that explains the availability of the required pension benefit statement information and how such information can be accessed by the participants and beneficiaries In addition, the notification must apprise participants and beneficiaries of their right to request and obtain, free of charge, a paper version of the pension benefit statement information required under section 105. Such notification should be written in a manner calculated to be understood by the average plan participant, furnished in any manner that a pension benefit statement could be furnished under this Bulletin, and furnished both in advance of the date on which a plan is required to furnish the first pension benefit statement pursuant to section 105(a)(1)(A)(i) and (ii) of ERISA and annually thereafter.

3. Dates for furnishing statements. Because the new pension benefit statement provisions are applicable as of

the first plan year beginning after December 31, 2006, what is the earliest date on which non-collectively bargained pension plans will be required to automatically furnish benefit statements that comply with the new provisions?

With regard to individual account plans that permit participants and beneficiaries to direct the investment of assets in their account, section 105(a)(1)(A)(i) requires that a pension benefit statement be furnished at least once each calendar quarter. For calendar year plans subject to this provision, the first pension benefit statement would be required for the quarter ending March 31, 2007. If a plan operated on a fiscal year basis, with the first plan year (after December 31, 2006) beginning on July 1, 2007, the first pension benefit statement required to comply with the new requirements would be required to be furnished for the quarter ending September 30, 2007.

Plans that do not provide participants or beneficiaries a right to direct their investments are required, pursuant to section 105(a)(1)(A)(ii), to furnish pension benefit statements at least once each calendar year. Whether on a calendar year or fiscal year basis, the first pension benefit statement for such plans that is required to comply with the new requirements would be required to be furnished for the calendar year ending December 31, 2007.

Pending the issuance of further guidance, it is the view of the Department that the furnishing of pension benefit statement information not later than 45 days following the end of the period (calendar quarter or calendar year) will constitute good faith compliance with the requirement to furnish a pension benefit statements in accordance with section 105(a)(1)(A)(i) and (ii).

Defined benefit plans generally are required, pursuant to section 105(a)(1)(B)(i), to furnish participants a pension benefit statement at least once every three years. The first pension benefit statement complying with the new requirements, therefore, would be due for the 2009 plan year, provided that the plan does not elect to comply with the alternative notice requirement in section 105(a)(3)(A). The alternative notice requirement for defined benefit plans provides that the requirements of section 105(a)(1)(B)(i) shall be treated as met with respect to a participant if at least once each year the administrator provides the participant notice of the availability of the pension benefit statement and the ways in which the participant may obtain such statement. If a plan elects to take advantage of the alternative notice provision in section 105(a)(3)(A), the required notification must be furnished not later than December 31, 2007.

It is the view of the Department that, in the absence of guidance to the contrary, similar principles would apply in determining good faith compliance by plans maintained pursuant to one or more collective bargaining agreements, with respect to which PPA section 508(c)(2) provides special rules for determining the date on which the provisions of section 105 are effective.

4. Right to direct investments. Will an individual account plan that does not otherwise provide participants the right to direct the investment of assets in their accounts be subject to the requirement to furnish statements quarterly (section 105(a)(1)(A)(i)) merely because the plan permits participants to take participant loans from the plan?

Pending issuance of further guidance, a reasonable interpretation of section 105(a)(1)(A)(i) would be that a participant loan feature does not, standing alone, cause a plan to be a plan that provides participants the right to direct the investment of assets in their accounts.

5. Limitations or restrictions on right to direct investments. Section 105(a)(2)(B)(ii)(I) requires that the pension benefit statement of an individual account plan that permits participant investment direction include “an explanation of any limitations or restrictions on any right of the participant or beneficiary under the plan to direct an investment.” What types of limitations and restrictions, if any, need not be included in benefit statements?

In the absence of guidance to the contrary, a reasonable interpretation of section 105(a)(2)(B)(ii)(I) would be that benefits statements must include limitations and restrictions on participants' or beneficiaries' rights imposed "under the plan," but need not include limitations and restrictions imposed by investment funds, other investment vehicles, or by state or federal securities laws.

6. Investment principles. Section 105(a)(2)(B)(ii)(II) requires that the pension benefit statement of an individual account plan that permits participant investment direction include “an explanation . . . of the importance, for the long-term retirement security of participants and beneficiaries, of a well-balanced and diversified investment portfolio, including a statement of the risk that holding more than 20 percent of a portfolio in the security of one entity (such as employer securities) may not be adequately diversified[.]” In the absence of a model benefit statement, is there language that a plan might use to satisfy this requirement?

It is the view of the Department that, in the absence of guidance to the contrary, the use of the following language will constitute good faith compliance with the requirements of section 105(a)(2)(B)(ii)(II):

To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing your overall risk of losing money. This is because market or other economic conditions that cause one category of assets, or one particular security, to perform very well often cause another asset category, or another particular security, to perform poorly. If you invest more than 20% of your retirement savings in any one company or industry, your savings may not be properly diversified. Although diversification is not a guarantee against loss, it is an effective strategy to help you manage investment risk.

In deciding how to invest your retirement savings, you should take into account all of your assets, including any retirement savings outside of the Plan. No single approach is right for everyone because, among other factors, individuals have different financial goals, different time horizons for meeting their goals, and different tolerances for risk.

It is also important to periodically review your investment portfolio, your investment objectives, and the investment options under the Plan to help ensure that your retirement savings will meet your retirement goals.

7. Notification of diversification rights. May an individual account plan that, prior to January 1, 2007, provides participants and beneficiaries diversification rights at least equal to the new rights conferred under section 204(j), satisfy the notice obligations under section 101(m) of ERISA by providing information concerning the importance of a diversified portfolio in connection with the furnishing of the first quarterly pension benefit statement information required by section 105(a)(1)(A)(i)?

Yes. The Department believes that the information required to be disclosed to participants and beneficiaries pursuant to section 101(m) is most significant for those participants and beneficiaries acquiring new diversification rights under section 204(j). For this reason the Department continues to believe that participants and beneficiaries in plans conferring new diversification rights as of January 1, 2007, should be furnished information concerning such rights and the importance of maintaining a diversified portfolio as soon as possible following January 1, 2007.(5)

With regard to individual account plans that, prior to January 1, 2007, provide participants and beneficiaries diversification rights at least equal to those conferred under section 204(j), the Department is persuaded that the furnishing of the 101(m) notice as a stand-alone disclosure may result both in confusion to participants and beneficiaries and distribution costs that, in many instances, will be passed on to the plan's participants and beneficiaries. In view of the fact that the periodic pension benefit statement required to be furnished pursuant to section 105(a)(1)(A)(i) is required, pursuant to section 105(a)(2)(B)(ii)(II), to contain information similar to that required by section 101(m)(2) concerning the importance of maintaining a diversified portfolio, and the fact that the pension benefit statement required to be furnished pursuant to section 105(a)(1)(A)(i) is required to be furnished within a few months of the furnishing of the 101(m) notice, the Department will treat a plan administrator's compliance with the periodic benefit statement requirements of section 105(a)(1)(A)(i) as satisfying the notice requirements of section 101(m) if, prior to January 1, 2007, the individual account plan provided participants and beneficiaries diversification rights at least equal to those conferred under section 204(j).

8. Department of Labor Web site. Section 105(a)(2)(B)(ii)(III) requires that the pension benefit statement of an individual account plan that permits participant direction of investment include a notice directing participants and beneficiaries to the Internet web site of the Department of Labor for sources of information on individual investing and diversification. What Internet address should plan administrators use for this requirement?

For purposes of section 105(a)(2)(B)(ii)(III), plan administrators may use the following Internet address for pension benefit statements: www.dol.gov/ebsa/investing.html.

Questions concerning this matter may be directed to Jeff Turner or Suzanne Adelman, at 202.693.8523.

Subject: Statutory Exemption For Investment Advice

Background

Section 3(21)(A)(ii) includes within the definition of "fiduciary" a person that renders investment advice for a fee or other compensation, direct or indirect, with respect to any moneys or other property of a plan, or has any authority or responsibility to do so.(1) The prohibited transaction provisions of ERISA and the Internal Revenue Code (Code) prohibit an investment advice fiduciary from using the authority, control or responsibility which makes it a fiduciary to cause itself, or a party in which it has an interest that may affect its best judgment as a fiduciary, to receive additional fees. As a result, in the absence of a statutory or administrative exemption, fiduciaries are prohibited from rendering investment advice to plan participants regarding investments that result in the payment of additional advisory and other fees to the fiduciaries or their affiliates.

The growth of participant directed individual account plans has increased recognition of the importance of investment advice to participants in such plans. Accordingly, employers and other fiduciaries have raised questions concerning their responsibilities in connection with offering investment advice programs. In response to these questions, the Department has issued various forms of guidance concerning when a person would be a fiduciary by reason of rendering investment advice and when the provision of investment advice may result in prohibited transactions.(2)

The Pension Protection Act of 2006 (PPA)(3) amended both ERISA and the Code to add a statutory exemption relating to the provision of investment advice. Specifically, section 601 of the PPA added a statutory exemption under section 408(b)(14) of ERISA (and section 4975(d)(17) of the Code(4)). Section 408(b)(14) applies to the provision of investment advice under an "eligible investment advice arrangement, " as defined in paragraph (2) of section 408(g) (also added by the PPA), to participants and beneficiaries of a defined contribution plan that permits them to direct the investment of their accounts in the plan. If the conditions of section 408(g) are met, section 408(b)(14) exempts from the prohibited transaction rules the provision of investment advice, the investment transaction entered into pursuant to the advice, and the direct or indirect receipt of fees or other compensation by the fiduciary adviser or an affiliate in connection with the provision of advice or the transaction pursuant to the advice. An "eligible investment advice arrangement" is an arrangement that either provides that any fees (including any commission or other compensation) received by the fiduciary adviser for investment advice or with respect to the investment of plan assets do not vary depending on the basis of any investment option selected, or uses a computer model under an investment advice program that meets the requirements set forth in section 408(g)(3).

Paragraph (10) of section 408(g) addresses the responsibility and liability of plan sponsors and other fiduciaries in the context of investment advice provided pursuant to the statutory exemption. Subject to certain requirements, section 408(g)(10) provides that a plan sponsor or other person who is a plan fiduciary, other than a fiduciary adviser, is not treated as failing to meet the fiduciary requirements of ERISA solely by reason of the provision of investment advice as permitted by the statutory exemption. This provision does not exempt a plan sponsor or a plan fiduciary from fiduciary responsibility under ERISA for the prudent selection and

periodic review of the selected fiduciary adviser. The provision does make clear, however, that plan sponsors and other persons who are fiduciaries do not have a duty under ERISA to monitor the specific investment advice given by a fiduciary adviser to any particular recipient of the advice.

Since the enactment of section 408(b)(14) and 408(g) of ERISA, the Department has received a number of inquiries concerning the status of its prior guidance on investment advice and the scope of the statutory exemption for investment advice. This Bulletin provides guidance to EBSA's national and regional offices on the following specific issues.

Issues

1. Did enactment of the investment advice provisions of the Pension Protection Act of 2006 invalidate or otherwise affect prior guidance issued by the Department concerning investment advice?

No. It is the view of the Department that enactment of section 408(b)(14) and 408(g) allows the provision of investment advice to plan participants under circumstances that would, in the absence of an exemption, have constituted a prohibited transaction prior to the enactment of the PPA. Except for providing that persons who develop or market computer models described in section 408(g)(3) or who market investment advice programs using such models are fiduciaries, and requiring advisers to expressly acknowledge their fiduciary status,(5) sections 408(b)(14) and 408(g) do not alter ERISA's framework for determining fiduciary status or recast otherwise permissible forms of investment advice as prohibited for purposes of section 406. For this reason, it is the view of the Department that the new provisions do not invalidate or otherwise affect prior guidance of the Department relating to investment advice and that such guidance continues to represent the views of the Department.(6)

Guidance of particular note in this regard includes: Interpretive Bulletin 96-1 (29 CFR § 2509.96-1), in which the Department identified categories of investment-related information and materials that do not constitute investment advice; Advisory Opinion Nos. 97-15A and 2005-10A, in which the Department explained that a fiduciary investment adviser could provide investment advice with respect to investment funds that pay it or an affiliate additional fees without engaging in a prohibited transaction if those fees are offset against fees that the plan otherwise is obligated to pay to the fiduciary; and Advisory Opinion 2001-09A in which the Department concluded that the provision of fiduciary investment advice, under circumstances where the advice provided by the fiduciary with respect to investment funds that pay additional fees to the fiduciary is the result of the application of methodologies developed, maintained and overseen by a party independent of the fiduciary, would not result in prohibited transactions.

2. To what extent are the standards for selecting and monitoring a fiduciary adviser described in section 408(g)(10) different from the standards applicable to plan fiduciaries who offer an investment advice program with respect to which relief under the statutory exemption for investment advice (section 408(b)(14)) is not required?

It is the view of the Department that, with the exception of certain requirements in subparagraph (A)(i) – (iii) of section 408(g)(10) regarding compliance with the conditions of the statutory exemption, the same fiduciary duties and responsibilities apply to the selection and monitoring of an investment adviser for participants and beneficiaries in a participant directed individual account plan, regardless of whether the program of investment advice services is one to which the statutory exemption applies.

Subparagraph (A) of section 408(g)(10) provides that a plan fiduciary shall not be treated as failing to meet the requirements of Part 4 of title I of ERISA solely by reason of the provision of investment advice within the meaning of section 3(21)(A)(ii) or solely by reason of contracting or arranging for the provision of investment advice pursuant to an "eligible investment advice arrangement" but subject to subparagraph (B), which addresses a fiduciary's duty to select and review the investment advice provider prudently. This principle is consistent with the Department's guidance provided in Interpretive Bulletin 96-1 regarding the provision of investment advice generally. See 29 CFR § 2509.96-1(e). Accordingly, it is the view of the Department that a plan sponsor or other fiduciary will not fail to meet the requirements of Part 4 of title I of ERISA solely by reason of offering a program of investment advice services to participants or beneficiaries that is not an "eligible investment advice arrangement."

Subparagraph (B) of section 408(g)(10), however, makes clear that, without regard to subparagraph (A), plan fiduciaries have a duty to prudently select and periodically monitor the advisory program. Subparagraph (B) of section 408(g)(10) further clarifies that fiduciaries have no duty to monitor the specific investment advice given by the fiduciary adviser to any particular recipient of advice. As with subparagraph (A), it is the view of the Department that the principles described in subparagraph (B) of section 408(g)(10) are consistent with those

set forth in § 2509.96-1(e) and, therefore, equally applicable to plan fiduciaries who select a program of investment advice services with respect to which relief under the investment advice statutory exemption is not required.

Thus, it is the view of the Department that a plan sponsor or other fiduciary that prudently selects and monitors an investment advice provider will not be liable for the advice furnished by such provider to the plan's participants and beneficiaries, whether or not that advice is provided pursuant to the statutory exemption under section 408(b)(14).(7)

Although the Interpretive Bulletin does not address the monitoring of specific investment advice provided to a particular plan participant or beneficiary, the Department believes that fiduciaries selecting advisory programs are subject to the same fiduciary duty to prudently select and monitor investment advisers regardless of whether the advice arrangement was established under the section 408(b)(14) exemption. Accordingly, it is the view of the Department that, like fiduciaries offering exempted advice arrangements, fiduciaries offering programs of investment advice services with respect to which exemptive relief is not required have no duty to monitor the specific investment advice given by the investment advice provider to any particular recipient of the advice.

With regard to the prudent selection of service providers generally, the Department has indicated that a fiduciary should engage in an objective process that is designed to elicit information necessary to assess the provider's qualifications, quality of services offered and reasonableness of fees charged for the service. The process also must avoid self dealing, conflicts of interest or other improper influence. In applying these standards to the selection of investment advisers for plan participants, we anticipate that the process utilized by the responsible fiduciary will take into account the experience and qualifications of the investment adviser, including the adviser's registration in accordance with applicable federal and/or state securities law, the willingness of the adviser to assume fiduciary status and responsibility under ERISA with respect to the advice provided to participants, and the extent to which advice to be furnished to participants and beneficiaries will be based upon generally accepted investment theories.

In monitoring investment advisers, we anticipate that fiduciaries will periodically review, among other things, the extent to which there have been any changes in the information that served as the basis for the initial selection of the investment adviser, including whether the adviser continues to meet applicable federal and state securities law requirements, and whether the advice being furnished to participants and beneficiaries was based upon generally accepted investment theories. Fiduciaries also should take into account whether the investment advice provider is complying with the contractual provisions of the engagement; utilization of the investment advice services by the participants in relation to the cost of the services to the plan; and participant comments and complaints about the quality of the furnished advice. With regard to comments and complaints, we note that to the extent that a complaint or complaints raise questions concerning the quality of advice being provided to participants, a fiduciary may have to review the specific advice at issue with the investment adviser.

Subparagraph (C) of section 408(g)(10) makes clear that plan assets can be used to pay reasonable expenses in providing investment advice to participants and beneficiaries. Again, this provision is consistent with the long held view of the Department, as set forth in § 2509.96-1(e), provided that the service provider rendering investment advice is selected and monitored prudently. Consistent with this guidance, fiduciaries selecting programs of investment advice services with respect to which exemptive relief is not required may use plan assets to pay reasonable expenses in providing investment advice (and/or investment education) to plan participants and beneficiaries.

3. For purposes of an "eligible investment advice arrangement" within the meaning of section 408(g)(2)(A)(i), is an affiliate of a fiduciary adviser subject to the level fee requirement?

The investment advice exemption provided by section 408(b)(14) applies only to investment advice provided by a "fiduciary adviser" under an "eligible investment advice arrangement." Section 408(g)(2)(A)(i) includes within the meaning of "eligible investment advice arrangement" an arrangement that, among other things, provides that any fees (including any commission or other compensation) received by the fiduciary adviser for investment advice or with respect to the sale, holding, or acquisition of any security or other property for purposes of investment of plan assets do not vary depending on the basis of any investment option selected.

The term "fiduciary adviser" is defined in section 408(g)(11)(A) to mean a person who is a fiduciary of the plan by reason of providing investment advice and who is a registered investment adviser, a bank or similar financial institution, an insurance company, or a registered broker dealer; an affiliate(8) of such registered investment adviser, bank, insurance company, or broker dealer; or an employee, agent or registered

representative of any such entity.

It is clear from section 408(g)(2)(A)(i) that only the fees or other compensation of the fiduciary adviser may not vary. In this regard we note that, in contrast to other provisions of section 408(b)(14) and section 408(g), section 408(g)(2)(A)(i) references only the fiduciary adviser, not the fiduciary adviser or an affiliate. Inasmuch as a person, pursuant to section 408(g)(11)(A), can be a fiduciary adviser only if that person is a fiduciary of the plan by virtue of providing investment advice, an affiliate of a registered investment adviser, a bank or similar financial institution, an insurance company, or a registered broker dealer will be subject to the varying fee limitation only if that affiliate is providing investment advice to plan participants and beneficiaries.

Also, consistent with past Departmental guidance (see discussion of issue 1), if the fees and compensation received by an affiliate of a fiduciary that provides investment advice do not vary or are offset against those received by the fiduciary for the provision of investment advice, no prohibited transaction would result solely by reason of providing investment advice and thus there would be no need for a prohibited transaction exemption.(9) It is the view of the Department, therefore, that, for purposes of section 408(g)(2)(A)(i), Congress did not intend for the requirement that fees not vary depending on the basis of any investment options selected to extend to affiliates of the fiduciary adviser, unless, of course, the affiliate is also a provider of investment advice to a plan.

We further note that although section 408(g)(11)(A) generally limits "fiduciary advisers" to certain types of entities, it also permits employees, agents, or registered representatives of those entities to also qualify as fiduciary advisers if they satisfy the requirements of applicable insurance, banking, and securities laws relating to the provision of the advice. See section 408(g)(11)(A)(vi). As with affiliates, such an individual must, for purposes of section 408(g)(11)(A), not only be an employee, agent, or registered representative of one of those entities, but also must provide investment advice in his or her capacity as employee, agent, or registered representative. It is the view of the Department that when an individual acts as an employee, agent or registered representative on behalf of an entity engaged to provide investment advice to a plan, that individual, as well as the entity, must be treated as the fiduciary adviser for purposes of section 408(g)(11)(A).(10) In such instances, therefore, both the individual and the entity would be treated as fiduciary advisers and subject to the limitations of section 408(g)(2)(A)(i).(11)

In general, a party seeking to avail itself of a statutory or administrative exemption from the prohibited transaction provisions bears the burden of establishing compliance with the conditions of the exemption. With regard to the exemptive relief accorded an "eligible investment advice arrangement" within the meaning of section 408(g)(2)(A)(i), it is the expectation of the Department that parties offering investment advisory services will maintain, and be able to demonstrate compliance with, policies and procedures designed to ensure that fees and compensation paid to fiduciary advisers, at both the entity and individual level, do not vary on the basis of any investment option selected. Moreover, it is anticipated that compliance with such policies and procedures will be reviewed as part of the annual audit required by section 408(g)(5)(A) and addressed in the report referred to in section 408(g)(5)(B).

Subject:
ERISA Coverage Of IRC § 403(b) Tax-Sheltered Annuity Programs

Issue: How do the Department of the Treasury/Internal Revenue Service regulations governing Internal Revenue Code § 403(b) tax-sheltered annuity programs affect the status of such programs under the Department of Labor's safe harbor regulation at 29 C.F.R. § 2510.3-2(f)?

Background

A tax-sheltered annuity (TSA) program under section 403(b) of the Internal Revenue Code (Code), also known as a "403(b) plan," is a retirement plan for employees of public schools, employees of certain tax-exempt organizations, and certain ministers. Under a 403(b) plan, employers may purchase for their eligible employees annuity contracts or establish custodial accounts invested only in mutual funds for the purpose of providing retirement income. Annuity contracts must be purchased from a state licensed insurance company, and the custodial accounts must be held by a custodian bank or IRS approved non-bank trustee/custodian. The annuity contracts and custodial accounts may be funded by employee salary deferrals, employer contributions, or both. Although not subject to the qualification requirements of section 401 of the Code, some of the requirements that apply to qualified plans also apply, with modifications, to 403(b) plans.

These TSA programs, if established or maintained by an employer engaged in commerce or in any industry or activity affecting commerce, generally are "pension plans" within the meaning of section 3(2) of ERISA and covered by Title I pursuant to section 4(a) of ERISA.(1) The terms "establish" or "maintain" are not defined in ERISA, and uncertainty as to the application of ERISA to TSA programs funded entirely with employee contributions prompted the Department of Labor in 1979 to issue a "safe harbor" regulation at 29 C.F.R. § 2510.3-2(f).

The safe harbor at § 2510.3-2(f) states that a program for the purchase of annuity contracts or custodial accounts in accordance with provisions set forth in section 403(b) of the Code and funded solely through salary reduction agreements or agreements to forego an increase in salary, are not "established or maintained" by an employer under section 3(2) of the Act, and, therefore, are not employee pension benefit plans subject to Title I, provided that certain factors are present. These factors are: (1) that participation of employees is completely voluntary, (2) that all rights under the annuity contract or custodial account are enforceable solely by the employee or beneficiary of such employee, or by an authorized representative of such employee or beneficiary, (3) that the involvement of the employer is limited to certain optional specified activities, and (4) that the employer receive no direct or indirect consideration or compensation in cash or otherwise other than reasonable reimbursement to cover expenses properly and actually incurred in performing the employer's duties pursuant to the salary reduction agreements. In this latter regard, if an employer, or a person acting in the interest of an employer, receives, for example, other consideration from an

annuity contractor, the employer could be deemed to have “established or maintained” a plan.

The safe harbor allows the employer to engage in a range of activities to facilitate the operation of the program. The employer may permit annuity contractors—including agents or brokers who offer annuity contracts or make available custodial accounts—to publicize their products, may request information concerning proposed funding media, products, or annuity contractors, and may compile such information to facilitate review and analysis by the employees. The employer may enter into salary reduction agreements and collect annuity or custodial account considerations required by the agreements, remit them to annuity contractors, and maintain records of such collections. The employer may hold one or more group annuity contracts in the employer’s name covering its employees and exercise rights as representative of its employees under the contract, at least with respect to amendments of the contract. The employer may also limit funding media or products available to employees, or annuity contractors who may approach the employees, to a number and selection designed to afford employees a reasonable choice in light of all relevant circumstances.(2)

The Department of the Treasury/Internal Revenue Service has issued final regulations at 26 C.F.R. 1.403(b)-0 et seq. (July 2007) reflecting legislative changes made to § 403(b) since the existing regulations were adopted in 1964. The § 403(b) regulations also incorporate interpretive positions that the Department of the Treasury/Internal Revenue Service have taken in other guidance on § 403(b). This Bulletin is intended to provide guidance to EBSA’s national and regional offices concerning the extent to which compliance with the updated regulations would cause employers to exceed the limitations on employer involvement permitted under the Department of Labor’s safe harbor for tax-sheltered annuity programs at 29 C.F.R. § 2510.3-2(f).

Analysis

The new § 403(b) regulations have not led the Department of Labor to change its view on the principles that apply in determining whether any given TSA program is covered by Title I of ERISA. Even though the differences between the tax rules for TSA programs and those governing other ERISA-covered pension plans may have diminished, the Department's safe harbor regulation at 29 C.F.R. § 2510.3-2(f) remains operative. The new § 403(b) regulations allow significant flexibility regarding the employer's functions in the structure and operation of the arrangement. Thus, compliance with the new § 403(b) regulations will not necessarily cause a TSA program to become covered by Title I of ERISA.

The Department has acknowledged that employers have an interest separate from acting as their employees’ authorized representatives in ensuring that the annuity contracts and custodial accounts in TSA programs are tax compliant. The Code’s qualification requirements impose obligations directly on employers in connection with the employees’ annuity contracts and custodial accounts. If individual contracts or accounts fail to satisfy the tax qualification requirements, even if due to actions or errors of an employee or annuity contractor, the employer can be liable to the IRS for potentially substantial penalty taxes, correction fees, and employment taxes on employee salary deferrals. Accordingly, in the Department’s view, the safe harbor at section 2510.3-2(f) subsumes certain employer activities designed to ensure that a TSA program continues to be tax compliant under section 403(b) of the Code.

The Department of Labor has issued advisory opinions and other guidance on whether specific employer functions are compatible with the safe harbor. The Department believes that the safe harbor allows an employer to conduct administrative reviews of the program structure and operation for tax compliance defects. Such reviews may include discrimination testing and compliance with maximum contribution limitations under the Treasury regulations. As noted in previous guidance issued by the Department, the employer may also fashion and propose corrections; develop improvements to the plan's administrative processes that will obviate the recurrence of tax defects; obtain the cooperation of independent entities involved in the program needed to correct tax defects; and keep records of its activities.(3)

A program could fit within the section 2510.3-2(f) safe harbor and include terms that require employers to certify to an annuity provider a state of facts within the employer's knowledge as employer, such as employee addresses, attendance records or compensation levels. The employer may also transmit to the annuity provider another party's certification as to other facts, such as a doctor's certification of the employee's physical condition. The employer could not, however, consistent with the safe harbor, have responsibility for, or make, discretionary determinations in administering the program. Examples of such discretionary determinations are authorizing plan-to-plan transfers, processing distributions, satisfying applicable qualified joint and survivor annuity requirements, and making determinations regarding hardship distributions, qualified domestic relations orders (QDROs), and eligibility for or enforcement of loans.(4)

An important requirement in the Treasury regulations is that a TSA program must be maintained pursuant to a

"written defined contribution plan" that satisfies the Code's regulatory requirements and contains all the material terms and conditions for benefits under the plan. An employer, by adopting such a written plan, does not automatically establish a Title I plan. Compiling the benefit terms of the contracts and the responsibilities of the employer, annuity providers and participants is a function similar to the information collection and compilation activities expressly permitted under the Department's TSA safe harbor. Indeed, the preamble to the final Treasury regulations makes clear that the "plan" required to satisfy the Code does not have to be a single document, but may incorporate by reference other documents, including insurance policies and custodial account agreements and other documents governing the contracts and accounts prepared by the annuity providers. 26 C.F.R. § 1.403(b)-3(b)(3).

The Department of Labor expects that the written plan for a TSA program that complies with the safe harbor would consist largely of the separate contracts and related documents supplied by the annuity providers and account trustees or custodians. An employer's development and adoption of a single document to coordinate administration among different issuers, and to address tax matters that apply, such as the universal availability requirement in Code section 403(b)(12)(A)(ii), without reference to a particular contract or account, would not put the TSA program out of compliance with the safe harbor.

Because the Treasury regulations allow a plan to allocate responsibility for performing administrative functions to persons other than the employer, the relevant documents should identify the parties that are responsible for administrative functions, including those related to tax compliance. The documents should correctly describe the employer's limited role and allocate discretionary determinations to the annuity provider or participant or other third party selected by the provider or participant.

In addition, an employer seeking to take advantage of the safe harbor may periodically review the documents making up the plan for conflicting provisions and for compliance with the Code and the Treasury regulations. Negotiating with annuity providers or account custodians to change the terms of their products for other purposes, such as setting conditions for hardship withdrawals, would be a form of employer involvement outside the safe harbor.

A tax-sheltered annuity program will not, in the Department's view, become covered by Title I of ERISA merely because the written plan conforms to the new § 403(b) regulations by limiting employees to exchanges of contract funds only among providers who have adopted the written plan, or transfers from the program of a former employer to that of the current employer. Under the safe harbor, the employer may limit funding media or products available to employees, or annuity providers who may approach the employee, to a number designed to afford employees a reasonable choice in light of all relevant circumstances. The Code-mandated restrictions on transfers of funds may, however, require the employer to allow providers to offer a wider variety of products in order to afford employees a reasonable choice in light of all relevant circumstances for purposes of the safe harbor. Alternately, an employer may limit the number of providers to which it will forward salary reduction contributions as long as employees may transfer all or a part of their funds to any provider whose annuity contract or custodial account complies with the Code requirements and who agrees to the plan's division of tax compliance responsibilities among the employer, provider and participant.

Finally, in the event an employer decides that it does not want to continue to perform the ministerial and administrative functions required under the § 403(b) regulations, the Department does not believe that the employer's determination to terminate a TSA program in compliance with the Treasury regulations will cause a program not otherwise covered by Title I of ERISA to become covered.

Conclusion

The Department is of the view that tax-exempt employers will be able to comply with the requirements in the new § 403(b) regulations and remain within the Department's safe harbor for TSA programs funded solely by salary deferrals. We note, however, that the new § 403(b) regulations offer employers considerable flexibility in shaping the extent and nature of their involvement under a tax-sheltered annuity program. The question of whether any particular employer, in complying with the § 403(b) regulations, has established or maintained a plan covered under Title I of ERISA must be analyzed on a case-by-case basis applying the criteria set forth in 29 C.F.R. § 2510.3-2(f) and section 3(2) of ERISA.

Footnotes

1. Under ERISA § 4(b) (1) and (2), "governmental plans" and "church plans" generally are excluded from coverage under Title I of ERISA. Therefore, § 403(b) contracts and custodial accounts purchased or

provided under a program that is either a “governmental plan” under § 3(32) of ERISA or a non-electing “church plan” under § 3(33) of ERISA are not subject to Title I.

2. The regulation at 29 C.F.R. § 2510.3-2(f) provides a “safe harbor” for TSA programs that conform to its provisions. The safe harbor does not preclude the possibility that programs that do not fully conform with the regulation may nevertheless not be “established or maintained” by an employer for purposes of Title I of ERISA.

Subject:
Periodic Pension Benefit Statements for Non-Participant Directed Individual Account Plans

On December 20, 2006, the Department of Labor issued Field Assistance Bulletin (FAB) 2006-03 providing guidance for the Employee Benefits Security Administration's national and regional offices concerning good faith compliance with the pension benefit statement provisions of section 105 of ERISA, as amended by the Pension Protection Act of 2006. In FAB 2006-03, the Department indicated, among other things, that, pending the issuance of further guidance, the furnishing of pension benefit statement information not later than 45 days following the end of the relevant period (calendar quarter or calendar year) will constitute good faith compliance with the requirement to automatically furnish pension benefit statements by individual account plans.

Since the issuance of FAB 2006-03, it has come to the attention of the Department that many individual account plans that do not permit participants and beneficiaries to direct the investment of assets in their individual accounts may not be able to comply within the 45-day period set forth in the FAB. It is represented that many of these plans are profit sharing plans and the sponsors of those plans do not determine or contribute profit sharing contributions until after the sponsor's business tax return is completed. Similarly, non-participant directed individual account plans sponsored by partnerships cannot make contribution determinations until completion of the partnership tax return. It also is represented that many such plans are dependent on securing third-party valuations for those assets that do not have a readily ascertainable value. Compliance with the 45-day good faith period, therefore, would appear to be impossible or very expensive for many of these plans unless the benefit statements were based on data from the end of the prior plan year. It is further represented that much of the required information is compiled in connection with the preparation of the plan's Form 5500 Annual Return/Report and, accordingly, the time frame for furnishing benefit statements should correspond to the required filing of the plan's Form 5500.

In view of the foregoing, and pending the issuance of further guidance, the Department is providing the following additional guidance. Plan administrators of individual account plans that do not provide for participant direction of investments will be treated as acting in good faith compliance with a reasonable interpretation of section 105(a)(1)(A)(ii) of ERISA when statements are furnished to participants and beneficiaries on or before the date on which the Form 5500 Annual Return/Report is filed by the plan (but in no event later than the date, including extensions, on which the Annual Return/Report is required to be filed by the plan) for the plan year to which the statement relates.

This guidance supersedes the guidance provided in FAB 2006-03 as it relates to the dates for furnishing pension benefit statements to participants and beneficiaries of individual account plans that do not permit participants and beneficiaries to direct the investment of assets in their individual accounts.

Questions concerning this matter may be directed to Jeff Turner or Suzanne Adelman, at 202.693.8523.

Subject:
Supplemental health insurance coverage as excepted benefits under HIPAA and related legislation

Issue

What are the circumstances under which supplemental health insurance coverage satisfies the requirements for excepted benefits under sections 732(c)(3) and 733(c)(4) of ERISA?

Background

HIPAA Health Reform and Related Legislation

Titles I and IV of the Health Insurance Portability and Accountability Act of 1996, Pub. L. 104-191, 110 Stat. 1936 (HIPAA) amended the Employee Retirement Income Security Act (ERISA), the Internal Revenue Code (Code), and the Public Health Service Act (PHS Act) to improve portability, access, and continuity with respect to group health plan coverage provided in connection with employment. These laws include limitations on preexisting condition exclusions, require issuance of certificates of creditable coverage, provide special enrollment rights, and prohibit discrimination on the basis of any health factor. Later amendments to these laws provide protections relating to mental health parity, hospital lengths of stay following childbirth, and post-mastectomy coverage. Regulations issued by the Departments of Labor, the Treasury, and Health and Human Services (the Departments) on these group market provisions are contained in 29 CFR Part 2590, 26 CFR Part 54, and 45 CFR Parts 144 and 146. Additional reforms were provided in the PHS Act for health coverage in the individual market and are contained in 45 CFR Parts 144 and 148.

In general, these health reform provisions apply to group health plans (generally plans established or maintained by employers or employee organizations, or both) and health insurance issuers in the group or individual market. However, these provisions do not apply to certain excepted benefits. In general, if all benefits under a plan or coverage are excepted benefits, then the plan and any health insurance coverage under the plan does not have to comply with the health reform requirements, and the coverage may not qualify as creditable coverage.

Supplemental Health Insurance Coverage

One category of excepted benefits is supplemental excepted benefits. Benefits are supplemental excepted benefits only if they are provided under a separate policy, certificate, or contract of insurance and are either Medicare supplemental health insurance, TRICARE supplemental programs, or similar supplemental coverage provided to coverage under a group health plan. The phrase “similar supplemental coverage provided to coverage under a group health plan” is not defined in the statute or regulations. However, the regulations clarify that one requirement to be similar supplemental coverage is that the coverage must be specifically designed to fill gaps in primary coverage, such as coinsurance or deductibles (but similar supplemental coverage does not include coverage that becomes secondary or supplemental only under a coordination-of-

benefits provision). 29 CFR 2590.732 (c)(5)(i)(C), 26 CFR 54.9831-1(c)(5)(i)(C), and 45 CFR 146.145(c)(5)(i)(C).

Coordination of Administration

Various situations have come to the attention of the Departments that raise concerns about whether all of the coverage that is being marketed as similar supplemental coverage actually qualifies as such.

Section 104 of HIPAA requires the Secretaries of Labor, the Treasury, and Health and Human Services to ensure that guidance under HIPAA issued by the Departments that relates to the same matter be administered so as to have the same effect at all times. In accordance with section 104 of HIPAA, each of the Departments is issuing guidance concerning the requirements for “similar supplemental coverage” that qualifies as benefits excepted from the requirements of HIPAA. The guidance being issued has been developed on a coordinated basis by the Departments. HHS is also issuing guidance on similar supplemental coverage for the individual market.

Discussion

In order to prevent issuers from avoiding compliance with ERISA’s health reform provisions by issuing multiple insurance contracts in connection with a plan, this bulletin establishes an enforcement safe harbor under which supplemental health insurance will be considered excepted benefits for purposes of Part 7 of ERISA. Similar supplemental coverage that does not meet the standards for this safe harbor may be subject to enforcement actions by the Department.

To fall within the safe harbor, a policy, certificate, or contract of insurance must be issued by an entity that does not provide the primary coverage under the plan and must be specifically designed to fill gaps in primary coverage.

In addition, the Department believes that the value of the supplemental coverage must be significantly less than the value of the primary coverage that it supplements. To fall within the enforcement safe harbor, the cost of supplemental coverage may not exceed 15 percent of the cost of the plan’s primary coverage. The Department will determine cost in the same manner as the “applicable premium” is calculated under a COBRA continuation provision.(1) Some plans subject to HIPAA titles I or IV are not subject to the COBRA continuation coverage requirements, such as plans maintained by an employer with 20 or fewer employees. For these plans, the Department will compute cost as if they were subject to COBRA. (For insured coverage – all supplemental coverage and primary coverage to the extent insured – the COBRA cost is, for purposes of this bulletin, the cost of the insurance coverage.)

Issuers of Medicare supplemental health insurance (commonly referred to as “Medigap”) generally are subject to prohibitions against discrimination based on enrollees’ or potential enrollees’ health status. Accordingly, to fall within the enforcement safe harbor, the coverage may not differentiate among individuals in eligibility, benefits, or premiums based upon any health factor of the individual.

Conclusion

For purposes of enforcing ERISA’s health reform provisions, the Department will treat coverage as “similar supplemental coverage provided to coverage under a group health plan” under 29 CFR 2590.732(c)(5)(i)(C), within the enforcement safe harbor, if it is a separate policy, certificate, or contract of insurance and if it satisfies all of the following requirements:

Independent of Primary Coverage. The supplemental policy, certificate, or contract of insurance must be issued by an entity that does not provide the primary coverage under the plan. For this purpose, entities that are part of the same controlled group of corporations or part of the same group of trades or businesses under common control, within the meaning of section 52(a) or (b) of the Code, are considered a single entity.

Supplemental for Gaps in Primary Coverage. The supplemental policy, certificate, or contract of insurance must be specifically designed to fill gaps in primary coverage, such as coinsurance or deductibles, but does not include a policy, certificate, or contract of insurance that becomes secondary or supplemental only under a coordination-of-benefits provision.

Supplemental in Value of Coverage. The cost of coverage under the supplemental policy, certificate, or contract of insurance must not exceed 15 percent of the cost of primary coverage. Cost is determined in the same manner as the applicable premium is calculated under a COBRA continuation provision.

Similar to Medicare Supplemental Coverage. The supplemental policy, certificate, or contract of insurance that is group health insurance coverage must not differentiate among individuals in eligibility, benefits, or premiums based on any health factor of an individual (or any dependent of the individual).

Questions concerning the information contained in this Bulletin may be directed to the Office of Health Plan Standards and Compliance Assistance at 202.693.8335.

Footnotes

Under the COBRA rules, plans are generally permitted to charge up to 102 percent of the applicable premium. Thus, COBRA cost for purposes of this bulletin is 100 percent of the applicable premium, not 102 percent of the applicable premium that the plan is generally permitted to charge under the COBRA rules.

Subject:
Fiduciary Responsibility for Collection of Delinquent Contributions

Issue

What are the responsibilities of named fiduciaries and trustees of ERISA-covered plans for the collection of delinquent employer and employee contributions?

Background

A number of pension plan investigations have revealed agreements that purport to relieve the financial institutions serving as plan trustees of any responsibility to monitor and collect delinquent contributions. The investigations have revealed circumstances where no other trust agreement or plan document assigns those obligations to another trustee or imposes the obligations on a named fiduciary with the authority to direct a trustee. In other cases, the plan documents and trust agreements are silent or ambiguous on the matter. Questions have been raised as to whether, and if so, to what extent, trust agreements and other instruments may define the scope of trustee undertakings and exclude responsibilities for monitoring the plan's receipt of contributions, determining when they are delinquent and taking appropriate steps for collection.

Employer contributions are delinquent when they are due and owing to the plan under the documents and instruments governing the plan but have not been transmitted to the plan in a timely manner.(1) The Department has taken the position that employer contributions become an asset of the plan only when the contribution has been made.(2) However, when an employer fails to make a required contribution to a plan in accordance with the plan documents, the plan has a claim against the employer for the contribution, and that claim is an asset of the plan. Participant contributions that are withheld from wages or paid to the employer are delinquent if they become plan assets while still in the hands of the employer. Under the Department's regulations, participant contributions become plan assets in the hands of the employer on the earliest date that the amount withheld from the participant's pay or paid to the employer reasonably can be segregated from the employer's general assets. With respect to an employee pension benefit plan, this date can be no later than the 15th business day of the month following the month in which participant contribution amounts were withheld from the employee's paychecks or paid to the employer.(3)

Analysis

The duty to enforce valid claims held by a trust has long been considered a trustee responsibility under common law. IIA Austin W. Scott & William E. Fratcher, The Law of Trusts § 177 (4th ed. 1989); Restatement (Third) of Trusts, § 76 (2007). See also George G. Bogert & George T. Bogert, The Law of Trusts and Trustees § 583 at p.355 (2d rev. ed. 1980) (where the settlor retains possession of trust assets, "the trustee must hold the settlor to [his] obligation"); Scott 175, at 1415 ("trustee is under a duty to take such steps as are reasonable to secure control of the trust property and to keep control of it"). The Supreme Court affirmed that the collection of contributions is a trustee responsibility under ERISA in Central States, Southeast and

Southwest Areas Pension Fund v. Central Transport, 472 U.S. 559, 571 (1985). The Court noted that:

One of the fundamental common-law duties of a trustee is to preserve and maintain trust assets, and this encompasses "determin[ing] exactly what property forms the subject-matter of the trust [and] who are the beneficiaries." The trustee is thus expected to "use reasonable diligence to discover the location of the trust property and to take control of it without unnecessary delay." A trustee is similarly expected to "investigate the identity of the beneficiary when the trust documents do not clearly fix such party" and to "notify the beneficiaries under the trust of the gifts made to them" (citations omitted).

Section 404(a) of ERISA requires that a fiduciary discharge his duties prudently and solely in the interests of the participants and beneficiaries of the plan. The steps necessary to discharge a duty to collect contributions will depend on the facts of each case. In determining what collection actions to take, a fiduciary should weigh the value of the plan assets involved, the likelihood of a successful recovery, and the expenses expected to be incurred. Among other factors, the fiduciary may take into account the employer's solvency in deciding whether to expend plan assets to pursue a claim. Diduck v. Kaszycki & Sons Contractors, 874 F. 2d 912 (2nd Cir. 1989). The Department of Labor has also long held the view that if the plan is not making systematic, reasonable and diligent efforts to collect delinquent employer contributions, or the failure to collect delinquent contributions is the result of an arrangement, agreement or understanding, express or implied, between the plan and a delinquent employer, such failure to collect delinquent contributions may be deemed to be a prohibited transactions under section 406 of ERISA.(4)

Section 402(a)(1) provides that every employee benefit plan shall be established and maintained pursuant to a written instrument, and that the instrument "shall provide for one or more named fiduciaries who jointly or severally shall have authority to control and manage the operation and administration of the plan."(5) Section 403(a) of ERISA provides, with certain exceptions, that all assets of an employee benefit plan must be held in trust by one or more trustees, who are to be named in the plan or trust instrument or appointed by a person who is a named fiduciary. Section 403(a) further provides that "upon acceptance of being named or appointed, the trustee or trustees shall have exclusive authority and discretion to manage and control the assets of the plan . . . ." A plan trustee, therefore, will, by definition, always be a "fiduciary" under ERISA as a result of its authority or control over plan assets and, accordingly, is required to discharge its trustee responsibilities prudently and solely in the interest of the plan's participants and beneficiaries. Although trust documents cannot excuse trustees from their duties under ERISA, ERISA clearly gives named fiduciaries the authority to appoint multiple trustees and to allocate trustee responsibilities among those trustees (including directed trustees).

Section 403(a) recognizes two exceptions to the general rule that exclusive authority and discretion to manage and control the assets of a plan must be vested in one or more plan trustees. The first exception, at section 403(a)(1), applies when "the plan expressly provides that the trustee or trustees are subject to the direction of a named fiduciary who is not a trustee." In such instances, the trustee, commonly referred to as a "directed trustee," is subject to the proper directions of the named fiduciary. As the Department noted in Field Assistance Bulletin No. 2004-03 (Dec. 17, 2004), directed trustees are fiduciaries, and as such, are subject to ERISA's fiduciary rules, but the scope of their duties is "significantly narrower than the duties generally ascribed to a discretionary trustee under common law trust principles." The second exception to the "exclusive authority" provision in section 403(a)(1) applies when the authority to manage, acquire or dispose of plan assets is delegated to one or more investment managers pursuant to section 402(c)(3).

Additionally, section 405(b)(1)(B) provides, in relevant part, that, except as set forth in section 403(a)(1), if the assets of a plan are held by two or more trustees they shall jointly manage and control the assets of a plan except that nothing shall preclude any agreement, authorized by the trust instrument, allocating specific responsibilities, obligations, or duties among trustees, in which event a trustee to whom certain responsibilities, obligations, or duties have not been allocated shall not be liable either individually or as a trustee for any loss resulting to the plan arising from the acts or omissions on the part of another trustee to whom such responsibilities, obligations or duties have been assigned. Similarly, in those cases where the assets of a plan are held in more than one trust, a trustee is responsible only for those acts or omissions of the trustees of the trust for which it is trustee.(6)

Thus, in accordance with the statutory framework described above, authority over a plan's assets subject to the trust requirement of section 403(a) of ERISA, including a plan's legal claim for delinquent contributions, must be assigned to i) a plan trustee with discretionary authority over the assets, ii) a directed trustee subject to the proper and lawful directions of a named fiduciary, or iii) an investment manager.

Accordingly, it is the view of the Department that a named or functional fiduciary who has authority to appoint the plan's trustee(s) must ensure that the obligation to collect contributions is appropriately assigned to a

trustee, unless the plan expressly provides that the trustee will be a directed trustee with respect to contributions pursuant to section 403(a)(1) or the authority to collect contributions is delegated to an investment manager pursuant to section 403(a)(2).

Thus, although a fiduciary may enter into a trust agreement under which a particular trustee is not responsible for monitoring and collecting contributions, if no trustee or investment manager has this responsibility, the fiduciary with authority to hire the trustees may be liable for plan losses due to a failure to collect contributions because the fiduciary failed to specifically allocate this responsibility.(7)

These situations should be evaluated on the basis of all the facts and circumstances. Where the provisions in trust instruments and plan documents are ambiguous, they should generally be interpreted in a manner that corresponds to the statutory scheme, rather than in a manner that relieves all of the trustees and investment managers from responsibility.(8) Reliance on plan, trust and other governing documents to define the responsibilities of plan fiduciaries, however, may not be completely determinative if the provisions in the documents are inconsistent with the actions of the parties. For example, if a nominally directed trustee routinely assumes discretionary responsibility, the trustee cannot seek to limit its liability with respect to the exercise of that discretion on the basis that it is a directed trustee. Similarly, a trustee cannot alter its status as fiduciary through a contractual provision that defines its trustee duties as non-fiduciary in nature.

If a particular trustee is not responsible for monitoring and collecting contributions under the terms of the trust instrument, that trustee (including a directed trustee) nonetheless would have an obligation under sections 404 and 405(a) to take appropriate steps to remedy a situation where the trustee knows that no party has assumed responsibility for the collection and monitoring of contributions and that delinquent contributions are going uncollected. As explained in Field Assistance Bulletin No. 2004-03, a fiduciary, pursuant to section 405(a)(1), is liable for the breach of another fiduciary if the fiduciary "participates knowingly" in the breach of the other fiduciary. In addition, under section 405(a)(2), a fiduciary is liable for a breach of another fiduciary if the fiduciary's failure to comply with section 404(a)(1) in the administration of his specific fiduciary responsibilities enables the other fiduciary to commit a breach. Under section 405(a)(3), a fiduciary is liable for a breach of another fiduciary if the fiduciary has knowledge of the breach of the other fiduciary, unless the fiduciary takes reasonable efforts under the circumstances to remedy the breach. Efforts to remedy may, depending on the circumstances, include advising the named fiduciary or the Department of Labor of the breach, reporting the breach to other fiduciaries of the plan, directly taking actions to enforce the contribution obligation on behalf of the plan, seeking an amendment of the relevant plan and trust documents, or seeking a court order mandating a proper allocation of fiduciary responsibility over contributions. The documents and instruments governing a plan cannot serve to absolve a co-fiduciary from liability for failing to take steps to remedy a known breach of another fiduciary.(9) Whether and to what extent information concerning the failure of an employer to forward contributions to a plan constitutes knowledge of a breach that would give rise to co-fiduciary liability will depend upon the facts and circumstances of each case.

Conclusion

The responsibility for collecting contributions is a trustee responsibility. If a plan has two or more trustees, the duty may be allocated to a single trustee. A plan may also provide that a named fiduciary may direct a trustee as to this responsibility or may appoint an investment manager to take on this duty. To the extent the nature and scope of the trustee's responsibilities are specifically limited in the plan documents or trust agreement, it is generally the responsibility of the named fiduciary with the authority to hire and monitor trustees to assure that all trustee responsibilities with respect to the management and control of the plan's assets (including collecting delinquent contributions) have been properly assigned to a trustee or investment manager.

3. See 29 CFR 2510.3-102. An employer continuing to hold participant contribution commingled with its general assets after the participant contributions reasonably could have been segregated will have engaged in a prohibited transaction in violation of ERISA section 406. This memorandum is not intended to address any civil or criminal liability that may attach to an employer as a result of such a prohibited transaction.
4. See the preamble to Prohibited Transaction Exemption 76-1, 41 FR 12740, 12741 (Mar. 26, 1976).
5. Section 402(a)(2) of ERISA defines the term "named fiduciary" to mean "a fiduciary who is named in the

plan instrument, or who, pursuant to a procedure specified in the plan, is identified as a fiduciary (A) by a person who is an employer or employee organization with respect to the plan or (B) by such an employer and such an employee organization acting jointly."

6. See discussion below on co-fiduciary liability under section 405(a).
7. Under ERISA section 403(b), employee benefit plans are not subject to section 403(a)'s trust requirement if the plan's assets consist entirely of insurance contracts or policies issued by an insurance company qualified to do business in a State, or individual retirement accounts, such as SIMPLE-IRA plans and SEPS, with assets held in custodial accounts under Code section 408(h), or contracts established and maintained under Code section 403(b) with assets held in custodial accounts under Code section 403(b)(7). In such cases, the duty to use reasonable diligence to discover the location of the plan's property (such as delinquent contributions) and to take control of it without unnecessary delay is, in the view of the Department, part of the named fiduciary's duties under ERISA section 402(a)(1) to control and manage the operation and administration of the plan. In the case of SIMPLE-IRAs and SEPS, the plan sponsor generally will be a named fiduciary because the documents establishing the plan typically provide the employer with authority with respect to management and administration of the plan notwithstanding that the plan documents may fail to state expressly that the plan sponsor is a "named fiduciary."

Dear Ms. McCormick:

This is in response to your request for an information letter on behalf of the American Bankers Association (ABA), confirming that the principles enunciated in Advisory Opinions 97-15A and 97-16A (May 22, 1997) would apply in the case of a bank that acts as a directed trustee of an employee benefit plan. A.O. 97-15A concerned a bank that served both as a directed trustee and as a trustee with investment discretion. A.O. 97-16A involved a plan recordkeeper. Both opinions addressed the receipt of fees by the trustee or recordkeeper from mutual funds (or their distributors or investment advisors) in connection with the investment of plan assets in the mutual funds as part of a combined program of investment options and services offered to plans, commonly referred to as a "bundled services" product.

In general, you have described a typical "bundled services" product as a comprehensive program of administrative, custodial, and investment services offered by affiliated and non-affiliated entities to pension plans, most typically participant-directed defined contribution plans. Such a program may be offered by a single financial institution or through an arrangement in which multiple vendors contract with each other to offer a bundle of plan services. The plan services typically include, but are not limited to, custodial trustee services, participant level record-keeping, participant communications and educational materials and programs, voice response system access to accounts for participants, plan documentation, including prototype plans, summary plan descriptions and annual reports, tax compliance assistance, administrative assistance in processing plan distributions and loans, and a menu of investment options, typically consisting of mutual funds from one or more mutual fund families.

You described typical situations in which a financial institution (the bank) may offer to plans a bundled services product in which it acts as a directed trustee and which includes as investment options mutual funds from one or more mutual fund families. Pursuant to the bank’s contracts with the mutual funds (or their distributors or investment advisors), the bank may provide subtransfer agent, administrative and/or shareholder services to or on behalf of the mutual funds in connection with the purchase of mutual fund shares by the plans. In return for these services, the mutual fund (or its distributor or investment advisor) pays a fee to the bank (frequently pursuant to a plan adopted under Securities and Exchange Commission Rule 12b-1) based on percentage of the mutual fund’s assets attributable to plan investments in the fund. Generally, the bank reserves the right to add, delete, or substitute individual mutual funds or mutual fund families to or from the investment menu, but otherwise has and exercises no investment discretion.

In A.O. 97-15A, the Department explained that, although a directed trustee is necessarily a fiduciary, if the

trustee acts pursuant to a direction in accordance with section 403(a)(1) or 404(c) of ERISA, and does not exercise any authority or control to cause a plan to invest in a mutual fund, the mere receipt by the trustee of a fee or other compensation from the mutual fund in connection with such investment would not in and of itself violate sections 406(b)(1) or (b)(3). The Department indicated, however, that because the trustee in that case had reserved the right to add or remove mutual fund families that it made available to the plans, the Department could not conclude that the trustee would not exercise any discretionary authority or control to cause the plans to invest in mutual funds that pay a fee or other compensation to the trustee. The Department further noted that the trustee in that case fully disclosed to the plans its fee arrangements with the mutual fund families, and agreed to apply any fees it received from the mutual funds to the benefit of the plans, either as a dollar-for-dollar offset against the fees the plans were obligated to pay for trustee or recordkeeping services, or as amounts credited directly to the plans. Under these circumstances, the Department concluded that the trustee would not violate sections 406(b)(1) or (b)(3) because it would not be dealing with plan assets in its own interest or for its own account, or receiving the payments from the mutual funds for it s own personal account.

In A.O. 97-16A, the Department opined that a recordkeeper that offered plans a bundled services product would not exercise discretionary authority or control over the management of a plan or its assets solely as a result of deleting or substituting a mutual fund from its program of investment options and services it offered to the plans, provided that the appropriate plan fiduciary in fact makes the decision to accept or reject the change. The Department emphasized that, in order to be able to make that decision, the plan fiduciary must be provided advance notice of the change, including any changes in the fees received by the recordkeeper, and afforded a reasonable period of time within which to decide whether to accept or reject the change and, in the event of a rejection, secure a new service provider. In that case, the recordkeeper provided at least 120 days following notice of a proposed change in funds within which to reject the change and secure a new service provider. The Department noted, however, that what constitutes a reasonable period of time within which to terminate a bundled services arrangement and change service providers is inherently a factual question which must be determined by the appropriate plan fiduciary in light of the particular facts and circumstances in each case.

The opinions expressed in A.O. 97-15A and A.O. 97-16A are limited to the facts presented and may be relied upon only by the parties to whom they were issued. See Advisory Opinion Procedure 76-1, Section 10, 41 Fed. Reg. 36281 (Aug. 27, 1976). Nevertheless, it is the view of the Department that the foregoing legal principles, as expressed in A.O. 97-15A and A.O. 97-16A, would apply in the case of a bank that serves as a directed trustee for employee benefit plans in the context of a bundled services product as described above.

We hope that this information is helpful to you.

Sincerely,

Bette J. Briggs

Advisory Opinion Procedure

ERISA Procedure 76-1

August 27, 1976

41 FR 36281

It is the practice of the Department of Labor (the Department) to answer inquiries of individuals or organizations affected, directly or indirectly, by the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406, hereinafter "the Act") as to their status under the Act and as to the effect of certain acts and transactions. The answers to such inquiries are categorized as "information letters" and "advisory opinions." This "ERISA Procedure" (ERISA Proc. 76-1) describes the general procedures of the Department in issuing Information letters and advisory opinions under the Act, and is designed to promote efficient handling of inquiries and to facilitate prompt responses.

Section 7 of this Procedure (instructions to individuals and organizations requesting advisory opinions relating to prohibited transactions and common definitions) is reserved. This section will set forth the procedures to be followed to obtain an advisory opinion relating to prohibited transactions and common definitions, such as whether a person is a party in interest and a disqualified person. In general, this section will incorporate a revenue Procedure to be published by the Internal Revenue Service.

This advisory opinion procedure consists of rules of agency procedure and practice, and is therefore excepted under 5 USC 552(b)(3)(A) of the Administrative Procedure Act from the ordinary notice and comment provisions for agency rulemaking. Accordingly, the Procedure is effective August 27, 1976.

Sec. 1. *Purpose*. The purpose of this ERISA Procedure is to describe the general Procedures of the Department of Labor (the Department) in issuing information letters and advisory opinions to individuals and organizations under the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406), hereinafter referred to as "the Act." This ERISA Procedure also informs individuals and organizations, and their authorized representatives, where they may direct requests for information letters and advisory opinions, and outline procedures to be followed in order to promote efficient handling of their inquiries.

Sec. 2. *General practice*. It is the practice of the Department to answer inquiries of individuals and organizations, whenever appropriate, and in the interest of sound administration of the Act, as to their status under the Act and as to the effects of their acts or transactions. One of the functions of the Department is to issue information letters and advisory opinions in such matters.

Sec. 3. *Definitions*.

.01 An "information letter" is a written statement issued either by the Pension and Welfare Benefit Programs (Office of Employee Benefits Security), U.S. Department of Labor, Washington, D.C. or a Regional Office or an Area Office of the Labor-Management Services Administration, U.S. Department of Labor, that does no more than call attention to a well established interpretation or principle of the Act without applying it to a specific factual situation. An information letter may be issued to any individual or organization when the nature of the request from the individual or the organization suggests that it is seeking general information or where the request does not meet all the requirements of section 6 or 7 of this procedure, and it is believed that such general information will aid the individual or organization.

.02 An "advisory opinion" is a written statement issued to an individual or organization, or to the authorized representative of such individual or organization, by the Administrator of Pension and Welfare Benefit Programs or his delegate, that interprets and applies the Act to a specific factual situation. Advisory opinions are issued only by the Administrator of Pension and Welfare Benefit programs or his delegate.

.03 Individuals and organizations are those persons described in section 4 of this procedure.

Sec. 4. *Individuals and organizations who may request advisory opinions or information letters*.

.01 Any individual or organization affected directly or indirectly by the Act may request an information or an advisory opinion from the Department.

.02 A request by or for an individual or organization must be signed by the individual or organization, or by the authorized representative of such individual or organization. See section 7.03 of this procedure.

Sec. 5. *Discretionary Authority to Render Advisory Opinions*.

.01 The Department will issue advisory opinions involving the interpretation of the application of one or more sections of the Act, regulations promulgated under the Act, interpretive bulletins or exemptions issued by the Department to a specific factual situation. Generally, advisory opinions will be issued by the Department only with respect to prospective transactions (i.e., a transaction which will be entered into). Moreover, there are certain areas where, because of the inherently factual nature of the problem involved, or because the subject of the request for opinion is under investigation for a violation of the Act, the Department will ordinarily not issue advisory opinions. Generally, an advisory opinion will not be issued on alternative courses of proposed transactions, or on hypothetical situations or where all parties involved are not sufficiently identified and described, or where material facts or details of the transaction are omitted.

.02 The Department ordinarily will not issue advisory opinions relating to the following sections of the Act:

.02(a) Section 3(18), relating to whether certain consideration constitutes adequate consideration;

.02(b) Section 3(26), relating to whether the valuation of any asset is at current value;

.02(c) Section 3(27), relating to whether the valuation of any asset is at present value;

.02(d) Section 102(a)(1), relating to whether a summary plan description is written in a manner calculated to be understood by the average participant;

.02(e) Section 103(a)(3)(A), relating to whether the financial statements and schedules required to be included in the Annual Report are presented fairly in conformity with generally accepted accounting principles applied on a consistent basis;

.02(f) Section 103(b)(1), relating to whether a matter must be included in a financial statement in order to fully and fairly present the financial statement of the plan;

.02(g) Section 202 (other than section 202(a)(3) and (b)(1)), relating to minimum participation standards;

.02(h) Section 203 (other than sections 202(a)(3)(B), (b)(1) (flush language), (b)(2), (b)(3)(A);

.02(i) Section 204 of the Act (other than sections 204(b)(1)(B), (b)(1)(A), (C), (D), (E)), relating to benefit accrual requirements;

.02(j) Section 205(e), relating to the period during which a participant may elect in writing not to receive a joint and survivor annuity;

.02(k) Section 208, relating to mergers and consolidation of plans or transfer of plan assets;

.02(l) Section 209(a)(1), relating to whether the report required by section 209(a)(1) is sufficient to inform the employee of his accrued benefits under the plan, etc.;

.02(m) Sections 302 through 305, relating to minimum funding standards;

.02(n) Section 403(c)(1), relating to the purposes for which plan assets must be held;

.02(o) Section 404(a), relating to fiduciary duties as applied to particular conduct; and

.02(p) Section 407(a)(2) and (3) and (c)(1), relating to fair market value, as applied to whether the value of any particular security or real property constitutes fair market value.

This list is not all inclusive and the department may decline to issue advisory opinions relating to other sections of the Act whenever warranted by the facts and circumstances of a particular case. The Department may, when it is deemed appropriate and in the best interest of sound administration of the Act, issue information letters calling attention to established principles under the Act, even though the request that was submitted was for an advisory opinion.

.03 Pending the adoption of regulations (either temporary or final) involving the interpretation of the application of a provision of the Act, consideration will be given to the issuance of advisory opinions relating to such provisions of the Act only under the following conditions:

.03(a) If an inquiry presents an issue on which the answer seems to be clear from the application of the provisions of the Act to the facts described, the advisory opinion will be issued in accordance with the procedures contained herein.

.03(b) If an inquiry presents an issue on which the answer seems reasonably certain but not entirely free from doubt, an advisory opinion will be issued only it is established to the satisfaction of the Department that a business emergency requires an advisory opinion or that unusual hardship to the plan or its participants and beneficiaries will result from failure to obtain an advisory opinion. In any case in which the individual or organization believes that a business emergency exists or that an unusual hardship to the plan or its participants and beneficiaries will result from the failure to obtain an advisory opinion, the individual or organization should submit with the request a separate letter setting forth the facts necessary for the Department to make a determination in this regard. In this connection, the Department will not deem a "business emergency" to result from circumstances within the control of the individual or organization such as, for example, scheduling within an inordinately short time the closing date of a transaction or a meeting of the Board of Directors or the shareholders of a corporation.

.03(c) If an inquiry presents an issue that cannot be reasonably resolved prior to the issuance of a regulation, an advisory opinion will not be issued.

.04 The Department ordinarily will not issue advisory opinions on the form or effect in operation of a Plan, fund, or program (or a particular provision or provisions thereof) subject to Title I of the Act. For example, the Department will not issue an advisory opinion on whether a plan satisfies the requirements of Parts 2 and 3 of Title I of the Act.

Sec. 6. *Instructions to individuals and organizations requesting advisory opinions from the Department.*

.01 If an advisory opinion is desired, a request should be submitted to: Advisory Opinion, Office of Regulatory Standards and Exceptions, Pension and Welfare Benefit Programs, U.S. Department of Labor, Washington, D.C. 20216.

.02 A request for an advisory opinion must contain the following information:

.02(a) The name and type of plan or plans (e.g., pension, profit-sharing, or welfare plan); the Employer Identification Number (EIN); the Plan Number (PN) used by the plan in reporting to the Department of Labor on Form EBS-1; or a copy of the first two pages of the most recent Form EBS-1 filed with the Department.

.02(b) A detailed description of the act or acts or transaction or transactions with respect to which an advisory opinion is requested. Where the request pertains to only one step of a larger integrated act or transaction, the facts, circumstances, etc. must be submitted with respect to the entire transaction. In addition, a copy of all documents submitted must be included in the individual's or organization's statement and not merely incorporated by reference, and must be accompanied by an analysis of their bearing on the issue or issues, specifying the pertinent Provisions.

.02(c) A discussion of the issue or issues presented by the act or acts or transaction or

transactions which should be addressed in the advisory opinion.

.02(d) If the individual or organization is requesting a particular advisory opinion, the requesting party must furnish an explanation of the grounds for the request, together with a statement of relevant supporting authority. Even though the individual or organization is urging no particular determination with regard to a proposed or prospective act or acts or transaction or transactions, the party requesting the ruling must state such party's views as to the results of the proposed act or acts or transaction or transactions and furnish a statement of relevant authority to support such views.

.03 A request for an advisory opinion by or for an individual or organization must be signed by the individual or organization or by the individual's or organization's authorized representative. If the request is signed by a representative of an individual or organization, or the representative may appear before the Department in connection with the request, the request must include a statement that the representative is authorized to represent the individual or organization.

.04 A request for an advisory opinion that does not comply with all the provisions of this procedure will be acknowledged, and the requirements that have not been met will be noted. Alternatively, at the discretion of the Department, the Department will issue an information letter to the individual or organization.

.05 If the individual or organization, or the authorized representative, desires a conference in the event the Department contemplates issuing an adverse advisory opinion, such desire should be stated in writing when filing the request or soon thereafter in order that the Department may evaluate whether in the sole discretion of the Department, a conference should be arranged and at what stage of the consideration a conference would be most helpful.

.06 It is the practice of the Department to process requests for information letters and advisory opinions in regular order and as expeditiously as possible. Compliance with a request for consideration of a matter ahead of its regular order, or by a specified time, tends to delay the disposition of other matters. Requests for processing ahead of the regular order, made in writing (submitted with the request or subsequent thereto) and showing clear need for such treatment will be given consideration as the particular circumstances warrant. However, no assurance can be that any letter will be processed by the time requested. The Department will not consider a need for expedited handling to arise if the request shows such need has resulted from circumstances within the control of the person making the request.

.07 An individual or organization, or the authorized representative desiring to obtain information relating to the status of his or her request for an advisory opinion may do so by contacting the Office of Regulatory Standards and Exemptions, Pension and Welfare Benefit Programs, U.S. Department of Labor, Washington, D.C.

Sec. 7. *Instructions to individuals and organizations requesting advisory opinions relating to prohibited transactions and common definitions.* .01 [Reserved] .02 [Reserved] .03 [Reserved]

Sec. 8. *Conferences at the Department of Labor*. If a conference has been requested, and the Department determines that a conference is necessary or appropriate, the individual or organization or the authorized representative will be notified of the time and place of the conference. A conference will normally be scheduled only when the Department in its sole discretion deems it will be necessary or appropriate in deciding the case. If conferences are being arranged with respect to more than one request for an opinion letter involving the same individual or organization, they will be so scheduled as to cause the least inconvenience to the individual or organization.

Sec. 9. *Withdrawal of requests*. The individual or organization's request for an advisory opinion may be withdrawn at any time prior to receipt of notice that the Department intends to issue an adverse opinion. Even though a request is withdrawn, all correspondence and exhibits will be retained by the Department and will not be returned to the individual or organization.

Sec. 10. *Effect of Advisory Opinion*. An advisory opinion is an opinion of the Department as to the application of one or more sections of the Act, regulations promulgated under the Act, interpretive bulletins, or exemptions. The opinion assumes that all material facts and representations set forth in the request are accurate, and applies only to the situation described therein. Only the parties described in the request for opinion may rely on the opinion, and they may rely on the opinion only to the extent that the request fully and accurately contains all the material facts and representations necessary to issuance of the opinion and the

situation conforms to the situation described in the request for opinion.

Sec. 11. *Effect of Information Letters*. An information letter issued by the Department is informational only and is not binding on the Department with respect to any particular factual situation.

Sec. 12. *Public inspection*.

.01 Advisory opinions shall be open to public inspection at the Public Disclosure Room, U.S. Department of labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

.02 Background files (including the request for an advisory opinion, correspondence between the Department and the individual or organization requesting the advisory opinion) shall be available upon written request. Background files may be destroyed after three years from the date of issuance.

.03 Advisory opinions will be modified to delete references to proprietary information prior to disclosure. Any information considered to be proprietary should be so specified in a separate letter at the time of request. Other than proprietary information, all materials contained in the public files shall be available for inspection pursuant to section 12.02.

.04 The cost of search, copying and deletion of any references to proprietary information will be borne by the person requesting the advisory opinion or the background file.

Sec. 13. *Effective date*. This procedure is effective August 27, 1976, the date of its publication in the Federal Register.

Signed at Washington, D.C. this 24 day of August 1976.

Voluntary Correction Programs

Employee Benefit Plan Voluntary Correction Programs

The Internal Revenue Service, US Department of Labor, and Pension Benefit Guaranty Corporation have adopted voluntary correction programs which permit employee benefit plan sponsors and other plan officials to correct certain categories of errors and misfilings with either no, or reduced, penalties, while preserving the plan's tax qualification.

1. Internal Revenue Service

The IRS retirement plan correction program (Employee Plans Compliance Resolution System, covered under Revenue Procedure 2003-44), helps employer sponsors protect participant benefits and keep their plans within the requirements of the Internal Revenue Code. This revenue procedure combined and revised a series of previous IRS remedial programs for correcting plan qualification defects. The program covers qualified retirement plans, Section 403(b) arrangements, SEPs, and SIMPLE IRAs, for a variety of plan qualification failures and violations, including: operational failures, for failure to comply with terms of plan documents; plan document failures, in which retirement plan provisions violate IRS qualification requirements; demographic failures, in which IRS nondiscrimination requirements are not met in the plan document; and the diversion or misuse of plan assets.

Self Correction Program

Under the Self Correction Program certain plan errors can be corrected without IRS involvement. No notification of IRS is required, no fees or penalties are assessed, and the plan and its participants retain tax benefits.

Voluntary Correction Program

The Voluntary Correction Program may be used for plan errors which not eligible for

self correction. Errors are corrected and the tax benefits of the plan are preserved for plan participants with IRS assistance.

IRS Plan Audits

Errors corrected under either the Self Correction or Voluntary Correction programs are not treated as errors when the IRS audits these plans. For other errors found during IRS examinations, the Audit Closing Agreement Program permits their correction and tax benefit preservation at fees which are lower than would be incurred if the plan had not a participated in the Voluntary Correction Programs.

2. U.S. Department of Labor

The Employee Benefits Security Administration has two voluntary self-correction programs for plan administrators who need help in meeting ERISA requirements: t he Delinquent Filer Voluntary Compliance Program promotes, through the assessment of reduced civil penalties, plan administrator compliance with annual reporting obligations under Title I of the Employee Retirement Income Security Act of 1974; the Voluntary Fiduciary Compliance Program allows plan participants and beneficiaries and certain other persons engaging prohibited transactions under the Employee Retirement Income Security Act of 1974 to self correct the violations, and avoid potential civil actions by the DOL.

§ Delinquent Filer Voluntary Compliance Program

The Delinquent Filer Voluntary Compliance Program assists plan administrators who have filed Form 5500 late, or not filed it at all, to comply with the filing requirements and pay reduced civil penalties. The IRS has agreed to provide penalty relief under the Code for delinquent Form 5500 Annual Returns/Reports filed for Title I plans where the conditions of this program have been satisfied.

§ Voluntary Fiduciary Correction Program

The Voluntary Fiduciary Correction Program (PTE 2002-51) affords plan sponsors and officials the opportunity to self-correct 15 specific transactions, involving delinquent participant contributions and other violations, prohibited under ERISA. The DOL also relieves these individuals from the payment of excise taxes associated with the transactions covered under the class exemption. It has released a VFC Program FAQ bulletin outlining specific issues and qualifications for participating in the program.

3. Pension Benefit Guaranty Corporation

PBGC provides incentives to self-correct late filings, or other errors involving missed premium deadlines and underpaid premiums.

§ Underpaid Premium Correction Program

Voluntarily self-corrected underpayments made before PBGC sends a notice of premium delinquency or a premium audit, reduces the monthly penalty rate by 80 percent (from 5 percent to 1 percent of the unpaid premium). Premium penalties may be waived for reasonable cause or in other appropriate circumstances.

§ Participant Notice Voluntary Correction Program

Missed or improperly prepared reports or notices are assessed lower penalties where the failure is quickly corrected or involves a small plan. Information penalties are waived for reasonable cause or in other appropriate circumstances. Self correction is considered a mitigating factor for plans participating in this program.

Voluntary Fiduciary Correction Program (VFCP)

March 28, 2002 (67 FR 15062)

Summary

Allows voluntary correction of some breaches to allow plan officials to avoid potential civil actions initiated by the DOL and civil penalties under ERISA.

Agency: Pension and Welfare Benefits Administration, Labor Department.

Action: Permanent adoption of the VFCP.

Frequently Asked Questions about the Voluntary Fiduciary Correction Program

What is the Voluntary Fiduciary Correction Program (VFCP)?

The VFCP is a voluntary enforcement program that encourages the correction of possible violations of Title I of ERISA. The program allows plan officials to identify and fully correct certain transactions such as prohibited purchases, sales and exchanges, improper loans, delinquent participant contributions, and improper plan expenses. The program includes 15 specific transactions and their acceptable means of correction, eligibility requirements, and application procedures. If an eligible party documents the acceptable correction of a specified transaction, the U.S. Department of Labor Employee Benefits Security Administration (EBSA) will issue a no-action letter.

Why did the U.S. Department of Labor create the VFCP?

In part, the U.S. Department of Labor developed the VFCP in response to requests from the employee benefits community for a formal program that would reduce the risk of enforcement action and the imposition of the Section 502(l) penalty. Most of EBSA's investigations are resolved by fiduciaries taking corrective action after EBSA identifies violations. The U.S. Department of Labor recognized that as the private benefit system evolves, there is a need for innovation in voluntary compliance. Publication of the VFCP provides an opportunity to inform plan fiduciaries of their obligations so that complete and fully acceptable corrections may be made without discussion or negotiation with the U.S. Department of Labor.

Who is eligible to participate in the program?

The U.S. Department of Labor will consider an application if neither the plan nor the applicant is under investigation and if the application contains no evidence of potential criminal violations as determined by EBSA.

How long will the U.S. Department of Labor operate the program?

The U.S. Department of Labor expects to operate the program indefinitely.

What if the U.S. Department of Labor receives an application from a plan sponsor that has not adequately corrected a violation?

The U.S. Department of Labor may need to negotiate with the sponsor for full correction. In that case, the Section 502(l) penalty may apply to amounts restored pursuant to the negotiation. Depending on the facts, EBSA may also need to conduct a civil or criminal investigation or take other action, such as seeking removal of persons from positions of authority with respect to a plan.

Are there any civil penalties involved in the program?

If the applicant complies with the conditions of the program, no Section 502(l) penalty would apply to correction amounts paid to the plan or to participants. However, the U.S. Department of Labor is not precluded from referring information regarding the transaction to the IRS as required by Section 3003(c) of ERISA, or from imposing civil penalties under Section 502(c)(2) of ERISA based on the failure or refusal to file a timely, complete and accurate annual report Form 5500.

Will the new program provide any certainty to the applicant if he or she complies with the conditions?

Yes. The U.S. Department of Labor acknowledged the need for plan sponsors and their service providers to know that the U.S. Department of Labor would take no further action if the applicant satisfied the terms of the program. Under those circumstances, the U.S. Department of Labor will issue a no-action letter to the applicant. The no-action letter states that the U.S. Department of Labor will not initiate a civil investigation under Title I of ERISA regarding the applicant's responsibility for any transaction described in the no-action letter, nor assess a Section 502(l) penalty. However, the issuance of a no-action letter does not affect the ability of any other government agency, or any other person, to enforce their rights.

How do I apply for relief?

The program includes application procedures. Briefly, one must submit a written narrative and supporting documents describing the transaction and its correction, proof of restoration of losses, and an executed penalty of perjury statement.

Where do I apply?

Applications should be mailed to the appropriate EBSA regional office.

How can I find out more about the program?

Interested parties may contact the appropriate EBSA regional office. Regional coordinator's assigned to the program will assist you with your questions. Information about the VFCP can also be obtained by calling EBSA's Toll-Free number at 1.866.444.EBSA (3272)

How can I comment on the program?

Comments may be addressed in writing to:

How do I determine when participant contributions to pension plans are late?

The Department's regulation relating to the definition of Plan Assets - Participant Contributions (29 CFR 2510.3-102) describes a general rule and a maximum time period for pension benefit plans. The general rule provides that the assets of a plan include amounts (other than union dues) that a participant or beneficiary pays to an employer, or amounts that a participant has withheld from his wages by an employer, for contribution to the plan as of the earliest date on which such contributions can reasonably be segregated from the employer's general assets.

The maximum time period for pension benefit plans for transmitting participant contributions shall in no event be later than the 15th business day of the month following the month in which the participant contribution amounts are received by the employer (in the case of amounts that a participant or beneficiary pays to an employer) or the 15th business day of the month following the month in which such amounts would otherwise have been payable to the participant in cash (in the case of amounts withheld by an employer from a participant's wages).

The date when participant contributions reasonably can be segregated from the employer's general assets usually will be earlier than the maximum time period for pension plans in the regulation. Thus, when contributions reasonably can be segregated from the employer's general assets in a shorter time period, delay in forwarding the contributions, even a delay that does not exceed the maximum time period under the regulation, may cause a breach of fiduciary duty under Title I of ERISA that may be corrected under the Voluntary Fiduciary Correction Program (VFCP). Moreover, where the contributions have been delinquent longer than the maximum time period and the contributions could have been segregated earlier than the maximum time period, the loss date (as defined in the program), for purposes of calculating lost earnings (as defined in the program), is the date on which the contributions reasonably could have been segregated and not the maximum time period.

How do I show the earliest date contributions can be segregated for purposes of preparing a VFCP application?

Program applicants are reminded that the program requires that the applicant document, under its particular circumstances, the earliest date on which the contributions reasonably could have been segregated from the employer's general assets. This documentation may consist of the plan sponsor's past withholding and remittance history, the sponsor's withholding and remittance process, and the minimum period between withholding and remittance.

Participant contributions to the plan were delinquent, but the dollar amount to correct is very small. Do I have to participate in the VFCP?

If participant contributions are delinquent, plan officials must take appropriate action to correct the violation. Although plan officials are not required to file an application with the Department under the VFCP to correct a violation, the VFCP is available to correct a loss of any amount resulting from a transaction covered by the program. Participation in the VFCP is voluntary. However, if you do not file an application with the Department, you cannot obtain the relief available under the program. Moreover, if the Department discovers the violation on audit, and the correction was not complete for purposes of the program, a civil penalty may be assessed on any additional amount required by the Department to fully correct the violation following the Department's audit of the plan.

Can I use the VFCP to correct a failure to forward participant loan repayments to a plan in a timely fashion?

Yes. In Advisory Opinion 2002-02A, the Department concluded that, while not subject to the participant contribution regulation (29 C.F.R. § 2510.3-102), participant loan repayments paid to or withheld by an employer for purposes of transmittal to an employee benefit plan are sufficiently similar to participant contributions to justify, in the absence of regulations providing otherwise, the application of principles similar to those underlying the final participant contribution regulation for purposes of determining when such repayments become assets of the plan. Specifically, the Advisory Opinion concluded that participant loan repayments paid to or withheld by an employer for purposes of transmittal to the plan become plan assets as of the earliest date on which such repayments can reasonably be segregated from the employer's general assets. Given the similar treatment of participant contributions and loan repayments, the Department has determined that it is appropriate to permit delinquent participant loan repayments to be corrected under the VFCP in the same manner as delinquent participant contributions.

I have determined that participant contributions to the pension plan were delinquent and I want to correct under the program. How do I determine what rate of return to use for calculating earnings on the delinquent contributions?

In order to correct under the program, you will need to calculate the lost earnings on the delinquent contributions. For purposes of correction under the program, the rate of return to use is the highest of:

- The rate of return of the plan for non-participant directed plans or of individual participant accounts
- Restoration of profits (as defined under the program)
- The Internal Revenue Code §6621 rate. How to calculate each of those amounts is demonstrated in the questions and answers below

The plan investments are selected by the plan fiduciaries. How do I calculate the overall rate of return for the plan?

Where there are no distributions or expense disbursements during the period of delinquency, the overall rate of return for the plan is calculated by subtracting the amount of plan assets on the date contributions were due under the Department's regulation from the amount of plan assets on the date the delinquent contributions are repaid to the plan, but not including the addition of the delinquent contributions, divided by the amount of assets on the date the contributions were due.

Where there have been distributions or expense disbursements during the period of delinquency, applicants may demonstrate the actual average rate of return of all the investments of the plan where they have evidence to show such rate of return. In the alternative, applicants may, for administrative convenience, calculate the overall rate of return by using a fraction where the numerator is the amount of plan assets on the date the contributions are repaid minus the amount of plan assets on the date contributions were due, but not including the addition of the delinquent contributions, plus any distributions and expense disbursements made between the date the contributions were repaid and the date the contributions were due, and the denominator is the amount of assets on the date the contributions were due.

The plan investments are participant directed. How do I calculate the rate of return for purposes of determining lost earnings on delinquent contributions?

When calculating the rate of return for participant-directed plans, it is necessary to calculate the rate of return for each individual participant account. The same method used for calculating the overall plan rate of return for a plan where the investments are selected by the plan fiduciaries is used for each participant account. For administrative convenience, the applicant may use the highest rate of return of any plan investment option as the rate of return for each individual participant account.

If the plan investments are participant directed and certain participants have not designated any investment options, what rate of return do I use for those participants for purposes of determining earnings on delinquent contributions?

For those participants in a participant-directed plan who have not designated any investment options, the applicant may use the plan's overall rate of return for those participants during the period of the delinquency.

How do I determine what is the restoration of profits amount for purposes of determining earnings on delinquent contributions?

The restoration of profits amount is the amount earned by the fiduciary or party in interest on the use of the monies that should have been forwarded to the plan for the duration of the delinquency. If the purpose for which the monies were used and the earnings thereon are ascertainable, then those actual earnings are the amount of the restoration of profits.

What is the IRC §6621 rate and how do I find out what the rate was for the applicable time period?

Section 6621 of the Internal Revenue Code establishes the rates for interest on tax overpayments and underpayments. The VFCP uses the underpayment rate as the rate of return that must be examined for determining lost earnings where it is not possible to ascertain the restoration of profits amount. The Internal Revenue Service publishes the §6621(a)(2) rate quarterly. The rate announcements can be found on the internet.

Voluntary Correction Program

RIN 1212-AB00

Agency: Pension Benefit Guaranty Corporation

Action: Notice

Effective Date: May 3, 20024

Summary: The Pension Benefit Guaranty Corporation (''PBGC'') is announcing a Participant Notice Voluntary Correction Program (''VCP''). This program, which generally covers Participant Notices for the 2002 or 2003 plan year that were not issued as required, is designed to encourage plan administrators to correct recent compliance failures without penalty and to facilitate plan administrators' future compliance. The PBGC will not pursue any failure to provide a pre-2002 Participant Notice unless there is a 2002 or 2003 participant Notice failure that is covered by the VCP but that does not meet the requirements for penalty relief under the VCP. Elsewhere in today's Federal Register, the PBGC is proposing a new Participant Notice penalty policy.

Dates: To meet the requirements for penalty relief under the Participant Notice Voluntary Correction Program with respect to a Participant Notice failure for the 2002 or 2003 plan year, the plan administrator must: (1) Issue a VCP corrective notice by the 2004 Participant Notice due date (for calendar year plans, generally October 4, 2004, November 15, 2004, or December 15, 2004); and (2) notify the PBGC within 30 days after the 2004 Participant Notice due date.

Supplementary information: Overview of Participant Notice Requirements Section 4011 of the Employee Retirement Income Security Act of 1974 ("ERISA") requires certain underfunded plans to issue a notice to participants of the plan's funding status and the limits on the PBGC's guarantee ("Participant Notice"). The Participant Notice helps to ensure that participants better understand the financial status of their plans and the consequences that plan underfunding may have on their promised benefits. The PBGC's implementing regulations are at 29 CFR part 4011. In general, a plan administrator must issue a Participant Notice for a plan year if a variable rate premium (which is tied to plan underfunding) is payable for that plan year, unless the plan meets the "DRC Exception Test" for that plan year or for the prior plan year. However, the Job Creation and Worker Assistance Act of 2002 (JCWAA) made a temporary change to the premium interest rate that did not apply for purposes of determining whether a Participant Notice was required. Therefore, a plan administrator may be required to provide a Participant Notice for the 2002 or 2003 plan year even if a variable rate premium is not payable for that plan year. The Pension Funding Equity Act of 2004 (PFEA), which was signed into law by the President on April 10, 2004, changes the rules for determining the required interest rate for premium payment years beginning in 2004 or 2005. Under PFEA, plan administrators may use the premium interest rate for purposes of determining whether a Participant Notice is required. Thus, a plan administrator may be required to issue a Participant Notice for the 2004 or 2005 plan year only if a variable rate premium is payable for that plan year. A Participant Notice for a plan year is due in that plan year-"two months after the due date (with extensions) for the plan's Form 5500 for the prior plan year. (The due date for a plan's Participant Notice for a plan year is keyed to the due date for the plan's Summary Annual Report for the prior plan year so that the two documents may be issued together.) For calendar year plans, common due dates for the 2004 Participant Notice are therefore October 4, 2004, November 15, 2004, and December 15, 2004. There are a variety of rules governing who is entitled to receive the Participant Notice and the form, content, and manner of issuance of the Participant Notice. Plan administrators are required to certify on the annual PBGC premium filing (Form 1 or Form 1-EZ) that, for the prior plan year: (1) A Participant Notice was not required to be issued; (2) a Participant Notice was issued as required; or (3) an explanation is attached (*e.g.*, because a required Participant Notice was issued late). *See* appendix A for a detailed explanation of the requirements governing Participant Notices.

Compliance and Enforcement Background The Participant Notice requirement went into effect in the 1995 plan year for large plans (generally plans with more than 100 participants) and in the 1996 plan year for small plans (generally plans with 100 or fewer participants). In the first few years after the requirement went into effect, plan administrators of only a relatively small number of defined benefit plans had to provide a Participant Notice, reflecting the fact that plans were better funded at that time. The PBGC conducted compliance surveys and found that both large plan and small plan compliance was high for those plan years. In the last several years, however, because of low interest rates and poor investment returns, more plans have become underfunded and, therefore, many plan administrators have been required to issue a Participant Notice for the first time. Recent PBGC audits have found higher rates of noncompliance with the Participant Notice requirement than in prior years. Much of the noncompliance appears to have resulted from a lack of awareness or understanding of the applicable requirements rather than from an attempt to avoid disclosure. Nonetheless, plan participants deserve to know if their plans are underfunded. As a result, the PBGC is expanding its Participant Notice enforcement program with a view toward more actively auditing compliance and assessing penalties for noncompliance.

Overview of Voluntary Correction Program As a transition to this expanded enforcement program, the PBGC is launching a Participant Notice Voluntary Correction Program ("VCP") designed to encourage plan administrators to correct past compliance failures and to facilitate their future compliance with Participant Notice requirements. The VCP generally covers Participant Notice failures for the 2002 and 2003 plan years. Under this program, the PBGC will not assess penalties for failure to provide a 2002 or 2003 Participant Notice as required if the failure is corrected in accordance with the guidelines in this notice. (The VCP focuses on the 2002 and 2003 plan years in part because the PBGC is concerned that some plan administrators may have misunderstood the effect of JCWAA on their Participant Notice obligations for those plan years.) The PBGC will not pursue failures to provide a pre-2002 Participant Notice unless there is a 2002 or 2003 by the VCP but that does not meet the requirements for penalty relief under the VCP. Focusing the PBGC's enforcement resources primarily on 2002 and later Participant Notice failures will concentrate those resources effectively and limit disclosures to plan years that are most relevant to participants. The PBGC anticipates that many plan administrators will want to participate in the VCP as a precaution, even in the absence of a known Participant Notice failure. Participation in the VCP will not affect the likelihood that a plan will be selected for audit of compliance with the requirement to issue a post-VCP Participant Notice (see "Participant Notices Covered by VCP"), with the PBGC premium requirement, or with any other PBGC requirement.

Participant Notices Covered by VCP The VCP covers any Participant Notice for a plan's 2002 or 2003 plan

year: (1) That is due before May 7, 2004; and (2) that is not, as of May 7, 2004, the subject of a PBGC audit proceeding. For purposes of determining whether the VCP covers a plan's Participant Notice, the date the Participant Notice is due is determined without regard to any deadline extension resulting from a disaster relief notice. For example, if a calendar year plan's 2003 Participant Notice was originally due on December 15, 2003, but as a result of a disaster relief notice the due date was extended to May 14, 2004, the VCP would cover the plan's 2003 Participant Notice because the extension to May 14, 2004, would be disregarded.

Requirements for VCP Penalty Relief For any Participant Notice that is covered by the VCP, the PBGC will not assess a penalty if the plan administrator, in accordance with the guidelines in this notice: (1) Issues a VCP corrective notice; and (2) notifies the PBGC that it is participating in the VCP. (If the only failure was a late issuance corrected before May 7, 2004, *see* ''Special rule for late 2002/2003 notices already corrected.'') *VCPCorrective Notice* The PBGC believes that many of the plans that will participate in the VCP to correct a Participant Notice failure for 2002 or 2003 will also be required to issue a Participant Notice for 2004. Accordingly, the PBGC has structured the VCP corrective notice requirements to enable such plans to issue a single notice that meets the requirements for a VCP corrective notice *and* for the 2004 Participant Notice. This approach will minimize the confusion for participants that could result from the issuance of multiple notices at or about the same time. The VCP corrective notice must meet all of the requirements that apply to the 2004 Participant Notice (or, if the plan is not required to issue a 2004 Participant Notice, all of the requirements that would apply if it were required), except as otherwise provided in the guidelines in this notice. Normally the 2004 Participant Notice would have to include the ''funded current liability percentage'' for the 2003 plan year or for the 2004 plan year. Under the VCP, whether the plan administrator is correcting only a 2002 failure, only a 2003 failure, or both a 2002 and a 2003 failure, the VCP corrective notice: (1) Must include the funded current liability percentage for the 2002 plan year and for the 2003 plan year, and (2) may include as well the funded current liability percentage for the 2004 plan year. In all other respects, the VCP corrective notice must contain the information required in a 2004 Participant Notice (*e.g.*, current information on funding waivers, missedcontributions, and limitations on the PBGC's guarantee). Although the plan administrator is not required to inform participants that it had a Participant Notice failure for the 2002 or 2003 plan year (or for both), or that it is participating in a ''voluntary correction program,'' a plan administrator may choose to include that information in the VCP corrective notice. Appendix B contains a model VCP corrective notice that plan administrators may use to meet VCP requirements. The PBGC will treat a VCP corrective notice that is issued in accordance with the guidelines in this notice as meeting the requirements for the 2004 Participant Notice. Plan administrators should take special note that because the VCP corrective notice is tied to the requirements for the 2004 Participant Notice rather than to the requirements for the 2002 or 2003 Participant Notice that was not issued as required, the VCP corrective notice is required to be issued only to those persons entitled to receive the plan's 2004 Participant Notice (or that would be entitled to receive the plan's 2004 Participant Notice if it were required). Thus, there is no need to issue the VCP corrective notice to those persons who were entitled to receive the 2002 or 2003 Participant Notice that was not issued as required but who are not entitled to receive the 2004 Participant Notice (*e.g.*, a participant whose entire benefit has been annuitized or paid out in a lump sum). *Notice to PBGC* The plan administrator must notify the PBGC that it is participating in the VCP no later than the 30th day after the due date for issuing the VCP corrective notice. The notification must include a copy of the VCP corrective notice and the name and telephone number of a person for the PBGC to contact with any questions. Plan administrators may notify the PBGC electronically through the PBGC's Web site at *http:// www.pbgc.gov/participantnotice,* by fax at 202-336-4197, or by mail, commercial delivery service, or hand at Contracts and Control Review Department, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Suite 580, Washington, DC 20005-4026. The PBGC will promptly issue a written acknowledgment of the notification. Plan administrators should keep the acknowledgment as proof of meeting the VCP requirement of notifying the PBGC.

Special Rule for Late 2002/2003 Notices Already Corrected If a plan administrator's only failure with respect to a 2002 or 2003 Participant Notice was late issuance and the failure has been corrected before May 7, 2004, the PBGC will treat the plan administrator as having participated in the VCP and will assess no penalty for that 2002 or 2003 failure (and will not pursue any pre-2002 Participant Notice failure) without requiring that the plan administrator issue a VCP corrective notice or notify the PBGC of the plan's participation in the VCP.

Effect of VCP on Certification Requirements Ordinarily, a plan administrator that filed an erroneous certification on the annual PBGC premium filing as to whether a Participant Notice was required for the prior plan year and, if so, whether it was issued as required would have to file an amended certification. However, if the plan administrator notifies the PBGC of the plan's participation in the VCP, the PBGC will treat the notification as effectively amending any erroneous certification filed on or before May 7, 2004, with respect to a 2002 or 2003 Participant Notice. The PBGC will take no enforcement action based on the erroneous prior certification if the plan administrator of a plan that meets the requirements for penalty relief under the VCP amends (or effectively amends) the erroneous prior certification. meet the requirements for VCP penalty relief will be

required to check a box on the 2005 PBGC premium filing notifying the PBGC of the plan's participation in the VCP. This requirement is in addition to the Notice to PBGC requirement described above that must be met to qualify for VCP penalty relief, except under "Special rule for late 2002/2003 notices already corrected."

Compliance Assistance The PBGC has developed written guidance on the requirements of the VCP, including a Fact Sheet and Frequently Asked Questions. All information related to the VCP and to Participant Notice requirements generally is available on the PBGC's Web site at *http://www.pbgc.gov/ participantnotice.* In addition, plan administrators seeking guidance on Participant Notice compliance questions, including questions about the VCP, may submit questions electronically through that Web site or call the toll-free telephone number at the PBGC's Practitioner Customer Service Center (1-800-736-2444). Plan administrators may also contact the PBGC to request appropriate modifications to the VCP requirements on a case-by-case basis. For example, in the case of a 2002 or 2003 "partial" failure such as a failure to provide the notice to some of the participants or a failure to include in the notice some required information, the PBGC will work with the plan administrator to determine what type of correction, if any, would be needed to address the partial failure in order to qualify for penalty relief under the VCP.

Future Participant Notice Penalties Elsewhere in today's Federal Register, the PBGC is proposing a new Participant Notice penalty policy. The PBGC intends to publish its final Participant Notice penalty policy as soon as practicable after considering public comments.

Compliance With Rulemaking Guidelines The PBGC has determined, in consultation with the Office of Management and Budget, that this Notice is a "significant regulatory action" under Executive Order. The Office of Management and Budget has therefore reviewed this notice under Executive Order 12866. The collection of information requirements under the VCP have been approved by the Office of Management and Budget under control numbers 1212-0009 (expires December 31, 2006) and 1212-0050 (expires November 30, 2004). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Because this action deals only with a general statement of PBGC enforcement policy, it is not subject to the notice and comment rulemaking requirements or delayed effective date requirements under section 553 of the Administrative Procedure Act. Because no general notice of proposed rulemaking is required, the Regulatory Flexibility Act does not apply. *See* 5 U.S.C. 601(2), 603, 604. Issued in Washington, DC, this 3rd day of May, 2004.

Appendix A

Summary of Participant Notice Requirements *Statutory and Regulatory Framework* Section 4011 of ERISA and 29 CFR part 4011 require certain underfunded plans to issue an annual notice to participants (a "Participant Notice") that discloses the plan's funding status and the limits of the PBGC's guarantee.

When Requirement Applies In general, a plan administrator is required to provide a Participant Notice for a plan year if a variable rate premium (which is tied to plan underfunding) is payable for that plan year, unless the plan meets a funding-related test tied to the "deficit reduction contribution" rules-the "Deficit Reduction Contribution ("DRC") Exception Test"-for that plan year or for the prior plan year. *See* § 4011.3. However, as discussed below under Effect of JCWAA on Requirements, a plan administrator may be required to provide a Participant Notice for the 2002 or 2003 plan year even if a variable rate premium is not payable for that plan year. In general, the DRC Exception Test requires a plan to be at least 90 percent funded, although a plan that is at least 80 percent funded meets the test if it was at least 90 percent funded for two consecutive plan years out of the last three. There are special rules under the DRC Exception Test that allow small plans to avoid doing additional calculations by using numbers they already reported on the Schedule B to their Form 5500. *See* § 4011.4. Most new and newly covered plans are exempt from the Participant Noticerequirement. *See* § 4011.5. *Due Dates* A participant notice for a plan year is due in that plan year. The due date for issuing a Participant Notice for a plan year is two months after the plan's due date, with extensions, if any, for filing the Form 5500 for the prior plan year. (The due date for a plan's Participant Notice for a plan year is keyed to the due date for the plan's Summary Annual Report for the prior plan year so that the two documents may be issued together.) The plan administrator may change the date of issuance from one plan year to the next, provided that the effect of any change is not to avoid disclosing a minimum funding waiver or a missed contribution. *See* § 4011.8.

Persons Entitled To Receive Notice A plan administrator must provide a Participant Notice to participants, beneficiaries of deceased participants, alternate payees, and unions. To determine who is a person entitled to receive a Participant Notice, the plan administrator may select any date during the period beginning with the

last day of the prior plan year and ending with the date on which the Participant Notice is due, provided that a change in the date from one plan year to another does not exclude a substantial number of participants and beneficiaries. *See* § 4011.7.

Manner of Issuance The plan administrator must issue a Participant Notice using measures reasonably calculated to ensure actual receipt by the persons entitled to receive it. A Participant Notice may be issued together with another document, such as the Summary Annual Report (which is due at the same time as the Participant Notice), as long as it is in a separate document. *See* § 4011.9, as amended by the PBGC's final rule published October 28, 2003 (68 FR 61344, 61353).

Form of Notice A Participant Notice must contain the plan's "Notice Funding Percentage"-the plan's "funded current liability percentage" as defined in section 302(d)(9)(C) of ERISA- for the current plan year or the prior plan year, along with the date as of which that percentage is determined. The Participant Notice also must contain information on minimum funding waivers and missed contributions, a summary of plan benefits guaranteed by the PBGC with an explanation of the limitations on the guarantee, and other information specified in the regulation. *See* § 4011.10(b) and (c). Additional information must be in a separate document. *See* § 4011.10(d). A Participant Notice must be readable and written in a manner calculated to be understood by the average plan participant and not to mislead recipients. *See* § 4011.10(a). Plan administrators of plans with specified numbers or percentages of participants literate only in the same non-English language must provide either an English-language Participant Notice with aprominent legend in the common non-English language offering assistance in that language or a Participant Notice in the common non-English language. *See* § 4011.10(e). The Participant Notice regulation contains a Model Participant Notice as an example of a Participant Notice that meets the requirements of § 4011.10. Each year the PBGC issues a Technical Update that provides specific information relating to that year's Participant Notice and updates the Model Notice. *Effect of JCWAA on Requirements* Section 405 of the Job Creation and Worker Assistance Act of 2002 ("JCWAA") increased the required interest rate for calculating vested benefits for the PBGC variable rate premium under section 4006(a)(3)(E)(iii) of ERISA from 85 percent to 100 percent of the yield on 30-year Treasury securities. The statutory change applies only to plan years beginning in 2002 or 2003. However, JCWAA does *not* allow use of 100 percent of the Treasury yield to determine whether a PBGC variable rate premium is payable for purposes of determining whether a Participant Notice is required. Thus, plan administrators must continue to use 85 percent of the Treasury yield for this purpose. Section 405 of JCWAA also increased, for plan years beginning in 2002 or 2003, the maximum interest rate (from 105 percent to 120 percent of the four-year weighted average of the yield on 30-year Treasury securities) that may be used to calculate current liability for purposes of the DRC funding requirement. The change in the maximum interest rate used to calculate current liability for DRC funding purposes can affect, for the 2002, 2003, and certain future plan years: (1) Whether a plan administrator is required to issue a Participant Notice; and (2) the plan funding information required to be disclosed in a Participant Notice. The effect of JWCAA on Participant Notice requirements is fully discussed in PBGC Technical Updates 02-2 and 03-17, both available on the PBGC's Web site, *http:// www.pbgc.gov/participantnotice*.

*Certification*The plan administrator is required to certify on the annual PBGC premium filing (Form 1 or Form 1-EZ) that, for the prior plan year: (1) A Participant Notice was not required to be issued; (2) a Participant Notice was issued as required; or (3) an explanation is attached (*e.g.*, because a required Participant Notice was issued late).

Penalties If a Participant Notice is not issued as required, the PBGC may assess penalties under section 4071 of ERISA and 29 CFR part 4071. For more information on Participant Notice penalties, *see* the PBGC's proposal on such penalties published elsewhere in today's Federal Register

Appendix B *Model VCP Corrective Notice* The following is an example of a corrective notice that satisfies the requirements of the Participant Notice Voluntary Correction Program when the required information is filled in (subject to § 4011.10(d)-(e), as applicable). It also satisfies the requirements of § 4011.10 for the 2004 Participant Notice.

Notice to Participants of [Plan Name] The law requires that you receive information on the funding level of your defined benefit pension plan and the benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a federal insurance agency. [You may include a statement to the effect that the plan had a prarticipant notice failure for the 2002 plan year or for the 2003 plan year (or for both). You may also include a statement to the effect that the plan is participating the PBGC'S Participants Notice Voluntary Correction Program.] Your Plan's Funding As of [Applicable date], your plan had [Insert plan's funded current liability percentage (as defined in section 302(d)(9)(C) of ERISA) for the 2002 plan year] percent of the money needed to pay benefits promised to employees and retirees. As of [Applicable date], your plan had [Insert plan's funded current liability percentage (as defined in section 302(d)(9)(C) of ERISA) for the 2003 plan year]

percent of the money needed to pay benefits promised to employees and retirees. [You may also include the following statement: As of [Applicable date], your plan had [Insert plan's funded current liability percentage (as defined in section 302(d)(9)(C) of ERISA) for the 2004 plan year] percent of the money needed to pay benefits promised to employees and retirees.] [SEE § 4011.10(c)(2) For special rules small plans may use to determine the plan's funded current liability percentage.] To pay pension benefits, your employer is required to contribute money to the pension plan over a period of years. A plan's funding percentage does not take into consideration the financial strength of the employer. Your employer, by law, must pay for all pension benefits, but your benefits may be at risk if your employer faces a severe financial crisis or is in bankruptcy. [include the following paragraph only if, for any of the previous five plan years, the paln has been granted and has not fully repaid a funding waiver.] Your plan received a funding waiver for [List any of the five previous plan years for which a funding waiver was granted and has not been fully repaid]. If a company is experiencing temporary financial hardship, the Internal Revenue Service may grant a funding waiver that permits the company to delay contributions that fund the pension plan. [Include the following with respect to any unpaid or late payment that must be disclosed under section 4011.10(b)(6):] Your plan was required to receive a payment from the employer on [List applicable due date(s)]. That payment [has not been made] [was made on [List applicable payment date(s)]]. PBGC Guarantees When a pension plan terminates without enough money to pay all benefits, the PBGC steps in to pay pension benefits. The PBGC pays most people all pension benefits, but some people may lose certain benefits that are not guaranteed. The PBGC pays pension benefits up to certain maximum limits. The maximum guaranteed benefit is $3,698.86 per month or $44,386.32 per year for a 65-year-old person in a plan that terminates in 2004. [If you issue this notice after the maximum guaranteed benefit information for plans that terminate in 2005 is announced, you may add or substitute that information in order to provide participants with more current information. The PBGC expects to make that information available on its website at *www.PBGC.gov* in early November 2004.] The maximum benefit may be reduced for an individual who is younger than age 65. For example, it is $1,664.49 per month or $19,973.88 per year for an individual who starts receiving benefits at age 55. [In Lieu of age 55, you may add or substitute any age(s) relevant under the plan. For example, you may add or substitute the maximum benefit for ages 62 or 60. The maximum benefit is $2,922.10 per month or $35,065.20 per year at age 62; It is $2,404.26 per month or $28,851.12 per year at age 60. If the plan provides for normal retirement before AGE 65, you must include the normal retirement age.] [If you issue this notice after the maximum guaranteed benefit information for plans that terminate in 2005 is announced, you may add or substitute that information in order to provide participants with more current inforamtion. The PBGC expects to make that information available on its web site at www.PBGC.gov in early November 2004.] [If the plan does not provide for commencement of benefits before age 65, you may omit this paragraph.] The maximum benefit will also be reduced when a benefit is provided for a survivor. The PBGC does not guarantee certain types of benefits. [Include the following guarantee limits that apply to the benefits available under your plan.]

The PBGC does not guarantee benefits for which you do not have a vested right when a plan terminates, usually because you have not worked enough years for the company. The PBGC does not guarantee benefits for which you have not met all age, service, or other requirements at the time the plan terminates. Benefit increases and new benefits that have been in place for less than a year are not guaranteed. Those that have been in place for less than 5 years are only partly guaranteed. Early retirement payments that are greater than payments at normal retirement age may not be guaranteed. For example, a supplemental benefit that stops when you become eligible for Social Security may not be guaranteed. Benefits other than pension benefits, such as health insurance, life insurance, death benefits, vacation pay, or severance pay, are not guaranteed. The PBGC generally does not pay lump sums exceeding $5,000. Where To Get More Information Your plan, [EIN-PN], is sponsored by [Contributing sponsor(s)]. Exemption

Section I: Eligible Transactions

The sanctions resulting from the application of section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the following eligible transactions described in section 7 of the Voluntary Fiduciary Correction (VFC) Program (67 FR 15061, March 28, 2002), provided that the applicable conditions set forth in Sections II, III and IV are met:

A. Failure to transmit participant contributions to a pension plan within the time frames described in the Department's regulation at 29 CFR section 2510.3-102, (see VFC Program, section 7.A.1.), and/or the failure to transmit participant loan repayments to a pension plan within a reasonable time after withholding or receipt by the employer.

B. Loan at a fair market interest rate to a party in interest with respect to a plan. (See VFC Program, section 7.B.1.).

C. Purchase or sale of an asset (including real property) between a plan and a party in interest at fair market value. (See VFC Program, sections 7.C.1. and 7.C.2.).

D. Sale of real property to a plan by the employer and the leaseback of the property to the employer, at fair market value and fair market rental value, respectively. (See VFC Program, section 7.C.3.).

Section II: Conditions

A. With respect to a transaction involving participant contributions or loan repayments to pension plans described in Section I.A., the contributions or repayments were transmitted to the pension plan not more than 180 calendar days from the date the amounts were received by the employer (in the case of amounts that a participant or beneficiary pays to an employer) or the date the amounts otherwise would have been payable to the participant in cash (in the case of amounts withheld by an employer from a

participant's wages).

B. With respect to the transactions described in Sections I.B., I.C., or I.D., the plan assets involved in the transaction, or series of related transactions, did not, in the aggregate, exceed 10 percent of the fair market value of all the assets of the plan at the time of the transaction.

C. The fair market value of any plan asset involved in a transaction described in Sections I.C. or I.D. was determined in accordance with section 5 of the VFC Program.

D. The terms of a transaction described in Sections I.B., I.C., or I.D. were at least as favorable to the plan as the terms generally available in arm's-length transactions between unrelated parties.

E. With respect to any transaction described in Section I, the transaction was not part of an agreement, arrangement or understanding designed to benefit a party in interest.

F. (1) With respect to any transaction described in Section I, the applicant has not taken advantage of the relief provided by the VFC Program and this exemption for a similar type of transaction(s) identified in the current application during the period which is three years prior to submission of the current application. (2) Notwithstanding the foregoing, Section II.F.(1) shall not apply to an applicant provided that: (a) The applicant was a broker-dealer registered under the Securities Exchange Act of 1934, a bank supervised by the United States or a State thereof, a broker-dealer or bank subject to foreign government regulation, an insurance company qualified to do business in a State, or an affiliate thereof; (b) The applicant was a party in interest (including a fiduciary) solely by reason of providing services to the plan or solely by reason of a relationship to such service provider described in section 3(14)(F), (G), (H) or (I) (and/or the corresponding provisions of section 4975 of the Code); (c) Neither the applicant nor any affiliate (i) was a fiduciary (within the meaning of section 3(21)(A) of ERISA) with respect to the assets of the plan involved in the transaction and (ii) used its discretion to cause the plan to engage in the transaction; (d) Individuals acting on behalf of the applicant had no actual knowledge or reason to know that the transaction was not exempt pursuant to a statutory or administrative exemption under ERISA and/or the Code; and (e) Prior to the transaction, the applicant established written policies and procedures that were reasonably designed to ensure compliance with the prohibited transaction rules and the applicant engaged in periodic monitoring for compliance.

Section III: Compliance with VFC Program

A. The applicant has met all of the applicable requirements of the VFC Program.

B. PWBA has issued a no action letter to the applicant pursuant to the VFC Program with respect to a transaction described in Section I.

Section IV: Notice

A. Written notice of the transaction(s) for which the applicant is seeking relief pursuant to the VFC Program and this exemption, and the method of correcting the transaction, was provided to interested persons within 60 calendar days following the date of the submission of an application under the VFC Program. A copy of the notice was provided to the appropriate Regional Office of the United States

Department of Labor, Pension and Welfare Benefits Administration within the same 60-day period, and the applicant indicated the date upon which notice was distributed to interested persons. Plan assets were not used to pay for the notice. The notice included an objective description of the transaction and the steps taken to correct it, written in a manner reasonably calculated to be understood by the average plan participant or beneficiary. The notice provided for a period of 30 calendar days, beginning on the date the notice was distributed, for interested persons to provide comments to the appropriate Regional Office. The notice included the address and telephone number of such Regional Office.

B. Notice was given in a manner that was reasonably calculated, taking into consideration the particular circumstances of the plan, to result in the receipt of such notice by interested persons, including but not limited to posting, regular mail, or electronic mail, or any combination thereof. The notice informed interested persons of the applicant's participation in the VFC Program and intention of availing itself of relief under the exemption.

Signed at Washington, DC, this 11th day of November, 2002.

Publication 794

(Rev. April 1994)

Favorable Determination Letter

Introduction

This publication explains the significance of your favorable determination letter, points out some features that may affect the qualified status of your employee retirement plan and nullify your determination letter without specific notice from us, and provides general information on the reporting requirements for your plan. An example of a determination letter is included.

Significance of a Favorable Determination Letter

An employee retirement plan qualified under Internal Revenue Code section 401(a) (qualified plan) is entitled to favorable tax treatment. For example, contributions made in accordance with the plan document are generally currently deductible. However, participants will not include these contributions into income until the time they receive a distribution from the plan, at which time special income averaging rates for lump sum distributions may serve to reduce the tax liability. In some cases, taxation may be further deferred by rollover to another qualified plan or individual retirement arrangement. (See Publication 575, Pension and Annuity Income, for further details.) Finally, plan earnings may accumulate free of tax.

Employee retirement plans that fail to satisfy the requirements under Code section 401(a) are not entitled to favorable tax treatment. Therefore, many employers desire advance assurance that the terms of their plans satisfy the qualification requirements. The Internal Revenue Service provides such advance assurance by means of the determination letter program. A favorable determination letter indicates that, in the opinion of the Service, the terms of the plan conform to the requirements of Internal Revenue Code section 401(a). In addition, a favorable determination letter may indicate that, on the basis of other information provided in your application, it has been demonstrated that the plan satisfies certain nondiscrimination requirements of Code section 401(a). See the following topic, Limitations of a Favorable Determination Letter, for more details.

Limitations of a Favorable Determination Letter

A favorable determination letter is limited in scope and may also have a limited useful life. A determination letter generally applies to qualification requirements regarding the form of the plan. A determination letter may also apply to other qualification requirements pertaining to the prohibition against discrimination in favor of highly compensated employees. These requirements are generally referred to as the coverage and nondiscrimination requirements. They include the nondiscrimination requirements of section 401(a)(4) of the Code, the minimum coverage requirements of section 410(b), and certain related requirements.

The extent to which a determination letter applies to the coverage and nondiscrimination requirements depends on the terms of the plan, the scope of the determination you requested, and the additional information

you supplied with your application. Your determination letter will contain specific statements that will describe the scope of reliance represented by the letter.

In addition, the following apply generally to all determination letters:

The determination letter may not include a statement regarding the minimum coverage requirements of Code section 410(b); this means that you have demonstrated that the plan satisfies these requirements by satisfying the ratio-percentage test.

- A favorable determination letter means that you have demonstrated that the plan satisfies the minimum participation requirements of Code section 401(a)(26). (Letters for certain governmental plans may also include a statement regarding a special effective date rule.)

- If you maintain two or more retirement plans some of which were either not submitted to the Service for determination or not disclosed on each application, certain limitations and requirements will not have been considered on an aggregate basis. Therefore, you may not rely on the determination letter regarding the plans when considered as a total package.

- A determination letter does not consider the special requirements relating to affiliated service groups or leased employees unless the letter includes a statement that the requirements of Internal Revenue Code section 414(m) (affiliated service groups), or 414(n) (leased employees) have been considered.

- For plans that are not amended to comply with the final nondiscrimination regulations retroactively to the 1989 plan year, a determination letter may not be relied upon as to whether plan provisions satisfy a good faith interpretation of the requirements of section 401(a)(4) and related sections of the Code.

- No determination letter may be relied on with respect to the effective availability of benefits, rights, or features under the plan. (See section 1.401(a)(4)-4(c) of the Income Tax Regulations.) Reliance on whether benefits, rights, or features are currently available to a non-discriminatory group of employees is provided to the extent specified in the letter.

- A determination letter does not consider whether actuarial assumptions are reasonable for funding or deduction purposes or whether a specific contribution is deductible.

- A determination letter does not consider and may not be relied on with respect to certain other matters described in section 4.08 of Rev. Proc. 93-39, 199331 I.R.B. 7 (i.e., whether a plan amendment is part of a pattern of amendments that significantly discriminates in favor of highly compensated employees; the use of the substantiation guidelines contained in Rev. Proc. 93-42, 1993-31 I.R.B. 32; and certain qualified separate lines of business requirements of section 414(r) of the Code).

- The determination letter applies only to the employer and its participants on whose behalf the determination letter was issued.

Become familiar with the terms of the determination letter. Please call the contact person listed on the determination letter if you do not understand any terms in your determination letter.

Retention of Information. Whether a plan qualifies is determined from the information in the written plan document and the supporting information submitted by the employer. **Therefore, you must retain copies of any demonstrations or other information submitted with your application. Such demonstrations determine the extent of reliance provided by your determination letter. Failure to retain such Information may limit the scope of reliance on issues for which demonstrations were provided**. The determination letter will not provide reliance if:

1. there has been a misstatement or omission of material facts,
2. the facts subsequently developed are materially different than the facts on which the determination was made, or
3. there is a change in applicable law.

Law changes affecting the plan. In general, a determination letter is issued based on the law in effect at the time the application is received. However, your letter may include a statement indicating any exception to this rule.

Amendments to the plan. A favorable determination letter may no longer apply if there is a change in a statute, regulation, or revenue ruling applicable to the qualification of the plan. However, the determination letter will continue to apply for years before the effective date of the statute, regulation, or revenue ruling. If the letter no longer applies to the plan, the plan must be amended to comply with the new requirements to maintain its qualified status.

Generally, if a regulation changes, the amendment must be adopted by the end of the first plan year beginning after the adoption date of the regulation. Generally, if a revenue ruling changes, the amendment must be adopted by the end of the first plan year beginning after the publication date of the revenue ruling. Generally the amendment must be effective not later than the first day of such plan year.

Amendments required by Internal Revenue Code sections 401(a)(17) and 401(a)(31). If the plan is a master or prototype or regional prototype plan, the determination letter may be relied on with respect to the direct rollover requirements of Internal Revenue Code section 401(a)(31) and the $150,000 compensation limitation of Internal Revenue Code section 401(a)(17), only if the sponsor amends the master or prototype or regional prototype plan on behalf of all adopting employers to satisfy these requirements by December 31, 1994. In the case of **individually designed plans**, letters issued under Rev. Proc. 93-39 consider these requirements.

Extended Reliance. In general, individually designed plans (not master or prototype, or regional prototype plans) submitted for a determination letter before July 1, 1994 need not be amended for, or comply in operation with subsequent Treasury regulations or other guidance (for example, revenue rulings, notices, etc.) issued by the Service after the date of the plan determination letter until the last day of the last plan year commencing prior to January 1, 1999, unless specifically stated otherwise.

However, plans must be amended by any date(s) established for plan amendment by subsequent legislation. If the determination letter is dated after June 30, 1994, this extended reliance will apply only d so stated in the determination letter. Similar reliance applies to **master and prototype or regional prototype plans** if the plan sponsor requested a notification or opinion letter before April 1, 1991.

Plan Must Qualify in Operation

Generally, a plan qualifies in operation if it continues to satisfy the coverage and nondiscrimination requirements and is maintained according to the terms on which the favorable determination letter was issued. Changes in facts and other bases on which the determination letter was issued may mean that the determination letter may no longer be relied upon.

Some examples of the effect of a plan's operation on a favorable determination are:

Not meeting nondiscrimination in amount requirement. If the determination letter states that the plan satisfies the nondiscrimination in amount requirement of section 1.401(a)(4)-1(b)(2) of the regulations on the basis of a design-based safe harbor, the plan will generally continue to satisfy this requirement in operation n the plan is maintained according to its terms. If the determination letter states that the plan satisfies the nondiscrimination in amount requirement on the basis of a nondesign-based safe harbor or a general test, and the plan subsequently fails to meet this requirement in operation, the letter may no longer be relied upon with respect to this requirement.

Not meeting minimum coverage requirements. If the determination letter does not include a statement regarding the minimum coverage requirements of Code section 410(b), this means that the plan satisfies these requirements by satisfying the ratio-percentage test. However, if the plan subsequently fails to satisfy the ratio-percentage test in operation, the letter may no longer be relied upon with respect to the coverage requirements. Likewise, if the determination letter states the plan satisfies the average benefit test, the letter may no longer be relied on with respect to the coverage requirements once the plan fails to satisfy the average benefit test in operation.

Changes in testing methods. If the determination letter is based in part on a demonstration that a coverage or nondiscrimination requirement is satisfied, and, in the operation of the plan, the method used to test that this requirement continues to be satisfied is changed (or is required to be changed because the facts have changed) from the method employed in the demonstration, the letter may no longer be relied upon with respect to this requirement.

Contributions or benefits in excess of the limitations under Code section 415. A retirement plan may not provide retirement benefits or, in the case of a defined contribution plan, contributions and other additions, that exceed the limitations specified in Internal Revenue Code section 415. Your plan contains provisions designed to provide benefits within these limitations. Please become familiar with these limitations for your plan will be

disqualified if these limitations are exceeded.

Top heavy minimums. If this plan primarily benefits employees who are highly compensated, it may be a top heavy plan and must provide certain minimum benefits and vesting for lower compensated employees. If your plan provides the accelerated benefits and vesting only for years during which the plan is top heavy, failure to identify such years and to provide the accelerated vesting and benefits will disqualify the plan.

Actual deferral percentage or contribution percentage tests. If this plan provides for cash or deferred arrangements, employer matching contributions, or employee contributions, the determination letter

does not consider whether special discrimination tests described in Code section 401(k)(3) or 401(m)(2) have been satisfied in operation.

Reporting Requirements

Most plan administrators or employers who maintain an employee benefit plan must file an annual return/report with the Internal Revenue Service. The following is a general discussion of the forms to be used for this purpose. See the instructions to each form for specific information:

Form 5500-EZ, Annual Return of One Participant (Owners and their Spouses) Pension Benefit Plans - generally for a "One-participant Plan', which is a plan that covers only:

1. an individual, or an individual and his or her spouse who wholly own a business whether incorporated or not; or
2. partner(s) in a partnership or the partner(s) and the partner's spouse.

If Form 5500-EZ cannot be used, the one-participant plan should use Form 5500-C/R, Return/Report of Employee Benefit Plan.

> **Note.** A "one-participant' plan that has no more than $100,000 in assets at the end of the plan year is not required to file a return. However, Form 5500-EZ must be filed for any subsequent year in which plan assets exceed $100,000. If two or more one-participant plans have more than $100,000 in assets, a separate Form 5500-EZ must be filed for each plan.

A "Final' Form 5500-EZ must be filed if the plan is terminated or if assets drop below $100,000 and you wish to stop filing Form 5500-EZ.

Form 5500, Annual Return/Report Of Employee Benefit Plan - for a pension benefit plan with 100 or more participants at the beginning of the plan year.

Form 5500-C/R, Return/Report of Employee Benefit Plan - for each pension benefit plan with more than one but fewer than 100 participants at the beginning of the plan year. Form 5500-C/R takes the place of separate Forms 5500-C and 5500-R. Filing only the first two pages of Form 5500-C/R constitutes the filing of Form 5500-R for plan years for which Form 5500-C is not filed.

> Note. Keogh (HR-10) plans having over $100,000 in assets are required to file an annual return even if the only participants are owner-employees. The term "owner-employee' includes a partner who owns more than 10% interest in either the capital or profits of the partnership. This applies to both defined contribution and defined benefit plans.

When to file. Forms 5500 and 5500-EZ must be filed annually. Form 5500-C must be filed for (i) the initial plan year, (ii) the year a final return/report would be filed, and (iii) at three-year intervals.

Form 5500-R pages 1 and 2 of Form 5500-C/R) must be filed in the years when 5500-C is not filed. However, 5500-C will be accepted in place of 5500-R.

Form 5330 for prohibited transactions - Transactions between a plan and someone having a relationship to the plan (disqualified person) are prohibited, unless specifically exempted from this requirement. A few examples are loans, sales and exchanges of property, leasing of property, furnishing goods or services, and use of plan assets by the disqualified person. Disqualified persons

who engage in a prohibited transaction for which there is no exception must file Form 5330 by the last day of the seventh month after the end of the tax year of the disqualified person.

Form 5330 for tax on nondeductible employer contributions to qualified plans - If contributions are made to this

plan in excess of the amount deductible, a tax is imposed upon the excess contribution. Form 5330 must be filed by the last day of the seventh month after the end of the employer's tax year.

Form 5330 for tax on excess contributions to cash or deferred arrangements or excess employee contributions or employer matching contributions - If a plan includes a cash or deferred arrangement (Code section 401(k)) or provides for employee contributions or employer matching contributions (Code section 401(m)), then excess contributions that would cause the plan to fail the actual deferral percentage or the actual contribution percentage test are subject to a tax unless the excess is eliminated within 2 1/2 months after the end of the plan year. Form 5330 must be filed by the due date of the employer's tax return for the plan year in which the tax was incurred.

Form 5330 for tax on reversions of plan assets - Under Code section 4980, a tax is payable on the amount of any employer reversion of plan assets. Form 5330 must be filed by the last day of the month following the month in which the reversion occurred.

Form 5310-A for certain transactions - Under Code section 6058(b), an actuarial statement is required at least 30 days before a merger, consolidation, or transfers (including spin-offs) of assets to another plan. This statement is required for all plans. However, penalties for non-filing will not apply to defined contribution plans for which:

1. The sum of the account balances in each plan equals the fair market value of all plan assets,
2. The assets of each plan are combined to form the assets of the plan as merged,
3. Immediately after a merger, the account balance of each participant is equal to the sum of the account balances of the participant immediately before the merger, and
4. The plans must not have an unamortized waiver or unallocated suspense account.

Penalties will also not apply if the assets transferred are less than three percent of the assets of the plan involved in the transfer (spin-off), and the transaction is not one of a series of two or more transfers (spin-off transactions) that are, in substance, one transaction.

The purpose of the above discussions is to illustrate some of the principal filing requirements that apply to pension plans. This listing is not an exclusive listing of all returns and schedules that must be filed.

Disclosure. The Internal Revenue Service will process the returns and provide the Department of Labor and the Pension Benefit Guaranty Corporation with the necessary information and copies of the returns on microfilm for disclosure purposes.

Abusive Roth IRA Transactions

December 31, 2003

Summary

Identifies specific transactions used to avoid Roth IRA contribution limitations, and substantially similar transactions, as listed transactions for purposes of § 1.6011-4(b)(2) of Income Tax Regulations and §§ 301.6111-2(b)(2) and 301.6112-1(b)(2) of Procedure and Administration Regulations.

Notice 2004-8

Part III - Administrative, Procedural and Miscellaneous

December 31, 2003

U.S. Treasury Notice

Abusive Roth IRA Transactions

Notice 2004-8

The Internal Revenue Service and the Treasury Department are aware of a type of transaction, described below, that taxpayers are using to avoid the limitations on contributions to Roth IRAs. This notice alerts taxpayers and their representatives that these transactions are tax avoidance transactions and identifies these transactions, as well as substantially similar transactions, as listed transactions for purposes of § 1.6011-4(b)(2) of the Income Tax Regulations and §§ 301.6111-2(b)(2) and 301.6112-1(b)(2) of the Procedure and Administration Regulations. This notice also alerts parties involved with these transactions of certain responsibilities that may arise from their involvement with these transactions.

Background

Section 408A was added to the Internal Revenue Code by section 302 of the Taxpayer Relief Act of 1997, Pub. L. 105-34, 105th Cong., 1st Sess. 40 (1997). This section created Roth IRAs as a new type of nondeductible individual retirement arrangement (IRA). The maximum annual contribution to Roth IRAs is the same maximum amount that would be allowable as a deduction under § 219 with respect to the individual for the taxable year over the aggregate amount of contributions for that taxable year to all other IRAs. Neither the contributions to a Roth IRA nor the earnings on those contributions are subject to tax on distribution, if distributed as a qualified distribution described in § 408A(d)(2).

A contribution to a Roth IRA above the statutory limits generates a 6 - percent excise tax described in § 4973. The excise tax is imposed each year until the excess contribution is eliminated.

Facts

In general, these transactions involve the following parties: (1) an individual (the Taxpayer) who owns a pre-existing business such as a corporation or a sole proprietorship (the Business), (2) a Roth IRA within the meaning of § 408A that is maintained for the Taxpayer, and (3) a corporation (the Roth IRA Corporation), substantially all the shares of which are owned or acquired by the Roth IRA. The Business and the Roth IRA Corporation enter into transactions as described below. The acquisition of shares, the transactions or both are not fairly valued and thus have the effect of shifting value into the Roth IRA.

Examples include transactions in which the Roth IRA Corporation acquires property, such as accounts receivable, from the Business for less than fair market value, contributions of property, including intangible property, by a person other than the Roth IRA, without a commensurate receipt of stock ownership, or any other arrangement between the Roth IRA Corporation and the Taxpayer, a related party described in § 267(b) or 707(b), or the Business that has the effect of transferring value to the Roth IRA Corporation comparable to a contribution to the Roth IRA.

Analysis

The transactions described in this notice have been designed to avoid the statutory limits on contributions to a Roth IRA contained in § 408A. Because the Taxpayer controls the Business and is the beneficial owner of substantially all of the Roth IRA Corporation, the Taxpayer is in the position to shift value from the Business to the Roth IRA Corporation. The Service intends to challenge the purported tax benefits claimed for these arrangements on a number of grounds.

In challenging the purported tax benefits, the Service will, in appropriate cases, assert that the substance of the transaction is that the amount of the value shifted from the Business to the Roth IRA Corporation is a payment to the Taxpayer, followed by a contribution by the Taxpayer to the Roth IRA and a contribution by the Roth IRA to the Roth IRA Corporation. In such cases, the Service will deny or reduce the deduction to the Business; may require the Business, if the Business is a corporation, to recognize gain on the transfer under § 311(b); and may require inclusion of the payment in the income of the Taxpayer (for example, as a taxable dividend if the Business is a C corporation). See Sammons v. United States, 433 F.2d 728 (5th Cir. 1970); Worcester v. Commissioner, 370 F.2d 713 (1st Cir. 1966).

Depending on the facts of the specific case, the Service may apply § 482 to allocate income from the Roth IRA Corporation to the Taxpayer, Business, or other entities under the control of the Taxpayer. Section 482 provides the Secretary with authority to allocate gross income, deductions, credits or allowances among persons owned or controlled directly or indirectly by the same interests, if such allocation is necessary to prevent evasion of taxes or clearly to reflect income. The § 482 regulations provide that the standard to be applied is that of a person dealing at arm's length with an uncontrolled person. See generally § 1.482-1(b) of the Income Tax Regulations. To the extent that the consideration paid or received in transactions between the Business and the Roth IRA Corporation is not in accordance with the arm's length standard, the Service may apply § 482 as necessary to prevent evasion of taxes or clearly to reflect income. In the event of a § 482 allocation between the Roth IRA Corporation and the Business or other parties, correlative allocations and

other conforming adjustments would be made pursuant to § 1.482-1(g). Also see, Rev. Rul. 78-83, 1978-1 C.B. 79.

In addition to any other tax consequences that may be present, the amount treated as a contribution as described above is subject to the excise tax described in § 4973 to the extent that it is an excess contribution within the meaning of § 4973(f). This is an annual tax that is imposed until the excess amount is eliminated.

Moreover, under § 408(e)(2)(A), the Service may take the position in appropriate cases that the transaction gives rise to one or more prohibited transactions between a Roth IRA and a disqualified person described in § 4975(e)(2). For example, the Department of Labor [1] has advised the Service that, to the extent that the Roth IRA Corporation constitutes a plan asset under the Department of Labor's plan asset regulation (29 C.F.R. § 2510.3-101), the provision of services by the Roth IRA Corporation to the Taxpayer's Business (which is a disqualified person with respect to the Roth IRA under § 4975(e)(2)) would constitute a prohibited transaction under § 4975(c)(1)(C). [2] Further, the Department of Labor has advised the Service that, if a transaction between a disqualified person and the Roth IRA would be a prohibited transaction, then a transaction between that disqualified person and the Roth IRA Corporation would be a prohibited transaction if the Roth IRA may, by itself, require the Roth IRA Corporation to enter into the transaction. [3]

Listed Transactions

The following transactions are identified as "listed transactions" for purposes of §§ 1.6011-4(b)(2), 301.6111-2(b)(2) and 301.6112-1(b)(2) effective December 31, 2003, the date this document is released to the public: arrangements in which an individual, related persons described in § 267(b) or 707(b), or a business controlled by such individual or related persons, engage in one or more transactions with a corporation, including contributions of property to such corporation, substantially all the shares of which are owned by one or more Roth IRAs maintained for the benefit of the individual, related persons described in § 267(b)(1), or both. The transactions are listed transactions with respect to the individuals for whom the Roth IRAs are maintained, the business (if not a sole proprietorship) that is a party to the transaction, and the corporation substantially all the shares of which are owned by the Roth IRAs. Independent of their classification as "listed transactions," these transactions may already be subject to the disclosure requirements of § 6011 (§ 1.6011-4), the tax shelter registration requirements of § 6111 (§§ 301.6111-1T and 301.6111-2), or the list maintenance requirements of § 6112 (§ 301.6112-1).

Substantially similar transactions include transactions that attempt to use a single structure with the intent of achieving the same or substantially same tax effect for multiple taxpayers. For example, if the Roth IRA Corporation is owned by multiple taxpayers' Roth IRAs, a substantially similar transaction occurs whenever that Roth IRA Corporation enters into a transaction with a business of any of the taxpayers if distributions from the Roth IRA Corporation are made to that taxpayer's Roth IRA based on the purported business transactions done with that taxpayer's business or otherwise based on the value shifted from that taxpayer's business to the Roth IRA Corporation.

Persons required to register these tax shelters under § 6111 who have failed to do so may be subject to the penalty under § 6707(a). Persons required to maintain lists of investors under § 6112 who have fail to do so (or who fail to provide such lists when requested by the Service) may be subject to the penalty under § 6708(a). In addition, the Service may impose penalties on participants in this transaction or substantially similar transactions, including the accuracy related penalty under § 6662, and as applicable, persons who participate in the reporting of this transaction or substantially similar transactions, including the return preparer penalty under § 6694, the promoter penalty under § 6700, and the aiding and abetting penalty under § 6701.

The Service and the Treasury recognize that some taxpayers may have filed tax returns taking the position that they were entitled to the purported tax benefits of the type of transaction described in this notice. These taxpayers should consult with a tax advisor to ensure that their transactions are disclosed properly and to take appropriate corrective action.

Drafting Information

The principal author of this notice is Michael Rubin of the Employee Plans, Tax Exempt and Government Entities Division. However, other personnel from the Service and Treasury participated in its development. Mr. Rubin may be reached at (202) 283-9888 (not a toll-free call).

[1] Under section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713), the Secretary of Labor has interpretive jurisdiction over § 4975 of the Internal Revenue Code.

[2] For the Roth IRA Corporation to be considered as holding plan assets under the Department of Labor's plan asset regulation, the Roth IRA's investment in the Roth IRA Corporation must be an equity interest, the Roth IRA Corporation's securities must not be publicly-offered securities, and the Roth IRA's investment in the Roth IRA Corporation must be significant. 29 C.F.R. §§ 2510.3-101(a)(2), 2510.3-101(b)(1), 2510.3-101(b)(2), and 2510.3-101(f). Although the Roth IRA Corporation would not be treated as holding plan assets if the Roth IRA Corporation constituted an operating company within the meaning of 29 C.F.R. § 2510.3-101(c), given the context of the examples described in this notice, it is unlikely that the Roth IRA Corporation would qualify as an operating company.

TITLE I--REFORM OF FUNDING RULES FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS

Subtitle A--Amendments to Employee Retirement Income Security Act of 1974

SEC. 101. MINIMUM FUNDING STANDARDS.

(a) Repeal of Existing Funding Rules.--Sections 302 through 308 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1082 through 1086) are repealed.

(b) New Minimum Funding Standards.--Part 3 of subtitle B of title I of such Act (as amended by subsection (a)) is amended by inserting after section 301 the following new section:

``SEC. 302. MINIMUM FUNDING STANDARDS.

``(a) Requirement To Meet Minimum Funding Standard.--

``(1) In general.--A plan to which this part applies shall satisfy the minimum funding standard applicable to the plan for any plan year.

``(2) Minimum funding standard.--For purposes of paragraph (1), a plan shall be treated as satisfying the minimum funding standard for a plan year if--

``(A) in the case of a defined benefit plan which is a single-employer plan, the employer makes contributions to or under the plan for the plan year which, in the aggregate, are not less than the minimum required contribution determined under section 303 for the plan for the plan year,

``(B) in the case of a money purchase plan which is a single-employer plan, the employer makes contributions to or under the plan for the plan year which are required under the terms of the plan, and

``(C) in the case of a multiemployer plan, the employers make contributions to or under the plan for any plan year which, in the aggregate, are sufficient to ensure that the plan does not have an accumulated funding deficiency under section 304 as of the end of the plan year.

``(b) Liability for Contributions.--

``(1) In general.--Except as provided in paragraph (2), the amount of any contribution required by this section (including any required installments under paragraphs (3) and (4) of section 303(j)) shall be paid by the employer responsible for making contributions to or under the plan.

``(2) Joint and several liability where employer member of controlled group.--If the employer referred to in paragraph (1) is a member of a controlled group, each member of such group shall be jointly and severally liable for payment of such contributions.

``(c) Variance From Minimum Funding Standards.--

``(1) Waiver in case of business hardship.--

``(A) In general.--If--

``(i) an employer is (or in the case of a multiemployer plan, 10 percent or more of the number of employers contributing to or under the plan is) unable to satisfy the minimum funding standard for a plan year without temporary substantial business hardship (substantial business hardship in the case of a multiemployer plan), and

``(ii) application of the standard would be adverse to the interests of plan participants in the aggregate,

the Secretary of the Treasury may, subject to subparagraph (C), waive the requirements of subsection (a) for such year with respect to all or any portion of the minimum funding standard. The Secretary of the Treasury shall not waive the minimum funding standard with respect to a plan for more than 3 of any 15 (5 of any 15 in the case of a multiemployer plan) consecutive plan years.

``(B) Effects of waiver.--If a waiver is granted under subparagraph (A) for any plan year--

``(i) in the case of a single-employer plan, the minimum required contribution under section 303 for the plan year shall be reduced by the amount of the waived funding deficiency and such amount shall be amortized as required under section 303(e), and

``(ii) in the case of a multiemployer plan, the funding standard account shall be credited under section 304(b)(3)(C) with the amount of the waived funding deficiency and such amount shall be amortized as required under section 304(b)(2)(C).

``(C) Waiver of amortized portion not allowed.--The Secretary of the Treasury may not waive under subparagraph (A) any portion of the minimum funding standard under subsection (a) for a plan year which is attributable to any waived funding deficiency for any preceding plan year.

``(2) Determination of business hardship.--For purposes of this subsection, the factors taken into account in determining temporary substantial business hardship (substantial business hardship in the case of a multiemployer plan) shall include (but shall not be limited to) whether or not--

``(A) the employer is operating at an economic loss,

``(B) there is substantial unemployment or underemployment in the trade or business and in the industry concerned,

``(C) the sales and profits of the industry concerned are depressed or declining, and

``(D) it is reasonable to expect that the plan will be continued only if the waiver is granted.

``(3) Waived funding deficiency.--For purposes of this part, the term `waived funding deficiency' means the portion of the minimum funding standard under subsection (a) (determined without regard to the waiver) for a plan year waived by the Secretary of the Treasury and not satisfied by employer contributions.

``(4) Security for waivers for single-employer plans, consultations.--

``(A) Security may be required.--

``(i) In general.--Except as provided in subparagraph (C), the Secretary of the Treasury may require an employer maintaining a defined benefit plan which is a single-employer plan (within the meaning of section 4001(a)(15)) to provide security to such plan as a condition for granting or modifying a waiver under paragraph (1).

``(ii) Special rules.--Any security provided under clause (i) may be perfected and enforced only by the Pension Benefit Guaranty Corporation, or at the direction of the Corporation, by a contributing sponsor (within the meaning of section 4001(a)(13)), or a member of such

sponsor's controlled group (within the meaning of
section 4001(a)(14)).
``(B) Consultation with the pension benefit guaranty
corporation.--Except as provided in subparagraph (C),
the Secretary of the Treasury shall, before granting or
modifying a waiver under this subsection with respect to
a plan described in subparagraph (A)(i)--
``(i) provide the Pension Benefit Guaranty
Corporation with--
``(I) notice of
the completed application for any waiver
or modification, and
``(II) an
opportunity to comment on such
application within 30 days after receipt
of such notice, and
``(ii) consider--
``(I) any comments of the
Corporation under clause (i)(II), and
``(II) any views of any employee
organization (within the meaning of
section 3(4)) representing participants
in the plan which are submitted in
writing to the Secretary of the Treasury
in connection with such application.
Information provided to the Corporation under this
subparagraph shall be considered tax return information
and subject to the safeguarding and reporting
requirements of section 6103(p) of the Internal Revenue
Code of 1986.
``(C) Exception for certain waivers.--
``(i) In general.--The preceding provisions of
this paragraph shall not apply to any plan with
respect to which the sum of--
``(I) the aggregate unpaid minimum
required contributions for the plan year
and all preceding plan years, and
``(II) the present value of all
waiver amortization installments
determined for the plan year and
succeeding plan years under section
303(e)(2),
is less than $1,000,000.
``(ii) Treatment of waivers for which
applications are pending.--The amount described in
clause (i)(I) shall include any increase in such
amount which would result if all applications for
waivers of the minimum funding standard under this
subsection which are pending with respect to such
plan were denied.
``(iii) Unpaid minimum required
contribution.--For purposes of this subparagraph--
``(I) In general.--The term `unpaid
minimum required contribution' means,
with respect to any plan year, any
minimum required contribution under
section 303 for the plan year which is
not paid on or before the due date (as
determined under section 303(j)(1)) for
the plan year.
``(II) Ordering rule.--For purposes
of subclause (I), any payment to or
under a plan for any plan year shall be
allocated first to unpaid minimum
required contributions for all preceding
plan years on a first-in, first-out
basis and then to the minimum required
contribution under section 303 for the
plan year.
``(5) Special rules for single-employer plans.--
``(A) Application must be submitted before date 2\1/
2\ months after close of year.--
In the case of a single-employer
plan, no waiver may be granted under this subsection
with respect to any plan for any plan year unless an
application therefor is submitted to the Secretary of
the Treasury not later than the 15th day of the 3rd
month beginning after the close of such plan year.
``(B) Special rule if employer is member of
controlled group.--In the case of a single-employer
plan, if an employer is a member of a controlled group,
the temporary substantial business hardship requirements

of paragraph (1) shall be treated as met only if such requirements are met--

``(i) with respect to such employer, and

``(ii) with respect to the controlled group of which such employer is a member (determined by treating all members of such group as a single employer).

The Secretary of the Treasury may provide that an analysis of a trade or business or industry of a member need not be conducted if such Secretary determines such analysis is not necessary because the taking into account of such member would not significantly affect the determination under this paragraph.

``(6) Advance notice.--

``(A) In general.--The Secretary of the Treasury shall, before granting a waiver under this subsection, require each applicant to provide evidence satisfactory to such Secretary that the applicant has provided notice of the filing of the application for such waiver to each affected party (as defined in section 4001(a)(21)). Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV and for benefit liabilities.

``(B) Consideration of relevant information.--The Secretary of the Treasury shall consider any relevant information provided by a person to whom notice was given under subparagraph (A).

``(7) Restriction on plan amendments.--

``(A) In general.--No amendment of a plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan shall be adopted if a waiver under this subsection or an extension of time under section 304(d) is in effect with respect to the plan, or if a plan amendment described in subsection (d)(2) has been made at any time in the preceding 12 months (24 months in the case of a multiemployer plan). If a plan is amended in violation of the preceding sentence, any such waiver, or extension of time, shall not apply to any plan year ending on or after the date on which such amendment is adopted.

``(B) Exception.--Subparagraph (A) shall not apply to any plan amendment which--

``(i) the Secretary of the Treasury determines to be reasonable and which provides for only de minimis increases in the liabilities of the plan,

``(ii) only repeals an amendment described in subsection (d)(2), or

``(iii) is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986.

``(8) Cross reference.--For corresponding duties of the Secretary of the Treasury with regard to implementation of the Internal Revenue Code of 1986, see section 412(c) of such Code.

``(d) Miscellaneous Rules.--

``(1) Change in method or year.--If the funding method, the valuation date, or a plan year for a plan is changed, the change shall take effect only if approved by the Secretary of the Treasury.

``(2) Certain retroactive plan amendments.--For purposes of this section, any amendment applying to a plan year which--

``(A) is adopted after the close of such plan year but no later than 2\1/2\ months after the close of the plan year (or, in the case of a multiemployer plan, no later than 2 years after the close of such plan year),

``(B) does not reduce the accrued benefit of any participant determined as of the beginning of the first plan year to which the amendment applies, and

``(C) does not reduce the accrued benefit of any participant determined as of the time of adoption except to the extent required by the circumstances,

shall, at the election of the plan administrator, be deemed to have been made on the first day of such plan year. No amendment described in this paragraph which reduces the accrued benefits of any participant shall take effect unless the plan administrator files a notice with the Secretary of the Treasury notifying him of such amendment and such Secretary has approved such amendment, or within 90 days after the date on which such notice was filed, failed to disapprove such amendment. No amendment described in this subsection shall be approved by the

Secretary of the Treasury unless such Secretary determines that such amendment is necessary because of a temporary substantial business hardship (as determined under subsection (c)(2)) or a substantial business hardship (as so determined) in the case of a multiemployer plan and that a waiver under subsection (c) (or, in the case of a multiemployer plan, any extension of the amortization period under section 304(d)) is unavailable or inadequate.

``(3) Controlled group.--For purposes of this section, the term `controlled group' means any group treated as a single employer under subsection (b), (c), (m), or (o) of section 414 of the Internal Revenue Code of 1986.''.

(c) Clerical Amendment.--The table of contents in section 1 of such Act is amended by striking the items relating to sections 302 through 308 and inserting the following new item:

``Sec. 302. Minimum funding standards.''.

(d) Effective Date.--The amendments made by this section shall apply to plan years beginning after 2007.

(a) In General.--Part 3 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 (as amended by section 101 of this Act) is amended by inserting after section 302 the following new section:

``SEC. 303. MINIMUM FUNDING STANDARDS FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS.

``(a) Minimum Required Contribution.--For purposes of this section and section 302(a)(2)(A), except as provided in subsection (f), the term `minimum required contribution' means, with respect to any plan year of a single-employer plan--

``(1) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) is less than the funding target of the plan for the plan year, the sum of--

``(A) the target normal cost of the plan for the plan year,

``(B) the shortfall amortization charge (if any) for the plan for the plan year determined under subsection (c), and

``(C) the waiver amortization charge (if any) for the plan for the plan year as determined under subsection (e); or

``(2) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) equals or exceeds the funding target of the plan for the plan year, the target normal cost of the plan for the plan year reduced (but not below zero) by such excess.

``(b) Target Normal Cost.--For purposes of this section, except as provided in subsection (i)(2) with respect to plans in at-risk status, the term `target normal cost' means, for any plan year, the present value of all benefits which are expected to accrue or to be earned under the plan during the plan year. For purposes of this subsection, if any benefit attributable to services performed in a preceding plan year is increased by reason of any increase in compensation during the current plan year, the increase in such benefit shall be treated as having accrued during the current plan year.

``(c) Shortfall Amortization Charge.--

``(1) In general.--For purposes of this section, the shortfall amortization charge for a plan for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to the shortfall amortization bases for such plan year and each of the 6 preceding plan years.

``(2) Shortfall amortization installment.--For purposes of paragraph (1)--

``(A) Determination.--The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7-plan-year period beginning with such plan year.

``(B) Shortfall installment.--The shortfall amortization installment for any plan year in the 7-plan-year period under subparagraph (A) with respect to any shortfall amortization base is the annual installment determined under subparagraph (A) for that year for that base.

``(C) Segment rates.--In determining any shortfall amortization installment under this paragraph, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).

``(3) Shortfall amortization base.--For purposes of this

section, the shortfall amortization base of a plan for a plan year is--
``(A) the funding shortfall of such plan for such plan year, minus
``(B) the present value (determined using the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2)) of the aggregate total of the shortfall amortization installments and waiver amortization installments which have been determined for such plan year and any succeeding plan year with respect to the shortfall amortization bases and waiver amortization bases of the plan for any plan year preceding such plan year.
``(4) Funding shortfall.--For purposes of this section, the funding shortfall of a plan for any plan year is the excess (if any) of--
``(A) the funding target of the plan for the plan year, over
``(B) the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) for the plan year which are held by the plan on the valuation date.
``(5) Exemption from new shortfall amortization base.--
``(A) In general.--In any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(A)) is equal to or greater than the funding target of the plan for the plan year, the shortfall amortization base of the plan for such plan year shall be zero.
``(B) Transition rule.--
``(i) In general.--Except as provided in clauses (iii) and (iv), in the case of plan years beginning after 2007 and before 2011, only the applicable percentage of the funding target shall be taken into account under paragraph (3)(A) in determining the funding shortfall for the plan year for purposes of subparagraph (A).
``(ii) Applicable percentage.--For purposes of subparagraph (A), the applicable percentage shall be determined in accordance with the following table:

``In the case of a plan year beginning in calendar year:	The applicable percentage is:
2008	92
2009	94
2010	96.

``(iii) Limitation.--Clause (i) shall not apply with respect to any plan year after 2008 unless the shortfall amortization base for each of the preceding years beginning after 2007 was zero (determined after application of this subparagraph).
``(iv) Transition relief not available for new or deficit reduction plans.--Clause (i) shall not apply to a plan--
``(I) which was not in effect for a plan year beginning in 2007, or
``(II) which was in effect for a plan year beginning in 2007 and which was subject to section 302(d) (as in effect for plan years beginning in 2007), determined after the application of paragraphs (6) and (9) thereof.
``(6) Early deemed amortization upon attainment of funding target.--In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the shortfall amortization charge for such plan year and succeeding plan years, the shortfall amortization bases for all preceding plan years (and all shortfall amortization installments determined with respect to such bases) shall be reduced to zero.
``(d) Rules Relating to Funding Target.--For purposes of this section--
``(1) Funding target.--Except as provided in subsection (i)(1) with respect to plans in at-risk status, the funding target of a plan for a plan year is the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.
``(2) Funding target attainment percentage.--The `funding target attainment percentage' of a plan for a plan year is the ratio (expressed as a percentage) which--

``(A) the value of plan assets for the plan year (as reduced under subsection (f)(4)(B)), bears to
``(B) the funding target of the plan for the plan year (determined without regard to subsection (i)(1)).
``(e) Waiver Amortization Charge.--
``(1) Determination of waiver amortization charge.--The waiver amortization charge (if any) for a plan for any plan year is the aggregate total of the waiver amortization installments for such plan year with respect to the waiver amortization bases for each of the 5 preceding plan years.
``(2) Waiver amortization installment.--For purposes of paragraph (1)--
``(A) Determination.--The waiver amortization installments are the amounts necessary to amortize the waiver amortization base of the plan for any plan year in level annual installments over a period of 5 plan years beginning with the succeeding plan year.
``(B) Waiver installment.--The waiver amortization installment for any plan year in the 5-year period under subparagraph (A) with respect to any waiver amortization base is the annual installment determined under subparagraph (A) for that year for that base.
``(3) Interest rate.--In determining any waiver amortization installment under this subsection, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).
``(4) Waiver amortization base.--The waiver amortization base of a plan for a plan year is the amount of the waived funding deficiency (if any) for such plan year under section 302(c).
``(5) Early deemed amortization upon attainment of funding target.--In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the waiver amortization charge for such plan year and succeeding plan years, the waiver amortization bases for all preceding plan years (and all waiver amortization installments determined with respect to such bases) shall be reduced to zero.
``(f) Reduction of Minimum Required Contribution by Prefunding Balance and Funding Standard Carryover Balance.--
``(1) Election to maintain balances.--
``(A) Prefunding balance.--The plan sponsor of a single-employer plan may elect to maintain a prefunding balance.
``(B) Funding standard carryover balance.--
``(i) In general.--In the case of a single-employer plan described in clause (ii), the plan sponsor may elect to maintain a funding standard carryover balance, until such balance is reduced to zero.
``(ii) Plans maintaining funding standard account in 2007.--A plan is described in this clause if the plan--
``(I) was in effect for a plan year beginning in 2007, and
``(II) had a positive balance in the funding standard account under section 302(b) as in effect for such plan year and determined as of the end of such plan year.
``(2) Application of balances.--A prefunding balance and a funding standard carryover balance maintained pursuant to this paragraph--
``(A) shall be available for crediting against the minimum required contribution, pursuant to an election under paragraph (3),
``(B) shall be applied as a reduction in the amount treated as the value of plan assets for purposes of this section, to the extent provided in paragraph (4), and
``(C) may be reduced at any time, pursuant to an election under paragraph (5).
``(3) Election to apply balances against minimum required contribution.--
``(A) In general.--Except as provided in subparagraphs (B) and (C), in the case of any plan year in which the plan sponsor elects to credit against the minimum required contribution for the current plan year all or a portion of the prefunding balance or the funding standard carryover balance for the current plan year (not in excess of such minimum required contribution), the minimum required contribution for the plan year shall be reduced as of the first day of the

plan year by the amount so credited by the plan sponsor. For purposes of the preceding sentence, the minimum required contribution shall be determined after taking into account any waiver under section 302(c).

``(B) Coordination with funding standard carryover balance.--To the extent that any plan has a funding standard carryover balance greater than zero, no amount of the prefunding balance of such plan may be credited under this paragraph in reducing the minimum required contribution.

``(C) Limitation for underfunded plans.--The preceding provisions of this paragraph shall not apply for any plan year if the ratio (expressed as a percentage) which--

``(i) the value of plan assets for the preceding plan year (as reduced under paragraph (4)(C)), bears to

``(ii) the funding target of the plan for the preceding plan year (determined without regard to subsection (i)(1)),

is less than 80 percent. In the case of plan years beginning in 2008, the ratio under this subparagraph may be determined using such methods of estimation as the Secretary of the Treasury may prescribe.

``(4) Effect of balances on amounts treated as value of plan assets.--In the case of any plan maintaining a prefunding balance or a funding standard carryover balance pursuant to this subsection, the amount treated as the value of plan assets shall be deemed to be such amount, reduced as provided in the following subparagraphs:

``(A) Applicability of shortfall amortization base.--For purposes of subsection (c)(5), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance, but only if an election under paragraph (2) applying any portion of the prefunding balance in reducing the minimum required contribution is in effect for the plan year.

``(B) Determination of excess assets, funding shortfall, and funding target attainment percentage.--

``(i) In general.--For purposes of subsections (a), (c)(4)(B), and (d)(2)(A), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance and the funding standard carryover balance.

``(ii) Special rule for certain binding agreements with pbgc.--For purposes of subsection (c)(4)(B), the value of plan assets shall not be deemed to be reduced for a plan year by the amount of the specified balance if, with respect to such balance, there is in effect for a plan year a binding written agreement with the Pension Benefit Guaranty Corporation which provides that such balance is not available to reduce the minimum required contribution for the plan year. For purposes of the preceding sentence, the term `specified balance' means the prefunding balance or the funding standard carryover balance, as the case may be.

``(C) Availability of balances in plan year for crediting against minimum required contribution.--For purposes of paragraph (3)(C)(i) of this subsection, the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance.

``(5) Election to reduce balance prior to determinations of value of plan assets and crediting against minimum required contribution.--

``(A) In general.--The plan sponsor may elect to reduce by any amount the balance of the prefunding balance and the funding standard carryover balance for any plan year (but not below zero). Such reduction shall be effective prior to any determination of the value of plan assets for such plan year under this section and application of the balance in reducing the minimum required contribution for such plan for such plan year pursuant to an election under paragraph (2).

``(B) Coordination between prefunding balance and funding standard carryover balance.--To the extent that any plan has a funding standard carryover balance greater than zero, no election may be made under subparagraph (A) with respect to the prefunding balance.

``(6) Prefunding balance.--

``(A) In general.--A prefunding balance maintained

by a plan shall consist of a beginning balance of zero, increased and decreased to the extent provided in subparagraphs (B) and (C), and adjusted further as provided in paragraph (8).

``(B) Increases.--

``(i) In general.--As of the first day of each plan year beginning after 2008, the prefunding balance of a plan shall be increased by the amount elected by the plan sponsor for the plan year. Such amount shall not exceed the excess (if any) of--

``(I) the aggregate total of employer contributions to the plan for the preceding plan year, over--

``(II) the minimum required contribution for such preceding plan year.

``(ii) Adjustments for interest.--Any excess contributions under clause (i) shall be properly adjusted for interest accruing for the periods between the first day of the current plan year and the dates on which the excess contributions were made, determined by using the effective interest rate for the preceding plan year and by treating contributions as being first used to satisfy the minimum required contribution.

``(iii) Certain contributions necessary to avoid benefit limitations disregarded.--The excess described in clause (i) with respect to any preceding plan year shall be reduced (but not below zero) by the amount of contributions an employer would be required to make under paragraph (1), (2), or (4) of section 206(g) to avoid a benefit limitation which would otherwise be imposed under such paragraph for the preceding plan year. Any contribution which may be taken into account in satisfying the requirements of more than 1 of such paragraphs shall be taken into account only once for purposes of this clause.

``(C) Decrease.--The prefunding balance of a plan shall be decreased (but not below zero) by--

``(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and

``(ii) as of the time specified in paragraph (5)(A), any reduction in such balance elected under paragraph (5).

``(7) Funding standard carryover balance.--

``(A) In general.--A funding standard carryover balance maintained by a plan shall consist of a beginning balance determined under subparagraph (B), decreased to the extent provided in subparagraph (C), and adjusted further as provided in paragraph (8).

``(B) Beginning balance.--The beginning balance of the funding standard carryover balance shall be the positive balance described in paragraph (1)(B)(ii)(II).

``(C) Decreases.--The funding standard carryover balance of a plan shall be decreased (but not below zero) by--

``(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and

``(ii) as of the time specified in paragraph (5)(A), any reduction in such balance elected under paragraph (5).

``(8) Adjustments for investment experience.--In determining the prefunding balance or the funding standard carryover balance of a plan as of the first day of the plan year, the plan sponsor shall, in accordance with regulations prescribed by the Secretary of the Treasury, adjust such balance to reflect the rate of return on plan assets for the preceding plan year. Notwithstanding subsection (g)(3), such rate of return shall be determined on the basis of fair market value and shall properly take into account, in accordance with such regulations, all contributions, distributions, and other plan payments made during such period.

``(9) Elections.--Elections under this subsection shall be made at such times, and in such form

and manner, as shall be prescribed in regulations of the Secretary of the Treasury.

``(g) Valuation of Plan Assets and Liabilities.--

``(1) Timing of determinations.--Except as otherwise provided under this subsection, all determinations under this section for a plan year shall be made as of the valuation date of the plan for such plan year.

``(2) Valuation date.--For purposes of this section--

``(A) In general.--Except as provided in subparagraph (B), the valuation date of a plan for any plan year shall be the first day of the plan year.

``(B) Exception for small plans.--If, on each day during the preceding plan year, a plan had 100 or fewer participants, the plan may designate any day during the plan year as its valuation date for such plan year and succeeding plan years. For purposes of this subparagraph, all defined benefit plans which are single-employer plans and are maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account.

``(C) Application of certain rules in determination of plan size.--For purposes of this paragraph--

``(i) Plans not in existence in preceding year.--In the case of the first plan year of any plan, subparagraph (B) shall apply to such plan by taking into account the number of participants that the plan is reasonably expected to have on days during such first plan year.

``(ii) Predecessors.--Any reference in subparagraph (B) to an employer shall include a reference to any predecessor of such employer.

``(3) Determination of value of plan assets.--For purposes of this section--

``(A) In general.--Except as provided in subparagraph (B), the value of plan assets shall be the fair market value of the assets.

``(B) Averaging allowed.--A plan may determine the value of plan assets on the basis of the averaging of fair market values, but only if such method--

``(i) is permitted under regulations prescribed by the Secretary of the Treasury,

``(ii) does not provide for averaging of such values over more than the period beginning on the last day of the 25th month preceding the month in which the valuation date occurs and ending on the valuation date (or a similar period in the case of a valuation date which is not the 1st day of a month), and

``(iii) does not result in a determination of the value of plan assets which, at any time, is lower than 90 percent or greater than 110 percent of the fair market value of such assets at such time.

Any such averaging shall be adjusted for contributions and distributions (as provided by the Secretary of the Treasury).

``(4) Accounting for contribution receipts.--For purposes of determining the value of assets under paragraph (3)--

``(A) Prior year contributions.--If--

``(i) an employer makes any contribution to the plan after the valuation date for the plan year in which the contribution is made, and

``(ii) the contribution is for a preceding plan year,

the contribution shall be taken into account as an asset of the plan as of the valuation date, except that in the case of any plan year beginning after 2008, only the present value (determined as of the valuation date) of such contribution may be taken into account. For purposes of the preceding sentence, present value shall be determined using the effective interest rate for the preceding plan year to which the contribution is properly allocable.

``(B) Special rule for current year contributions made before valuation date.--If any contributions for any plan year are made to or under the plan during the plan year but before the valuation date for the plan year, the assets of the plan as of the valuation date shall not include--

``(i) such contributions, and

``(ii) interest on such contributions for the period between the date of the contributions and the valuation date, determined by using the effective interest rate for the plan year.

``(h) Actuarial Assumptions and Methods.--

``(1) In general.--Subject to this subsection, the determination of any present value or other computation under this section shall be made on the basis of actuarial assumptions and methods--

``(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and

``(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

``(2) Interest rates.--

``(A) Effective interest rate.--For purposes of this section, the term `effective interest rate' means, with respect to any plan for any plan year, the single rate of interest which, if used to determine the present value of the plan's accrued or earned benefits referred to in subsection (d)(1), would result in an amount equal to the funding target of the plan for such plan year.

``(B) Interest rates for determining funding target.--For purposes of determining the funding target and normal cost of a plan for any plan year, the interest rate used in determining the present value of the benefits of the plan shall be--

``(i) in the case of benefits reasonably determined to be payable during the 5-year period beginning on the first day of the plan year, the first segment rate with respect to the applicable month,

``(ii) in the case of benefits reasonably determined to be payable during the 15-year period beginning at the end of the period described in clause (i), the second segment rate with respect to the applicable month, and

``(iii) in the case of benefits reasonably determined to be payable after the period described in clause (ii), the third segment rate with respect to the applicable month.

``(C) Segment rates.--For purposes of this paragraph--

``(i) First segment rate.--The term `first segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary of the Treasury for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 5-year period commencing with such month.

``(ii) Second segment rate.--The term `second segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary of the Treasury for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 15-year period beginning at the end of the period described in clause (i).

``(iii) Third segment rate.--The term `third segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary of the Treasury for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during periods beginning after the period described in clause (ii).

``(D) Corporate bond yield curve.--For purposes of this paragraph--

``(i) In general.--The term `corporate bond yield curve' means, with respect to any month, a yield curve which is prescribed by the Secretary of the Treasury for such month and which reflects the average, for the 24-month period ending with the month preceding such month, of monthly yields on investment grade corporate bonds with varying maturities and that are in the top 3 quality levels available.

``(ii) Election to use yield curve.--Solely for purposes of determining the minimum required contribution under this section, the plan sponsor may, in lieu of the segment rates determined under subparagraph (C), elect to use interest rates under the corporate bond yield curve. For purposes of the preceding sentence such curve shall be determined without regard to the 24-month averaging described in clause (i). Such election, once made, may be revoked only with the consent of the Secretary of the Treasury.

``(E) Applicable month.--For purposes of this paragraph, the term `applicable month' means, with respect to any plan for any plan year, the month which includes the valuation date of such plan for such plan year or, at the election of the plan sponsor, any of the 4 months which precede such month. Any election made under this subparagraph shall apply to the plan year for which the election is made and all succeeding plan years, unless the election is revoked with the consent of the Secretary of the Treasury.

``(F) Publication requirements.--The Secretary of the Treasury shall publish for each month the corporate bond yield curve (and the corporate bond yield curve reflecting the modification described in section 205(g)(3)(B)(iii)(I)) for such month and each of the rates determined under subparagraph (B) for such month. The Secretary of the Treasury shall also publish a description of the methodology used to determine such yield curve and such rates which is sufficiently detailed to enable plans to make reasonable projections regarding the yield curve and such rates for future months based on the plan's projection of future interest rates.

``(G) Transition rule.--

``(i) In general.--Notwithstanding the preceding provisions of this paragraph, for plan years beginning in 2008 or 2009, the first, second, or third segment rate for a plan with respect to any month shall be equal to the sum of--

``(I) the product of such rate for such month determined without regard to this subparagraph, multiplied by the applicable percentage, and

``(II) the product of the rate determined under the rules of section 302(b)(5)(B)(ii)(II) (as in effect for plan years beginning in 2007), multiplied by a percentage equal to 100 percent minus the applicable percentage.

``(ii) Applicable percentage.--For purposes of clause (i), the applicable percentage is 33\1/3\ percent for plan years beginning in 2008 and 66\2/3\ percent for plan years beginning in 2009.

``(iii) New plans ineligible.--Clause (i) shall not apply to any plan if the first plan year of the plan begins after December 31, 2007.

``(iv) Election.--The plan sponsor may elect not to have this subparagraph apply. Such election, once made, may be revoked only with the consent of the Secretary of the Treasury.

``(3) Mortality tables.--

``(A) In general.--Except as provided in subparagraph (C) or (D), the Secretary of the Treasury shall by regulation prescribe mortality tables to be used in determining any present value or making any computation under this section. Such tables shall be based on the actual experience of pension plans and projected trends in such experience. In prescribing such tables, the Secretary of the Treasury shall take into account results of available independent studies of mortality of individuals covered by pension plans.

``(B) Periodic revision.--The Secretary of the Treasury shall (at least every 10 years) make revisions in any table in effect under subparagraph (A) to reflect the actual experience of pension plans and projected trends in such experience.

``(C) Substitute mortality table.--

``(i) In general.--Upon request by the plan sponsor and approval by the Secretary of the Treasury, a mortality table which meets the

requirements of clause (iii) shall be used in determining any present value or making any computation under this section during the period of consecutive plan years (not to exceed 10) specified in the request.

``(ii) Early termination of period.--Notwithstanding clause (i), a mortality table described in clause (i) shall cease to be in effect as of the earliest of--

``(I) the date on which there is a significant change in the participants in the plan by reason of a plan spinoff or merger or otherwise, or

``(II) the date on which the plan actuary determines that such table does not meet the requirements of clause (iii).

``(iii) Requirements.--A mortality table meets the requirements of this clause if--

``(I) there is a sufficient number of plan participants, and the pension plans have been maintained for a sufficient period of time, to have credible information necessary for purposes of subclause (II), and

``(II) such table reflects the actual experience of the pension plans maintained by the sponsor and projected trends in general mortality experience.

``(iv) All plans in controlled group must use separate table.--Except as provided by the Secretary of the Treasury, a plan sponsor may not use a mortality table under this subparagraph for any plan maintained by the plan sponsor unless--

``(I) a separate mortality table is established and used under this subparagraph for each other plan maintained by the plan sponsor and if the plan sponsor is a member of a controlled group, each member of the controlled group, and

``(II) the requirements of clause (iii) are met separately with respect to the table so established for each such plan, determined by only taking into account the participants of such plan, the time such plan has been in existence, and the actual experience of such plan.

``(v) Deadline for submission and disposition of application.--

``(I) Submission.--The plan sponsor shall submit a mortality table to the Secretary of the Treasury for approval under this subparagraph at least 7 months before the 1st day of the period described in clause (i).

``(II) Disposition.--Any mortality table submitted to the Secretary of the Treasury for approval under this subparagraph shall be treated as in effect as of the 1st day of the period described in clause (i) unless the Secretary of the Treasury, during the 180-day period beginning on the date of such submission, disapproves of such table and provides the reasons that such table fails to meet the requirements of clause (iii). The 180-day period shall be extended upon mutual agreement of the Secretary of the Treasury and the plan sponsor.

``(D) Separate mortality tables for the disabled.--Notwithstanding subparagraph (A)--

``(i) In general.--The Secretary of the Treasury shall establish mortality tables which may be used (in lieu of the tables under subparagraph (A)) under this subsection for individuals who are entitled to benefits under the plan on account of disability. The Secretary of the Treasury shall establish separate tables for individuals whose disabilities occur in plan years

beginning before January 1, 1995, and for individuals whose disabilities occur in plan years beginning on or after such date.

``(ii) Special rule for disabilities occurring after 1994.--In the case of disabilities occurring in plan years beginning after December 31, 1994, the tables under clause (i) shall apply only with respect to individuals described in such subclause who are disabled within the meaning of title II of the Social Security Act and the regulations thereunder.

``(iii) Periodic revision.--The Secretary of the Treasury shall (at least every 10 years) make revisions in any table in effect under clause (i) to reflect the actual experience of pension plans and projected trends in such experience.

``(4) Probability of benefit payments in the form of lump sums or other optional forms.--For purposes of determining any present value or making any computation under this section, there shall be taken into account--

``(A) the probability that future benefit payments under the plan will be made in the form of optional forms of benefits provided under the plan (including lump sum distributions, determined on the basis of the plan's experience and other related assumptions), and

``(B) any difference in the present value of such future benefit payments resulting from the use of actuarial assumptions, in determining benefit payments in any such optional form of benefits, which are different from those specified in this subsection.

``(5) Approval of large changes in actuarial assumptions.--

``(A) In general.--No actuarial assumption used to determine the funding target for a plan to which this paragraph applies may be changed without the approval of the Secretary of the Treasury.

``(B) Plans to which paragraph applies.--This paragraph shall apply to a plan only if--

``(i) the plan is a single-employer plan to which title IV applies,

``(ii) the aggregate unfunded vested benefits as of the close of the preceding plan year (as determined under section 4006(a)(3)(E)(iii)) of such plan and all other plans maintained by the contributing sponsors (as defined in section 4001(a)(13)) and members of such sponsors' controlled groups (as defined in section 4001(a)(14)) which are covered by title IV (disregarding plans with no unfunded vested benefits) exceed $50,000,000, and

``(iii) the change in assumptions (determined after taking into account any changes in interest rate and mortality table) results in a decrease in the funding shortfall of the plan for the current plan year that exceeds $50,000,000, or that exceeds $5,000,000 and that is 5 percent or more of the funding target of the plan before such change.

``(i) Special Rules for At-Risk Plans.--

``(1) Funding target for plans in at-risk status.--

``(A) In general.--In the case of a plan which is in at-risk status for a plan year, the funding target of the plan for the plan year shall be equal to the sum of--

``(i) the present value of all benefits accrued or earned under the plan as of the beginning of the plan year, as determined by using the additional actuarial assumptions described in subparagraph (B), and

``(ii) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor determined under subparagraph (C).

``(B) Additional actuarial assumptions.--The actuarial assumptions described in this subparagraph are as follows:

``(i) All employees who are not otherwise assumed to retire as of the valuation date but who will be eligible to elect benefits during the plan year and the 10 succeeding plan years shall be assumed to retire at the earliest retirement date

under the plan but not before the end of the plan year for which the at-risk funding target and at-risk target normal cost are being determined.

``(ii) All employees shall be assumed to elect the retirement benefit available under the plan at the assumed retirement age (determined after application of clause (i)) which would result in the highest present value of benefits.

``(C) Loading factor.--The loading factor applied with respect to a plan under this paragraph for any plan year is the sum of--

``(i) $700, times the number of participants in the plan, plus

``(ii) 4 percent of the funding target (determined without regard to this paragraph) of the plan for the plan year.

``(2) Target normal cost of at-risk plans.--In the case of a plan which is in at-risk status for a plan year, the target normal cost of the plan for such plan year shall be equal to the sum of--

``(A) the present value of all benefits which are expected to accrue or be earned under the plan during the plan year, determined using the additional actuarial assumptions described in paragraph (1)(B), plus

``(B) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor equal to 4 percent of the target normal cost (determined without regard to this paragraph) of the plan for the plan year.

``(3) Minimum amount.--In no event shall--

``(A) the at-risk funding target be less than the funding target, as determined without regard to this subsection, or

``(B) the at-risk target normal cost be less than the target normal cost, as determined without regard to this subsection.

``(4) Determination of at-risk status.--For purposes of this subsection--

``(A) In general.--A plan is in at-risk status for a plan year if--

``(i) the funding target attainment percentage for the preceding plan year (determined under this section without regard to this subsection) is less than 80 percent, and

``(ii) the funding target attainment percentage for the preceding plan year (determined under this section by using the additional actuarial assumptions described in paragraph (1)(B) in computing the funding target) is less than 70 percent.

``(B) Transition rule.--
In the case of plan years beginning in 2008, 2009, and 2010, subparagraph (A)(i) shall be applied by substituting the following percentages for `80 percent':

``(i) 65 percent in the case of 2008.

``(ii) 70 percent in the case of 2009.

``(iii) 75 percent in the case of 2010.

In the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year under subparagraph (A)(ii) may be determined using such methods of estimation as the Secretary of the Treasury may provide.

``(C) Special rule for employees offered early retirement in 2006.--

``(i) In general.--For purposes of subparagraph (A)(ii), the additional actuarial assumptions described in paragraph (1)(B) shall not be taken into account with respect to any employee if--

``(I) such employee is employed by a specified automobile manufacturer,

``(II) such employee is offered a substantial amount of additional cash compensation, substantially enhanced retirement benefits under the plan, or materially reduced employment duties on the condition that by a specified date (not later than December 31, 2010) the employee retires (as defined under the terms of the plan),

``(III) such offer is made during 2006 and pursuant to a bona fide retirement incentive program and requires, by the terms of the offer, that such offer can be accepted not later than a specified date (not later than December 31, 2006), and

``(IV) such employee does not elect to accept such offer before the specified date on which the offer expires.

``(ii) Specified automobile manufacturer.--For purposes of clause (i), the term `specified automobile manufacturer' means--

``(I) any manufacturer of automobiles, and

``(II) any manufacturer of automobile parts which supplies such parts directly to a manufacturer of automobiles and which, after a transaction or series of transactions ending in 1999, ceased to be a member of a controlled group which included such manufacturer of automobiles.

``(5) Transition between applicable funding targets and between applicable target normal costs.--

``(A) In general.--In any case in which a plan which is in at-risk status for a plan year has been in such status for a consecutive period of fewer than 5 plan years, the applicable amount of the funding target and of the target normal cost shall be, in lieu of the amount determined without regard to this paragraph, the sum of--

``(i) the amount determined under this section without regard to this subsection, plus

``(ii) the transition percentage for such plan year of the excess of the amount determined under this subsection (without regard to this paragraph) over the amount determined under this section without regard to this subsection.

``(B) Transition percentage.--For purposes of subparagraph (A), the transition percentage shall be determined in accordance with the following table:

``If the consecutive number of years (including the plan year) the plan is in at-risk status is--	The transition percentage is--
1	20
2	40
3	60
4	80.

``(C) Years before effective date.--For purposes of this paragraph, plan years beginning before 2008 shall not be taken into account.

``(6) Small plan exception.--If, on each day during the preceding plan year, a plan had 500 or fewer participants, the plan shall not be treated as in at-risk status for the plan year. For purposes of this paragraph, all defined benefit plans (other than multiemployer plans) maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account and the rules of subsection (g)(2)(C) shall apply.

``(j) Payment of Minimum Required Contributions.--

``(1) In general.--For purposes of this section, the due date for any payment of any minimum required contribution for any plan year shall be 8\1/2\ months after the close of the plan year.

``(2) Interest.--Any payment required under paragraph (1) for a plan year that is made on a date other than the valuation date for such plan year shall be adjusted for interest accruing for the period between the valuation date and the payment date, at the effective rate of interest for the plan for such plan year.

``(3) Accelerated quarterly contribution schedule for underfunded plans.--

``(A) Failure to timely make required installment.--In any case in which the plan has a funding shortfall for the preceding plan year, the employer maintaining

the plan shall make the required installments under this paragraph and if the employer fails to pay the full amount of a required installment for the plan year, then the amount of interest charged under paragraph (2) on the underpayment for the period of underpayment shall be determined by using a rate of interest equal to the rate otherwise used under paragraph (2) plus 5 percentage points.

``(B) Amount of underpayment, period of underpayment.--For purposes of subparagraph (A)--

``(i) Amount.--The amount of the underpayment shall be the excess of--

``(I) the required installment, over

``(II) the amount (if any) of the installment contributed to or under the plan on or before the due date for the installment.

``(ii) Period of underpayment.--The period for which any interest is charged under this paragraph with respect to any portion of the underpayment shall run from the due date for the installment to the date on which such portion is contributed to or under the plan.

``(iii) Order of crediting contributions.--For purposes of clause (i)(II), contributions shall be credited against unpaid required installments in the order in which such installments are required to be paid.

``(C) Number of required installments; due dates.--For purposes of this paragraph--

``(i) Payable in 4 installments.--There shall be 4 required installments for each plan year.

``(ii) Time for payment of installments.--The due dates for required installments are set forth in the following table:

``In the case of the following required installment:	The due date is:
1st............................	April 15
2nd............................	July 15
3rd............................	October 15
4th............................	January 15 of the following year.

``(D) Amount of required installment.--For purposes of this paragraph--

``(i) In general.--The amount of any required installment shall be 25 percent of the required annual payment.

``(ii) Required annual payment.--For purposes of clause (i), the term `required annual payment' means the lesser of--

``(I) 90 percent of the minimum required contribution (determined without regard to this subsection) to the plan for the plan year under this section, or

``(II) 100 percent of the minimum required contribution (determined without regard to this subsection or to any waiver under section 302(c)) to the plan for the preceding plan year.

Subclause (II) shall not apply if the preceding plan year referred to in such clause was not a year of 12 months.

``(E) Fiscal years and short years.--

``(i) Fiscal years.--In applying this paragraph to a plan year beginning on any date other than January 1, there shall be substituted for the months specified in this paragraph, the months which correspond thereto.

``(ii) Short plan year.--This subparagraph shall be applied to plan years of less than 12 months in accordance with regulations prescribed by the Secretary of the Treasury.

``(4) Liquidity requirement in connection with quarterly contributions.--

``(A) In general.--A plan to which this paragraph applies shall be treated as failing to pay the full amount of any required installment under paragraph (3) to the extent that the value of the liquid assets paid in such installment is less than the liquidity shortfall (whether or not such liquidity shortfall exceeds the amount of such installment required to be paid but for

this paragraph).

``(B) Plans to which paragraph applies.--This paragraph shall apply to a plan (other than a plan described in subsection (g)(2)(B)) which--

``(i) is required to pay installments under paragraph (3) for a plan year, and

``(ii) has a liquidity shortfall for any quarter during such plan year.

``(C) Period of underpayment.--For purposes of paragraph (3)(A), any portion of an installment that is treated as not paid under subparagraph (A) shall continue to be treated as unpaid until the close of the quarter in which the due date for such installment occurs.

``(D) Limitation on increase.--If the amount of any required installment is increased by reason of subparagraph (A), in no event shall such increase exceed the amount which, when added to prior installments for the plan year, is necessary to increase the funding target attainment percentage of the plan for the plan year (taking into account the expected increase in funding target due to benefits accruing or earned during the plan year) to 100 percent.

``(E) Definitions.--For purposes of this paragraph--

``(i) Liquidity shortfall.--The term `liquidity shortfall' means, with respect to any required installment, an amount equal to the excess (as of the last day of the quarter for which such installment is made) of--

``(I) the base amount with respect to such quarter, over

``(II) the value (as of such last day) of the plan's liquid assets.

``(ii) Base amount.--

``(I) In general.--The term `base amount' means, with respect to any quarter, an amount equal to 3 times the sum of the adjusted disbursements from the plan for the 12 months ending on the last day of such quarter.

``(II) Special rule.--If the amount determined under subclause (I) exceeds an amount equal to 2 times the sum of the adjusted disbursements from the plan for the 36 months ending on the last day of the quarter and an enrolled actuary certifies to the satisfaction of the Secretary of the Treasury that such excess is the result of nonrecurring circumstances, the base amount with respect to such quarter shall be determined without regard to amounts related to those nonrecurring circumstances.

``(iii) Disbursements from the plan.--The term `disbursements from the plan' means all disbursements from the trust, including purchases of annuities, payments of single sums and other benefits, and administrative expenses.

``(iv) Adjusted disbursements.--The term `adjusted disbursements' means disbursements from the plan reduced by the product of--

``(v) Liquid assets.--The term `liquid assets' means cash, marketable securities, and such other assets as specified by the Secretary of the Treasury in regulations.

``(vi) Quarter.--The term `quarter' means, with respect to any required installment, the 3-month period preceding the month in which the due date for such installment occurs.

``(F) Regulations.--The Secretary of the Treasury may prescribe such regulations as are necessary to carry out this paragraph.

``(k) Imposition of Lien Where Failure to Make Required

Contributions.--
``(1) In general.--In the case of a plan to which this subsection applies (as provided under paragraph (2)), if--
``(A) any person fails to make a contribution payment required by section 302 and this section before the due date for such payment, and
``(B) the unpaid balance of such payment (including interest), when added to the aggregate unpaid balance of all preceding such payments for which payment was not made before the due date (including interest), exceeds $1,000,000,
then there shall be a lien in favor of the plan in the amount determined under paragraph (3) upon all property and rights to property, whether real or personal, belonging to such person and any other person who is a member of the same controlled group of which such person is a member.
``(2) Plans to which subsection applies.--This subsection shall apply to a single-employer plan covered under section 4021 for any plan year for which the funding target attainment percentage (as defined in subsection (d)(2)) of such plan is less than 100 percent.
``(3) Amount of lien.--For purposes of paragraph (1), the amount of the lien shall be equal to the aggregate unpaid balance of contribution payments required under this section and section 302 for which payment has not been made before the due date.
``(4) Notice of failure; lien.--
``(A) Notice of failure.--
A person committing a failure described in paragraph (1) shall notify the Pension Benefit Guaranty Corporation of such failure within 10 days of the due date for the required contribution payment.
``(B) Period of lien.--The lien imposed by paragraph (1) shall arise on the due date for the required contribution payment and shall continue until the last day of the first plan year in which the plan ceases to be described in paragraph (1)(B). Such lien shall continue to run without regard to whether such plan continues to be described in paragraph (2) during the period referred to in the preceding sentence.
``(C) Certain rules to apply.--Any amount with respect to which a lien is imposed under paragraph (1) shall be treated as taxes due and owing the United States and rules similar to the rules of subsections (c), (d), and (e) of section 4068 shall apply with respect to a lien imposed by subsection (a) and the amount with respect to such lien.
``(5) Enforcement.--Any lien created under paragraph (1) may be perfected and enforced only by the Pension Benefit Guaranty Corporation, or at the direction of the Pension Benefit Guaranty Corporation, by the contributing sponsor (or any member of the controlled group of the contributing sponsor).
``(6) Definitions.--For purposes of this subsection--
``(A) Contribution payment.--The term `contribution payment' means, in connection with a plan, a contribution payment required to be made to the plan, including any required installment under paragraphs (3) and (4) of subsection (j).
``(B) Due date; required installment.--The terms `due date' and `required installment' have the meanings given such terms by subsection (j), except that in the case of a payment other than a required installment, the due date shall be the date such payment is required to be made under section 303.
``(C) Controlled group.--The term `controlled group' means any group treated as a single employer under subsections (b), (c), (m), and (o) of section 414 of the Internal Revenue Code of 1986.
``(l) Qualified Transfers to Health Benefit Accounts.--In the case of a qualified transfer (as defined in section 420 of the Internal Revenue Code of 1986), any assets so transferred shall not, for purposes of this section, be treated as assets in the plan.''.
(b) Clerical Amendment.--The table of sections in section 1 of such Act (as amended by section 101) is amended by inserting after the item relating to section 302 the following new item:
``Sec. 303. Minimum funding standards for single-employer defined benefit pension plans.''.
(c) Effective Date.--The amendments made by this section shall apply with respect to plan years beginning after 2007.
SEC. 103. BENEFIT LIMITATIONS UNDER SINGLE-EMPLOYER PLANS.

(a) Funding-Based Limits on Benefits and Benefit Accruals Under Single-Employer Plans.--Section 206 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1056) is amended by adding at the end the following new subsection:

``(g) Funding-Based Limits on Benefits and Benefit Accruals Under Single-Employer Plans.--

``(1) Funding-based limitation on shutdown benefits and other unpredictable contingent event benefits under single-employer plans.--

``(A) In general.--If a participant of a defined benefit plan which is a single-employer plan is entitled to an unpredictable contingent event benefit payable with respect to any event occurring during any plan year, the plan shall provide that such benefit may not be provided if the adjusted funding target attainment percentage for such plan year--

``(i) is less than 60 percent, or

``(ii) would be less than 60 percent taking into account such occurrence.

``(B) Exemption.--Subparagraph (A) shall cease to apply with respect to any plan year, effective as of the first day of the plan year, upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 303) equal to--

``(i) in the case of subparagraph (A)(i), the amount of the increase in the funding target of the plan (under section 303) for the plan year attributable to the occurrence referred to in subparagraph (A), and

``(ii) in the case of subparagraph (A)(ii), the amount sufficient to result in a funding target attainment percentage of 60 percent.

``(C) Unpredictable contingent event.--For purposes of this paragraph, the term `unpredictable contingent event benefit' means any benefit payable solely by reason of--

``(i) a plant shutdown (or similar event, as determined by the Secretary of the Treasury), or

``(ii) an event other than the attainment of any age, performance of any service, receipt or derivation of any compensation, or occurrence of death or disability.

``(2) Limitations on plan amendments increasing liability for benefits.--

``(A) In general.--No amendment to a defined benefit plan which is a single-employer plan which has the effect of increasing liabilities of the plan by reason of increases in benefits, establishment of new benefits, changing the rate of benefit accrual, or changing the rate at which benefits become nonforfeitable may take effect during any plan year if the adjusted funding target attainment percentage for such plan year is--

``(i) less than 80 percent, or

``(ii) would be less than 80 percent taking into account such amendment.

``(B) Exemption.--Subparagraph (A) shall cease to apply with respect to any plan year, effective as of the first day of the plan year (or if later, the effective date of the amendment), upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 303) equal to--

``(i) in the case of subparagraph (A)(i), the amount of the increase in the funding target of the plan (under section 303) for the plan year attributable to the amendment, and

``(ii) in the case of subparagraph (A)(ii), the amount sufficient to result in an adjusted funding target attainment percentage of 80 percent.

``(C) Exception for certain benefit increases.--Subparagraph (A) shall not apply to any amendment which provides for an increase in benefits under a formula which is not based on a participant's compensation, but only if the rate of such increase is not in excess of the contemporaneous rate of increase in average wages of participants covered by the amendment.

``(3) Limitations on accelerated benefit distributions.--

``(A) Funding percentage less than 60 percent.--A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's

adjusted
funding target attainment percentage for a plan year is less than 60 percent, the plan may not pay any prohibited payment after the valuation date for the plan year.

``(B) Bankruptcy.--
A defined benefit plan which is
a single-employer plan shall provide that, during any period in which the plan sponsor is a debtor in a case under title 11, United States Code, or similar Federal or State law, the plan may not pay any prohibited payment. The preceding sentence shall not apply on or after the date on which the enrolled actuary of the plan certifies that the adjusted funding target attainment percentage of such plan is not less than 100 percent.

``(C) Limited payment if percentage at least 60 percent but less than 80 percent.--

``(i) In general.--A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is 60 percent or greater but less than 80 percent, the plan may not pay any prohibited payment after the valuation date for the plan year to the extent the amount of the payment exceeds the lesser of--

``(I) 50 percent of the amount of the payment which could be made without regard to this subsection, or

``(II) the present value (determined under guidance prescribed by the Pension Benefit Guaranty Corporation, using the interest and mortality assumptions under section 205(g)) of the maximum guarantee with respect to the participant under section 4022.

``(ii) One-time application.--

``(I) In general.--The plan shall also provide that only 1 prohibited payment meeting the requirements of clause (i) may be made with respect to any participant during any period of consecutive plan years to which the limitations under either subparagraph (A) or (B) or this subparagraph applies.

``(II) Treatment of beneficiaries.--
For purposes of this clause, a participant and any beneficiary on his behalf (including an alternate payee, as defined in section 206(d)(3)(K)) shall be treated as 1 participant. If the accrued benefit of a participant is allocated to such an alternate payee and 1 or more other persons, the amount under clause (i) shall be allocated among such persons in the same manner as the accrued benefit is allocated unless the qualified domestic relations order (as defined in section 206(d)(3)(B)(i)) provides otherwise.

``(D) Exception.--This paragraph shall not apply to any plan for any plan year if the terms of such plan (as in effect for the period beginning on September 1, 2005, and ending with such plan year) provide for no benefit accruals with respect to any participant during such period.

``(E) Prohibited payment.--For purpose of this paragraph, the term `prohibited payment' means--

``(i) any payment, in excess of the monthly amount paid under a single life annuity (plus any social security supplements described in the last sentence of section 204(b)(1)(G)), to a participant or beneficiary whose annuity starting date (as defined in section 205(h)(2)) occurs during any period a limitation under subparagraph (A) or (B) is in effect,

``(ii) any payment for the purchase of an irrevocable commitment from an insurer to pay benefits, and

``(iii) any other
payment specified by the Secretary of the Treasury by regulations.

``(4) Limitation on benefit accruals for plans with severe funding shortfalls.--

``(A) In general.--A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is less than 60 percent, benefit accruals under the plan shall cease as of the valuation date for the plan year.

``(B) Exemption.--Subparagraph (A) shall cease to apply with respect to any plan year, effective as of the first day of the plan year, upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 303) equal to the amount sufficient to result in an adjusted funding target attainment percentage of 60 percent.

``(5) Rules relating to contributions required to avoid benefit limitations.--

``(A) Security may be provided.--

``(i) In general.--For purposes of this subsection, the adjusted funding target attainment percentage shall be determined by treating as an asset of the plan any security provided by a plan sponsor in a form meeting the requirements of clause (ii).

``(ii) Form of security.--The security required under clause (i) shall consist of--

``(I) a bond issued by a corporate surety company that is an acceptable surety for purposes of section 412 of this Act,

``(II) cash, or United States obligations which mature in 3 years or less, held in escrow by a bank or similar financial institution, or

``(III) such other form of security as is satisfactory to the Secretary of the Treasury and the parties involved.

``(iii) Enforcement.--Any security provided under clause (i) may be perfected and enforced at any time after the earlier of--

``(I) the date on which the plan terminates,

``(II) if there is a failure to make a payment of the minimum required contribution for any plan year beginning after the security is provided, the due date for the payment under section 303(j), or

``(III) if the adjusted funding target attainment percentage is less than 60 percent for a consecutive period of 7 years, the valuation date for the last year in the period.

``(iv) Release of security.--The security shall be released (and any amounts thereunder shall be refunded together with any interest accrued thereon) at such time as the Secretary of the Treasury may prescribe in regulations, including regulations for partial releases of the security by reason of increases in the funding target attainment percentage.

``(B) Prefunding balance or funding standard carryover balance may not be used.--No prefunding balance or funding standard carryover balance under section 303(f) may be used under paragraph (1), (2), or (4) to satisfy any payment an employer may make under any such paragraph to avoid or terminate the application of any limitation under such paragraph.

``(C) Deemed reduction of funding balances.--

``(i) In general.--Subject to clause (iii), in any case in which a benefit limitation under paragraph (1), (2), (3), or (4) would (but for this subparagraph and determined without regard to paragraph (1)(B), (2)(B), or (4)(B)) apply to such plan for the plan year, the plan sponsor of such plan shall be treated for purposes of this Act as having made an election under section 303(f) to reduce the prefunding balance or funding standard carryover balance by such amount as is necessary for such benefit limitation to not apply to the plan for such plan year.

``(ii) Exception for insufficient funding balances.--Clause (i) shall not apply with respect to a benefit limitation for any plan year if the application of clause (i) would not result in the benefit limitation not applying for such plan year.

``(iii) Restrictions of certain rules to collectively bargained plans.--With respect to any benefit limitation under paragraph (1), (2), or (4), clause (i) shall only apply in the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers.

``(6) New plans.--Paragraphs (1), (2), and (4) shall not apply to a plan for the first 5 plan years of the plan. For purposes of this paragraph, the reference in this paragraph to a plan shall include a reference to any predecessor plan.

``(7) Presumed underfunding for purposes of benefit limitations.--

``(A) Presumption of continued underfunding.--In any case in which a benefit limitation under paragraph (1), (2), (3), or (4) has been applied to a plan with respect to the plan year preceding the current plan year, the adjusted funding target attainment percentage of the plan for the current plan year shall be presumed to be equal to the adjusted funding target attainment percentage of the plan for the preceding plan year until the enrolled actuary of the plan certifies the actual adjusted funding target attainment percentage of the plan for the current plan year.

``(B) Presumption of underfunding after 10th month.--In any case in which no certification of the adjusted funding target attainment percentage for the current plan year is made with respect to the plan before the first day of the 10th month of such year, for purposes of paragraphs (1), (2), (3), and (4), such first day shall be deemed, for purposes of such paragraph, to be the valuation date of the plan for the current plan year and the plan's adjusted funding target attainment percentage shall be conclusively presumed to be less than 60 percent as of such first day.

``(C) Presumption of underfunding after 4th month for nearly underfunded plans.--In any case in which--

``(i) a benefit limitation under paragraph (1), (2), (3), or (4) did not apply to a plan with respect to the plan year preceding the current plan year, but the adjusted funding target attainment percentage of the plan for such preceding plan year was not more than 10 percentage points greater than the percentage which would have caused such paragraph to apply to the plan with respect to such preceding plan year, and

``(ii) as of the first day of the 4th month of the current plan year, the enrolled actuary of the plan has not certified the actual adjusted funding target attainment percentage of the plan for the current plan year,

until the enrolled actuary so certifies, such first day shall be deemed, for purposes of such paragraph, to be the valuation date of the plan for the current plan year and the adjusted funding target attainment percentage of the plan as of such first day shall, for purposes of such paragraph, be presumed to be equal to 10 percentage points less than the adjusted funding target attainment percentage of the plan for such preceding plan year.

``(8) Treatment of plan as of close of prohibited or cessation period.--For purposes of applying this part--

``(A) Operation of plan after period.--Unless the plan provides otherwise, payments and accruals will resume effective as of the day following the close of the period for which any limitation of payment or accrual of benefits under paragraph (3) or (4) applies.

``(B) Treatment of affected benefits.--Nothing in this paragraph shall be construed as affecting the plan's treatment of benefits which would have been paid or accrued but for this subsection.

``(9) Terms relating to funding target attainment

percentage.--For purposes of this subsection--
``(A) In general.--The term `funding target attainment percentage' has the same meaning given such term by section 303(d)(2).
``(B) Adjusted funding target attainment percentage.--The term `adjusted funding target attainment percentage' means the funding target attainment percentage which is determined under subparagraph (A) by increasing each of the amounts under subparagraphs (A) and (B) of section 303(d)(2) by the aggregate amount of purchases of annuities for employees other than highly compensated employees (as defined in section 414(q) of the Internal Revenue Code of 1986) which were made by the plan during the preceding 2 plan years.
``(C) Application to plans which are fully funded without regard to reductions for funding balances.--
``(i) In general.--In the case of a plan for any plan year, if the funding target attainment percentage is 100 percent or more (determined without regard to this subparagraph and without regard to the reduction in the value of assets under section 303(f)(4)), the funding target attainment percentage for purposes of subparagraphs (A) and (B) shall be determined without regard to such reduction.
``(ii) Transition rule.--Clause (i) shall be applied to plan years beginning after 2007 and before 2011 by substituting for `100 percent' the applicable percentage determined in accordance with the following table:

``In the case year beginning in year:	The applicable percentage is:
2008	92
2009	94
2010	96.

``(iii) Limitation.--Clause (ii) shall not apply with respect to any plan year after 2008 unless the funding target attainment percentage (determined without regard to this subparagraph) of the plan for each preceding plan year after 2007 was not less than the applicable percentage with respect to such preceding plan year determined under clause (ii).
``(10) Special rule for 2008.--For purposes of this subsection, in the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year may be determined using such methods of estimation as the Secretary of the Treasury may provide.''.
(b) Notice Requirement.--
(1) In general.--Section 101 of such Act (29 U.S.C. 1021) is amended--
(A) by redesignating subsection (j) as subsection (k); and
(B) by inserting after subsection (i) the following new subsection:
``(j) Notice of Funding-Based Limitation on Certain Forms of Distribution.--The plan administrator of a single-employer plan shall provide a written notice to plan participants and beneficiaries within 30 days--
``(1) after the plan has become subject to a restriction described in paragraph (1) or (3) of section 206(g)),
``(2) in the case of a plan to which section 206(g)(4) applies, after the valuation date for the plan year described in section 206(g)(4)(B) for which the plan's adjusted funding target attainment percentage for the plan year is less than 60 percent (or, if earlier, the date such percentage is deemed to be less than 60 percent under section 206(g)(7)), and
``(3) at such other time as may be determined by the Secretary of the Treasury.

Subtitle B--Amendments to Internal Revenue Code of 1986

SEC. 111. MINIMUM FUNDING STANDARDS.

(a) New Minimum Funding Standards.--Section 412 of the Internal
Revenue Code of 1986 (relating to minimum funding
standards) is amended to read as follows:

``SEC. 412. MINIMUM FUNDING STANDARDS.

``(a) Requirement to Meet Minimum Funding Standard.--
``(1) In general.--A plan to which this section applies

shall satisfy the minimum funding standard applicable to the plan for any plan year.

``(2) Minimum funding standard.--For purposes of paragraph (1), a plan shall be treated as satisfying the minimum funding standard for a plan year if--

``(A) in the case of a defined benefit plan which is not a multiemployer plan, the employer makes contributions to or under the plan for the plan year which, in the aggregate, are not less than the minimum required contribution determined under section 430 for the plan for the plan year,

``(B) in the case of a money purchase plan which is not a multiemployer plan, the employer makes contributions to or under the plan for the plan year which are required under the terms of the plan, and

``(C) in the case of a multiemployer plan, the employers make contributions to or under the plan for any plan year which, in the aggregate, are sufficient to ensure that the
plan does not have an accumulated funding deficiency under section 431 as of the end of the plan year.

``(b) Liability for Contributions.--

``(1) In general.--Except as provided in paragraph (2), the amount of any contribution required by this section (including any required installments under paragraphs (3) and (4) of section 430(j)) shall be paid by the employer responsible for making contributions to or under the plan.

``(2) Joint and several liability where employer member of controlled group.--If the employer referred to in paragraph (1) is a member of a controlled group, each member of such group shall be jointly and severally liable for payment of such contributions.

``(c) Variance From Minimum Funding Standards.--

``(1) Waiver in case of business hardship.--

``(A) In general.--If--

``(i) an employer is (or in the case of a multiemployer plan, 10 percent or more of the number of employers contributing to or under the plan is) unable to satisfy the minimum funding standard for a plan year without temporary substantial business hardship (substantial business hardship in the case of a multiemployer plan), and

``(ii) application of the standard would be adverse to the interests of plan participants in the aggregate,

the Secretary may, subject to subparagraph (C), waive the requirements of subsection (a) for such year with respect to all or any portion of the minimum funding standard. The Secretary shall not waive the minimum funding standard with respect to a plan for more than 3 of any 15 (5 of any 15 in the case of a multiemployer plan) consecutive plan years

``(B) Effects of waiver.--If a waiver is granted under subparagraph (A) for any plan year--

``(i) in the case of a defined benefit plan which is not a multiemployer plan, the minimum required contribution under section 430 for the plan year shall be reduced by the amount of the waived funding deficiency and such amount shall be amortized as required under section 430(e), and

``(ii) in the case of a multiemployer plan, the funding standard account shall be credited under section 431(b)(3)(C) with the amount of the waived funding deficiency and such amount shall be amortized as required under section 431(b)(2)(C).

``(C) Waiver of amortized portion not allowed.--The Secretary may not waive under subparagraph (A) any portion of the minimum funding standard under subsection (a) for a plan year which is attributable to any waived funding deficiency for any preceding plan year.

``(2) Determination of business hardship.--For purposes of this subsection, the factors taken into account in determining temporary substantial business hardship (substantial business hardship in the case of a multiemployer plan) shall include (but shall not be limited to) whether or not--

``(A) the employer is operating at an economic loss,

``(B) there is substantial unemployment or underemployment in the trade or business and in the industry concerned,

``(C) the sales and profits of the industry concerned are depressed or declining, and

``(D) it is reasonable to expect that the plan will be continued only if the waiver is granted.

``(3) Waived funding deficiency.--For purposes of this section and part III of this subchapter, the term `waived funding deficiency' means the portion of the minimum funding standard under subsection (a) (determined without regard to the waiver) for a plan year waived by the Secretary and not satisfied by employer contributions.

``(4) Security for waivers for single-employer plans, consultations.--

``(A) Security may be required.--

``(i) In general.--Except as provided in subparagraph (C), the Secretary may require an employer maintaining a defined benefit plan which is a single-employer plan (within the meaning of section 4001(a)(15) of the Employee Retirement Income Security Act of 1974) to provide security to such plan as a condition for granting or modifying a waiver under paragraph (1).

``(ii) Special rules.--Any security provided under clause (i) may be perfected and enforced only by the Pension Benefit Guaranty Corporation, or at the direction of the Corporation, by a contributing sponsor (within the meaning of section 4001(a)(13) of the Employee Retirement Income Security Act of 1974), or a member of such sponsor's controlled group (within the meaning of section 4001(a)(14) of such Act).

``(B) Consultation with the pension benefit guaranty corporation.--Except as provided in subparagraph (C), the Secretary shall, before granting or modifying a waiver under this subsection with respect to a plan described in subparagraph (A)(i)--

``(i) provide the Pension Benefit Guaranty Corporation with--

``(I) notice of the completed application for any waiver or modification, and

``(II) an opportunity to comment on such application within 30 days after receipt of such notice, and

``(ii) consider--

``(I) any comments of the Corporation under clause (i)(II), and

``(II) any views of any employee organization (within the meaning of section 3(4) of the Employee Retirement Income Security Act of 1974) representing participants in the plan which are submitted in writing to the Secretary in connection with such application.

Information provided to the Corporation under this subparagraph shall be considered tax return information and subject to the safeguarding and reporting requirements of section 6103(p).

``(C) Exception for certain waivers.--

``(i) In general.--The preceding provisions of this paragraph shall not apply to any plan with respect to which the sum of--

``(I) the aggregate unpaid minimum required contributions (within the meaning of section 4971(c)(4)) for the plan year and all preceding plan years, and

``(II) the present value of all waiver amortization installments determined for the plan year and succeeding plan years under section 430(e)(2),

is less than $1,000,000.

``(ii) Treatment of waivers for which applications are pending.--The amount described in clause (i)(I) shall include any increase in such amount which would result if all applications for waivers of the minimum funding standard under this subsection which are pending with respect to such plan were denied.

``(5) Special rules for single-employer plans.--

``(A) Application must be submitted before date 2\1/2\ months after close of year.--In

the case of a defined benefit plan
which is not a multiemployer plan, no waiver may be granted under this subsection with respect to any plan for any plan year unless an application therefor is submitted to the Secretary not later than the 15th day of the 3rd month beginning after the close of such plan year.

``(B) Special rule if employer is member of controlled group.--In the case of a defined benefit plan which is not a multiemployer plan, if an employer is a member of a controlled group, the temporary substantial business hardship requirements of paragraph (1) shall be treated as met only if such requirements are met--

``(i) with respect to such employer, and

``(ii) with respect to the controlled group of which such employer is a member (determined by treating all members of such group as a single employer).

The Secretary may provide that an analysis of a trade or business or industry of a member need not be conducted if the Secretary determines such analysis is not necessary because the taking into account of such member would not significantly affect the determination under this paragraph.

``(6) Advance notice.--

``(A) In general.--The Secretary shall, before granting a waiver under this subsection, require each applicant to provide evidence satisfactory to the Secretary that the applicant has provided notice of the filing of the application for such waiver to each affected party (as defined in section 4001(a)(21) of the Employee Retirement Income Security Act of 1974). Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV of the Employee Retirement Income Security Act of 1974 and for benefit liabilities.

``(B) Consideration of relevant information.--The Secretary shall consider any relevant information provided
by a person to whom notice was given under subparagraph (A).

``(7) Restriction on plan amendments.--

``(A) In general.--No amendment of a plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan shall be adopted if a waiver under this subsection or an extension of time under section 431(d) is in effect with respect to the plan, or if a plan amendment described in subsection (d)(2) has been made at any time in the preceding 12 months (24 months in the case of a multiemployer plan). If a plan is amended in violation of the preceding sentence, any such waiver, or extension of time, shall not apply to any plan year ending on or after the date on which such amendment is adopted.

``(B) Exception.--Subparagraph (A) shall not apply to any plan amendment which--

``(i) the Secretary determines to be reasonable and which provides for only de minimis increases in the liabilities of the plan,

``(ii) only repeals an amendment described in subsection (d)(2), or

``(iii) is required as a condition of qualification under part I of subchapter D, of chapter 1.

``(d) Miscellaneous Rules.--

``(1) Change in method or year.--If the funding method, the valuation date, or a plan year for a plan is changed, the change shall take effect only if approved by the Secretary.

``(2) Certain retroactive plan amendments.--For purposes of this section, any amendment applying to a plan year which--

``(A) is adopted after the close
of such plan year but no later than 2\1/2\ months after the close of the plan year (or, in the case of a multiemployer plan, no later than 2 years after the close of such plan year),

``(B) does not reduce the accrued benefit of any participant determined as of the beginning of the first plan year to which the amendment applies, and

``(C) does not reduce the accrued benefit of any participant determined as of the time of adoption except

to the extent required by the circumstances,
shall, at the election of the plan administrator, be deemed to have been made on the first day of
such plan year. No amendment described in this paragraph which reduces the accrued benefits of any participant shall take effect unless the plan administrator files a notice with the Secretary notifying him of such amendment and the Secretary has approved such amendment, or within 90 days after the date on which such notice was filed, failed to disapprove such amendment. No amendment described in this subsection shall be approved by the Secretary unless the Secretary determines that such amendment is necessary because of a temporary substantial business hardship (as determined under subsection (c)(2)) or a substantial business hardship (as so determined) in the case of a multiemployer plan and that a waiver under subsection (c) (or, in the case of a multiemployer plan, any extension of the amortization period under section 431(d)) is unavailable or inadequate.

``(3) Controlled group.--For purposes of this section, the term `controlled group' means any group treated as a single employer under subsection (b), (c), (m), or (o) of section 414.

``(e) Plans to Which Section Applies.--

``(1) In general.--Except as provided in paragraphs (2) and (4), this section applies to a plan if, for any plan year beginning on or after the effective date of this section for such plan under the Employee Retirement Income Security Act of 1974--

``(A) such plan included a trust which qualified (or was determined by the Secretary to have qualified) under section 401(a), or

``(B) such plan satisfied (or was determined by the Secretary to have satisfied) the requirements of section 403(a).

``(2) Exceptions.--This section shall not apply to--

``(A) any profit-sharing or stock bonus plan,

``(B) any insurance contract plan described in paragraph (3),

``(C) any governmental plan (within the meaning of section 414(d)),

``(D) any church plan (within the meaning of section 414(e)) with respect to which the election provided by section 410(d) has not been made,

``(E) any plan which has not, at any time after September 2, 1974, provided for employer contributions, or

``(F) any plan established and maintained by a society, order, or association described in section 501(c)(8) or (9), if no part of the contributions to or under such plan are made by employers of participants in such plan.

No plan described in subparagraph (C), (D), or (F) shall be treated as a qualified plan for purposes of section 401(a) unless such plan meets the requirements of section 401(a)(7) as in effect on September 1, 1974.

``(3) Certain insurance contract plans.--A plan is described in this paragraph if--

``(A) the plan is funded exclusively by the purchase of individual insurance contracts,

``(B) such contracts provide for level annual premium payments to be paid extending not later than the retirement age for each individual participating in the plan, and commencing with the date the individual became a participant in the plan (or, in the case of an increase in benefits, commencing at the time such increase becomes effective),

``(C) benefits provided by the plan are equal to the benefits provided under each contract at normal retirement age under the plan and are guaranteed by an insurance carrier (licensed under the laws of a State to do business with the plan) to the extent premiums have been paid,

``(D) premiums payable for the plan year, and all prior plan years, under such contracts have been paid before lapse or there is reinstatement of the policy,

``(E) no rights under such contracts have been subject to a security interest at any time during the plan year, and

``(F) no policy loans are outstanding at any time during the plan year.

A plan funded exclusively by the purchase of group insurance contracts which is determined under regulations prescribed by the Secretary to have the same characteristics as contracts

described in the preceding sentence shall be treated as a plan described in this paragraph.

``(4) Certain terminated multiemployer plans.--This section applies with respect to a terminated multiemployer plan to which section 4021 of the Employee Retirement Income Security Act of 1974 applies until the last day of the plan year in which the plan terminates (within the meaning of section 4041A(a)(2) of such Act).''.

(b) Effective Date.--The amendments made by this section shall apply to plan years beginning after December 31, 2007.

(a) In General.--Subchapter D of chapter 1 of the Internal Revenue Code of 1986 (relating to deferred compensation, etc.) is amended by adding at the end the following new part:

``PART III--MINIMUM FUNDING STANDARDS FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS

``SEC. 430. MINIMUM FUNDING STANDARDS FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS.

``(a) Minimum Required Contribution.--For purposes of this section and section 412(a)(2)(A), except as provided in subsection (f), the term `minimum required contribution' means, with respect to any plan year of a defined benefit plan which is not a multiemployer plan--

``(1) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) is less than the funding target of the plan for the plan year, the sum of--

``(A) the target normal cost of the plan for the plan year,

``(B) the shortfall amortization charge (if any) for the plan for the plan year determined under subsection (c), and

``(C) the waiver amortization charge (if any) for the plan for the plan year as determined under subsection (e);

``(2) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) equals or exceeds the funding target of the plan for the plan year, the target normal cost of the plan for the plan year reduced (but not below zero) by such excess.

``(b) Target Normal Cost.--For purposes of this section, except as provided in subsection (i)(2) with respect to plans in at-risk status, the term `target normal cost' means, for any plan year, the present value of all benefits which are expected to accrue or to be earned under the plan during the plan year. For purposes of this subsection, if any benefit attributable to services performed in a preceding plan year is increased by reason of any increase in compensation during the current plan year, the increase in such benefit shall be treated as having accrued during the current plan year.

``(c) Shortfall Amortization Charge.--

``(1) In general.--For purposes of this section, the shortfall amortization charge for a plan for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to the shortfall amortization bases for such plan year and each of the 6 preceding plan years.

``(2) Shortfall amortization installment.--For purposes of paragraph (1)--

``(A) Determination.--The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7-plan-year period beginning with such plan year.

``(B) Shortfall installment.--The shortfall amortization installment for any plan year in the 7-plan-year period under subparagraph (A) with respect to any shortfall amortization base is the annual installment determined under subparagraph (A) for that year for that base.

``(C) Segment rates.--In determining any shortfall amortization installment under this paragraph, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).

``(3) Shortfall amortization base.--For purposes of this section, the shortfall amortization base of a plan for a plan year is--

``(A) the funding shortfall of such plan for such plan year, minus

``(B) the present value (determined using the segment rates determined under subparagraph (C) of

subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2)) of the aggregate total of the shortfall amortization installments and waiver amortization installments which have been determined for such plan year and any succeeding plan year with respect to the shortfall amortization bases and waiver amortization bases of the plan for any plan year preceding such plan year.

``(4) Funding shortfall.--For purposes of this section, the funding shortfall of a plan for any plan year is the excess (if any) of--

``(A) the funding target of the plan for the plan year, over

``(B) the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) for the plan year which are held by the plan on the valuation date.

``(5) Exemption from new shortfall amortization base.--

``(A) In general.--In any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(A)) is equal to or greater than the funding target of the plan for the plan year, the shortfall amortization base of the plan for such plan year shall be zero.

``(B) Transition rule.--

``(i) In general.--Except as provided in clauses (iii) and (iv), in the case of plan years beginning after 2007 and before 2011, only the applicable percentage of the funding target shall be taken into account under paragraph (3)(A) in determining the funding shortfall for the plan year for purposes of subparagraph (A).

``(ii) Applicable percentage.--For purposes of subparagraph (A), the applicable percentage shall be determined in accordance with the following table:

``In the case year beginning in year:	The applicable percentage is
2008	92
2009	94
2010	96.

``(iii) Limitation.--Clause (i) shall not apply with respect to any plan year after 2008 unless the shortfall amortization base for each of the preceding years beginning after 2007 was zero (determined after application of this subparagraph).

``(iv) Transition relief not available for new or deficit reduction plans.--Clause (i) shall not apply to a plan--

``(I) which was not in effect for a plan year beginning in 2007, or

``(II) which was in effect for a plan year beginning in 2007 and which was subject to section 412(l) (as in effect for plan years beginning in 2007), determined after the application of paragraphs (6) and (9) thereof.

``(6) Early deemed amortization upon attainment of funding target.--In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the shortfall amortization charge for such plan year and succeeding plan years, the shortfall amortization bases for all preceding plan years (and all shortfall amortization installments determined with respect to such bases) shall be reduced to zero.

``(d) Rules Relating to Funding Target.--For purposes of this section--

``(1) Funding target.--Except as provided in subsection (i)(1) with respect to plans in at-risk status, the funding target of a plan for a plan year is the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.

``(2) Funding target attainment percentage.--The `funding target attainment percentage' of a plan for a plan year is the ratio (expressed as a percentage) which--

``(A) the value of plan assets for the plan year (as reduced under subsection (f)(4)(B)), bears to

``(B) the funding target of the plan for the plan year (determined without regard to subsection (i)(1)).

``(e) Waiver Amortization Charge.--

``(1) Determination of waiver amortization charge.--The

waiver amortization charge (if any) for a plan for any plan year is the aggregate total of the waiver amortization installments for such plan year with respect to the waiver amortization bases for each of the 5 preceding plan years.

``(2) Waiver amortization installment.--For purposes of paragraph (1)--

``(A) Determination.--The waiver amortization installments are the amounts necessary to amortize the waiver amortization base of the plan for any plan year in level annual installments over a period of 5 plan years beginning with the succeeding plan year.

``(B) Waiver installment.--The waiver amortization installment for any plan year in the 5-year period under subparagraph (A) with respect to any waiver amortization base is the annual installment determined under subparagraph (A) for that year for that base.

``(3) Interest rate.--In determining any waiver amortization installment under this subsection, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).

``(4) Waiver amortization base.--The waiver amortization base of a plan for a plan year is the amount of the waived funding deficiency (if any) for such plan year under section 412(c).

``(5) Early deemed amortization upon attainment of funding target.--In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the waiver amortization charge for such plan year and succeeding plan years, the waiver amortization bases for all preceding plan years (and all waiver amortization installments determined with respect to such bases) shall be reduced to zero.

``(f) Reduction of Minimum Required Contribution by Prefunding Balance and Funding Standard Carryover Balance.--

``(1) Election to maintain balances.--

``(A) Prefunding balance.--The plan sponsor of a defined benefit plan which is not a multiemployer plan may elect to maintain a prefunding balance.

``(B) Funding standard carryover balance.--

``(i) In general.--In the case of a defined benefit plan (other than a multiemployer plan) described in clause (ii), the plan sponsor may elect to maintain a funding standard carryover balance, until such balance is reduced to zero.

``(ii) Plans maintaining funding standard account in 2007.--A plan is described in this clause if the plan--

``(I) was in effect for a plan year beginning in 2007, and

``(II) had a positive balance in the funding standard account under section 412(b) as in effect for such plan year and determined as of the end of such plan year.

``(2) Application of balances.--A prefunding balance and a funding standard carryover balance maintained pursuant to this paragraph--

``(A) shall be available for crediting against the minimum required contribution, pursuant to an election under paragraph (3),

``(B) shall be applied as a reduction in the amount treated as the value of plan assets for purposes of this section, to the extent provided in paragraph (4), and

``(C) may be reduced at any time, pursuant to an election under paragraph (5).

``(3) Election to apply balances against minimum required contribution.--

``(A) In general.--Except as provided in subparagraphs (B) and (C), in the case of any plan year in which the plan sponsor elects to credit against the minimum required contribution for the current plan year all or a portion of the prefunding balance or the funding standard carryover balance for the current plan year (not in excess of such minimum required contribution), the minimum required contribution for the plan year shall be reduced as of the first day of the plan year by the amount so credited by the plan sponsor as of the first day of the plan year. For purposes of the preceding sentence, the minimum required contribution shall be determined after taking into account any waiver under section 412(c).

``(B) Coordination with funding standard carryover

balance.--To the extent that any plan has a funding standard carryover balance greater than zero, no amount of the prefunding balance of such plan may be credited under this paragraph in reducing the minimum required contribution.

``(C) Limitation for underfunded plans.--The preceding provisions of this paragraph shall not apply for any plan year if the ratio (expressed as a percentage) which--

``(i) the value of plan assets for the preceding plan year (as reduced under paragraph (4)(C)), bears to

``(ii) the funding target of the plan for the preceding plan year (determined without regard to subsection (i)(1)),

is less than 80 percent. In the case of plan years beginning in 2008, the ratio under this subparagraph may be determined using such methods of estimation as the Secretary may prescribe.

``(4) Effect of balances on amounts treated as value of plan assets.--In the case of any plan maintaining a prefunding balance or a funding standard carryover balance pursuant to this subsection, the amount treated as the value of plan assets shall be deemed to be such amount, reduced as provided in the following subparagraphs:

``(A) Applicability of shortfall amortization base.--For purposes of subsection (c)(5), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance, but only if an election under paragraph (2) applying any portion of the prefunding balance in reducing the minimum required contribution is in effect for the plan year.

``(B) Determination of excess assets, funding shortfall, and funding target attainment percentage.--

``(i) In general.--For purposes of subsections (a), (c)(4)(B), and (d)(2)(A), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance and the funding standard carryover balance.

``(ii) Special rule for certain binding agreements with pbgc.--For purposes of subsection (c)(4)(B), the value of plan assets shall not be deemed to be reduced for a plan year by the amount of the specified balance if, with respect to such balance, there is in effect for a plan year a binding written agreement with the Pension Benefit Guaranty Corporation which provides that such balance is not available to reduce the minimum required contribution for the plan year. For purposes of the preceding sentence, the term `specified balance' means the prefunding balance or the funding standard carryover balance, as the case may be.

``(C) Availability of balances in plan year for crediting against minimum required contribution.--For purposes of paragraph (3)(C)(i) of this subsection, the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance.

``(5) Election to reduce balance prior to determinations of value of plan assets and crediting against minimum required contribution.--

``(A) In general.--The plan sponsor may elect to reduce by any amount the balance of the prefunding balance and the funding standard carryover balance for any plan year (but not below zero). Such reduction shall be effective prior to any determination of the value of plan assets for such plan year under this section and application of the balance in reducing the minimum required contribution for such plan for such plan year pursuant to an election under paragraph (2).

``(B) Coordination between prefunding balance and funding standard carryover balance.--To the extent that any plan has a funding standard carryover balance greater than zero, no election may be made under subparagraph (A) with respect to the prefunding balance.

``(6) Prefunding balance.--

``(A) In general.--A prefunding balance maintained by a plan shall consist of a beginning balance of zero, increased and decreased to the extent provided in subparagraphs (B) and (C), and adjusted further as

provided in paragraph (8).
``(B) Increases.--
``(i) In general.--As of the first day of each plan year beginning
after 2008, the prefunding balance of a plan shall be increased by the amount elected by
the plan sponsor for the plan year. Such amount shall not exceed the excess (if any) of--
``(I) the aggregate total of employer contributions to the plan for the preceding plan year, over--
``(II) the minimum required contribution for such preceding plan year.
``(ii) Adjustments for interest.--Any excess contributions under clause (i) shall be properly adjusted for interest accruing for the periods between the first day of the current plan year and the dates on which the excess contributions were made, determined by using the effective interest rate for the preceding plan year and by treating contributions as being first used to satisfy the minimum required contribution.
``(iii) Certain contributions necessary to avoid benefit limitations disregarded.--The excess described in clause (i) with respect to any preceding plan year shall be reduced (but not below zero) by the amount of contributions an employer would be required to make under paragraph (1), (2), or (4) of section 206(g) to avoid a benefit limitation which would otherwise be imposed under such paragraph for the preceding plan year. Any contribution which may be taken into account in satisfying the requirements of more than 1 of such paragraphs shall be taken into account only once for purposes of this clause.
``(C) Decreases.--The prefunding balance of a plan shall be decreased (but not below zero) by the sum of--
``(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and
``(ii) as of the time specified in paragraph (5)(A), any reduction in such balance elected under paragraph (5).
``(7) Funding standard carryover balance.--
``(A) In general.--A funding standard carryover balance maintained by a plan shall consist of a beginning balance determined under subparagraph (B), decreased to the extent provided in subparagraph (C), and adjusted further as provided in paragraph (8).
``(B) Beginning balance.--The beginning balance of the funding standard carryover balance shall be the positive balance described in paragraph (1)(B)(ii)(II).
``(C) Decreases.--The funding standard carryover balance of a plan shall be decreased (but not below zero) by--
``(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and
``(ii) as of the time specified in paragraph (5)(A), any reduction in such balance elected under paragraph (5).
``(8) Adjustments for investment experience.--In determining the prefunding balance or the funding standard carryover balance of a plan as of the first day of the plan year, the plan sponsor shall, in accordance with regulations prescribed by the Secretary of the Treasury, adjust such balance to reflect the rate of return on plan assets for the preceding plan year. Notwithstanding subsection (g)(3), such rate of return shall be determined on the basis of fair market value and shall properly take into account, in accordance with such regulations, all contributions, distributions, and other plan payments made during such period.
``(9) Elections.--Elections under this subsection shall be made at such times, and in such form and manner, as shall be prescribed in regulations of the Secretary.
``(g) Valuation of Plan Assets and Liabilities.--

``(1) Timing of determinations.--Except as otherwise provided under this subsection, all determinations under this section for a plan year shall be made as of the valuation date of the plan for such plan year.

``(2) Valuation date.--For purposes of this section--

``(A) In general.--Except as provided in subparagraph (B), the valuation date of a plan for any plan year shall be the first day of the plan year.

``(B) Exception for small plans.--If, on each day during the preceding plan year, a plan had 100 or fewer participants, the plan may designate any day during the plan year as its valuation date for such plan year and succeeding plan years. For purposes of this subparagraph, all defined benefit plans (other than multiemployer plans) maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account.

``(C) Application of certain rules in determination of plan size.--For purposes of this paragraph--

``(i) Plans not in existence in preceding year.--In the case of the first plan year of any plan, subparagraph (B) shall apply to such plan by taking into account the number of participants that the plan is reasonably expected to have on days during such first plan year.

``(ii) Predecessors.--Any reference in subparagraph (B) to an employer shall include a reference to any predecessor of such employer.

``(3) Determination of value of plan assets.--For purposes of this section--

``(A) In general.--Except as provided in subparagraph (B), the value of plan assets shall be the fair market value of the assets.

``(B) Averaging allowed.--A plan may determine the value of plan assets on the basis of the averaging of fair market values, but only if such method--

``(i) is permitted under regulations prescribed by the Secretary,

``(ii) does not provide for averaging of such values over more than the period beginning on the last day of the 25th month preceding the month in which the valuation date occurs and ending on the valuation date (or a similar period in the case of a valuation date which is not the 1st day of a month), and

``(iii) does not result in a determination of the value of plan assets which, at any time, is lower than 90 percent or greater than 110 percent of the fair market value of such assets at such time.

Any such averaging shall be adjusted for contributions and distributions (as provided by the Secretary).

``(4) Accounting for contribution receipts.--For purposes of determining the value of assets under paragraph (3)--

``(A) Prior year contributions.--If--

``(i) an employer makes any contribution to the plan after the valuation date for the plan year in which the contribution is made, and

``(ii) the contribution is for a preceding plan year,

the contribution shall be taken into account as an asset of the plan as of the valuation date, except that in the case of any plan year beginning after 2008, only the present value (determined as of the valuation date) of such contribution may be taken into account. For purposes of the preceding sentence, present value shall be determined using the effective interest rate for the preceding plan year to which the contribution is properly allocable.

``(B) Special rule for current year contributions made before valuation date.--If any contributions for any plan year are made to or under the plan during the plan year but before the valuation date for the plan year, the assets of the plan as of the valuation date shall not include--

``(i) such contributions, and

``(ii) interest on such contributions for the period between the date of the contributions and the valuation date, determined by using the effective interest rate for the plan year.

``(h) Actuarial Assumptions and Methods.--
``(1) In general.--Subject to this subsection, the determination of any present value or other computation under this section shall be made on the basis of actuarial assumptions and methods--
``(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and
``(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.
``(2) Interest rates.--
``(A) Effective interest rate.--For purposes of this section, the term `effective interest rate' means, with respect to any plan for any plan year, the single rate of interest which, if used to determine the present value of the plan's accrued or earned benefits referred to in subsection (d)(1), would result in an amount equal to the funding target of the plan for such plan year.
``(B) Interest rates for determining funding target.--For purposes of determining the funding target of
a plan for any plan year, the interest rate used in determining the present value of the liabilities of the plan shall be--
``(i) in the case of benefits reasonably determined to be payable during the 5-year period beginning on the first day of the plan year, the first segment rate with respect to the applicable month,
``(ii) in the case of benefits reasonably determined to be payable during the 15-year period beginning at the end of the period described in clause (i), the second segment rate with respect to the applicable month, and
``(iii) in the case of benefits reasonably determined to be payable after the period described in clause (ii), the third segment rate with respect to the applicable month.
``(C) Segment rates.--For purposes of this paragraph--
``(i) First segment rate.--The term `first segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 5-year period commencing with such month.
``(ii) Second segment rate.--The term `second segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 15-year period beginning at the end of the period described in clause (i).
``(iii) Third segment rate.--The term `third segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during periods beginning after the period described in clause (ii).
``(D) Corporate bond yield curve.--For purposes of this paragraph--
``(i) In general.--The term `corporate bond yield curve' means, with respect to any month, a yield curve which is prescribed by the Secretary for such month and which reflects the average, for the 24-month period ending with the month preceding such month, of monthly yields on investment grade corporate bonds with varying maturities and that are in the top 3 quality levels available.
``(ii) Election to use yield curve.--Solely for purposes of determining the minimum required contribution under this section, the plan sponsor may,

in lieu of the segment rates determined under subparagraph (C), elect to use interest rates under the corporate bond yield curve. For purposes of the preceding sentence such curve shall be determined without regard to the 24-month averaging described in clause (i). Such election, once made, may be revoked only with the consent of the Secretary.

``(E) Applicable month.--For purposes of this paragraph, the term `applicable month' means, with respect to any plan for any plan year, the month which includes the valuation date of such plan for such plan year or, at the election of the plan sponsor, any of the 4 months which precede such month. Any election made under this subparagraph shall apply to the plan year for which the election is made and all succeeding plan years, unless the election is revoked with the consent of the Secretary.

``(F) Publication requirements.--The Secretary shall publish for each month the corporate bond yield curve (and the corporate bond yield curve reflecting the modification described in section 417(e)(3)(D)(i)) for such month and each of the rates determined under subparagraph (B) for such month. The Secretary shall also publish a description of the methodology used to determine such yield curve and such rates which is sufficiently detailed to enable plans to make reasonable projections regarding the yield curve and such rates for future months based on the plan's projection of future interest rates.

``(G) Transition rule.--

``(i) In general.--Notwithstanding the preceding provisions of this paragraph, for plan years beginning in 2008 or 2009, the first, second, or third segment rate for a plan with respect to any month shall be equal to the sum of--

``(I) the product of such rate for such month determined without regard to this subparagraph, multiplied by the applicable percentage, and

``(II) the product of the rate determined under the rules of section 412(b)(5)(B)(ii)(II) (as in effect for plan years beginning in 2007), multiplied by a percentage equal to 100 percent minus the applicable percentage.

``(ii) Applicable percentage.--For purposes of clause (i), the applicable percentage is 33\1/3\ percent for plan years beginning in 2008 and 66\2/3\ percent for plan years beginning in 2009.

``(iii) New plans ineligible.--Clause (i) shall not apply to any plan if the first plan year of the plan begins after December 31, 2007.

``(iv) Election.--The plan sponsor may elect not to have this subparagraph apply. Such election, once made, may be revoked only with the consent of the Secretary.

``(3) Mortality tables.--

``(A) In general.--Except as provided in subparagraph (C) or (D), the Secretary shall by regulation prescribe mortality tables to be used in determining any present value or making any computation under this section. Such tables shall be based on the actual experience of pension plans and projected trends in such experience. In prescribing such tables, the Secretary shall take into account results of available independent studies of mortality of individuals covered by pension plans.

``(B) Periodic revision.--The Secretary shall (at least every 10 years) make revisions in any table in effect under subparagraph (A) to reflect the actual experience of pension plans and projected trends in such experience.

``(C) Substitute mortality table.--

``(i) In general.--Upon request by the plan sponsor and approval by the Secretary, a mortality table which meets the requirements of clause (iii) shall be used in determining any present value or making any computation under this section during the period of consecutive plan years (not to

exceed 10) specified in the request.
``(ii) Early termination of period.--
Notwithstanding clause (i), a mortality table
described in clause (i) shall cease to be in
effect as of the earliest of--
``(I) the date on which there is a
significant change in the participants
in the plan by reason of a plan spinoff
or merger or otherwise, or
``(II) the date on which the plan
actuary determines that such table does
not meet the requirements of clause
(iii).
``(iii) Requirements.--A mortality table meets
the requirements of this clause if--
``(I) there is a sufficient number
of plan participants, and the pension
plans have been maintained for a
sufficient period of time, to have
credible information necessary for
purposes of subclause (II), and
``(II) such table reflects the
actual experience of the pension plans
maintained by the sponsor and projected
trends in general mortality experience.
``(iv) All plans in controlled group must use
separate table.--Except as provided by the
Secretary, a plan sponsor may not use a mortality
table under this subparagraph for any plan
maintained by the plan sponsor unless--
``(I) a separate mortality table is
established and used under this
subparagraph for each other plan
maintained by the plan sponsor and if
the plan sponsor is a member of a
controlled group, each member of the
controlled group, and
``(II) the requirements of clause
(iii) are met separately with respect to
the table so established for each such
plan, determined by only taking into
account the participants of such plan,
the time such plan has been in
existence, and the actual experience of
such plan.
``(v) Deadline for submission and disposition
of application.--
``(I) Submission.--The plan sponsor
shall submit a mortality table to the
Secretary for
approval under this subparagraph at
least 7 months before the 1st day of the
period described in clause (i).
``(II) Disposition.--Any mortality
table submitted to the Secretary for
approval under this subparagraph shall
be treated as in effect as of the 1st
day of the period described in clause
(i) unless the Secretary, during the
180-day period beginning on the date of
such submission, disapproves of such
table and provides the reasons that such
table fails to meet the requirements of
clause (iii). The
180-day period shall be extended upon
mutual agreement of the Secretary and
the plan sponsor.
``(D) Separate mortality tables for the disabled.--
Notwithstanding subparagraph (A)--
``(i) In general.--The Secretary shall
establish mortality tables which may be used (in
lieu of the tables under subparagraph (A)) under
this subsection for individuals who are entitled
to benefits under the plan on account of
disability. The Secretary shall establish separate
tables for individuals whose disabilities occur in
plan years beginning before January 1, 1995, and
for individuals whose disabilities occur in plan
years beginning on or after such date.
``(ii) Special rule for disabilities occurring
after 1994.--In the case
of disabilities occurring

in plan years beginning after December 31, 1994, the tables under clause (i) shall apply only with respect to individuals described in such subclause who are disabled within the meaning of title II of the Social Security Act and the regulations thereunder.

``(iii) Periodic revision.--The Secretary shall (at least every 10 years) make revisions in any table in effect under clause (i) to reflect the actual experience of pension plans and projected trends in such experience.

``(4) Probability of benefit payments in the form of lump sums or other optional forms.--For purposes of determining any present value or making any computation under this section, there shall be taken into account--

``(A) the probability that future benefit payments under the plan will be made in the form of optional forms of benefits provided under the plan (including lump sum distributions, determined on the basis of the plan's experience and other related assumptions), and

``(B) any difference in the present value of such future benefit payments resulting from the use of actuarial assumptions, in determining benefit payments in any such optional form of benefits, which are different from those specified in this subsection.

``(5) Approval of large changes in actuarial assumptions.--

``(A) In general.--No actuarial assumption used to determine the funding target for a plan to which this paragraph applies may be changed without the approval of the Secretary.

``(B) Plans to which paragraph applies.--This paragraph shall apply to a plan only if--

``(i) the plan is a defined benefit plan (other than a multiemployer plan) to which title IV of the Employee Retirement Income Security Act of 1974 applies,

``(ii) the aggregate unfunded vested benefits as of the close of the preceding plan year (as determined under section 4006(a)(3)(E)(iii) of the Employee Retirement Income Security Act of 1974) of such plan and all other plans maintained by the contributing sponsors (as defined in section 4001(a)(13) of such Act) and members of such sponsors' controlled groups (as defined in section 4001(a)(14) of such Act) which are covered by title IV (disregarding plans with no unfunded vested benefits) exceed $50,000,000, and

``(iii) the change in assumptions (determined after taking into account any changes in interest rate and mortality table) results in a decrease in the funding shortfall of the plan for the current plan year that exceeds $50,000,000, or that exceeds $5,000,000 and that is 5 percent or more of the funding target of the plan before such change.

``(i) Special Rules for At-Risk Plans.--

``(1) Funding target for plans in at-risk status.--

``(A) In general.--In the case of a plan which is in at-risk status for a plan year, the funding target of the plan for the plan year shall be equal to the sum of--

``(i) the present value of all benefits accrued or earned under the plan as of the beginning of the plan year, as determined by using the additional actuarial assumptions described in subparagraph (B), and

``(ii) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor determined under subparagraph (C).

``(B) Additional actuarial assumptions.--The actuarial assumptions described in this subparagraph are as follows:

``(i) All employees who are not otherwise assumed to retire as of the valuation date but who will be eligible to elect benefits during the plan year and the 10 succeeding plan years shall be assumed to retire at the earliest retirement date under the plan but not before the end of the plan year for which the at-risk funding target and at-risk target normal cost are being determined.

``(ii) All employees shall be assumed to elect

the retirement benefit available under the plan at the assumed retirement age (determined after application of clause (i)) which would result in the highest present value of benefits.

``(C) Loading factor.--The loading factor applied with respect to a plan under this paragraph for any plan year is the sum of--

``(i) $700, times the number of participants in the plan, plus

``(ii) 4 percent of the funding target (determined without regard to this paragraph) of the plan for the plan year.

``(2) Target normal cost of at-risk plans.--In the case of a plan which is in at-risk status for a plan year, the target normal cost of the plan for such plan year shall be equal to the sum of--

``(A) the present value of all benefits which are expected to accrue or be earned under the plan during the plan year, determined using the additional actuarial assumptions described in paragraph (1)(B), plus

``(B) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor equal to 4 percent of the target normal cost (determined without regard to this paragraph) of the plan for the plan year.

``(3) Minimum amount.--In no event shall--

``(A) the at-risk funding target be less than the funding target, as determined without regard to this subsection, or

``(B) the at-risk target normal cost be less than the target normal cost, as determined without regard to this subsection.

``(4) Determination of at-risk status.--For purposes of this subsection--

``(A) In general.--A plan is in at-risk status for a plan year if--

``(i) the funding target attainment percentage for the preceding plan year (determined under this section without regard to this subsection) is less than 80 percent, and

``(ii) the funding target attainment percentage for the preceding plan year (determined under this section by using the additional actuarial assumptions described in paragraph (1)(B) in computing the funding target) is less than 70 percent.

``(B) Transition rule.--In the case of plan years beginning in 2008, 2009, and 2010, subparagraph (A)(i) shall be applied by substituting the following percentages for `80 percent':

``(i) 65 percent in the case of 2008.

``(ii) 70 percent in the case of 2009.

``(iii) 75 percent in the case of 2010.

In the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year under subparagraph (A)(ii) may be determined using such methods of estimation as the Secretary may provide.

``(C) Special rule for employees offered early retirement in 2006.--

``(i) In general.--For purposes of subparagraph (A)(ii), the additional actuarial assumptions described in paragraph (1)(B) shall not be taken into account with respect to any employee if--

``(I) such employee is employed by a specified automobile manufacturer,

``(II) such employee is offered a substantial amount of additional cash compensation, substantially enhanced retirement benefits under the plan, or materially reduced employment duties on the condition that by a specified date (not later than December 31, 2010) the employee retires (as defined under the terms of the plan),

``(III) such offer is made during 2006 and pursuant to a bona fide retirement incentive program and requires, by the terms of the offer, that such offer can be

accepted not later than a specified date (not later than December 31, 2006), and
``(IV) such employee does not elect to accept such offer before the specified date on which the offer expires.
``(ii) Specified automobile manufacturer.--For purposes of clause (i), the term `specified automobile manufacturer' means--
``(I) any manufacturer of automobiles, and
``(II) any manufacturer of automobile parts which supplies such parts directly to a manufacturer of automobiles and which, after a transaction or series of transactions ending in 1999, ceased to be a member of a controlled group which included such manufacturer of automobiles.

``(5) Transition between applicable funding targets and between applicable target normal costs.--
``(A) In general.--In any case in which a plan which is in at-risk status for a plan year has been in such status for a consecutive period of fewer than 5 plan years, the applicable amount of the funding target and of the target normal cost shall be, in lieu of the amount determined without regard to this paragraph, the sum of--
``(i) the amount determined under this section without regard to this subsection, plus
``(ii) the transition percentage for such plan year of the excess of the amount determined under this subsection (without regard to this paragraph) over the amount determined under this section without regard to this subsection.
``(B) Transition percentage.--For purposes of subparagraph (A), the transition percentage shall be determined in accordance with the following table:

``If the consecutive number of years (including the plan year) the plan is in at-risk status is--	The transition percentage is--
1	20
2	40
3	60
4	80.

``(C) Years before effective date.--For purposes of this paragraph, plan years beginning before 2008 shall not be taken into account.

``(6) Small plan exception.--If, on each day during the preceding plan year, a plan had 500 or fewer participants, the plan shall not be treated as in at-risk status for the plan year. For purposes of this paragraph, all defined benefit plans (other than multiemployer plans) maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account and the rules of subsection (g)(2)(C) shall apply.

``(j) Payment of Minimum Required Contributions.--
``(1) In general.--For purposes of this section, the due date for any payment of any minimum required contribution for any plan year shall be 8\1/2\ months after the close of the plan year.
``(2) Interest.--Any payment required under paragraph (1) for a plan year that is made on a date other than the valuation date for such plan year shall be adjusted for interest accruing for the period between the valuation date and the payment date, at the effective rate of interest for the plan for such plan year.
``(3) Accelerated quarterly contribution schedule for underfunded plans.--
``(A) Failure to timely make required installment.-- In any case in which the plan has a funding shortfall for the preceding plan year, the employer maintaining the plan shall make the required installments under this paragraph and if the employer fails to pay the full amount of a required installment for the plan year, then the amount of interest charged under paragraph (2) on the underpayment for the period of underpayment shall be

determined by using a rate of interest equal to the rate otherwise used under paragraph (2) plus 5 percentage points.

``(B) Amount of underpayment, period of underpayment.--For purposes of subparagraph (A)--

``(i) Amount.--The amount of the underpayment shall be the excess of--

``(I) the required installment, over

``(II) the amount (if any) of the installment contributed to or under the plan on or before the due date for the installment.

``(ii) Period of underpayment.--The period for which any interest is charged under this paragraph with respect to any portion of the underpayment shall run from the due date for the installment to the date on which such portion is contributed to or under the plan.

``(iii) Order of crediting contributions.--For purposes of clause (i)(II), contributions shall be credited against unpaid required installments in the order in which such installments are required to be paid.

``(C) Number of required installments; due dates.--For purposes of this paragraph--

``(i) Payable in 4 installments.--There shall be 4 required installments for each plan year.

``(ii) Time for payment of installments.--The due dates for required installments are set forth in the following table:

``In the case of the following required installment:	The due date is:
1st............................	April 15
2nd............................	July 15
3rd............................	October 15
4th............................	January 15 of the following year.

``(D) Amount of required installment.--For purposes of this paragraph--

``(i) In general.--The amount of any required installment shall be 25 percent of the required annual payment.

``(ii) Required annual payment.--For purposes of clause (i), the term `required annual payment' means the lesser of--

``(I) 90 percent of the minimum required contribution (determined without regard to this subsection) to the plan for the plan year under this section, or

``(II) 100 percent of the minimum required contribution (determined without regard to this subsection or to any waiver under section 302(c)) to the plan for the preceding plan year.

Subclause (II) shall not apply if the preceding plan year referred to in such clause was not a year of 12 months.

``(E) Fiscal years and short years.--

``(i) Fiscal years.--In applying this paragraph to a plan year beginning on any date other than January 1, there shall be substituted for the months specified in this paragraph, the months which correspond thereto.

``(ii) Short plan year.--This subparagraph shall be applied to plan years of less than 12 months in accordance with regulations prescribed by the Secretary.

``(4) Liquidity requirement in connection with quarterly contributions.--

``(A) In general.--A plan to which this paragraph applies shall be treated as failing to pay the full amount of any required installment under paragraph (3) to the extent that the value of the liquid assets paid in such installment is less than the liquidity shortfall (whether or not such liquidity shortfall exceeds the amount of such installment required to be paid but for this paragraph).

``(B) Plans to which paragraph applies.--This paragraph shall apply to a plan (other than a plan described in subsection (g)(2)(B)) which--

``(i) is required to pay installments under paragraph (3) for a plan year, and

``(ii) has a liquidity shortfall for any quarter during such plan year.

``(C) Period of underpayment.--For purposes of paragraph (3)(A), any portion of an installment that is treated as not paid under subparagraph (A) shall continue to be
treated as unpaid until the close of the quarter in which the due date for such installment occurs.

``(D) Limitation on increase.--If the amount of any required installment is increased by reason of subparagraph (A), in no event shall such increase exceed the amount which, when added to prior installments for the plan year, is necessary to increase the funding target attainment percentage of the plan for the plan year (taking into account the expected increase in funding target due to benefits accruing or earned during the plan year) to 100 percent.

``(E) Definitions.--For purposes of this paragraph--

``(i) Liquidity shortfall.--The term `liquidity shortfall' means, with respect to any required installment, an amount equal to the excess (as of the last day of the quarter for which such installment is made) of--

``(I) the base amount with respect to such quarter, over

``(II) the value (as of such last day) of the plan's liquid assets.

``(ii) Base amount.--

``(I) In general.--The term `base amount' means, with respect to any quarter, an amount equal to 3 times the sum of the adjusted disbursements from the plan for the 12 months ending on the last day of such quarter.

``(II) Special rule.--If the amount determined under subclause (I) exceeds an amount equal to 2 times the sum of the adjusted disbursements from the plan for the 36 months ending on the last day of the quarter and an enrolled actuary certifies to the satisfaction of the Secretary that such excess is the result of nonrecurring circumstances, the base amount with respect to such quarter shall be determined without regard to amounts related to those nonrecurring circumstances.

``(iii) Disbursements from the plan.--The term `disbursements from the plan' means all disbursements from the trust, including purchases of annuities, payments of single sums and other benefits, and administrative expenses.

``(iv) Adjusted disbursements.--The term `adjusted disbursements' means disbursements from the plan reduced by the product of--

The term `liquid assets'
means cash, marketable securities, and such other assets as specified by the Secretary in regulations.

``(vi) Quarter.--The term `quarter' means, with respect to any required installment, the 3-month period

``(1) In general.--In the case of a plan to which this subsection applies, if--

``(A) any person fails to make a contribution payment required by section 412 and this section before

the due date for such payment, and

``(B) the unpaid balance of such payment (including interest), when added to the aggregate unpaid balance of all preceding such payments for which payment was not made before the due date (including interest), exceeds $1,000,000,

then there shall be a lien in favor of the plan in the amount determined under paragraph (3) upon all property and rights to property, whether real or personal, belonging to such person and any other person who is a member of the same controlled group of which such person is a member.

``(2) Plans to which subsection applies.--This subsection shall apply to a defined benefit plan (other than a multiemployer plan) covered under section 4021 of the Employee Retirement Income Security Act of 1974 for any plan year for which the funding target attainment percentage (as defined in subsection (d)(2)) of such plan is less than 100 percent.

``(3) Amount of lien.--For purposes of paragraph (1), the amount of the lien shall be equal to the aggregate unpaid balance of contribution payments required under this section and section 412 for which payment has not been made before the due date.

``(4) Notice of failure; lien.--

``(A) Notice of failure.--
A person committing a failure described in paragraph (1) shall notify the Pension Benefit Guaranty Corporation of such failure within 10 days of the due date for the required contribution payment.

``(B) Period of lien.--The lien imposed by paragraph (1) shall arise on the due date for the required contribution payment and shall continue until the last day of the first plan year in which the plan ceases to be described in paragraph (1)(B). Such lien shall continue to run without regard to whether such plan continues to be described in paragraph (2) during the period referred to in the preceding sentence.

``(C) Certain rules to apply.--Any amount with respect to which a lien is imposed under paragraph (1) shall be treated as taxes due and owing the United States and rules similar to the rules of subsections (c), (d), and (e) of section 4068 of the Employee Retirement Income Security Act of 1974 shall apply with respect to a lien imposed by subsection (a) and the amount with respect to such lien.

``(5) Enforcement.--Any lien created under paragraph (1) may be perfected and enforced only by the Pension Benefit Guaranty Corporation, or at the direction of the Pension Benefit Guaranty Corporation, by the contributing sponsor (or any member of the controlled group of the contributing sponsor).

``(6) Definitions.--For purposes of this subsection--

``(A) Contribution payment.--The term `contribution payment' means, in connection with a plan, a contribution payment required to be made to the plan, including any required installment under paragraphs (3) and (4) of subsection (j).

``(B) Due date; required installment.--The terms `due date' and `required installment' have the meanings given such terms by subsection (j), except that in the case of a payment other than a required installment, the due date shall be the date such payment is required to be made under section 430.

(1) In general.--Part III of subchapter D of chapter 1 of the Internal Revenue Code of 1986 (relating to deferred compensation, etc.) is amended--

(A) by striking the heading and inserting the following:

``PART III--RULES RELATING TO MINIMUM FUNDING STANDARDS AND BENEFIT LIMITATIONS

``SEC. 436. FUNDING-BASED LIMITS ON BENEFITS AND BENEFIT ACCRUALS UNDER SINGLE-EMPLOYER PLANS.

``(a) General Rule.--For purposes of section 401(a)(29), a defined benefit plan which is a single-employer plan shall be treated as meeting the requirements of this section if the plan meets the requirements of subsections (b), (c), (d), and (e).

``(b) Funding-Based Limitation on Shutdown Benefits and Other Unpredictable Contingent Event Benefits Under Single-Employer Plans.--

``(1) In general.--If a participant of a defined benefit plan which is a single-employer plan is entitled to an unpredictable contingent event benefit payable with respect to any event occurring during any plan year, the plan shall provide that such benefit may not be provided if the adjusted funding target attainment percentage for such plan year--

``(A) is less than 60 percent, or

``(B) would be less than 60 percent taking into account such occurrence.

``(2) Exemption.--Paragraph (1) shall cease to apply with respect to any plan year,
effective as of the first day of the plan year, upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 303) equal to--

``(A) in the case of paragraph (1)(A), the amount of the increase in the funding target of the plan (under section 430) for the plan year attributable to the occurrence referred to in paragraph (1), and

``(B) in the case of paragraph (1)(B), the amount sufficient to result in a funding target attainment percentage of 60 percent.

``(3) Unpredictable contingent event.--For purposes of this subsection, the term `unpredictable contingent event benefit' means any benefit payable solely by reason of--

``(A) a plant shutdown (or similar event, as determined by the Secretary), or

``(B) any event other than the attainment of any age, performance of any service, receipt or derivation of any compensation, or occurrence of death or disability.

``(c) Limitations on Plan Amendments Increasing Liability for Benefits.--

``(1) In general.--No amendment to a defined benefit plan which is a single-employer plan which has the effect of increasing liabilities of the plan by reason of increases in benefits, establishment of new benefits, changing the rate of benefit accrual, or changing the rate at which benefits become nonforfeitable may take effect during any plan year if the adjusted funding target attainment percentage for such plan year is--

``(A) less than 80 percent, or

``(B) would be less than 80 percent taking into account such amendment.

``(2) Exemption.--Paragraph (1)
shall cease to apply with respect to any plan year, effective as of the first day of the plan year (or if later, the effective date of the amendment), upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 430) equal to--

``(A) in the case of paragraph (1)(A), the amount of the increase in the funding target of the plan (under section 430) for the plan year attributable to the amendment, and

``(B) in the case of paragraph (1)(B), the amount sufficient to result in an adjusted funding target attainment percentage of 80 percent.

``(3) Exception for certain benefit increases.--Paragraph (1) shall not apply to any amendment which provides for an increase in benefits under a formula which is not based on a participant's compensation, but only if the rate of such increase is not in excess of the contemporaneous rate of increase in average wages of participants covered by the amendment.

``(d) Limitations on Accelerated Benefit Distributions.--
``(1) Funding percentage less than 60 percent.--A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is less than 60 percent, the plan may not pay any prohibited payment after the valuation date for the plan year.
``(2) Bankruptcy.--A defined benefit plan which is a single-employer plan shall provide that, during any period in which the plan sponsor is a debtor in a case under title 11, United States Code, or similar Federal or State law, the plan may not pay any prohibited payment. The preceding sentence shall not apply on or after the date on which the enrolled actuary of the plan certifies that the adjusted funding target attainment percentage of such plan is not less than 100 percent.
``(3) Limited payment if percentage at least 60 percent but less than 80 percent.--
``(A) In general.--A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is 60 percent or greater but less than 80 percent, the plan may not pay any prohibited payment after the valuation date for the plan year to the extent the amount of the payment exceeds the lesser of--
``(i) 50 percent of the amount of the payment which could be made without regard to this section, or
``(ii) the present value (determined under guidance prescribed by the Pension Benefit Guaranty Corporation, using the interest and mortality assumptions under section 417(e)) of the maximum guarantee with respect to the participant under section 4022 of the Employee Retirement Income Security Act of 1974.
``(B) One-time application.--
``(i) In general.--The plan shall also provide that only 1 prohibited payment meeting the requirements of subparagraph (A) may be made with respect to any participant during any period of consecutive plan years to which the limitations under either paragraph (1) or (2) or this paragraph applies.
``(ii) Treatment of beneficiaries.--For purposes of this subparagraph, a participant and any beneficiary on his behalf (including an alternate payee, as defined in section 414(p)(8)) shall be treated as 1 participant. If the accrued benefit of a participant is allocated to such an alternate payee and 1 or more other persons, the amount under subparagraph (A) shall be allocated among such persons in the same manner as the accrued benefit is allocated unless the qualified domestic relations order (as defined in section 414(p)(1)(A)) provides otherwise.
``(4) Exception.--This subsection shall not apply to any plan for any plan year if the terms of such plan (as in effect for the period beginning on September 1, 2005, and ending with such plan year) provide for no benefit accruals with respect to any participant during such period.
``(5) Prohibited payment.--For purpose of this subsection, the term `prohibited payment' means--
``(A) any payment, in excess of the monthly amount paid under a single life annuity (plus any social security supplements described in the last sentence of section 411(a)(9)), to a participant or beneficiary whose annuity starting date (as defined in section 417(f)(2)) occurs during any period a limitation under paragraph (1) or (2) is in effect,
``(B) any payment for the purchase of an irrevocable commitment from an insurer to pay benefits, and
``(C) any other payment specified by the Secretary by regulations.
``(e) Limitation on Benefit Accruals for Plans With Severe Funding Shortfalls.--
``(1) In general.--A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is less than 60 percent, benefit accruals under the plan shall cease as of the valuation date for the plan year.
``(2) Exemption.--Paragraph (1) shall cease to apply with

respect to any plan year, effective as of the first day of the plan year, upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 430) equal to the amount sufficient to result in an adjusted funding target attainment percentage of 60 percent.

``(f) Rules Relating to Contributions Required to Avoid Benefit Limitations.--

``(1) Security may be provided.--

``(A) In general.--For purposes of this section, the adjusted funding target attainment percentage shall be determined by treating as an asset of the plan any security provided by a plan sponsor in a form meeting the requirements of subparagraph (B).

``(B) Form of security.--The security required under subparagraph (A) shall consist of--

``(i) a bond issued by a corporate surety company that is an acceptable surety for purposes of section
412 of the Employee Retirement Income Security Act of 1974,

``(ii) cash, or United States obligations which mature in 3 years or less, held in escrow by a bank or similar financial institution, or

``(iii) such other form of security as is satisfactory to the Secretary and the parties involved.

``(C) Enforcement.--Any security provided under subparagraph (A) may be perfected and enforced at any time after the earlier of--

``(i) the date on which the plan terminates,

``(ii) if there is a failure to make a payment of the minimum required contribution for any plan year beginning after the security is provided, the due date for the payment under section 430(j), or

``(iii) if the adjusted funding target attainment percentage is less than 60 percent for a consecutive period of 7 years, the valuation date for the last year in the period.

``(D) Release of security.--
The security shall be released
(and any amounts thereunder shall be refunded together with any interest accrued thereon) at such time as the Secretary may prescribe in regulations, including regulations for partial releases of the security by reason of increases in the funding target attainment percentage.

``(2) Prefunding balance or funding standard carryover balance may not be used.--No prefunding balance under section 430(f) or funding standard carryover balance may be used under subsection (b), (c), or (e) to satisfy any payment an employer may make under any such subsection to avoid or terminate the application of any limitation under such subsection.

``(3) Deemed reduction of funding balances.--

``(A) In general.--Subject to subparagraph (C), in any case in which a benefit limitation under subsection (b), (c), (d), or (e) would (but for this subparagraph and determined without regard to subsection (b)(2), (c)(2), or (e)(2)) apply to such plan for the plan year, the plan sponsor of such plan shall be treated for purposes of this title as having made an election under section 430(f) to reduce the prefunding balance or funding standard carryover balance by such amount as is necessary for such benefit limitation to not apply to the plan for such plan year.

``(B) Exception for insufficient funding balances.--
Subparagraph (A) shall not apply with respect to a benefit limitation for any plan year if the application of subparagraph (A) would not result in the benefit limitation not applying for such plan year.

``(C) Restrictions of certain rules to collectively bargained plans.--With respect to any benefit limitation under subsection (b), (c), or (e), subparagraph (A) shall only apply in the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers.

``(g) New Plans.--Subsections (b), (c), and (e) shall not apply to a plan for the first 5 plan years of the plan. For purposes of this subsection, the reference in this subsection to a plan shall include a reference to any predecessor plan.

``(h) Presumed Underfunding for Purposes of Benefit Limitations.--

``(1) Presumption of continued underfunding.--In any case in which a benefit limitation under subsection (b), (c), (d), or (e) has been applied to a plan with respect to the plan year preceding the current plan year, the adjusted funding target attainment percentage of the plan for the current plan year shall be presumed to be equal to the adjusted funding target attainment percentage of the plan for the preceding plan year until the enrolled actuary of the plan certifies the actual adjusted funding target attainment percentage of the plan for the current plan year.

``(2) Presumption of underfunding after 10th month.--In any case in which no certification of the adjusted funding target attainment percentage for the current plan year is made with respect to the plan before the first day of the 10th month of such year, for purposes of subsections (b), (c), (d), and (e), such first day shall be deemed, for purposes of such subsection, to be the valuation date of the plan for the current plan year and the plan's adjusted funding target attainment percentage shall be conclusively presumed to be less than 60 percent as of such first day.

``(3) Presumption of underfunding after 4th month for nearly underfunded plans.--In any case in which--

``(A) a benefit limitation under subsection (b), (c), (d), or (e) did not apply to a plan with respect to the plan year preceding the current plan year, but the adjusted funding target attainment percentage of the plan for such preceding plan year was not more than 10 percentage points greater than the percentage which would have caused such subsection to apply to the plan with respect to such preceding plan year, and

``(B) as of the first day of the 4th month of the current plan year, the enrolled actuary of the plan has not certified the actual adjusted funding target attainment percentage of the plan for the current plan year,

until the enrolled actuary so certifies, such first day shall be deemed, for purposes of such subsection, to be the valuation date of the plan for the current plan year and the adjusted funding target attainment percentage of the plan as of such first day shall, for purposes of such subsection, be presumed to be equal to 10 percentage points less than the adjusted funding target attainment percentage of the plan for such preceding plan year.

``(i) Treatment of Plan as of Close of Prohibited or Cessation Period.--For purposes of applying this title--

``(1) Operation of plan after period.--Unless the plan provides otherwise, payments and accruals will resume effective as of the day following the close of the period for which any limitation of payment or accrual of benefits under subsection (d) or (e) applies.

``(2) Treatment of affected benefits.--Nothing in this subsection shall be construed as affecting the plan's treatment of benefits which would have been paid or accrued but for this section.

``(j) Terms Relating to Funding Target Attainment Percentage.--For purposes of this section--

``(1) In general.--The term `funding target attainment percentage' has the same meaning given such term by section 430(d)(2).

``(2) Adjusted funding target attainment percentage.--The term `adjusted funding target attainment percentage' means the funding target attainment percentage which is determined under paragraph (1) by increasing each of the amounts under subparagraphs (A) and (B) of section 430(d)(2) by the aggregate amount of purchases of annuities for employees other than highly compensated employees (as defined in section 414(q)) which were made by the plan during the preceding 2 plan years.

``(3) Application to plans which are fully funded without regard to reductions for funding balances.--

``(A) In general.--In the case of a plan for any plan year, if the funding target attainment percentage is 100 percent or more (determined without regard to this paragraph and without regard to the reduction in the value of assets under section 430(f)(4)(A)), the funding target attainment percentage for purposes of paragraph (1) shall be determined without regard to such reduction.

``(B) Transition rule.--
Subparagraph (A) shall be applied to plan years beginning after 2007 and before 2011 by substituting for `100 percent' the applicable percentage determined in accordance with the following table:

``In the case of a pThe applicable...........................
beginning in calenpercentage is............................

2008...	92
2009...	94
2010...	96.

``(C) Limitation.--Subparagraph (B) shall not apply with respect to any plan year after 2008 unless the funding target attainment percentage (determined without regard to this paragraph) of the plan for each preceding plan year after 2007 was not less than the applicable percentage with respect to such preceding plan year determined under subparagraph (B).

``(k) Special Rule for 2008.--For purposes of this section, in the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year may be determined using such methods of estimation as the Secretary may provide.''.

(2) Clerical amendment.--The table of parts for subchapter D of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new item:

``Part III--Rules Relating to Minimum Funding Standards and Benefit Limitations''.

(b) Effective Date.--

``(ii) such payment shall be taken into account in determining the amount of the additional tax under subsection (a)(1)(B)(i)(II) in the same manner as if such payment was part of the deferred compensation to which it relates, and

1974

SEC. 201. FUNDING RULES FOR MULTIEMPLOYER DEFINED BENEFIT PLANS.

(a) In General.--Part 3 of subtitle B of title I of the Employee
Retirement Income Security Act of 1974 (as amended by this Act) is
amended by inserting after section 303 the following new section:

``MINIMUM FUNDING STANDARDS FOR MULTIEMPLOYER PLANS

``Sec. 304. (a) In General.--For purposes of
section 302, the accumulated funding deficiency of a multiemployer plan
for any plan year is--

``(1) except as provided in paragraph (2), the amount,
determined as of the end of the plan year, equal to the excess
(if any) of the total charges to the funding standard account of
the plan for all plan years (beginning with the first plan year
for which this part applies to the plan) over the total credits
to such account for such years, and

``(2) if the multiemployer plan is in reorganization for any
plan year, the accumulated funding deficiency of the plan
determined under section 4243.

``(b) Funding Standard Account.--

``(1) Account required.--Each multiemployer plan to which
this part applies shall establish and maintain a funding
standard account. Such account shall be credited and charged
solely as provided in this section.

``(2) Charges to account.--For a plan year, the funding
standard account shall be charged with the sum of--

``(A) the normal cost of the plan for the plan year,

``(B) the amounts necessary to amortize in equal
annual installments (until fully amortized)--

``(i) in the case of a plan which comes into
existence on or after January 1, 2008, the
unfunded past service liability under the plan on
the first day of the first plan year to which this
section applies, over a period of 15 plan years,

``(ii) separately, with respect to each plan
year, the net increase (if any) in unfunded past
service liability under the plan arising from plan
amendments adopted in such year, over a period of
15 plan years,

``(iii) separately, with respect to each plan
year, the net experience loss (if any) under the
plan, over a period of 15 plan years, and

``(iv) separately, with respect to each plan
year, the net loss (if any) resulting from changes
in actuarial assumptions used under the plan, over
a period of 15 plan years,

``(C) the amount necessary to amortize each waived
funding deficiency (within the meaning of section
302(c)(3)) for each prior plan year in equal annual
installments (until fully amortized) over a period of 15
plan years,

``(D) the amount necessary to amortize in equal
annual installments (until fully amortized) over a
period of 5 plan years any amount credited to the
funding standard account under section 302(b)(3)(D) (as
in effect on the day before the date of the enactment of
the Pension Protection Act of 2006), and

``(E) the amount necessary to amortize in equal
annual installments (until fully amortized) over a
period of 20 years the contributions which would be
required to be made under the plan but for the
provisions of section 302(c)(7)(A)(i)(I) (as in effect
on the day before the date of the enactment of the
Pension Protection Act of 2006).

``(3) Credits to account.--For a plan year, the funding standard account shall be credited with the sum of--

``(A) the amount considered contributed by the employer to or under the plan for the plan year,

``(B) the amount necessary to amortize in equal annual installments (until fully amortized)--

``(i) separately, with respect to each plan year, the net decrease (if any) in unfunded past service liability under the plan arising from plan amendments adopted in such year, over a period of 15 plan years,

``(ii) separately, with respect to each plan year, the net experience gain (if any) under the plan, over a period of 15 plan years, and

``(iii) separately, with respect to each plan year, the net gain (if any) resulting from changes in actuarial assumptions used under the plan, over a period of 15 plan years,

``(C) the amount of the waived funding deficiency (within the meaning of section 302(c)(3)) for the plan year, and

``(D) in the case of a plan year for which the accumulated funding deficiency is determined under the funding standard account if such plan year follows a plan year for which such deficiency was determined under the alternative minimum funding standard under section 305 (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006), the excess (if any) of any debit balance in the funding standard account (determined without regard to this subparagraph) over any debit balance in the alternative minimum funding standard account.

``(4) Special rule for amounts first amortized in plan years before 2008.--In the case of any amount amortized under section 302(b) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006) over any period beginning with a plan year beginning before 2008, in lieu of the amortization described in paragraphs (2)(B) and (3)(B), such amount shall continue to be amortized under such section as so in effect.

``(5) Combining and offsetting amounts to be amortized.--Under regulations prescribed by the Secretary of the Treasury, amounts required to be amortized under paragraph (2) or paragraph (3), as the case may be--

``(A) may be combined into one amount under such paragraph to be amortized over a period determined on the basis of the remaining amortization period for all items entering into such combined amount, and

``(B) may be offset against amounts required to be amortized under the other such paragraph, with the resulting amount to be amortized over a period determined on the basis of the remaining amortization periods for all items entering into whichever of the two amounts being offset is the greater.

``(6) Interest.--The funding standard account (and items therein) shall be charged or credited (as determined under regulations prescribed by the Secretary of the Treasury) with interest at the appropriate rate consistent with the rate or rates of interest used under the plan to determine costs.

``(7) Special rules relating to charges and credits to funding standard account.--For purposes of this part--

``(A) Withdrawal liability.--Any amount received by a multiemployer plan in payment of all or part of an employer's withdrawal liability under part 1 of subtitle E of title IV shall be considered an amount contributed by the employer to or under the plan. The Secretary of the Treasury may prescribe by regulation additional charges and credits to a multiemployer plan's funding standard account to the extent necessary to prevent withdrawal liability payments from being unduly reflected as advance funding for plan liabilities.

``(B) Adjustments when a multiemployer plan leaves reorganization.--If a multiemployer plan is not in reorganization in the plan year but was in reorganization in the immediately preceding plan year, any balance in the funding standard account at the close of such immediately preceding plan year--

``(i) shall be eliminated by an offsetting credit or charge (as the case may be), but

``(ii) shall be taken into account in

subsequent plan years by being amortized in equal annual installments (until fully amortized) over 30 plan years.

The preceding sentence shall not apply to the extent of any accumulated funding deficiency under section 4243(a) as of the end of the last plan year that the plan was in reorganization.

``(C) Plan payments to supplemental program or withdrawal liability payment fund.--Any amount paid by a plan during a plan year to the Pension Benefit Guaranty Corporation pursuant to section 4222 of this Act or to a fund exempt under section 501(c)(22) of the Internal Revenue Code of 1986 pursuant to section 4223 of this Act shall reduce the amount of contributions considered received by the plan for the plan year.

``(D) Interim withdrawal liability payments.--Any amount paid by an employer pending a final determination of the employer's withdrawal liability under part 1 of subtitle E of title IV and subsequently refunded to the employer by the plan shall be charged to the funding standard account in accordance with regulations prescribed by the Secretary of the Treasury.

``(E) Election for deferral of charge for portion of net experience loss.--If an election is in effect under section 302(b)(7)(F) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006) for any plan year, the funding standard account shall be charged in the plan year to which the portion of the net experience loss deferred by such election was deferred with the amount so deferred (and paragraph (2)(B)(iii) shall not apply to the amount so charged).

``(F) Financial assistance.--Any amount of any financial assistance from the Pension Benefit Guaranty Corporation to any plan, and any repayment of such amount, shall be taken into account under this section and section 302 in such manner as is determined by the Secretary of the Treasury.

``(G) Short-term benefits.--To the extent that any plan amendment increases the unfunded past service liability under the plan by reason of an increase in benefits which are not payable as a life annuity but are payable under the terms of the plan for a period that does not exceed 14 years from the effective date of the amendment, paragraph (2)(B)(ii) shall be applied separately with respect to such increase in unfunded past service liability by substituting the number of years of the period during which such benefits are payable for `15'.

``(c) Additional Rules.--

``(1) Determinations to be made under funding method.--For purposes of this part, normal costs, accrued liability, past service liabilities, and experience gains and losses shall be determined under the funding method used to determine costs under the plan.

``(2) Valuation of assets.--

``(A) In general.--

For purposes of this part, the value of the plan's assets shall be determined on the basis of any reasonable actuarial method of valuation which takes into account fair market value and which is permitted under regulations prescribed by the Secretary of the Treasury.

``(B) Election with respect to bonds.--The value of a bond or other evidence of indebtedness which is not in default as to principal or interest may, at the election of the plan administrator, be determined on an amortized basis running from initial cost at purchase to par value at maturity or earliest call date. Any election under this subparagraph shall be made at such time and in such manner as the Secretary of the Treasury shall by regulations provide, shall apply to all such evidences of indebtedness, and may be revoked only with the consent of such Secretary.

``(3) Actuarial assumptions must be reasonable.--For purposes of this section, all costs, liabilities, rates of interest, and other factors under the plan shall be determined on the basis of actuarial assumptions and methods--

``(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and

``(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

``(4) Treatment of certain changes as experience gain or loss.--For purposes of this section, if--

``(A) a change in benefits under the Social Security Act or in other retirement benefits created under Federal or State law, or

``(B) a change in the definition of the term `wages' under section 3121 of the Internal Revenue Code of 1986, or a change in the amount of such wages taken into account under regulations prescribed for purposes of section 401(a)(5) of such Code,

results in an increase or decrease in accrued liability under a plan, such increase or decrease shall be treated as an experience loss or gain.

``(5) Full funding.--If, as of the close of a plan year, a plan would (without regard to this paragraph) have an accumulated funding deficiency in excess of the full funding limitation--

``(A) the funding standard account shall be credited with the amount of such excess, and

``(B) all amounts described in subparagraphs (B), (C), and (D) of subsection (b) (2) and subparagraph (B) of subsection (b)(3) which are required to be amortized shall be considered fully amortized for purposes of such subparagraphs.

``(6) Full-funding limitation.--

``(A) In general.--For purposes of paragraph (5), the term `full-funding limitation' means the excess (if any) of--

``(i) the accrued liability (including normal cost) under the plan (determined under the entry age normal funding method if such accrued liability cannot be directly calculated under the funding method used for the plan), over

``(ii) the lesser of--

``(I) the fair market value of the plan's assets, or

``(II) the value of such assets determined under paragraph (2).

``(B) Minimum amount.--

``(i) In general.--In no event shall the full-funding limitation determined under subparagraph (A) be less than the excess (if any) of--

``(I) 90 percent of the current liability of the plan (including the expected increase in current liability due to benefits accruing during the plan year), over

``(II) the value of the plan's assets determined under paragraph (2).

``(ii) Assets.--For purposes of clause (i), assets shall not be reduced by any credit balance in the funding standard account.

``(C) Full funding limitation.--For purposes of this paragraph, unless otherwise provided by the plan, the accrued liability under a multiemployer plan shall not include benefits which are not nonforfeitable under the plan after the termination of the plan (taking into consideration section 411(d)(3) of the Internal Revenue Code of 1986).

``(D) Current liability.--For purposes of this paragraph--

``(i) In general.--The term `current liability' means all liabilities to employees and their beneficiaries under the plan.

``(ii) Treatment of unpredictable contingent event benefits.--For purposes of clause (i), any benefit contingent on an event other than--

``(I) age, service, compensation, death, or disability, or

``(II) an event which is reasonably and reliably predictable (as determined by the Secretary of the Treasury),

shall not be taken into account until the event on which the benefit is contingent occurs.

``(iii) Interest rate used.--The rate of interest used to determine current liability under this paragraph shall be the rate of interest determined under subparagraph (E).

``(iv) Mortality tables.--

``(I) Commissioners' standard table.--In the case of plan years beginning before the first plan year to which the first tables prescribed under subclause (II) apply, the mortality table used in determining current liability under this paragraph shall be the table prescribed by the Secretary of the Treasury which is based on the prevailing commissioners' standard table (described in section 807(d)(5)(A) of the Internal Revenue Code of 1986) used to determine reserves for group annuity contracts issued on January 1, 1993.

``(II) Secretarial authority.--The Secretary of the Treasury may by regulation prescribe for plan years beginning after December 31, 1999, mortality tables to be used in determining current liability under this subsection. Such tables shall be based upon the actual experience of pension plans and projected trends in such experience. In prescribing such tables, such Secretary shall take into account results of available independent studies of mortality of individuals covered by pension plans.

``(v) Separate mortality tables for the disabled.--Notwithstanding clause (iv)--

``(I) In general.--The Secretary of the Treasury shall establish mortality tables which may be used (in lieu of the tables under clause (iv)) to determine current liability under this subsection for individuals who are entitled to benefits under the plan on account of disability. Such Secretary shall establish separate tables for individuals whose disabilities occur in plan years beginning before January 1, 1995, and for individuals whose disabilities occur in plan years beginning on or after such date.

``(II) Special rule for disabilities occurring after 1994.--In the case of disabilities occurring in plan years beginning after December 31, 1994, the tables under subclause (I) shall apply only with respect to individuals described in such subclause who are disabled within the meaning of title II of the Social Security Act and the regulations thereunder.

``(vi) Periodic review.--The Secretary of the Treasury shall periodically (at least every 5 years) review any tables in effect under this subparagraph and shall, to the extent such Secretary determines necessary, by regulation update the tables to reflect the actual experience of pension plans and projected trends in such experience.

``(E) Required change of interest rate.--For purposes of determining a plan's current liability for purposes of this paragraph--

``(i) In general.--If any rate of interest used under the plan under subsection (b)(6) to determine cost is not within the permissible range, the plan shall establish a new rate of interest within the permissible range.

``(ii) Permissible range.--For purposes of this subparagraph--

``(I) In general.--Except as provided in subclause (II), the term `permissible range' means a rate of interest which is not more than 5 percent above, and not more than 10 percent below, the weighted average of the rates of interest on 30-year

Treasury securities during the 4-year period
ending on the last day before the beginning of the plan year.

``(II) Secretarial authority.--If the Secretary of the Treasury finds that the lowest rate of interest permissible under subclause (I) is unreasonably high, such Secretary may prescribe a lower rate of interest, except that such rate may not be less than 80 percent of the average rate determined under such subclause.

``(iii) Assumptions.--Notwithstanding paragraph (3)(A), the interest rate used under the plan shall be--

``(I) determined without taking into account the experience of the plan and reasonable expectations, but

``(II) consistent with the assumptions which reflect the purchase rates which would be used by insurance companies to satisfy the liabilities under the plan.

``(7) Annual valuation.--

``(A) In general.--
For purposes of this section, a determination of experience gains and losses and a valuation of the plan's liability shall be made not less frequently than once every year, except that such determination shall be made more frequently to the extent required in particular cases under regulations prescribed by the Secretary of the Treasury.

``(B) Valuation date.--

``(i) Current year.--Except as provided in clause (ii), the valuation referred to in subparagraph (A) shall be made as of a date within the plan year to which the valuation refers or within one month prior to the beginning of such year.

``(ii) Use of prior year valuation.--The valuation referred to in subparagraph (A) may be made as of a date within the plan year prior to the year to which the valuation refers if, as of such date, the value of the assets of the plan are not less than 100 percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

``(iii) Adjustments.--Information under clause (ii) shall, in accordance with regulations, be actuarially adjusted to reflect significant differences in participants.

``(iv) Limitation.--A change in funding method to use a prior year valuation, as provided in clause (ii), may not be made unless as of the valuation date within the prior plan year, the value of the assets of the plan are not less than 125 percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

``(8) Time when certain contributions deemed made.--For purposes of this section, any contributions for a plan year made by an employer after the last day of such plan year, but not later than two and one-half months after such day, shall be deemed to have been made on such last day. For purposes of this subparagraph, such two and one-half month period may be extended for not more than six months under regulations prescribed by the Secretary of the Treasury.

``(d) Extension of Amortization Periods for Multiemployer Plans.--

``(1) Automatic extension upon application by certain plans.--

``(A) In general.--If the plan sponsor of a multiemployer plan--

``(i) submits to the Secretary of the Treasury an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), and

``(ii) includes with the application a certification by the plan's actuary described in subparagraph (B),

the Secretary of the Treasury shall extend the amortization period for the period of time (not in excess of 5 years) specified in the application. Such extension shall be in addition to any extension under paragraph (2).

``(B) Criteria.--A certification with respect to a multiemployer plan is described in this subparagraph if the plan's actuary certifies that, based on reasonable assump- tions--

``(i) absent the extension under subparagraph (A), the plan would have an accumulated funding deficiency in the current plan year or any of the 9 succeeding plan years,

``(ii) the plan sponsor has adopted a plan to improve the plan's funding status,

``(iii) the plan is projected to have sufficient assets to timely pay expected benefits and anticipated expenditures over the amortization period as extended, and

``(iv) the notice required under paragraph (3)(A) has been provided.

``(C) Termination.--The preceding provisions of this paragraph shall not apply with respect to any application submitted after December 31, 2014.

``(2) Alternative extension.--

``(A) In general.--If the plan sponsor of a multiemployer plan submits to the Secretary of the Treasury an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), the Secretary of the Treasury may extend the amortization period for a period of time (not in excess of 10 years reduced by the number of years of any extension under paragraph (1) with respect to such unfunded liability) if the Secretary of the Treasury makes the determination described in subparagraph (B). Such extension shall be in addition to any extension under paragraph (1).

``(B) Determination.--The Secretary of the Treasury may grant an extension under subparagraph (A) if such Secretary determines that--

``(i) such extension would carry out the purposes of this Act and would provide adequate protection for participants under the plan and their beneficiaries, and

``(ii) the failure to permit such extension would--

``(I) result in a substantial risk to the voluntary continuation of the plan, or a substantial curtailment of pension benefit levels or employee compensation, and

``(II) be adverse to the interests of plan participants in the aggregate.

``(C) Action by secretary of the treasury.--The Secretary of the Treasury shall act upon any application for an extension under this paragraph within 180 days of the submission of such application. If such Secretary rejects the application for an extension under this paragraph, such Secretary shall provide notice to the plan detailing the specific reasons for the rejection, including references to the criteria set forth above.

``(3) Advance notice.--

``(A) In general.--The Secretary of the Treasury shall, before granting an extension under this subsection, require each applicant to provide evidence satisfactory to such Secretary that the applicant has provided notice of the filing of the application for such extension to each affected party (as defined in section 4001(a)(21)) with respect to the affected plan. Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV and for benefit liabilities.

``(B) Consideration of relevant information.--The Secretary of the Treasury shall consider any relevant information provided by a person to whom notice was given under paragraph (1).''.

(b) Shortfall Funding Method.--

(1) In general.--A multiemployer plan meeting the criteria of paragraph (2) may adopt, use, or cease using, the shortfall funding method and such adoption, use, or cessation of use of such method, shall be deemed approved by the Secretary of the Treasury under section 302(d)(1) of the Employee Retirement Income Security Act of 1974 and section 412(d)(1) of the Internal Revenue Code of 1986.

(2) Criteria.--A multiemployer pension plan meets the criteria of this clause if--

(A) the plan has not used the shortfall funding method during the 5-year period ending on the day before the date the plan is to use the method under paragraph (1); and

(B) the plan is not operating under an amortization period extension under section 304(d) of such Act and did not operate under such an extension during such 5-year period.

(3) Shortfall funding method defined.--For purposes of this subsection, the term ``shortfall funding method'' means the shortfall funding method described in Treasury Regulations section 1.412(c)(1)-2 (26 CFR 1.412(c)(1)-2).

(4) Benefit restrictions to apply.--The benefit restrictions under section 302(c)(7) of such Act and section 412(c)(7) of such Code shall apply during any period a multiemployer plan is on the shortfall funding method pursuant to this subsection.

(5) Use of shortfall method not to preclude other options.--Nothing in this subsection shall be construed to affect a multiemployer plan's ability to adopt the shortfall funding method with the Secretary's permission under otherwise applicable regulations or to affect a multiemployer plan's right to change funding methods, with or without the Secretary's consent, as provided in applicable rules and regulations.

(c) Conforming Amendments.--

(1) Section 301 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1081) is amended by striking subsection (d).

(2) The table of contents in section 1 of such Act (as amended by this Act) is amended by inserting after the item relating to section 303 the following new item:

``Sec. 304. Minimum funding standards for multiemployer plans.''.

(d) Effective Date.--

(1) In general.--The amendments made by this section shall apply to plan years beginning after 2007.

(2) Special rule for certain amortization extensions.--If the Secretary of the Treasury grants an extension under section 304 of the Employee Retirement Income Security Act of 1974 and section 412(e) of the Internal Revenue Code of 1986 with respect to any application filed with the Secretary of the Treasury on or before June 30, 2005, the extension (and any modification thereof) shall be applied and administered under the rules of such sections as in effect before the enactment of this Act, including the use of the rate of interest determined under section 6621(b) of such Code.

SEC. 202. ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED OR CRITICAL STATUS.

(a) In General.--Part 3 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 (as amended by the preceding provisions of this Act) is amended by inserting after section 304 the following new section:

``ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED STATUS OR CRITICAL STATUS

``Sec. 305. (a) General Rule.--For purposes of this part, in the case of a multiemployer plan in effect on July 16, 2006--

``(1) if the plan is in endangered status--

``(A) the plan sponsor shall adopt and implement a funding improvement plan in accordance with the requirements of subsection (c), and

``(B) the requirements of subsection (d) shall apply during the funding plan adoption period and the funding improvement period, and

``(2) if the plan is in critical status--

``(A) the plan sponsor shall adopt and implement a rehabilitation plan in accordance with the requirements of subsection (e), and

``(B) the requirements of subsection (f) shall apply during the rehabilitation plan adoption period and the rehabilitation period.

``(b) Determination of Endangered and Critical Status.--For purposes of this section--

``(1) Endangered status.--A multiemployer plan is in

endangered status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is not in critical status for the plan year and, as of the beginning of the plan year, either--

``(A) the plan's funded percentage for such plan year is less than 80 percent, or

``(B) the plan has an accumulated funding deficiency for such plan year, or is projected to have such an accumulated funding deficiency for any of the 6 succeeding plan years, taking into account any extension of amortization periods under section 304(d).

For purposes of this section, a plan shall be treated as in seriously endangered status for a plan year if the plan is described in both subparagraphs (A) and (B).

``(2) Critical status.--A multiemployer plan is in critical status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is described in 1 or more of the following subparagraphs as of the beginning of the plan year:

``(A) A plan is described in this subparagraph if--

``(i) the funded percentage of the plan is less than 65 percent, and

``(ii) the sum of--

``(I) the fair market value of plan assets, plus

``(II) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 6 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all nonforfeitable benefits projected to be payable under the plan during the current plan year and each of the 6 succeeding plan years (plus administrative expenses for such plan years).

``(B) A plan is described in this subparagraph if--

``(i) the plan has an accumulated funding deficiency for the current plan year, not taking into account any extension of amortization periods under section 304(d), or

``(ii) the plan is projected to have an accumulated funding deficiency for any of the 3 succeeding plan years (4 succeeding plan years if the funded percentage of the plan is 65 percent or less), not taking into account any extension of amortization periods under section 304(d).

``(C) A plan is described in this subparagraph if--

``(i)(I) the plan's normal cost for the current plan year, plus interest (determined at the rate used for determining costs under the plan) for the current plan year on the amount of unfunded benefit liabilities under the plan as of the last date of the preceding plan year, exceeds

``(II) the present value of the reasonably anticipated employer and employee contributions for the current plan year,

``(ii) the present value, as of the beginning of the current plan year, of nonforfeitable benefits of inactive participants is greater than the present value of nonforfeitable benefits of active participants, and

``(iii) the plan has an accumulated funding deficiency for the current plan year, or is projected to have such a deficiency for any of the 4 succeeding plan years, not taking into account any extension of amortization periods under section 304(d).

``(D) A plan is described in this subparagraph if the sum of--

``(i) the fair market value of plan assets, plus

``(ii) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 4 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all benefits projected

to be payable under the plan during the current plan year and each of the 4 succeeding plan years (plus administrative expenses for such plan years).

``(3) Annual certification by plan actuary.--

``(A) In general.--Not later than the 90th day of each plan year of a multiemployer plan, the plan actuary shall certify to the Secretary of the Treasury and to the plan sponsor--

``(i) whether or not the plan is in endangered status for such plan year and whether or not the plan is or will be in critical status for such plan year, and

``(ii) in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

``(B) Actuarial projections of assets and liabilities.--

``(i) In general.--In making the determinations and projections under this subsection, the plan actuary shall make projections required for the current and succeeding plan years of the current value of the assets of the plan and the present value of all liabilities to participants and beneficiaries under the plan for the current plan year as of the beginning of such year. The actuary's projections shall be based on reasonable actuarial estimates, assumptions, and methods that, except as provided in clause (iii), offer the actuary's best estimate of anticipated experience under the plan. The projected present value of liabilities as of the beginning of such year shall be determined based on the most recent of either--

``(I) the actuarial statement required under section 103(d) with respect to the most recently filed annual report, or

``(II) the actuarial valuation for the preceding plan year.

``(ii) Determinations of future contributions.--Any actuarial projection of plan assets shall assume--

``(I) reasonably anticipated employer contributions for the current and succeeding plan years, assuming that the terms of the one or more collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years, or

``(II) that employer contributions for the most recent plan year will continue indefinitely, but only if the plan actuary determines there have been no significant demographic changes that would make such assumption unreasonable.

``(iii) Projected industry activity.--Any projection of activity in the industry or industries covered by the plan, including future covered employment and contribution levels, shall be based on information provided by the plan sponsor, which shall act reasonably and in good faith.

``(C) Penalty for failure to secure timely actuarial certification.--Any failure of the plan's actuary to certify the plan's status under this subsection by the date specified in subparagraph (A) shall be treated for purposes of section 502(c)(2) as a failure or refusal by the plan administrator to file the annual report required to be filed with the Secretary under section 101(b)(4).

``(D) Notice.--

``(i) In general.--In any case in which it is certified under subparagraph (A) that a multiemployer plan is or will be in endangered or critical status for a plan year, the plan sponsor shall, not later than 30 days after the date of the certification, provide notification of the endangered or critical status to the participants and beneficiaries, the

bargaining parties, the Pension Benefit Guaranty Corporation, and the Secretary.

``(ii) Plans in critical status.--If it is certified under subparagraph (A) that a multiemployer plan is or will be in critical status, the plan sponsor shall include in the notice under clause (i) an explanation of the possibility that--

``(I) adjustable benefits (as defined in subsection (e)(8)) may be reduced, and

``(II) such reductions may apply to participants and beneficiaries whose benefit commencement date is on or after the date such notice is provided for the first plan year in which the plan is in critical status.

``(iii) Model notice.--The Secretary shall prescribe a model notice that a multiemployer plan may use to satisfy the requirements under clause (ii).

``(c) Funding Improvement Plan Must Be Adopted for Multiemployer Plans in Endangered Status.--

``(1) In general.--In any case in which a multiemployer plan is in endangered status for a plan year, the plan sponsor, in accordance with this subsection--

``(A) shall adopt a funding improvement plan not later than 240 days following the required date for the actuarial certification of endangered status under subsection (b)(3)(A), and

``(B) within 30 days after the adoption of the funding improvement plan--

``(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to meet the applicable benchmarks in accordance with the funding improvement plan, including--

``(I) one proposal for reductions in the amount of future benefit accruals necessary to achieve the applicable benchmarks, assuming no amendments increasing contributions under the plan (other than amendments increasing contributions necessary to achieve the applicable benchmarks after amendments have reduced future benefit accruals to the maximum extent permitted by law), and

``(II) one proposal for increases in contributions under the plan necessary to achieve the applicable benchmarks, assuming no amendments reducing future benefit accruals under the plan, and

``(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to achieving the applicable benchmarks in accordance with the funding improvement plan.

For purposes of this section, the term `applicable benchmarks' means the requirements applicable to the multiemployer plan under paragraph (3) (as modified by paragraph (5)).

``(2) Exception for years after process begins.--Paragraph (1) shall not apply to a plan year if such year is in a funding plan adoption period or funding improvement period by reason of the plan being in endangered status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial determination year with respect to the funding improvement plan to which it relates.

``(3) Funding improvement plan.--For purposes of this section--

``(A) In general.--A funding improvement plan is a plan which consists of the actions, including options or a range of options to be proposed to the bargaining parties, formulated to provide, based on reasonably anticipated experience and reasonable actuarial assumptions, for the attainment by the plan during the funding improvement period of the following

requirements:
``(i) Increase in plan's funding percentage.--
The plan's funded percentage as of the close of
the funding improvement period equals or exceeds a
percentage equal to the sum of--
``(I) such percentage as of the
beginning of such period, plus
``(II) 33 percent of the difference
between 100 percent and the percentage
under subclause (I).
``(ii) Avoidance of accumulated funding
deficiencies.--No accumulated funding deficiency
for any plan year during the funding improvement
period (taking into account any extension of
amortization periods under section 304(d)).
``(B) Seriously endangered
plans.--In the case of a plan in seriously endangered
status, except as provided in paragraph (5),
subparagraph (A)(i)(II) shall be applied by substituting
`20 percent' for `33 percent'.
``(4) Funding improvement period.--For purposes of this
section--
``(A) In general.--The funding improvement period
for any funding improvement plan adopted pursuant to
this subsection is the 10-year period beginning on the
first day of the first plan year of the multiemployer
plan beginning after the earlier of--
``(i) the second anniversary of the date of
the adoption of the funding improvement plan, or
``(ii) the expiration of the collective
bargaining agreements in effect on the due date
for the actuarial certification of endangered
status for the initial determination year under
subsection (b)(3)(A) and covering, as of such due
date, at least 75 percent of the active
participants in such multiemployer plan.
``(B) Seriously endangered
plans.--In the case of a plan in seriously endangered
status, except as provided in paragraph (5),
subparagraph (A) shall be applied by substituting `15-
year period' for `10-year period'.
``(C) Coordination with changes in status.--
``(i) Plans no longer in endangered status.--
If the plan's actuary certifies under subsection
(b)(3)(A) for a plan year in any funding plan
adoption period or funding improvement period that
the plan is no longer in endangered status and is
not in critical status, the funding plan adoption
period or funding improvement period, whichever is
applicable, shall end as of the close of the
preceding plan year.
``(ii) Plans in critical status.--If the
plan's actuary certifies under subsection
(b)(3)(A) for a plan year in any funding plan
adoption period or funding improvement period that
the plan is in critical status, the funding plan
adoption period or funding improvement period,
whichever is applicable, shall end as of the close
of the plan year preceding the first plan year in
the rehabilitation period with respect to such
status.
``(D) Plans in endangered status at end of period.--
If the plan's actuary certifies under subsection
(b)(3)(A) for the first plan year following the close of
the
period described in subparagraph (A) that the plan is in
endangered status, the provisions of this subsection and
subsection (d) shall be applied as if such first plan
year were an initial determination year, except that the
plan may not be amended in a manner inconsistent with
the funding improvement plan in effect for the preceding
plan year until a new funding improvement plan is
adopted.
``(5) Special rules for seriously endangered plans more than
70 percent funded.--
``(A) In general.--If the funded percentage of a
plan in seriously endangered status was more than 70
percent as of the beginning of the initial determination
year--
``(i) paragraphs
(3)(B) and (4)(B) shall apply only if the plan's
actuary certifies, within 30 days after the

certification under subsection (b)(3)(A) for the initial determination year, that, based on the terms of the plan and the collective bargaining agreements in effect at the time of such certification, the plan is not projected to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), and

``(ii) if there is a certification under clause (i), the plan may, in formulating its funding improvement plan, only take into account the rules of paragraph (3)(B) and (4)(B) for plan years in the funding improvement period beginning on or before the date on which the last of the collective bargaining agreements described in paragraph (4)(A)(ii) expires.

``(B) Special rule after expiration of agreements.--Notwithstanding subparagraph (A)(ii), if, for any plan year ending after the date described in subparagraph (A)(ii), the plan actuary certifies (at the time of the annual certification under subsection (b)(3)(A) for such plan year) that, based on the terms of the plan and collective bargaining agreements in effect at the time of that annual certification, the plan is not projected to be able to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), paragraphs (3)(B) and (4)(B) shall continue to apply for such year.

``(6) Updates to funding improvement plan and schedules.--

``(A) Funding improvement plan.--The plan sponsor shall annually update the funding improvement plan and shall file the update with the plan's annual report under section 104.

``(B) Schedules.--The plan sponsor shall annually update any schedule of contribution rates provided under this subsection to reflect the experience of the plan.

``(C) Duration of schedule.--A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

``(7) Imposition of default schedule where failure to adopt funding improvement plan.--

``(A) In general.--If--

``(i) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered endangered status expires, and

``(ii) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to agree on changes to contribution or benefit schedules necessary to meet the applicable benchmarks in accordance with the funding improvement plan,

the plan sponsor shall implement the schedule described in paragraph (1)(B)(i)(I) beginning on the date specified in subparagraph (B).

``(B) Date of implementation.--The date specified in this subparagraph is the earlier of the date--

``(i) on which the Secretary certifies that the parties are at an impasse, or

``(ii) which is 180 days after the date on which the collective bargaining agreement described in subparagraph (A) expires.

``(8) Funding plan adoption period.--For purposes of this section, the term `funding plan adoption period' means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial determination year and ending on the day before the first day of the funding improvement period.

``(d) Rules for Operation of Plan During Adoption and Improvement Periods.--

``(1) Special rules for plan adoption period.--During the funding plan adoption period--

``(A) the plan sponsor may not accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for--

``(i) a reduction in the level of contributions for any participants,

``(ii) a suspension of contributions with respect to any period of service, or

``(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation,

``(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986 or to comply with other applicable law, and

``(C) in the case of a plan in seriously endangered status, the plan sponsor shall take all reasonable actions which are consistent with the terms of the plan and applicable law and which are expected, based on reasonable assumptions, to achieve--

``(i) an increase in the plan's funded percentage, and

``(ii) postponement of an accumulated funding deficiency for at least 1 additional plan year.

Actions under subparagraph (C) include applications for extensions of amortization periods under section 304(d), use of the shortfall funding method in making funding standard account computations, amendments to the plan's benefit structure, reductions in future benefit accruals, and other reasonable actions consistent with the terms of the plan and applicable law.

``(2) Compliance with funding improvement plan.--

``(A) In general.--A plan may not be amended after the date of the adoption of a funding improvement plan so as to be inconsistent with the funding improvement plan.

``(B) No reduction in contributions.--A plan sponsor may not during any funding improvement period accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for--

``(i) a reduction in the level of contributions for any participants,

``(ii) a suspension of contributions with respect to any period of service, or

``(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation.

``(C) Special rules for benefit increases.--A plan may not be amended after the date of the adoption of a funding improvement plan so as to increase benefits, including future benefit accruals, unless the plan actuary certifies that the benefit increase is consistent with the funding improvement plan and is paid for out of contributions not required by the funding improvement plan to meet the applicable benchmark in accordance with the schedule contemplated in the funding improvement plan.

``(e) Rehabilitation Plan Must Be Adopted for Multiemployer Plans in Critical Status.--

``(1) In general.--In any case in which a multiemployer plan is in critical status for a plan year, the plan sponsor, in accordance with this subsection--

``(A) shall adopt a rehabilitation plan not later than 240 days following the required date for the actuarial certification of critical status under subsection (b)(3)(A), and

``(B) within 30 days after the adoption of the rehabilitation plan--

``(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to emerge from critical status in accordance with the rehabilitation plan, and

``(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to emerging from critical status in accordance with the rehabilitation plan.

The schedule or schedules described in subparagraph (B)(i) shall reflect reductions in future benefit accruals and adjustable

benefits, and increases in contributions, that the plan sponsor determines are reasonably necessary to emerge from critical status. One schedule shall be designated as the default schedule and such schedule shall assume that there are no increases in contributions under the plan other than the increases necessary to emerge from critical status after future benefit accruals and other benefits (other than benefits the reduction or elimination of which are not permitted under section 204(g)) have been reduced to the maximum extent permitted by law.

``(2) Exception for years after process begins.--Paragraph (1) shall not apply to a plan year if such year is in a rehabilitation plan adoption period or rehabilitation period by reason of the plan being in critical status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial critical year with respect to the rehabilitation plan to which it relates.

``(3) Rehabilitation plan.--For purposes of this section--

``(A) In general.--A rehabilitation plan is a plan which consists of--

``(i) actions, including options or a range of options to be proposed to the bargaining parties, formulated, based on reasonably anticipated experience and reasonable actuarial assumptions, to enable the plan to cease to be in critical status by the end of the rehabilitation period and may include reductions in plan expenditures (including plan mergers and consolidations), reductions in future benefit accruals or increases in contributions, if agreed to by the bargaining parties, or any combination of such actions, or

``(ii) if the plan sponsor determines that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the plan can not reasonably be expected to emerge from critical status by the end of the rehabilitation period, reasonable measures to emerge from critical status at a later time or to forestall possible insolvency (within the meaning of section 4245).

A rehabilitation plan must provide annual standards for meeting the requirements of such rehabilitation plan. Such plan shall also include the schedules required to be provided under paragraph (1)(B)(i) and if clause (ii) applies, shall set forth the alternatives considered, explain why the plan is not reasonably expected to emerge from critical status by the end of the rehabilitation period, and specify when, if ever, the plan is expected to emerge from critical status in accordance with the rehabilitation plan.

``(B) Updates to rehabilitation plan and schedules.--

``(i) Rehabilitation plan.--The plan sponsor shall annually update the rehabilitation plan and shall file the update with the plan's annual report under section 104.

``(ii) Schedules.--The plan sponsor shall annually update any schedule of contribution rates provided under this subsection to reflect the experience of the plan.

``(iii) Duration of schedule.--A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

``(C) Imposition of default schedule where failure to adopt rehabilitation plan.--

``(i) In general.--If--

``(I) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered critical status expires, and

``(II) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to adopt a contribution or benefit schedules with terms consistent with the rehabilitation plan and the schedule from the plan sponsor under paragraph (1)(B)(i),

the plan sponsor shall implement the default schedule described in the last sentence of paragraph (1) beginning on the date specified in clause (ii).

``(ii) Date of implementation.--The date specified in this clause is the earlier of the date--

``(I) on which the Secretary certifies that the parties are at an impasse, or

``(II) which is 180 days after the date on which the collective bargaining agreement described in clause (i) expires.

``(4) Rehabilitation period.--For purposes of this section--

``(A) In general.--The rehabilitation period for a plan in critical status is the 10-year period beginning on the first day of the first plan year of the multiemployer plan following the earlier of--

``(i) the second anniversary of the date of the adoption of the rehabilitation plan, or

``(ii) the expiration of the collective bargaining agreements in effect on the date of the due date for the actuarial certification of critical status for the initial critical year under subsection (a)(1) and covering, as of such date at least 75 percent of the active participants in such multiemployer plan.

If a plan emerges from critical status as provided under subparagraph (B) before the end of such 10-year period, the rehabilitation period shall end with the plan year preceding the plan year for which the determination under subparagraph (B) is made.

``(B) Emergence.--A plan in critical status shall remain in such status until a plan year for which the plan actuary certifies, in accordance with subsection (b)(3)(A), that the plan is not projected to have an accumulated funding deficiency for the plan year or any of the 9 succeeding plan years, without regard to the use of the shortfall method and taking into account any extension of amortization periods under section 304(d).

``(5) Rehabilitation plan adoption period.--For purposes of this section, the term `rehabilitation plan adoption period' means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial critical year and ending on the day before the first day of the rehabilitation period.

``(6) Limitation on reduction in rates of future accruals.--Any reduction in the rate of future accruals under the default schedule described in paragraph (1)(B)(i) shall not reduce the rate of future accruals below--

``(A) a monthly benefit (payable as a single life annuity commencing at the participant's normal retirement age) equal to 1 percent of the contributions required to be made with respect to a participant, or the equivalent standard accrual rate for a participant or group of participants under the collective bargaining agreements in effect as of the first day of the initial critical year, or

``(B) if lower, the accrual rate under the plan on such first day.

The equivalent standard accrual rate shall be determined by the plan sponsor based on the standard or average contribution base units which the plan sponsor determines to be representative for active participants and such other factors as the plan sponsor determines to be relevant. Nothing in this paragraph shall be construed as limiting the ability of the plan sponsor to prepare and provide the bargaining parties with alternative schedules to the default schedule that established lower or higher accrual and contribution rates than the rates otherwise described in this paragraph.

``(7) Automatic employer surcharge.--

``(A) Imposition of surcharge.--Each employer otherwise obligated to make contributions for the initial critical year shall be obligated to pay to the plan for such year a surcharge equal to 5 percent of the contributions otherwise required under the applicable collective bargaining agreement (or other agreement pursuant to which the employer contributes). For each succeeding plan year in which the plan is in critical status for a consecutive period of years beginning with

the initial critical year, the surcharge shall be 10 percent of the contributions otherwise so required.

``(B) Enforcement of surcharge.--The surcharges under subparagraph (A) shall be due and payable on the same schedule as the contributions on which the surcharges are based. Any failure to make a surcharge payment shall be treated as a delinquent contribution under section 515 and shall be enforceable as such.

``(C) Surcharge to terminate upon collective bargaining agreement renegotiation.--The surcharge under this paragraph shall cease to be effective with respect to employees covered by a collective bargaining agreement (or other agreement pursuant to which the employer contributes), beginning on the effective date of a collective bargaining agreement (or other such agreement) that includes terms consistent with a schedule presented by the plan sponsor under paragraph (1)(B)(i), as modified under subparagraph (B) of paragraph (3).

``(D) Surcharge not to apply until employer receives notice.--The surcharge under this paragraph shall not apply to an employer until 30 days after the employer has been notified by the plan sponsor that the plan is in critical status and that the surcharge is in effect.

``(E) Surcharge not to generate increased benefit accruals.--Notwithstanding any provision of a plan to the contrary, the amount of any surcharge under this paragraph shall not be the basis for any benefit accrual under the plan.

``(8) Benefit adjustments.--

``(A) Adjustable benefits.--

``(i) In general.--Notwithstanding section 204(g), the plan sponsor shall, subject to the notice requirements in subparagraph (C), make any reductions to adjustable benefits which the plan sponsor deems appropriate, based upon the outcome of collective bargaining over the schedule or schedules provided under paragraph (1)(B)(i).

``(ii) Exception for retirees.--Except in the case of adjustable benefits described in clause (iv)(III), the plan sponsor of a plan in critical status shall not reduce adjustable benefits of any participant or beneficiary whose benefit commencement date is before the date on which the plan provides notice to the participant or beneficiary under subsection (b)(3)(D) for the initial critical year.

``(iii) Plan sponsor flexibility.--The plan sponsor shall include in the schedules provided to the bargaining parties an allowance for funding the benefits of participants with respect to whom contributions are not currently required to be made, and shall reduce their benefits to the extent permitted under this title and considered appropriate by the plan sponsor based on the plan's then current overall funding status.

``(iv) Adjustable benefit defined.--For purposes of this paragraph, the term `adjustable benefit' means--

``(I) benefits, rights, and features under the plan, including post-retirement death benefits, 60-month guarantees, disability benefits not yet in pay status, and similar benefits,

``(II) any early retirement benefit or retirement-type subsidy (within the meaning of section 204(g)(2)(A)) and any benefit payment option (other than the qualified joint and survivor annuity), and

``(III) benefit increases that would not be eligible for a guarantee under section 4022A on the first day of initial critical year because the increases were adopted (or, if later, took effect) less than 60 months before such first day.

``(B) Normal retirement benefits protected.--Except as provided in subparagraph (A)(iv)(III), nothing in this paragraph shall be construed to permit a plan to reduce the level of a participant's accrued benefit payable at normal retirement age.

``(C) Notice requirements.--
``(i) In general.--
No reduction may be made to adjustable benefits under subparagraph (A) unless notice of such reduction has been given at least 30 days before the general effective date of such reduction for all participants and beneficiaries to--
``(I) plan participants and beneficiaries,
``(II) each employer who has an obligation to contribute (within the meaning of section 4212(a)) under the plan, and
``(III) each employee organization which, for purposes of collective bargaining, represents plan participants employed by such an employer.
``(ii) Content of notice.--The notice under clause (i) shall contain--
``(I) sufficient information to enable participants and beneficiaries to understand the effect of any reduction on their benefits, including an estimate (on an annual or monthly basis) of any affected adjustable benefit that a participant or beneficiary would otherwise have been eligible for as of the general effective date described in clause (i), and
``(II) information as to the rights and remedies of plan participants and beneficiaries as well as how to contact the Department of Labor for further information and assistance where appropriate.
``(iii) Form and manner.--Any notice under clause (i)--
``(I) shall be provided in a form and manner prescribed in regulations of the Secretary,
``(II) shall be written in a manner so as to be understood by the average plan participant, and
``(III) may be provided in written, electronic, or other appropriate form to the extent such form is reasonably accessible to persons to whom the notice is required to be provided.
The Secretary shall in the regulations prescribed under subclause (I) establish a model notice that a plan sponsor may use to meet the requirements of this subparagraph.
``(9) Adjustments disregarded in withdrawal liability determination.--
``(A) Benefit reductions.--Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201.
``(B) Surcharges.--Any surcharges under paragraph (7) shall be disregarded in determining an employer's withdrawal liability under section 4211, except for purposes of determining the unfunded vested benefits attributable to an employer under section 4211(c)(4) or a comparable method approved under section 4211(c)(5).
``(C) Simplified calculations.--The Pension Benefit Guaranty Corporation shall prescribe simplified methods for the application of this paragraph in determining withdrawal liability.
``(f) Rules for Operation of Plan During Adoption and Rehabilitation Period.--
``(1) Compliance with rehabilitation plan.--
``(A) In general.--A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to be inconsistent with the rehabilitation plan.
``(B) Special rules for benefit increases.--A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to increase benefits, including future benefit accruals,

unless the plan actuary certifies that such increase is paid for out of additional contributions not contemplated by the rehabilitation plan, and, after taking into account the benefit increase, the multiemployer plan still is reasonably expected to emerge from critical status by the end of the rehabilitation period on the schedule contemplated in the rehabilitation plan.

``(2) Restriction on lump sums and similar benefits.--

``(A) In general.--Effective on the date the notice of certification of the plan's critical status for the initial critical year under subsection (b)(3)(D) is sent, and notwithstanding section 204(g), the plan shall not pay--

``(i) any payment, in excess of the monthly amount paid under a single life annuity (plus any social security supplements described in the last sentence of section 204(b)(1)(G)),

``(ii) any payment for the purchase of an irrevocable commitment from an insurer to pay benefits, and

``(iii) any other payment specified by the Secretary of the Treasury by regulations.

``(B) Exception.--Subparagraph (A) shall not apply to a benefit which under section 203(e) may be immediately distributed without the consent of the participant or to any makeup payment in the case of a retroactive annuity starting date or any similar payment of benefits owed with respect to a prior period.

``(3) Adjustments disregarded in withdrawal liability determination.--Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201.

``(4) Special rules for plan adoption period.--During the rehabilitation plan adoption period--

``(A) the plan sponsor may not accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for--

``(i) a reduction in the level of contributions for any participants,

``(ii) a suspension of contributions with respect to any period of service, or

``(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation, and

``(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986 or to comply with other applicable law.

``(g) Expedited Resolution of Plan Sponsor Decisions.--If, within 60 days of the due date for adoption of a funding improvement plan or a rehabilitation plan under subsection (e), the plan sponsor of a plan in endangered status or a plan in critical status has not agreed on a funding improvement plan or rehabilitation plan, then any member of the board or group that constitutes the plan sponsor may require that the plan sponsor enter into an expedited dispute resolution procedure for the development and adoption of a funding improvement plan or rehabilitation plan.

``(h) Nonbargained Participation.--

``(1) Both bargained and nonbargained employee-participants.--In the case of an employer that contributes to a multiemployer plan with respect to both employees who are covered by one or more collective bargaining agreements and employees who are not so covered, if the plan is in endangered status or in critical status, benefits of and contributions for the nonbargained employees, including surcharges on those contributions, shall be determined as if those nonbargained employees were covered under the first to expire of the employer's collective bargaining agreements in effect when the plan entered endangered or critical status.

``(2) Nonbargained employees only.--In the case of an employer that contributes to a multiemployer plan only with respect to employees who are not covered by a collective bargaining agreement, this section shall be applied as if the employer were the bargaining party, and its participation agreement with the plan were a collective bargaining agreement

``(i) Definitions; Actuarial Method.--For purposes of this section--

``(1) Bargaining party.--The term `bargaining party' means--

``(7) Obligation to contribute.--The term `obligation to contribute' has the meaning given such term under section 4212(a).

``(8) Actuarial method.--Notwithstanding any other provision of this section, the actuary's determinations with respect to a plan's normal cost, actuarial accrued liability, and improvements in a plan's funded percentage under this section shall be based upon the unit credit funding method (whether or not that method is used for the plan's actuarial valuation).

then the person against which the withdrawal liability is assessed based solely on the application of section 4212(c) may elect to use the special rule under paragraph (2) in applying subsection (d) of this section and section 4219(c) to such person.

``(2) Special rule.--Notwithstanding subsection (d) and section 4219(c), if an electing person contests the plan sponsor's determination with respect to withdrawal liability payments under paragraph (1) through an arbitration proceeding pursuant to subsection (a), through an action brought in a court of competent jurisdiction for review of such an arbitration decision, or as otherwise permitted by law, the electing person shall not be obligated to make the withdrawal liability payments until a final decision in the arbitration proceeding, or in court, upholds the plan sponsor's determination, but only if the electing person--

``(B) if a final decision in the arbitration proceeding, or in court, of the withdrawal liability dispute has not been rendered within 12 months from the date of such notice, the electing person provides to the plan, effective as of the first day following the 12-month period, a bond issued by a corporate surety company that is an acceptable surety for purposes of section 412 of this Act, or an amount held in escrow by a bank or similar financial institution satisfactory to the plan, in an amount equal to the sum of the withdrawal liability payments that would otherwise be due under subsection (d) and section 4219(c) for the 12-month period beginning with the first anniversary of such notice. ``(5) The liability of the party furnishing a bond or escrow under this subsection shall be reduced, upon the payment of the bond or escrow to the plan, by the amount thereof.''.

(2) Effective date.--The amendments made by this subsection shall apply to any person that receives a notification under section 4219(b)(1) of the Employee Retirement Income Security Act of 1974 on or after the

``(iv) separately, with respect to each plan year, the net loss (if any) resulting from changes in actuarial assumptions used under the plan, over a period of 15 plan years,

``(C) the amount necessary to amortize each waived funding deficiency (within the meaning of section 412(c)(3)) for each prior plan year in equal annual installments (until fully amortized) over a period of 15 plan years,

``(D) the amount necessary to amortize in equal annual installments (until fully amortized) over a period of 5 plan years any amount credited to the funding standard account under section 412(b)(3)(D) (as in effect on the

day before the date of the enactment of the Pension Protection Act of 2006), and

``(E) the amount necessary to amortize in equal annual installments (until fully amortized) over a period of 20 years the contributions which would be required to be made under the plan but for the provisions of section 412(c)(7)(A)(i)(I) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006).

``(3) Credits to account.--For a plan year, the funding standard account shall be credited with the sum of--

``(A) the amount considered contributed by the employer to or under the plan for the plan year,

``(B) the amount necessary to amortize in equal annual installments (until fully amortized)--

``(i) separately, with respect to each plan year, the net decrease (if any) in unfunded past service liability under the plan arising from plan amendments adopted in such year, over a period of 15 plan years,

``(ii) separately, with respect to each plan year, the net experience gain (if any) under the plan, over a period of 15 plan years, and

``(iii) separately, with respect to each plan year, the net gain (if any) resulting from changes in actuarial assumptions used under the plan, over a period of 15 plan years,

``(C) the amount of the waived funding deficiency (within the meaning of section 412(c)(3)) for the plan year, and

``(D) in the case of a plan year for which the accumulated funding deficiency is determined under the funding standard account if such plan year follows a plan year for which such deficiency was determined under the alternative minimum funding standard under section 412(g) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006), the excess (if any) of any debit balance in the funding standard account (determined without regard to this subparagraph) over any debit balance in the alternative minimum funding standard account.

``(4) Special rule for amounts first amortized in plan years before 2008.--In the case of any amount amortized under section 412(b) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006) over any period beginning with a plan year beginning before 2008 in lieu of the amortization described in paragraphs (2)(B) and (3)(B), such amount shall continue to be amortized under such section as so in effect.

``(5) Combining and offsetting amounts to be amortized.--Under regulations prescribed by the Secretary, amounts required to be amortized under paragraph (2) or paragraph (3), as the case may be--

``(A) may be combined into one amount under such paragraph to be amortized over a period determined on the basis of the remaining amortization period for all items entering into such combined amount, and

``(B) may be offset against amounts required to be amortized under the other such paragraph, with the resulting amount to be amortized over a period determined on the basis of the remaining amortization periods for all items entering into whichever of the two amounts being offset is the greater.

``(6) Interest.--The funding standard account (and items therein) shall be charged or credited (as determined under regulations prescribed by the Secretary of the Treasury) with interest at the appropriate rate consistent with the rate or rates of interest used under the plan to determine costs.

``(7) Special rules relating to charges and credits to funding standard account.--For purposes of this part--

``(A) Withdrawal liability.--Any amount received by a multiemployer plan in payment of all or part of an employer's withdrawal liability under part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974 shall be considered an amount contributed by the employer to or under the plan. The Secretary may prescribe by regulation additional charges and credits to a multiemployer plan's funding standard account to the extent necessary to prevent withdrawal liability payments from being unduly reflected as advance funding for plan liabilities.

``(B) Adjustments when a multiemployer plan leaves

reorganization.--If a multiemployer plan is not in reorganization in the plan year but was in reorganization in the immediately preceding plan year, any balance in the funding standard account at the close of such immediately preceding plan year--

``(i) shall be eliminated by an offsetting credit or charge (as the case may be), but

``(ii) shall be taken into account in subsequent plan years by being amortized in equal annual installments (until fully amortized) over 30 plan years.

The preceding sentence shall not apply to the extent of any accumulated funding deficiency under section 4243(a) of such Act as of the end of the last plan year that the plan was in reorganization.

``(C) Plan payments to supplemental program or withdrawal liability payment fund.--Any amount paid by a plan during a plan year to the Pension Benefit Guaranty Corporation pursuant to section 4222 of such Act or to a fund exempt under section 501(c)(22) pursuant to section 4223 of such Act shall reduce the amount of contributions considered received by the plan for the plan year.

``(D) Interim withdrawal liability payments.--Any amount paid by an employer pending a final determination of the employer's withdrawal liability under part 1 of subtitle E of title IV of such Act and subsequently refunded to the employer by the plan shall be charged to the funding standard account in accordance with regulations prescribed by the Secretary.

``(E) Election for deferral of charge for portion of net experience loss.--If an election is in effect under section 412(b)(7)(F) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006) for any plan year, the funding standard account shall be charged in the plan year to which the portion of the net experience loss deferred by such election was deferred with the amount so deferred (and paragraph (2)(B)(iii) shall not apply to the amount so charged).

``(F) Financial assistance.--Any amount of any financial assistance from the Pension Benefit Guaranty Corporation to any plan, and any repayment of such amount, shall be taken into account under this section and section 412 in such manner as is determined by the Secretary.

``(G) Short-term benefits.--
To the extent that any plan amendment increases the unfunded past service liability under the plan by reason of an increase in benefits which are not payable as a life annuity but are payable under the terms of the plan for a period that does not exceed 14 years from the effective date of the amendment, paragraph (2)(B)(ii) shall be applied separately with respect to such increase in unfunded past service liability by substituting the number of years of the period during which such benefits are payable for `15'.

``(c) Additional Rules.--

``(1) Determinations to be made under funding method.--For purposes of this part, normal costs, accrued liability, past service liabilities, and experience gains and losses shall be determined under the funding method used to determine costs under the plan. I22 ``(2) Valuation of assets.--

``(A) In general.--
For purposes of this part, the value of the plan's assets shall be determined on the basis of any reasonable actuarial method of valuation which takes into account fair market value and which is permitted under regulations prescribed by the Secretary.

``(B) Election with respect to bonds.--
The value of a bond or other evidence of indebtedness which is not in default as to principal or interest may, at the election of the plan administrator, be determined on an amortized basis running from initial cost at purchase to par value at maturity or earliest call date. Any election under this subparagraph shall be made at such time and in such manner as the Secretary shall by regulations provide, shall apply to all such evidences of indebtedness, and may be revoked only with the consent of the Secretary.

``(3) Actuarial assumptions must be reasonable.--For

purposes of this section, all costs, liabilities, rates of interest, and other factors under the plan shall be determined on the basis of actuarial assumptions and methods--

``(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and

``(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

``(4) Treatment of certain changes as experience gain or loss.--For purposes of this section, if--

``(A) a change in benefits under the Social Security Act or in other retirement benefits created under Federal or State law, or

``(B) a change in the definition of the term `wages' under section 3121, or a change in the amount of such wages taken into account under regulations prescribed for purposes of section 401(a)(5),

results in an increase or decrease in accrued liability under a plan, such increase or decrease shall be treated as an experience loss or gain.

``(5) Full funding.--If, as of the close of a plan year, a plan would (without regard to this paragraph) have an accumulated funding deficiency in excess of the full funding limitation--

``(A) the funding standard account shall be credited with the amount of such excess, and

``(B) all amounts described in subparagraphs (B), (C), and (D) of subsection (b)(2) and subparagraph (B) of subsection (b)(3) which are required to be amortized shall be considered fully amortized for purposes of such subparagraphs.

``(6) Full-funding limitation.--

``(A) In general.--For purposes of paragraph (5), the term `full-funding limitation' means the excess (if any) of--

``(i) the accrued liability (including normal cost) under the plan (determined under the entry age normal funding method if such accrued liability cannot be directly calculated under the funding method used for the plan), over

``(ii) the lesser of--

``(I) the fair market value of the plan's assets, or

``(II) the value of such assets determined under paragraph (2).

``(B) Minimum amount.--

``(i) In general.--In no event shall the full-funding limitation determined under subparagraph (A) be less than the excess (if any) of--

``(I) 90 percent of the current liability of the plan (including the expected increase in current liability due to benefits accruing during the plan year), over

``(II) the value of the plan's assets determined under paragraph (2).

``(ii) Assets.--For purposes of clause (i), assets shall not be reduced by any credit balance in the funding standard account.

``(C) Full funding limitation.--For purposes of this paragraph, unless otherwise provided by the plan, the accrued liability under a multiemployer plan shall not include benefits which are not nonforfeitable under the plan after the termination of the plan (taking into consideration section 411(d)(3)).

``(D) Current liability.--For purposes of this paragraph--

``(i) In general.--The term `current liability' means all liabilities to employees and their beneficiaries under the plan.

``(ii) Treatment of unpredictable contingent event benefits.--For purposes of clause (i), any benefit contingent on an event other than--

``(I) age, service, compensation, death, or disability, or

``(II) an event which is reasonably and reliably predictable (as determined by the Secretary),

shall not be taken into account until the event on which the benefit is contingent occurs.

``(iii) Interest rate used.--The rate of interest used to determine current liability under

this paragraph shall be the rate of interest
determined under subparagraph (E).
``(iv) Mortality tables.--
``(I) Commissioners' standard
table.--In the case of plan years
beginning before the first plan year to
which the first tables prescribed under
subclause (II) apply, the mortality
table used in determining current
liability under this paragraph shall be
the table prescribed by the Secretary
which is based on the prevailing
commissioners' standard table (described
in section 807(d)(5)(A)) used to
determine reserves for group annuity
contracts issued on January 1, 1993.
``(II) Secretarial authority.--The
Secretary may by regulation prescribe
for plan years beginning after December
31, 1999, mortality tables to be used in
determining current liability under this
subsection. Such tables shall be based
upon the actual experience of pension
plans and projected trends in such
experience. In prescribing such tables,
the Secretary shall take into account
results of available independent studies
of mortality of individuals covered by
pension plans.
``(v) Separate mortality tables for the
disabled.--Notwithstanding clause (iv)--
``(I) In general.--The Secretary
shall establish mortality tables which
may be used (in lieu of the tables under
clause (iv)) to determine current
liability under this subsection for
individuals who are entitled to benefits
under the plan on account of disability.
The Secretary shall establish separate
tables for individuals whose
disabilities occur in plan years
beginning before January 1, 1995, and
for individuals whose disabilities occur
in plan years beginning on or after such
date.
``(II) Special rule for disabilities
occurring after 1994.--
In <<NOTE: Applicability.>> the case of
disabilities occurring in plan years
beginning after December 31, 1994, the
tables under subclause (I) shall apply
only with respect to individuals
described in such subclause who are
disabled within the meaning of title II
of the Social Security Act and the
regulations thereunder.
``(vi) Periodic review.--
The Secretary shall
periodically (at least every 5 years) review any
tables in effect under this subparagraph and
shall, to the
extent such Secretary determines necessary, by
regulation update the tables to reflect the actual
experience of pension plans and projected trends
in such experience.
``(E) Required change of interest rate.--For
purposes of determining a plan's current liability for
purposes of this paragraph--
``(i) In general.--If any rate of interest
used under the plan under subsection (b)(6) to
determine cost is not within the permissible
range, the plan shall establish a new rate of
interest within the permissible range.
``(ii) Permissible range.--For purposes of
this subparagraph--
``(I) In general.--Except as
provided in subclause (II), the term
`permissible range' means a rate of
interest which is not more than 5
percent above, and not more than 10
percent below, the weighted average of
the rates of interest on 30-year

Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.

``(II) Secretarial authority.--If the Secretary finds that the lowest rate of interest permissible under subclause (I) is unreasonably high, the Secretary may prescribe a lower rate of interest, except that such rate may not be less than 80 percent of the average rate determined under such subclause.

``(iii) Assumptions.--Notwithstanding paragraph (3)(A), the interest rate used under the plan shall be--

``(I) determined without taking into account the experience of the plan and reasonable expectations, but

``(II) consistent with the assumptions which reflect the purchase rates which would be used by insurance companies to satisfy the liabilities under the plan.

``(7) Annual valuation.--

``(A) In general.--
For purposes of this section, a determination of experience gains and losses and a valuation of the plan's liability shall be made not less frequently than once every year, except that such determination shall be made more frequently to the extent required in particular cases under regulations prescribed by the Secretary.

``(B) Valuation date.--

``(i) Current year.--Except as provided in clause (ii), the valuation referred to in subparagraph (A) shall be made as of a date within the plan year to which the valuation refers or within one month prior to the beginning of such year.

``(ii) Use of prior year valuation.--The valuation referred to in subparagraph (A) may be made as of a date within the plan year prior to the year to which the valuation refers if, as of such date, the value of the assets of the plan are not less than 100
percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

``(iii) Adjustments.--Information under clause (ii) shall, in accordance with regulations, be actuarially adjusted to reflect significant differences in participants.

``(iv) Limitation.--A change in funding method to use a prior year valuation, as provided in clause (ii), may not be made unless as of the valuation date within the prior plan year, the value of the assets of the plan are not less than 125 percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

``(8) Time when certain contributions deemed made.--
For purposes of this section, any contributions for a plan year made by an employer after the last day of such plan year, but not later than two and one-half months after such day, shall be deemed to have been made on such last day. For purposes of this subparagraph, such two and one-half month period may be extended for not more than six months under regulations prescribed by the Secretary.

``(d) Extension of Amortization Periods for Multiemployer Plans.--

``(1) Automatic extension upon application by certain plans.--

``(A) In general.--If the plan sponsor of a multiemployer plan--

``(i) submits to the Secretary an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), and

``(ii) includes with the application a certification by the plan's actuary described in subparagraph (B),

the Secretary shall extend the amortization period for the period of time (not in excess of 5 years) specified

in the application. Such extension shall be in addition to any extension under paragraph (2).

``(B) Criteria.--

A certification with respect to a multiemployer plan is described in this subparagraph if the plan's actuary certifies that, based on reasonable assump- tions--

``(i) absent the extension under subparagraph (A), the plan would have an accumulated funding deficiency in the current plan year or any of the 9 succeeding plan years,

``(ii) the plan sponsor has adopted a plan to improve the plan's funding status,

``(iii) the plan is projected to have sufficient assets to timely pay expected benefits and anticipated expenditures over the amortization period as extended, and

``(iv) the notice required under paragraph (3)(A) has been provided.

``(C) Termination.--The preceding provisions of this paragraph shall not apply with respect to any application submitted after December 31, 2014.

``(2) Alternative extension.--

``(A) In general.--If the plan sponsor of a multiemployer plan submits to the Secretary an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), the Secretary may extend the amortization period for a period of time (not in excess of 10 years reduced by the number of years of any extension under paragraph (1) with respect to such unfunded liability) if the Secretary makes the determination described in subparagraph (B). Such extension shall be in addition to any extension under paragraph (1).

``(B) Determination.--The Secretary may grant an extension under subparagraph (A) if the Secretary determines that--

``(i) such extension would carry out the purposes of this Act and would provide adequate protection for participants under the plan and their beneficiaries, and

``(ii) the failure to permit such extension would--

``(I) result in a substantial risk to the voluntary continuation of the plan, or a substantial curtailment of pension benefit levels or employee compensation, and

``(II) be adverse to the interests of plan participants in the aggregate.

``(C) Action by secretary.--

The Secretary shall act upon any application for an extension under this paragraph within 180 days of the submission of such application. If the Secretary rejects the application for an extension under this paragraph, the Secretary shall provide notice to the plan detailing the specific reasons for the rejection, including references to the criteria set forth above.

``(3) Advance notice.--

``(A) In general.--The Secretary shall, before granting an extension under this subsection, require each applicant to provide evidence satisfactory to such Secretary that the applicant has provided notice of the filing of the application for such extension to each affected party (as defined in section 4001(a)(21) of the Employee Retirement Income Security Act of 1974) with respect to the affected plan. Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV of such Act and for benefit liabilities.

``(B) Consideration of relevant information.--The Secretary shall consider any relevant information provided by a person to whom notice was given under paragraph (1).''.

(b) Effective Date.--

(1) In general.--The amendments made by this section shall apply to plan years beginning after 2007.

(2) Special rule for certain amortization extensions.--

If the Secretary of the

Treasury grants an extension under section 304 of the Employee Retirement Income Security Act of 1974 and section 412(e) of the Internal Revenue Code of 1986 with respect to any application filed with the Secretary of the Treasury on or before June 30, 2005, the extension
(and any modification thereof) shall be applied and administered under the rules of such sections as in effect before the enactment of this Act, including the use of the rate of interest determined under section 6621(b) of such Code.

SEC. 212. ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED OR CRITICAL STATUS.

(a) In General.--Subpart A of part III of subchapter D of chapter 1 of the Internal Revenue Code of 1986 (as amended by this Act) is amended by inserting after section 431 the following new section:

``SEC. 432. ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED STATUS OR CRITICAL STATUS.

``(a) General Rule.--For purposes of this part, in the case of a multiemployer plan in effect on July 16, 2006--

``(1) if the plan is in endangered status--

``(A) the plan sponsor shall adopt and implement a funding improvement plan in accordance with the requirements of subsection (c), and

``(B) the requirements of subsection (d) shall apply during the funding plan adoption period and the funding improvement period, and

``(2) if the plan is in critical status--

``(A) the plan sponsor shall adopt and implement a rehabilitation plan in accordance with the requirements of subsection (e), and

``(B) the requirements of subsection (f) shall apply during the rehabilitation plan adoption period and the rehabilitation period.

``(b) Determination of Endangered and Critical Status.--For purposes of this section--

``(1) Endangered status.--A multiemployer plan is in endangered status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is not in critical status for the plan year and, as of the beginning of the plan year, either--

``(A) the plan's funded percentage for such plan year is less than 80 percent, or

``(B) the plan has an accumulated funding deficiency for such plan year, or is projected to have such an accumulated funding deficiency for any of the 6 succeeding plan years, taking into account any extension of amortization periods under section 431(d).

For purposes of this section, a plan shall be treated as in seriously endangered status for a plan year if the plan is described in both subparagraphs (A) and (B).

``(2) Critical status.--A multiemployer plan is in critical status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is described in 1 or more of the following subparagraphs as of the beginning of the plan year:

``(A) A plan is described in this subparagraph if--

``(i) the funded percentage of the plan is less than 65 percent, and

``(ii) the sum of--

``(I) the fair market value of plan assets, plus

``(II) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 6 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all nonforfeitable benefits projected to be payable under the plan during the current plan year and each of the 6 succeeding plan years (plus administrative expenses for such plan years).

``(B) A plan is described in this subparagraph if--

``(i) the plan has an accumulated funding deficiency for the current plan year, not taking into account any extension of amortization periods under section 431(d), or

``(ii) the plan is projected to have an accumulated funding deficiency for any of the 3 succeeding plan years (4 succeeding plan years if the funded percentage of the plan is 65 percent or

less), not taking into account any extension of amortization periods under section 431(d).

``(C) A plan is described in this subparagraph if--

``(i)(I) the plan's normal cost for the current plan year, plus interest (determined at the rate used for determining costs under the plan) for the current plan year on the amount of unfunded benefit liabilities under the plan as of the last date of the preceding plan year, exceeds

``(II) the present value of the reasonably anticipated employer and employee contributions for the current plan year,

``(ii) the present value, as of the beginning of the current plan year, of nonforfeitable benefits of inactive participants is greater than the present value of nonforfeitable benefits of active participants, and

``(iii) the plan has an accumulated funding deficiency for the current plan year, or is projected to have such a deficiency for any of the 4 succeeding plan years, not taking into account any extension of amortization periods under section 431(d).

``(D) A plan is described in this subparagraph if the sum of--

``(i) the fair market value of plan assets, plus

``(ii) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 4 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all benefits projected to be payable under the plan during the current plan year and each of the 4 succeeding plan years (plus administrative expenses for such plan years).

``(3) Annual certification by plan actuary.--

``(A) In general.--Not later than the 90th day of each plan year of a multiemployer plan, the plan actuary shall certify to the Secretary and to the plan sponsor--

``(i) whether or not the plan is in endangered status for such plan year and whether or not the plan is or will be in critical status for such plan year, and

``(ii) in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

``(B) Actuarial projections of assets and liabilities.--

``(i) In general.--In making the determinations and projections under this subsection, the plan actuary shall make projections required for the current and succeeding plan years of the current value of the assets of the plan and the present value of all liabilities to participants and beneficiaries under the plan for the current plan year as of the beginning of such year. The actuary's projections shall be based on reasonable actuarial estimates, assumptions, and methods that, except as provided in clause (iii), offer the actuary's best estimate of anticipated experience under the plan. The projected present value of liabilities as of the beginning of such year shall be determined based on the most recent of either--

``(I) the actuarial statement required under section 103(d) of the Employee Retirement Income Security Act of 1974 with respect to the most recently filed annual report, or

``(II) the actuarial valuation for the preceding plan year.

``(ii) Determinations of future contributions.--Any actuarial projection of plan assets shall assume--

``(I) reasonably anticipated employer contributions for the current

and succeeding plan years, assuming that the terms of the one or more collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years, or

``(II) that employer contributions for the most recent plan year will continue indefinitely, but only if the plan actuary determines there have been no significant demographic changes that would make such assumption unreasonable.

``(iii) Projected industry activity.--Any projection of activity in the industry or industries covered by the plan, including future covered employment and contribution levels, shall be based on information provided by the plan sponsor, which shall act reasonably and in good faith.

``(C) Penalty for failure to secure timely actuarial certification.--Any failure of the plan's actuary to certify the plan's status under this subsection by the date specified in subparagraph (A) shall be treated for purposes of section 502(c)(2) of the Employee Retirement Income Security Act of 1974 as a failure or refusal by the plan administrator to file the annual report required to be filed with the Secretary under section 101(b)(4) of such Act.

``(D) Notice.--

``(i) In general.--In any case in which it is certified under subparagraph (A) that a multiemployer plan is or will be in endangered or critical status for a plan year, the plan sponsor shall, not later than 30 days after the date of the certification, provide notification of the endangered or critical status to the participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation, and the Secretary of Labor.

``(ii) Plans in critical status.--If it is certified under subparagraph (A) that a multiemployer plan is or will be in critical status, the plan sponsor shall include in the notice under clause (i) an explanation of the possibility that--

``(I) adjustable benefits (as defined in subsection (e)(8)) may be reduced, and

``(II) such reductions may apply to participants and beneficiaries whose benefit commencement date is on or after the date such notice is provided for the first plan year in which the plan is in critical status.

``(iii) Model notice.--The Secretary of Labor shall prescribe a model notice that a multiemployer plan may use to satisfy the requirements under clause (ii).

``(c) Funding Improvement Plan Must Be Adopted for Multiemployer Plans in Endangered Status.--

``(1) In general.--In any case in which a multiemployer plan is in endangered status for a plan year, the plan sponsor, in accordance with this subsection--

``(A) shall adopt a funding improvement plan not later than 240 days following the required date for the actuarial certification of endangered status under subsection (b)(3)(A), and

``(B) within 30 days after the adoption of the funding improvement plan--

``(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to meet the applicable benchmarks in accordance with the funding improvement plan, including--

``(I) one proposal for reductions in the amount of future benefit accruals necessary to achieve the applicable benchmarks, assuming no amendments increasing contributions under the plan (other than amendments increasing

contributions necessary to achieve the applicable benchmarks after amendments have reduced future benefit accruals to the maximum extent permitted by law), and

``(II) one proposal for increases in contributions under the plan necessary to achieve the applicable benchmarks, assuming no amendments reducing future benefit accruals under the plan, and

``(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to achieving the applicable benchmarks in accordance with the funding improvement plan.

For purposes of this section, the term `applicable benchmarks' means the requirements applicable to the multiemployer plan under paragraph (3) (as modified by paragraph (5)).

``(2) Exception for years after process begins.--Paragraph (1) shall not apply to a plan year if such year is in a funding plan adoption period or funding improvement period by reason of the plan being in endangered status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial determination year with respect to the funding improvement plan to which it relates.

``(3) Funding improvement plan.--For purposes of this section--

``(A) In general.--A funding improvement plan is a plan which consists of the actions, including options or a range of options to be proposed to the bargaining parties, formulated to provide, based on reasonably anticipated experience and reasonable actuarial assumptions, for the attainment by the plan during the funding improvement period of the following requirements:

``(i) Increase in plan's funding percentage.--The plan's funded percentage as of the close of the funding improvement period equals or exceeds a percentage equal to the sum of--

``(I) such percentage as of the beginning of such period, plus

``(II) 33 percent of the difference between 100 percent and the percentage under subclause (I).

``(ii) Avoidance of accumulated funding deficiencies.--No accumulated funding deficiency for any plan year during the funding improvement period (taking into account any extension of amortization periods under section 304(d)).

``(B) Seriously endangered plans.--In the case of a plan in seriously endangered status, except as provided in paragraph (5), subparagraph (A)(i)(II) shall be applied by substituting `20 percent' for `33 percent'.

``(4) Funding improvement period.--For purposes of this section--

``(A) In general.--The funding improvement period for any funding improvement plan adopted pursuant to this subsection is the 10-year period beginning on the first day of the first plan year of the multiemployer plan beginning after the earlier of--

``(i) the second anniversary of the date of the adoption of the funding improvement plan, or

``(ii) the expiration of the collective bargaining agreements in effect on the due date for the actuarial certification of endangered status for the initial determination year under subsection (b)(3)(A) and covering, as of such due date, at least 75 percent of the active participants in such multiemployer plan.

``(B) Seriously endangered plans.--In the case of a plan in seriously endangered status, except as provided in paragraph (5), subparagraph (A) shall be applied by substituting `15-year period' for `10-year period'.

``(C) Coordination with changes in status.--

``(i) Plans no longer in endangered status.--If the plan's actuary certifies under subsection

(b)(3)(A) for a plan year in any funding plan adoption period or funding improvement period that the plan is no longer in endangered status and is not in critical status, the funding plan adoption period or funding improvement period, whichever is applicable, shall end as of the close of the preceding plan year.

``(ii) Plans in critical status.--If the plan's actuary certifies under subsection (b)(3)(A) for a plan year in any funding plan adoption period or funding improvement period that the plan is in critical status, the funding plan adoption period or funding improvement period, whichever is applicable, shall end as of the close of the plan year preceding the first plan year in the rehabilitation period with respect to such status.

``(D) Plans in endangered status at end of period.--If the plan's actuary certifies under subsection (b)(3)(A) for the first plan year following the close of the period described in subparagraph (A) that the plan is in endangered status, the provisions of this subsection and subsection (d) shall be applied as if such first plan year were an initial determination year, except that the plan may not be amended in a manner inconsistent with the funding improvement plan in effect for the preceding plan year until a new funding improvement plan is adopted.

``(5) Special rules for seriously endangered plans more than 70 percent funded.--

``(A) In general.--If the funded percentage of a plan in seriously endangered status was more than 70 percent as of the beginning of the initial determination year--

``(i) paragraphs (3)(B) and (4)(B) shall apply only if the plan's actuary certifies, within 30 days after the certification under subsection (b)(3)(A) for the initial determination year, that, based on the terms of the plan and the collective bargaining agreements in effect at the time of such certification, the plan is not projected to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), and

``(ii) if there is a certification under clause (i), the plan may, in formulating its funding improvement plan, only take into account the rules of paragraph (3)(B) and (4)(B) for plan years in the funding improvement period beginning on or before the date on which the last of the collective bargaining agreements described in paragraph (4)(A)(ii) expires.

``(B) Special rule after expiration of agreements.--Notwithstanding subparagraph (A)(ii), if, for any plan year ending after the date described in subparagraph (A)(ii), the plan actuary certifies (at the time of the annual certification under subsection (b)(3)(A) for such plan year) that, based on the terms of the plan and collective bargaining agreements in effect at the time of that annual certification, the plan is not projected to be able to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), paragraphs (3)(B) and (4)(B) shall continue to apply for such year.

``(6) Updates to funding improvement plans and schedules.--

``(A) Funding improvement plan.--The plan sponsor shall annually update the funding improvement plan and shall file the update with the plan's annual report under section 104 of the Employee Retirement Income Security Act of 1974.

``(B) Schedules.--The plan sponsor shall annually update any schedule of contribution rates provided under this subsection to reflect the experience of the plan.

``(C) Duration of schedule.--A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

``(7) Imposition of default schedule where failure to adopt funding improvement plan.--

``(A) In general.--If--

``(i) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered endangered status expires, and

``(ii) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to agree on changes to contribution or benefit schedules necessary to meet the applicable benchmarks in accordance with the funding improvement plan,

the plan sponsor shall implement the schedule described in paragraph (1)(B)(i)(I) beginning on the date specified in subparagraph (B).

``(B) Date of implementation.--The date specified in this subparagraph is the earlier of the date--

``(i) on which the Secretary of Labor certifies that the parties are at an impasse, or

``(ii) which is 180 days after the date on which the collective bargaining agreement described in subparagraph (A) expires.

``(8) Funding plan adoption period.--For purposes of this section, the term `funding plan adoption period' means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial determination year and ending on the day before the first day of the funding improvement period.

``(d) Rules for Operation of Plan During Adoption and Improvement Periods.--

``(1) Special rules for plan adoption period.--During the funding plan adoption period--

``(A) the plan sponsor may not accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for--

``(i) a reduction in the level of contributions for any participants,

``(ii) a suspension of contributions with respect to any period of service, or

``(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation,

``(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 or to comply with other applicable law, and

``(C) in the case of a plan in seriously endangered status, the plan sponsor shall take all reasonable actions which are consistent with the terms of the plan and applicable law and which are expected, based on reasonable assumptions, to achieve--

``(i) an increase in the plan's funded percentage, and

``(ii) postponement of an accumulated funding deficiency for at least 1 additional plan year.

Actions under subparagraph (C) include applications for extensions of amortization periods under section 431(d), use of the shortfall funding method in making funding standard account computations, amendments to the plan's benefit structure, reductions in future benefit accruals, and other reasonable actions consistent with the terms of the plan and applicable law.

``(2) Compliance with funding improvement plan.--

``(A) In general.--A plan may not be amended after the date of the adoption of a funding improvement plan so as to be inconsistent with the funding improvement plan.

``(B) No reduction in contributions.--A plan sponsor may not during any funding improvement period accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for--

``(i) a reduction in the level of contributions for any participants,

``(ii) a suspension of contributions with respect to any period of service, or

``(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation.

``(C) Special rules for benefit increases.--A plan may not be amended after the date of the adoption of a funding improvement plan so as to increase benefits, including future benefit accruals, unless the plan actuary certifies that the benefit increase is consistent with the funding improvement plan and is paid for out of contributions not required by the funding improvement plan to meet the applicable benchmark in accordance with the schedule contemplated in the funding improvement plan.

``(e) Rehabilitation Plan Must Be Adopted for Multiemployer Plans in Critical Status.--

``(1) In general.--In any case in which a multiemployer plan is in critical status for a plan year, the plan sponsor, in accordance with this subsection--

``(A) shall adopt a rehabilitation plan not later than 240 days following the required date for the actuarial certification of critical status under subsection (b)(3)(A), and

``(B) within 30 days after the adoption of the rehabilitation plan--

``(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to emerge from critical status in accordance with the rehabilitation plan, and

``(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to emerging from critical status in accordance with the rehabilitation plan.

The schedule or schedules described in subparagraph (B)(i) shall reflect reductions in future benefit accruals and adjustable benefits, and increases in contributions, that the plan sponsor determines are reasonably necessary to emerge from critical status. One schedule shall be designated as the default schedule and such schedule shall assume that there are no increases in contributions under the plan other than the increases necessary to emerge from critical status after future benefit accruals and other benefits (other than benefits the reduction or elimination of which are not permitted under section 411(d)(6)) have been reduced to the maximum extent permitted by law.

``(2) Exception for years after process begins.--Paragraph (1) shall not apply to a plan year if such year is in a rehabilitation plan adoption period or rehabilitation period by reason of the plan being in critical status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial critical year with respect to the rehabilitation plan to which it relates.

``(3) Rehabilitation plan.--For purposes of this section--

``(A) In general.--A rehabilitation plan is a plan which consists of--

``(i) actions, including options or a range of options to be proposed to the bargaining parties, formulated, based on reasonably anticipated experience and reasonable actuarial assumptions, to enable the plan to cease to be in critical status by the end of the rehabilitation period and may include reductions in plan expenditures (including plan mergers and consolidations), reductions in future benefit accruals or increases in contributions, if agreed to by the bargaining parties, or any combination of such actions, or

``(ii) if the plan sponsor determines that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the plan can not reasonably be expected to emerge from critical status by the end of the rehabilitation period, reasonable measures to emerge from critical status at a later time or to forestall possible insolvency (within the meaning of section 4245 of the Employee Retirement Income Security Act of 1974).

A rehabilitation plan must provide annual standards for meeting the requirements of such rehabilitation plan. Such plan shall also include the schedules required to be provided under paragraph (1)(B)(i) and if clause (ii) applies, shall set forth the alternatives considered,

explain why the plan is not reasonably expected to emerge from critical status by the end of the rehabilitation period, and specify when, if ever, the plan is expected to emerge from critical status in accordance with the rehabilitation plan.

``(B) Updates to rehabilitation plan and schedules.--

``(i) Rehabilitation plan.--The plan sponsor shall annually update the rehabilitation plan and shall file the update with the plan's annual report under section 104 of the Employee Retirement Income Security Act of 1974.

``(ii) Schedules.--The plan sponsor shall annually update any schedule of contribution rates provided under this subsection to reflect the experience of the plan.

``(iii) Duration of schedule.--A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

``(C) Imposition of default schedule where failure to adopt rehabilitation plan.--

``(i) In general.--If--

``(I) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered critical status expires, and

``(II) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to adopt a contribution or benefit schedules with terms consistent with the rehabilitation plan and the schedule from the plan sponsor under paragraph (1)(B)(i),

the plan sponsor shall implement the default schedule described in the last sentence of paragraph (1) beginning on the date specified in clause (ii).

``(ii) Date of implementation.--The date specified in this clause is the earlier of the date--

``(I) on which the Secretary of Labor certifies that the parties are at an impasse, or

``(II) which is 180 days after the date on which the collective bargaining agreement described in clause (i) expires.

``(4) Rehabilitation period.--For purposes of this section--

``(A) In general.--The rehabilitation period for a plan in critical status is the 10-year period beginning on the first day of the first plan year of the multiemployer plan following the earlier of--

``(i) the second anniversary of the date of the adoption of the rehabilitation plan, or

``(ii) the expiration of the collective bargaining agreements in effect on the date of the due date for the actuarial certification of critical status for the initial critical year under subsection (a)(1) and covering, as of such date at least 75 percent of the active participants in such multiemployer plan.

If a plan emerges from critical status as provided under subparagraph (B) before the end of such 10-year period, the rehabilitation period shall end with the plan year preceding the plan year for which the determination under subparagraph (B) is made.

``(B) Emergence.--A plan in critical status shall remain in such status until a plan year for which the plan actuary certifies, in accordance with subsection (b)(3)(A), that the plan is not projected to have an accumulated funding deficiency for the plan year or any of the 9 succeeding plan years, without regard to the use of the shortfall method and taking into account any extension of amortization periods under section 431(d).

``(5) Rehabilitation plan adoption period.--For purposes of

this section, the term `rehabilitation plan adoption period' means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial critical year and ending on the day before the first day of the rehabilitation period.

``(6) Limitation on reduction in rates of future accruals.--Any reduction in the rate of future accruals under the default schedule described in paragraph (1)(B)(i) shall not reduce the rate of future accruals below--

``(A) a monthly benefit (payable as a single life annuity commencing at the participant's normal retirement age) equal to 1 percent of the contributions required to be made with respect to a participant, or the equivalent standard accrual rate for a participant or group of participants under the collective bargaining agreements in effect as of the first day of the initial critical year, or

``(B) if lower, the accrual rate under the plan on such first day.

The equivalent standard accrual rate shall be determined by the plan sponsor based on the standard or average contribution base units which the plan sponsor determines to be representative for active participants and such other factors as the plan sponsor determines to be relevant. Nothing in this paragraph shall be construed as limiting the ability of the plan sponsor to prepare and provide the bargaining parties with alternative schedules to the default schedule that established lower or higher accrual and contribution rates than the rates otherwise described in this paragraph.

``(7) Automatic employer surcharge.--

``(A) Imposition of surcharge.--Each employer otherwise obligated to make a contribution for the initial critical year shall be obligated to pay to the plan for such year a surcharge equal to 5 percent of the contribution otherwise required under the applicable collective bargaining agreement (or other agreement pursuant to which the employer contributes). For each succeeding plan year in which the plan is in critical status for a consecutive period of years beginning with the initial critical year, the surcharge shall be 10 percent of the contribution otherwise so required.

``(B) Enforcement of surcharge.--The surcharges under subparagraph (A) shall be due and payable on the same schedule as the contributions on which the surcharges are based. Any failure to make a surcharge payment shall be treated as a delinquent contribution under section 515 of the Employee Retirement Income Security Act of 1974 and shall be enforceable as such.

``(C) Surcharge to terminate upon collective bargaining agreement renegotiation.--
The surcharge under this
paragraph shall cease to be effective with respect to employees covered by a collective bargaining agreement (or other agreement pursuant to which the employer contributes), beginning on the effective date of a collective bargaining agreement (or other such agreement) that includes terms consistent with a schedule presented by the plan sponsor under paragraph (1)(B)(i), as modified under subparagraph (B) of paragraph (3).

``(D) Surcharge not to apply until employer receives notice.--The surcharge under
this paragraph shall not apply to an employer until 30 days after the employer has been notified by the plan sponsor that the plan is in critical status and that the surcharge is in effect.

``(E) Surcharge not to generate increased benefit accruals.--Notwithstanding any provision of a plan to the contrary, the amount of any surcharge under this paragraph shall not be the basis for any benefit accrual under the plan.

``(8) Benefit adjustments.--

``(A) Adjustable benefits.--

``(i) In general.--Notwithstanding section 204(g), the plan sponsor shall, subject to the notice requirement under subparagraph (C), make any reductions to adjustable benefits which the plan sponsor deems appropriate, based upon the outcome of collective bargaining over the schedule or schedules provided under paragraph (1)(B)(i).

``(ii) Exception for retirees.--Except in the case of adjustable benefits described in clause

(iv)(III), the plan sponsor of a plan in critical status shall not reduce adjustable benefits of any participant or beneficiary whose benefit commencement date is before the date on which the plan provides notice to the participant or beneficiary under subsection (b)(3)(D) for the initial critical year.

``(iii) Plan sponsor flexibility.--The plan sponsor shall include in the schedules provided to the bargaining parties an allowance for funding the benefits of participants with respect to whom contributions are not currently required to be made, and shall reduce their benefits to the extent permitted under this title and considered appropriate by the plan sponsor based on the plan's then current overall funding status.

``(iv) Adjustable benefit defined.--For purposes of this paragraph, the term `adjustable benefit' means--

``(I) benefits, rights, and features under the plan, including post-retirement death benefits, 60-month guarantees, disability benefits not yet in pay status, and similar benefits,

``(II) any early retirement benefit or retirement-type subsidy (within the meaning of section 411(d)(6)(B)(i)) and any benefit payment option (other than the qualified joint and survivor annuity), and

``(III) benefit increases that would not be eligible for a guarantee under section 4022A of the Employee Retirement Income Security Act of 1974 on the first day of initial critical year because the increases were adopted (or, if later, took effect) less than 60 months before such first day.

``(B) Normal retirement benefits protected.--Except as provided in subparagraph (A)(iv)(III), nothing in this paragraph shall be construed to permit a plan to reduce the level of a participant's accrued benefit payable at normal retirement age.

``(C) Notice requirements.--

``(i) In general.--No reduction may be made to adjustable benefits under subparagraph (A) unless notice of such reduction has been given at least 30 days before the general effective date of such reduction for all participants and beneficiaries to--

``(I) plan participants and beneficiaries,

``(II) each employer who has an obligation to contribute (within the meaning of section 4212(a)) under the plan, and

``(III) each employee organization which, for purposes of collective bargaining, represents plan participants employed by such an employer.

``(ii) Content of notice.--The notice under clause (i) shall contain--

``(I) sufficient information to enable participants and beneficiaries to understand the effect of any reduction on their benefits, including an estimate (on an annual or monthly basis) of any affected adjustable benefit that a participant or beneficiary would otherwise have been eligible for as of the general effective date described in clause (i), and

``(II) information as to the rights and remedies of plan participants and beneficiaries as well as how to contact the Department of Labor for further information and assistance where appropriate.

``(iii) Form and manner.--Any notice under clause (i)--

``(I) shall be provided in a form and manner prescribed in regulations of

the Secretary of Labor,
``(II) shall be written in a manner so as to be understood by the average plan participant, and
``(III) may be provided in written, electronic, or other appropriate form to the extent such form is reasonably accessible to persons to whom the notice is required to be provided.

The Secretary of Labor shall in the regulations prescribed under subclause (I) establish a model notice that a plan sponsor may use to meet the requirements of this subparagraph.

``(9) Adjustments disregarded in withdrawal liability determination.--

``(A) Benefit reductions.--Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201 of the Employee Retirement Income Security Act of 1974.

``(B) Surcharges.--Any surcharges under paragraph (7) shall be disregarded in determining an employer's withdrawal liability under section 4211 of such Act, except for purposes of determining the unfunded vested benefits attributable to an employer under section 4211(c)(4) of such Act or a comparable method approved under section 4211(c)(5) of such Act.

``(C) Simplified calculations.--
The Pension Benefit Guaranty
Corporation shall prescribe simplified methods for the application of this paragraph in determining withdrawal liability.

``(f) Rules for Operation of Plan During Adoption and Rehabilitation Period.--

``(1) Compliance with rehabilitation plan.--

``(A) In general.--A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to be inconsistent with the rehabilitation plan.

``(B) Special rules for benefit increases.--A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to increase benefits, including future benefit accruals, unless the plan actuary certifies that such increase is paid for out of additional contributions not contemplated by the rehabilitation plan, and, after taking into account the benefit increase, the multiemployer plan still is reasonably expected to emerge from critical status by the end of the rehabilitation period on the schedule contemplated in the rehabilitation plan.

``(2) Restriction on lump sums and similar benefits.--

``(A) In general.--Effective on the date the notice of certification of the
plan's critical status for the initial critical year under subsection (b)(3)(D) is sent, and notwithstanding section 411(d)(6), the plan shall not pay--

``(i) any payment, in excess of the monthly amount paid under a single life annuity (plus any social security supplements described in the last sentence of section 411(b)(1)(A)),

``(ii) any payment for the purchase of an irrevocable commitment from an insurer to pay benefits, and

``(iii) any other payment specified by the Secretary by regulations.

``(B) Exception.--Subparagraph (A) shall not apply to a benefit which under section 411(a)(11) may be immediately distributed without the consent of the participant or to any makeup payment in the case of a retroactive annuity starting date or any similar payment of benefits owed with respect to a prior period.

``(3) Adjustments disregarded in withdrawal liability determination.--Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201 of the Employee Retirement Income Security Act of 1974.

``(4) Special rules for plan adoption period.--During the rehabilitation plan adoption period--

``(A) the plan sponsor may not accept a collective

bargaining agreement or participation agreement with respect to the multiemployer plan that provides for--

``(i) a reduction in the level of contributions for any participants,

``(ii) a suspension of contributions with respect to any period of service, or

``(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation, and

``(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 or to comply with other applicable law.

``(g) Expedited Resolution of Plan Sponsor Decisions.--If, within 60 days of the due date for adoption of a funding improvement plan or a rehabilitation plan under subsection (e), the plan sponsor of a plan in endangered status or a plan in critical status has not agreed on a funding improvement plan or rehabilitation plan, then any member of the board or group that constitutes the plan sponsor may require that the plan sponsor enter into an expedited dispute resolution procedure for the development and adoption of a funding improvement plan or rehabilitation plan.

``(h) Nonbargained Participation.--

``(1) Both bargained and nonbargained employee-participants.--In the case of an employer that contributes to a multiemployer plan with respect to both employees who are covered by one or more collective bargaining agreements and employees who are not so covered, if the plan is in endangered status or in critical status, benefits of and contributions for the nonbargained employees, including surcharges on those contributions, shall be determined as if those nonbargained employees were covered under the first to expire of the employer's collective bargaining agreements in effect when the plan entered endangered or critical status.

``(2) Nonbargained employees only.--In the case of an employer that contributes to a multiemployer plan only with respect to employees who are not covered by a collective bargaining agreement, this section shall be applied as if the employer were the bargaining party, and its participation agreement with the plan were a collective bargaining agreement with a term ending on the first day of the plan year beginning after the employer is provided the schedule or schedules described in subsections (c) and (e).

``(i) Definitions; Actuarial Method.--For purposes of this section--

``(1) Bargaining party.--The term `bargaining party' means--

``(A)(i) except as provided in clause (ii), an employer who has an obligation to contribute under the plan; or

``(ii) in the case of a plan described under section 404(c), or a continuation of such a plan, the association of employers that is the employer settlor of the plan; and

``(B) an employee organization which, for purposes of collective bargaining, represents plan participants employed by an employer who has an obligation to contribute under the plan.

``(2) Funded percentage.--The term `funded percentage' means the percentage equal to a fraction--

``(A) the numerator of which is the value of the plan's assets, as determined under section 431(c)(2), and

``(B) the denominator of which is the accrued liability of the plan, determined using actuarial assumptions described in section 431(c)(3).

``(3) Accumulated funding deficiency.--The term `accumulated funding deficiency' has the meaning given such term in section 412(a).

``(4) Active participant.--The term `active participant' means, in connection with a multiemployer plan, a participant who is in covered service under the plan.

``(5) Inactive participant.--The term `inactive participant' means, in connection with a multiemployer plan, a participant, or the beneficiary or alternate payee of a participant, who--

``(A) is not in covered service under the plan, and

``(B) is in pay status under the plan or has a nonforfeitable right to benefits under the plan.

``(6) Pay status.--A person is in pay status under a multiemployer plan if--

``(A) at any time during the current plan year, such person is a participant or beneficiary under the plan and is paid an early, late, normal, or disability retirement benefit under the plan (or a death benefit under the plan related to a retirement benefit), or

``(B) to the extent provided in regulations of the Secretary, such person is entitled to such a benefit under the plan.

``(7) Obligation to contribute.--The term `obligation to contribute' has the meaning given such term under section 4212(a) of the Employee Retirement Income Security Act of 1974.

``(8) Actuarial method.--Notwithstanding any other provision of this section, the actuary's determinations with respect to a plan's normal cost, actuarial accrued liability, and improvements in a plan's funded percentage under this section shall be based upon the unit credit funding method (whether or not that method is used for the plan's actuarial valuation).

``(9) Plan sponsor.--In the case of a plan described under section 404(c), or a continuation of such a plan, the term `plan sponsor' means the bargaining parties described under paragraph (1).

``(10) Benefit commencement date.--The term `benefit commencement date' means the annuity starting date (or in the case of a retroactive annuity starting date, the date on which benefit payments begin).''

(b) Excise Taxes on Failures Relating to Multiemployer Plans in Endangered or Critical Status.--

(1) In general.--Section 4971 of the Internal Revenue Code of 1986 is amended by redesignating subsection (g) as subsection (h) and by inserting after subsection (f) the following:

``(g) Multiemployer Plans in Endangered or Critical Status.--

``(1) In general.--Except as provided in this subsection--

``(A) no tax shall be imposed under this section for a taxable year with respect to a multiemployer plan if, for the plan years ending with or within the taxable year, the plan is in critical status pursuant to section 432, and

``(B) any tax imposed under this subsection for a taxable year with respect to a multiemployer plan if, for the plan years ending with or within the taxable year, the plan is in endangered status pursuant to section 432 shall be in addition to any other tax imposed by this section.

``(2) Failure to comply with funding improvement or rehabilitation plan.--

``(A) In general.--If any funding improvement plan or rehabilitation plan in effect under section 432 with respect to a multiemployer plan requires an employer to make a contribution to the plan, there is hereby imposed a tax on each failure of the employer to make the required contribution within the time required under such plan.

``(B) Amount of tax.--The amount of the tax imposed by subparagraph (A) shall be equal to the amount of the required contribution the employer failed to make in a timely manner.

``(C) Liability for tax.--The tax imposed by subparagraph (A) shall be paid by the employer responsible for contributing to or under the rehabilitation plan which fails to make the contribution.

``(3) Failure to meet requirements for plans in endangered or critical status.--If--

``(A) a plan which is in seriously endangered status fails to meet the applicable benchmarks by the end of the funding improvement period, or

``(B) a plan which is in critical status either--

``(i) fails to meet the requirements of section 432(e) by the end of the rehabilitation period, or

``(ii) has received a certification under section 432(b)(3)(A)(ii) for 3 consecutive plan years that the plan is not making the scheduled progress in meeting its requirements under the rehabilitation plan,

the plan shall be treated as having an accumulated funding deficiency for purposes of this section for the last plan year in such funding improvement, rehabilitation, or 3-consecutive year period (and each succeeding plan year until such benchmarks or requirements are met) in an amount equal to the greater

of the amount of the contributions necessary to meet such benchmarks or requirements or the amount of such accumulated funding deficiency without regard to this paragraph.

``(4) Failure to adopt rehabilitation plan.--

``(A) In general.--In the case of a multiemployer plan which is in critical status, there is hereby imposed a tax on the failure of such plan to adopt a rehabilitation plan within the time prescribed under section 432.

``(B) Amount of tax.--The amount of the tax imposed under subparagraph (A) with respect to any plan sponsor for any taxable year shall be the greater of--

``(i) the amount of tax imposed under subsection (a) for the taxable year (determined without regard to this subsection), or

``(ii) the amount equal to $1,100 multiplied by the number of days during the taxable year which are included in the period beginning on the first day of the 240-day period described in section 432(e)(1)(A) and ending on the day on which the rehabilitation plan is adopted.

``(C) Liability for tax.--

``(i) In general.--The tax imposed by subparagraph (A) shall be paid by each plan sponsor.

``(ii) Plan sponsor.--For purposes of clause (i), the term `plan sponsor' in the case of a multiemployer plan means the association, committee, joint board of trustees, or other similar group of representatives of the parties who establish or maintain the plan.

``(5) Waiver.--In the case of a failure described in paragraph (2) or (3) which is due to reasonable cause and not to willful neglect, the Secretary may waive part or all of the tax imposed by this subsection. For purposes of this paragraph, reasonable cause includes unanticipated and material market fluctuations, the loss of a significant contributing employer, or other factors to the extent that the payment of tax under this subsection with respect to the failure would be excessive or otherwise inequitable relative to the failure involved.

``(6) Terms used in section 432.--For purposes of this subsection, any term used in this subsection which is also used in section 432 shall have the meaning given such term by section 432.''.

(2) Controlled groups.--Section 4971(c)(2) of such Code is amended--

(A) by striking ``In the case of a plan other than a multiemployer plan, if the'' and inserting ``If an'', and

(B) by striking ``or (f)'' and inserting ``(f), or (g)''.

(c) No Additional Contribution Required.--Section 412(b) of the Internal Revenue Code of 1986, as amended by this Act, is amended by adding at the end the following new paragraph:

``(3) Multiemployer plans in critical status.--Paragraph (1) shall not apply in the case of a multiemployer plan for any plan year in which the plan is in critical status pursuant to section 432. This paragraph shall only apply if the plan adopts a rehabilitation plan in accordance with section 432(e) and complies with such rehabilitation plan (and any modifications of the plan).''.

(d) Clerical Amendment.--The table of sections for subpart A of part III of subchapter D of chapter 1 of such Code is amended by adding at the end the following new item:

``Sec. 432. Additional funding rules for multiemployer plans in endangered status or critical status.''.

(e) Effective Dates.--

(1) In general.--The amendments made by this section shall apply with respect to plan years beginning after 2007.

(1) have the rules of subsection (b) apply, or

(2) have section 303 of the Employee Retirement Income Security Act of 1974 and section 430 of the Internal Revenue Code of 1986 applied to its first taxable year beginning in 2008 by amortizing the shortfall amortization base for such taxable year over a period of 10 plan years (rather than 7 plan years) beginning with such plan year.

(b) Alternative Funding Schedule.--

(1) In general.--If an election is made under subsection (a)(1) to have this subsection apply to an eligible plan and the requirements of paragraphs (2) and (3) are met with respect to the plan--

(A) in the case of any applicable plan year beginning before January 1, 2008, the plan shall not have an accumulated funding deficiency for purposes of section 302 of the Employee Retirement Income Security Act of 1974 and sections 412 and 4971 of the Internal Revenue Code of 1986 if contributions to the plan for the plan year are not less than the minimum required contribution determined under subsection (e) for the plan for the plan year, and

(B) in the case of any applicable plan year beginning on or after January 1, 2008, the minimum required contribution determined under sections 303 of such Act and 430 of such Code shall, for purposes of sections 302 and 303 of such Act and sections 412, 430, and 4971 of such Code, be equal to the minimum required contribution determined under subsection (e) for the plan for the plan year.

(B) Increases in section 415 limits.--If a plan provides that an accrued benefit of a participant which has been subject to any limitation under section 415 of such Code will be increased if such limitation is increased, the plan shall not be treated as meeting the requirements of this section unless, effective as of the first day of the first applicable plan year (or, if later, the date of the enactment of this Act) and at all

times thereafter while an election under this section is in effect, the plan provides that any such increase shall not take effect. A plan shall not fail to meet the requirements of section 411(d)(6) of such Code and section 204(g) of such Act solely because the plan is amended to meet the requirements of this subparagraph.

(4) Exception for imputed disability service.--Paragraphs (2) and (3) shall not apply to any accrual or increase with respect to imputed service provided to a participant during any period of the participant's disability occurring on or after the effective date of the plan amendment providing the restrictions under paragraph (2) (or on or after July 26, 2005, in the case of the restrictions under paragraph (3)) if the partici- pant--

(B) was receiving sick pay and subsequently determined to be eligible for disability benefits as of such date.

(c) Definitions.--For purposes of this section--

(1) Eligible plan.--The term ``eligible plan'' means a defined benefit plan (other than a multiemployer plan) to which sections 302 of such Act and 412 of such Code applies which is sponsored by an employer--

(C) Election of new plan year for alternative funding schedule.--In the case of an election under subsection (a)(1), the plan sponsor may specify a new plan year in such election and the plan year of the plan may be changed to such new plan year without the approval of the Secretary of the Treasury.

(2) Manner of election.--A plan sponsor shall make any election under subsection (a) in such manner as the Secretary of the Treasury may prescribe. Such election, once made, may be revoked only with the consent of such Secretary.

(e) Minimum Required Contribution.--In the case of an eligible plan with respect to which an election is made under subsection (a)(1)--

(1) In general.--In the case of any applicable plan year during the amortization period, the minimum required contribution shall be the amount necessary to amortize the unfunded liability of the plan, determined as of the first day of the plan year, in equal annual installments (until fully

amortized) over the remainder of the amortization period. Such amount shall be separately determined for each applicable plan year.

(2) Years after amortization period.--In the case of any plan year beginning after the end of the amortization period, section 302(a)(2)(A) of such Act and section 412(a)(2)(A) of such Code shall apply to such plan, but the prefunding balance and funding standard carryover balance as of the first day of the first of such years under section 303(f) of such Act and section 430(f) of such Code shall be zero.

(A) any applicable plan year includes the date of the enactment of this Act,

(B) a plan was spun off from the eligible plan during the plan year but before such date of enactment,

the minimum required contribution under paragraph (1) for the eligible plan for such applicable plan year shall be an aggregate amount determined as if the plans were a single plan for that plan year (based on the full 12-month plan year in effect prior to the spin-off). The employer shall designate the allocation of such aggregate amount between such plans for the applicable plan year.

(f) Special Rules for Certain Balances and Waivers.--In the case of an eligible plan with respect to which an election is made under subsection (a)(1)--

(1) Funding standard account and credit balances.--Any charge or credit in the funding standard account under section 302 of such Act or section 412 of such Code, and any prefunding balance or funding standard carryover balance under section 303 of such Act or section 430 of such Code, as of the day before the first day of the first applicable plan year, shall be reduced to zero.

In the case of a plan amendment adopted to satisfy the requirements of subsection (b)(2), the plan shall not be deemed to violate section 304(b) of such Act or section 412(f) of such Code, as so in effect, by reason of such amendment or any increase in benefits provided to such plan's participants under a separate plan that is a defined contribution plan or a multiemployer plan.

(g) Other Rules for Plans Making Election Under This Section.--

(1) Successor plans to certain plans.--If--

(A) an election under paragraph (1) or (2) of subsection (a) is in effect with respect to any eligible plan, and

(B) the eligible plan is maintained by an employer that establishes or maintains 1 or more other defined benefit plans (other than any multiemployer plan), and such other plans in combination provide benefit accruals to any substantial number of successor employees,

the Secretary of the Treasury may, in the Secretary's discretion, determine that any trust of which any other such plan is a part does not constitute a qualified trust under section 401(a) of the Internal Revenue Code of 1986 unless all benefit obligations of the eligible plan have been satisfied. For purposes of this paragraph, the term ``successor employee'' means any employee who is or was covered by the eligible plan

and any employees who perform substantially the same type of work with respect to the same business operations as an employee covered by such eligible plan.

(2) Special rules for terminations.--

Subparagraph (B) shall not apply in the case of a plan which provides contributions or benefits for employees whose principal duties are not customarily performed aboard an aircraft in flight (other than management pilots described in the preceding sentence).''

(2) Effective date.--The amendment made by this subsection shall apply to years beginning before, on, or after the date of the enactment of this Act.

(i) Extension of Special Rule for Additional Funding Requirements.--In the case of an employer which is a commercial passenger airline,

``(10) Exemption for plan sponsor and certain other fiduciaries.--

``(A) In general.--Subject to subparagraph (B), a plan sponsor or other person who is a fiduciary (other than a fiduciary adviser) shall not be treated as

TITLE VII--BENEFIT ACCRUAL STANDARDS

SEC. 701. BENEFIT ACCRUAL STANDARDS.

(a) Amendments to the Employee Retirement Income Security Act of 1974.--

(1) Rules relating to reduction in rate of benefit accrual.--Section 204(b) of the Employee Retirement Income

Security Act of 1974 (29 U.S.C. 1054(b)) is amended by adding at the end the following new paragraph:

``(5) Special rules relating to age.--

``(A) Comparison to similarly situated younger individual.--

``(i) In general.--A plan shall not be treated as failing to meet the requirements of paragraph (1)(H)(i) if a participant's accrued benefit, as determined as of any date under the terms of the plan, would be equal to or greater than that of any similarly situated, younger individual who is or could be a participant.

``(ii) Similarly situated.--For purposes of this subparagraph, a participant is similarly situated to any other individual if such participant is identical to such other individual in every respect (including period of service, compensation, position, date of hire, work history, and any other respect) except for age.

``(iii) Disregard of subsidized early retirement benefits.--In determining the accrued benefit as of any date for purposes of this clause, the subsidized portion of any early retirement benefit or retirement-type subsidy shall be disregarded.

``(iv) Accrued benefit.--For purposes of this subparagraph, the accrued benefit may, under the terms of the plan, be expressed as an annuity payable at normal retirement age, the balance of a hypothetical account, or the current value of the accumulated percentage of the employee's final average compensation.

``(B) Applicable defined benefit plans.--

``(i) Interest credits.--

``(I) In general.--An applicable defined benefit plan shall be treated as failing to meet the requirements of paragraph (1)(H) unless the terms of the plan provide that any interest credit (or an equivalent amount) for any plan year shall be at a rate which is not greater than a market rate of return. A plan shall not be treated as failing to meet the requirements of this subclause merely because the plan provides for a reasonable minimum guaranteed rate of return or for a rate of return that is equal to the greater of a fixed or variable rate of return.

``(II) Preservation of capital.--An interest credit (or an equivalent amount) of less than zero shall in no event result in the account balance or similar amount being less than the aggregate amount of contributions credited to the account.

``(III) Market rate of return.--The Secretary of the Treasury may provide by regulation for rules governing the calculation of a market rate of return for purposes of subclause (I) and for permissible methods of crediting interest to the account (including fixed or variable interest rates) resulting in effective rates of return meeting the requirements of subclause (I).

``(ii) Special rule for plan conversions.--If, after June 29, 2005, an applicable plan amendment is adopted, the plan shall be treated as failing to meet the requirements of paragraph (1)(H) unless the requirements of clause (iii) are met with respect to each individual who was a participant in the plan immediately before the adoption of the amendment.

``(iii) Rate of benefit accrual.--Subject to clause (iv), the requirements of this clause are met with respect to any participant if the accrued benefit of the participant under the terms of the plan as in effect after the amendment is not less than the sum of--

``(I) the participant's accrued benefit for years of service before the

effective date of the amendment,
determined under the terms of the plan
as in effect before the amendment, plus
``(II) the participant's accrued
benefit for years of service after the
effective date of the amendment,
determined under the terms of the plan
as in effect after the amendment.
``(iv) Special rules for early retirement
subsidies.--For purposes of clause (iii)(I), the
plan shall credit the accumulation account or
similar amount with the amount of any early
retirement benefit or retirement-type subsidy for
the plan year in which the participant retires if,
as of such time, the participant has met the age,
years of service, and other requirements under the
plan for entitlement to such benefit or subsidy.
``(v) Applicable plan amendment.--For purposes
of this subparagraph--
``(I) In general.--The term
`applicable plan amendment' means an
amendment to a defined benefit plan
which has the effect of converting the
plan to an applicable defined benefit
plan.
``(II) Special rule for coordinated
benefits.--If the benefits of 2 or more
defined benefit plans established or
maintained by an employer are
coordinated in such a manner as to have
the effect of the adoption of an
amendment described in subclause (I),
the sponsor of the defined benefit plan
or plans providing for such coordination
shall be treated as having adopted such
a plan amendment as of the date such
coordination begins.
``(III) Multiple amendments.--
The Secretary of
the Treasury shall issue regulations to
prevent the avoidance of the purposes of
this subparagraph
through the use of 2 or more plan
amendments rather than a single
amendment.
``(IV) Applicable defined benefit
plan.--For purposes of this
subparagraph, the term `applicable
defined benefit plan' has the meaning
given such term by section 203(f)(3).
``(vi) Termination requirements.--An
applicable defined benefit plan shall not be
treated as meeting the requirements of clause (i)
unless the plan provides that, upon the
termination of the plan--
``(I) if the interest credit rate
(or an equivalent amount) under the plan
is a variable rate, the rate of interest
used to determine accrued benefits under
the plan shall be equal to the average
of the rates of interest used under the
plan during the 5-year period ending on
the termination date, and
``(II) the interest rate and
mortality table used to determine the
amount of any benefit under the plan
payable in the form of an annuity
payable at normal retirement age shall
be the rate and table specified under
the plan for such purpose as of the
termination date, except that if such
interest rate is a variable rate, the
interest rate shall be determined under
the rules of subclause (I).
``(C) Certain offsets permitted.--A plan shall not
be treated as failing to meet the requirements of
paragraph (1)(H)(i) solely because the plan provides
offsets against benefits under the plan to the extent
such offsets are allowable in applying the requirements
of section 401(a) of the Internal Revenue Code of 1986.
``(D) Permitted disparities in plan contributions or
benefits.--A plan shall not be treated as failing to

meet the requirements of paragraph (1)(H) solely because the plan provides a disparity in contributions or benefits with respect to which the requirements of section 401(l) of the Internal Revenue Code of 1986 are met.

``(E) Indexing permitted.--

``(i) In general.--A plan shall not be treated as failing to meet the requirements of paragraph (1)(H) solely because the plan provides for indexing of accrued benefits under the plan.

``(ii) Protection against loss.--Except in the case of any benefit provided in the form of a variable annuity, clause (i) shall not apply with respect to any indexing which results in an accrued benefit less than the accrued benefit determined without regard to such indexing.

``(iii) Indexing.--For purposes of this subparagraph, the term `indexing' means, in connection with an accrued benefit, the periodic adjustment of the accrued benefit by means of the application of a recognized investment index or methodology.

``(F) Early retirement benefit or retirement-type subsidy.--For purposes of this paragraph, the terms `early retirement benefit' and `retirement-type subsidy' have the meaning given such terms in subsection (g)(2)(A).

``(G) Benefit accrued to date.--For purposes of this paragraph, any reference to the accrued benefit shall be a reference to such benefit accrued to date.''.

(2) Determinations of accrued benefit as balance of benefit account or equivalent amounts.--Section 203 of such Act (29 U.S.C. 1053) is amended by adding at the end the following new subsection:

``(f) Special Rules for Plans Computing Accrued Benefits by Reference to Hypothetical Account Balance or Equivalent Amounts.--

``(1) In general.--An applicable defined benefit plan shall not be treated as failing to meet--

``(A) subject to paragraph (2), the requirements of subsection (a)(2), or

``(B) the requirements of section 204(c) or section 205(g) with respect to contributions other than employee contributions,

solely because the present value of the accrued benefit (or any portion thereof) of any participant is, under the terms of the plan, equal to the amount expressed as the balance in the hypothetical account described in paragraph (3) or as an accumulated percentage of the participant's final average compensation.

``(2) 3-year vesting.--In the case of an applicable defined benefit plan, such plan shall be treated as meeting the requirements of subsection (a)(2) only if an employee who has completed at least 3 years of service has a nonforfeitable right to 100 percent of the employee's accrued benefit derived from employer contributions.

``(3) Applicable defined benefit plan and related rules.--For purposes of this subsection--

``(A) In general.--The term `applicable defined benefit plan' means a defined benefit plan under which the accrued benefit (or any portion thereof) is calculated as the balance of a hypothetical account maintained for the participant or as an accumulated percentage of the participant's final average compensation.

``(B) Regulations to include similar plans.--The Secretary of the Treasury shall issue regulations which include in the definition of an applicable defined benefit plan any defined benefit plan (or any portion of such a plan) which has an effect similar to an applicable defined benefit plan.''.

(b) Amendments to the Internal Revenue Code of 1986.--

(1) Rules relating to reduction in rate of benefit accrual.--Subsection (b) of section 411 of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

``(5) Special rules relating to age.--

``(A) Comparison to similarly situated younger individual.--

``(i) In general.--A plan shall not be treated as failing to meet the requirements of paragraph (1)(H)(i) if a participant's accrued benefit, as determined as of any date under the terms of the

plan, would be
equal to or greater than that of any similarly situated, younger individual who is or could be a participant.

``(iii) Rate of benefit accrual.--Subject to clause (iv), the requirements of this clause are met with respect to any participant if the accrued benefit of
the participant under the terms of the plan as in effect after the amendment is not less than the sum of--

``(I) the participant's accrued benefit for years of service before the effective date of the amendment, determined under the terms of the plan as in effect before the amendment, plus

``(II) the participant's accrued benefit for years of service after the effective date of the amendment, determined under the terms of the plan

as in effect after the amendment.
``(iv) Special rules for early retirement subsidies.--For purposes of clause (iii)(I), the plan shall credit the accumulation account or similar amount with the amount of any early retirement benefit or retirement-type subsidy for the plan year in which the participant retires if, as of such time, the participant has met the age, years of service, and other requirements under the plan for entitlement to such benefit or subsidy.

``(f) Qualified Transfers To Cover Future Retiree Health Costs and Collectively Bargained Retiree Health Benefits.--

``(1) In general.--An employer maintaining a defined benefit plan (other than a multiemployer plan) may, in lieu of a qualified transfer, elect for any taxable year to have the plan make--
``(A) a qualified future transfer, or
``(B) a collectively bargained transfer.
Except as provided in this subsection, a qualified future transfer and a collectively bargained transfer shall be treated for purposes of this title and the Employee Retirement Income Security Act of 1974 as if it were a qualified transfer.

``(2) Qualified future and collectively bargained transfers.--For purposes of this subsection--
``(A) In general.--The terms `qualified future transfer' and `collectively bargained transfer' mean a transfer which meets all of the requirements for a qualified transfer, except that--
``(i) the determination of excess pension assets shall be made under subparagraph (B),
``(ii) the limitation on the amount transferred shall be determined under subparagraph (C),
``(iii) the minimum cost requirements of subsection (c)(3) shall be modified as provided under subparagraph (D), and
``(iv) in the case of a collectively bargained transfer, the requirements of subparagraph (E) shall be met with respect to the transfer.

``(B) Excess pension assets.--
``(i) In general.--In determining excess pension assets for purposes of this subsection, subsection (e)(2) shall be applied by substituting `120 percent' for `125 percent'.
``(ii) Requirement to maintain funded status.--If, as of any valuation date of any plan year in the transfer period, the amount determined under subsection (e)(2)(B) (after application of clause (i)) exceeds the amount determined under subsection (e)(2)(A), either--
``(I) the employer maintaining the plan shall make contributions to the plan in an amount not less than the amount required to reduce such excess to zero as of such date, or
``(II) there is transferred from the health benefits account to the plan an amount not less than the amount required to reduce such excess to zero as of such date.
``(C) Limitation on amount transferred.--Notwithstanding subsection (b)(3), the amount of the excess pension assets which may be transferred--
``(i) in the case of a qualified future transfer shall be equal to the sum of--
``(I) if the transfer period includes the taxable year of the transfer, the amount determined under subsection (b)(3) for such taxable year, plus
``(II) in the case of all other taxable years in the transfer period, the sum of the qualified current retiree health liabilities which the plan reasonably estimates, in accordance with guidance issued by the Secretary, will be incurred for each of such years, and
``(ii) in the case of a collectively bargained transfer, shall not exceed the amount which is reasonably estimated, in accordance with the provisions of the collective bargaining agreement and generally accepted accounting principles, to be the amount the employer maintaining the plan will pay (whether directly or through reimbursement) out of such account during the collectively bargained cost maintenance period for collectively bargained retiree health liabilities.
``(D) Minimum cost requirements.--
``(i) In general.--The requirements of subsection (c)(3) shall be treated as met if--
``(I) in the case of a qualified future transfer, each group health plan or arrangement under which applicable health benefits are provided provides applicable health benefits during the period beginning with the first year of the transfer period and ending with the last day of the 4th year following the transfer period such that the annual average amount of such the applicable employer cost during such period is not less than the applicable employer cost determined under subsection (c)(3)(A) with respect to the transfer, and
``(II) in the case of a collectively bargained transfer, each collectively bargained group health plan under which collectively bargained health benefits are provided provides that the collectively bargained employer cost for each taxable year during the collectively bargained cost maintenance period shall not be less than the amount specified by the collective bargaining agreement.
``(ii) Election to maintain benefits for future transfers.--An employer may elect, in lieu of the requirements of clause (i)(I), to meet the requirements of subsection (c)(3) by meeting the requirements of such subsection (as in effect before the amendments made by section 535 of the

Tax Relief Extension Act of 1999) for each of the
years described in the period under clause (i)(I).
``(iii) Collectively bargained employer
cost.--For purposes of this subparagraph, the term
`collectively bargained employer cost' means the
average cost
per covered individual of providing collectively
bargained retiree health benefits as determined in

government program or other source.
``(E) Special rules for collectively bargained
transfers.--
``(i) In general.--A collectively bargained
transfer shall only include a transfer which--
``(I) is made in accordance with a
collective bargaining agreement,
``(II) before the transfer, the
employer designates, in a written notice
delivered to each employee organization
that is a party to the collective
bargaining agreement, as a collectively
bargained transfer in accordance with
this section, and
``(III) involves a plan maintained
by an employer which, in its taxable
year ending in 2005, provided health
benefits or coverage to retirees and
their spouses and dependents under all
of the benefit plans maintained by the
employer, but only if the aggregate cost
(including administrative expenses) of
such benefits or coverage which would
have been allowable as a deduction to
the employer (if such benefits or
coverage had been provided directly by
the employer and the employer used the
cash receipts and disbursements method
of accounting) is at least 5 percent of
the gross receipts of the employer
(determined in accordance with the last
sentence of subsection
(c)(2)(E)(ii)(II)) for such taxable
year, or a plan maintained by a
successor to such employer.
``(ii) Use of assets.--Any assets transferred
to a health benefits account in a collectively
bargained transfer (and any income allocable
thereto) shall be used only to pay collectively
bargained retiree health liabilities (other than
liabilities of key employees not taken into
account under paragraph (6)(B)(iii)) for the
taxable year of the transfer or for any subsequent
taxable year during the collectively bargained
cost maintenance period (whether directly or
through reimbursement).
``(3) Coordination with other transfers.--In applying
subsection (b)(3) to any subsequent transfer during a taxable
year in a transfer period or collectively bargained cost
maintenance period, qualified current retiree health liabilities
shall be reduced by any such liabilities taken into account with
respect to the qualified future transfer or collectively
bargained transfer to which such period relates.
``(4) Special deduction rules for collectively bargained
transfers.--In the case of a collectively bargained transfer--
``(A) the limitation under subsection (d)(1)(C)
shall not apply, and
``(B) notwithstanding subsection (d)(2), an employer
may contribute an amount to a health benefits account or
welfare benefit fund (as defined in section 419(e)(1))
with respect to collectively bargained retiree health
liabilities for which transferred assets are required to
be used under subsection (c)(1)(B), and the
deductibility of any such contribution shall be governed
by the limits applicable to the deductibility of
contributions to a welfare benefit fund under a
collective bargaining agreement (as determined under
section 419A(f)(5)(A)) without regard to whether such

contributions are made to a health benefits account or welfare benefit fund and without regard to the provisions of section 404 or the other provisions of this section.

The Secretary shall provide rules to ensure that the application of this paragraph does not result in a deduction being allowed more than once for the same contribution or for 2 or more contributions or expenditures relating to the same collectively bargained retiree health liabilities.

``(5) Transfer period.--For purposes of this subsection, the term `transfer period' means, with respect to any transfer, a period of consecutive taxable years (not less than 2) specified in the election under paragraph (1) which begins and ends during the 10-taxable-year period beginning with the taxable year of the transfer.

``(6) Terms relating to collectively bargained transfers.--For purposes of this subsection--

``(A) Collectively bargained cost maintenance period.--The term `collectively bargained cost maintenance period' means, with respect to each covered retiree and his covered spouse and dependents, the shorter of--

``(i) the remaining lifetime of such covered retiree and his covered spouse and dependents, or

``(ii) the period of coverage provided by the collectively bargained health plan (determined as of the date of the collectively bargained transfer) with respect to such covered retiree and his covered spouse and dependents.

``(B) Collectively bargained retiree health liabilities.--

``(i) In general.--The term `collectively bargained retiree health liabilities' means the present value, as of the beginning of a taxable year and determined in accordance with the applicable collective bargaining agreement, of all collectively bargained health benefits (including administrative expenses) for such taxable year and all subsequent taxable years during the collectively bargained cost maintenance period.

``(ii) Reduction for amounts previously set aside.--The amount determined under clause (i) shall be reduced by the value (as of the close of the plan year preceding the year of the collectively bargained transfer) of the assets in all health benefits accounts or welfare benefit funds (as defined in section 419(e)(1)) set aside to pay for the collectively bargained retiree health liabilities.

``(iii) Key employees excluded.--If an employee is a key employee (within the meaning of section 416(I)(1)) with respect to any plan year ending in a taxable year, such employee shall not be taken into account in computing collectively bargained retiree health liabilities for such taxable year or in calculating collectively bargained employer cost under subsection (c)(3)(C).

``(C) Collectively bargained health benefits.--The term `collectively bargained health benefits' means health benefits or coverage which are provided to--

``(i) retired employees who, immediately before the collectively bargained transfer, are entitled to receive such benefits upon retirement and who are entitled to pension benefits under the plan, and their spouses and dependents, and

``(ii) if specified by the provisions of the collective bargaining agreement governing the collectively bargained transfer, active employees who, following their retirement, are entitled to receive such benefits and who are entitled to pension benefits under the plan, and their spouses and dependents.

``(D) Collectively bargained health plan.--The term `collectively bargained health plan' means a group health plan or arrangement for retired employees and their spouses and dependents that is maintained pursuant to 1 or more collective bargaining agreements.''.
